Good crowd at Mobeetie Tuesday night to watch Briscoe and Mobeetie High School and Junior High play volleyball. Mobeetie H.S. had only 5 players. Briscoe H.S. won both games. Sincere sympathy to the family of Boots Cook in his death.

Sincere sympathy to the family of Mrs. Velma Williams in her death.

Scrubbing bathtubs is not one of my favorite things to do. Amazing how a squirt or two of baby oil in your bath water can prevent bathtub ring and help prevent dry skin, too.

Also nice to have Possum Jahnel and Kyle come visit and Kyle stayed to play and go home with William to spend the night. Possum was teaching a sewing class at Sands Tuesday and would meet and pick Kyle up. Thanks, Don! Remember Homer and Margaret Sanders in your prayers. Chemo makes her pretty weak. Others going in the group were Shelly and Karla Murray and Brooke and Rhonda Stevens.

Did you see the full page about Reece Fields in the Sunday Pampa paper? There was a picture of Reece working and several of his sculptures. Briscoe Extension Homemakers Club Meets

On Sept. 29, 1989 the husbands, families and club members of the Briscoe Extension Homemakers Club met for their annual fish fry at the

home of Effie Renfro.

The club has had this event every year in the fall, hosted by Mrs. Renfro for approximately the past 17 years. Fish, chicken and onion rings have been fried in 2 big black wash pots heated over an open wood fire. Each member brings the rest of the meal to be shared by all.

It is a real joy to meet at Effie's home and eat out or in the little long house she had built to hold a big crowd. The evening was beautiful and the food and fellowship was superb. Those enjoying the outing were Elbert and Ruby Zybach, Clarence and Irene Zybach, J.P. and Martha Meek, Porter and Emma Rogers, Evelyn Meek, Katie Finsterwald, Essie Finsterwald, Donald and Charles Finsterwald, Mattie Jackson, Grady and Mary Dodd, Ray and Pat Hudson and grandson. Rex and Lucille Helton, Don and LaJuane Alexander, Lavelle Stephens, and the hostess Effie Renfro.

Extension Homemakers Clubs are open to people of all ages regardless of socio-economic level, race, color, sex, religion, handicaps or national origin.

MUSTANGS OPEN DISTRICT AGAINST GRUVER

The part of the football season that every team builds for gets its start this week for the Wheeler Mustangs when they travel to Gruver to play the Greyhounds in the district

opener for both clubs. The next two weeks are crucial for the Mustangs and their hopes for one of the two playoff spots in District 1-A. Both games are on the road and a

victory in both by the Mustangs could lead up to the game with the defending champs, the White Deer Bucks, in Wheeler. A loss wouldn't kill the Mustangs hopes but could put a big dent in them.

After two tough losses in non district competition, the Mustangs bring a 3-2 record into Friday night's fray against a Gruver team that sports a 1-3 record.

Gruver is expected to air the ball out against Wheeler as their offense has been built around the pass since the loss of their good running back prior to the season. Gruver likes to use the sprint out passing game from a

pro set alignment. Although Gruver has only scored 16 points in four games, their defense has been double tough. The Greyhounds have only allowed 49 points.

The Greyhounds run a 5-3 defensively and the Mustangs will have their work cut out for them moving the

CWE CHAT WITH EDITOR

By Louis C. Stas

I overheard some of the football fans discussing the lack of a game last Friday evening. Some were afraid they would suffer withdrawal and others were going to other high school games. They have some place to go this week; the game is in Gruver. This will be the first district game; **GOOD LUCK, TEAM.**

The Wheeler County 4-H Achievement Banquet was very enjoyable as usual and the youngsters receiving awards are to be congratulated for their year's accomplishments.

-cwe-

Ab, You were missed. I was really going to get onto you this week, but we received the letter Tuesday with two weeks worth of copy. Thank you, this will get the readers off my back.

-cwe-

We had one of those headlines to 'jump out at us' last week. 'Stampe' was misspelled. Of course this was not the first time, but we certainly hate for a headline to be missed. And in the story, we had the date wrong; Saturday and November were right. The event will be Saturday, November 18.

-cwe-

Liz and I traveled to Amarillo Fri. to meet the plane and bring Cathi home for the weekend. The first locals we met were the Clayton Neals; they were meeting their son and heading for the Texas Tech-A&M game.

-cwe-

One other couple waiting for the same delayed flight as us were members of the Meadows family. They were meeting one of his brothers, coming in for the family reunion Saturday in Briscoe. I failed to write the names down. I thought I could use the reunion story, but it didn't work.

