

FLASH FLOOD HITS BERKELEY, CALIF., WITH HEAVY LOSS

Thousands Forced From Homes, Property Damage Heavy From High Waters Over The State

SAN FRANCISCO, Feb. 28 (AP)—A cloudburst sent three raging streams down on Berkeley, Calif., and caused damage estimated at \$100,000 within 18 minutes today.

Harry Goodrich, city engineer of Berkeley, estimated the damage and said the most severely hit sections "look like they had been hit by an earthquake."

Rivers and creeks in the rich Sacramento Valley ran at flood stage but prospects of several days of fair weather brought hope that an extremely critical situation would be averted.

Already through many parts of northern California, floods had forced some 3,000 persons from their homes and caused property and crop damage of hundreds of thousands of dollars.

At Berkeley, Strawberry creek, which runs through the University of California campus, swept into the business section, tearing stocks from shelves, overturning show cases, upsetting a refrigerator and carrying one automobile on its crest for half a block.

The flash flood broke through the floors of four business buildings at Euclid and Hearst avenue, near the north gate of the campus, and raised havoc with everything within four feet of the floor. The flood swept down Hearst avenue to Berkeley's main business district, leaving a foot of mud in its wake.

It turned down University avenue on to Shattuck where it picked up an automobile for half a block.

Another stream raced down Euclid avenue tearing away a block of hillsides, piling dirt over yards and against houses. A four car garage was torn down and the slide crashed into a riding academy stable injuring some of the 22 horses stabled there.

The federal weather bureau said two or three days of good weather was probable before another storm would hit.

Torrential rains poured down on the mountain snow, flushing it into the already deluged valleys. Normally dry creek beds became torrents, and rivers burst their banks, and rivers burst their banks.

At Sacramento, the key point in the vast river network, the 1,800-foot weir was opened, diverting millions of gallons of water through the Yolo bypass, and flooding some 80,000 acres of garden crops.

E. H. Fletcher, federal meteorologist at Sacramento, warned that a flood of "serious proportion" was upon the Sacramento and tributary Feather rivers, and that conditions closely approximated the serious flood of December, 1937.

At Dunsuir, on the upper stretches of the Sacramento, the river was out of its banks and rising. Families were moving.

At Geber, midway between Sacramento and the Oregon line, many of the 500 persons were alarmed when a river levee weakened. Crews were plunging levees and removing refugees.

Tehama, near Geber, was isolated, and the business and residential district of the town of 400 was awash.

At Redding, the Sacramento river was rising two inches an hour, and all main roads were blocked. More than 300 homes were flooded there yesterday.

Irene Clemens of Redding was believed drowned when her car overturned in a creek. Her body was not recovered.

Southern Pacific trains to Oregon were operating via Alturas and the High Sierras. Slides and floods blocked main lines.

Whipple Rites To Be Friday

Funeral services have been scheduled for 3 p. m. Friday, at the Eberly Funeral home, for Harold Keltie Whipple, who succumbed Monday in a hospital at San Antonio. His widow is the former Miss Gladys Reed, member of a well known Howard county family.

Body of Mr. Whipple, 50, was brought overland to Big Spring Tuesday. Rev. G. C. Schumann, pastor of the First Christian church, will officiate at the rites, and music will be in charge of the Christian church choir.

The Whipples had lived many years at Cleveland, Ohio, where he was business manager of the Cleveland Clinic. They went a short time ago to San Antonio because of Mr. Whipple's illness. Mr. Whipple was a 32nd degree Mason.

Survivors beside the wife are a daughter, Miss Lillian Whipple; his mother, Mrs. Charles Whipple; and two brothers, Sidney Whipple and Kent Whipple, all of Cleveland. Relatives of Mrs. Whipple include her parents, Mr. and Mrs. H. Clay Reed, and a brother Earl Reed, of Big Spring; and a sister, Mrs. J. H. Church of Cleveland.

BODY FOUND

NEW YORK, Feb. 28 (AP)—The body of Nina Palina, a 38-year-old concert singer who had been unable to obtain engagements, was found in her apartment today, hanging by a noose made with four bright silk scarves.

Dutch Fire On Belligerent War Planes

Violation Of Air Neutrality Answered With Guns

AMSTERDAM, Feb. 28 (AP)—Foreign planes flying high over The Netherlands, on the direct air route between Germany and Britain, fired heavy anti-aircraft gunfire early today without apparent results.

