HOME TOWN TALK

By Beddy

Big Spring, having been favored in an unusual way by being made the junction point of the two parts of the government's new southern transcontinental air mail line, should begin on the right foot as an important air mail depot when the first ships are operated October 16.

The Chamber of Commerce has charge of plans to have hundreds of pounds of letters placed on the first ships to arrive, as well as for sending letters to distant points for delivery here by the first ships to arrive.

We have heard several persons ask just what benefit getting the air mail designation will bring.

Although payrolls are necessary not all the things that help a town are industrial institutions. We need other things. Nothing will hook up more admirably with the oil industry, in all its branches than air mail. Most of the companies operating in West Texas have allied offices in the larger cities north and east. To have the advantage of air mail will mean much.

Big Spring will be made a concentration point for thousands of all mail letters as the result of this new line. Anything that makes your town more of a center of trade and exchange is good for it.

The actual value of air mail, now great enough, will begin to unfold more and more every year.

Not the least of the advantages will be that of making the local airport the busiest of any in West Texas, with the possible exception of Amarillo. More men will be stationed here, more planes will stop, more will be serviced—activity will reign.

Commercial aviation generally follows the government lines. This line—the two converging here eventually will be lighted and before many moons night flying will be commonplace.

A special cancellation of stamps on letters posted for mailing on the first ships to carry mail over the new lines has been granted through Postmaster E. E. Fahrnkamp. Every person in the city who possibly can should take advantage of it and help begin regular air mail service with a rush.

Congratulatory letters and telegrams from scores of men prominent in Texas circles commending the work of the Chamber of Commerce for its part in opening the new Settles Hotel have been received by C. T. Watson, manager. One from Governor Dan Moody expresses his regrets of being unable to attend the celebration and congratulates Big Spring in obtaining such a noteworthy.

Opens New Store

VICTOR MELLINGER

This popular Big Spring merchant, successful in 13 years of operation here, opened his new store, Victor Mellinger's, at the busy corner of Third and Main streets Friday.

Hundreds crowded the new store from the time of opening the doors. The entire stock is new, and is in a newly remodeled building, a part of the Masonic building ninety-six by 30 feet. The interior is attractively finished and fixtures were designed especially for this store's needs. One of the attractive features are the show windows, three in number, arranged so that a window is situated at each side of both front entrances, one off Third and the other off Main street. The center window, at the very front corner of the building, is multi-angled, with glass frontage almost entirely of plate glass.

Mr. Mellinger was receiving the hearty congratulations of his many friends as his new store opened. Those who were present were also greeting scores who called to see him.

Piece goods, ready-to-wear of all kinds, shoes for every member of the family, hosiery, hats, luggage and notions—a complete line of merchandise is carried in this store. Quality shoes for women, fitted Goodyear shoes for children, John C. Roberts and Friedman-Sheiby shoes for men and boys are among the lines carried. Stetson hats, Phoenix hosiery, Humming Bird hosiery, Styleplus men's clothing, Master Made dresses especially for juniors and many other lines nationally known and guaranteed for quality are concentrated in this new store.

Many Attend Second Hotel Dinner-Dance

Settles Sets High Mark Of Success At Its Beginning

Setting a high mark of success, compared with programs that have marked the opening of the larger new hotels of the southwest, the two-night round of festivities which officially brought the Settles, Big Spring's new 15-story hotel, into the realm of the fine institutions of the kind was closed Thursday when a capacity crowd attended the second of the dinner-dances.

Food and music of the finest kind made the second night equally successful with the first. The program originally was scheduled for one night only but demand for reservations was so heavy arrangements were made for two nights.

Moody Not To Call Session On Cotton Cut

Cooperation Of Other Southern States Is Sought

AUSTIN, Oct. 3. (AP)—Declining to call a special session of the Texas legislature for cotton acreage reduction without assurance that other cotton states would join in, Governor Dan Moody consented today to confer with other Southern governors in a Southwide reduction program.

The governor's promise was passed at a meeting with a committee headed by J. E. McDonald, Democratic nominee for commissioner of agriculture and sponsor of the cotton acreage reduction bill in the last legislature.

After the meeting, McDonald said he had not given up hope for a special session and did not regard the governor's statements as a refusal. He said he was certain that if a conference of the cotton states governors could be arranged, all would agree to call their legislatures into special session for the purpose of enacting acreage limitation laws.

The governor promised to communicate with Southern governors immediately asking if they would attend a conference to discuss the entire program.

Throughout the conference the governor insisted that the federal board should take the lead in a movement for reduction of acreage, and that should Texas pass a law without similar laws being passed in other states, Texas might be at a decided disadvantage should farmers in other states decide to increase their production.

He flatly refused to take the initiative in convening the Texas legislature, expressed the opinion that enactment of the McDonald bill by the legislature in January would be sufficiently soon, and did not definitely promise that he would call a special session should other Southern governors agree upon that course.

Grave doubts were raised as to the constitutionality of any cotton reduction measure. It appeared probable that the attorney general of Texas and the United States attorney general would be asked to pass upon the bill's validity.

JACKSON, Miss., Oct. 3. (AP)—Mississippi was among the first Southern states to enact legislation relative to cotton acreage reduction, the enforcement of which is contingent upon a sufficient number of other Southern states agreeing to a similar plan.

Under the Mississippi law, sheriffs of the counties would be empowered to enforce the provisions of the Mississippi law which prohibits planting more than 60 per cent of land in cotton than was under cultivation the preceding year, or virtually calls for a 40 per cent acreage reduction.

FRANK FRISCH SLIDES INTO SECOND

This Associated Press telephoto shows Frisch, Cardinal captain, sliding into second after doubling in first inning of first war series game. Left fielder is American football star.

SIMMONS' HOMER PUTS ATHLETICS EVEN

With the A's one run behind Al Simmons lifted a homer over the right field wall in the fourth inning of the first war era game with the Cardinals. This Associated Press telephoto shows him crossing plate. Moriarty is the umpire.

Watson Heard At Luncheon Of Lions Club Mer

Pointing out progress made during the past few weeks on the proposed T. & P. N. Railway, and urging members to aid in the celebration at the local airport either Oct. 15 or 16 when the first transcontinental mail plane arrives, C. T. Watson, manager of the Chamber of Commerce, was the principal speaker at the regular luncheon of the Lions Club, held in the private dining room of the Settles Hotel.

Mr. Watson also announced a meeting of representatives of various service clubs of the city at 2 p. m. today to discuss a proposed county road bond issue. W. E. Bonham, Tracy Smith and E. F. Duncan, were appointed to meet with the body.

Mr. Watson declared he expected the Interstate Commerce Commission to hold its hearing on the proposed railway sometime in November, at Lubbock, Amarillo or Big Spring. He declared one member of the body would hold the meeting.

He declared Mr. J. O. Oliver, Washington, who was engaged as legal counsel for \$3,000, has paid a visit to Big Spring and made a complete survey of the proposed line.

Program For Opening Day Of Air Mail Service Being Planned By Local Chamber

Chamber of Commerce officials are working on a short program to be given at the local airport when the first plane of the newly designated transcontinental air mail line reaches Big Spring, either Oct. 15 or the morning of Oct. 16.

Lease Probe Uncovers High Re-Lease Sum

University Lands Are Center Of Another Investigation

AUSTIN, Texas, Oct. 3. (AP)—Irregularities in the leasing of lands of the University of Texas for grazing purposes, which resulted in the cancellation of several leases by the University's board of regents, were brought out here today at a meeting of the house investigation committee.

Railroad Man's Talk Challenged By Brookhart

WASHINGTON, Oct. 3. (AP)—Taking issue with Fred W. Sargent, president of the Chicago Northwestern Railway, that the government was drifting toward confiscation of railroad property through subsidiaries for construction of inland waterways and public roads, Senator Brookhart, Republican, Iowa, today said his statement was tantamount to a declaration of war by the railroad on the nation's waterway improvement plans.

"The people of the west were happy in the thought that the government had adopted a general policy of improving the inland waterways," Brookhart said. "Now the whole policy is threatened by an attack of the railroads."

"This attack," he continued, "is not mere idle vapors, but the mature thought of the shrewdest lawyers in the country. It means that every legal artifice will be used to stop the improvement of our rivers in competition with the railroads."

The government subsidized the railroads, he said, by giving them 155,000,000 acres of land for construction and later again subsidized them when private operation broke down under the world war strain. The railroads padded their expenses, he asserted, to make government operation appear unsuccessful.

M-K-T LOSES PLEA TO MOVE DIST. OFFICE

AUSTIN, Oct. 3. (AP)—The Missouri-Kansas-Texas railroad today was denied the right to remove its South Texas district offices from Smithville to Waco, in an order by the state railroad commission in the now famous Smithville case.

Morris Sheppard Endorses Amendment On University Land Tax

SAN ANGELO, Tex., Oct. 3. (AP)—"Every consideration of justice, equality and fairness calls for adoption of the University land tax amendment," declared Senator Morris Sheppard in a message to Rep. Penrose B. Metcalf, of San Angelo, sponsor of the amendment in the legislature. The message today expressed the hope that the land amendment will be overwhelmingly adopted by the people of Texas, and adds "it will relieve the people of seventeen Texas counties from the burden of unequal taxation which they have borne so long."

