CWE CHAT WITH EDITOR
By Louis C. Stas

At press time Wednesday, we had not received word from Wheeler band director, Manuel Martinez. The final judging in state competition was to have been completed over the weekend.

There is some rain to report. The rain Sunday morning was a total surprise. Must have surprised the rain gauge also, as it only showed 0.04". We did better the next night; 1.58" was measured Monday. I was concerned that I had failed to roll the El Camino windows up—they were up. (I should have stated the windows were 'closed')

Wheeler City Council minutes indicate a lawsuit is pending against the city, regarding an injury to a spectator at a ball game. I was aware some cities are closing their parks because of lawsuits; I had hoped Wheeler had no worries.

-cwe-

It also looks like '911' is coming to Wheeler and the county.

Get your things ready, the Chamber of Commerce is going to sponsor another city-wide garage sale. This one is to be October 21, in connection with "Fall Festival '89."

The 'Times' crew celebrated Marie's birthday Monday evening—just a bit late; it was in May. Since we decided on homemade ice cream, the party had to be in the evening to 'do justice' to the ice cream. Marie had not been given the opportunity to taste 'blueberry cheese cake' ice cream; we also had butter pecan. 'Here and There' should have the guest list.

Two trips to Dallas are 'behind us' and I hope we have found everything we need. We left at 4:15 a.m. and

CITY-WIDE GARAGE SALE SET OCT. 21

The Wheeler Chamber of Commerce would like to express their appreciation to all who helped to make the Fourth Annual 4th of July Celebration the success it was. The organizations involved earned some money and everyone enjoyed the day.

A special "Thank You" goes to the American Legion and everyone, who donated for the fireworks display. The American Legion donated the cost of the skydivers.

At a meeting Tuesday, the Wheeler Chamber of Commerce voted to have a "City-Wide Garage Sale" in connection with the annual "Fall Festival '89". The date for these activities will be Saturday, October 21.

Wheeler's first city-wide garage sale was held in May 6 of this year. The success of this activity indicated a need to give residents an opportunity to participate in a city-wide sale this fall.

Wheeler residents will have the sales at their homes or that of a friend. Several locals can join forces in the effort of putting on a garage sale. Spaces will be made available for those from out-of-town, wishing to participate in the sale.

Those wishing to participate in the garage sale may contact the Chamber office at 826-3408. A \$10 fee will list the garage sale on maps given out on the day of the sale. The Chamber also intends to have "Garage Sale" signs for each of the participating locations. The "City-Wide Garage Sale" and

Care Center Comments

By Lois

The rain that fell Sunday night was very pleasant and welcome. We needed a little cooling down. July hasn't really been that bad I guess.

As busy as Pat Helsley is she always finds time to join us at the Care Center on Monday mornings to teach Bible Study. This is such a nice way to start off the week. Thank you Pat.

We have started a new activity on Monday afternoons. We are coloring pictures and adding our name, age and return address along with a get well message. These pictures will be sent to St. Anthony's Hospital Children's floor. We hope they will brighten someone's face and make their day a little happier.

Thank you to the United Methodist Church for donating a beautiful bouquet for all to enjoy. We appreciate the thought.

Some of the Christian Academy kids came by to visit Monday afternoon. It's always nice to have them come for a visit.

Tuesday morning Mr. and Mrs. Hyatt brought a visitor to Family Alter, Joshua Britt. We were pleased to have all of them, enjoyed the visit.

Tuesday afternoon the First Baptist Church presented our residents with the July Birthday Party. Those being honored were Jane Knoll 03—1906; Vena Hopkins 04—1902; Evelyn Young 12—1921; Lorena Adams 25—1918; Doris Mizell 26—1923; and Margaret Goodwin 31—1921. The King's daughters class presented the most wonderful program. Randy Rives brought his electronic key-board and played while Becky Hardcastle, Shelia Mick, Rhonda Blanchard, Naomi Speck, Beverly Bryant, Cathy Dunn and Bro. Robert Helsley all helped sing several selections. They also had a very cute skit. We all enjoyed it very much. Angel Food cake and lemonade was also served and enjoyed. Thank you all very very much.

