This Year's Kelton Fair Declared Best

More Exhibits of Higher Quality and Good Program Attract Large Attendance

Universally acclaimed by those attending it as much the best of the three annual events held so far by that thriving community, Kelton's Community fair on Friday of last week is conceded a signal success. Many enthusiasts assert it easily leads similar undertakings throughout the Panhandle by a comfortable margin.

Quantity, quality and variety distinguished farm products and livestock entries, with forage grains surpassing anything shown in the county for a long while.

Keen interest in the many exhibits was shown by the large number of spectators who followed the judges from one department to another. V. E. Hefner, Childress county farm agent, and his assistant, Bill Dryden, judged the farm products. Howard Weatherby and W. C. Zirkle, vocational agriculture teacher in the Wheeler schools, judged the livestock. Canning and needlework entries were judged by county home demonstration members.

Concerts were offered by the bands from Wheeler and Shamrock and talks were made during the afternoon by County Judge W. O. Puett, Wheeler; Attorney J. B. Clark, Shamrock; and Mason King, Tri-State fair official.

Puett commended Cong. Marvin Jones in his efforts to aid farmers with their problems. Clark advised farmer co-operation with present and proposed farm programs. King complimented officials and exhibitors in the community fair, praising their efforts highly.

With the exception of the home department, in which a list is not available, the following awards are announced:

Grain and Feed
White Milo—1st, L. H. Jesse; 2nd, Don Rives; 3rd, T. B. Killingsworth.

Red Milo—1st, Ed Henderson; 2nd, Floyd Carver; 3rd, J. L. Henderson.

60-day Milo—1st, George Henderson; 2nd, F. Carver; 3rd, Z. Baird.

Kafir—any other variety, 1st, Z. Baird; 2nd, Gordon Whitener; 3rd, Don Rives.

Ajax—1st, T. L. Jesse; 2nd, J. F. Rathjen; 3rd, J. L. Henderson.

Feterita—1st, Grady Richardson. Hegari—1st, F. Carver; 2nd, Z. Baird; 3rd, Don Rives.

Sunflower—1st, Gordon Whitener. White Dent Corn—1st, T. L. Jesse; 2nd, John Baird.

June Corn—1st, Gordon Richardson; 2nd, John Baird.

Yellow Dent—1st, John Baird. Sudan Grass—1st, F. Carver; 2nd, J. A. Jesse.

Sorghum Red Top (Bundles)—1st, Don Rives; 2nd, F. M. Addison; 3rd, Ted Clay.

Cotton (Best single stalk)—1st, Neeley Farm; 2nd, Gordon Whitener; 3rd, F. Carver.

Cotton—(Best 20 bolls)—1st, T. J. Clay; 2nd, J. E. Garner; 3rd, Z. Baird.

4-H Boy Winner
Cotton (Club boy)—1st, Truman Henderson. Note: Judges said this long staple cotton would have won sweepstakes against all cotton if its 4-H club boy grower had been eligible to compete against his elders.

District Legion Meet at Childress Tuesday

Reports from National Convention to Be Given at Regular Monthly Assembly

Under date of Oct. 12, Lou Roberts of Borger, commander of the 18th district of the American Legion, submits the following notice which The Times is glad to include in its news columns:

"Dear Commanders and Buddies: "Cox-Furr Post No. 65 of Childress wants us to come down there on Tuesday evening, Oct. 19, for our regular monthly post visit. Meeting is called for 8 p. m. Frank 'Middle' Buster, post commander, says they will sweep out the old opera house so we can dance a little.

"Reports from the New York National convention will be given by several 'delicates.' The writer will report on the department executive meeting. Pass the word on to your Auxiliary officers.

"Tom Preston, Childress adjutant, says: 'If you're not hungry and don't like to have fun—stay away from this meeting.'

"Yours for the good of the Legion."
LOU ROBERTS,
18th District Commander.

EFFORTS BEING MADE TO RE-ORGANIZE LOCAL BOY SCOUTS

Last Monday night's meeting of former Boy Scouts and prospective Scouts at the basement of the Baptist church under supervision of Taft Holloway, is declared to be the preliminary step toward reorganization and revival of Scouting in Wheeler and surrounding community.

Along with reorganization procedure, registration of members is an important phase. Holloway announces that another meeting will be held at the same place next Monday night, beginning at 7:30 p. m. At that time, every boy who wishes to join the Scouts or renew his membership is requested to bring the registration fee of 50 cents.

Holloway, C. J. Meek and other Wheeler men are interested in Boy Scout work and wish to help direct activities; even the Lions club has accepted the task of sponsoring the Scouts this year. Now it is up to the boys, since it requires their presence and co-operation to achieve results.

"Let's go, Scouts," invite the leaders, who hope for a ready response.

Wooldridge Lumber Co. Making Improvements

Evidence of new life and vigor is seen about the Wooldridge Lumber company yard here this week. Under direction of Birl Hight, resident manager, new fences and gates have been constructed at front and rear of traffic space in the yard. Complete paint job on new fencing, the office and front of the lumber sheds, is planned as soon as drier weather conditions will permit, states Hight.

Epidemic in County Livestock Continues

Inquiry today of W. B. Hooser, assistant county agent, reveals that the "sleeping sickness" malady among horses and mules of the Panhandle continues in about the same proportion as that of last week, although it is thought some improvement can be observed in Wheeler county. Demand is still brisk, states Hooser, for vaccines and services in administering them.

Cattle, particularly milk stock, have developed an ailment somewhat similar in certain aspects to the trouble affecting horses and mules. As yet this new malady has not reached epidemic proportions but has proven highly disquieting to livestock owners.

Times Window Blooms with Many Specimens

Wheeler-Grown Figs and 30 1/2-inch Sweet Potato Among the Oddities Shown this Week

Blooming forth with much of the effluence of a successful county fair, and with traces of sideshow freaks, The Times Window has attracted many interested spectators during the past week.

Among the staples is a sample of pure Acala cotton—seems to be a sort of connection between "staple" and cotton, especially when it is one and an eighth inch staple such as this grown by Ira Passons, living northeast of town. Passons also left an exhibit a fine head of pearl kafir.

Another item is several heads of Japanese millet of extra size and quality, brought in by V. E. St. Clair, who grew it on a farm southeast of Kelton.

Two exhibitors offered apples for the window. One lot consists of Gano and Black Twig, grown by W. W. Underwood, northwest of here, and the others are red Delicious and Black Twig from the S. T. Morgan farm, north of town.

Two oddities are shown. If products indicate anything, Wheeler county must resemble that cradle of the human race—the Garden of Eden. At least, right here in the town of Wheeler, figs—first source of clothing—are grown. Charley Sandifer brought in Tuesday a liberal length of twig with leaves and fruit on it. Very few fig trees are to be found in the county, however.

Then, to round out a well-balanced display, D. B. Cox sent in today a 30 1/2 inch sweet potato. No, that isn't a typographical error, this elongated tuber is actually 30 1/2 inches long—but not very wide in girth.

For the sake of record but not the curious gaze of passers-by was the contribution on Monday by Julius Carter of a bunch of delicious White Icicle radishes; tender and sweet.

Then to supply the dessert, G. L. Wilson, living on Route 1, handsomely remembered The Times with a huge Holbert Honey watermelon with shiny green rind and luscious pink meat. Yum, yum!

Grasshopper Control Program Saves Much

Wheeler and Hemphill Counties Collect Data to Prove Saving to State

Approximately \$5,000,000 was saved Texas farmers by the grasshopper control program waged during the spring and summer in Northwest and Central Texas counties which were threatened with a severe grasshopper infestation equal to or worse than the destructive one of 1924, according to a conservative estimate by R. R. Reppert, extension entomologist and state leader of the committee on grasshopper control.

Definite data on the saving have been supplied by Hemphill and Wheeler counties. Hemphill county suffered a crop loss of \$84,000 and estimated that the loss would have amounted to \$212,000 except for control measures—a saving of \$128,000. In Wheeler county, the actual loss was \$40,000 and the estimated savings effected by the control campaign were \$900,000.

Egg counts made in the spring revealed the area in greatest danger of a severe infestation. "Egg counts are of definite value in determining the severity and exact location of an infestation," says Reppert. Grasshopper eggs are laid in pods, each pod containing approximately 100 eggs. If one pod is found per square foot in field or pastures, or as many as 16 egg pods are found per square foot along roadsides or ditches in the fall or early spring, farmers should prepare for grasshopper damage the following summer.

Control campaigns were carried on by county committees working with the county agricultural agent under the supervision of a state committee. The Bureau of Entomology and plant quarantine which has been designated by congress to administer a \$1,000,000 fund for grasshopper control furnished the state with 2,190 tons of bran and 45,000 gallons of arsenite. Additional bran was supplied from local sources.

Magic City Church of Christ Gospel Series

The Times has been requested to announce that Evangelist Alva Johnson of Turkey will begin a series of gospel meetings at the Church of Christ, Magic City, starting Friday, Oct. 15, and continuing through Oct. 24 inclusive.

Evangelist Johnson is known to the evangelistic field carries him from coast to coast.

The public is cordially invited to hear this man.

COUNTY COMMISSIONERS AND JUDGE TO STATE CONVENTION

Amarillo is host today, Friday and Saturday, at the state convention of county judges and county commissioners. Judge W. O. Puett left this morning for the convention, expecting to attend the session which concludes about noon, Saturday. Although this is county court week, through mutual agreement Puett was excused by the county bar association, which urged that he go. Temporary judge may be selected to preside should occasion require it.

The four county commissioners, Doug Sims, Tom Montgomery, Geo. Hefley and Jim Trout, expect to go to the meeting some time Friday.

OCTOBER TERM OF COUNTY COURT PROVES VERY TAME

Convening on Oct. 4, the present term of county court has pursued the even tenor of its way with more than wanted quietude. No jury was called for the first week, when motions and hearings were docketed. This far no jury service has been required, although the talesmen were available beginning with this week.

Following a brief recess from Wednesday until today, another recess was ordered Thursday, Oct. 28. At that time a few criminal matters may come on for hearing.

Local Utility Office is Strong Advertiser

When the Panhandle Power & Light company, utility concern with a local office, opens up with advertising it doesn't do it by halves. This issue of The Times offers the second in a series of "better sight" advertisements extolling the virtues of I. E. S. lighting equipment and pointing out damage that may result to eyesight through improper lighting in the home and office.

Beginning this week, the light and power company, which handles several lines of household appliances, also launches the first in an extensive Zenith radio publicity schedule.

Davis to Entertain Singing Convention

First in Series of Monthly Meets of County Convention Will Be Next Sunday

According to E. J. Cooper, president, the first session of the Wheeler County Singing convention under the monthly meeting plan will be held next Sunday, Oct. 17, at Davis, some six miles southeast of Kelton. The program is to start promptly at 2 p. m.