Ten Planes

The chief of the Amsterdam air defense, Lieut.-Gen Van Ermel Scherer, said ten planes were fired on, but were so high that the possibility of hits was small.

Almost daily affairs since war started, aerial violations of Netherlands neutrality have resulted in at least eleven protests in Berlin and four in London.

Germans assert that the Netherlands is a regular gateway for British planes reaching Germany.

For more than five hours, Amsterdam anti-aircraft batteries blasted away intermittently at the unwelcome visitors, as they had done also on Monday and Saturday nights. It was not disclosed whether any hits were scored.

For the second time, an exploded shell ripped through a house from garret to cellar, and military authorities began an investigation. Last Saturday, a schoolhouse in the heart of the city was damaged.

The British repeatedly have reported reconnaissance flights over Germany, but have not mentioned the routes taken.

German military circles said today British craft had penetrated Germany last night from two points on the Netherlands border.

(The route over the low countries also is the shortest for German planes, and the Netherlands government protested to Berlin at least twice during January that German fliers were violating Holland's neutrality.)

The official German news agency, DNB, declared German observers had established "beyond the possibility of mistake" that the British were flying over the Netherlands and from Germany and described the flights as "a violation of Holland's neutrality."

As envisaged, the expedition would:

- 1.—Give the Finns relief in the form of trained manpower—lots of it.
- 2.—Strike at Russia, which now is classed with Germany in most British public speeches as "an enemy nation"—this despite the fact the soviet union and great Britain technically are still at peace with each other.

Actually the only formal declaration of war thus far in Europe have been the British and French declarations against Germany.

Death Claims John Shafer

Death came Tuesday afternoon to one of Howard county's pioneer stock raisers, John Abraham Shafer, resident of the Vincent community for 42 years. Past his 87th birthday, Mr. Shafer had been in declining health for a number of years, and passed away at his home at 2:50 p. m.

Native of Harrisonburg, Va., (born Sept. 6, 1852), Mr. Shafer could claim kinship with Abraham Lincoln, his mother, whose maiden name was Abigail Lincoln, having been the great-grandfather's first cousin. Mr. Shafer came as a youth to Texas, was married in Hamilton county, then pushed westward more than four decades ago to try his hand at stock raising in Howard county.

He had been a member of the Masonic order for more than 60 years, and was a charter member of the Coahoma lodge. His affiliation with the Methodist church dated back 47 years, and two Methodist ministers, Rev. Waldron and Rev. Shipley, will have charge of rites to be conducted at the Eberly chapel at 3 p. m. Thursday. Burial will be in the city cemetery.

Surviving are the wife; three daughters, Mrs. C. L. Dickens of Deerfield, Kas.; Miss Daisy Shafer of Vincent, and Miss Fairy Shafer of Dallas; and six sons, W. L. Shafer, Amarillo; C. W. Shafer, Lamesa; E. T. Shafer, Vincent; J. S. Shafer, Detroit, Mich.; Alton Shafer, Dallas, and L. Z. Shafer of Big Spring.

Named as active pallbearers are Arch Thompson, Bob Marshall, Claud Wolf, Ernest Carr, Jeff Roberts and Keith Burkhead.

Honorary pallbearers include T. E. Currie, B. O. Jones, Jas. T. Brooks, Henry Wolf, Mitt O'Daniel, George Brown, Dayo Rhuton, Walter Rowe, H. R. Debenport, John Wolcott, Louis Hutto, Walter Coffey, T. J. Good, Andy Walker, W. E. Pursuer, W. W. Lay, V. V. Rutledge, Walter Bishop and Lee Warren.

FINNS HOLDING BACK INVADERS, SOON WILL HAVE BRITISH HELP

ONE BRIGADE ALREADY ON THE WAY

LONDON, Feb. 28 (AP)—About 500 British volunteers, members of an international brigade organized to help Finland against Russia, were disclosed today to be already on their way to the northern war front.

This first contingent comprises about a quarter of the international forces enlisted in Britain to give unofficial military aid to the Finns, supplementing undisclosed quantities of war materials which the British government has sent Finland.

It was reported that Kermit Roosevelt, son of the late President Theodore Roosevelt, was considered for the post of commander of the brigade by Field Marshal Baron Carl Gustaf Mannerheim, Finland's defense chief.

