## WHIMSY

By M. L. M.

J. D. Merriman, with his roller skate stunts and his ability to turn cartwheels at will, is more active than many men at little more than half his years.

He got a fall about three weeks ago when an embankment gave way under him, and the result was some broken ribs.

He is back on the street and in his office now, proving that despite his age he still is a good man physically and still knows how to "take it."

Calvin wrote a croquet story last week that got him in bad when he stated that Bob Holt and Bob Rodgers "skunked" Troy and Gravy Burgess.

Calvin isn't a croquet expert and the lingo hasn't been assimilated yet.

If it had been a baseball game, it would not necessarily have meant that nobody got to first base, but the word with the strong smell, it seems, meant the equivalent of that in croquet.

It is a mighty easy to get in dutch for one to make that sort of mistake where people take their croquet so seriously.

Three of Wheeler's churches—the Methodists with Rev. E. C. Raney as pastor; the Church of Christ, C. C. Merritt, pastor, and the Baptists under leadership of Taft Holloway, again are co-operating this year in a revival effort, holding morning services downtown in the Rogue theater and evening services in the respective churches.

Young man, if your father shows a disposition to wear a queer sort of grin and your mother suppresses a 1910 model giggle when you bring home a new pair of shoes, here's something for your elders to live down.

Here you have the picture of what was the hot stuff in footwear back about 1908 to 1912, according to W. E. Pennington, who says he has sold hundreds of pairs just like it.

You may wonder what your mother found to admire in a young man who would wear such an atrocity, and maybe she is a bit puzzled on that point herself.

If your father did his courting in those years, it is a safe bet that he was wearing shoes exactly like the above when he popped the question.

This takes you back to the good old horse and buggy days, long about the time a certain automobile manufacturer convinced the world he was crazy by raising the wage rate to where the lowest paid man got \$5 a day.

It was before automobiles, radio or electric refrigerators came into general use, not to mention the scarcity of vacuum cleaners and house trailers.

The most popular loafing place for gentlemen of leisure in most every town was the livery stable.

The World war hadn't started yet, but there was a pretty general demand for farm relief and lower taxes, and more mature folk were shocked at the spirited carryings-on of the rising generation.

The other day something got stirred up inside of me and I had to write a limerick.

The first four lines just wrote themselves, but I struck a knot on the fifth.

That limerick still is unfinished, and I've just gotta get that last line somehow.

I showed what I had to Calvin and he wracked his nimble brain for fully 15 minutes with no result.

Out on Luther Willis's farm with the family late in the day, I tried to get Mrs. Willis, who used to be a school teacher, to suggest a fifth line but she had something else to think about.

A damsel who lived in Mobeetie Picked out a swell guy for a sweetie; To get his attention She abandoned convention Ta ta-ta, ta ta-ta, ta-ta.

## Viola Lamb Is Title Winner

Viola Lamb, president of the Wheeler 4-H club, won the Wheeler club canning contest last week, which entitled her to go to the finals of the county, representing the Wheeler club, in competition with the other eight clubs.

Miss Lamb scored 313 points, out of a possible 325, to take the lead over her competing members, and to lead Helen Flynt, who scored 309 points to take second place.

Preliminaries were held in club meetings, with club competition being ended last week, and finals in the county contest were held at the boys and girls 4-H club encampment July 15. Judging of canning exhibits was based on greens, beans, and carrots. Miss Lamb won on a jar of carrots.

At the Wheeler club contest were Alice Coleman, Elsie Weeks, Aline Coleman, Dorothy Lamb, Viola Lamb, Winona Red, Anita Hale, Mrs. Bill Perrin, Miss Dalton Burleson, county agent, and Helen Flynt.

## Lela 4-H Girl Gets County Title

Gladys Erskine, of the Lela community 4-H club, won the county canning contest finals, which were held at the boys and girls annual 4-H club encampment at Kelly brothers ranch Thursday, July 15.