Fate Of Woman Taken By Negro Not Solved

FORT WORTH, Oct. 3. (AP)—There were no clues today to the identity of fate of a woman reported to have been kidnapped Wednesday night by a negro robber who held up W. T. Hutson, a woman and the woman were held up by a negro on the North Side and the woman carried off by the negro after Hutson had been bound with wire, according to Hutson's story to police.

Program Of Convention Is Announced

Entire Line Will Be Represented By Delegates

Preparations for the convention of Association of Mechanical Department Employees of the Texas and Pacific Railway Company, to be held here Oct. 6 and 7, are going forward rapidly.

The sessions will open at 8 a. m., Monday at the Settles Hotel, convention headquarters.

Approximately 50 delegates are expected to attend the two-day convention, with more than 150 present for the banquet and other entertainment. Registration of delegates will start Monday morning. The first session will open at 8:30 a. m.

Entertainment features include a banquet and dance Monday night, inspection of the new T. & P. engine terminal, recently opened, and drives over the city.

Two Permits To Market Milk Are Issued Here

Two permits to market milk in the city were issued Friday, according to Jimmy Williams, city sanitation inspector, who also announced 331 cows had been given the tuberculin test.

SCHOOLS CLOSED

WICHITA, Kas., Oct. 3. (AP)—All grade schools in Wichita were ordered closed today for two weeks by Dr. H. E. Hobbs, city health officer, as a result of an outbreak of infantile paralysis here.

SPOT COTTON

DALLAS, Oct. 3. (AP)—Middling cotton, 87.75; Houston 83.55; Galveston 81.00.

The Weather

FORECAST: West Texas: Partly cloudy, probably showers in southern portion tonight and Saturday. East Texas: Partly cloudy, probably showers in southern portion and on west coast tonight and Saturday. Oklahoma: Partly cloudy and unsettled, probably showers in north portion tonight and Saturday. Kansas: Partly cloudy and somewhat unsettled, probably showers in extreme northwest portion tonight and Saturday. Flying weather forecast Texas and Oklahoma for today: Partly cloudy to cloudy light to moderate easterly to southerly wind at surface light to strong southerly winds up to 5,000 feet and moderate southerly to westerly winds at higher levels.

Dallas Firm Seeks To Take Cotton 'Out'

AUSTIN, Oct. 2. (INS)—Depressed cotton prices, long an unsolved problem taxing the ingenuity of governments and civic organizations, is to be attacked from a new angle.

To take 500,000 bales of cotton from the market within the month is the plan of a Dallas firm seeking to have the Secretary of State approve its declaration of trust.

The Southern Cotton Trust has made application for a blue sky permit to "sell certificates of beneficial interest in a common law trust." The organizers propose to buy cotton at its present low price and hold it for a higher price, making a profit for investors in the trust.

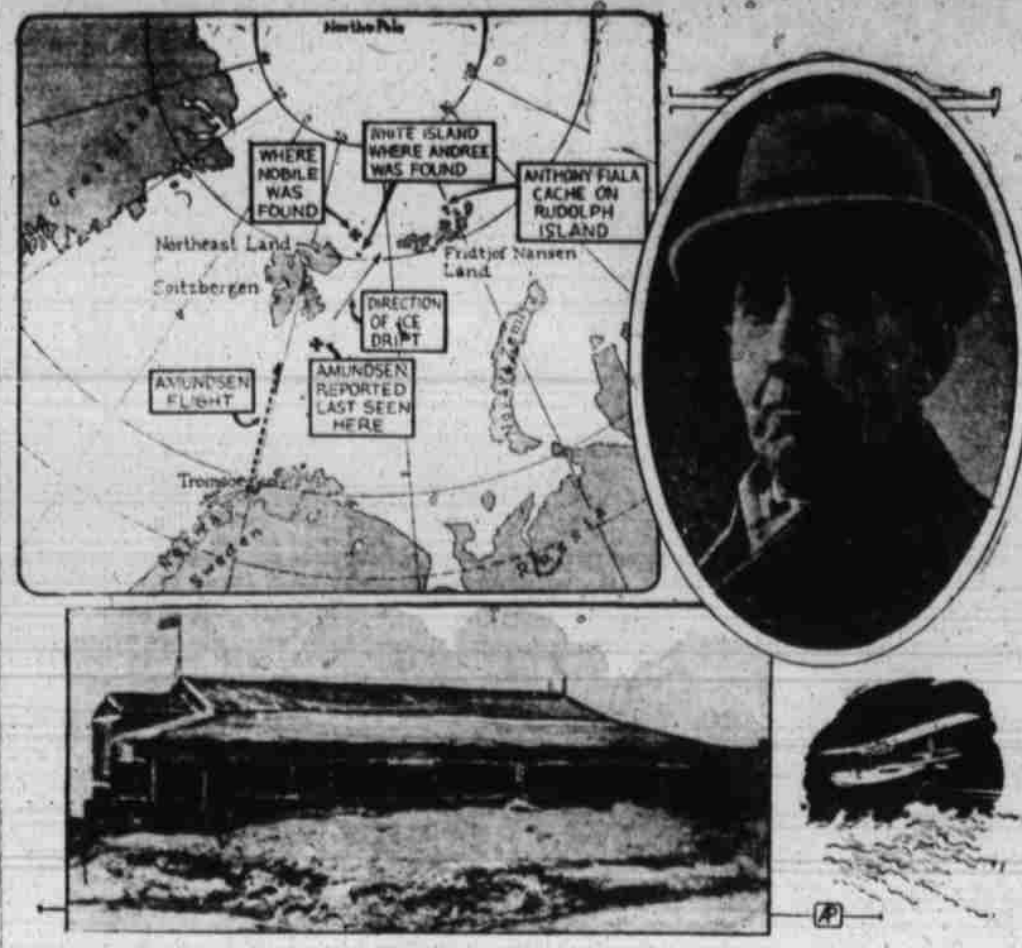

The taking of 500,000 bales of cotton off the market, which is their aim would have the effect of pushing the price of cotton upward, they think. The application for the declaration of trust sets out that 3,000 certificates of interest in the trust will be sold to the public at \$15.50 each.

The claim that \$19,500 worth of certificates in the concern have already been subscribed, is advanced in the application. The application for the declaration of trust is likely to be approved, the department of state has indicated.

Only ten per cent would be allowed as commissions for selling the certificates.

Trustees named for the concern are: D. R. Hitzmann, A. E. Merkel, H. T. Pearson, and Clarke W. Clarke, all of Dallas.

Amundsen May Have Lived In Frozen North If He Found Food Cache Placed 25 Years Ago

Hope that Roald Amundsen (right) might have lived after disappearing in 1928 in a French sea-plane (lower right) on quest for Umberto Noble centers in slight chance that he may have found food cache (below) left on Rudolph Island (map) by Anthony Fiala expedition in 1905.

BY HOWARD W. BLAKESLEE
Associated Press Science Editor

NEW YORK (AP)—Roald Amundsen's chance of still being alive in the Arctic is better than most persons know.

Forgotten by most of the world, there is a two-ton food cache far northeast of Spitzbergen out near where Amundsen expected to search for Umberto Noble.

Amundsen knew its contents intimately when he set out by plane from Tromsø, Norway, June 18, 1928, on his Noble rescue quest.

The chance that he reached this cache is almost fantastic, but there is one report indicating that he was last seen traveling in that direction.

Of all the 1st explorers still missing in the Arctic, only 12 of them are believed to be still alive, because 129, the Franklin expedition members, now would be well over 100 years old, and three members of the Duke or Abruzzi's party in 1900 disappeared in sight of land.

The dozen are the six men dragged aloft in the broken Noble airship, Italia, and the six of Amundsen's party. Hope for the men in the Italia seems absurd.

Yet there is this coincidence—they broke loose not far from the food cache, and according to the natural drift of Arctic air, might be expected to travel in its direction.

This cache lies on Rudolph island, northernmost of the Franz Josef archipelago. It was left there by Anthony Fiala in 1905, in a com-

modious building in which he and the score of men composing his Ziegler polar expedition from the wrecked ship America, spent about three years. He says it has even an electric light plant.

Coal for the plant is available on the surface of the ground of a nearby island. Fiala left about two tons of food comprising mostly of canned goods, pemmican and bread. Much of it was from his own supplies, but part came from a cache left nearby still earlier by the Duke of the Abruzzi.

Fiala also left boots, clothing, one rifle and one shotgun, with ammunition for each. He left two English whaleboats and one kiak.

Fiala now resides in New York where he makes a business of outfitting sportsmen and explorers.

"I have always thought," he said, "that there might be a chance for Amundsen. He knew all about this cache. A few months before his disappearance he spent an evening with me here and we talked about it."

Amundsen, discoverer of the South Pole, rated as one of the most resourceful of all Arctic explorers, had lived in seeming comfort in places where even other scientists doubted it could be done.

When he left Tromsø he was supposed to be headed for one of the bays of Spitzbergen, a flight of 600 miles over water, on a course not directly toward Noble and the cache. He was never sighted definitely anywhere.

Parrish Seeks To Place State In Oil Business

AUSTIN, Oct. 2.—The hide and seek game of hunting for oil that has provided adventure for oil company scouts and at times has unearthed fortunes for the adventurers, will be played by the state as well as the operators on state-owned lands, if Senator Parrish L. Parrish of Lubbock has his way.

The state will "geologize" for oil all its university, public school, asylum, deaf and dumb school and prison lands, before putting leases on the market, under a bill which Senator Parrish announced he will sponsor in the legislature in January.