Aliene Mills came for her last professional visit as my consultant on Wednesday. I suppose I'm now officially certified by the state. Come see us again, Aliene, anytime. I've enjoyed working with you.

Kim, Katie, Charlie Flanagan and Aliene all pitched in at bingo Wednesday afternoon. Our big winners were Lera Weehunt and Katie Flanagan. Thank you also to the juice cart volunteers Evelyn Meek and Alice Bell Helton. We appreciate you for coming.

Our Thursday morning Inspirational was conducted by Rozena Zybach, Fern Young, Melinda Moorehead (Canadian) and Sylvia Brown. We always look forward to these ladies Thursday morning visits. They give us so much from the heart. Thank you.

In the afternoon the Erick Kitchen Band along with Joe Flowers came for an afternoon of entertainment. We enjoy them very much, Jack Criswell keeps all the ladies dancing. Thelma Green and Lorena Adams did a fine 2-step. We'll look forward to their next visit on August 29th. Thank you all so much.

Ann Ellison and her helper Kenton came at 3:00 to help me with the pop-corn. We moved to the Sun Room to pop, but everyone still found us. They just followed their nose. Thank you to Ann and Kenton.

Jim and Laura Davis came for Bible Study on Friday morning. We enjoy their music and lessons so much. Laura Eubank also joined us. Thank you to all for coming.

Our monthly staff meeting was held Friday. Our employee of the month for August was elected. Red (Arnold) Miller was chosen by popular vote. Arnold will be retiring in August. Now he can park close to the door, so he won't have to walk so far.

Our juice cart ladies Friday afternoon were Ruth Taylor and Fannie

From The Minister's Desk:

On the back of a popular lemon juice can, there is a label that says: "This product is one hundred percent, full-strength lemon juice, absolutely no preservatives or chemicals added." I am sure that the users of this lemon juice appreciate that "--no preservatives or chemicals--" have been added to this product. Such an assurance is appreciated because it is recognized that some products are not benefited by substitutes.

While we can recognize that certain products cannot be benefited by substitutes, do we recognize that certain relationships of life are not benefited by substitutes? For an example, consider the relationship of marriage. According to the Bible, marriage is the supreme human relationship. It is a relationship that is more binding than the relationship between parent and child. But for this relationship to be what God intends, cheap substitutes must not replace the qualities that husbands and wives should demonstrate in a marriage.

In the third chapter of his first letter the Apostle Peter emphasizes a quality that wives should possess and a quality that husbands should possess. To wives he wrote: "--Let not your adornment be merely external -- braiding the hair, and wearing gold jewelry, and putting on dresses; but let it be the hidden person of the heart, with the imperishable quality of a gentle and quiet spirit, which is precious in the sight of God," (verses 3-4) And husbands he wrote: "--Live with your wives in an understanding way, as with a weaker vessel, since she is a woman; and grant her honor as a fellow-heir of the grace of life--" (verse 7)

To pinpoint the substitute that wives and husbands can use for the quality that they should possess, it is first necessary to separately discuss each quality. Since the Apostle Peter began with wives, they will be discussed first.

Wives

The Apostle Peter emphasized that wives should be concerned with the "--hidden person of the heart, with the imperishable quality of a gentle and quiet spirit--" But there is a real temptation for wives to substitute external beauty for this "--hidden person of the heart--". Do not misunderstand! The Apostle Peter is not suggesting that the physical appearance of wives is not important. It is very important, but it must not be substituted for "--the hidden person of the heart--"

Cecil Osborne, a contemporary

religious writer, describes wives who use this substitute as "narcissistic." He says that these wives have an inordinate self-love. They are unduly preoccupied with their appearance which they perceive as an extension of themselves. And according to Mr. Osborne, narcissistic wives constantly seek to be the center of attention. They seek flattery and are engaged in a constant battle for popularity. They are "psychic scalp collectors", flirting with men in order to prove to themselves that they have not lost their attractiveness. They use men, including their husbands.