-cwe-

When we arrived at home, Ronal Wayne, Juanita, Ronal and Jessica had already arrived from Sherman. The little ones were still up and waiting for us.

-cwe-

Cathi went shopping at Andies Saturday; she had been unable to find a pair of jeans that fit in Houston.

-cwe-

We had a very enjoyable weekend, it just didn't last long enough.

The Pee-Wee Bears up their record to 2-1 with a 22-0 win at Groom on Saturday.

The Bears took the opening kick-off and held the ball most of the first quarter. Jeremy Kenney scored the first touchdown on a 30 yard reverse. The extra point was good and the Bears led 8-0. The offense was again led by the running of Andy Francis and Jason Bradley, both gained over 60 yards rushing.

The Bears went to the air to move down the field and scored their second touchdown. Jason Porton completed two passes to Jeremy Kenney and Andy Francis ran the last eight yards for the second touchdown. The Bears led at halftime 14-0.

The third quarter saw the Bears take the ball and move down the field in seven plays to score the final touchdown. The touchdown was

Emergency Farm Loan Applications Accepted

Applications for emergency farm loans for losses caused by tornadoes, flooding and severe storms are being accepted at the Farmers Home Administration (FmHA) office located in Wheeler, Texas, FmHA County Supervisor John D. Wolf III said today.

Wheeler County is one of several in Texas recently named by Secretary of Agriculture Clayton Yetter as eligible for loans to cover part of actual production losses resulting from the tornadoes, flooding and severe storms.

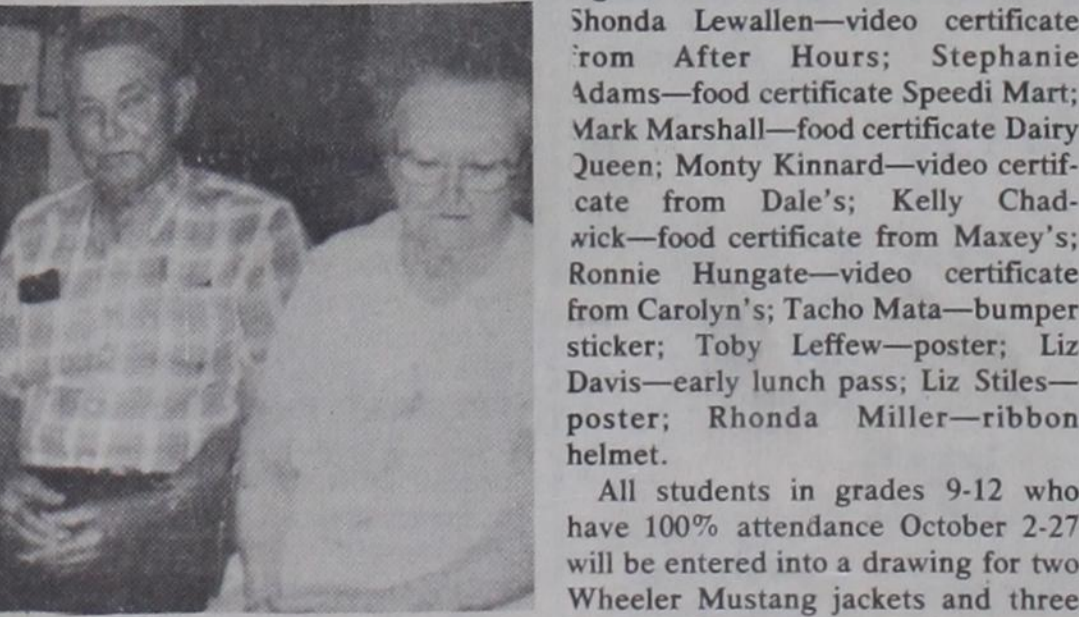

Mr. Wolf said farmers may be eligible for loans of up to 80 percent of their actual losses or the operating loan needed to continue in business or \$500,000, whichever is less. For farmers unable to obtain credit from private commercial lenders, the interest rate is 4.5 percent.

"As a general rule, a farmer must have suffered at least a 30 percent loss of production to be eligible for an FmHA emergency loan," Mr. Wolf said. Farmers participating in the PIK or Federal Crop Insurance programs will have to figure in proceeds from those programs in determining their loss.

"Applications for loans under this emergency designation will be accepted until May 1, 1990, but farmers should apply as soon as possible. Delays in applying could create backlogs in processing and possibly over into the new farming season," Mr. Wolf said.