Oil companies already, through geologists' surveys of university lands, have picked off the cream of that acreage for oil purposes, at a fraction of its value in most instances, Senator Parrish said.

Ultimately, he believes the public school fund will build its present small royalty to a higher total than the university, which has so far accumulated \$15,000,000. The state will have a chance to sell these school lands for a nearer approximation of their real value, he insisted.

Prison system lands, believed to possess good oil prospects, also should be geologized for oil, the Senator declared, as well as lands belonging to the eleemosynary funds.

Texas Tech College, Lubbock, is turning out expert geologists, such as oil companies are glad to hire, he pointed out. If their services are valuable, as shown by the reliance oil operators put in their report, then the state should make use of the training it furnishes its graduates, Senator Parrish believes. He said one expert geologist, assisted by students from the colleges, would be able to survey large tracts of the public lands.

Such lands as are declared probable oil producing areas should be put on the market with a fair minimum price fixed, instead of the customary 30 cents for \$1 an acre, he said. Competitive bidding would be continued by award of the leases to the highest bidders for bonuses above the minimum price.

Even for unsold university lands, the proper surveys holds promise of getting the state far more than the present lack of system in the sales, Senator Parrish insisted.

West Texas Publisher Writes British Newspaper His Ideas Of Country After Visit There

LONDON, Oct. 2. (AP)—Great Britain is passing through a critical period of her long history according to Houston Harte, San Angelo, Texas, publisher who spent a month studying conditions in Ireland, Scotland and England.

During the crisis the British press is wasting its energy and dissipating its influence by what appeared to Mr. Harte as nothing more or less than an anti-American campaign.

"The Times," dominant newspaper of the British Empire, printed a long letter containing the West Texas publisher's comments on Britain as he found it. For generations it has been the British custom to write letters to The Times, known as "The Thunder," about national problems. Harte adopted the British method of voicing his opinions.

Surprised

"I am surprised to find great national newspapers engaged in irritating, pin-pricking criticism of America, overemphasis of our country's weaknesses and minimizing of our real achievements," he said.

"American industries are attacked and everything short of open boycott is advocated against American products. A member of parliament is held up to scorn because he owns an American motorcar. The public is warned against the octopus of Hollywood films. The effects of all this are far reaching."

Harte told The Times that in England he encountered the warmest feeling toward individual Americans, but a lack of understanding of the United States, and American public opinion.

He said he would leave England somewhat disappointed and a little disillusioned about Great Britain, the "merry England" through which he toured on bicycle as a schoolboy, but which he found in 1930 a very different country.

Harte expressed the opinion that the only remedy for Britain's trouble is hard work and British leadership, rather than the discrediting of American progress. He described for The Times the varied British financial interests operative in his home state.

Welcomed

"We have welcomed all capital, no matter whence it came," he pointed out. "Despite high tariffs, we buy English goods when we think they are better."

On the tariff issue, which is a subject for general American criticism in Europe, Harte said that "free trade" Britain in 1928 collected 119,000,000 pounds from tariffs, and that the same year, the United States collected \$600,000,000, which is just about the same amount, and tending to show that

Angelo Hatchery Gets 5,000 Fish

SAN ANGELO, Tex., Oct. 2. (AP)—Approximately 5,000 fish, the great majority of them bream or small-mouthed perch, have been distributed from the San Angelo fish hatchery in the last two months, according to Ed Mosel, superintendent.

Having as its distribution territory the entire sixteenth congressional district, the largest in the nation, the San Angelo hatchery has only started the first year's apportioning of hundreds of thousands of the finny tribe.

Only 3,500 bass have been distributed. This was all that was left of the 35,000 bass minnows placed in the ponds in March and April.

Fish have been distributed thus far to the following places: South Concho river near Christoval, San Sabá river near Brady in McCulloch county, Club Lake at Ballinger and various permanent lakes in the north and middle Conchos.

UNDERGOES OPERATION

Mrs. B. J. Cates is improving after undergoing a major operation at Bivings and Barcum Hospital.

Upper Valley Oil Activity Being Renewed

MCALEN, Oct. 2. (INS)—Renewed activity in the Upper Rio Grande Valley's oil industry was seen this week as three tests were being made ready, two drilling deeper and one new test scheduled.

C. L. McMurry, president of the Las Almas Oil and Gas Co., a recently organized Valley firm, announced that his firm had been at work on the newest test in this section for a week.

The location was made about seven miles northwest of Rio Grande City on the Kelsie-Bass lease on which H. K. Kusch and J. W. Duerksen are drilling their Kelsie-Bass No. 1. The Las Almas location is a short distance from the Kelsie-Bass test.

McMurry stated geologists have informed him that his location is one of the best possible oil structures in that vicinity. His well is down to 300 feet after having encountered gas at 84 feet and 120 feet.

Landing facilities for airplanes have been provided near the test, McMurry said. The Las Almas company includes McMurry as president and other members are R. W. Richards, Lee O. Cox of Harlingen, legal advisor; and several others.

Kusch and Duerksen have been drilling in the vicinity of the Kelsie-Bass lease in Porciones 66, 67 and 68, jurisdiction of Camargo, for the past several years. Their Kelsie-Bass No. 1 is down to 600 feet and has made several oil and gas showings thus far.

All operators in the Rio Grande City and Roma district are confident that a shallow field will eventually be brought in there, and each one is redoubling his efforts to bring in the first producer.

The Texas Company's well, Guerra No. 1, which was reported as a 60 barrel well several months ago, understood to be producing about 30 to 40 barrels daily, but is as much a mystery to Valley citizens as the day it was brought in. Information regarding the well has been closely guarded and practically nothing definite has been forthcoming from company officials. The well is located on the extensive Guerra ranch a few miles from Rio Grande City. The Guerra family profess to know nothing about the well.

San Juan Drilling Co., a corporation composed of McAllen and Hidalgo County business men, will soon resume operations on its San Juan No. 1, located on the south bank of the San Juan river a few miles from the point where it empties into the Rio Grande south of Camargo, Mexico.

Denton County Spends \$100,000 For Schools

DENTON, Texas, Oct. 3.—School improvements over Denton county, amounting to more than \$100,000 have been made this year, according to J. L. Yarbrough, county superintendent. There have been eight major projects in school improvement this year, besides the school improvement that has been done. Justin, added a \$12,000 building to their school; Little Elm built a new brick building, costing \$25,000; Center Point has a new school building at a cost of \$7,000; Bernard spent \$3,000 on their building; Blue Mound, \$3,500; Rock Hill, \$3,000, and Lake Dallas (Garza) constructed a new building which cost \$20,000. "With cost \$20,000, with the cost of the buildings and the cost of new equipment, the amount expended for the county schools this year will run well over the \$100,000 mark," said Yarbrough. "Also the length of the school terms have been lengthened and the teachers are being paid more money for their services," he continued, on account of the added school appropriation from the state aid fund.

Stews Next On Herald Weekly Prize List

Mmes. Yates and Eudy Win Pudding Recipe Awards

By The Market Page Editor Your humble M. P. E. (market page editor, not a member of parliament extraordinary) upset the usual calm of her household by crying aloud for Irish stew—good ol' Irish stew! And would you believe it, but nobody knew how to make it!

We had to leave blueprint directions, for everybody knows that a too damp Irish stew is worse than no stew at all, and a too dry one is equally impossible.

But There Are Others And so with much bumping and many cautions the left and hopes to return at luncheon time to a good, savory concoction that will need no supporting dish other than toast and a glass of sweet milk.

But she will admit that there are other stews besides Irish, and just to find out how many she is offering the Herald prize this week to the best stew recipe or collection of stew recipes to reach this office by next Thursday afternoon. This will be \$2 for the first and \$1 for the second.

Today's Winners Well, the plea for pudding and custard recipes must have struck a responsive note, for we were flooded with them today.

Just to tabulate, we received five banana pudding recipes, seven for "fruit" puddings, two for chocolate, two for grapefruit, three for rice, two for buttermilk and six for bread pudding. Besides this there was a sundry scattering of "poor man's pudding," prune, orange—and-bread pudding and so on.

Out of this group, the recipe of Mrs. V. M. Yates, 1711 Gregg street, were the most comprehensive and inexpensive. They included banana, chocolate, cornstarch pudding and orange nut custard.

Next came the two recipes of Mrs. L. E. Eudy, coconut pudding and buttermilk custard.

BANANA PUDDING—Mrs. V. M. Yates, 1711 Gregg St. Mix 1 cup sugar and 2 table-spoons flour. Add 1 cup of sweet milk. Cook about 3 minutes before gradually adding the yolks of 3 eggs well beaten. Stir constantly until this thickens. When done remove from fire and add 2 table-spoons butter and 1-4 teaspoon vanilla. Oil a baking dish and put in a layer of custard, then a layer of sliced bananas, then a layer of vanilla wafers. Repeat until all the custard is used. Then cover with meringue and place in hot oven just long enough to brown.

CHOCOLATE CREAM PUDDING—Bring 3 cups of milk to boil in double boiler. Slowly stir in four even tbs. of cornstarch wet with 1-3 cup of cold milk; add half a cup of sugar, pinch of salt and 3 heaping tbs. of grated chocolate with 2 tbs. of sugar; cook twenty minutes; stirring frequently. When slightly cool, beat in 1 tsp. of vanilla and fold in the stiffly beaten whites of four eggs. Put into mould, and when ready to serve, turn out on plate and garnish with alternate mounds of whipped cream and cherries, and surround

BUTTERMILK CUSTARD—3 cups buttermilk 3 eggs yolks 3 cup sugar 1 ea. cornstarch 3 leaversons soda Flavor to taste. Bake in crust. Make meringue of whites of egg and cover. Brown.