For marriage to be what God intended, wives must not substitute external beauty and appearance for "--the hidden person of the heart--"

Husbands

The Apostle Peter emphasized the quality that husbands should have when he said: "--Live with your wives in an understanding way, as with a weaker vessel, since she is a woman; and grant her honor as a fellow-heir of the grace of life--" The Greek word for "--live--" could be translated "to be at home with", that husbands should share their lives with their wives.

Yet husbands are often tempted to substitute sharing their lives with providing a living. Perhaps the common rationalization of hard-working husbands is: "I have provided you with a nice home and a good car. You have sufficient food and exquisite clothes. What more could you want or need?" and many of their wives respond: "Give me your attention. Listen to me. Appreciate me. Tell me about your problems. Let me tell you about mine. Spend some time with me."

It is commendable that husbands provide for the physical needs. The New Testament teaches that they should. (I Timothy 5:8) But it also teaches that wives married them and not their money or the physical things that money can buy. The Apostle Paul said: "--Husbands ought also to love their own wives as their own bodies. He who loves his wife loves himself: for no one ever hated his own flesh, but nourishes and cherishes--" (Ephesians 5:28-29) Husbands must not substitute providing a living for sharing a life.

There is no relationship more important than marriage. It is a relationship that is like the popular lemon juice. It is not benefited by substitutes.

Twenty years ago this week, our astronauts walked on the Moon. No one doubted that we would be on Mars by 1990. JFK was killed and the Space dream seemed to die. Perhaps, in time we can get back on the beam.

The garden is fine. My tomatoes are doing good. How about yours? David spends his time shelling blackeyes to freeze. I was dismayed to find I'd bought a green watermelon last week. We've had a barrel of fun watching some mother birds bring off their young. Those little ones just whined and took on like little kids in the candy store.

Paul Miller of Corona, CA is visiting Woody and Leona Miller. Sunday they all went to Clinton and spent the day with Ernest Wayne, Carol, and Kathryn Miller.

Tony Smith of Elk City was seriously injured when he fell off a tractor while going down the highway. He is in the Children's Hospital at OKC.

Roger Mills Co. met last week to discuss how to get more tourists. We've got a lot of things tourists like. History scenery, Indians, lakes, and such. What we need is a gimmick. One suggestion is to build some fine restrooms around and put big signs on the Interstate 40—Come enjoy our nice clean restrooms, giving the locations of Skipout Lake, Dead Indian, Antelope Hills, the Museum or where ever. Oklahoma is never going to be a big Tourist State till they get clean rest stops with personnel about every 50 miles apart on all the main highways.

I wrote the governor once and suggested we needed restrooms worse than we did toll roads. He answered that there were plenty of reststops on the tollroads. Probably is, but what about all the other roads. A tourist state needs toll roads about like it needs rattlesnakes. Tourists use tollroads to get across the state in a hurry. We want them to take their time, look at the flowers, listen to the fiddler, and spend their do-re-mil.

We did our part. Took Tony and Carleene up to Cheyenne to see the Veteran's Memorial, the sculpture Washita, the new courthouse, and Museum. On across the new Pack-saddle Bridge, longest in OK, and Museum. On across the new Pack-saddle Bridge, longest in OK, and on to the Alabaster Caverns at Freedom. I lost the map and we took the wrong road over in the hills but made it back to the No. 1 Okie for supper.

The little Scott girl who waited our table told us about the death of her grandmother Bertha Scott. I always enjoyed her paintings tho I never met her.

Visited with Mr. and Mrs. Knight of Mangum at Wal Marts. They are the parents of Karla Paxton. Told me they are moving to Cheyenne this month. Also saw Mr. and Mrs. Marvin Harrington and Darlene Roles. They'd been to Branson to see the musical shows.