FmHA is a credit agency of the U.S. Department of Agriculture. It is authorized to provide disaster emergency loans to recognized farmers who work at and rely on farming for a substantial part of their living. Eligibility is extended to individual farmers who are U.S. citizens and to farming partnerships, corporations or cooperatives in which U.S. citizens hold a majority interest.

The FmHA office in Wheeler is open from 8:00 to 12:00 a.m. and 1:00 to 5:00 p.m. Monday through Friday.

WHEELER ISD HAS COMPLETED ONE WEEK OF ATTENDANCE WATCH

Wheeler ISD has completed one week of the "attendance watch" program with good results. In grades 9-12 there was an attendance percentage of 96.88 for the first week. The individual class percentages are as follows:

12th—97.20	10th—98.48
11th—96.24	9th—96.12

Thus, the sophomore class was the first week winner in the 9-12 attendance race. The class with the highest percentage for the month of October 2-27 will receive a five minute longer lunch break for the month of November. The individual attendance drawing winners for the first week were: Shonda Lewallen—video certificate from After Hours; Stephanie Adams—food certificate Speedi Mart; Mark Marshall—food certificate Dairy Queen; Monty Kinnard—video certificate from Dale's; Kelly Chadwick—food certificate from Maxey's; Ronnie Hungate—video certificate from Carolyn's; Tacho Mata—bumper sticker; Toby Lefew—poster; Liz Davis—early lunch pass; Liz Stiles—poster; Rhonda Miller—ribbon helmet.

All students in grades 9-12 who have 100% attendance October 2-27 will be entered into a drawing for two Wheeler Mustang jackets and three Wheeler Mustang watches.

In grades early education through grade eight the attendance per-

centage for the first week was 98.5%. The individual class percentages are as follows: Early Education—94.3%; Kindergarten—95.0%; First Grade—97.2%; Second Grade—99.4%; Third Grade—98.8%; Fourth Grade—99.4%; Fifth Grade—98.3%; Sixth Grade—99.5%; Seventh Grade—99.4%; Eighth Grade—98.9%.

Classes that maintain a 98% attendance figure in early education through fifth grades will receive a video party at school. If grades six, seven, and eight maintain a 98% attendance figure, the class will be taken to West Texas State Activity Center for a school sponsored party. If at least a 98% attendance figure is maintained in early education through eighth grade collectively, all groups will receive the above mentioned awards.

During the first week in grade: early education through grade eight the attendance percentage was above our goal of 98% every day. Mrs. McCain's second grade, Mrs. Walker's fourth grade, and Mrs. Thomas' fifth grade all had 100% attendance during week one. The overall attendance rate for the entire school during week one was slightly above our goal of 98%. This notable attendance figure will help the financial picture of the school, but even more importantly, a student's education should be enhanced with regular attendance.

Here & There

By Laura Guthrie

Life is made up not of great sacrifices or duties, but little things like smiles, kindness and small obligations are given habitually.

My favorite thought is with Mr. Penn. "I shall pass this way but once—If therefore there be any kindness I can show, or any good thing I can do, let me do it now, not defer it or neglect it, as I shall not pass this way again."

Activities are stirring me out of my tracks this week. On Saturday I went over to Patricia Forrester's garage sale. I didn't go to buy, I went just to see the people and visit with them. Mr. and Mrs. O.L. Forrester were there, just to visit. I had not seen them for some time so I enjoyed them. Patricia's sister, Janette Cathey and her husband Darrel came from White Deer to help with the sale. I was glad to see them. Then Patricia's husband Ed was around. I think he fixed lunch. Anyway I was there at lunch time and was asked to eat. Of course I did. Barbeque and beans hit the spot.

On Monday afternoon I was invited to the Times office where we had ice cream and cake to observe Mark Frankenbery's Birthday. With Louis, Patricia, Marie of the staff, Mark's wife Kathleen, his mother Valetta, Jane Thomas and myself, I think Mark had a good time.

Marie Adams and family went to McLean on Saturday to visit with her mother, sisters and aunt.

Jane Thomas went to Clarendon Friday for the Intra Mural Rodeo, in which her son Dwight performed.

Wheeler was much in a stir this past weekend with the Tri-State Rodeo. This was the first time Wheeler has had a four performance program a lot of out of town people were here. Because of co-operative efforts all of the contestants and their families spent Saturday night in Wheeler County.