Nine girls were entered from the nine county clubs. Second place was won by Joy Bill Riley, Briscoe, and third place was taken by Bernice Burrell, Kelton.

Other contestants were Oleta Cordell, Magic City; Wanda Creekmore, Mobeetie; Marjorie Ruth Warren, Allison; Viola Lamb, Wheeler; Hazel Burnell, Center; and Mary Ella Westmoreland, Twitty.

Judging was done on a possible score of 325. Products counted 100; ability to score, 100; reasons, general, 50; appearance, 50; and working score, 25.

## PTA Short Course District Affair

As a special courtesy and service to the Parent-Teacher associations of the eighth district, the West Texas Teachers college at Canyon will admit one or two official representatives from each Parent-Teacher association in this district to a course on vocational guidance held at the college July 20 to 30. There will be no charge for Parent-Teacher workers.

Dr. Ben D. Wood, national authority on guidance problems, will deliver the lectures as 9 o'clock five days a week, during this period.

Each representative of a Parent-Teacher unit will be asked to present a note showing that she is the official representative of her organization. She may come for a day or for the entire ten days if she wishes. If she should wish to remain in Canyon for several days, accommodations can be secured at a nominal charge. It is expected by the college that most of the women will drive in each day to attend the lectures.

## Trip Will Go To Best Demonstrator

The Wheeler county agricultural council has offered a trip to the farmers short course at College Station to the farmer who has made the most progress in farm and home demonstration during the past four years, according to Jake Tarter, county agent.

Farm and home demonstration teams in the county are Mr. and Mrs. Hester Dodson, Mr. and Mrs. W. J. Chilton jr., Mr. and Mrs. C. A. Dy-sart, Mr. and Mrs. Clarence Zybach.

## Prize Chicago Trips To 4-H'ers Assured

Chicago, July 23.—Prize trips are assured for a delegation of Texas 4-H club boys and girls to the National Club Congress, equal to that of last year which numbered 26, announces the National committee on Boys and Girls club work. The trips are for clubsters who make the best records in projects and other activities. This year's congress—the sixteenth—again will be conducted as a feature of the International Live Stock Exposition to be held in Chicago Nov. 26 to Dec. 4. The sum of \$120 is provided for an added trip by Armour's Live-stock Bureau. It will be awarded by State Club Leader L. L. Johnson of College Station for the best baby beef record.

## Wheeler to Send Delegates to Pampa School Meeting

One of the most important school meetings to be held in the Panhandle this year will be held in Pampa, July 29, according to B. T. Rucker, county superintendent of schools, and Wheeler county is expected to send a large delegation to the meeting, Rucker said.

In a letter to Rucker, John W. Gun stream, Deputy state superintendent of District One, said, "I am counting on Wheeler county to bring the largest delegation to the meeting at Pampa, which will be held at 10 o'clock Thursday morning, July 29. Don't fail us."

Everyone interested in school work—trustees, parents, teachers, superintendents—are invited to attend the meeting, Rucker said. Means of transportation will be provided, and if necessary, school busses may be used.

## Judge Cites Need For Conserving

"After attending meetings at several places in the county, and after talking with a great many farmers, I believe that more than a bare majority of county farmers are for the water conservation bill, the Davis-Fuchs, which was passed by both houses of legislature at the last sessions, and was vetoed by the governor," said W. O. Puett, county judge, in an interview on the water conservation question.

"The farmers of the county, whom I think competent, have expressed their opinions on conservation of water, and have declared their support of the recent Davis-Fuchs bill, as well as the Panhandle Water Conservation association," Puett said.

"The governor believed that the federal government would be unfavorable to such a program as the Davis-Fuchs bill provided, because of the county plan of administration, and because it would be financed by remission of property taxes," Puett said. "But the attitude of the West Texas chamber of commerce, and the farmers of this county at least, is one that considers the great need for immediate and permanent aid in the field of soil and water conservation. The federal government is opposed to county setups, perhaps, but on the other hand, too strong centralization is undesirable, and this sort of thing can be handled through the county."