Ruth Pyle hosted a reunion at the Concept Housing Hall last week. From Amarillo were Bunchie Hagood, Maurice Hagood, Doug Banner, Sue and Bryan, and Brooke Pyle. Randy and Michelle Hagood, Rocky Hagood, Karen and Austin of Dallas, Iva Thompson, Ollie Anderson, Norma Zellmar of Sweetwater, Peggy, Leroy, and Darren Dunlap, Verda Lee York, and Mabel Hagood of Sayre. From Pampa—Kenneth Pyle, Larry Wayne Pyle, Timmy Pyle, Carla Taylor, Aric Luedecke, Clint Taylor, and Jared Pyle.

Old Five Strings took the Fabulous Strings and Things (Erick Kitchen Band) fiddling two days this week. On Tuesday they went to the Elk home. Were pleasantly surprised to find their little dancing friend Mildred Keen moved there from Sayre. Thursday they went to the Wheeler Care Center for more fun. Tony had

brought his big bass fiddle from Florida and everyone enjoyed having him and Carleene play it.

Band schedule is 1st Tuesday at Erick home, 2nd Tuesday Grand Place at Sayre, 3rd Tuesday at Elk Home, 4th Tuesday, Hensley Home, Sayre, 5th Tuesday Wheeler Care Center. Time 2:30. Visitors welcome. On 1st Thursday, August 3rd, they will be at the Reydon Senior Citizens luncheon and entertain. We've really been missing Velma Gibson who is on the pony list the past two weeks.

Been quite a do about whether it was cricket to turn the commercials down on TV. Personally, I think TV

advertising is highly over rated. I have a program or two I've watched for 20 years or more and I have no idea what they sell. I think people just turn their minds off when the ads come on. Don't tell anyone I said so tho. They might drop my programs.

Ida Mae Rutherford, Louise Perry, and Ruth Blacketter represented Roger Mills County at the State EHC Roundup. They helped with the registration and Ida Mae sang in the women's choir that entertained at the banquet.

We visited cousins Johnny and Jewel Reed Sunday. They aren't doing too well. Also had calls from cousins Marvel Kaiser of Weatherford, and Floyd McCathern of Yukon. Saw 6 helicopters headed toward OKC. Going to the Olympic Festival

I'm sure. A small place is where you can visit with a wrong number. I made a mislick and instead of Hortense, Mrs. Floyd Otis answered. They live south of Mayfield and have ranching interests at Canadian.

For those born before 1945 — We got married and then lived together we were before house husbands, gay rights, computer dating, before day care centers, group therapy. We never heard of FM Radio, tape decks, electric typewriters, word processors, yogurt and guys wearing earrings — pizza, McDonalds and instant coffee were unheard of.

Correction—N.F. and Daviss are from Panhandle.

CONSOLIDATED CASE NOS.

I. BACKGROUND

Northern Natural Gas Company, a division of Enron Corp., gathers helium bearing gas from wells located in the Hugoton field area in southwest Kansas and Oklahoma and from Northern's "Texas A" line located in the Oklahoma and Texas Panhandle area, which gas is or may be processed for the extraction of helium at the Bushton Helium Plant, near Bushton, Kansas. Class action litigation spanning a 25 year period was settled in the summer of 1988 regarding payment for helium sold by Northern commencing in 1963. The funds attributable to helium extracted from gas delivered to Northern from 1963 through most of 1986 have already been distributed, pursuant to the Settlement Agreement and orders of the United States District Court for the District of Kansas and the Sedgwick County District Court.

