# BRISCOE NEWS

By Vetola Parker

Sprinkled some, last night, Sunday. Ground covered at Tolene and George's with snow.

Hope the sick are better.

Got to get another Briscoe reporter, I am going blind.

Henry and Mildred are going to Andy's and Troice's for 2 weeks.

Well, the election is over.

Daphne mixed mustard and turnip greens. They were good.

We never know who is going to be next.

It was Effie Renfro. I hated it, of Effie.

Our sympathy goes out to her sisters and brothers, cousin, relatives and friends. She will be missed.

She was going out this side of the Gageby bridge, not far from her home, how sad.

Mable said Effie said she remembered when Mable was born. Mattie said her mother, her and Edd went over and took Mable a baby dress. Probably Effie went also.

Mable is looking for her sister, Jessie tomorrow.

Mable had 25 degrees last night. 24 degrees in Amarillo last night. Suppose to get to 24 tonight. So it's getting down there. Kids, remember how cold we used to get?

Marylu was making chow chow. Was tired.

Word is, Effie's funeral will be Saturday, no details.

Sun is out bright and Wanda said in paper Effie's funeral Sat. morning at Baptist Church in Wheeler at 11 in morning.

Sure cold this morning, Saturday.

Betty said my tomato vines are black, yesterday, so we finally got freeze.

Henry and Mildred went down and stayed a week with Andy and Troice. Glad they did, even this Andy don't know them.

Clem Helton came down after the funeral. Clem works at Foss, Okla.

Garry and Tish and Gill and Jakala came. Steve came from Arizona.

Doc came by from Cemetery.

Betti's mother had cloudy and rain and snow for 2 weeks. Her mother is getting better since she broke her pelvis. Using a cane, doing just fine.

A rather nice day Saturday.

Here & There  
By Laura Guthrie

Where is Bronco Creek? That is a question I had asked myself for more than a half century. So finally, as I have told you before, some kind and thoughtful friends took me to Bronco Creek. Today I had a reminder that I do know the where abouts of that stream so near our village. Through the mail I received a package "to brighten my day." I unfolded a bright orange sweatshirt with this logo: "Where is Bronco Creek? Tomorrow I am going to wear it to town for all to see. So if you don't know where Bronco Creek is, make it a point to find out. You may want to ask Glenn Williams, Bob Wills, Gary Miller, Hyland Weaver or some of the other neighbors where it is. But do it!

Tomorrow, Tuesday is my birthday. I'm not feeling quite up to par. So I'm signing off right here. Maybe I'll do better next week.

## IS EVERYTHING THE WILL OF GOD?

I don't know how many times I have heard since the election that since God is Sovereign, His will was done in the election. If that is true, He allowed many of His people to work hard and spend a lot of time and money trying to influence people to vote against His will. It looks to me like He could have put it into the hearts of His people to know they were working against His will from the beginning. It doesn't make sense to me that well-respected Christian leaders like James Dobson, Tim and Beverly LaHaye, Pat Robertson, and Jerry Falwell along with more than 1000 other evangelical leaders across the country would be that out of touch with God's will to lead people to vote wrong.

Something else that wouldn't make sense is to believe that God being Sovereign put a man in office that is committed to increasing the murdering of unborn babies in this country. If it is true that God's Sovereignty put someone in office with that commitment, then God let us down. I cannot believe that God condones the taking away of life from the unborn.

Certainly, I realize that what I am saying in this article is contrary to widely accepted doctrine. To hear most theologians tell it, we are supposed to accept whatever happens as being in the will of God. The truth though is that God lets people do a lot of things that is not according to His will. The people of America voted. God didn't. Being free moral agents, people can choose to vote how they want to. God doesn't overpower people and make them check the box on the ballot. That's why it is necessary to work and campaign and speak out and try to persuade people. It is their decision.

You see, God will allow people to do a lot of things that will hurt them, but that doesn't make it part of His plan. God allowed Israel to have a king against His own will for them. He told Samuel that they had not rejected Samuel, but rather had rejected Him. He also told Samuel to protest to the people about what they were about to do. Are we to believe then that because he is Sovereign that that is the reason they went ahead and got a king? If so, why would He tell Samuel to protest about it? Was He telling His prophet to protest His own will?

God will allow you to take a gun and rob a business establishment, but that doesn't make it His will and has nothing to do with Him being a Sovereign God. Sure, He is still on the throne and still reigns supreme, but that fact doesn't make Him responsible for everything that man does to himself. God will allow you to run your car into a tree and commit suicide, but that doesn't make it His will and has nothing to do with His Sovereignty.

It doesn't take away from His power or His Sovereignty to believe that He permits man to get himself into some awful messes. Because He is Sovereign, He will eventually set the world in order when Jesus comes. Talk about the Religious Right controlling everything. He will then. Right now, He is not controlling everything that happens because He has given the earth unto the hands of man for awhile, and man is making a mess of it. But that doesn't mean that everything that happens is ordained of God or in His will.