Heretofore the county convention had only four meetings a year, quarterly, with an all-day session and lunch on the ground. This plan had certain faults, such as making it burdensome on certain localities to provide food; also, it was found, that a number of people missed the gatherings entirely because they felt obligated to attend Sunday morning religious services in their own communities and were hesitant in coming to the convention for only a part of the program. Quite frequently inclement weather seriously hampered attendance if not compelling cancellation of the meeting entirely.

Now it is believed that much better interest will be developed through the more frequent dates, no great inconvenience resulting from missing one occasionally from unavoidable causes.

Cooper is anxious that a large delegation be present Sunday from the northern part of the county, showing sufficient interest to warrant holding the next monthly meeting in that area.

LANE BROTHERS WRECK CAR; ONE IS SERIOUSLY INJURED

Robert and Henry Lane, brothers, children of Mr. and Mrs. Burl Lane, living north of Mobeetie figured in a car crash late Saturday night when their automobile turned over on the highway a short distance northwest of Wheeler as the boys were traveling toward their home.

Robert, about 22 years old, suffered seriously in the accident sustaining chest injuries from which recovery appeared doubtful for two or three days. Word today from the Wheeler hospital, where he is receiving treatment, states that he is improving and unless complications develop is considered out of danger.

Henry Lane received only minor cuts and bruises, it is said.

Area School Program at Pampa Wednesday

Observance of the program substantially as outlined in The Times last week for a meeting of the Panhandle-Plains County School Boards and Superintendents association at Pampa on Wednesday, is reported by B. T. Rucker, county superintendent. Those from here attending the meeting were H. M. Wiley, Wheeler, president of the Wheeler County School board; E. C. Smith, Magic City, a member of the board; and W. V. Swinburn, superintendent of the Briscoe schools, and Rucker.

Mr. and Mrs. Harvey Eads of Wellington were Sunday guests of her sister and husband, Mr. and Mrs. Homer Pitcock.

REDUCED FREIGHT RATES IN DROUTH AREA EXTENDED TO TRUCKING LINES

Action Follows Railroads' Effort to Annual Transportation Order of August 30

That drouth relief transportation rates for Wheeler county and the Panhandle will continue on even a wider scale, appears from dispatches under an Austin date line printed in this morning's Amarillo daily. That publication is authority for the statement that the railroad commission made public yesterday (Wednesday) an order reducing truck freight rates on feed transported into 34 Texas counties.

The order, similar in purpose to one previously issued and applying to railroad rates, was made effective Oct. 18 and to terminate Nov. 30. The original railroad drouth rate, which expired June 30 and was reinstated August 30 largely through the efforts of C. A. Studer, Canadian, president of the Panhandle Feeders association, had Nov. 30 as its closing date.

Both orders were issued under a law authorizing reduced rates in emergency drouth conditions. The commission has held such conditions exist in the territory designated. However, the commission has called a hearing for further investigation of the question on Oct. 22 at Austin. The railroads contended that

COUNTY SCHOOL INSPECTION TOUR DEFERRED TILL LATER

During his stay in Pampa Wednesday at the school leaders meeting, B. T. Rucker, county superintendent, was informed by J. B. Speers, deputy state superintendent, that a tour of inspection of Wheeler county schools had been contemplated for next week. However, due to cotton picking season with the consequent absenteeism, Speers has decided to postpone his visit until the harvest rush subsides somewhat. He will probably come somewhere between 30 and 60 days from now.

Rucker feels the decision is most considerate, inasmuch as attendance reports must be made on the day of visitation; state aid is based on attendance, and it would be manifestly unfair to obtain such figures at a time when pupils cannot be in school because of farm duties.

Locust Grove School Joined with Wheeler

Qualified Voters Ballot 40 to 0 Favoring Consolidation in Election Today

Confronted with the question of accepting Locust Grove school district into Wheeler Independent district and assumption of a nominal bonded indebtedness accompanying the newcomer was solved in decisive manner today by qualified voters who tallied 40 for the proposition with none against.

Both parties to the transaction are undoubtedly benefited—Wheeler, because of this addition giving the district more than 100 sections, about 115, whereby a larger state aid allowance for bus hire will be received; and Locust Grove in gaining access to the splendid school system of the county seat.

Locust Grove brings into the Wheeler consolidated group 51 scholastics.

Geographically, the newcomer is situated southeast of Wheeler, the northwest corner being three miles southeast of town.

County People Attend Memphis Singing Meet

Quite a number of Wheeler county singers and those who like to hear good singing attended the Texas-Oklahoma Singing convention at Memphis last Saturday night and Sunday. It was estimated that a total attendance of 7,000 was reached. This was the ninth annual gathering of the organization.

E. J. Cooper of Davis community, this county, is first vice president of the Texas-Oklahoma convention which will meet next year at Wellington. Cooper reports the following Wheeler county persons observed at Memphis: Mr. and Mrs. Hester Dodson, E. V. Hopkins and family, Rex Willoughby, Clyde Green, Alfred Self, Claudia Foosee, Lonzo Clay, Bud Henderson and family and John Hefley besides Cooper's family which accompanied him. He states there were no doubt a number of other from this county whom he did not see in the large crowd.

Sheriff Raymond Waters was quite ill the first of the week with the flu.

Jury List District Court is Announced

Comparatively Light Docket Seen at This Time for Term Starting Nov. 8th

Through courtesy of Holt Green, district clerk, the list of grand and petit jurors names for the November term of district court for Wheeler county was released yesterday for publication. The term opens this year on Nov. 8, for a seven weeks session, ending about Christmas time.

It is learned, unofficially, that a rather light docket now appears in prospect. The schedule of criminal and civil weeks are not known at this time, other than the petit jury will not be used the first week. Of the 16 grand jurors named, 12 will be chosen to serve. The panels:

"WORTH THINKING ABOUT"

In a recent Saturday Evening Post, John Fort writes, "I Work For A Power Company."

He describes himself as a typical white-collar worker approaching middle age. His salary is less than \$200 and more than \$100 a month. He has a wife, three children and "a small house on which there is a big mortgage." The power company is in the Southeast. The Tennessee Valley authority, paid for and subsidized with government money—taken from all taxpayers—is paralleling his company's lines and preparing to take away a substantial part of its business.

John Fort is wondering what is going to become of him and his job—the job that stands between his family and the man who owns the mortgage on his house, the doctor, the grocer and everyone with whom he does business. "So far as I am concerned," says John Fort, "my government is taking sides with the crowd which tries to gobble up my pay check, so right at this point I stand up and ask why. I ask why because I'm of the class of citizens for whose benefit it is said that all this whooping and hollering about uplift has been going on. Frankly speaking, I am about to lose my patriotism, such as it is."

The jobs of many John Forts are imperiled by the government's policy of competing, on a tax-free, subsidized basis, with private business which is heavily taxed and stringently regulated and has long served the public efficiently and economically. There is no reason for believing that government, unless it is checked, will be satisfied with gobbling up the power business. Already the politicians are looking toward the railroads. Why not insurance, groceries, banking, printing, and publishing? If government is justified in producing and selling electric power, why not other things? And then millions of John Forts will see their jobs destroyed and given to political appointees.

John Fort concludes his Saturday Evening Post article with, "I'm supposed to be steady in a pinch. It's going to be the hell of a note when these youngsters and the jobless and dissatisfied come back from their experimenting and look for the heavy-shouldered family men to withstand the attack which they provoked—and find that we're gone."

"That eventually is worth thinking about—even worth the politician's thinking about."

CAN YOU LAUGH THIS OFF?

The gross public debt of the federal government is now better than 37 billions. The State of Texas deficit is better than 15 millions. Counties cities and schools all over the state are in the red. Despite this fact, people are demanding that more money be spent, new projects put into operation, more pensions piled up every day at a rate that can not be paid. Pay day is coming, and when it does, how are you going to laugh it off?

Never in history of our country has the public indebtedness been as great as it is at this time. Our governor has called a special session of the legislature for the purpose of piling on more taxes that the deficit may be secured and to pay for things

that the people foolishly voted. So far Texas has escaped the sales tax, but it is coming as sure as the sun rises and sets.

We people are funny creatures. We are living in the "gimme" age. Most everyone wants the government to give them something—and put them, their offspring, their livestock, and the old kitchen cat on a pension so that working days will be over. We should elect men to our law-making bodies for business reasons and those who have business sense. All of us will agree that a continuation of increasing taxes and a continuation of increasing the public indebtedness is not good business policy; yet we will go on and vote for everything that appears to be a free distribution of money. We are only kidding ourselves. Money can't be distributed free. Pay day will come—and when it does, we howl and rave until we are hoarse.

Our governor has said that we must raise taxes and pay and pay. He gives an excuse for this that the people of Texas voted it upon themselves. We are just like a bunch of school kids. Get before them and put up any kind of a foolish proposition and ask all to hold up their hands that think it is right. Every little hand will go sky high, regardless of what it is. The majority is always wrong.

Every reform movement, every conservative movement, every movement for the betterment of the country has always been originated by the minority. We need law-making bodies that will handle the affairs of our government in the same business way as an individual would handle a business, or a banker would handle his bank. Until we get it, our public indebtedness will never decrease nor will we ever pay our debts.—Paducah Post.

COTTON PROSPECTS BRIGHTER

Announcement the first of last week of government loans supporting lower grades of cotton, in response to wide-spread appeals from the Panhandle and West Texas, lifted our section out of the depths of uncertainty and forebodings, and gave assurance of a fair-scaled price for the 1937 cotton crop.

Business has suffered appreciably in the past two weeks on account of the laggard settling of details of cotton loans to peg the 1937 price at something like a fair price, with the result that every possible avenue of approach to the powers that be in Washington was choked with clamor from over the Southwest. Many farmers felt that low grades of cotton would hardly be worth gathering and there was threat of thousands of

bales being left in the fields to rot. Now the skies are clearing and under the new rules announced there will be a fairly scaled price for all tenderable grades.

Confidence is restored and business will gain in momentum as West Texas farmers hopefully turn to the gathering of the best all-round crops that have blessed this section for almost a decade.—Clarendon News.

Authorities of tax matters have informed Governor Allred that not 50% of the delinquent taxes due in Texas are collectable. The estimate is probably quite accurate. Much of the delinquency is on vacant property and upon personal renditions. Whether collectable or not, the state would do the wise thing to make some effort to collect up all delinquent taxes, and clear the record. There is no use for the state to kid itself by maintaining that it has \$15,000,000 or more due in delinquent taxes, when as a matter of fact not half this amount will ever be realized.—Canyon News.

The city officials of Miami are preparing to install a traffic light at an early date at the intersection of Main and Commercial streets. It is understood that the light will be placed on top an iron pole instead of being swung in the air and that the usual red stop light will not be used facing on U. S. highway 80, but instead a warning or slow signal light.—Miami Chief.

