Enemy Scores Breakthrough To Menace Base

By LEONARD MILLIMAN
Associated Press War Editor
American bombers reaching out from the Philippines and Okinawa, where Yank ground forces killed 23,221 Japanese in ten days, have sunk 35 more Japanese ships and damaged 17 others, U. S. "on-to-Tokyo" commanders announced yesterday and today.

A Japanese breakthrough in central China to within 35 miles of the U. S. air base at Chih-kiang was the only blight on Allied ground offensives as Washington reports said 6,000,000 Americans would be thrown against Japan after V-E day.

The U. S. Tenth army resumed its general offensive on Okinawa after killing 3,000 Japanese in last Friday's counterattack. But Yank progress was shrouded in official secrecy.

In the Philippines the 25th division captured the last hill mass controlling the Balete Pass entrance to fertile Cagayan valley of northern Luzon—in a four day battle. The 28th and 31st pushed northward on Mindanao still hunting for the main force of some 40,000 Japanese reported to be on the island.

Australians captured the air-drome, two oil fields, major military objectives on Tarakan off the Borneo coast, in the newest Pacific offensive and in one of the oldest campaigns smashed to within three miles of Wewak on the north central New Guinea coast.

British forces captured two more towns in Burma as they began mopping up about 100,000 Japanese stranded in the territory and hurried disorganized units fleeing toward Thailand.

Chinese reported killing 3,000 enemy soldiers in three continuing battles during which Chiang Kai-shek's men shattered the left wing of the thrust toward Chih-kiang. The breakthrough in the center was the closest Japanese approach to the threatened U. S. air-drome.

Land-based bombers of Fleet Air Wing Two joined Superfortresses in carrying the war to Japan. B-29s followed up today with another raid on Kyushu air bases of southern Japan—their 17th such strike since March 27.

MVA Measure Is Rejected

WASHINGTON, May 7 (AP)—The senate commerce committee rejected today a bill by Sen. Murray (D-Mont) to establish a Missouri Valley Authority.

The commerce committee made public a report which concluded: 1. That plans recently authorized by congress provide a complete program of unified water resources developments in the Missouri basin.

2. Present laws and procedures provide for full coordination between the established federal agencies charged with the responsibility of water-resource development.

3. Procedures already established protect states' rights, and prescribe full cooperation between local, state, and federal interests.

Japanese Upset By Surrender

SAN FRANCISCO, May 7 (AP)—Japan appeared increasingly upset over Germany's collapse today but Gen. Jiro Minami, totalitarian party leader, declared, "there is nothing for us to think about but how to win this war."

Minami's declaration, as president of the political association of greater Japan, followed a statement by Foreign Minister Togo yesterday that Japan "reserved the freedom to re-examine all her relations with Germany."

Reich Admits Defeat Krosigk Tells German People

LONDON, May 7 (AP)—A reich government broadcast this morning told the beaten Germans their armies had surrendered, well ahead of reports from the Allied side, and called for a new Germany of "unity, justice and liberty" which would seek conciliation and abide by international law.

The grim announcement was made by Adm. Doenitz' foreign minister, Count Ludwig Schwerin von Krosigk, speaking "as the leading minister of the reich" over the wavelength used for the last German communiques, that of the Flensburg radio in British-occupied Schleswig-Holstein.

"We end this gravest hour of the German nation and its reich," it said.

Germans were urged to "stand loyally by the obligations we have undertaken." They were told that an "atmosphere of hatred" surrounds Germany.

Among the minister's concluding words were: "Respect for concluded treaties will be as sacred as the aim of our nation to belong to the European family of nations, as a member of which we want to mobilize all human, moral and material forces in order to heal the dreadful wounds which the war has caused."

It was noteworthy that Krosigk did not imply the Germans would have to heal the wounds of Germany, alone. He continued: "Then we may hope that the atmosphere of hatred which today surrounds Germany all over the world will give place to a spirit of reconciliation among the nations, without which the world cannot recover."

MANSFIELD AND EDWARDS WIN; POAGE TAKES JACKPOT ROPING

Toots Mansfield, Big Spring, one of the finest cowboys ever to toss a lariat, averaged 19.5 seconds on 12 calves Sunday to easily turn back the challenge of Ray Shaw, Roswell, N. M., in a matched roping contest at the rodeo grounds before more than 3,500 fans.

Sonny Edwards, Odessa, brother-in-law to Mansfield and who was reared here, piled up such a lead over Walton Poage, Rankin, that he was able to coast to a win.

In the jackpot roping, however, it was big Walton Poage who came through to top the first money of \$102, catching and tying his calf in 13.5 seconds.

Mansfield piled up his remarkable time despite trouble with two kicking calves and a third which got back through his legs and flipped the roper. However, Toots held on and came up with a 19.5. His total time was 234 seconds.

Germans Sign Surrender At 8:41 PM Sunday

General Jodl Signs As Doenitz Orders Nazi Forces To Halt

REIMS, France, May 7 (AP)—Germany surrendered unconditionally to the western Allies and Russia at 2:41 a. m. French time today. (This was at 8:41 p. m., eastern war time Sunday.)

The surrender took place at a little red school house which is the headquarters of Gen. Eisenhower. The surrender which brought the war in Europe to a formal end after five years, eight months and 6 days of bloodshed and destruction was signed for Germany by Col Gen. Gustav-Jodl.

Jodl is the new chief of staff of the German army. It was signed for the Supreme Allied Command by Lieutenant General Walter Bedell Smith, chief of staff for Gen. Eisenhower.

It also was signed by General Ivan Susloparoff of Russia and by General Francois Sevez for France. General Eisenhower was not present at the signing, but immediately afterward Jodl and his fellow delegate, General Admiral Hans Georg Friedeburg, were received by the supreme commander.