Pursuant to the court approved Settlement Agreement, Northern agreed to pay for all helium extracted at the Bushton Helium Plant and sold in the future. The "future" is defined in the Settlement Agreement as the time period after and including January 1, 1988. The Court in the above-referenced case will supervise distribution of helium proceeds attributable to sales in 1988 and to a portion of 1989. Thereafter Northern will distribute payments, on a monthly basis in most situations, directly to the owners of the wells which supplied the helium bearing gas.¹

A. DETERMINING THE AMOUNT OF HELIUM FUNDS TO BE "ALLOCATED" TO EACH WELL.

Pursuant to the Court's April 3, 1989, Order, on August 1, 1989, Northern must file certain detailed exhibits/schedules with the Court. Northern's "allocation schedules" will show the amount of helium allocated to each well or other input point. Several thousand wells supply helium bearing gas into the portion of the Northern pipeline system which feeds the Bushton Helium Plant. The amount of helium allocated to a given well will be weighted based upon a variety of factors, including the gas volumes delivered to Northern, the helium content of the gas from the well,² and the location of the well.³

B. COMPILING A LIST OF "PAYEES" FOR THE PROCEEDS ATTRIBUTABLE TO A GIVEN WELL.

Based upon the amount of helium allocated to a given well, as described above, the next step is determine the amount to be paid to the various "payees" for that well. The schedules filed by Northern on August 1, 1989, will show the payees for the helium allocated to each well. The funds for the 1963 through 1986 time period were distributed to Northern's historical payees, based upon Northern's payment records. Commencing in 1986, however, there were vast changes in the natural gas industry. Pursuant to Federal Energy Regulatory Commission Order No. 451 and other rules and regulations, Northern no longer purchases gas from many of the individual wells which deliver gas into Northern's pipeline system (during the 1963 through 1986 time period Northern purchased the gas for these wells pursuant to gas purchase contracts). For wells in which the gas purchase contracts have been terminated, Northern now "transports" the gas on a B.T.U. basis. Gas which is not purchased, but which is transported by Northern and processed at the Bushton Helium Plant for the extraction of helium shall hereinafter be referred to as "transportation gas" and the individual wells which produce such gas shall hereinafter be referred to as "transportation wells." Northern does not maintain records regarding the owners of the wells which supply the transportation gas. In many instances, Northern's records show the name of the company which delivers transportation gas from such wells, but these delivering companies in many instances do not own the working interest in the well; these delivering companies are intermediaries which purchase the gas from the working interest owners, deliver the gas for transport on Northern's system, and sell it to end users. In some instances there are several tiers of such sales/purchase transactions prior to the entry of the gas into Northern's system covering the production from a single well.

¹The prior payout included Northern's helium sales through December 31, 1987. Because Northern had substantial volumes in storage as of December 31, 1987, the helium produced in 1987 had not yet been sold as of that date. Thus, the payout of helium sales from 1988 will be allocated to 1987 production (which was placed in storage during 1987 and sold during 1988) and 1988 production (which was sold during 1988).

²On average, helium is usually about .3 percent to .5 percent of the gas stream, but the percentages fluctuate above and below those ranges for some wells.

³Wells from certain areas are located along portions of the pipeline system the gas from which is almost always processed for helium. Gas from wells in other areas is usually only processed for helium when the normal pipeline sources do not have adequate gas volumes to ensure that the plant is operating at the desired capacity.

The Settlement Agreement requires, and the Court has ruled, that the working interest owners of the wells which supply the helium bearing gas from which helium is be extracted at the Bushton Helium Plant are entitled to the payments for helium as to which royalty must then be paid to royalty owners. The procedures set forth in this Legal Notice describe the procedures the Court utilized to ensure that the helium funds are paid to the working interest and royalty owners from the wells which produce the transportation gas and from the wells where Northern purchases gas.