Of course it is none of our business whether Hugo L. Black belonged to anything or not, but there was more interest aroused in the matter by far than was aroused when the packing house trust beat the producers and consumers of hog meat out of over two million dollars through the process tax experiment. It all goes to show that prejudice is mightier than hunger or want in any shade or variety.—Donley County Leader.

Adventure is Coming in the American Boy

Readers who like adventure and the lure of far places will find plenty to please them in coming issues of THE AMERICAN BOY Magazine. They'll read, for instance, of seamen and sabotage and San Francisco water-front trouble; of daring adventure in the world of pseudo-science, and of a feud aboard a plunging, rolling battleship.

They'll read, too, of excitement aboard a transport plane blaring over jungled Mexican mountains, and of stranger planes that are not bound to earth but swing through the noiselessness of space. Readers can follow a young ex-Mountie as he searches for clues in the wild northlands, and Tierney, the pie-eating detective, on the trail of city criminals.

BRISCOE BRONCO

(News prepared for The Times by staff members of the Briscoe schools).

School Has Football Team for First Time

For the first time in its history, the Briscoe high school now has a football team, the Briscoe Broncos.

The team went to Mobeetie Friday and played the Mobeetie Hornets a rough game, which ended in a 53-6 score in favor of the Hornets.

Although the Broncos were quite inexperienced and had only three days practice, they did some nice playing. Several plays attempted by the Hornets were stopped by the Broncos.

Douthit, left end, took the ball from his own 25-yard line to the opponents' goal line. Hogue, right tackle did some excellent work when he blocked a place kick which might have counted an extra point for the Hornets.

Starting line-up of the Broncos: le, Douthit; re, Clark; lt, Cook; rt, Hogue; lg, Riley; rg, Ramsey; lh, Morris; rh, Simpson; qb, Clepper; fb, Hefley; c, Luttrell. Substitutes: Sanford, Vise, Wilson, Standlee.

Senior Rings

You should see the senior rings. Girls who got them are Laverna Evans and Vera McNeill, and boys are Marion Clark, Paul Luttrell and James Riley. Paul and James have not received theirs because they ordered them late. They will be here some time in November. The other seven seniors have not ordered their rings yet.

Seventh Grade News

We are glad to have Dorothy Nell Self back in school. She has been absent for some time.

We are sorry that Eugene Matthews is leaving. He doesn't know how long he will be gone.

Janitor is Kept Busy

Mr. McNeil, the janitor, is kept very busy every afternoon after school hours. McNeil said, "If every teacher would have the students clean up their classrooms at the end of each period it would help a lot."

McNeil said some of the classrooms were rather dirty every afternoon, but outside of that the school building is in good condition.

Come on, everyone, let's help our janitor out and keep our classrooms clean.

School News

The sixth grade children have been studying about Dutch people in geography. We gave a play about the Dutch children, a song and a poem were also given. A cart, two dolls and a cheese carrier were made.

Clean Blackboards

EARL SIMPSON

I am a blackboard:
Six months ago
I was new, clean;
Was written on and admired;
Saw smiling faces—
But now I am marked, uncleaned
and scorned.

The blackboards should be kept clean of chalk and erasers in the trough. They should be kept so a person would enjoy writing on them. Instead, sometimes, they are abused. They are dirty with chalk marks all over them. They should be kept tight against the wall. They should be taken care of as if they were personal property.

"THE REST OF THE RECORD"
By JAMES V. ALLRED
Governor of Texas

I regret that the first 10 days of the special session wound up in a bitter personal attack upon me. I have been called so many mean things that I just decided I couldn't possibly be as bad as I was painted. Anyway, the people are not interested in personalities. They are interested in what the legislature does. The revenue-raising situation is more acute than even I had suspected.

This week the entire membership of the Board of Control issued a written statement that unless additional money was raised by the legislature at once for old age assistance, the board will have to suspend payments for two or three months after Nov. 1. They pointed out to the legislature, as I had done, that the old age assistance fund owes \$1,627,000 to Dallas banks on past due warrants. This money has been due nearly a year and the banks have demanded payment.

The board stated they felt as I do—that more money should be paid to the old folks so as to increase the amount of payments and add more people to the old age assistance rolls through the coming winter months. They said the present grants average \$14.00 a month, but unless the legislature provides more money the board will have to reduce these payments.

That puts it squarely up to the legislature! I have called them in special session and have made my recommendations. As yet no bill has been passed, but I hope by the time you read this column that the lower house will have sent a tax bill to the senate. You see, under the constitution, tax bills must originate in the house; and the senate has been marking time while some members were talking about the vast sums of money they could save by economies if appropriations were submitted. Last week a majority of the senate ruled that I did submit appropriations and economies. It is up to them now to demonstrate to the taxpayers how the senate can save all these millions they talk about by cutting down the very appropriations voted by them in the regular session against my recommendations. We shall see.

One fact remains: if they make any economies it will only help the general fund, which is more than \$15 million dollars overdrawn. We still must have more money for old age assistance and we can't economize there. We must have some money for aid to the blind and to dependent children; we have got to carry out our contract with the teachers.

Remember—unless some money is raised for these purposes by this legislature the old folks are going to suffer even more and we will have failed to carry out the president's program for the blind and for underprivileged children which was voted by the people. Those of you who are interested should let your senators and representatives know how you feel about the matter.

I was very happy last week when Senator Clay Cotten of Palestine made a speech on the senate floor in defense of the president and his program. He said in part:

"In reply to a statement by the Governor of Texas that the issue now drawn before this senate is one of human rights against property rights, the senator from Galveston is

quoted as having said: 'Every tyrant from Nero to Franklin D. Roosevelt has used that argument.'

"I am indeed sorry for him or any other man who becomes so wrapped up and warped in his own opinions that he would reach the point where he would brand not only the governor of this state, but our beloved president as a tyrant comparable to Nero.

"I want and I think this senate wants the people of the country to know that in his vicious assaults upon Roosevelt the senator from Galveston does not speak for the great masses of the people.

"... He does not voice even the sentiments of the people of his own district.

"... Franklin D. Roosevelt has not only brought back prosperity to the captains of industry, but through his social security program he has ministered to the aged needy and has provided funds which, if Texas will but do its part, will feed the hungry and clothe the naked throughout our borders.

"It is not going to be any pleasure to me to have to vote for taxes... but we have no option. The people have spoken at the ballot box. They told this legislature to provide for the needy old people... for aid to the blind... to help unfortunate children.

"This state is rich in resources. We can provide these funds without substantial injury to anyone by taking only a small portion of the vast profits being made in this state... I would respect the wishes of my people by voting for adequate tax revenues at this special session."

Mr. and Mrs. Lowell Burton of Carrizozo, N. Mex., and Miss Virgie Wheeler and Cecil Perrin of Shamrock spent Sunday afternoon with the latter's brother and wife, Mr. and Mrs. Bill Perrin.

Mrs. J. A. Hall and sister, Miss Ludie McIlhany, of Shamrock were Sunday afternoon guests of their brother and wife, Mr. and Mrs. M. McIlhany and Dr. and Mrs. V. N. Hall.

Mr. and Mrs. C. G. Miller motored Saturday to Clinton, Okla., on business. They were supper guests of his mother, Mrs. H. E. Miller, and family at Elk City, Okla., returning home that night.

Mrs. Gus Leftwich and daughter, Ann, of Amarillo and her mother, Mrs. H. P. Mundy, of Shamrock were Sunday afternoon guests of their uncle and brother and his wife, Mr. and Mrs. A. B. Crump.

Miss Pettis Ladd and brother, L. L. Ladd, of Pampa were Sunday guests of the latter's sister-in-law and husband, Mr. and Mrs. A. B. Crump. Mr. Ladd owns and operates a job printery in Pampa.

Mr. and Mrs. Geo. B. Dunn, Mobeetie had for their Sunday dinner guests their son and daughter, Mr. and Mrs. John Dunn and sons, Hoyt and George B., and Mr. and Mrs. Ernest Lee of Wheeler.

Mr. and Mrs. Sam Morris and two children, Eugene and Colene, and a friend, Ann Kienker, of Amarillo came Saturday and spent the night with the ladies' parents, Mr. and Mrs. Lee McCasland, and son, Lindsay.

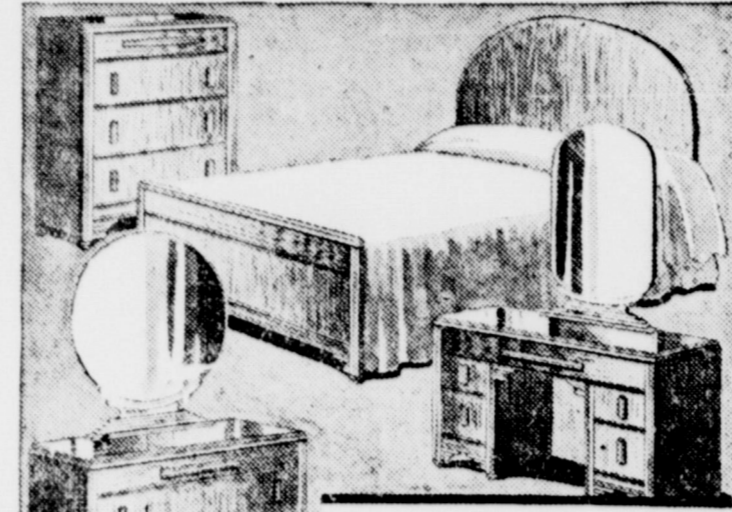

Mr. and Mrs. J. P. Newton of Altus, Okla., came Sunday to take home their daughter, Miss Lucille. She had spent the week with her aunt and husband, Dr. and Mrs. V. N. Hall, and her friends, Mr. and Mrs. Melvin Howe.

Miss Helen Green accompanied Ray Byars to Pampa Sunday where they spent the day with his parents, Mr. and Mrs. T. L. Byars, and family. Mr. Byars brought Miss Green home that evening and returned to Borger, where he is employed.

Mr. and Mrs. D. B. Lamb and their son and wife, Mr. and Mrs. Claude Lamb, of Shamrock were in Wheeler Monday on business and spent the day with Mrs. Claude Lamb's parents, Mr. and Mrs. W. M. Sanders, in the Pleasant Hill community.

Choice Furniture for Every Room

New Shipment Just Received

Arrival, during the past few days, of several hundred dollars worth of brand new furniture, consisting of items for every room in the home, crowds our display and storage space to the limit. But we have a number of representative pieces arranged for inspection. The new styles are SO attractive and are priced SO temptingly—and combine grace and beauty with genuine quality so effectively—that now it is possible to buy furniture RIGHT IN YOUR HOME TOWN without being one bit extravagant.

THE NEW BEDROOM SUITES

present a modern and graceful appearance, plus finest materials and best workmanship . . . an ensemble suitable for any home.