Guests this week of Valetta and Bob

Frankenbery are her parents Mr. and Mrs. Joel Penn and her sister, Mr. and Mrs. Bob Pendleton from Neodesha, Kansas.

Kenneth Frankenbery is visiting his grandparents in Altoona, Kansas. While there he will attend a cousin's wedding in Missouri.

Celeste Wiley, this week, had the misfortune to break her ankle on the basement stairway. She however was very calm and composed. She pulled herself up stairs, called the ambulance and when it got there she was outside waiting for it. She was transferred to Amarillo for special attention.

Mary Lee Cole's guests on the weekend were her daughter, Frances Dickey and husband Tony from Dumas. Frances visited her dad, J.T. Cole, on Sunday.

James Hubble of Dimmitt, visited his mother, Elva Wood on Saturday and Sunday. They attended church on Sunday.

Mrs. Honoria Helm, mother of Jane Thomas, with her friends Polly Brown and Betty Cure, of Memphis were in Wheeler on Tuesday. They were here to attend a U.M.W. meeting at the Methodist Church.

Our door has been swinging for several days. Lydia Guthrie of Booker and son Joe were here Friday and Saturday nights. Steve came over from Canadian Sunday night. Rose Gray and her family were here on Tuesday.

I guess every thing will be calm tomorrow so I can finish preparing some Halloween items for a birthday celebration we are having on Saturday.

Last Saturday Louis and Barbara had all their children and grandchildren here to help their mother Barbara celebrate her birthday. Cathi came from Houston (Louis made two trips to Amarillo to get her from, and back to the airport). Ronal and Juanita and two grandchildren came from Sherman. Jennifer is still at home. The Stas' had banana-almond and chocolate ice cream.

days of thy youth, while the evil days come not, nor the years draw nigh, when thou shalt say, I have no pleasure in them.

Let us hear the conclusion of the whole matter: Fear God, and keep His commandments; for this is the whole duty of man.

Had been a long time since I had washed dishes by kerosene lamp light up to last Thursday night. Kept

waiting for the electricity to come back on so I could have a better light to wash the dishes by, finally just went ahead and washed them. Just as I was finishing up the bright lights came on. Made me realize how dim that lamp light really was, years ago we never thought much about it. That was just the way of life. If I figured it right we were in the dark about two hours and forty five minutes. Sure good though

to get a inch and fourth of rain from all the stormy weather.

Mr. and Mrs. Garland Cavett have their new home moved in out west of Allison and are living in it already. It is located between the Eddy Walker's and Keith Boydston's home. We hope they enjoy living in our community. Mr. Cavett is the new school superintendent.

Sure a pretty time of the year. The sunflowers, cowpen daisies, fall asters, and goldenrod have come into their own. Have all colors of foliage but our red sumac leaves have blown away. Had over an inch of rain last night amid all kinds of storm warnings.

Hortense Madden ran into Ruby Jenkins (used to be) and her husband of Amarillo at the DQ. They were enroute to OKC.

Hortense, Rosa Faye Abla, and Flossie Maddoux have been on the puny list this week. James Welch was critically injured in a auto-motorcycle wreck at Elk. Was taken to the OKC Medical Center. Kenny Newell had surgery at the Elk hospital.

The Erick Kitchen Band had a fine time at the Erick Home Tuesday. They were joined by Dale Henson of Hereford, TX. Dale plays with a blue grass band out there and just happened to have his guitar along. He and his family are down to see his mother

We also visited with Teola Husband, Sayre, Jewel Wilcox, Carol Griffin, Erick, Kenna Wilson and Mahalia of Kingfisher, Junior and Elsie Leonard of Reydon, Bonnie McKean, Durham.

We read 100,000 people die each year from alcohol. I wonder if that includes the 25,000 drunk drivers kill? And you can buy it about anywhere including grocery stores. Prohibition wasn't really so bad. And 320,000 die

yearly from tobacco use. Yet we subsidize tobacco farmers.

The death rate from drugs is rising and worse yet many addicts are worse than dead. Their minds are dead. Only their bodies live to crave more drugs.

Four thousand unborn babies are killed each day because they are unwanted. Women have choices, birth

All of these evils will never be averted until people learn to simply say NO. We need to get our priorities in line.

This week is a vacation week for me, so I'm writing this article on Friday afternoon.

We've had a busy beginning for October. Monday morning Current Events was extra long and we always enjoy taking our time with the News. Monday afternoon Elva Wood and Mary Mitchell came to serve juice to everyone. These ladies have a tough time getting out to see us with all the traveling they both do. We appreciate them very much.

