Monty Kinnard, 17, son of Mr. and Mrs. Henry Kinnard of Wheeler, joined more than 400 outstanding high-school science students and teachers at the 29th annual Texas Energy Science Symposium in Austin Ann Boydston; Briscoe, Evelyn Meek; With such a fun-loving staff of June 12-15. Kinnard attends Wheeler

> Kinnard was among 40 students and teachers, representing schools throughout the Panhandle and South Plains, sponsored by Southwestern Public Service Company (SPS).

The symposium, at the University The 1989 Wheeler County Exten- with her husband, Wilber, and her of Texas campus, is an annual event sponsored by the Texas Atomic Energy Research Foundation (TAERF). The foundation is composed of 10 electric utilities in Texas, including sps. Although SPS does not own or operate a nuclear power plant, the company's membership in TAERF reflects its commitment to many kinds of energy research.

The four day symposium, featuring a keynote address by NASA astronaut Kathryn Sullivan, was packed with tours and presentations on such subjects as fusion, a form of nuclear power, and the "greenhouse effect," a term that refers to heat becoming trapped in the Earth's atmosphere.

A highlight of the symposium was a tour of the university's Fusion Research Center and its tokamak, a machine that uses magnetic fields to attempt to confine the fusion reaction. The tour was especially noteworthy in light of recent experiments in so-called "cold fusion," a process that purportedly uses room-temperature liquids to create fusion. Prior to these experiments, whose results have yet to be verified, fusion was believed

#### From the Minister's Desk:

There was a general store in a small Kansas community that was owned and operated by a man of unquestionable honesty. In the store, there was a wooden counter which had two brass tacks nailed in the top of the counter. These two tacks, which were supposedly 36 inches apart, were used to measure merchandise that was sold by the vard.

After operating the general store for several years, this highly principled man died, leaving the store to his son. His son was determined to operate the store as honestly as his father had. But when he assumed the operation of the store, he discovered that his father had unknowingly been dishonest.

He discovered that the two brass tacks on the counter were 35 inches apart not 36 inches. With this discovery, the young man was confronted by an important decision. If he moved the tacks, he would openly acknowledge that his father had been wrong, tarnishing his father's reputation for honesty. But if he did not move the tacks, he would be quilty of a sin that his father never committed-knowingly selling merchandise that was an inch too short. His father never knew that he was wrong, but his son did. You and I can often find ourselves in similar dilemmas. As we conscientiously read and study the Bible, we often discover that we have been taught wrong by deceased loved ones whom we highly respected. These people were honest and sincere, but their knowledge and practice of the Bible was wrong.

Agnes Gaines is in critical connoon, June 25th, this congregation dition in Wheeler Care Center. will conduct the devotional at the Remember the Gaines family in

> What should we do? If we do what the Bible teaches, we are openly conceding that our loved ones violated the will of God. But if we fail to do what the Bible teaches, we are guilty of a sin that our loved one never committed-a deliberate and intentional refusal to obey the will of God.

> The solution to this dilemma is provided by New Testament facts. These facts are:

> 1. The New Testament teaches that faith is a personal commitment to God. The Apostle Paul wrote: "The faith which you have, have as your own conviction before God." (Romans 14:22) While the "faith of bur fathers" is a very popular religion, the New Testament emphasizes that a relationship with god cannot be inherited. It can only be achieved by a personal faith.

2. The New Testament teaches that eternal destiny is determined by God not man. The Apostle Paul asked: "Who are you to judge the servant of another? To his own master he stands or falls--". (Romans 14:4) The eternal destiny of our departed loved ones is beyond our control. They are in the hands of a righteous and merciful God. But our lives must be lived on the basis or our knowledge not

## Wheeler County 4-H **Horsemanship** Clinic

Joe Don King

The Wheeler County 4-H Horsemanship Club sponsored a three-day clinic May 30th, 31st, and June 1st. Teaching the clinic, and doing an excellent job, was Joyce Ford of Wheeler. Assisting Mrs. Ford was Don King, Pat Graves, Glenda McCasland, and Debbie Reedy. Students in attendance were Stacy McWhorter, Michelle Andris, Dan Andris, Layne McCasland, Mike Johnson, Kendall Reedy, Sabrina Graves, Ty Ross Radney, and Dayna Reedy.