A LARGE SELECTION IS PRESENTED

Truly, this lot of furniture presents a large selection from which to choose . . . a range of styles and prices to suit everyone.

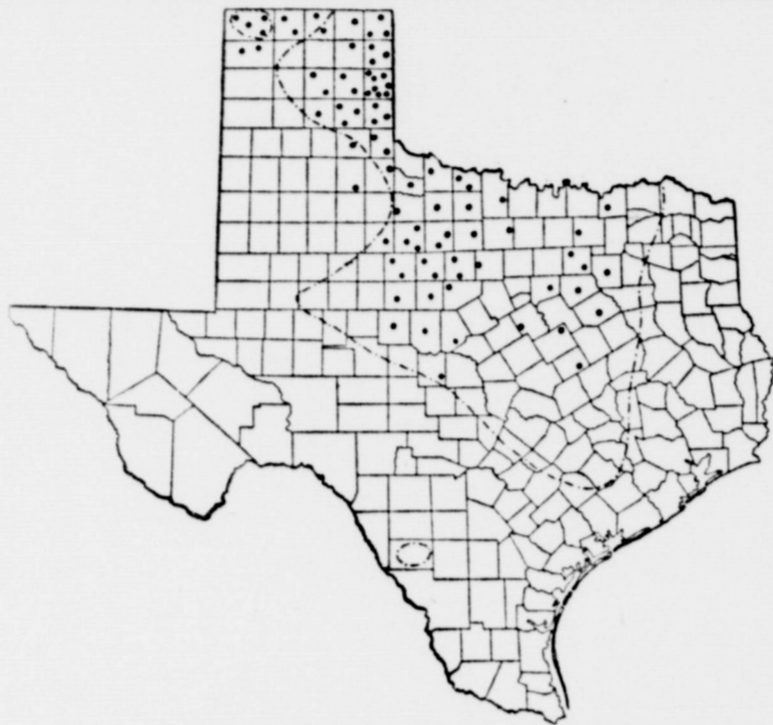

Floor Covering

New furniture deserves new floor coverings. We have them in Axminster Wool Rugs and the famous PABCO line of linoleum rugs—sturdy, attractive, lovely—yet low priced.

All kinds of heating equipment—gas, kerosene and coal stoves.

Mr. and Mrs. Floyd Pennington and son, W. E., and the former's father, W. E. Pennington, motored Sunday to Skellytown where they spent the day with Mr. and Mrs. T. L. Allison.

Mr. and Mrs. Lloyd Davidson and her mother, Mrs. J. E. Cox, had the following relatives for Sunday dinner: Mr. and Mrs. L. E. Clay and daughter, Frances, Shamrock; Mrs. Tom Bradstreet, Mrs. Pat Beene and daughter, Patricia Ann, and Claude Cox and children all of Pleasant Hill.

Mrs. Aaron Williams and daughters, Geraldine and Patsy, and the former's mother, Mrs. W. H. White, motored Saturday to Amarillo where they visited Mrs. White's daughter, Mrs. Glenn Lackey, who came home with them Sunday and remained until Wednesday when Mr. Lackey came by for her.

Movie Chatter
By a Rogue

Hopalong Cassidy
William Boyd, Old Hopalong Cassidy himself, comes to the Rogue Friday and Saturday, Oct. 15-16, in another Clarence E. Mulford story, "Rustler's Valley." And of course Windy and Lucky will be with him. If you have ever seen one of these Cassidy stories you will need no encouragement to come out and see Rustler's Valley. It is just what you are looking for in westerns. Also, Popeye and a Pictorial.

Broadway Melody of 1938
Last week end we told you Saratoga was a great picture. You took our word for it and we do not believe you were disappointed. So again we tell you that we have a great picture for Preview, Sunday and Monday. This time it is "Broadway Melody of 1938" with Robert Taylor and Eleanor Powell in the stellar roles, supported by a million dollar cast. To say this picture is big would be putting it mildly. In fact it is so big that the producers will not permit it to be shown for less than 10c and 35c admission, as was the case of Saratoga. And remember, this show is so new that it is at least a year ahead of anything on the screen. The date is Oct. 16-17-18, Preview-Sunday-Monday.

Bad Guy
Bruce Cabot and Virginia Grey, comparatively newcomers to the Rogue, will entertain you Wednesday and Thursday, Oct. 20-21, in a picture called "Bad Guy." This picture is a very recent release, having been completed Aug. 27, 1937. Now please do not question this columnist about this picture because you probably know more about it than I do.

It is too new for Little Willie. It may be good and it may be a complete flop. Use your own judgement, but take note of the fact that there will be another of those delightful two reel technicolor short subjects featuring Hollywood stars.

The Owl Says:

Dear Reader Uppers:

More letters are still pouring in. There seems to be many Mobeetie high school students who need the help of the wise ole bird. I'm trying to get around to everyone. I'm sorry because I can't answer Miss Cogdell's letter, but I have helped her with one problem and I can't spend too much time on one person.

I received a number of letters that I was unable to get to this time. They are as follows: Roy Lee, Vineta McCain, Charlene Bailey, Estelle Seitz, Willis Red, Mac Thomas, Iveta Patton, Gussie Hayes, Maxine Patterson and Mrs. Blankinship.

I regret that I can't get to these letters. The helper-outer, THE OLE BIRD.

Dear Owl:

I believe I have more trouble than anyone in high school, getting the girls to notice me. I have to spend most of my time reading because the girls won't pay any attention to me. I don't see why they shouldn't. I think I am quite attractive. Don't you? I spend a lot of time fixing my hair, yet no girl has ever told me my hair was pretty. What can I do to make the girls notice me?

Girl crazily yours, ISHMAEL SIMS.

Dear Ishy:

I suggest that you quit running after the girls so much. I think you would look better if your hair were parted in the middle. And say, why don't you start fixing a curl on your forehead like Elbert Lee Seitz? You might also improve your looks by wearing some cowboy boots like Gribble Owens. I'll let you in on a secret of you won't tell anyone—most every young girl has a desire to be a cowboy's sweetheart. Haven't you noticed how Gribble has to keep on the run since he got his boots?

Yours with a yippee ki yi, THE OWL.

Dear Ole Fowl:

I think I have more work to do than anyone. I have penned turkeys so many times this summer that I expect to get up most any morning gobbling. What can I do to keep from having to help pen turkeys?

Gobblingly yours, WANDA SIMS.

Dear Miss Sims:

It would be handy if you could get sick just about time to pen turkeys—but, yet, if you were sick you probably would have to stay at home and go to bed early. And I know that wouldn't do. You might also do like Gussie Hayes. Pretend that you simply have to study one of your lessons. If your daddy tells you that you'll have plenty of time later, tell him you are taking general science and you have to watch the skies to see what time the first star comes out.

Scientifically yours, THE OWL.

Dear Wiser:

Please tell me a safe way of locking my big brother's car when Edd and I go to the show.

Safely yours, HOUSTON HOOKER.

Dear Hussey:

I suggest that you lock the doors on the inside then shut the doors. That will keep everyone out—even you can't get in. It will be just a little trouble to have to take the floor out of the car to unlock the doors every time you go anywhere—but of course you won't mind that.

Safety first pays, THE OWL.

MEMBERSHIP 100% IN STATE TEACHERS ASSN.

Hornets Win Victory Over Briscoe 53 to 6

The Hornets played a very good game of football Friday afternoon, October 8, on the home gridiron. Charles Mixon, captain, ran over most of the scores.

The Briscoe team had not been practicing long and therefore were not very experienced in the game. Coach Meek of the Hornets sat on the sideline with a happy expression and smiled once or twice during the game.

This game has given new spirit to the Hornets and they are going to do all in their power to win their next game by a wide margin.

TEACHERS GENERAL SURVEY OF CLASSES

Typing

Typing is still pecking along. They have taken several speed tests and are working up their daily exercises. Horace Gordon has scored the highest. His record on the six week's test was 25 and Chester Green's was 20.

Geometry

Geometry is slowly but surely progressing. The students are now learning what it is all about. They have been studying straight line figures and congruency of triangles.

Home Economics

Home ec I has been cooking cereals, beverages and dried fruit. I heard that a hard examination was in the deal. Home ec II has been studying meats and have prepared in class a roast, a steak, chili and beef stew. They have been studying fish and poultry.

General Math

General math students have been studying division and multiplication of decimals. From what I hear this is not entirely agreeable with everyone.

American History

The American history class has finished the Colonial period and for the next six weeks will be on the development of democracy from the Colonial period up to and including the New Deal.

Commercial Geography

Physical environment has been studied the past six weeks and will be continued into the first half of the next six weeks. The last half will be a study of agriculture and agricultural products.

WPA Work Done in Library

Mrs. Wilbur Beck, a former student of Mobeetie high school is working on a WPA project in the high school library.

She is to repair the books and complete the cataloguing. The Dewey Decimal system used but uncompleted is expected to be finished soon.

When Mrs. Beck was a student here she studied library science.

This service will not in any way interfere with the duties of the students who are working in the library. Their work will continue and credit will be given as previously planned.

SOCIAL CALENDAR

Surprise Birthday Party

Mrs. Pearl Ferguson entertained a group of young folks on Sunday, Oct. 3, at a surprise birthday dinner for her daughter, Delora.

Dinner was served to the following: Aileen Lancaster, Maxine Patterson, Dora Goodnight, Maurita Dunn, Va Rue Dyson, Ina Zell, Thressa Godwin, Helen Dyson, Alvin and Orvel Ferguson, Thomas Bond, Clayton Gober, Wilton Sims, Charles and Leonard Mixon, Charles Hix, Warren Thompson, Omer Harrel and Travis Patterson; the honoree and hostess.

The menu included chicken, gravy, potato salad, cole slaw, corn, English peas, pork and beans, mashed potatoes, tomatoes, lettuce, cranberry sauce, ice tea, peaches and cream and cake.

The intermediate B. Y. P. U. class was entertained with a social Thursday, Sept. 30, by their former president, Maxine Patterson. Delicious refreshments consisting of hot chocolate and cookies were served.

A large number of friends were entertained in the A. B. Lancaster home Thursday night, Oct. 7, with a birthday party for Eileen and Aileen. Refreshments of punch and cake were served.

In order to keep the party a surprise for Aileen, Dora Goodnight and Delora Ferguson persuaded her to leave town with them after school to return only in time for the party.

Thressa Godwin a Dinner Hostess

Thressa Godwin entertained a group of friends in her home Sunday with a dinner. Those present were: Maurita Dunn, Helen, Eunice and Va Rue Dyson, Ina Zell, Aileen Lancaster, Delora Ferguson, Maxine Patterson, Dora Goodnight, Mildred Eubanks, Leonard and Charles Mixon, Travis Patterson, Wilton Sims, Warren Thompson, Charles Hix and the hostess.