Family Altar was first on our agenda for Tuesday morning. We always have a big group on Tuesday.

Exercise on Tuesday was also well attended. Most have learned its lots of fun, and not so much work. If only I could keep my left and my right straight. Ha! Ha!

We held our BIG Domino Tournament for October on Tuesday afternoon. Bonnie Davidson, our Care Center Domino Organizer, was very kind to get everyone started through their paces.

Our first place champs were Bill Knoll and Vera Back; runners-up were Julia Dillon and Iris Ingram. Others that played were Lawrence Aderholt, Gertie Cornell, Paul Shumate, Dub Mason, Thelma Green, Lera Weehunt, Icy Littrell, Dewey Adams, Eula Johnson and Mary Bledsoe. Our volunteer community players were Jack Hays, Doris Hays, Fannie Bradstreet, Nellie Horton, Eli Sabbe, and Shorty Crawford. We are grateful to all these players who come out to make our tournament a success. We have a big time. Each of our first place winners received a \$10.00 prize.

Janice Sparlin and Jo Hunt will be our new Wednesday morning Baptist Bible Study teachers. Both these ladies came by Wednesday morning to introduce themselves to the class members and become acquainted with our staff and residence. We welcome both of them, we are looking forward to their class.

Our bingo game Wednesday afternoon was lots of fun. Lola Holcomb and Erma Riley were our helpers. Opal Farris and Birdie Hudson were also here to serve juice. We say thank you to all you ladies for spending some of your time with us.

Thursday morning Ila Collins, Fern Young, and Sylvia Brown came to visit and hold their Bible Study. We always enjoy these ladies so much. Thank you all for coming.

In the afternoon the mending ladies were here again from the Church of Wyoming was unable to attend.

Ain't It The Truth

By Ab Gunter

The trees are turning again showing that it won't be long till winter sets in. All the nut trees have over produced, you would think, but the little varmints know better and are gathering all the different goodies for their cold weather snacks. I noticed a Lady Squirrel is building her nest under our little barn. I recon I better get a little corn and sort of scatter it under the barn so she will have what we call T.V. snacks, I'm sure she won't mind. Mama and I got to go to the Greatest Show on Earth with the granddaughter the other nite and

Those enjoying the covered dish supper were Albert and Ella Trout, Monroe and Jane Seitz, Marion and Ethel Grimes, Bob and Bessie Galmor, Doyle and Bulah Grimes, Louise Hogan, Rev. Ralph Hovey, Laverne Scribner, Orville Greenhouse and Irene Webb. Some played dominoes after the supper.

Mama and I had different opinions of what to watch as the show progressed. Mama wuz watchin the elephants and the camels and bears doin their antics and Ole Ab wuz watchin all them purty girls twirling and twirling and doin flip flops an when we wuz on our way home Mama asked me if I seen that Elephant riding the one wheel bike and fool like I said yes and then Mama asked if I seen G-ralph walkin the tite wire and again I said Yep. Mama looked at me sort of stern and said, Papa your lying to me cause neither of these animals were doing

anything of the kind. I had to fess up and tell her I had been watchin all the purty girls doin their antics. Mama said, "Hope you enjoyed the Circus cause that's the last one you are goin to see." I think she meant it too.

Really it was fun seeing all the different acts that are from all around the world right there in front of you. There were acts from China, Africa and many countries of the Old World and from Mexico and South America and other places and you can't say it is just for the young of age but it is for also the young at heart. I think all of us always wonder what it would have been like if we had run off and joined the Circus.

Recon I better shut this thing off for awhile and help Mama with something around the house. She mit want me to watch the Oprah Winfrey show er sumthing. See you next week, love to all.

The latest India mission report is posted on the bulletin board in the lobby. This report was written by Ron Clayton, former minister of this congregation.

Dub Goad was hospitalized in Amarillo last week with some kidney problems. He is now resting at home.

Ransom Carter, the father of Bernice Hefley, has not been feeling well lately.

From The Minister's Desk:

In December of 1982, the Associated Press reported a strange event that occurred in Bozeman, Montana. According to the report, a family was watching firefighters battle a blaze in their new seventy-five thousand dollar home. When the firefighters suddenly turned off their hoses, allowing the house to burn to the ground.