They were asked sternly if they understood the surrender terms imposed upon Germany and if they would be carried out by Germany. They answered yes.

Germany, which began the war with a ruthless attack upon Poland followed by successive aggressions and brutality in internment camps, surrendered with an appeal to the victors for mercy toward the German people and armed forces.

After signing the full surrender, Jodl said he wanted to speak and was given leave to do so. "With this signature," he said in soft-spoken German, "The German people and armed forces are for better or worse delivered into the victors' hands."

"In this war which has lasted more than five years, they both have achieved and suffered more than perhaps any other people in the world."

Local liquor dealers due to suspend sales. Local liquor stores have been asked to close for 48 hours following announcement of the surrender of Germany, according to James A. Morgan of the Texas liquor control board here.

Letters requesting liquor dealers to comply with the plan were mailed to local dealers from the state board and although it is not mandatory, it was believed that the majority would close.

Locals Cautious Of Capitulation. The majority of Big Spring residents took the unofficial news of Germany's surrender with a grain of salt Monday until President Harry Truman made an official announcement.

No general excitement was evidenced and officials of the Big Spring Bombardier school made no comment on plans in case official word does come.

V-E Day Announcement By Allies Expected Tuesday

LONDON, May 7 (AP)—The war against Germany, the greatest in history ended today with the unconditional surrender of the once mighty Wehrmacht. The surrender to the western Allies and Russia was made at Gen. Eisenhower's headquarters at Reims, France but official announcement by the Big Three was held up, pending simultaneous action by Washington, Moscow and London.

The best information available in London tonight was that the announcement might not be made until tomorrow afternoon. In Washington microphones were made ready for a broadcast by President Truman. Prime Minister Churchill, after a busy day at 10 Downing st., went to see King George VI.

News of the surrender came in an Associated Press dispatch from Reims, at 9:35 a. m., Eastern War Time, and immediately set the church bells tolling in Rome and elsewhere. In the hour before the news from Reims, German broadcasts told the German people that Grand Admiral Karl Doenitz had ordered capitulation of all fighting forces, and called off U-boat warfare.

Joy at the news was tempered only by the realization that the war against Japan remains to be resolved, with many casualties still ahead. The end of the European warfare, greatest, bloodiest and costliest war in human history—it has claimed at least 40,000,000 casualties on both sides in killed, wounded, and captured—came after five years, eight months, and six days of strife that overspread the globe.

Hitler's arrogant armies invaded Poland on Sept. 1, 1939, beginning the agony that convulsed the world for 2,076 days. Unconditional surrender of the beaten remnants of his legions first was announced by the Germans. The historic news began breaking with a Danish broadcast that Norway had been surrendered unconditionally by its conquerors.

Then the new German foreign minister, Ludwig Schwerin von Krosigk, announced to the German people, shortly after 2 p. m. (8 a. m. Eastern War Time), that "after almost six years struggle we have succumbed." Von Krosigk announced Grand Admiral Karl Doenitz had "ordered the unconditional surrender of all fighting German troops."

The world waited tensely. Then at 9:35 a. m. E. W. T., came the Associated Press flash from Reims, France, telling of the signing at Gen. Eisenhower's headquarters of the unconditional surrender at 2:41 a. m. French time (8:41 a. m., E. W. T.) Germany had given up to the western Allies and to Russia.

London went wild at the news. Crowds jammed Piccadilly Circus. Smiling throngs poured out of subways and lined the streets. (Cheers went up in New York, too, and papers showered down from skyscrapers.)

A sour note came from the German-controlled radio at Prague. A broadcast monitored by the Czechoslovak government offices in London said the German commander in Czechoslovakia did not recognize the surrender of Admiral Doenitz and would fight on until his forces "have secured free passage for German troops out of the country." But the Prague radio earlier announced the capitulation of Breslau, long besieged by Russian forces.

The BBC said telephone conversations were going on between London, Washington and Moscow in order to fix the exact hour of the V-E day announcement by President Truman, Prime Minister Churchill and Premier Stalin. For four hours officials in Washington, London and Moscow were silent concerning the news Kennedy had sent. Then the British ministry of information released the announcement that Churchill would make a formal proclamation of victory in Europe tomorrow.

The British Press association said "the surprising delay in announcing V-E day in spite of the complete capitulation by the Germans" was due to the importance "attached to synchronizing the announcement."

BRESLAU FALLS. LONDON, May 7 (AP)—Marshal Stalin tonight announced the fall of Breslau. PARIS, May 7 (AP)—American troops in Italy and Austria have captured or rescued a long list of notables of 22 nations including former Premier Kurt Schuschnigg of Austria, former German finance minister Hjalmar Schacht and three one-time French premiers.

The French leaders are Leon Blum, Edouard Daladier and Paul Reynaud. Also rescued was Lt. Gen. Tadeusz Komorowski, who as "Gen. Bor" led the Warsaw insurrection. The Rev. Martin Niemoller, famous German pastor who commanded a U-boat in the First World War and was cast into Nazi prisons by Hitler for defiance, also was saved. Gen. Maurice Gamelin and Gen. Maxime Weygand, former French commanders, also have been rescued.

Supreme Court Upholds Portal Pay For Miners

WASHINGTON, May 7 (AP)—The supreme court ruled today that bituminous coal miners are entitled to portal-to-portal underground wages.

Justice Murphy delivered the court's 5-4 decision. Justice Jackson wrote a dissent in which Chief Justice Stone and Justice Roberts and Frankfurter concurred.