The dinner menu consisted of roast with gravy, baked potatoes, English peas, baked chicken, dressing, jello salad, lettuce, tomatoes, bread, butter and pumpkin pie with whipped cream.

The afternoon was spent kodaking and riding around.

HISTORY STUDENTS PLAN TO STUDY CURRENT HISTORY

The American history students are planning to study current history as well as ancient. Mr. Meek has ordered two current event magazines, "Young American" and "Every Week." They will be used for oral reports, current events and at informal periods.

Annual Hallowe'en Carnival Date Set

Plans Under Way for Mobeetie
High School Frolic on
Saturday, Oct. 30

Plans for the annual Hallowe'en carnival frolic, featured by Mobeetie high school, are under way. At a faculty meeting on Monday afternoon of this week the date of this event was set for Saturday, Oct. 30.

Entertainment in wide variety will be furnished the public at the carnival.

One new feature for this year will be the dinners, served by the home economics department. In past years only sandwiches and drinks were offered. The department will be open as early as 6 o'clock to accommodate those who would like to eat at the school cafeteria.

Arrangements have not been completed, but a carnival that will afford a good time for the public and be a financial success for the school is the object sought by both the student body and faculty.

Outlook Ex-Columnist Weds in Washington

J. B. Carmichael Marries Yokima
Girl Some Time During
Past September

J. B. Carmichael, former member of the Outlook staff and graduate of Mobeetie high school, was married some time during the month of September, according to information received by the Outlook.

J. B. graduated with the class of '36. He, with A. B. Crump, wrote the "Aber and Jaber" column of the Outlook that year.

Since graduation, J. B. has been employed in Yokima, Wash., and it was to a girl of that city that he was married.

Mobeetie

In the broad Panhandle of Texas,
Where the pure blue veils the sky,
Stands a town of pioneer history
As a mark of days gone by.

Here is home, for those who love it
Here alone is nature's zest,
And she willingly, lovingly, and
mildly.

Invites all mankind as her guest.

Here the great god Pan rules the
woodland;
Here adventure fills the air;
And the songbirds form an orchestra
In the trees that nestle there.

Here's the west in all its glory,
Here's the west of days of yore;
This all mankind shall remember
'Til Mobeetie is no more.

—Glyn Bostick.

Former Student Visits

Mildred Eubanks of Seymour visited friends, teachers and former schoolmates in Mobeetie this week end. Mildred has done all her school work in the Mobeetie schools until this year. She is classified as a junior in Seymour high school.

Superintendent

M. D. BLANKINSHIP

M. D. Blankinship is serving his third term as superintendent of Mobeetie schools. He came to Mobeetie from Conlen in Dallam county, where he had been teaching eight years.

Blankinship is a graduate of W. T. S. C. and has done work in both N. T. S. T. C. and the University of Texas. He is also a graduate member of Loyd Green Allen chapter of the Alpha Chi honor society.

Blankinship is highly in favor of the present educational requirements for teachers and administrators and feels that there is a brighter outlook for his profession now than at any time in its history.

MCLEAN TIGERS DEFEAT THE MOBEETIE HORNETS

The Hornets were defeated Friday night, Oct. 1, with a 39-6 score. Most of the gains made by the Hornets were on completed passes. Charles Mixon, captain, received a pass over the goal line to make the score. Edd Johnson, fullback, tossed a neat little pass to Mixon for the score.

The Hornets seemed to be outweighed around 20 or 30 pounds. Nevertheless, they kept up their fighting spirit and fought faithfully throughout the game.

Look at the Birdie

Comb your hair boys and girls! Powder your noses, girls! A little rouge will help your looks, Tyson! Look your best everyone was the command given by Supt. Blankinship to the students waiting to have their photo snapped in the home ec room Friday morning.

The men making the pictures were representatives from the De Lux Photo Service of Oklahoma City. The pictures will be finished and mailed back to the office for sale at six for 25 cents. The school is allowed to keep 15 per cent of the money received.

Mr. and Mrs. M. D. Blankinship attended a meeting held at the Shamrock high school Tuesday night for the purpose of organizing an extension class.

H. S. Principal

JOHN PLASTER

John Plaster, high school principal, came to Mobeetie from Alanreed, where he was in the high school for four years and served as principal for three years.

Plaster is a graduate of W. T. S. C. and is doing his master's degree work there on administration education. He is a mathematics major and has had 36 semester hours in that field.

Plaster is not in favor of all the high school curriculum requirements. He thinks there is a rapid improvement, though, and believes the day is near when boys and girls will be given more subjects than are practical. He favors a trend toward the vocational rather than classical requirements of the curriculum for rural community students.

DICTIONARIES DISTRIBUTED IN VARIOUS CLASS ROOMS

Twenty-five new dictionaries have been placed in the different class rooms. Nine were placed in the study hall, six in the English room, three in the history room, two in the science room, two in the home economics room and one in the mathematics room. They were distributed in the different rooms to give the students a chance to use them during class periods as well as study periods.

However, when the dictionaries were brought in the history room, Mr. Meek thought that it was being insinuated that he needed to increase his vocabulary.

Ex's of W. T. S. C. to Organize

A meeting of the ex-members of W. T. S. C. was held Oct. 7 at Wheeler.

There is to be a banquet on the 16th of this month at which time a permanent organization will be formed. All ex-members are invited, whether they are teaching or not.

J. L. Gilmore and Supt. B. T. Rucker were instrumental in calling the meeting held on Oct. 7.

Principals and Superintendents
Association Dines and Talks
Last Thursday Night

The first banquet of the Wheeler County Principals and Superintendents association was held in Jaco's Cook Shack, Wheeler, on Thursday night of last week. Twenty-three were present.

C. C. Merritt, pastor of the Church of Christ at Wheeler, was the principal speaker. Main topic discussed was shortage of transportation funds for the year.

Several new-comers to Wheeler county were introduced.

The organization has set its meeting date for the second Thursday night in each month.

Concert Here Friday at Grade Auditorium

Junior Stamps Quartet Presents
Variety Program—Brought
Here Unexpectedly

The Junior Stamps quartet gave a concert Friday night, Oct. 1, in the grade school auditorium.

The quartet consists of five brothers from Shawnee, Okla. The youngest being 11 years old and who sang alto and bass. Their manager, being the oldest of the brothers, was George Shelton who sang bass most of the time. Harvey, 16, played the accordion and piano and sang soprano. John sang tenor and Charley sang alto; Glen also sang alto and bass.

The concert consisted of sacred songs, novelty offerings and popular numbers.

The program was brought to Mobeetie by accident when the Rhythm Ramblers got in touch with them at a singing convention.

4-H Club Girls Meet

A 4-H club meeting was called by the president, Dora Goodnight, Wednesday, Oct. 6, in the Spanish room.

The girls talked over plans for their annual party to be given Monday night, Oct. 11. They decided to invite their mothers, the faculty and the 4-H boys. They also decided on their refreshments and games for the evening.

OUTLOOK BECOMES MEMBER OF TWO ORGANIZATIONS

The Outlook is now a member of the Texas High School Press association. Any school in Texas that puts out a regular school paper, staffed by students, is entitled to membership. The benefits of the organization are numerous.

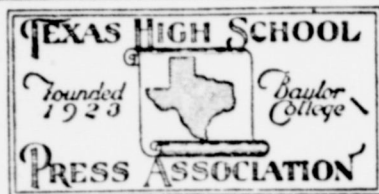

The Outlook also has become a charter member of the "West Texas Association of and for West Texas Student Newspapers and their sponsors."

WHAT HO! YOUR LEISURE HOURS

Have you ever stopped to think how the students of Mobeetie high school could spend their leisure time? The day of study does not extend from dawn to dark, and there are few students that do not have leisure hours.

How do we entertain ourselves? Have we no source of entertainment? Yes, every one can find a source of entertainment. If you are one of those people who find magic in a thought added to a drop of ink, you would probably enjoy writing stories or poems. Maybe you would enjoy reading a good story book or making a scrapbook. Some students spend their leisure hours playing ball and these hours are well spent.

Let's spend our leisure hours doing something that helps us—for those who do, life is always full.

HOW ARE YOUR MANNERS

One of the essential things in life is good manners. You will not only need to have good manners now and during the rest of your school life, but for the rest of your life.

When you are at school and in class rooms do you chew gum, snap your fingers, and, talk without permission? If you do you are showing that you lack manners. Things that concern other people should concern you.

As you go through life you will see that a careless, rude, and ill-tempered person is not appreciated by the public as a whole. He is considered as a "public enemy" because he is always finding faults with others when he himself is very imperfect. There isn't anyone who likes such an ill-mannered person and always tries to avoid him if possible.

So when you start to do something you are in doubt about think of those who do not use good manners, then if you think it is all right, go ahead!

Improvements Being Made

Mr. McCain, the janitor, has been very busy the last few days varnishing the study hall tables and the cabinets in different rooms. The tables look very much better and are easier to keep clean. The cabinets, also, have put on a new appearance since they were varnished.

Mrs. Kyle Guthrie and son Derrel spent the first part of last week with her parents, Mr. and Mrs. J. Y. Wright of Mobeetie.

Grade School News

GRADE SCHOOL EQUIPMENT REFINISHED AND ENLARGED

The grade school is very proud of its new blackboards. All of the boards have been refinished since school started.

The desks of the first and second grade rooms have been revarnished. Also the first grade room has been equipped with a dozen small chairs. We wish to take this opportunity to thank Mr. Blankinship and the school board for making it possible for the grade school to be supplied with these things.

The children of the second grade are very happy over their desks being revarnished and their blackboards being refinished.

New curtains are also being made by one of the mothers, Mrs. Duncan. The past six weeks has been spent studying about a farm unit. This unit included the study of farm animals, pets, the things grown on a farm and also a study of the home.

The children are enjoying making Hallowe'en decorations for the room.

The first grade is very proud of its room since the blackboards have been refinished, the desks re-varnished, some new pictures added and also new curtains which were made by one of the patrons, Mrs. Garland Key.

The things they are most proud of are the new chairs, received this week. When story time or reading time comes they are always ready so they can sit in one of the new chairs.

Percentage of attendance for each grade last month:

- First—93 per cent.
- Second—94 per cent.
- Third—97.3 per cent.
- Fourth—91 per cent.
- Fifth—93 per cent.
- Sixth—94 per cent.

Many of the pupils have been absent the past two weeks for cotton picking.

The fourth grade has been interested in nature study. Among the things observed and brought to school were a bat and cocoons.

Pupils in the fifth grade have been showing excellent talent in art projects, one of the most interesting, being the construction of puppets.

Assembly Held Friday

Last Friday the students gathered in the study hall for an assembly period. Pep songs were sung by the group and some very interesting talks were given.