# Ant It The Truth

By Ab Gunter

Not long ago Mama and I were out in the front yard doin a bit of yard work and I heard a sort of flapin sound overhead. I looked up and there was a red tailed hawk flying down the road with what I figured was a blue gill fish in its talons. Yep the fish wuz so big the hawk had both talons through the fishes back. I really never thought too much about it but then I got to thinkin bout whether that durn hawk had a license to catch blue gill that way. I ast Mama if maybe we ought to call Harley Melton, our x sheriff, Harley knows bout things like that. Mama just sort uv looked at me like I had forgot to put my teeth in an said "Ab, have you made a pit stop this morning? You look a bit flushed around the gills". She claimed that fish and all wild game were exempt fum license and that sort uv stuff.

Back in the last uv September I noticed three bald eagles flying in a sort uv circle high above us and commented on it and Mama an I watched them for quite a while. Man they looked so gracefull an one uv the eagles made sort of a scheeching sound a few times and finally two uv them headed for the river and the other headed back to word Bloomington sort uv like he had lost the contest. We understand that eagles are becoming extinct but yet we have birds, human that is, who will kill them. Recon they

figer it is a sport to do so or maybe they are so dense they just don't care.

All my life I have enjoyed the older folks and their concern about their community and how they seemed to be so active an us young whelps so lazy. I have mentioned many of the senior Citizens at times but the other day one of these seniors folks wuz in the Mall at Freedom and I didn't get to visit with her. Recon I wuz off chasin tadpoles er something. Hollis Labaw who used to live in the community and every morning would go by and visit the friends she had known all these many years. Many a morning I or we would see her going from her home to visit these friends and since she was a retired nurse she would have her blood pressure equipment with her and she would take these friends blood pressure and be there if they needed her talents. We never visited much but waved as she went by but she was a part of the community as much as the old steel bridge that crosses the river here at town. I hope she will consider us as her children along with these she has sort uv adopted in town. Many times I hear folks mention her and all the good she has done so neighbor may I say "A Toast To You Hollis and To Your Future In Indy".

Well, here it is again, Winter is just around the corner and we got leaves stacked up about this high but somehow we will get the yard cleanded up fore it snows. I aint so worried about the leaves as I am about all that ma-

nure that has been slung by the politicians for the past many months. Wow what a bunch uv it an that aint just from the Democrats but them Republicans slung their part too. I thought that wuz tacky when Clinton said he thought Bushs Mother wore Borgans an then Bush said he thought Clintons Grandma cracked black walnuts with her teeth. Don't know where the line is but really it got a bit thick much uv it rather snide an unimportant, but that

is the way with politics I recon. maybe now we can get back to the Cowboy movies and the ball games and the Oprah Winfrey show and them kinds uv entertainment. Golly if that manure they throwed wuz like most manure we would be in trouble but maybe it is about as thin as all them promises they have made and wont hurt the ground, lets hope so.

Enjoyed the visit and see you fore Christmas if we can.

## WIND EROSION A THREAT TO COUNTY FARMERS

Wheeler County wheat farmers are in the worst condition for wind erosion damage in many years. Due to extremely dry conditions, a lot of wheat farmers have their land prepared for wheat but has yet to be planted until we get a rain. What wheat has been planted has a poor stand. This has caused a lot of bare fields subject to wind erosion.

This creates a problem with the Food and Security Act of 1985 plans. A farmer must have a FSA plan and be actively applying it each year, to be eligible to receive government payments.

These FSA plans have a practice called Surface Roughening set up to be done when lack of cover is present to control wind erosion. This is the case on many of our wheat fields. We have already observed some wind erosion damage. It is hard to make the decision as to when to apply this practice. Everyone is hoping for a rain so that, they would be able to plant their wheat. However if you are spot checked or turned in by someone and your field is blowing and you have not tried to stop it from blowing, you would be found out of compliance and lose government benefits. Money already earned might have to be paid back.

Listing, chiseling, deep breaking or other deep tillage are recommended to make the land cloddy or leave it in a ridged condition during the erosion period. Dry weather is an act of mother

nature and we can not control this. However a farmer must do all that is possible to control wind erosion. This may mean destroying a potential wheat crop. Our deep sands are hard to control with surface roughening. Listing is probably the most effective. This dry weather will also effect over-seeding wheat in cotton.

We are mandated to spot-check at least 5% of the farms in Wheeler County or any that has had a whistle blower on it.

## EIGHTH GRADERS FALL SHORT IN FINALE

The Wheeler 8th graders put up a valiant effort but came up 2 points short of tying the undefeated Canadian Kittens. The loss ended a 3 game winning streak by the Colts and made their final record 4 wins and 5 losses. The score of the final game was 14 to 12.

The Canadian defense was the name of the game as they were able to stop two point conversions and limit the Colts to just 89 yards of total offense. Despite these gaudy stats. The Colts scored first with 5:50 left in the first half. Travis Stevens dove into the end zone for six. The PAT pass from Jason Porton to Shane Sparlin fell incomplete. It looked as though the 6 point lead would hold until the half; however with just 31 seconds remaining, a Canadian receiver was

able to get behind the Colt secondary for a 34 yard TD reception on 4th down. The run failed. The half ended in a 6-6 dead lock.