Roosevelt was commissioned as a second lieutenant in the British army soon after war started.

While the international brigade has no official status in Britain, its members will wear battle dress like that of the British army with silver collar badges carrying the letters "IN," for international. They are to use British war materials already in Finland.

British organizations are continuing to collect money, clothing, medical supplies, ambulances and fire engines for Finland. One organization announced today it had raised \$688,000.

An expeditionary force supported by men-of-war and planes and designed to strike at Soviet Russian forces in Finland has been the subject of serious discussion in military and naval circles for the past month, it was learned authoritatively today.

Talk of such an expedition has been inspired by protests against half-measures of aid for Finland expressed by such divergent personalities as former War Secretary Leslie Hore-Belisha and Commander Oliver Locker-Lampson, member of parliament.

As envisaged, the expedition would:

- 1.—Give the Finns relief in the form of trained manpower—lots of it.
- 2.—Strike at Russia, which now is classed with Germany in most British public speeches as "an enemy nation"—this despite the fact the soviet union and great Britain technically are still at peace with each other.

Actually the only formal declaration of war thus far in Europe have been the British and French declarations against Germany.

Negro Suspects Returned Here

Officers were expected to return three negroes here Wednesday afternoon from Fort Worth to face charges of burglarizing a store during the weekend.

Sheriff Jess Slaughter and A. W. Crocker, city policeman, went after the trio, listed as John Henry Smith, 20, Joseph Harris, 21, and George Steel, 19. It was doubtful, however, if Steel could be brought back, for it was reported he had suffered serious burns in a Fort Worth "hobo jungle" and was in a hospital.

The three were formally charged Tuesday in a complaint signed by Denver D. Dunn, deputy sheriff, after they had been captured in Fort Worth with most of the missing loot in their possession.

DELINQUENT-TAX PROPERTY TO BE SOLD ON APRIL 2

Some 50 parcels of real property, taken over for delinquent taxes owed the city, county and schools, will be placed on the block April 2. Description of the tracts will be made public soon when the sale is advertised. The property is that taken over for sale by the three local governmental units during the November 1939 term of 70th district court here. Almost as many more parcels will be sold at a later date to satisfy tax judgments.

BAND UNIFORM ORDER TO BE CONSIDERED THURSDAY NIGHT

Meeting of a special committee to handle orders for the new Big Spring municipal high school band uniforms has been called for Thursday evening, and all local firms who wish to place bids are notified to meet the committee at the high school at 9 o'clock.

The committee was set up at a special meeting of the school board, to include representatives of that group, of the Band Boosters club, and others. Members include C. W. Cunningham, Edmund Notestine, Ben Conley, W. C. Blankenship, E. V. Spence, J. H. Greene, Sam Goldman, Mrs. H. W. Smith and Mrs. Hayes.

Notestine, treasurer for the fund raised by public subscription last week, said the committee would meet at 7:30 for organization purposes and general discussion, then would receive representatives of firms beginning at 9 o'clock. The matter of samples, etc., will be gone into thoroughly.

Selected representatives have explained that the uniform order will be placed through a local business house, and every firm interested in the proposition is invited to meet with the committee Thursday night.

Hull Looks Forward To World Problems After War Is Ended

WASHINGTON, Feb. 28 (AP)—Secretary Hull said today that conversations are under way between American diplomats and foreign governments all over the world in the interest of preventing the forces of autarchy, regimentation and economic totalitarianism from gaining control after the end of the war.

Hull revealed that copies of his recent statements concerning contacts made with neutrals with a view to establishing a better world order after peace have been sent to all American representatives abroad, so that these diplomats could call them to the attention of the governments to which they are accredited.

Asked at his press conference whether this referred solely to capitals of neutral nations, Hull said it meant all capitals.

The action was taken, he said, with a view to making preparations for post-war adjustments. He emphasized that the conversations had nothing to do with conditions during the war.

If the forces of peace and stability—especially economic forces—Hull said, are not organized preparatory to the transition and reconstruction period after the war, the forces of autarchy and regimentation and economic totalitarianism probably would have the same tendency they had after the World war.

This tendency, he said, was to spread their practices on an ever-narrowing and more disastrous basis, through increasing areas of the world, with much worse destructive effects than followed a similar policy after ten years of the post-war period.