The court on March 27, 1944 ruled that iron ore miners must be paid portal-to-portal wages—that is pay for the time spent traveling from the mine opening to the actual working place and back again.

Today's decision was given on an appeal by the Jewell Ridge Coal Corporation, employer of 900 men in two mines in southwest Virginia. The concern protested a decision by the fourth federal circuit court that such travel time is time worked for which pay is required under the Federal Wage-Hour law.

The bituminous industry has been operating on a portal-to-portal pay basis under a 1943 wartime agreement. Justice Murphy said the majority agreed with the fourth federal circuit court that there was no substantial factual or legal difference between the case involving the bituminous coal miners and that involving the iron ore miners.

Chamber Drive Opens Tuesday

The kick-off breakfast for the 1945 chamber of commerce drive for funds will be held Tuesday at 8 a. m. on the mezzanine floor of the Settles hotel. At that time the two teams headed by Otis Graff and V. A. Merrick will begin their three-day drive to increase the dues of old members and obtain new members.

Subsequent breakfasts will be held every morning by the workers for making plans for the drive, which will be concluded Thursday night with an entertainment for the winning team.

President Waits On London, Moscow

WASHINGTON, May 7 (AP)—President Truman said today he had agreed with the London and Moscow governments that he would make no announcement of the surrender of enemy forces "until a simultaneous announcement can be made by the three governments."

The president's statement, released by Press Secretary Jonathan Daniels, was addressed to the press and radio. When Daniels was asked about British announcement that tomorrow will be observed as V-E Day, he said that he had nothing to add to the president's statement. This was the text of the president's statement: "I have agreed with the London and Moscow governments that I will make no announcement with reference to the surrender of the enemy forces in Europe or elsewhere until a simultaneous statement can be made by the three governments. Until then there is nothing I can or will say to you."

Ministers Plan V-E Meditation

The Big Spring Pastors' Association will sponsor a downtown period of meditation at the city auditorium one hour after the official announcement has been made that war in the European theatre of operations has ceased, it was announced Monday.

In the event the announcement comes later than 8 p. m., a meditation service will not be held until 10 a. m. the following day, the Rev. James E. Moore, association president, said.

Mrs. Ollie Eubanks, manager of the Retail Merchants association, released bulletins to local merchants early today suggesting they cooperate with the plan of the Pastors association by closing for meditation services if during business hours.

Community-wide participation in the coming service is hoped for by local pastors who will direct the service.

Seventh Bond Drive To Feature 'Invasion'

NEW ORLEANS, May 7 (AP)—The Red River Bond Invasion, a Seventh War Loan special event which will cover the area from New Orleans to Lake Texoma, Texas, will begin June 3 at Denison, Tex., the Louisiana War Finance committee announced yesterday.

The "invasion" will include "simulated Pacific operations to inland sections of Louisiana, Texas, Arkansas and Oklahoma."

CURTAIN FIRE

A curtain in a display window at Wacker's store was destroyed by fire Sunday at 8 p. m. when it was ignited by a large light bulb. Firemen said that only the curtain and a door lock were damaged.

Americans Liberate Many Notables

PARIS, May 7 (AP)—American troops in Italy and Austria have captured or rescued a long list of notables of 22 nations including former Premier Kurt Schuschnigg of Austria, former German finance minister Hjalmar Schacht and three one-time French premiers.

The French leaders are Leon Blum, Edouard Daladier and Paul Reynaud. Also rescued was Lt. Gen. Tadeusz Komorowski, who as "Gen. Bor" led the Warsaw insurrection. The Rev. Martin Niemoller, famous German pastor who commanded a U-boat in the First World War and was cast into Nazi prisons by Hitler for defiance, also was saved. Gen. Maurice Gamelin and Gen. Maxime Weygand, former French commanders, also have been rescued.

The latest batch of 133 political prisoners was taken by American troops in Italy Friday after narrowly escaping death from gestapo and SS troops who had been ordered to kill their hostages to prevent their liberation. Schacht, former finance minister and president of the Reich bank, said he had not been able to discover why he lost favor with Hitler. All the newly rescued prisoners had been taken to a mountain fastness in the Italian Alps just below the Austrian border a week ago from the notorious Dachau prison camp near Munich. Reynaud and Daladier were rescued by the U. S. Seventh army in Austria.

A Grove Of Trees Gave Coleman Idea

Coleman Courts come from a grove and thereby hangs a tale, L. E. Coleman, owner and operator, said Saturday.

"A long time ago," Coleman related, "I owned a grove of trees which ran to the location of the present court site. At that time there were no tourist camps of any kind in Big Spring, so when tourists and travelers came by they asked if they might camp out there under the trees. I always said yes and there were always people parked out under the trees."

Finally somebody asked, "Mr. Coleman, why don't you build a tourist court for all of these people who have been staying out in the open?" He thought the idea a good one and the present unit of 67 cabins, the largest unit of its type in Big Spring, was the result.

To add to the convenience of his camp, Coleman added a grocery store, a service station and a hardware store to the original cabins. At the present time these departments have been closed down, but Coleman plans to reopen them after the war and resultant short-

THE FIRM—Henry C. Burnett, who founded the insurance agency which bears his name, has announced that his son, Henry C. Burnett, Jr., 24, will become a member of the firm after the war. On a recent furlough, young Burnett discussed plans with his father for entering the agency. Now a cadet at Concho air base, from which he is due to be commissioned in June, A/C Burnett is a former graduate of Big Spring high school. He is a graduate diver, had two years at Daniel Baker and one at North Texas State Teachers college at Denton before he entered service two years ago.