## 200 4-H Clubbers At Encampment

Two hundred 4-H club boys and girls gathered at the Kelly ranch last week-end for their annual encampment under the direction of Jake Tarter, county agent, and Miss Dalton Burleson, home demonstration agent, Miss Ona Jacks, state agent of 4-H club girls, and Miss Ruby Mashburn, district agent acted as judges in the girls' contests.

In the canning contest Gladys Erskine of Lela placed first and will receive a trip to the farmers' short course at College Station. Joy Bill Riley of Briscoe ranked second and Bernice Burrell of Kelton third.

Beulah Brewer of Mobeetie won first in the patching contest. She will receive a dress length of print material.

In the soft ball contest the Briscoe club won first. Lela ranged second and Kelton third.

R. R. Reppert, state entomologist, entertained with a chalk talk. Miss Jacks and Miss Mashburn were featured speakers.

A huge community party with games directed by Lynn Gott, Jake Tarter, E. Goule, assistant agent, Lee Barry and Miss Burleson, featured the evening's entertainment.

## Band Concert To Be Shorter

The Wheeler Municipal band under the direction of J. W. Lummus, will present its weekly concert at 8:30 Friday night, and will be over at 9:30, according to Lummus.

Lemonade, ice cream, sandwiches, and cake will be served by the Band Mothers organization at the program, and proceeds will go toward the uniform fund.

The 30 piece summer band will play the following numbers on the program: "Ambition Overture", "Grand Old Grads", "Zenith Overture", "Washington and Lee Swing", "His Honor", "The Eyes of Texas", "On Wisconsin", "Norma's Dream", "Anchors Aweigh", "Salutation" and "America".

There will be special numbers during the program, Lummus said.

## Optimism Brought By Two Rains

After two light rains spread over the county during the past three days, Wheeler county farmers are expressing more optimism, and the general opinion among them is that crops will be the best in six years.

In spite of grasshoppers, most agriculturists think that fall crops stand a very fine chance of showing and turning into real money for the territory.

When asked what he thought of prospects for crops in the fall, after the two rains, M. D. Bullard, Corn Valley farmer, said, "There are too many grasshoppers, but with 100 acres of cotton planted, we have the best prospects we ever had."

Jack Wilson, Mobeetie, said, "If the grasshoppers let up, we'll do well on our way. Chances for fall crops are good."

George Porter, Wheeler merchant, said that, "Barring hail and early frost, we'll probably have a fair crop, but if we have an early frost, as we have had in the past two years, the crops will be below average. If we have a late frost, crops will be good."

John McCarroll, Mobeetie farmer, reported that he will not have over 50 acres of cotton, and that his wheat was badly damaged when his section of the county received hail. "We made seven bushels of wheat to the acre," said McCarroll, "so we don't look for much this year. We have used 700 pounds of grasshopper poison this summer."

## Wedding of Wheeler Couple Announced

Announcement was made during the past week of the marriage of Miss Ruby Lee Williams, daughter of Mr. and Mrs. W. L. Williams of Wheeler, to Mr. Weldon Sandifer, on Sunday morning July 18. Rev. S. A. Ribble, minister of the Church of Christ, Shamrock, performed the ceremony.

The bride wore a dress of beige and red earth combination with white accessories.

Those present for the wedding were: Miss Glennis Watson of Santo, Texas, Mr. Clyde Adams and Mrs. Walter Flynt both of Wheeler.

Mrs. Sandifer is a graduate of West Texas State Teachers College, Canyon, where she took her B. S. degree in 1936. She attended high school in Wheeler and graduated here in 1930. She was employed last year as English teacher of the grades in Briscoe school system having taught one year at White Deer Creek school near White Deer, Texas.

Weldon Sandifer is the son of Mr. and Mrs. C. O. Sandifer of Wheeler and attended college at Amarillo Junior College and Texas A. and M.

Immediately following the ceremony the bride and groom left for Seagraves, Texas where they will make their home.