GOP's Cheered By Victories In Ohio

Confirm Trend, Says Party Chairman Hamilton

(By The Associated Press)

Two republican congressional victories in Ohio were hailed by Republican Chairman John Hamilton today as pointing toward a democratic defeat in the November election.

"The republicans take the first blood of 1940," Hamilton said through national headquarters in Washington. "This confirms the trend we have contended has been running since 1938."

J. Harry McGregor, republican of the late William A. Ashbrook, won by nearly 3,000 votes the seat in the 17th Ohio district. McGregor's opponent was the late representative's nephew, Byron E. Ashbrook.

The other victory marked no increase in republican congressional seats, for Mrs. Chester C. Bolton of Cleveland was elected to the place held by her late husband. She defeated Anthony A. Fleger, democrat, by more than 16,000.

The third term question continued to dominate political developments in democratic ranks.

Frank McHale, campaign manager for Paul V. McNutt, said last night at Indianapolis that McNutt's friends were working with President Roosevelt's supporters in filing delegate slates for the national convention.

He said that Roosevelt and McNutt backers had joined forces in New Hampshire, Wisconsin, Oregon and Nebraska, and a similar tie-up would be effected in Florida.

"If President Roosevelt isn't the candidate, you can rest assured that Paul McNutt will be," McHale said.

SOIL MOISTURE IS REPORTED AMPLE OVER THE NATION

WASHINGTON, Feb. 28 (AP)—The weather bureau reported today that surplus soil moisture was now ample in many parts of the country, including the heretofore extremely dry midwest, to give early spring vegetation and crops a fair start.

The bureau added, however, that the soil in some sections, particularly in the Great Plains region was still dry.

In the south there has been much rain and dry, warm weather was said to be needed for proper growth of truck and other early crops.

Winter wheat continues to be largely dormant, except in the southwestern portion of the Great Plains, the bureau said. In Texas the crop was said to be making fair progress.

BOMBERS ARE ATTACKING RED BASES

HELSINKI, Feb. 28 (AP)—Finnish bombing planes continue to strike at Russian communications and troop concentrations while land forces have repelled continued Red army attempts to follow up its advantage on the Karelian Isthmus, the Finnish army's daily communique said today.

The communique, however, gave but little indication of the extent of the Isthmus fighting, which was believed to be raging undiminished in intensity.

The Finnish high command in only a brief reference to Russia's important drive on Vilpuri said the "enemy suffered heavily" in fighting yesterday in which the Finnish troops "fought defensive actions."

Several Russian tanks were destroyed, the Finns said, and "artillery activity was lively on both sides."

The high command said "enemy air activity in the war zone was concentrated on the Karelian Isthmus and the area northeast of Lake Ladoga."

The Finns said they repulsed Russian attempts to advance northeast of Lake Ladoga and that "operations against surrounding enemy positions continued" at Kuhmo, further north.

The Finns said their own air force "bombed enemy troop columns, munitions dumps, communications and certain military objectives on the Gulf of Finland and its coasts."

Of the Arctic front, where the Finns yesterday disclosed a withdrawal southward to Nautil, on the Norwegian border about 75 miles below the coast, today's communique said only that "a few enemy aircraft were observed," and "bombs dropped by the enemy caused no appreciable damage."

Finnish sources announced today that 521 Russian planes have been shot down since the start of the war.

These sources estimated the total value of these planes at \$500,000,000 Finnish marks (\$42,000,000), or five times the Finnish financial losses due to bombings.

The Finns reported 1,310 Russian tanks have been destroyed or captured. Many were said to have been repaired and used by the Finns.

Texas Commission Fights Rail Lease

AUSTIN, Feb. 28 (AP)—The Texas railroad commission today asked the interstate commerce commission for a full hearing to oppose a proposed order permitting the Burlington railroad to lease the Fort Worth & Denver railway to the Colorado & Southern.

Member Ernest O. Thompson labeled the proposal an "outrage," asserting the Burlington was attempting to lease out a profit-making Texas carrier to a consistent money losing road.

He also branded the Burlington proposal as an attempt at federal control, pointing out Texas law requires that the general offices of Texas rail carriers must be located within the state. Granting of the Burlington application would cause removal of Denver & Fort Worth offices from Fort Worth and its shops from Childress, Thompson said.