Farm Homes And Ration Oil Machinery Utilize Butane

Besides furnishing butane gas for domestic use in this part of the country, Fraley Company's expanded service calls for strenuous schedules in meeting the demands of oil wells in West Texas which use butane in operation.

George H. Pruitt, manager of the Fraley company here, states that butane for use in this part of the state is secured from North Texas and even though no tanks are available at the present time because of wartime restrictions, employees of the butane servicing company are kept busy in maintaining and supplying users with gas as far north as Ackerly, east to Coahoma and other points in Howard county and surrounding areas.

The local plant was installed in Big Spring two years ago and the Fraley Company has gradually spread its service throughout this section. The plant was purchased from H. W. Smith in 1942 by the owner, who also has plants in Abilene and Graham.

After Fraley took over the butane company three extra trucks have been added, and the local branch has increased its business considerably in home plants and drilling contracts.

Pruitt has emphasized that butane is as safe as natural gas, and after installation is just as economical.

Having had a great deal of experience in this line of work, Pruitt feels that for home use, butane works just as well and under the same principles as natural gas.

★ **“Celebrate Hitler’s Defeat”—BUY AN EXTRA BOND!”** ★
“Keep Buying Bonds Until Tokyo Falls” **“TWO DOWN AND ONE TO GO: Keep Buying Bonds”**

BERLIN IS ONLY A WHISTLE STOP

Yeah, that was Berlin we just passed.

Seemed like we'd never get there, didn't it? And now that we made it, anybody feel like a stopover? Little celebration or something like that?

Forget it, friend. This is a through train we're on. And before we get to where we're going, Berlin will seem like a whistle stop. A dot on the map, once removed.

Tokyo's our destination. Half a world and billions of bucks

away. And if you're going our way, you pay your own freight.

That means you keep on buying more and more bonds until you've bought every bond you can dig up the dough for. And then you buy another one!

Remember, you might be making this trip the hard way. From island to island. Through the jungle. In a B-29. In a submarine.

So don't feel too sorry for yourself... Get that first extra bond today... right now... this minute!

KEEP ON BUYING BONDS TILL IT'S OVER, OVER THERE!

It took Tony Cuccinello 11 years and 10 months to the day to stomp for his ignominious Comiskey Park debut.

Salvo Wants To Be Realistic

1st Lt. Joseph D. Salvo, in charge of the parachute training program at the Big Spring Bomber school, this week attempted to obtain the fuselage of an AT-11 bombing plane to be used for practice parachute jumps at the training area adjoining the post gym.

The fuselage being sought is the same one that has been on display in back of Ground School No. 2.

Plans call for installing the fuselage about four feet off the ground, then have the officers and aviation cadets practice leaving the two escape hatches while wearing their parachutes.

"We're going to have the men familiarize themselves with leaving the back-door and also dropping through the escape hatch in the bombardier's nose in front," Lt. Salvo said.

The parachute training program calls for educating the men on the importance of wearing the chute at all times while the twin-engine bombing trainer is in flight, rather than abandoning the parachute in order to be comfortable. Failure to wear the chute is sheer folly, Lt. Salvo asserted.

"We also will stress the importance of adjusting harness leg straps properly," he said.

Newly-arrived officers will start taking the parachute-jump landing course next week, he announced. To demonstrate parachute landing techniques, Lt. Salvo made an actual descent from a plane over the field last December.

SPORTS ROUNDUP

By HUGH FULLERTON, JR.
NEW YORK, May 7 (AP) — Bob Kurland, the seven-foot Oklahoma A. & M. basketball player, has been competing in the high jump and shot put for the cowpoke track team this spring. He also comes in handy replacing the pole vault bar.

The Lid's Off— Until he went to Europe on one of those army sports clinics, neither rain nor snow nor high water in the creek could make Jack Hulme, veteran Penn State trainer, wear a hat. . . . But his uniform included an overseas cap and Jack's first letter dealt with the difficulty of keeping them. . . . "I've already lost several," he wrote. "They're an awful bother. The first thing I'll do when I hit Lewiston on the way home is throw away my cap."

Monday Matinee— The national father's day committee again is seeking a sports father of the year and, to break the baseball monopoly, suggests a sports writer might qualify. How about Red Patterson, the new National league tub thumper, who has five children. The Tiger's baseball campaign was one day shorter. . . . Arthur McBride, the Cleveland cabman, is offering a \$1,000 war bond prize for a name for his All America conference football team. Obviously it should be "Taxi-dermists."

Service Dept.— Norman Grabar, a smooth first baseman from Richmond, Calif., who already has caught the eye of Coast league scouts, is rated a standout baseballer at Camp Wolters, Tex., and likely would be playing for one of the fast Fort Worth semi-pro teams if he wasn't so busy training as an infantry doughfoot. He wants a couple of years at the U. of California before taking up pro ball. . . . Lt. James P. Thomas, Jr., former Michigan State swimmer, has just been awarded the Air Medal to go with his presidential unit citation and his Air Medal with 14 clusters, earned on 90 combat missions. He must have originated that radio gag about the guy who had to chase the squirrels out of his oak leaves every morning.

School Ending Hits Library

Approaching examinations that mark the closing of school, have accounted for the slack in reading at the Howard county library, according to Doris Nesbitt, librarian, who said Saturday that the majority of children are too busy with end-of-school activities to do very much reading.

In a recent report made by Miss Nesbitt, figures indicate that reading interest is still soaring and that circulation has almost doubled at the reading room.

Circulation for the first four months of this year totaled 8,503 compared to the last six months of 1944 with a total circulation of 4,942.

Registrations from July to December of 1944 were 722, and for the first four months of this year they totaled 535. Miss Nesbitt also stated that a smaller number of temporary residents were registering for books with more and more permanent residents checking out books to read.