TO REDUCE WITH SAFETY YOU NEED ROUGHAGE

DIETS THAT do not include roughage cause constipation, often with serious consequences.

Kellogg's ALL-BRAN contains the roughage needed to insure regular elimination. Now new processes have made this famous cereal even more delightful—improved both in texture and in taste.

ALL-BRAN is guaranteed to relieve both temporary and recurring constipation! Two table-spoons daily—in serious cases, with each meal.

Kellogg's ALL-BRAN is not fattening. It adds valuable iron to the blood, which helps prevent dietary anemia and brings color to the complexion. Try the recipe on the package. Made by Kellogg in Battle Creek.

Kellogg's ALL-BRAN

"Temper? But No!" Says Fiance

JETTA GOUDAL

BY ROBBIN COONS Associated Press Staff Writer HOLLYWOOD (AP)—Many movie fans might think Harold Grieve the world's bravest bridegroom-to-be.

Grieve's intended bride is Jetta Goudal, French actress whose wide-spread reputation for "temperamental outbursts" ended her screen career.

Grieve is a slimish, pleasant fellow with a great sense of humor, which is shared by his future bride. "The truth is," he laughs, "that Jetta isn't temperamental at all. She won't do anything less she can take time to do it right."

"She was like that in the studios, and they called it 'temperament.' And she is like that in our work, which is exactly as she should be. We get along fine."

"Our work" referred to the decoration of John Gilbert's new beach home. Grieve is an interior decorator, and Jetta is helping him on that job.

Miss Goudal heartily agrees with what Grieve says about her. She laughs off the stories of her temperament as she does the tales of a "mystery" surrounding her origin.

Last year Cecil B. DeMille, producer-director, and the star had legal difficulties over an alleged breach of contract and her title as "most temperamental movie actress" was clinched.

Jetta won in the courts. DeMille labeled her a "French cocktail of emotions."

But the end of her screen career was indirectly responsible for her romance. Miss Goudal busied herself by decorating her apartment and her work was admired by other film celebrities.

Paul Bern, a producer, commissioned her to decorate his own new place, but illness interrupted. Bern could not wait, and Grieve was called in to do the work. Jetta assisted in its completion. Thus they met, for the first time, as competitors.

That was in June—three months later their engagement was announced.

They plan to be married "some time in October."

Simmons President To Speak Sunday Dr. J. D. Sandifer of Simmons University, Abilene, will speak at the First Baptist Church on Sunday at both the morning and evening services.

Churches SAINT MARY'S EPISCOPAL Sunday morning, October 5: Sunday School, 9:45; Confirmation and Holy Communion, 11 o'clock. Right Reverend E. Cecil Seaman, D. D., the Bishop of North Texas will be here and conduct the eleven o'clock services.

Church of Christ 14th and Main Streets Bible Study 9:45 a. m. Sermon 11 a. m. and 8 p. m. "And They Continued in The Apostles Doctrine," will be the subject for the morning hour. Evening subject: "The Lord Opens Lydia's Heart." Other services at the usual hour.

First N. Ward P-T. A. Social Well Attended Fifteen women attended the first social of the North Ward P-T. A. to make gifts for the P-T. A. Gift Shop to be held at the Bugg Grocery soon.

Big Spring Is 81 Years Old Today

Capt. R. B. Marcey, the "Father of the City," Was Responsible for its Founding

On this day 81 years ago the site of Big Spring was discovered by a white man. He was Captain R. B. Marcey of the U. S. Army, one of the most adventurous pathfinders of his period. With a little army of about 50 men he proceeded under orders from Brigadier General Arbuckle, commanding at Fort Smith, Arkansas, to accompany an emigrant train to Santa Fe, N. M.

Captain found his Indian. And with him he blazed a trail through West Texas, filing such a report with the War Department that it had a material bearing on the location of the Texas and Pacific Railroad. Within two years after his report, the original predecessor company of the Texas and Pacific Railway was chartered by the Legislature of Texas to build a railroad from the N. E. corner of Texas along the route followed by Marcey.

Miss Damron South Ward Has Party P-T. A. Meets

Celebrate Ninth Birthday At Her Home On Wednesday

Celebrating her ninth birthday anniversary little Miss Marjorie Ray Damron entertained a group of her friends at her home, 209 Benton street Wednesday afternoon.

Rooms where the small guests assembled were gay in pink and white flower decorations and cut flowers.

For entertainment the children played lawn games. In cutting the birthday cake George Cross got the nickel, Betty Jane Ward, the button, and Jessie Mae Kennedy, the thimble.

At the refreshment hour the children were served ice cream and cake.

Those present were: Betty Lee Eddy, Lorain Greenhaw, Betty Jane Ward, C. L. Patty Sue, and Bobby Jack White, Novella and Henrietta Kennedy, Coralie Brownfield, Lavonne Auloff, Dixie Westover, Doris Cook, Elizabeth and Emma Corene Cross, Loreana Angel, Vida Mae Angel, Darline Pitts, Billie Joyce Robinson, Jennie Mae and Mable Kennedy, George Cross, Johnnie Williams, Roscoe Westover, Eugene Damron, Francis Damron, Raymond, Andrews and Ralph Westover.

Miss Beatrice Gilmer Marries H. V. Hancock

Mrs. R. B. Gilmer of Center Point announces the marriage of her daughter, Beatrice Parks, to Hulon V. Hancock of Cooper, Texas, September 28.

Mrs. Gilmer attended the Big Spring High School. The couple will reside at Center Point.

Christian Young People Have Party

The Intermediate Department of the Christian church entertained with a party Tuesday evening in honor of those who had birthdays in September.

Those present were: Pauline Franklin, Jennie Lucile Kennedy, Minnie Earl Johnson, Jean Bell, Georgia Campbell, La Verne Giffers, Dorothy Rockhold, Louise Wright, Charline Falon, Fay Runison, James Stiff, Harvey Hoosier, Jessie Hall, Kenneth Fallon, Rupert Oliver, Ralph Lamar, Lester Peck, Joe John Gilmer, Miss Kit Wingo and Rev. D. R. Lindley.

Visiting Her Sister Here

MISS VERA HALL

Taylor, Ned Ferguson, O. L. Page, C. E. Shive, B. W. Welch, C. C. Coffey, Roy V. Jock, T. E. Taylor, Mesdames Lawrence Simpson, S. E. Earley, V. H. Fiewellen, Ben P. Lovelace, A. R. Kavanagh, A. S. Woods, L. F. Fletcher, J. L. Duchworth, A. J. Cain, E. Alexander, Harold L. Ellis, W. R. Conditon, C. E. Thomas, R. N. Hill, Bernard Fisher, E. Plumm, W. L. Bates, L. L. Gully, J. A. Davidson, Hamby, Pogier, Madison, Fuller, J. E. Davis, McCrary, J. P. Dodge, C. W. Scherub, O. H. McAllister, Marion Edwards, W. R. Hines, Ruth McElroy, V. O. Dunn, J. M. Thomas and L. H. Thomas.

The next meeting will be during "Book Week" and Mrs. Seth Parsons will talk on "Children's Readings." Mrs. Dahme's room will give the program number. This meeting will be on Thursday, November 6.

Epsilon Sigma Alpha Study Club Meets

Mrs. Frank Etter was the hostess to the members of the Epsilon Sigma Alpha Study club at her home last evening. She is the new president of this organization and presided at the meeting.

The program was as follows: "The Great Lover of the Beautiful, John Keats"—Miss Kittie Wingo.

"Influence of the Norsemen upon English Literature as pointed out in Carlyle's lecture on Odin"—Miss Georgia Kirk Davis.

"The Liberal Education Derived From a Study of Maccaulay's Work"—Mrs. Leslie Dahme.

"Culture and Anarchy as Arnold Saw Them"—Mrs. Ira Driver.

"The Man Who Wrote the Human Comedy"—Mrs. James Martin.

"A Man's Kinship with God in the Light of Epictetus Philosophy"—Mrs. Fox Stripling.

"What Literary Debt We Owe the Phoenicians"—Miss Mary McElroy.

Those present were: Mrs. Ira Driver, Miss Clara Cox, Miss Elizabeth Owen, Miss Kittie Wingo, Mrs. James Martin, Miss Georgia Kirk Davis, Miss Mary McElroy, Mrs. Fox Stripling, Mrs. E. L. Crawford, Mrs. L. C. Dahme, Mrs. Etter and Miss Annie Wagner of Cato.

Lutherans To Observe Mission Sunday Here

Mission Sunday will be observed in the local Lutheran Church, next Sunday, it was announced today.

The morning service, at 10:30 a. m., will be conducted in the German language. The Rev. A. B. Almann of Spangenberg will preach at both the morning and afternoon services.

The afternoon service, at 2 o'clock, will be conducted in the English language. The services will treat of mission work being done by the church here and in foreign lands. A class of the Sunday School will sing at the afternoon service.

FRACTURES ARM C. M. Puckett, 58, is in the Big Spring Hospital with a fracture of the arm. The arm was broken early this morning while Puckett was cranking an automobile.