Va Rue Dyson gave the first talk, which was on citizenship, followed by Mr. Plaster, the principal. His talk treated of leisure time turned into a worthy cause. He began with students having leisure time in the study hall and how to make good use of it. He gave many good points to consider on using leisure time and things to do during one's leisure. The period was concluded with a few more songs.

M. D. Blankinship, the superintendent, saved his talk for another assembly when he could use more time.

HERE AND THERE COLUMN TO APPEAR IN WHEELER TIMES

The "Here And There" column will appear each week in the Wheeler Times. This column, which has been appearing in the Mobeetie Outlook, will still be sponsored by the Outlook staff.

Auld Lang Syne

Lester Reynolds is an ex-student of Mobeetie high school. He graduated from here in 1933, and is now working at the Farmers Equity in this city. He married the former Lotty Seitz.

Pauline Ribble, who is now Mrs. Walter Kerr, was a student at Mobeetie. She still lives in this community.

Bob Sims is a student who graduated in 1933. He has been suffering with a broken arm since June 24. His arm was broken in a flywheel while pumping at an oil well near Lefors. He is now recuperating at the home of his father, W. I. Sims.

Effie Roberts was a Mobeetie student. She married Fate Seitz and now lives in Mountain View community. She entered school at Mobeetie from Mountain View district.

Beulah and Eunice Robinson entered school at Mobeetie from McLean. They are both married now. Beulah was married to George Knerium and Eunice to Roy Howard.

Monroe Seitz is one of the earlier students of Mobeetie. He married Jane Collins and they live in the Laketon community. Seitz is a wheat farmer and cattle raiser. He drove the school bus from Union to Mobeetie in 1934.

Oma Seitz also went to school in Mobeetie. She is working in a telephone office at Beaver, Okla.

The Music Went 'Round and 'Round

Some people come to school for the benefit they get from it, some come for fun. Some learn a number of things that sound good in theory but they never know whether or not they are good in practice. Not so, however, with two Mobeetie seventh grade boys.

These boys, Bob and Chester Blackwood are taking music. One day in class someone brought out the point that music is practical; so practical that it is used in large dairies and 10 per cent more milk is produced. "This is due to the soothing effect on the cows," said the reporter.

Now Bob and Chester live on a farm and do the milking, and it just happened that they were having a lot of trouble with one cow. They decided to try what they had learned. "What is the use of learning things if you don't use them?" decided the practical minded boys.

The next day the mother was away from home, so the victrola was taken to the dairy barn and the music started. All went well and the hoped for effect was being produced.

Of course victrolas will run down and records must be changed.

"Now Chester you hold her and I will wind the machine," said Bob.

The boys were excited and eager, but the cow was well behaved and contented. Chester was having no trouble holding the cow, but Bob was working diligently winding the machine.

All at once a terrible noise was heard. A noise that only a victrola whose spring has broken can make.

Chester didn't have any trouble holding the cow then, either, for she was gone before he or Bob knew what had happened.

The boys have come to this conclusion: Dairies that use music for financial reasons had better check the springs of their machines occasionally.

NOTES FROM THE NOTE WRITERS

I read the paper from "kiver to kiver." It was very interesting to me. Most of this year's seniors were my freshmen.

Mrs. Henson was home ec and art teacher here for two years. She went from here to Texico, N. Mex., where she is still employed as art teacher.

I am very proud of my high school background, for I realize that by having learned some of the things that I did in high school, I have a distinct advantage over some of my fellow students that I have met here.

WHEN'S YOUR BIRTHDAY

Those born in September have as their sun sign virgo, the sixth of the zodiac. The ones who are born under this sign are quick-witted and gay; affectionate and a most charming companion. The virgo born have a fault of being over critical and very sudden tempered. After reading this I bet you can pick out the ones in high school whose birthdays fall in September. I believe I could have, but in order to be certain I looked through the principal's records.

I found the following students birthdays are in the month: Dora Goodnight, Maurita Dunn, Fern Smith, Vineta McCain, Olivia Benson, George Gordon and Glyn Lane. I was also informed that the home ec teacher, Miss Cogdell, had a birthday in September.

In the 1937 forecast for the virgo born the following statements were given: A new world opens for you—a new world in self knowledge and in approach to other people, life problems and life itself.

Since I am not an astrologer I can not predict which of these will pertain to each individual, but I can imagine many interesting and amusing things.

I can see Dora working for three more years on geometry before being awarded her diploma. Then I hope to see her married and in a home of her own. I can imagine how fast the "unlucky guy" will step when he sees that she is losing the remainder of her temper.

I believe Maurita will accomplish her goal by capturing the football captain. It is plain that she is not very clear-headed or she would be more particular about the company she keeps.

Feature Fern Smith in Hollywood getting ready to star in the next "Red Heads on Parade." Look! What is that following along beside her? Oh, don't get alarmed it is only a little Canadian boy that she took along for a bodyguard.

I hope to see Olivia Benson and George Gordon finishing high school and making definite plans for the future. Whether they plan to combine their plans or not I do not know. Imagine Glyn Lane making a fine looking preacher.

Then last, but not least, I'll turn my attention to Miss Cogdell. She has become a home demonstration agent. I am suggesting this field of work because it will give her an excuse for remaining an "old maid."

Home Ec. II Girls Cooking

The home ec. II girls planned dinner menus for the first two weeks. They also spent some time studying foodstuffs and calories. The girls have met three laboratory classes. They prepared and cooked tomato soup, cream potato soup and Swiss steak. When sampling their cooking, several of the girls stated they hoped they would be served bread at the next place.

The girls ordered enough green checked gingham and white rick-rack to make their aprons and headbands. They cut their aprons in class last week by a fitted waist pattern. Each girl is to make her own apron and head band outside of class.

home of his brother, I. T. Goodnight, Sunday.

Mrs. G. W. Orr, who has been staying with her daughter Mrs. I. T. Goodnight, jr., who lives at Pampa, returned to Mobeetie last Friday.

DO YOU KNOW—

That Panhandle high school has been put on the Mobeetie Outlook exchange list?

That the first six weeks of the school term is over?

That Briscoe boys can play football even if they have had very little practice?

That we are really having some fall weather?

That Grebble, Wilbur and Ishmael make mighty good referees?

That the art students are doing some fine work?

That Mr. McCain is taking mighty good care of the grass?

That Berneice Dunlap came in with a mighty black eye as a present from Pauline Shelton, a seventh grader, in a basketball game Thursday?

SENIOR SCANDALS

We are wondering if we will have to stop the music class from playing patriotic songs, or will we have to dismiss Lois Farmer from class. She is rather patriotic; she always stands.

We are undecided just when Venita attended the faculty meeting she was speaking about.

Not that Elbert Blackwood thinks he is important but he first thought he would keep his youth. He put on his student card that his birthday was on the 31st of September.

Monday morning in English IV class Eunice was trying to decide whether or not she was drunk on Sunday night. She saw the northern lights.

Saying of the seniors:

Warren—"Oh yeah I betcha."

Margie—"How do I know?"

F. P.—"Hit don't make no difference."

Ina—"What do you think this is? Anyhow?"

Charles—"Shoot — I—reckon—yes."

Helen—"I believe you've got something there."

Tyson—"Now back in Arkansas."

Eunice—"I'm telling you truly."

Alma—"Land no."

Dora—"Good gosh."

THE FISH POND

The freshman English class is improving quite a bit in English. They are also making most of the oral reports to avoid so much work in the latter part of the year.

Clara Corcoran is back in school this week. She has been absent for over a week with a broken arm. It was necessary to use a brace on her arm and that made it impossible for her to come to school. Now, with her arm in a sling, she seems to be getting along fine.

Well, as usual, some of the fish went under this six weeks. We do not know yet just how many. Let's hope not many.

Home Ec Girls Salesmen

The home economics girls are selling subscriptions for the Curtis Publishing company. This is not a long, drawn-out affair as it only lasts six days. The home economics department is to keep half the money the girls collect.

The girls are trying to make this a very interesting project. Maurita Dunn has been selected manager. The girls have been divided into two groups and have colors representing each group. Delora Ferguson is captain of one group and Aileen Lancaster is the other captain. The group that sells the largest number of subscriptions is to be entertained by the other group.

Each girl who tries this project is helping the home economics department and also getting experience in salesmanship. Magazine renewals count also. The girls would appreciate any renewals or subscriptions turned to them.

G. M. Dial manager of the Farmers Union Co-operative Gin at Eli, stated recently that it was well worth the farmer's time to catch his cotton hulls after the cotton had been ginned, and take them home to be used for fertilizer. Not many farmers take the time and trouble. However, he said, it is easy on the ginner for the farmers to neglect their hulls, as the hulls are burned to heat the boiler.—Memphis Democrat.

Lick Lakeview—Mustangs!

Eagles to Swoop Down on Mustangs' Corral Friday

Lakeview Boys Out to Avenge Defeat Received Last Year

Game to Be Here Because Visitors Have No Lighted Gridiron

Due to the fact that the Lakeview Eagles has no lighted football field they will meet the Wheeler Mustangs on the local gridiron Friday night. The game was to be at Lakeview but for this reason it will be played here. Game time is 8 o'clock. Regular admission prices will be charged.

Eagles Have Strong Club

The Eagles are playing in the conference for the second time this year and are reputed to have as good a ball club this season as they had last year. Last year they were the only team in the conference to score on every ball club in the district and still finish below second place.

The score last season indicated the Eagles played the Mustangs a harder battle than any other team in the district. The game ended in a 7-6 victory for the Mustangs. With six or seven regulars on the team, they will be fighting hard against the Mustangs for revenge. The Eagles boast a much larger and more experienced squad.

Coaches Stina Cain and W. J. Murdaugh have been busy the past week ironing out flaws that appeared during the Memphis game.

The starting line-ups follow:

Wheeler	Position	Lakeview
Puckett	L.E.	Bradley
Page	L.T.	Walls
Noah	L.G.	Williams
Stephens	C.	Whitefield
Passons	R.G.	Moreland
Compton	R.T.	Glass
Pitcock	R.E.	Martin
Green	Q.B.	Brewster
Shipman	H.B.	Watson
Ermler	H.B.	Merrel
Weeks	F.B.	Painter

New Suits Worn by Cowgirls Last Week

Wheeler's Cowgirls were decked out in their nifty new uniforms last Friday night.

The suits are black flannel skirts with a gold stripe down the side, gold satin blouses and black sleeveless sweaters decorated with orange and white mustangs.

This uniform will be finished with a black tam on which will be worn a wooden WHS, but these have not arrived yet.

There were 54 yards of gold satin bought that cost \$48.70; 20 yards of black flannel amounted to \$25; and 25 sleeveless sweaters totaled \$21.20. Cost of material amounted to \$94.90, all of which the girls had to pay.