NYA APPLICATION STRIKES A SNAG

Hopes of an early start on the city's NYA project for a caretaker's cottage and concessions house at the Moss Creek lake site were blasted Wednesday with word from the district office of the National Youth administration that the application had snagged in Washington and likely would not be cleared there for three weeks.

FAMILY LOSES ALL PROPERTY IN FIRE; HELP IS URGED

An urgent appeal for gifts of any type to help a needy family whose home and all its contents were destroyed by fire came Wednesday afternoon from the Salvation Army.

There are six in the family affected, reported Major L. W. Canning of the Army. The father and mother, two children in school—a boy, 15, and a girl, 9—and two older girls, the father is a WPA worker.

The home was burned Wednesday afternoon, and all family belongings were a total loss. Major Canning said bedding and mattresses are needed, a stove, cooking utensils and all types of household goods, as well as clothing for the six. He urged that anyone who can make any sort of contribution notify him at once at the Salvation Army office. The family needs help immediately, he said.

Budget OK'd For Venereal Clinic Here

Opening Arrangements Await Study Of Definite Figures

Local health authorities Wednesday awaited arrival of an approved budget for a venereal disease clinic here before proceeding further with plans to operate the unit here.

Forwarded Here
Dr. M. H. Bennett, city health officer, said Dr. A. M. Clarkson of the state health department, had notified him that the clinic budget had been approved and was being forwarded to Big Spring.

Other arrangements concerning the clinic were incomplete pending arrival of the budget and a study of it by Dr. Bennett, Dr. Frank Boyle, county health officer, and others directly interested.

Under agreement reached here in January, the city voted \$100 a month or \$1,200 for the year as a contribution toward the clinic. The U. S. Public Health unit posted \$1,650 for the work to the end of the fiscal year, some four months distant. Whether this amount was still in the budget was not known.

Clinic services will be available to persons below a certain low-income level free of charge. "Those above will be referred to local physicians. Plans mentioned in January included a clinic director, a nurse, traveling laboratory and equipment. However, nothing definite can be done in the way of setting up the clinic until the budget is seen here. No place has been selected for the clinic.

NAZI PLANES SHOT DOWN BY FRENCH

PARIS, Feb. 28 (AP)—The downing of two German planes which took part in massed German flights over France during the past 48 hours was announced today by the French high command.

These were in addition to two other German planes—Heinkel bombers—which the British announced yesterday they had shot down over their eastern coasts after the German fleet had crossed France and the English Channel.

Considerable firing by French anti-aircraft batteries was directed at mass German squadrons which flew over the Paris area Monday night. Six Parisians were wounded by one anti-aircraft shell.

MERCURY POINTS TO SUMMERTIME

Big Spring folk found it difficult to realize that frigid blasts were only a few weeks in the past, as real summer weather came to the area Tuesday and Wednesday. Some sort of record for early spring was established as the mercury soared to 81 degrees Tuesday afternoon.

It was shirtelevens weather again Wednesday, as a high of 79 was recorded at noon, to indicate even warmer weather by late afternoon.

Nazis In New Bid For Oil

BUCHAREST, Feb. 28 (AP)—Authoritative quarters said today Germany had offered to guarantee Rumania's borders in return for huge increases in oil, wheat and other raw material shipments to the reich.

These sources said the plan was submitted while the Rumanian cabinet considered issuing a royal decree for virtual civil mobilization to accompany military mobilization already undertaken in part.

Acceptance of the German plan, it was said, would oblige Rumania to abandon her plan for civil mobilization and send at least 1,000,000 of her 1,400,000 men under arms back to their jobs in fields and factories.

The German plan also was said to include a promise to parcel upon Hungary, Bulgaria and Soviet Russia to abandon their territorial claims on Rumania and sign non-aggression pacts with her.

Germany was reported ready to sponsor a new railway agreement between Rumania and Hungary to make it easier to transport vital supplies to the reich.

Authoritative quarters said it was extremely doubtful whether Rumania would accept the plan because the price—a virtual total monopoly of her exports—was considered far too high.

ANGELO BOOSTERS HERE THURSDAY

A group of 40 representatives of San Angelo business houses will be visitors in Big Spring Thursday to do some boosting for the San Angelo Fat Stock show which opens Friday.