Miss Cushing Honored With Bridge Party

Miss Dorothy Homan Is Hostess To Five Tables Guests

Miss Mary Lou Cushing, bride-to-be, was honored with an evening bridge party by Miss Dorothy Homan at her home on Scurry street.

Miss Homan is a member of the bridal party. The wedding will take place on Wednesday, Oct. 8, at the First Presbyterian church.

Miss Dorothy Jordan won job score and was presented with a set of aluminum noulds.

Mrs. Charles Shehane won consolation prize, a colorful dish mat.

Miss Cushing was presented with a silver and pyrex baking dish decorated with Dutch designs.

Both Miss Jordan and Mrs. Shehane presented their prizes to Miss Cushing.

The gifts were wrapped in white tissue and tied with pink, orchid and green ribbon.

Mrs. W. H. Homan and Miss Katherine Homan assisted as hostesses.

Refreshments, consisting of pink mounded ice cream slippers and cake, were served to the guests. A pair of dainty gold china slippers were also served.

Those present were: Misses Dorothy Jordan, Ada Lindro, E. I. Evans, Clara Secret, Helen Fay Bonner, Verda Ruth Graham, Gertrude McIntyre, Louise Shive, Andree Walker, Helen Hayden, Agnes Currie, Mary Lou Cushing, Grace Mann and Pearl Butler; Mesdames T. E. Johnson, Walter Glenn, Pat Martin, H. B. Dunagan, J. Charles Shehane, W. F. Cushing.

The care you take in mixing cake batter is similar to the care taken in roasting HILLS BROS COFFEE

You add flour to your cake batter a little at a time in order to blend all the ingredients evenly. Hills Bros. roast their coffee a few pounds at a time to secure an even roast.

This continuous process—Controlled Roasting—develops a flavor no bulk-roasted coffee has.

Mr. and Mrs. L. V. Hitch and Mrs. E. C. Kirker left early Friday morning for Pecos and other points. They expect to be gone several days.

R. A. Elliott of Sherman is in town in interest of the F. H. E. Oil Company.

E. S. Pritchett of Eastland is in Big Spring on legal business for a few days. He will stay at the Crawford Hotel while here.

Mr. and Mrs. F. S. Hofues returned from Fort Worth Thursday.

R. C. Anderson of San Angelo is here for a few days.

Tad Naddos left Thursday for El Paso.

MAVERICKS CLASH WITH STEERS SATURDAY

Second Battle Of Week For Here

Saturday will see the Steers in action for the second time this week. Let us hope the game of the latter part of the week will in no way resemble the game of the first part. It is with a feeling of regret that the Abilene-Big Spring tilt of last Monday when the Steers were high on the scoreboard, was the only one of the Fair Park stadium. The weekend finds Joe "Hot" Gibson and his Eastland cohorts coming up from the heart of the Big to pay a visit to the west enders. Clad in their black and red, the Mavericks bid fair to give the Steers one of the toughest fights of the season. However, Rex Clark or none of the others can expect to make those sweeping gains for any length of time on the local gridiron. On account of Jupiter Fluv being rather stingy with his water, the field is not exactly in shape. What that means is that good-looking young men have more of a chance to get away than another variety.

Rex Clark Leads Eastland Crew Here For Bout

The Eastland 10 varieties—the veteran also-ran club of the Oilbelt invades Big Spring this afternoon for a clash Saturday afternoon at 3 o'clock at the new athletic field with the Steers. Although the fray has been advertised for 3:30 p. m., it will start at 3 o'clock, it was announced.

The Mavericks bring here their usual football organization—strong, yet not strong enough to cope with the Big Four and do it successfully. In their first start of the season the Class B boys ran roughshod over them 26 to 0 in a nocturnal conflict at the Big Dam City.

The Steers fared not so well at the hands of Abilene last Monday. They dropped a 33 to 0 battle, although they displayed neither the defensive nor offensive work they used against the Mineral Wells Mountaineers to win 12 to 0.

The Steers emerged from the Abilene game with nothing but the score sheet and ambitions. They are in excellent shape for the second grid contest of this week. Placed on a comparative basis, there is little difference in the two teams, except perhaps the Rex Clark advantage held by the Mavericks. The Steers, from tackle to tackle, probably outweigh the Mavericks by a very small margin.

With the game played on the local gridiron even the fleet feet of Rex Clark aren't expected to be so swift. Still crying for rain, the local gridiron is not in the best of shape to accommodate a couple of football teams.

Saturday's game will mark the first one before the Steers run against the Breckenridge Buckies, co-champions of 1929, and the graduates of the moulding hands of Silly Shotwell. That game will be played here Oct. 11.

Probably the same crew that has taken the field in the other two Class A starts of the year will begin the Saturday game.

Prize Fighter Dies In Ring

CEDAR RAPIDS, Ia., Oct. 3.—(AP)—Batling Nelson of Waterloo, Ia., fighting the semi-windup to the Mandell-Myers match last night, died with his gloves on.

He collapsed at the end of the fifth round and a towel was tossed in the ring. None of the crowd knew it, but Nelson was dying.

His opponent, Kid Leonard of East Moline, Ill., was ordered held for the inquest today. He is 17 years old and was fighting his 19th professional bout. Nelson, whose full name was Hildreth C. Nelson, was married and the father of four children. He had been fighting professionally for five years and was a welterweight.

Three physicians, including Coroner R. A. Vorpahl, were at the ring-side and sought unsuccessfully to revive Nelson. Their unofficial expressions were that death was accidental, being due either to paralysis of the heart or over-exertion, rather than as a result of a blow. The county attorney, however, asked that Kid Leonard—Leonard Vandevalle is his real name—he held for the inquest.

The fight card went on uninterrupted, with Sammy Mandell, former lightweight champion, taking an easy 10 round decision from Spive Myers, Pocatello and Chicago welter.

2 Westerners Left In Meet

BERKELEY, Cal., Oct. 3.—(AP)—Three Westerners and one Easterner were in the Pacific Coast men's singles championship here today as play reached the semi-final round.

All four swept through to straight set victories in yesterday's matches. George Lott, Chicago Davis Cup star, seeded number one among the visitors, led the advance by downing Clifford Sutter, of New York, 6-3, 6-2. Granatop Holman, of San Francisco, who defeated young Sidney Wood, Jr., of New York, is the only obstacle between Lott and the final.

The California contingent was led by Edward G. Chandler, state champion, and top seeded Western player, Chandler swept through Bob Sellar, defending coast champion, in yesterday's quarter-final, 6-2, 6-0, and today meets Keith Gledhill of Santa Barbara. In the women's singles event Mrs. Helen Willis Moody, world's champion, meets Edith Cross, San Francisco Wightman Cup star, in a semi-final match.

GIANTS ARE FOUNDATION OF CALIFORNIA ELEVEN

Coach "Nibs" Price of the University of California is experimenting with four of the heaviest backfield stars he has ever had the pleasure of moulding a team around. They are Joe Hickings, 193 pound plunger, and Clarence Garity, 189 pounder, halfbacks. Ed Griffiths, 188 pound halfback on the 1929 team will call signals this year and Rusty Gill, 190 pound defensive star, will retain his place at fullback.

MILLER, SUAREZ TO FIGHT TONIGHT

NEW YORK, Oct. 3.—(AP)—A ten round bout between Justo Suarez, Argentine sensation, and Ray Miller, Chicago lightweight, tops the opening indoor card at Madison Square Garden tonight.

Suarez, perhaps because of a decided advantage in weight, rules a favorite at odds as high as 2 to 1, but this hardly seems to paint a true picture. Miller, on the basis of his record, looks like a much better bet than the odds would indicate. The boys who make the odds in New York apparently have not yet forgiven Miller for his poor showing against Jimmy McLarnin here. Miller had stopped McLarnin in their first battle and one of the biggest crowds that ever jammed the Garden was on hand for the return bout. McLarnin gained the decision after ten slow rounds in which both exercised the utmost caution.

Suarez has been undefeated in this country, besting among others Bruce Flowers, Joe Glick and Helen Perlick, but Miller looks like a more formidable foe than any of those. He hits with paralyzing force with his left hand and is a smart and experienced battler. The Argentine probably will scale about 140 pounds while Miller's natural fighting weight is 122 pounds.

NATIONS SIGN PACT GENEVA, Oct. 2.—(AP)—Representatives of 28 states today signed a convention guaranteeing financial assistance to a state which is the victim of attack by another nation. The ceremony took place in a plenary session of the assembly of the league of nations.

Signatories were Australia, Lithuania, Austria, Belgium, Bolivia, Great Britain, Bulgaria, Cuba, Denmark, Spain, Estonia, Finland, Ethiopia, France, Greece, Latvia, Norway, Holland, Peru, Persia, Poland, Portugal, Rumania, Yugoslavia, Czechoslovakia, Sweden, Albania and the Irish Free State.

BLAST BARES SUICIDE CHICAGO, Oct. 2.—(AP)—An explosion, which wrecked his home in suburban Oak Park, revealed the suicide tragedy of Frank A. Porlick, 50, importer, early today.

Porlick's body was found in the ruins. His throat and both arms had been slashed with a razor. Three sealed notes were found, one addressed to Porlick's estranged wife, who has a divorce suit pending, and another to his children. A third directed that his body be sent to his sister, Mrs. T. V. Maurer of New York.

Police believed that Porlick after slashing his throat turned on the gas in the kitchen. What set off the explosion, which aroused the neighborhood, could not be determined.

It has been discovered that the tracing cloth used by draftsmen admits the healthful ultraviolet rays of the sun when used as window curtains.