WALKER IN ITALY — Sgt. Orlis H. Walker, 33, ordnance man in a Liberator bomber group of the Fifteenth air force, is stationed in Italy. Prior to his entry into the service, Sgt. Walker was employed by the Texas Coca-Cola Bottling Co. and was inducted into the air force in November, 1943. He has been overseas since February of 1944 and received his overseas training at McCook, Neb. His wife, Mrs. Cleo Walker, resides in Big Spring, and his parents, Mr. and Mrs. C. C. Walker, live near Colorado City.

IN NORTH CAROLINA — Pvt. Henry Z. (Ikey) Davidson, 18, was home on furlough recently visiting his parents, Mr. and Mrs. H. A. Davidson. He entered the Marines Jan. 10, 1945, and was in boot camp at Parris Island, S. C. He is now stationed at Camp Lejeune, N. C.

Apprentice Seamen Now Wanted In US Maritime Service

The U. S. Maritime Service is now open for the first time in 1945 for the recruiting of apprentice seamen. It was announced Saturday by Henry A. Clark of the U. S. Employment Service.

All men over 17 years of age who can pass the test for physical fitness may qualify. Although there is no recruiter for the merchant marine in Big Spring, Clark declared that the USES can take the applications which they send to Dallas headquarters.

Circulation for the first four months of this year totaled 8,503 compared to the last six months of 1944 with a total circulation of 4,942.

Registrations from July to December of 1944 were 722, and for the first four months of this year they totaled 535. Miss Nesbitt also stated that a smaller number of temporary residents were registering for books with more and more permanent residents checking out books to read.

Kyle F. Mathews Jr. has been promoted to the grade of staff sergeant.

FLIER DECLARED DEAD—Lt. Cecil R. Brown, 8th air force Thunderbolt fighter pilot, who has been missing in action a year is now presumed to be dead, the War Department has notified his wife, Mrs. Gussie Mae Brown. In a ceremony at Brooks Field Mrs. Brown recently was presented the Air Medal and cluster. Lt. Brown is the son of C. C. Brown, and brother of Mrs. E. W. Lowe, Mrs. T. E. Osborn and Mrs. Vergie Young of Big Spring. Mrs. Brown and their seven months old daughter, Cecilia Rae, live in San Antonio.

Texas Leading Southwest Loop

The Southwest Conference baseball race has three more weeks to run and Texas holds the inside track.

The Longhorns play Southern Methodist in two games this week, then will come series with Texas A. and M. and Rice.

Rice meets the Aggies in a couple this week and by losing both could just about hand the title to Texas, provided the Longhorns took their games from S. M. U. However, it is not likely Rice will lose one game much less two to A. and M.

Southern Methodist and A. and M. divided a double-header last week, the Mustangs winning the first 4-1 and A. and M. the second 2-1. Then A. and M. dropped a game to T. C. U. 12-4.

Rice and T. C. U. split a double bill Saturday with the Owls capturing the opener 8-1 and losing the nightcap 5-1.

Rice and A. and M. play at Houston Wednesday and Thursday while Texas and S. M. U. meet at Austin the same days.

Extensive Terracing Program Is Effective

Officials of the eastern one-third section of the Martin-Howard Soil Conservation district have issued a report on contour planting and terracing on the farms of 196 district cooperators within this area.

Midland Flier Is Okinawa Ace

OKINAWA, May 4 (Delayed) (AP) Three marine fighter pilots became ace this morning by downing four Japanese planes each. Each had downed at least one other enemy aircraft earlier in the Okinawa campaign.

They included Joe Dillard, 22, Midland, Tex. Dillard said his formation encountered six Val dive bombers and six Dinahs at 8 a. m. as they came in four at a time, five minutes apart.

"I caught the first plane 200 feet off the water and sent him in smoking. His tail gunner shot back at me a few times," Dillard related.

"I made an overhead run at another Dinah right on the water. Then I split one with 1st Lt. Francis A. Terrel, 24, Tacoma, Wash.; then blew up a Val which was making a run on a (U.S.) ship."

Better Go Through Those Pockets First
NEW YORK, May 7 (AP) Bundles given United National Clothing Collection workers here have included:

- (1) A full set of ration books.
- (2) A girl's best skirt. Workers found it in time for her big date that night.
- (3) The family laundry, confused with used clothing by a small boy who returned saying, "Mama will be mad at me."

Contour planting has been established on 39,255 acres of the 52,007 acres planned and 1,310 miles of terraces were planned on 48,752 acres. Four hundred miles of this have been constructed on 12,964 acres, with 102 miles on 2,645 acres having been constructed during the last 12 months.

A number of other terraces have been built but they do not yet meet district specifications and are not included in the above figures. Minimum district specifications for terraces are 15-inches settled height, 24-foot base width and four feet crown width.

LAKELAND TO PLAY
LAKELAND, Fla., May 7 (AP) — "Grand Slammer" Bobby Jones has consented to play Earl Christiansen, Miami shotmaker, in an 18-hole golf match here May 13 marking the opening of the Seventh War Loan Drive.

To hasten the preparation of a casserole dish, place the mixture in individual dishes and shorten the cooking period.

Mexican Consuls In Three-Way Shift

HOUSTON, May 5 (AP) — Adolfo Dominguez, Mexican consul at Houston, expects to leave for Nogales, Ariz., shortly after May 15 to assume a similar post there. He succeeds Jose Rubio Rojo, who is being transferred to Brownsville. Enrique Ballesteros, Mexican consul at Brownsville, has been assigned the Houston post.