Cyclone Wins Game 8 to 0 as Rain Falls

Hall Leads Attack for Memphis—Mustangs Offense is Stopped by Big Charging Line

With the wind making playful changes and the rain peppering down, Wheeler Mustangs met their second defeat of the season at the hands of the Memphis Cyclone last Friday night on the local gridiron, 8-0.

The Cyclone opened their play in the first quarter when they received the opening kickoff. They started on a touchdown drive that could not be repulsed.

Cyclone Score 8 Points

After marching down the field for a first down, they were held and forced to kick the ball. Hall, Memphis full back, punted the ball to the Mustang one-foot line, where it was killed by a Cyclone player. Week's punt was blocked when he attempted to kick out of the danger zone. The ball bounced back against the fence where Page, Mustang tackle, fell on it for a safety.

The other counter came late in the fourth period when the Cyclone charged down the field toward the goal on a touchdown drive that could not be stopped. Resorting mainly to power plays through the center of the line, they were able to push over a counter after being held for two successive attempts.

Mustangs Stop Offense

In the middle of the third quarter the Cyclone had the ball and advanced to Wheeler's one-yard line. There the Mustangs put up a defense that could not be penetrated. Although the Memphis squad was larger than the Mustangs they were unable to push through the center of the line for a counter after making two plunges.

In spite of the fact that the Mustang line was outweighed by several pounds they were a charging lot and succeeded in setting the Cyclone offense back on several of their spinner plays.

The whole team played fine football but Compton and Page showed up most brilliantly in the line. Stephens, center, who is backing up the line, was in nearly every play while on the defense.

Green and Shipman, Wheeler backs, starred in the backfield. Shipman, who is blocking back, did some excellent blocking and tackling.

The starting line-ups follow.

Wheeler	Position	Memphis
Puckett	L.E.	Evans
Page	L.T.	Sanders
Barnes	L.G.	Dodson
Stephens	C.	Robertson
Passons	R.G.	Clark
Compton	R.T.	Harris
Pitcock	R.E.	Montgomery
Green	Q.B.	Pounds
Groves	H.B.	Lindsey
Shipman	H.B.	Sanders, J. R.
Weeks	F.B.	Hall

MURDAUGH DISCLOSES WHY HE CAME TO WHEELER SCHOOLS

When asked why he happened to apply for a job in the Wheeler schools, W. J. Murdaugh, assistant coach replied, "I had a friend in college whose home is in Wellington and he told me about this school."

Murdaugh comes to Wheeler from Greenville, Texas.

He says that he likes teaching in the Wheeler schools very much.

COLTS

Members of the third grade English class have been learning the six main points of story telling and illustrating them by telling stories in class. They have also been making a special study of the interior of Indian homes in their reading class.

Thomas Downs has been absent from the fourth grade class for two weeks.

The Citizenship club of the fourth grade presented Friday afternoon programs on Safety, Character Study, Thrift, and Health. The best citizens for the last week were Eddie B. Witt, Ruthie Mae Mize, W. J. Patterson and Ruth Taylor.

James McPherson entered the fourth grade class last Friday.

Eugene Cooper of Borger and Billie Jean Anglin of Miami visited grade school Monday.

Lois Anglin has entered the fifth grade class.

Business Men Speak at Assembly Friday

At the assembly period Friday, Supt. J. L. Gilmore acted as chairman of the pep rally.

The Pep Squad cheered the Mustangs by singing with the band and giving a yell.

Many of the business men of Wheeler showed their appreciation by their presence. Homer Pitcock, Raymond Holt, Editor C. G. Miller, Roy Puckett and Nelson Porter made brief pep speeches.

Three teachers, Principal C. B. Witt, Coach Stina Cain, and Assistant Coach Murdaugh, also gave short talks.

Coach Stina Cain gave the average weight for the Mustangs and Cyclone line-up.

W. J. Murdaugh gave a report on the Memphis football club.

As the students left the auditorium, the band played a march.

SPORT SLANTS

By a Mustang

McLean Tigers proceeded to trim the Lakeview Eagles last Friday night in McLean 27-0. The Eagles are the next foes of the Mustangs.

Memphis Cyclone succeeded in swamping the Mustangs last Friday night. The main cause of the defeat was the superior weight that the Cyclone boasted.

Wellington Skyrockets continued their march toward the conference championship last Friday night when they defeated the Lefors Pirates 44-0. Carruth, Pirate fullback, was out of the game with a broken collarbone received during his encounter with a certain Cyclone from Memphis.

Alton Weeks, Mustang fullback, has been greatly handicapped by a boil on the back of his neck. He has not only one, but two, and Alton is often heard referring to them as the big one and the little one.

At the present no suitable name has been selected for the football field. It seems that some of you sport enthusiasts would step out and tack a name on the fence of the old stadium. Why not have a committee appointed that would select a name that could be voted on by somebody. We've got to christen this three-year-old field.

So far this season the Mustangs have been the only team in the conference to score on the powerful Skyrocket aggregation from Wellington.

Under the able coaching hand of Stina Cain, the girls basketball sextette is being whipped into shape for the coming season. The girls are working out every afternoon at the last period so as to be ready for their first unknown foe. The Cowgirls have high hopes of winning the conference this year.

Kelton Lions, which is a class C club, succeeded in handing the Pampa Gorillas a 7-0 defeat last Friday afternoon.

WHEELER MUNICIPAL BAND ENTERTAINS AT KELTON FAIR

Friday afternoon at 1 o'clock, J. W. Lummus, band director, and the Wheeler Municipal band left for Kelton to play for the fair.

The band played several numbers after Judge W. O. Puett and the president of the Shamrock school board, J. B. Clark, made talks.

Ice cream and cold drinks were served to the members of the band by the Kelton high school.

Two Lower Classes Select Officers and Sponsors for Year

Jolly Is Selected President of Freshmen; Ayres to Lead Sophomores

Sophomores organized classes last Thursday and the freshmen met Monday to choose officers. This completes the school organizations.

Clyde Ayres was elected president of the sophomores. He belongs to the F. F. A. Clyde plans to try out for the Colts and declamation for county meet. This is the only office he has ever held while in high school.

Maryian Hestilow is vice president of the class. She is a member of the Glee club and is treasurer of the Public Speaking club. Maryian plans to try out for junior basketball, she is pitcher on the softball team.

Virginia Burgess was chosen as the class secretary. She plays a clarinet in the band and is a member of the Glee club. Virginia was the football queen of '37. In junior basketball last year her position was forward. She plans to go out for senior basketball and tennis. Virginia was pitcher of the softball team last year.

Hansel Parker was elected treasurer of the class. He is a member of the F. F. A. and intends to try out for the F. F. A. basketball club.

Miss Winona Adams was chosen for sophomore sponsor. She was sponsor of the juniors last year and was also coach of the winning volleyball team of '37. Miss Adams plays a clarinet in the band.

She belongs to the Delta Kappa Gamma and Kappa Beta and is chairman of the finance committee of the P. T. A. Miss Adams graduated from Wheeler high school and was valedictorian of the senior class. She secured her B. A. degree from Texas university at Austin.

The freshman president is W. L. Jolly. He attended grade school at Twitty. There he entered in track two years and basketball two years. He belongs to the 4-H club and the F. F. A. Jolly is one of the pep squad leaders and he plans to go out for senior basketball and track events.

Dorothy Gene Dixon is vice president of the freshmen. She attended grade school at Shamrock. Dorothy belongs to the Girl Scouts, Home Economics club and the Glee club.

Clint Westmoreland was chosen secretary of the class. He is reporter of the F. F. A. Clint attended grade school here.

Willie Dee Lawrence is treasurer. She plays a clarinet in the band; she also attended grade school here.

Miss Bernie Addison was chosen

Staff to Present Fall Fashion Revue

Program to Include Style Show, Orchestra, Contest on Current Events

A Fall Fashion Revue will be presented in the auditorium-gymnasium on the night of Oct. 26. The purpose of this entertainment is to raise funds for the Corral staff to pay dues to four press associations and to attend journalism conventions.

The program will include a display of fall styles from merchants of the town, a current events contest, and musical numbers.

General admission will be 15c. Refreshments will be obtainable at bridge tables in the center of the gymnasium. Journalism students will serve.

Organizations of the town and four school classes will be asked to enter a team to compete in the current events contest. The winning team will receive a prize.

Music will be furnished by an orchestra directed by J. W. Lummus. Entertainment will include musical solos and readings by entertainers of the town and school.

Further details of the program will be announced in next week's Corral.

Remember the date, Tuesday night, Oct. 26.

"Big Ford" Gets New Nickname

Did you know that "Big Ford" (W. J. Ford) has a new nickname?

He was called "Bill" in the 1937 Fish Pond Grid roster of the Brand, school paper of Hardin-Simmons university.

Only five of the 34 boys listed on the freshmen team weigh more than W. J. He plays back. His weight was given as 192 pounds.

Besides Ford from Wheeler, other towns in this part of the country represented on the Hardin-Simmons freshmen string are Amarillo, three; Lubbock, one, and Plainview, one.

PANTHER SCREAM REQUESTS CORRAL TO EXCHANGE PAPERS

Mrs. Gary Sims, sponsor of the Panther Scream, school newspaper of the Panhandle high school, writes that she will be glad to put the Corral on their mailing list.

She states that they will begin exchange service within the next week.

The letter was in answer to Miss Bernie Addison's request that the two high schools exchange school newspapers each week.

Daily Misquotes Corral Editorial on Making Errors

We've done it again! Yes, sir, The Corral broke right into print on the Amarillo Daily News' editorial page, Monday's issue. Not only that but they printed the whole editorial on the staff's making a mistake in a previous edition.

In Tri-State Press appeared the statement: "This column rarely ever carries a full editorial but The Corral in The Wheeler Times breaks precedent with the following quoted in full."

Then came the editorial written last week by the combined efforts of Bartow Riley and Vergie Ashley, journalism students. This is the second time since school started that a Corral editorial has been mentioned in Tri-State Press.

P. S.—Page Editor John McCarty! Somebody made a mistake. They said we had "cabelleros" for gentlemen but our editorial read "caballeros."

Gilmore to Be Chief Speaker at Barbecue

Superintendent to Discuss Two Ex-Students' Associations Which He Heads

As president of the Federated Ex-Students association of the Teachers Colleges of Texas and of the Ex-Student association of the West Texas State college, Supt. J. L. Gilmore will speak to the ex-students and exes of the Potter county schools Sunday. His subject will be on these two ex-student organizations.

This meeting will include a barbecue on Jack Hall's ranch near Amarillo. Everyone who wishes to attend may, and all W. T. ex-students from other counties are urged by Carl G. Clift, chairman of program committee, to attend.

Hon. R. A. Stuart, president of the board of regents, will give the principal address. John McCarty, editor of the Amarillo News-Globe, will be master of ceremonies. A five-minute speech will be given by several other people. The Buffalo band will provide music for the occasion.