For the first time in their history Great Britain and Ireland have more ship tonnage under construction than of all other types combined.

The Tulsa, Okla., dog pound is to have a lethal gas chamber for the execution of canines condemned to die.

REMOVAL NOTICE I have moved my office from the Petroleum building, and from now on will be in The Allen Building, across the street from the Settles Hotel.

CRASH FATAL

HOUSTON, Tex., Oct. 3.—(AP)—Mrs. T. R. Elder, 27, wife of a Houston minister, was fatally injured last night in an automobile collision here. She died soon after (ward in a hospital. Rev. T. R. Elder, pastor of a Presbyterian church here and driver of the car, was only slightly injured.

PROBE DEATH

BASTROP, Tex., Oct. 3.—(AP)—Lack of clues, continued to baffled officers today in their search for the slayer of John Mackey, 37, once believed to have been the victim of burglars, whose body was found yesterday in the grocery store of his sister, Mrs. A. L. Miller, Lacey second.

Running true to his schedule

Third World's Series Fight Set Saturday

Carl Hope Sweeney Chance Will Aid Chances

By BRIAN BELL Associated Press Sports Writer EN ROUTE FROM PHILADELPHIA TO ST. LOUIS, Oct. 3.—(AP)—Carl Hope Sweeney, St. Louis Cardinals, will help them, the St. Louis Cardinals sneaked westward today to resume their world's series (curral with the Philadelphia Athletics at Sportsman's Park, St. Louis tomorrow.

The Athletics, transformed by the schedule from the home club to the visitors, also went west today, but the American League can do no better in the National League city than they did at home. If they do as well, the series will be over Sunday.

The world's champions made it two in a row at Shibe Park by giving big George Earnshaw an early lead, six runs in four innings in clusters of twos, then suspending their hitting and sending activities. As the big Swarthmore hurler was in excellent form, any one of the two run innings would have been enough to win. The only Cardinal run was a long home run over the right field wall by George Watkins, who plays right field for the Cards when the opposition sends in a right hander to pitch.

Although they never were "in the ball game" in the second contest of the series, the National League showed no disposition to give up the baseball ghost and their supporters did not hesitate to say that once at their own homes and friends they would give a good account of themselves.

In the first two games Manager Connie Mack led his two aces and each took tricks. Bob Grove's victory in the opener was followed by burglars, whose body was found yesterday in the grocery store of his sister, Mrs. A. L. Miller, Lacey second.

Running true to his schedule

stuffed out. Manager G. H. Street maintained frequently in control that the Athletics in 1929 in the world's pitching assignment. The Athletics' Bill Baker, who was forced into retirement yesterday, and Eddie Romano, in the third inning when he pitched. The second game of the series was a double to left field. The Athletics' Ed Gooch, who pitched the last game of the series, made a home run in the last inning.

American League players say that when Earnshaw's control he is practically unbeatable. There was nothing wrong with his control in the second game of the series. He forced eight Cardinals to miss third strikes, struck a world of stuff the few times he was menaced and after the second inning, gave up but two hits.

As the contesting teams devoted a day to travel speculation was rife as to the probable pitchers for the opening game at St. Louis tomorrow. Manager Street said he would summon his star southpaw, "Wild Bill" Hallahan, to the mound. Hallahan is another pitcher who is almost unbeatable when his control is working. He shut out the Brooklyn Robins 1 to 0 in ten innings in the important opening game of a series practically deciding the National League pennant.

Five Hits In this game Hallahan allowed only five hits, retiring the first 20 men in order. The crack left-hander, however, can be wild at times and his bases on balls for the season led the league.

Connie Mack, as usual, kept his own counsel. There were numerous suggestions that he would give Grove and Earnshaw each a chance to repeat. Should he consider this course impracticable, the names

STERLING, Ill., Oct. 3.—(AP)—Judge H. C. Ward, 50, has written a challenge to John D. Rockefeller Jr. for a game of golf.

Judge Ward's courage was heightened considerably when he made a hole in one at Rock Hill last Saturday.

Mangum Leads Golfers At Angelo Tournament SAN ANGELO, Tex., Oct. 3.—(AP)—The second 36 holes in a series play were ahead today for 21 golfers competing in the Texas Professional Golfers' Association tournament at the San Angelo Country Club. Ray Mangum, Dallas, led yesterday with a score of 75-68-143, on the first 36 holes.

INDIVIDUALITY — so easy to recognize... so hard to attain... bound to be admired... sure to be copied... but beyond imitation.

ONE will always stand out!

IT IS the "just right" combination that gakes for style in the gown — and good taste in a cigarette.

Nothing can take the place of the right use of the right tobaccos. Chesterfield's long-tested methods of mellowing and blending the choicest cigarette tobaccos have no counterpart. Thus Chesterfield stands out for—

MILDNESS—the entirely natural mildness of tobaccos that are without harshness or bitterness.

BETTER TASTE—such as only a cigarette of wholesome purity and better tobaccos can have.

BETTER TASTE

They Satisfy —that's Why

Chesterfield Cigarettes are manufactured by LIGGETT & MYERS TOBACCO CO.

We have a letter from Bud Sweeney who will sweep into the Oilbelt region along about the middle of this month. Sweeney, in all probability, will work the Ranger-Big Spring affair. Someone, we've forgotten who, endeavored to tell us the other day that Sweeney wasn't a good referee on account of keeping the players in a "uproar" all the time. Evidently, the informer didn't know Sweeney very well. He will work the Cisco-Ranger game also.

Saturday's conflict with the Mavericks should prove interesting from many angles. It will show whether the Steers will be able to come back after the disheartening affair over at Athens. It will show whether they will be able to cope with a team rated about on even terms with themselves. The Mavericks are picked to win by all of the scribblers and gossipers in the listing. This afternoon the Mineral Wells Mountaineers move into Breckenridge where Red Moore's new is due for another booting. Saturday will see Sweetwater in Abilene at the famous Fair Park athletic field for a game with the Eagles. The Cisco-Brownwood affair is a nocturnal bout which starts at 8 o'clock tonight. Mineral Wells fans have organized a club for the purpose of supporting athletics.

Saturday sees the Texas Christian University Frogs clashing with Simmons University Cowboys at Breckenridge. Austin for an affair with the Texas University Longhorns, while St. Edwards meets Rice at Houston. Tulsa University at Tulsa, Okla., and Arkansas meet at Tulsa. The three headlines of the week-end are S. M. U. and Notre Dame, Baylor and Purdue and A. & M. and Nebraska.

Accident Bureau Director Blames Women For Crashes

EVANSTON, Ill., Oct. 3.—(AP)—A brave, brave man is Director Frank Kendall of the police accident prevention bureau. He dares to say aloud what most men only think about women drivers.

Women, he said, are largely to blame for traffic accidents. They never can make up their minds which way to turn, and even when they do, they turn the other way.

They don't know the regulations, and traffic cops can't tell them anything because the women do all the talking.

Mr. Kendall's conclusions have led him to take steps to remedy the sad state of affairs. Next week he will open a school for women drivers.

He feels the women will welcome a chance to learn something. There are other members of the police department who believe exactly the opposite.

Lime deposits, extending 20 feet down and 90 percent pure, have been found near Redmond, Ore.

Northwestern university is in its 10th year.

Two Chicago policemen always are on guard at the home of 12-year old Billy Ranieri, who was rescued from kidnapers two years ago. Two men were convicted of kidnaping him.

EVERYDAY QUESTIONS

Answered By Dr. S. Parkes Cadman

Questions from readers are answered by the Rev. Dr. S. Parkes Cadman, Radio Minister of the Federal Council of Churches of Christ in America. Dr. Cadman seeks to answer inquiries that appear to be representative of the trends of thought in the many letters which he receives.

Asheville, N. C. I am a young business man just out of college and would like to do something definite and worthwhile for others. Who would you recommend? Offer your services to the nearest Boy Scout headquarters. That is the premier organization for youth, and I regret to state that it has suffered for lack of troop leaders. Yet I do not hesitate to say that this movement confirms the closest relation between the United States and the rest of the world.

Where could a man make the most of a finer or more fruitful field of your best energies? Scoutmaster positions are recruited from all ranks of professional and business life. Put your name on the roll as one of the minute men ready for service.

I am a teacher and have in mind a young child who comes from an exceptionally fine family. He has a very exceptional mind, is a very shrewd, calculating and over-assertive in manner and speech to the point of exasperation. I missed a knife and whetstone with talking to him. He confessed he had done so but showed absolutely no trace of contrition or regret. His mother, to whom I have reported the matter, states that she has been guilty of petty jealousy on other occasions. This boy has the type of mind to develop into the intellectual criminal not because of his lying and bragging, but because of his utter lack of feeling and his indifference to the humiliation and anxiety of his family. What action would you suggest should be taken with him?

First, have him thoroughly examined by a competent physician. Realists and clergymen cannot look for the lad until a thorough diagnosis of his physical and mental condition has been made. His strong physique, mental precocity, constant reading, mature conversation, aversion to boys of his age and their games, make a case a difficult one requiring careful handling.