Invitational Baseball Tournament Planned

ABILENE, May 7 (AP)—A West Texas invitational high school baseball tournament will be held here next weekend, but whether it will be a two-day affair depends upon the number of entries filed by next Monday noon, the deadline, school officials said. Already entered are Sweetwater, Roscoe, Lawn, Trent, Ovalo and Abilene.

Private Breger Abroad By Dave Breger

"We've decided that YOU gotta deliver this message, Dave, because you make the smallest target!"

Can't you leave the telephone in?

The girls in the telephone business office are often asked: "There's a telephone already in the place where I'm moving. Why can't I have it?"

Well, it would be easier for us to say "Yes." But it would be unfair to the many patient people ahead of you on the waiting list for telephone service in your neighborhood. Here's why:

In many cities, telephone central offices are full. Often every wire in the cable serving your neighborhood is already connected to a telephone. About the only way we can give new service is when someone who has service gives it up. That makes room to serve the next person on the waiting list in his proper turn.

That seems the only fair way to do the job — and the way we think you would want us to do it.

A Hopeless War Position

The War Today

by Dewitt Mackenzie
Associated Press War Analyst

Now that the Allies have knocked out Nazism in the bloodiest and most devastating conflict ever known, and we stop to check up on the great achievement, we find ourselves facing the staggering paradoxical problem of what sort of victory we have in hand—in short, whether we really have won the war.

The measure of our success should soon be known, and it will lie in the extent of Allied cooperation in the rehabilitation task. Six months ago Marshal Stalin said that there was no need to doubt that if the fighting alliance of the democratic powers had stood the trial of the war that far, the more so would the alliance stand the trials of the concluding stage of the war.

Well, the alliance has stood the trials thus far, but it is about to be put to even greater tests. With the coming of "peace" we shall be plunged immediately into a politico-economic mess which will be filled with dangers which have no precedent.

To win the war we must win the rehabilitation period.

At the end of the last war the German armies laid down their arms and marched home to a country which was short of supplies because of the naval blockade, but didn't have a war scratch on it.

Now Germany's mechanical engineering industry has either been destroyed in the main or is to be taken away from East Prussia and Silesia. Her mineral wealth will be greatly reduced.

Thus the reich, which was an integral section of the European economic structure, is dropping out of this place. So the specialists must now figure out a way to balance the economy of a Europe which is badly shot to pieces, quite apart from the German position.

This situation is complicated by the political changes which are sweeping the continent.

Japan's position in the Pacific air war is becoming more and more discouraging for Nippon's war lords.

Associated Press Correspondent Harold Streeter in a recent dispatch from Guam pointed out how steadily Japan's defeat is progressing since the swift development of American bases in the Marianas.

Nine months ago, when newly-won Saipan and Tinian and recaptured Guam were in a rudimentary stage, Japan's home-based air strength approximated 2,500 bombers and 2,000 fighters.

Today, Japan is scraping the barrel to accumulate air power for defense of the encroached homeland. Those 700 planes in the Philippines have dwindled to 15 or 20, just as American air power was reduced almost to nothing back in early 1942 when the positions were reversed.

The quality of certain types of enemy planes remains high. There even have been improvements, Streeter comments.

He says it is difficult to present an overall assessment of the quality of Japanese airmen except to say it long since has passed its peak. "American fliers in the Marianas who have tangled with the Nipponese over Tokyo and other cities say they meet expert and aggressive opposition on some occasions and quite the reverse on others over the same targets. They seem agreed that the Japanese make it more rugged over Nagoya than over Tokyo.

Tokyo itself blames Japan's difficulty in keeping its air force in operation on a shortage of fuel and light metals.

A broadcast the other day conceded flatly that "Japan is cut off from resources of the southern regions" but assured the Japanese that the difficulties would be overcome.

Airplanes will be made of wood and light metals stored in Japan, the radio said, aviation fuel will be derived from potatoes and oil from pine roots. Somehow, from over here, it doesn't look very encouraging for them.

Conference Highlights—

The Issues In Ordinary Language

SAN FRANCISCO, May 7 (Sp) Red is the predominant color in San Francisco.

The sight-seers give Mr. Edward Stettinius no more than a second glance, for all his handsome black eyebrows. Pink-checked and charming Anthony Eden is somewhat more of an attraction. But Russia's Mr. Molotov brings out

the "ohs" and the "ahs," Russia's Mr. Molotov is the one the taxi-drivers talk about. He's not handsome. He's not young. He's not companionable. He darts in and out of hotels and meeting rooms, and consults like the famed rabbit Alice followed. And like Alice, San Francisco has followed Mr. Molotov and all the Russian

delegation. Even the newspaper reporters, practically all 2,000 of them, are seeing red. They, too, love a mystery. And a fight. And the Russian delegation has offered the nearest thing to a fight.

In retrospect, about all the Russians have done is to (1) speak out in meeting; (2) get knocked down twice, draw once, and win once; (3) and take their victory and their defeats with easy equilibrium.

But it's not correct that the Russians have been "running" the conference. They've spoken out in meeting. But that's a good old American custom—maybe temporarily in abeyance due to the exigencies of diplomacy.

Looking at the Russians in retrospect here's the storms they created and the outcome:

1. The Russians objected to the United States having the permanent chairmanship. Outcome: The four "sponsoring powers" were named co-equal chairmen, with the United States' Edward Stettinius as permanent presiding officer.
2. Russia asked the seating of Ukraine and White Russia. This was granted without a word of protest. The United Kingdom and the United States agreed to it at Yalta.
3. Russia asked the seating of the Warsaw or Lublin Polish government. This was refused, flatly and with no equivocation by the British and Americans.
4. Russia opposed the seating of Argentina. She lost.

What were the significances of these squabbles considered individually?