On a swing around West Texas, the Angelenos left their home city Wednesday morning. They were to spend the night at Midland, coming here Thursday morning.

The Latest In Styles And Cars To Be Shown At March 5 Review

The latest styles, the prettiest girls and the newest cars, combined with smooth music and entertainment ought to spell a good time and all this is promised to those who attend the eighth annual Fashion Review and Automobile show at the city auditorium on March 5 at 7:45 o'clock. The review is sponsored by St. Mary's Episcopal auxiliary.

Local merchants are furnishing the dresses for the models to display and local beauty parlors will display the latest hair-dos to go under your Easter bonnet. The Automobile dealers will have their longest, slinkiest cars on the stage to show the new 1940 models. In the foyer of the auditorium other merchants plan to have a display of various articles.

During one of the acts a group of children will give an Easter dance to add to the entertainment. A master of ceremonies is to be secured for the affair and the names of the models, the stores furnishing their costumes and the type of dress will be broadcast over a public address system.

Tickets may be secured from any of the members of the auxiliary.

Banned Book In Demand Here At The Library

List Of New Books Is Announced

"Wrages of Wrath" by John Steinbeck may be shunned in other counties but Big Spring seems to want to find out what the story is all about as a third copy of the book has been ordered by the Big Spring library due to the heavy demand for the book, librarians reported.

Next in demand is the Christopher Morley novel "Kitty Foyle" and close behind "Moment in Felling" by Lin Yutang and "The Nazarene" by Sholem Asch. "Portrait of Jenny" is also one of the most popular books it was reported.

New books for adults that have been secured are "The Keepers of the House" by Harry Harrison Kroil; "Show Me A Land" by Clark McMeekin; "Miss Susie Slagle" by Augusta Tucker and "How Green Was My Valley" by Richard Llewellyn.

Constancia de la Mora's book, "In Place of Splendor" has been secured and "Flowering of New England" by Van Wyck Brooks; "Portrait of Jenny" by Robert Nathan; and "Inside Europe" (1940 revised edition) by John Gunther. Others are "Believe the Heart" by Richard Holden and "Past the End of the Pavement" by Charles Finney.

The 1940 Hyperion club will announce soon a list of about 40 juvenile books which are to be ordered for the library from the club.

Anger Reaction Of The Child Studied By Culture Club

Anger reactions and methods of combating them were discussed by the Child's Culture club when it met Tuesday at the Methodist church.

Forged Passports Are Investigated By Mexican Govt.

MEXICO CITY, Feb. 25 (AP) — Government agencies today investigated reports that forged passports and immigration credentials were being made available to German espionage agents for illegal entrance and residence in Mexico.

The possibility that a ring of public employees was trafficking in such documents was being investigated by the ministries of the interior and foreign relations and by the attorney general's office.

A government official said the probe began when a German citizen, Hans Forham, was arrested in Tampico for taking pictures of ships in the harbor and found to have a false immigration certificate.

Questioning disclosed evidence his credentials were obtained from a minor official in the ministry of foreign relations. Forham is now in Tampico awaiting deportation.

Mrs. Middleton And Mrs. Notestine Are Speakers For Group

Mrs. R. V. Middleton and Mrs. Edmund Notestine were speakers for the Central Ward Study group when it met at the administration building Tuesday morning.

Mrs. Middleton discussed "The Family Pocketbook" and stated that it was necessary to train a child about the value of money and to make him see how much you have and how much belongs to him. He should be taught to stay within an allowance, she said, and are thus is taught independence.

Mrs. Notestine told of remedies when children fail to tell the truth and declared that usually it was just imagination on the part of the child and that if the parent will reconstruct the ideas and distinguish between real and make-believe for the child that the difficulty will be solved. She also pointed out the inadvisability of telling a child that he lied.

Next Tuesday is to be the last day of the course and others attending were Mrs. H. E. Howie, Mrs. C. E. Lancaster and Mrs. Burt Trice.

MISS LAMOUS NOTES

That old gag about experience, being the teacher is all right; but, like a lot of other platitudes, it doesn't help much.

We blunder along and pull a foux pas (French for a whopper) and get told about our mistakes and promise ourselves never to do it again.

But having corrected that flaw in our lives in the next ten minutes we run a bluck on something else.