At twelve much can be accomplished by proper remedial measures, and with talking to him. His indifference to the self he excites in them argues for sublimation which would be backed vigorously. A complete change of environment may be necessary. Home is not necessarily the best place for extraordinary cases such as his. From what I know, he is clever and he knows. Insistence that more education be fatal unless accompanied by honest and truthful habits could be applied to his problem. Obsessed egotism is a bad example in anyone, but in a youngster it is a danger. It shows no concern over the consequences. Surely some means should be found to reduce his self-esteem and get him on a slightly level. Forceful and wise associations with other boys will welcome the opportunity to remove his rough corners. Public and preparatory schools of Great Britain and of our own country depend in part on their ability to lick the awkwardness of an anape, and they have ways and means for doing this effectively.

Written Column: What is your expansion of Christ's hesitancy in helping the young Phoenician woman about her daughter? It could not have been due to the fact that she was gentle, as he helped the woman at once. The saying with which Gloria...

150 Angelo Men To Visit Chihuahua

SAN ANGELO, Oct. 3.—One hundred and fifty representative business and professional men of San Angelo, joined by delegations from other West Texas towns, will go as ambassadors of good will to Chihuahua, Mexico, on Nov. 1, where business and industrial possibilities of the neighbor republic will be studied.

The delegations will ride a special train over the Santa Fe to Presidio, inaugurating the service over the Alpine-Presidio extension of that road, which gives San Angelo direct rail connection with Chihuahua through Ojinaga, border point across the Rio Grande from Presidio.

D. H. Berry, manager of the San Angelo Board of City Development, will be in charge of the special train from San Angelo to Chihuahua, and has announced that three days will be required for the tour.

NEW YORK, Oct. 3.—Carriage of 5832 passengers by American Airways, Inc. transport subsidiary of The Aviation Corporation, during the month of August, brings the number of passengers using that company's lines the first eight months of 1930 to a total of 47,449. While the number of passengers carried in August was only 726 less than in July, there was a reduction of 22,131 plane miles flown for the month. Decrease both in the number of passengers carried and plane miles flown is attributable to the suspension of the St. Louis-Tulsa and Houston-San Antonio passenger services.

During the month of August there was an increase of 1632 pounds in the amount of air mail carried, and a reduction of 2747 miles flown in the mail service. The mail revenue for the system as a whole showed a slight increase. From January 1st to August 31st inclusive, American Airways flew a total of 4,719,406 plane miles in scheduled mail and passenger service. This is equivalent to 158 1/2 trips around the world. In 243 days, 19,421.4 miles were averaged daily in scheduled mail and passenger service. 47,449 passengers were flown an average of 200 1/2 miles each, or an average overnight train ride. 387.2 tons of mail were carried and assuming none of this was in package form, and figuring 30 letters to the pound, 23,234,850 letters were sent air mail over the lines of American Airways since January 1st of this year.

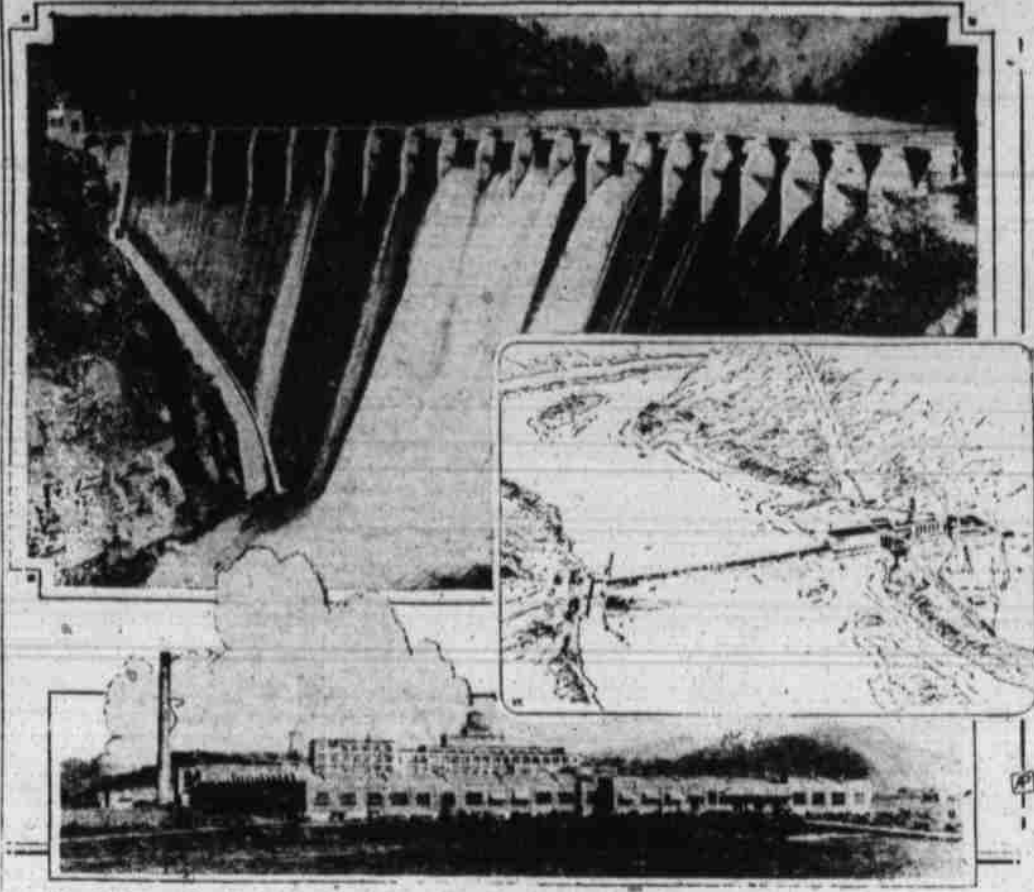

414,000 Pounds Of Unclean Food Destroyed. AUSTIN, Oct. 3.—Over 414,000 pounds of decomposed and unclean foodstuffs was destroyed in Texas during the past three months under orders of the state food and drug bureau, E. G. LeMay reported.

Out of 624 samples of doubtful food taken for analysis, 552 were found satisfactory and 62 illegal during the three-month period. Mr. LeMay announced a general investigation of bakery deliveries to restaurants and cafes. Much of the bread and pies so delivered are taken to the places before they are open for the day, and in some instances are left exposed on the sidewalk, for the investigation of dogs and cats before being served, he said.

After a 13,000-pound lot of spoiled sardines had been ordered destroyed Mr. LeMay reported that Inspector G. N. Holton found the owner trying to load it on a boat for shipment. Fines and costs amounting to \$668 were levied on complaints filed by the food and drug division during the three months. Charges ranged from underweight loaves of bread and misbranding of food to offering for sale decomposed food products.

HOOPER PUBLIC DOMAIN Committee In Carlsbad. CARLSBAD, N. M., Oct. 3.—President Hoover's committee on public domain arrived here Tuesday evening from Las Cruces and enjoyed a side trip to Carlsbad Cavern early Wednesday, previous to departure for Hobbs. In the party were Rudolph Kuecker, Arkona, J. W. Bradford, Montana, D. M. Patterson, Utah, H. O. Eursum, Herbert Yeo and Francis C. Wilson of New Mexico.

Roar Of Industry Wakens Tennessee Valley; Millions Spent To Bridle Mountain Streams

The Tennessee valley, long the hill billy's stronghold, is pacing Dixie's rise to industrial heights. Water power projects include Cheoah dam (top), 192 feet high, in western North Carolina, and Hale's Bar dam (sketch), 2,400 feet long near Chattanooga. Below is one of the rayon mills in a \$22,000,000 development at Elizabethton, Tenn.

B. VROY E. HUTCHENS, Associated Press Staff Writer KNOXVILLE, Tenn., Oct. 3.—The hill billy is fast disappearing from East Tennessee and the factory workman is taking his place.

Within the walls of the East Tennessee valley, the simple mode of living of a half million people is being revolutionized by harnessing a score of streams tumbling down the southern Appalachians. Industrial development in the "Rub of America," a name now commonly applied to the section which includes not only East Tennessee, but the western Carolinas, has few parallels in the "new south."

Water power in this section, secret of the metamorphosis, has held attention since the government in 1918 started construction of the Wilson dam on the Tennessee at Muscle Shoals, Ala. This plant, largest in the valley, has a capacity of 200,000 horsepower.

But Muscle Shoals is only a hint of what's brewing. A survey of East Tennessee streams by army engineers shows possible utilization of about 140 water power projects which could generate 1,500,000 horsepower. Proposals include a \$4,000,000 dam on the Clinch river, near Knoxville, provided for in a Muscle Shoals bill which failed to pass the last congress. It would have been one of the largest storage dams in the region.

Actual developments find the Aluminum Company of America with plants at Alcoa, at the foot of the Smoky mountains, near the mouth of the Little Tennessee. Where in 1913 hogs and cattle fed, shrill whistles now signal an army of 3,500 to work in a model city, with space provided for an increase to 35,000 and an acre of parks set aside for every 100 residents.

Water resources of the Tennessee basin gained additional recognition when the last congress adopted an appropriation of \$5,700,000 toward making the river available for navigation from the Ohio, to Knoxville. Army engineers have placed the cost of this undertaking, with a nine-foot channel, at \$75,000,000.

President Takes Issue With Critics

BY D. HAROLD OLIVER

HOOPER SPECIAL TRAIN EN ROUTE TO WASHINGTON, Oct. 3 (AP)—President Hoover was on record today as taking sharp issue with both critics of his administration who, he says, look only on the "unhappy features" of the current business depression and those who believe American standards of living should be lowered.