The chairmanship was wholly unimportant, except in principle. The seating of Ukraine and White Russia were relatively unimportant. These nations, or Republics, do have a semi-independent status within the Soviet union. They are large areas. They are economically and industrially important areas. They made large contributions to the war. But as to their significance: It means there were two more votes for Russia. The largest number of votes supporting Russia on a division will have, presumably, nine votes. Contrast that to the 21 votes of the united Americans.

And the Americans were made more united by the seating of Argentina which Russia so bitterly opposed. There is a vast sympathy for Russia's position—even among the United States delegation. Some United States delegates felt a personal repugnance at this seating of Argentina because of her pro-fascist tendencies.

So the realistic score on Russia, considered from the most favorable angle, is: Four fights; two losses; one win; one draw.

The next question is: Why was Argentina seated? That will be discussed in the next of this series.

Hollywood—

A Reporter's Tale Of Two Cities

By BOB THOMAS
SAN FRANCISCO — Now that the eyes and ears of the world are focused here, it might be

pertinent to point out the differences between this United Nations meeting place and a village 400 miles south of here, called Hollywood.

Actually, Hollywood is a general term for the movie industry, which is spread out over a wide area. For academic purposes, we shall call the place by its environment, Los Angeles, which is a more inclusive term.

I undertake this task at the risk of having to turn in my merit badges as a Native Son of Sunny Southern California, because the comparison is not always favorable for the southern city. But here goes:

The Timid Soul

With The AEF: End Of War Finds Yanks Are Curiously Unexcited

By HAL BOYLE
WITH AMERICAN TROOPS IN GERMANY, May 3 (Delayed) (AP) The victory over Germany finds the average American soldier curiously unexcited.

There is little exuberance, little enthusiasm and almost none of the whoop-it-up spirit with which hundreds of thousands of men looked forward to this event a year ago.

It has been a long and bloody trail—this 800-mile march from the beaches of Normandy in less than 11 months. It has drained much from the men who made it—much from their bodies and much from their spirit. They are physically and emotionally tired.

The destruction of the German armies came more slowly in this war than in 1918 when the armistice burst with climatic suddenness, stunning the world with joy. This time there has been a series of capitulations and surrenders.

For most units there was a gradual cessation of combat as German lines melted into nothing before them or dissolved in chaos. That has prevented any mass feeling of exhilaration such as swept through the American army and the American nation at the close of the last war.

It also has given many soldiers days or weeks in which to think—ponder over problems that victory in the west brings. And pre-eminently they are talking over one thing:

"Will I be sent to the Pacific?"

They have written the European war off the books in the army ranks and the chief topic is what outfits will be sent around the world to finish cleaning up the Japs.

It is only truthful to report that a very small percentage of these veteran troops have any desire to go and fight Japanese. There is a great and spreading nostalgia for home and peace among the battle-weary soldiers who have walked and fought painful miles from Cherbourg to the Elbe.

Washington—
Wallace Bounce Is BOOM-erang

By JACK STINNETT
WASHINGTON—Take the word of many serious observers here, Henry A. Wallace is continuing to confound some of his best friends and severest critics. (They aren't the same people.)

As secretary of agriculture back in the plow-under days of depression and later, Wallace took critical thumpings from about three points of the compass.

He survived that to win the 1940 presidential nomination in a manner that nearly brought the whole rank and file of the Democratic party down on him. As vice president, he raised his stature in spite of the political block-busters tossed at him.

By 1944 he was so strong that it was conceded only his resignation to the will of "The Chief" kept his backers from revolting against his being side-tracked in favor of Harry S. Truman.

When he handed the Senate gavel to Vice President Truman, and was nominated as secretary of commerce, again you could have bought Wallace political stock far below par. Not until Congress had stripped his job of those great RFC lending powers would the Senate confirm him for the job.

Some opponents began to whisper gleefully behind their hands about the "end of Wallace." Without the vast lending agency they visualized Wallace as one of the sitters in the farthest back seat of the cabinet carry-all.

Apparently, those opponents overlooked the fact that Wallace learned his politics from the boomerang and a pre-war tennis ball.

Going quietly about the business of reorganizing the Department of Commerce, the new secretary shortly will come forth with a full-sized book called "60,000,000 Jobs." I have talked to some of the men who have been helping him put together the statistics for it. They insist that there will be nothing "visionary" in this Wallace

Today And Tomorrow—

The Disgrace Of Germany

By WALTER LIPPMANN
SAN FRANCISCO—In our time we have seen other great states go down in wreck and ruin to defeat—Czarist Russia in 1917, Hohenzollern Germany and the Hapsburg monarchy in 1918, Mussolini's Italy in this war. The defeat of Hitler's Reich differs from all of them. The difference is not, as Albert Speer, the Nazi Minister of Munitions, has sought to make us believe, in the enormity of the devastation. Nor is it in the completeness with which the army has been defeated in battle. It is that the German nation has surrendered without making an effort of any kind to redeem its honor.

The end is total defeat in total disgrace because no Germans have come forward who might claim by their resistance to Nazism, even in its last hours, to be the representatives of a better Germany.

deed, or there would have been some sort of German rebellion to give a little dignity to the final collapse and surrender.

There would have been Germans who rose up, not to help the Allies, but to help Germany, to seize the criminals, to offer themselves as the pioneers of a new Germany. There are none, and so we are left not with a nation but with a demoralized and disgraced inchoate horde, incapable of accepting moral responsibility for what has happened or of participating in what needs to be done.