## Hospital Has New Staff Member

Dr. Robert L. Daily, former resident of Savannah Missouri, and graduate of the Baylor College of Medicine at Dallas, has joined the staff of Wheeler hospital, according to Dr. H. E. Nicholson, director of the hospital.

Daily has an M. D. degree, was a University of Missouri, at Columbia, and did the remainder of his work at the Baylor College of Medicine. His internship was carried out at Bradford Memorial hospital for babies, and Baylor general hospital at Dallas.

Mrs. Daily whose home was McKinney, Tex., has joined her husband in Wheeler. Dr. C. C. Slecman, president of the Southern Methodist University, who is well-known in the Panhandle, is an uncle to Daily.

Daily, who was an assistant in undergraduate year, is a first lieutenant in the medical division of the reserve officers' training corps.

## Two Arrested On Liquor Possession

In a raid on a house, about one-fourth mile west of Shamrock on highway 66, three law enforcement officers confiscated 12 gallons of corn liquor, a car in which the liquor was found, and arrested two men, Frank Copeland and Marion Lynch, Tuesday.

Officers in the raid were Raymond Waters, Wheeler county sheriff, John L. Pingenot, state highway patrolman, and Wiley McKinney, constable from Wellington, Tex. The captured men were turned over to the liquor control officers, and were taken to Amarillo, where they will await trial there, or in Fort Worth.

## County Gets 560 Tons More Hopper Poison Material

Seven cars of grasshopper material, totaling enough to make 1,120,000 pounds of poison, have been designated to Wheeler county, according to Jake Tarter, county agent, and renewed efforts will be put into the fight which has been carried on against the pests for the past two months.

Although 800,000 pounds have already been distributed in the county, and it appears that the fight has been practically won, hoppers are in the fields now, Tarter said, and are beginning to feed on the grains found in the grain sorghums. Maize and kafir are most likely to be damaged now, and hegari will be attacked later.

The individual allotments to farmers will be unlimited now, Tarter said, and the additional material is being given by the government because of the good job done in this county. Distributing points in the county will be at the same places they have been, and the poison will be given out on Saturday, Monday, Wednesday and Saturday.

Tarter stressed the need for work this year in order to cut down the infestation for next year. "There has not been over a 3 percent damage to crops in the county, it has been estimated," Tarter stated.

Poison can be spread out in the maize fields, just as it has been broadcast in other small crops, if the hoppers have already gone into the field, Gable said, and once the field is cleaned out, it is necessary to establish a "no-hopper" zone, 100 yards wide, extending out into adjoining land, where there are hoppers. This zone should be poisoned every week, as long as the grasshoppers remain. Roadside fence rows and turnrows should also be cleaned out.

With recent rains, chances are good for feed crops, and for cotton," Gable said, "and farmers will not be gambling on an investment in grasshopper poison. About the only thing that will prevent crops from being made now is the grasshopper plague. "I am very anxious that Wheeler county shall be an outstanding demonstration of successfully controlling hoppers and producing profitable crops in spite of the pests," Gable said. "It is because I believe that the farmers of this county have both the courage and willingness to follow the leadership of their county agent in doing this that I have recommended a further generous supply of government bran to help out on this campaign. This county has done admirable work already, and has a good chance for nearly eliminating the grasshoppers."

Wheeler Farmer Dies Of Heart Attack

E. B. Smith, farmer, who lived three miles northwest of Wheeler, died Thursday night at his home after a heart attack.

Funeral arrangements will be announced later by Hunt Funeral home.

## New Nora's Cafe Has Opening

Mr. and Mrs. Sam Watson have announced the opening of their new cafe, into which they moved last week and conducted a formal opening. Free coffee was served Monday morning to all who came in.

Watsons have also announced that Jack Parkhill, formerly of Stamford, has been employed as chef in the new place.