This family, who lived in a subdivision outside Bozeman, had not joined a private rural association that fought fires in unincorporated areas. And when it was discovered that this family had not paid the twenty-five dollar initiation fee and the fifteen dollar yearly fee, the firemen allowed a seventy-five thousand dollar house to be destroyed.

From this incident an important truth of Christianity can be learned. This truth is that compassion, mercy, and sympathy must not be outlawed by "church rules". Perhaps the classic illustration of such a rule is contained in an article that a church recently published in its bulletin. This article is entitled, "Concerning Meals of Compassion" and it outlines the process for providing food for people who have been hospitalized or who have suffered a death in their family. According to the article, food is only to be provided to the families who are "faithful" members of the church.

In my judgement this church is violating one of the most elementary lessons that Jesus taught. In the parable of the Good Samaritan Jesus clearly taught that compassion is not conditional. Do you remember the parable and the circumstances that motivated Jesus to tell it?

According to Luke 10:25, a lawyer asked Jesus a question which was intended to test him. This question was: "Teacher, what shall I do to inherit eternal life?" Jesus answered the question by saying: "What is written in the law? How does it read to you?" (verse 26) The lawyer then quoted Deuteronomy 6:5 and Leviticus 19:18, saying: "You shall love the Lord your God with all your heart, and with all your soul, and with all your strength, and with all your

mind; and your neighbor as yourself". (verse 27) Upon hearing this answer, Jesus said: "You have answered correctly; do this, and you will live." (verse 28) But the lawyer, who was "wishing to justify himself" said: "And who is my neighbor?" (verse 29)

To answer this question, Jesus told the parable of the Good Samaritan. (versus 30-35) This parable describes the response of three people—a priest, a Levite, and a Samaritan—to a man who had been beaten and robbed. As these people separately traveled from Jerusalem to Jericho they saw the injured man, but their response was entirely different. The two religious leaders—the priest and the Levite—did not render help or assistance to him. But the Samaritan—a despised heretic—was compassionate, rendering help and assistance to the man.

When Jesus concluded the parable He asked the lawyer a question, saying: "Which of these three do you think proved to be a neighbor to the man who fell into the robbers' hands?" (verse 36) The lawyer answered: "The one who showed mercy towards him." And then Jesus said: "Go and do the same." (verse 37)

Notice that the Samaritan who "showed mercy" to the injured man was the one who "proved to be a neighbor" to this man. And notice especially his compassion, it was unrestricted. It was not governed by sanctimonious technicalities. Rather it was universal, expressing itself freely and generously to people who need it.

Like the lawyer, the disciples of Jesus should "go and do the same." The world desperately needs such compassion. But too often the world has only found cold, hard hearts and the coldest, hardest of these hearts have often belonged to the people who profess the most upright orthodoxy. The world needs firemen who will put out a fire, regardless of the circumstances! And it needs Christians who, like the Samaritan, will be compassionate, regardless of the circumstances.

AGENCY OFFERS EDUCATIONAL PROGRAMS FOR ALL TEXANS

By: Linda Daughtry and Joe Don King
County Extension Agents

Texas Agricultural Extension Service

In the early going, educational programs of the Texas Agricultural Extension Service focused mainly on the state's agricultural industry. While agriculture is still the mainstay of this state agency that was created in 1915, its programs now reach out to a much broader audience. In fact, its objective is to help all Texans achieve a better way of life.

Educational programs of the Extension Service today can generally be categorized as dealing with the following: food and fiber production, natural resources, horticultural products, plant and livestock protection, marketing and management, family and consumer sciences, youth development and community development.

In the broad area of food and fiber production, educational efforts relate to the animal industries such as beef, poultry and swine and to food, feed and fiber crops, including grains and cotton.

Programs in the natural resources area deal with water use and conservation, energy conservation and management, soil conservation, rangeland and forestland management, wildlife and fisheries management, and parks and recreation.

Gardening and landscaping programs as well as the commercial production of horticultural commodities such as fruits and vegetables comprise the bulk of the work in the horticultural area. Current emphasis relates to diversifying agricultural operations with horticultural crops

and the value-added potential of such crops.

Programs in plant and livestock protection span a wide range of audiences as they deal with plant and animal diseases and pests, pesticide application and safety, and Integrated Pest Management (IPM) for major enterprises.