It will not be easy for the Allies to deal justly and honorably with a nation which risked everything in order to subjugate others, and then risked everything to avoid punishment, but which has risked nothing to save its soul and to prove that it is capable of taking an honorable place in the family of nations. The Italians fought badly in this war, probably because their hearts were never in it, but in the end they showed that they could fight and die to restore the honor of Italy, and that Italian fascism can be determined by Italians. It may not have been a pretty spectacle to assassinate Mussolini, and cast him into the gutter, and hang him by the heels in a public square. But it was rough justice and above all it was Italian justice and it goes to prove that while many Italians have been brutalized by the long degradation of fascist rule, Italy has not been totally corrupted.

The problem of Germany becomes, whether we wish it or not, the problem of the four allied powers. They must now occupy and govern the wreckage and the remains of the German national state. There are no precedents for solving such a problem. There is nothing in the whole political experience of mankind which teaches us how four nations as diverse as the British, the French, the Russians, and the Americans are to govern and administer huge population which is in the material and moral condition of the Germans.

All that one can say is that unless these four powers manage to work together, they will not only fail to deal with the German problem but their failure will divide them and separate them catastrophically. There is no hope whatever except in their unanimity, which can be maintained only by a kind of fanatical patience, by invincible determination to give and take in order that they can act together.

There is a good future for Italy because the Italians have proved that they themselves know how to detect the crimes of fascism, that they themselves have the will to judge its crimes and to exact punishment for them.

How are the Allies to make an honorable peace with the German nation when there are no Germans who have come forward to redeem Germany's honor? It is nonsense to plead that the Gestapo was too powerful. Millions of Germans have been willing to die for Hitler, but very few indeed to die in order to lift the curse of Hitler from Germany and from the world.

Millions of French, Dutch, Belgians, Poles, Czechs, Norwegians, Danes, Italians, even Austrians, took the risks of the Gestapo, and knew how to be tortured and to die when they could not outwit the Gestapo. But in Germany what resistance there was must have been feeble and scattered in-

Moscow Claims That Four Million Killed In Atrocity Camp

LONDON, May 7 (AP)—The Moscow radio said today that more than 4,000,000 persons of various European nationalities were killed by the Germans in the Oswiecim concentration camp in Poland.

The broadcast quoted the Soviet Extraordinary State Commission describing the camp as "far surpassing all hitherto known German death-camps in its elaborate and mass-scale extermination of equipment, technical organization people."

"German professors and doctors conducted here mass experiments on perfectly healthy men, women and children" the report said. "They conducted experiments in sterilization of women, castration of men, experiments on children, experiments on artificial infection of masses of people with cancer, typhus and malaria and they tested poisons on live people."

LT. ANDREWS HURLS BOMBERS TO 4-1 WIN OVER CHILDRESS

The Big Spring Bombers yesterday evened the count in their series with the strong Childress AAF Fliers, taking a 4-1 decision in a well played game.

1st Lt. Bill Andrews, former Alabama Poly star, turned in a masterful pitching performance, holding the visitors to three scattered hits, struck out 11 and allowed only three bases on balls.

With the score tied at one-all, Lt. Andrews touched off a three-run rally in the seventh with a double to right and scored with what proved to be the winning run when 1st Lt. John Graziano, speedy leftfielder, followed with a double to left.

Maj. Frank Craig, former star hurler at Ohio State, was driven from the box when tagged for four hits in that frame.

F-O George Buck's big bat was a determining factor in the Bombers' win. Playing at first base in the absence of Sgt. Bill Ramsey, who was out with a blistered finger, Buck blasted a homer over centerfield in the fourth to stake the Bombers to a one-run lead. In the seventh he singled Lt. Graziano home, stole second and came home of S-Sgt. Dixon Kirk's single over short.

The Fliers had tied the count in the seventh when Moore walked, made second on a bunt and was sacrificed to third to set the stage for Myers to squeeze him home.

Avenged was a 9-8 loss, in 10-

Secret Vote Bill Advanced

AUSTIN, May 7 (AP)—The Texas senate today revived, then voted final passage, of a bill designed to make the ballot more secret. The measure had been defeated last week, but it was kept alive by a motion to reconsider.

The senate also passed a bill by Sen. Franklin Spears of San Antonio, making discrimination against persons of Latin American, Indian or Caucasian descent in places of business catering to the public, a misdemeanor. There were 22 ayes and 2 noes.

The anti-discrimination measure was passed with an amendment providing that it would not apply to citizens or relatives of citizens of countries which did not similarly protect citizens of the United States from discrimination. The bill specifies that only discrimination "by reason of race" shall be considered unlawful.

The secret ballot bill by Sen. James A. Stanford of Austin, was revived on a 20 to 9 vote calling for reconsideration. It was finally passed by a vote of 21 to 7. It had failed of passage last week on a 14 to 4 vote, when Lieut. Gov. John Lee Smith, presiding, in effect, broke the tie by declaring the bill had not passed.

Both measures must go to the house for further action.

"But let's face facts: I may not get a new car for 2 or 3 years after victory! It's tough, but..."

"After all, my Gulf man's on my side! And he says if I treat my car regularly with Gulf-Pride* and Gulflex**, it can last well beyond V-Day!"

"What's more, I believe him, because I know he gives the finest lubrication I can get anywhere! Yes, sir, I'm betting my car will last!"

Atrocity Pictures

Motion pictures of German atrocities in concentration camps are shown in a Pathe News reel which is exhibited today at the Lyric theatre for the last time. These are the first such pictures projected here.

ROTARY TO HEAR CHOIR

The A Capella choir from Abilene Christian College will be heard at the Big Spring Rotary club Tuesday noon, club officials announced. The program is being moved to the Settles ballroom to accommodate the crowd. Rotarians were asked to bring their wives and other guests.