## Mobeetie Teacher Takes Leave

W. D. Hawkins, agriculture teacher in the Mobeetie school, has resigned and plans to do college work at Texas Tech, Lubbock, in order to qualify as a vocational agriculture teacher under the Smith-Hughes act, according to M. D. Blankenship, superintendent of Mobeetie schools.

Next year, Blankenship says, it is expected that Mobeetie will employ Hawkins and secure state and federal aid for the agriculture department under the Smith-Hughes law.

## Seventeen State Failures Recorded

AUSTIN, July 22.—Seventeen business houses failed in Texas during June, which represents an increase over the preceding month and over the corresponding month last year, it is shown by compilations of the University of Texas Bureau of Business Research. Reports from Dun and Bradstreet, Inc., show a total of seventeen failures in June, against eight in May and fourteen in June, 1936—increase of 112.5 per cent respectively, the Bureau's analysis stated.

Liabilities of \$89,000 were up 287 per cent from May but down 4.3 per cent from June last year.

During the first six months failures totaled 76, a decrease of 29 per cent from the like period last year. Aggregate liabilities were \$794,000, a decline of 38.4 percent from the corresponding period last year.

## Transfers Must Be Applied For Now

July 31 will be the last day in which parents may make application for transfer of school students from one district to another, according to B. T. Rucker, county superintendent. This is the last warning, Rucker said, and many have not come in to take care of this important matter.

## More Than a Million

The 4-H clubs present an opportunity and a service to farm young people which they are using in increasing numbers. The Progressive Farmer gives these encouraging figures:— "Four-H club enrollment in 1936 passed the million mark for the first time by almost 150,000 boys and girls. Early reports indicate the total may pass 1,130,000 members."

### WHIMSY— (Continued From Page 1)

And that was as far as I could go.

It should be explained that the reason I had her living in Mobeetie was because of a pleasant hour spent in that town the previous evening.

The name of Mobeetie sang itself to me and I couldn't use anything else.

And I still am reluctant about moving her to Allison or Briscoe or Twitty on the possibility of easier rhyming.

The best I could do for a fifth line was "And went without clothes on the streetie," but that won't do because she's a nice girl.

But I've got to have that limerick finished and am offering a year's subscription to the person who submits the best line by next Wednesday.

It is not economy to travel on tires that endanger your life and your car. Avoid trouble with tires, and avoid danger.

For your selection we have a wide range of tire sizes and different quality in FEDERAL TIRES, which are nationally known and recognized for their endurance.

Don't take a chance on trouble in the hot weather that puts extra pressure on automobile rubber . . . Ask to see our line of Federal tires.

### WHIMSY— (Continued From Page 1)

And that was as far as I could go.

It should be explained that the reason I had her living in Mobeetie was because of a pleasant hour spent in that town the previous evening.

The name of Mobeetie sang itself to me and I couldn't use anything else.

And I still am reluctant about moving her to Allison or Briscoe or Twitty on the possibility of easier rhyming.

The best I could do for a fifth line was "And went without clothes on the streetie," but that won't do because she's a nice girl.

But I've got to have that limerick finished and am offering a year's subscription to the person who submits the best line by next Wednesday.

### "Bank" on your job

But do not be too certain that your job will always be yours to "bank" on.

So bank in a different way—store money while you are able, and know that you can bank on having something that will carry you through difficult periods. Bank for the time when you have no job and no other resources.

A savings account is the safest method of getting security.

By M. L. SIGNING

This is the last issue under present management has been ownership and possession is transferred to former publisher.

So the time has come for this column to say goodbye to its readers.

There are some, I know, who will welcome the change to be expected to differ. Anyway, those who liked the Times or its during the last eight months right to their bodies.

But my few months sulted in my finding friends and testing ones, for these have months.

There is the partner who has not had the get well acquainted people. Just imagine ities you would want ner to have, and you scribed Bowins.

If things had worked, Bowins expect Wheeler and participate of the Times. If our terialized, Wheeler w fortunate in adding a ily, a high-class citizen civic worker.

Bowins's friendship highly, and I hope it time affair.