We've got the answer for the first error but what about the new one? We don't have any solution previously tried, so we close both eyes and choose—and it's usually wrong.

The way we have figured out we would have to live to be a million years old and by that time it won't make any difference. People will just say, "Oh, well, you know how frisky he is!"

We have been giving the matter a lot of thought lately and have come to a conclusion. But it isn't much help, either. Barring getting shot, stepped on or lost in the crowd, we will keep on this way learning every day and making mistakes every day until finally we will set up a question and answer department and advise people on our past experiences.

But what we are going to do about the situations we haven't come across yet is problematical. If we had a question and answer department we would have to throw those letters in the waste basket. (Which is really where letters to a question and answer department belong.)

Our conclusion, after wearing down the brain cells, is that some are born knowing how to do the right thing, some acquire the knack. But we will probably never know. We will just have to sit on the sidelines and watch others admiringly.

Thirty-two per cent of the trees in Lapland are more than 160 years old.

Land Lease Bids To Be Taken Apr. 2

AUSTIN, Feb. 28 (AP)—The school land board opened its books for a new sale today, announcing bids on all and gas leases covering 28,430 acres of submerged and river bed lands would be received until April 2.

The submerged area, 27,910 acres in 123 tracts, is in Corpus Christi bay, Nueces county. They are offered at a cash minimum of \$2 an acre with fixed oil, gas and sulphur royalty of one-eighth.

Two tracts of 140 acres in the Sabine river bed, Shelby county, require a minimum cash offer of \$140 each with fixed royalty of 5-32 of gross production.

Two Trinity river bed tracts, between Anderson and Leon counties, require a fixed bonus of \$2,000 each and minimum royalty of one-eighth. These tracts are in proven territory, the board said.

One tract of 60 acres in the Mission river bed, Refugio townsite, has a fixed cash price of not less than \$50 per acre with minimum royalty of one-eighth.

Good News for Women

Every day women are finding their headaches, nervousness, cramp-like pains, other symptoms of functional dysmenorrhea due to malnutrition are helped by CARDUI. Main way it usually helps is by increasing appetite and flow of gastric juice; so aiding digestion, helping build up users. Periodic distress is also eased for many who take CARDUI a few days before and during "the time." Women have used CARDUI for more than 50 years!—adv.

KILLS 2 NEIGHBORS, WOUNDS A THIRD

IRON RIVER, Mich., Feb. 28 (AP)—Running amuck with a .22 calibre revolver, a 45-year-old ex-soldier slew two neighbors and critically wounded a third man before surrendering to police who trapped him after a gun battle in tiny Bates township near here late yesterday.

The man was identified by Sheriff Emory King as Marion Marsch, Iron County Prosecutor F. Lloyd Symmonds said Marsch would be charged with murder.

The slain men were Peter Baker, 65, and Hans Matson, 63. Anton Kuchynski, 45, was wounded. Officers said Marsch complained people had been talking about him.

AN ANALYSIS OF THE WAR DEVELOPMENTS

By DEWITT MACKENZIE

President Roosevelt's peace sleuth, Undersecretary of State Sumner Welles, couldn't have been assigned to a better spot to start his investigation of prospects than in the Eternal City with Signor Mussolini, and this may prove to be a bit of rare good fortune.

There can be few men who have acquired so much information about the belligerents and their innermost aims, their aching prices and their selling prices, as is stowed away in the sure and far-seeing brain of the fascist chieftain. Other European leaders don't fool him much if they claim one thing and think another.

As a much sought-after non-belligerent (he himself uses this term rather than "neutral," to show that he has preferences and carries a gun) he has had exceptional chances to make an intimate study of the position from all angles. If he has chosen to talk freely with his visitors—and the American diplomat has been most cordially received—Il Duce likely will have disclosed the results of some keen mind-reading which should be invaluable to Welles in dealing with the warring leaders.

The undersecretary's mission is a most difficult one at best. He will be consulting statesmen with whom he isn't well acquainted personally.

His work must of necessity be to a large degree psychological, lest he place a wrong value on the spoken word. One judges that President Roosevelt will put much reliance on his emissary's assay of the conversations. Perhaps Welles' biggest test will come at his next stop, when he visits Herr Hitler.

The German fuhrer is at times one of the world's most difficult personages, because he has a habit of letting his emotions take him cloud-riding. Some there are who think he does this deliberately.