Dr. J. A. Hill, president of W. T. S. C., says that the faculty will be present in full force. They are expecting 1,000 exes and friends from Amarillo.

Boy Scouts Meet with New Leader

A Boy Scout meeting was held last Monday night in the basement of the Baptist church with the new scoutmaster, Taft Holloway, in charge. Meetings will be held every Monday night. Those interested in Scouting are urged to attend.

Pep Squad Members to Sponsor Contest for Football Queen

Winning Beauty to Be Crowned in Auditorium with Losers Duchesses

Better start saving your pennies. You'll need them to vote for a football queen, who will be elected soon by popular vote. Members of the Pep Sq are sponsoring a beauty contest to secure money for giving the Mustangs a banquet.

Classes to Choose Candidates Each class will select a candidate, the names to appear in next week's paper. Votes for these girls will be one cent, with announcement to be made later as to the value of each vote.

Two girls will be eliminated after a limited period of voting. The final winner will be crowned queen at a public ceremony.

Run-off Last of October

Although plans have not been completed, Miss Lois Kirby, sponsor, announces that the final run-off probably will be toward the last of October. The coronation will be in the auditorium-gymnasium, with the three runners-up as duchesses.

Keen rivalry is evidenced every fall in the race for football queen. Last year Virginia Burgess, freshman, was crowned on the football field. Approximately \$32 was raised by the contest.

Gilmore Gets Name in Fort Worth Paper

Supt. J. L. Gilmore "made" the Fort Worth Star-Telegram in the Sunday issue. It is very seldom that anyone in this part of the world does anything important enough to get in down-state papers.

The story was about presidents of the seven teachers colleges who will meet at Canyon Oct. 15 and 16 for a business session.

Last year the ex-student association of the teachers colleges were federated, with Supt. Gilmore as general president. Gilmore also heads the alumni of West Texas State Teachers college.

The federated ex-students, who are combining their efforts in behalf of higher education, will have their second annual session in Houston Nov. 27 during the annual meeting of the Texas State Teachers association.

New Home Economics Books Arrive

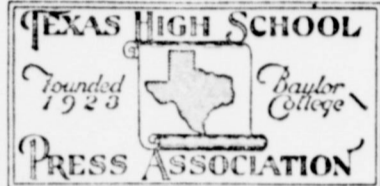

New home economics books, "Everyday Foods," by Harris and Lacey, have come. Mrs. Nina H. Young issued them this week. The price was \$1.35.

MOOCHERS PESTER EVERYONE BY BORROWING DAILY

"May I use your pencil?"

"Do you have some ink I could borrow?"

"I need a compass. Say, may I use that one a second?"

Every student in school is probably pestered by these same questions daily.

Of course the students borrow from the teachers, too, sometimes. Occasionally teachers do a little borrowing, themselves. It costs money to buy paper and pencils and other school supplies.

After all, most of the people who "mooch" so much have learned one particular thing pertaining to grammar. That is, they have learned to use "may" instead of "can" when asking permission. English majors respect pupils with such talent.

Teachers think it is absolute laziness for people to use others' equipment, and so do students. Yet they "mooch" something every day.

"Use your own." Ink is expensive and paper doesn't grow on bushes.

DON'T LET TEACHERS SCARE YOU ENOUGH TO BREAK GLASS

Crash! Now who broke that window?

Was that some more glass?

These are the questions that have been asked lately. Many small sections of the doors have been broken. The superintendent was seen picking up little hunks of glass last week that someone must have crammed his foot through.

It can not be helped if some small boy or girl gets nervous when he spies a teacher coming and backs into the glass door and smashes it out. The thing to do is to get acquainted with the teachers and find out that they won't bite. Very few around here are known to be that vicious.

Well, so much for that. But remember that jig-saw puzzles, not slivers of glass, are to be put together.

FROM OTHER BRANDING IRONS

"Yes autumn is here," says authorities in astronomy. By laws of nature and the solar system, the year's third season began at 5:13 o'clock, Sept. 23.

Observations offered on the autumnal equinox explained the reasons for the change from daylight saving to central standard time; from baseball to football; from white shoes to last year's old ones; and from eating ice cream to popping pop corn. Feel the breath of autumn.—The Brand.

"If horses could talk, what a howl they would make about some of the things referred to as horse sense."

A graduating class of 39 members marched across the stage of Glade-water high school in 1937 for commencement—the same group that marched for the same purpose four years ago. Very extraordinary!—The Bear Facts.

West Texas Buffaloes lost one of their gamest football players and a loyal captain this year. Si Marchbanks rendered incapable through injuries received in action, turned in his uniform.

He admits he had "rather play than eat" but in spite of his misfortune he still greets fate with his old familiar "lop-sided" grin.

Yes sir, Captain Si Marchbanks' regime in football is ended, but will never be forgotten.—The Prairie.

Students' Names Cause Questions

Does Juanita wear Voyles all the time?

Ethel Claire is going Raney or shine.

Faye is just like a spider; she clings to a Webb.

Is Claudia as soft as his name, Pillers?

John seems to be in a Wright good humor.

Did Joe Markham down in his date book?

Harrison pleases Hall this Barr to Ruth.

Does Betty Gene Coil before she strikes?

Maybe Amos would like his name on the front Page.

Why does Elva Bell like to Crouch instead of jump?

Ray wears Holly instead of Mistletoe.

Marie was Herd saying that Paul's little Ford would not run when it was needed.

Ruby Mae Roper a boy friend whenever she wishes.

They say that W. L. is a Jolly good fellow.

Does J. B. Crowder whole family in when he takes her out?

Why is it that Rosalie likes Bradstreet so well?

STUDY HALL GOSSIP

Huffman Walker studying his delicate features in a mirror.

Joe Markham and Thelma Milum talking in solemn tones.

Ruth Barr telling her sister, Lula, what to do.

Mr. Witt reiterating "Pass out, please."

Ruby Ayres and Maryian Hestilow giggling.

Mr. Gilmore separating girls and boys who are sitting together.

The Corral being shared so others can enjoy it, too.

Meet the Faculty

With a twinkle of blue eyes and the wrinkling of a small, turned-up nose, charming Mrs. G. O. McCrohan began, "Well, I've always wondered how it would feel to be interviewed like important famous people." She seemed anxious that care be taken in stating the above sentence that people might not get the idea that she feels important. (She doesn't). Mrs. McCrohan teaches history in the grades.

To begin at the beginning, Mrs. Mac began at Ample, Tex., May 14, 1910. She was born in the middle of a big thunderstorm and her life "has been stormy ever since" (she says). A teacher one time described her as impulsive. "The town of my birth," she says, "has completely disappeared."

Her years in grade school were spent at Bomarton, and she graduated from high school at Denton. Basketball, tennis and swimming composed her athletic activities. In 1930 she graduated from C. I. A., Denton, where she was a Spanish and English major. The same year she began teaching Spanish in Wheeler high school. This makes her sixth term, but she now teaches in grammar school.

As to her likes and dislikes, interior decorating is the hobby of Mrs. McCrohan. She draws house plans and, says she, "My ideal home is one in the country." Then immediately she added that she had lived on a ranch two years.

Large towns hold no charms for nature-loving Mrs. McCrohan. She likes to know and greet everyone she meets on the streets. Talking and observing people form a pleasant past-time for her. She likes pets, cats especially.

A pioneer spirit prompts her to spend her vacations in the West. Her "walkin' shoes" have led her through 32 states, to Yellowstone, Yosemite, Grand Canyon and Zion National parks. Mountains appeal to her.

Music, particularly that of a pipe organ, (she plays one) interests this teacher. At one time her ambitions were centered on music as a profession but, "Mac" (G. O. McCrohan) came along, and thus ended my musical career."

"I'm a seeker of facts," she answered to a question on reading. Newspapers satisfy the greater part of her literary craving. She seldom reads stories. She understands the Japanese side of the undeclared war, in their quest for territory and resources, but she thinks they have gone too far in killing non-participants and she favors Roosevelt's foreign policy.

She enjoys movies and likes character actors, Claudette Colbert and Fred Astaire being her favorites.

Airplanes frighten Mrs. McCrohan. Falling planes haunt her dreams. Lightning and fireworks she dislikes as equally dangerous evils.

Mrs. McCrohan has a peculiar laugh which she says is sometimes mocked. People accuse her of being snooty, but she says, "My nose just naturally turns up."

DEAR DOROTHY DIX

Dear Dorothy Dix,
 I'm in a fix,
 I haven't studied,
 So my brain's all muddled.
 Notebooks are due,
 And my papers are few.
 Tests are tomorrow,
 Much to my sorrow.
 Dear Dorothy Dix,
 Help me out of this fix.
 —Written by Ruth Faust the day before tests.

SNUBBING POST

The grade school's noisy playing during the noon hour study hall reminds one of his childhood days when all life was a game with few rules to follow and less refereeing (as if we'll ever grow up)!

Dorothy Mills and Imogene Jamison were seen in the company of some Shamrock gents Sunday night. What's wrong with the home boys, girls?

Jerry Lewis' new coiffeur with the swirl-about curls is something new in the line of hair dressing (or anyway, new to us country hicks).

Speaking of hicks, Lavell Jaco stated that she "never had been took nowhere nor showed nothing, but she had read a heap!"

What's the ole proverb about "anyone can be a good winner?" Everyone is proud of the way the Mustangs fought Friday night. The backing of the town was displayed by the fact that few fans let a little thing like rain budge 'em.

For a while it appeared that the Cyclone had brought their cyclone with them.

The new pep uniforms are said to be attractive, nice, and pretty.

A very catchy song hit is heard in "Remember Me?"

Alton Weeks has nice hair. Wind-sor is apparently Miss Holbert's favorite nail polish.

It's worth a nickle to hear Amos Page laugh.

Margie Bowers wears a navy blue sweater with a small pink pin on it, the color combination is very nice.

Albert was seen one day last week without anything to eat, drink, or chew (believe it or not).

Puckett: Will you take my note book home with you? Miss Holbert: I don't have room. I live in a little room 12 feet square. Where would I put it?

Puckett: Put it in one of the squares.

Evelyn LaFon says that when her rich uncle gets out of the poor house she is going to have a new coat like Ruby Ayres'.

Although the Magic City pupils have had good bus drivers during the three weeks absence of their regular bus driver, they are very glad to have Mr. Buckles back.

Miss Addison: Gordon, what did you do with my Corral?

Gordon: I don't know. Those other girls had it.

Elizabeth Balch, Aline Coleman and two out of town boys were seen riding around last Sunday.

Irene: "Miss Holbert, which is correct, will you marry me or would you marry me?"

Miss Holbert: "Either one would be a mistake."

Mr. Lummus was seen rushing to the gym after his music had been completely ruined by the rain. This is only one of the many things that was ruined by the downpour last Friday night during the football game.