The area of marketing and management includes educational programs for agricultural producers, agribusinesses, small businesses and consumers. Among specific areas of instruction are wholesale and retail food marketing, agribusiness management, rural revitalization, cooperative management, and computer applications in agricultural management and family finances. Family and consumer sciences programs deal with such areas as family life, nutrition and health, and consumer concerns. Efforts include training for home day-care providers, adults sitters and family caregivers of the elderly. Other issues that are addressed include diet and exercise, wellness at the worksite, nutrition education, food safety, family financial management, home maintenance, and home buying and selling.

Youth development has long been a major program area of the Extension Service. Through the 4-H program supported by a large contingent of volunteer leaders, youths between the ages of 9 (third grade) and 19 learn leadership and life skills to prepare them to be productive citizens and tomorrow's leaders.

Programs in community development relate to economic and business development, assisting community leaders with needs assessments, and continuing education for local government officials.

NATIONAL 4-H WEEK

Linda Daughtry

Wheeler County has some 120 4-H member who are among more than 388,000 in Texas and 4.5 million across the nation who will observe this annual youth celebration.

As we observe National 4-H Week, we recognize that the program is truly a people development program, said Linda Daughtry and Don King, County Extension Agents with the Texas Agricultural Extension Service.

The program assists youth in developing skills that will be useful in the real world.

Program concepts help boys and girls discover their strengths and weaknesses, and exposes them to activities in a variety of career fields. Additionally, 4-H helps them build positive self-concepts for directing their lives, while learning and having fun as well. Families can add to the fun by learning and growing together.

4-H is open to all youth ages 9 or 3rd grade through 19 regardless socioeconomic level, race, color, sex, religion, handicap or national origin.

Volunteer leaders assisting in the 4-H program also learn new skills while sharing their expertise with young people.

National 4-H week will be observed October 1-7. Wheeler County will complete activities with its annual Wheeler County 4-H Achievement Banquet to be held October 10 at the Shamrock School Cafeteria. The Achievement Banquet recognizes 4-H members for participation and completion of various 4-H projects such as clothing, breads, foods & nutrition, child development, beef, swine, horse and sheep.

Through a valuable network of volunteer leaders, state landgrant universities, state and local governments and the U.S. Department of Agriculture, 4-H continues to stimulate youth to develop life skills and explore many career options.

About 14 adult volunteer leaders work with 4-H boys and girls in Wheeler County through six different 4-H clubs.

The 4-H'ers can choose from some 70 different project and program areas designed to help them prepare for the future.

For more information about the county 4-H program, contact Linda Daughtry or Don King at the county Extension office at 826-5243 or write Box 505, Wheeler, Texas 79096.

HOW DO YOU LIKE YOUR DENIM

The popularity of denim clothing is a wonderful example of the old saying that "you can't please all of the people all of the time." For every person who likes faded denim, there seems to be another who is unhappy about creases, streaking or color loss.

Denim Always Lose Dye:

Changes in most denim fabrics are inevitable because they're indigo piece dyed fabrics. The dye is applied in a heavily concentrated form so the residuals are mostly on the surface of the fabric. Friction with the body, rubbing or mechanical action during laundering will dislodge the dye particles from clothing.

The loss of color will be most apparent on creases, double seam thicknesses and edges, since they receive greater abrasion. Heavy

Tax Practitioner

Workshop Scheduled

By Joe Don King

The Texas Agricultural Extension Service is cooperating with the Internal Revenue Service in offering many Tax Practitioner Workshops across the state, reports Joe Don King, County Extension Agent. Twenty-six General Workshops will be held in all major Texas cities. The General Workshop nearest our county is in Amarillo on November 16-17. There will also be fifteen Advanced Workshops offered in major cities. The General Tax Workshops will concentrate mostly on personal taxes -- the Advanced Workshops' emphasis will be on business tax problems.

In addition to the General and Advanced Tax Workshops, there will be four Partnership Taxation Workshops, four Estate Planning Workshops, four Problem Resolution Workshops, three Income Taxation of Trusts & Estates, and two Agricultural Tax Problems Workshops.

The Tax Practitioner educational program has been highly successful. Last year about 5,500 people participated in this state-wide series. These practitioners reported filing more than 615,000 tax returns. For additional information, please contact Joe Don King, County Extension Agent, Box 448, Wheeler, Texas 79096 or phone 826-5243.

denim lacks draping capabilities and retain the same position of creases in the washer and dryer, this also contributes to color loss and streaking.

Reducing Color Loss, Creases and Streaks:

So what if you don't like the creases and streaks? They can't be eliminated, but you can reduce them. Turn the garment inside out for washing if it's not heavily soiled. Underload the washer, increase the water level and shake out the garment before putting in the dryer.