Personally replying to opposition campaign declarations for the first time, Mr. Hoover, asserted before the American Bankers Association in Cleveland last night there were several folks in the political world who never get better and who wish to enjoy our temporary misery.

"To relate to these critics that the government is cooperating with the people to improve conditions and that the United States economic suffering is far less than that in other countries," he said, "only inspires the unkind retort that we should fix our gaze solely upon the unhappy features of the decline."

Just before going to the auditorium to deliver his speech the president made a last minute addition to his text in which he took vigorous exception to remarks of a banker delegate who was quoted as saying American living standards should be on a lower plane.

"To that I emphatically disagree," the president asserted, "amid applause, and added: 'Any retreat from our American philosophy of constantly increasing standards of living becomes a retreat into perpetual unemployment and the acceptance of a cesspool of poverty for some large part of our people.'

A group of self-styled communist demonstrators, carrying banners, marched from the public square to the auditorium during the speech, but they were quickly dispersed by police.

Immediately after the speech the president boarded his special to take the trip to Washington.

K. C. Leaders To Honor El Paso

AUSTIN, Tex., Oct. 3 (AP)—Joseph L. Driscoll, of El Paso, state deputy of the Knights of Columbus and Catholic lay leader, will be invested with the Order of St. Gregory the Great at a ceremony at St. Patrick's cathedral at El Paso, Oct. 12, according to an announcement made by Rev. Dr. Paul J. Foll, S. C. of St. Edward's University, chairman of the committee in charge.

The order was conferred on Driscoll by Pope Pius XI in recognition of his activities in promoting the welfare of Catholics in the southwest. The investiture ceremony will be attended by the archbishops of San Antonio and Santa Fe, N. M., and bishops of Texas and by a large number of the clergy and laity. A pontifical high mass will be celebrated the morning of the investiture and Driscoll will be honor guest at a banquet in the evening.

Driscoll is the clerk of the court of civil appeals at El Paso and has been state deputy of the Knights of Columbus for the past seven years. He was advocate for two years and has served the El Paso council as lecturer, grand knight and trustee.

Ex-Minister In Texas Jail

AMARILLO, Texas, Oct. 3 (AP)—The Potter county jail today was the most definite address claimed by C. E. Hankins, former Plainview minister, in the last two months.

He disappeared August 20 after sending a letter to his mother from Amarillo. Two days later a blood-stained automobile was found near Frederick, Okla. A note in the car indicated the former minister had been slain and his body hidden. Search failed to discover him.

Last week, on Thursday, Hankins was arrested at a Lubbock hotel after his wife received an anonymous telephone call at Levelland.

He confessed Saturday that he forged the name of Dr. J. E. Nunn of Amarillo to a check for \$200 using the name of Fred Short, bought a wedding ring with a down payment, giving the name of B. E. Ferguson, then sold the ring for \$25. He was brought here Wednesday from Lubbock and charged with forgery.

In a statement, he traced his movements, after his disappearance, to Farwell, N. M., then to Elk City, Okla., and said he wrote the note found in the automobile, but the stains on the car, then detected it. Thence he returned to Amarillo, journeyed to Lubbock, then to Levelland, Slaton and back to Lubbock, where he was arrested. Hankins formerly was an inmate of the state hospital at Wichita Falls, officers said.

CALL MONEY
NEW YORK, Oct. 3 (AP)—Call money steady, 2 per cent all day. Time loans easy; 30 days 1 1/2%; 60 days 2 1/4%; 90 days 2 1/4%; 2 1/2; and 6 months 2 1/2-3 1/4. Prime commercial paper 2 3/4-3 1/4. Bankers' acceptances unchanged.

COTTON SEED
DALLAS, Oct. 3 (AP)—Prime cotton seed: North and East Texas \$23 1/2; West Texas \$24 1/2. Prime cotton seed oil 25. Prime cotton seed meal 43 per cent 30. Prime cotton seed hulls \$12. Linters average mill run 1 1/2-2 1/4.

WOOL SALES
LONDON, Oct. 3 (AP)—The wool sales were continued today with offerings amounting to 9,526 bales of which 8,000 were sold. Superior scoured Merinos met with a good sale and gray crossbreds were in spirited demand for home and continental spinners. Fine grades were steady, but medium and coarse remained in buyers' favor.

BOSTON WOOL
BOSTON, Oct. 3 (AP)—Trading in wool is quiet on all grades of fleece except 64s and finer and on some territory and lower quality. Some strictly combing 64s and Kitter Ohio wool sold at 2 1/2 in the grease while Michigan wools of similar grade and class realized around 30 cents grease basis. The bulk of moderate business reported in on 58s, 60s and finer territory wool, with prices steady as compared with prices reported earlier in the week.

FORT WORTH GRAIN
FORT WORTH, Oct. 3 (AP)—Demand Friday continued good for wheat on the Fort Worth cash grain market with mills bidding 9c to 9 1/2 for number 1 hard delivered Texas common points. Corn; oats and barley were fairly well taken but sorghums were slow sale.

Estimated receipts: wheat 10 cars; corn, 5; oats, 1; barley, 2; and sorghums, 1.

Bids and offers on coarse grains ranged as follows, basic carloads delivered Texas common points, freight paid:
Corn, No. 2, mixed 97 1/2 @ 98c; No. 2 white 96 1/2 @ 100c; No. 2 yellow \$1.01 @ 1.02.
Oats, No. 2 red 50 1-2 @ 51 1-2c; No. 2 white delivered Texas group one points, 49 1-2 @ 50c; to which add one cent for delivery group three.
Barley, No. 2 milo per 100 pounds nominally \$1.75 @ \$1.78. No. 2 kafir \$1.45 @ 1.47.

FORT WORTH LIVESTOCK
FORT WORTH, Oct. 3 (AP)—(U. S. Dept. Agr.)—Hogs: 700; no rail hogs offered; truck hogs 10-20.

Lease Probe

(Continued From Page 1)

and R. A. Evans. This lease was made with the permission of the board of regents, but E. J. Compton, university land agent, testified that his land later was leased for 90 cents per acre.

Silliman according to Compton originally leased the land for 50 cents per acre and sub-leased it for between \$250 and \$500 per section. In this case Silliman's original lease was cancelled, Compton said.

Compton expressed the opinion that some of the land leased by the university was leased for too low a price.

He also testified that where evidence had been found that land had been cancelled and the original lessees given the privilege of taking another lease at increased prices as a penalty and cited instances where such action had been taken. Most of this land was located in Reagan, Upton, Schleicher, Irion and Terrell counties.

Compton said the board had adopted a policy of cancelling leases whenever any material deviations from the contract were found.

The actual monetary loss to the university as the result of irregular leasing was not brought out at the hearing.

Two Mail Routes From Lamesa Planned

LAMESA, Oct. 3.—According to J. D. Dyer, local postmaster, bids will be received until October 7th inclusive, for mail carriers on two proposed routes, from Snyder to Lamesa and from Lamesa to O'Donnell.

Mr. Dyer states that the proposed route from Snyder to Lamesa would cut approximately four hours from the present mail schedule, enabling patrons to receive mail from eastern points earlier than they are now doing. The proposed route from Lamesa to O'Donnell would also give that city earlier mail from the east, according to Mr. Dyer.

Dr. Sandefer To Speak In City

Dr. J. D. Sandefer, president of Simmons University, Abilene, and one of the most prominent figures in the Southern Baptist church, will occupy the pulpit at the First Baptist church here Sunday morning.

This will be Dr. Sandefer's first appearance in the local church's handsome new house of worship and a full attendance of the membership is urged. The public is cordially invited to attend.

A motion picture camera developed by French scientists has demonstrated that swallows fly three times as rapidly as the speediest airplanes.

Survey Alleges 10,000,000 Gallons Gasoline In Tanks

TULSA, Okla., Oct. 3 (AP)—A survey showing the country's present stocks of gasoline are approximately 10,000,000 barrels in excess of the minimum working stocks needed for satisfactory operation of refineries, compiled from a questionnaire sent to refiners by the American Petroleum Institute, was before the institute's board of directors for consideration here today.

The general committee of the institute's division of refining approved the report yesterday and urged its members to attempt to reach the minimum level and maintain it during the rest of 1930.

The report showed the required stocks at refineries for the rest of the year were 1,696,000 barrels for the east coast refining district; 883,000 barrels for the Appalachian region; 3,925,000 for Indiana, Illinois and Kentucky; 1,914,000 for Oklahoma, Kansas and Missouri; 4,319,000 barrels for Texas; 1,250,000 for Louisiana and Arkansas; 1,173,000 for the Rocky Mountain area; 10,819,000 for California; 5,501,000 for the Texas gulf coast, and 1,115,000 barrels for the Louisiana gulf coast.

Physician Held By Kidnapers

DETROIT, Oct. 3 (AP)—Dr. Frank L. McPhail, a Highland Park physician, was kidnaped last night and held captive until this morning in a vacant house from which he was released by police after he attracted attention by throwing prescription papers out a window.

A map said by police to have been left to guard the physician was arrested. He gave his name as Frank Sabino. Police reported that when Dr. McPhail's father, Dr. Malcolm McPhail, went to arrange for payment of ransom at 6 a. m. today, he was abducted, but was released later after being driven to the neighborhood in which the son had been held.

The kidnaping recalled the numerous abductions for ransom in Detroit and its suburbs in recent years.

Dr. McPhail was abducted while a special grand jury was hearing the testimony of some of the leaders in the old kidnaping rings, who turned state's evidence after being convicted.