1. GAS "PURCHASED" PURSUANT TO GAS PURCHASE CONTRACTS.

In those situations where Lessee-Producers have sold gas to Northern pursuant to a gas purchase contract, Northern will distribute helium payments based upon the historical "division of interest" (i.e. list of payees) utilized to distribute payments for natural gas.⁴

2. GAS "TRANSPORTED" ON NORTHERN'S SYSTEM.

The Court's April 3, 1989, Order established a detailed procedure for determining the proper payee(s) for helium proceeds attributable to gas which was "transported" on Northern's system. On May 19, 1989, Northern mailed certain materials (as required by the Court's Order) to the well operators of those wells from which Northern received "transportation gas." Northern also wrote to other Lessee-Producers who previously had gas purchase contracts regarding these wells. The well operator was authorized to return an affidavit which listed the appropriate payees for the helium funds attributable to the transportation gas. The Court's April 3, 1989, Order provided that if the well operator did not return the affidavit to Northern, the well operator would be deemed the proper payee for all helium funds attributable to transportation gas.

The well operators have, in many instances, returned properly completed affidavits to Northern. Payment for helium funds attributable to transportation gas will be distributed pursuant to these affidavits. Where no affidavit was returned, the helium funds will be distributed to the well operator.

C. DETERMINING THE AMOUNT OF COMPENSATION DUE FOR HELIUM ATTRIBUTABLE TO A GIVEN WELL OR OWNER.

The amount of compensation to be distributed to a given payee will be based upon the terms of the Future Helium Compensation Agreement or other Agreement in effect between Northern and the producer who supplied the helium bearing gas. Prior Orders of the Court imposed the terms of a standard "Future Helium Compensation Agreement" upon all Lessee-Producers and other suppliers of helium bearing gas who did not execute such agreements.

II. PROCEDURE FOR DETERMINING IF ALLOCATION, PAYMENT, AND OTHER SCHEDULES/EXHIBITS SHOULD BE APPROVED.

A. EXHIBITS TO BE FILED WITH COURT CLERK.

On August 1, 1989, Northern must file certain allocation, payment and other schedules with the Court. These schedules will be on file with the Clerk's office and will be available for inspection during regular business hours.

B. INFORMATION TO BE MAILED TO PAYEES.

On August 1, 1989, Northern will mail to each payee the pertinent portion of the payment schedule applicable to such payee, along with certain explanatory materials.

C. DEADLINE FOR FILING OBJECTIONS.

Any objections to the allocation, payments or other schedules, or regarding other matters, must be filed in writing with the Clerk of the District Court on or before August 25, 1989. Copies of all such objections shall also be served upon Mr. Michael Moran, counsel for Northern (Address: P.O. Box 1188, Houston, Texas 77251-1188), and upon the Special Master (Jim H. Goering, 700 Fourth Financial Center, Wichita, Kansas 67202). Persons who have questions or objections to the schedules prepared by Northern are encouraged to contact Mr. Steve Gilbert (address and phone number below) before filing an objection, to discuss the problem with Mr. Gilbert.

D. COURT HEARING

On September 11, 1989, at 9:00 a.m. the Court will hold a hearing to determine whether the allocation, payment and other schedules should be approved. Said hearing may be continued to such future date and time as the Court may deem appropriate, without additional notice. If such schedules are approved, the Court will finalize the procedure for distribution of the Settlement Funds and the Court will consider any other unresolved items which may exist. If the allocation, payment and other schedules are approved the Court presently anticipates that the settlement funds will be distributed by Northern on September 22, 1989.

E. IF YOU HAVE QUESTIONS

If you have questions, contact Mr. Steve Gilbert of Northern. (Address: Northern Natural Gas Company, 2223 Dodge Street, Omaha, Nebraska 68102; Telephone: 402-633-4600). If necessary, you can contact the Special Master, Jim H. Goering, 700 Fourth Financial Center, Wichita, Kansas 67202 (Telephone: 316-267-6371).

THE END

⁴In many instances Northern distributes payments for 100% of a given well's production to a single Lessee-Producer, who, in turn, makes payment to its royalty owners and working interest partners. This same general procedure will be utilized to distribute funds attributable to the helium proceeds associated with gas delivered to Northern pursuant to gas purchase contracts.