Another alternative is to buy jeans made from a polyester-cotton blend. The dyes used on blends are different from the dyes used on 100% cotton, and are less likely to fade.

Fading Your Denim and Jeans:

Do you like the faded, streaked look for your jeans and other denim clothes? If you do, you can save some money by purchasing regular denim cloth or clothes and fading them yourself.

At least two companies are marketing products for fading denim at clothing. **Fast Fade For Jeans** is made by the Rit Company. It's a concentrated pre-wash product designed to fade and soften jeans and denim. The product claims that it fades and softens jeans right in the washer without damage to the fabric.

Old Blue is a denim pre-wash that softens and fades in one washing. It's manufactured by Malco Products, Inc. Cautions On Bleaching And Fading:

Bleaching jeans will weaken the fibers, so they will not be as strong and durable as they were before the bleaching process. Commercial pre-wash products may also have a similar effect.

Rubbing wet denim with a pumice stone or rubbing an emery board on seam edges, pockets and other areas to produce a stonewashed or worn look also weakens the fabric in those places.

However, people who like the faded

People believe if you hold the hair of a horse in your hand, nothing can harm you.

look will gladly trade durability for fashion.

Educational programs conducted by the Texas Agricultural Extension Service serve people of all ages regardless of socioeconomic level, race, color, sex, religion, handicap or national origin.

Family Land

Heritage Program

Pointing to the importance of recognizing and remembering the pioneer farm and ranch families in Texas, the Texas Department of Agriculture invites long time farming and ranching families to participate in the 1990 Family Land Heritage Program.

Registration for the program, which recognizes families who have had land in agricultural production for 100 years or more, is now open and extends through July, 1990.

To date many properties have qualified for the program, and this year the Department hopes many families in your area will apply. Established in 1974, producers have been honored for their contribution to the State's economy through agriculture.

The basic requirements of the program include continuous agricultural production on the farm or ranch for 100 years, land ownership within the family, complete operation or supervision of the farm or ranch production by family members who are Texas residents, and a size of at least 10 acres with a minimum income of \$50 from farm or ranch products. If the farm or ranch is smaller than 10 acres, sales must total \$250 per year.

"These families are living, productive symbols of our family farm and ranch units. We celebrate their past achievements, and acknowledge the importance that such family farms hold for us," said Angela K. Lamb District Director for the Texas Department of Agriculture's Panhandle headquarters in Amarillo, "and we celebrate their future contributions to the Texas Economy."

For further information and application forms, contact Lamb at 806-358-7285, or write, 5408 A. South Bell Street, Suite 150, Amarillo, Texas, 79109, care of the Texas Department of Agriculture.

Salesman Confesses

Claims newspaper is best salesman

On Monday, Jules Wintner, owner of a local retail establishment, confessed his job as a salesman was obsolete due to the impact of newspaper advertising. Wintner, in an exclusive interview, said sales were made in the local paper instead of in the store.

"Sure, we get a chance for additional sales," Wintner commented, "but the newspaper has become our best salesman." Wintner reported that consumers name the local newspaper as their usual source of "Best Buy" information, 10 times more than radio or television. This con-

forms with a recent Consumer Data Service report that indicated 60% of the consumers seek "Best Buy" information from the newspaper versus only 6% for radio and 7% for television.

Wintner later remarked that because the newspaper is read by all Texans, regardless of income, his business was able to sell both upper end products as well as value priced items. "No matter what we're selling, we get good response in the newspaper," he said. "In fact, the more expensive the product, the better our response seems to be."

This fact is substantiated in a survey by the Texas Newspaper Advertising Bureau that documented readership of the newspaper increases as income increases. In the survey, almost 75% of Texans with incomes exceeding \$50,000 a year read

"Our customers shop the newspaper. When they walk in the door, they already know what they want, they know the price and often have the ad with them."

the newspaper. "My job has become redundant," Wintner admitted. "Used to be I had to really sell each customer, but now I'm just an order taker." Asked what he intended to do now that the newspaper was doing most of the selling, he replied, "Spend more in newspaper advertising than last year."

At press time, it was unknown whether the Mustangs have lost any players to grades under Texas' no pass, no play rule but they did gain one player since the Quanah game. Matt Smith will be eligible after moving back from Florida.
Although the Mustangs varsity is relatively healthy, injuries to JV players has forced cancellation of the JV schedule at this time.
With district play starting, kickoff time is now 7:30 for the remainder of the schedule.