Canadian scored in the 3rd quarter on a 15 yard sweep. This time the run for two was good, giving Canadian an 8 point bulge. Things begun to look really bleak for Wheeler as the Kitten defense shut out the offense for most of the 2nd half until Stevens was able step over the Canadian nose guard and score on a six yard run. The tying conversion run was stopped just short of the goal line. The ensuing onsider kickoff was recovered by the hosts but three plays later Canadian fumbled the ball back to Wheeler with 29 seconds to go. Unfortunately, Colt backs were thrown for losses on three plays.

Playing their final junior high game were Dusty Case, Jason Porton, Travis Stevens, Shane Sparlin, Ramon Meraz, Robert Gallardo in the backfield. Lineman were Clayton Brownfield, Andy Irvine, John Porter, Simon Delgado, Wade Brickey, Dean Hutchison and Boone Keelin. "These boys improved a lot and will be fine contributors to Wheeler's success in the future," stated Coach Read. "We also need to give a big thanks to Cecil Thomas, our bus driver; Benny Sword, our manager, and John Earl Simpson, statistician extraordinaire."

## Perryton Satellite Arts And Crafts Festival

The Perryton Satellite Arts and Crafts Committee will be sponsoring the 22nd annual Satellite Arts and Crafts Festival November 21 & 22, 1992.

More than 200 booths will feature handmade items, from a six state area. The Festival will be open November 21 from 9 a.m. to 7 p.m. November 22 from 10 a.m. to 5 p.m.

The Satellite Center, a sheltered workshop for adults with mental retardation, will receive 10% from the total table sales. The funds collected from the sale will help support the Satellite Workshop activities, and operation of the workshop.

## Canadian (From Page 1)

180-pound junior capped a six-play, 44-yard drive with a five-yard run. Flowers went in from four yards out to cap a 15-play, 90-yard drive to give Canadian its final 21-0 lead early in the fourth quarter. Flowers had 52 yards on 15 rushes for the night. Van Winkle led the Cats with 103 yards on 10 carries.

Wheeler's loss ended a long, tough season that was riddled with injuries and several losses of key players. The Mustangs were without fullback and defensive tackle Jason Hink and guard and inside linebacker Phil Wiggins for Friday night's game. Genaro Meraz played in only his second game of the '92 season Friday night.

There is a bright side to the end of this dreary season. With all due respect to Mark Marshall and Joe Dan Ledbetter, two seniors who endured the entire season, and Genaro Meraz, another senior who took his share of pain on the field and off, Wheeler will lose only those three rugged football players and will look to 1993 for redemption.

# SWEETWATER NEWS

By Mrs. Joe Flowers

No rain yet. The cotton harvesters are going full blast in the defoliated fields, guess this 24 degree weather got the rest. I don't know how it looks so good, considering the drought. Sure hard on the wheat.

We are keeping water out on both sides of the house for the birds and little animals. Used to be the quail would never drink in the yard but now they line up and gulp it down. We throw out grain and sometimes there are several dozen birds eating — all denominations and sizes. Had 6 cardinals and 8 bluebirds at once.

Had a note from a reader, Glenna Pickett of Sand Springs. She sent me a clipping about Roger Miller that appeared in the Tulsa World. Guess the whole world loved him and his fun.

The Baptist church had a Halloween costume party last Wednesday night. A large crowd enjoyed it and the chili and stew supper. They had a missionary speak for five nights in observance of World Missionary service.

Ruby Spencer, Corona, CA, Wanda and Orville Pruitt, Prescott, AZ, were here for the funeral of Gertrude Garrett.

The big day is over and we hope the change is for the better. Hard to see how it could be otherwise. I grew up in

the Big Depression. Frank and I walked a mile, carried our lunch and hoes, and chopped cotton for 10 cents an hour. Ten hour day. I was eleven and Frank was ten. We were tickled to death to get to earn so much money. One provision of the job was, we had to stay up with the adults or quit.

One lesson I learned in those moneyless days was that people who were debt free fared very well. But those who owed their soul to the grocery store and anyone else they met, had a mighty rough time. Credit cards and easy debts are one of the reasons we are in a depression.

Oh, about the election, we voted at noon. Gene Perry came in and was the hundredth voter. They voted 179 plus 18 absentees. We sure are glad to be able to vote close to home.

I had a lovely Cowpen daisy at my south door. It was nearly shoulder high and covered with blossoms. I wrapped it up but the freeze got it.

Had a call from Woodrow Barber of Roll. Seems their TV reception of CH 34 hasn't been very good. I called Mr. Cruse for him. Arnold is real good to see about things but he can't fix them unless he knows. His address is Arnold Cruse, Box 397, Memphis, TX 79245. Phone is 1-806-259-2879. If something goes wrong with your reception form the tower, let him know.

(past and present) to send their family stories to go in the Roger Mills History book. It will sell for \$35 and you can put your order in now. If you have sent your story to the Meridian book or Prairie fire, just update it and mail to Linda Kahoa, Rt. 1, box 106, Cheyenne, OK, 73628. You don't have to start form Scratch. Pictures will be