The first day of the clinic each rider was given a cup of water and asked to ride as smooth as possible in order to prevent the water from sloshing out of the cup. After a short time of walking, trotting and galloping almost every person and every horse was wet. Very few had any water left at all in their cup, but Stacy McWhorter managed to ride smooth enough to keep her cup almost half full. She was awarded a prize for her effort and ability.

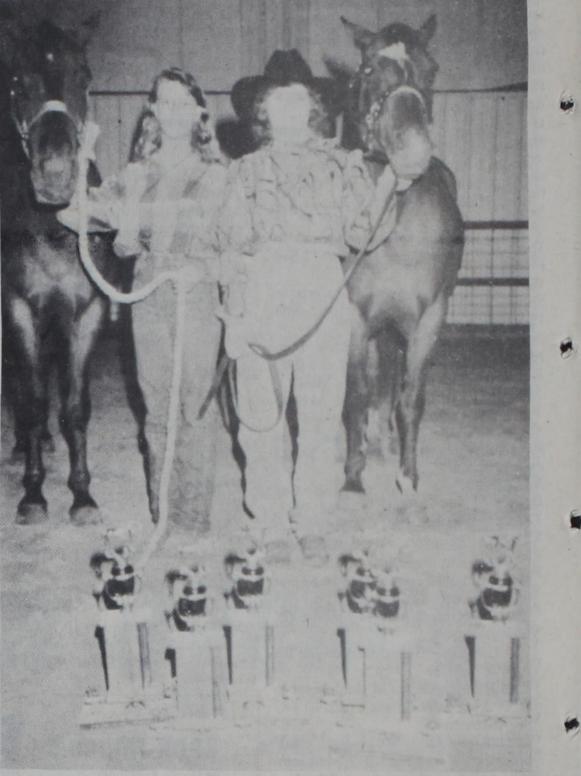

Many things were learned in the three days of Joyce Ford's teaching. She instructed each rider individually and helped everyone tremendously in the areas of (1) how to sit correctly, (2)how to be totally in control of your horse, (3) how to change gaits smoothly, (4) how to pick up left and right leads, (5) proper grooming and care of your horse and many other valuable things. Mrs. Ford is highly qualified in the field of horsemanship and her hours of hard work and willingness to share her knowledge are very much appreciated.

The weather stays beautiful and some severe action the rest of the week. We hope it is not too severe! It's still family reunion time. The and guests gathered.

The Evan's family and relatives met Sunday at Fannie Mae Bradstreet's home here in Wheeler. Fannie is an Evans. All her brothers and sisters were there. About fifty people. And I am told there was a lot of very good food

Azalee 'Dook' Morton of Borger dropped by to see us Sunday afternoon. She is Lyndia Guthrie's aunt. She had attended the reunion at Fannie Mae's that day. She is an Evan's sister-in-law. Now that makes me one of those relatives (that Ab talks about) to the Evans and the Bradstreets. You know- one of those mathematical relatives. I think that is a pretty good connection!

Elva Wood, Doris Schroder of El Paso, and Frances Sellers of Albuquerque, N.M. made a business trip and vacation to Gainesville, TX., Canton, TX., and Athens, TX. In Tyler, TX. they visited a cousin and and an aunt, Lurene Roper. They returned to Wheeler Sunday night, after a six day trip.

The next day they took Lydia home. She had to work that night. Then Joe had planned on parking their beautiful and Rhonda visited her parents, the little camper in Palo Duro Canyon, but Rondal Pitcocks, at Twitty. Also they wanted to attend the Pitcock reunion on Sunday.

Joe and Rhonda will hop-skip-andjump in this territory for three weeks, having that much leave from Army life. They went back to Booker on Tuesday, where they plan to find a lake and do some fishing. They have also visited Rhonda's grandmother, Lucille Gray in Shamrock. Oh, no! She is not Mrs. Gray anymore. She has recently married, but I don't know the man's name. I'm sorry. But I have the report that he is a very nice man.

Mr. and Mrs. Robert Cosper of Bedford who have visited their daughters, Patricia Forrester of Wheeler Kathryn Mertz and Janette Cathey of White Deer, returned home on Tuesday.

> Patricia and Ed Forrester enjoyed a mini-vacation on the weekend. They