Mussolini has his axis partner pretty well figured out by this time, including the flights of fancy which at one time or another have linked the practical fascist leader to the astute Birmingham businessman who is Premier Chamberlain of Britain, and the bull of Provence, Premier Daladier, who now rules France under dictatorial powers granted him by his parliament.

So if Mussolini has felt well disposed toward Mr. Roosevelt's search for peace, Welles has gone forward with good equipment for the remaining stages of his journey.

The Shorthorn cattle exhibit at the Southwestern Exposition and Fat Stock Show in Fort Worth March 8-17 will be the best ever shown in the South in the opinion of Craig M. Logan of Valley Mills, superintendent, who is shown above.

Censorship In Europe Is 'Backfiring'

By the Associated Press

European censorship is backfiring on itself.

Newspapers and the people in France and Britain complain of the lack of fully truthful news and now the censors' own governments criticize the blue-pencil men both for what is published and what is withheld.

The latest storm over censorship is in France where Premier Edouard Daladier temporarily settled the argument by lifting home censorship on political discussions in newspapers.

In Britain, there has been a series of public complaints which the government is trying to obviate by changing censors. Newspapers so far have failed to record improvement.

Foreign correspondents, especially those sending news to the United States, still suffer from delays, mistakes and arbitrary decisions of censors.

Here is what the various countries are doing to control news:

Germany—No censorship on established correspondents such as those of the Associated Press. Correspondents are responsible for the truth and impartiality of the news they send.

Britain and France—All news is censored.

Finland—Censorship is similar to that in Britain and France but more flexible in that censors work more closely with foreign newspapermen.

U. S. S. R.—Soviet Russia abolished censorship May 4, 1939, but reimposed it more severely than ever, December 29, 1939.

Spain—Tight censorship on news sent abroad, but a lighter one, something on the "honor" system, on Spanish papers.

Italy—No censorship on telephone, which foreign correspondents generally use, but correspondents are responsible for the news they send.

Eolland and Switzerland—Censorship on important military and "alarmist" news, particularly anything that might reflect on their neutrality.

Other neutrals, such as Hungary, Rumania, Yugoslavia and Portugal supervise strictly their native newspapers but give foreign correspondents full freedom except in the rare cases when some of them may "interrupt" all communications temporarily when there is a political assassination or something of that nature.

Angelo Man In State Race

SAN ANGELO, Feb. 28 (AP)—Expressing opposition to a sales tax of any kind and advocating the abolishment of useless boards and offices which he declared would save the state \$6,000,000 a year, Alton M. Mead of San Angelo today announced his candidacy for lieutenant governor.

Mead was an aspirant to the office in 1938.

He declared he believed in personal liberty and local self government, "eat what you want, drink what you want, go to any church you want, and always tell the truth. I don't mix politics and religion."

Mead advocated more tonnage for trucks through Texas, increasing it to 15,000 pounds to the load, which he declared would help the trucker, farmer and the rancher.

Mead advocated abolishment of the liquor control board, turning this duty over to county officials.

He also would abolish the pension board and let the county judges or the Texas assessors handle this work.

Other points in his announcement: "Put the barbers and the beauty operators under the health department. This will save the barbers and the beauty operators \$200 a year, and will give the public some protection from disease of all kinds. The way it is the public or the barbers haven't any protection at all."

"I am in favor of shorter hours and more pay for all kinds of trades and labor; I favor paying our legislatures, representatives, \$2,500 a year. I am against any more taxes on our business men."

our farmers and our railroads and our manufacturers. They all have all they can carry. I am in favor of a tax of 5c a barrel on oil, \$2.00 on sulphur, long ton; 10c on 1,000 feet of natural gas, to pay our social security obligation."

Adolf Hitler as a boy sang in the choir in the Benedictine monastery at Lambach.

Lloyd George Opposes War With Russia

LONDON, Feb. 28. (AP)—David Lloyd George, World War prime minister, warned against war with Russia today and declared that in respect to food supplies Britain was "not so well off as we were last time" for a long conflict.

Addressing the national defense and public interest committee, he asserted Germany had learned the lesson of the last war and kept her doors open to Russia, Italy and Rumania for supplies.

Urging Britain to remember that the army and the nation must eat, Lloyd George said:

"Germany forgot it last time. She centered on her great armies. She was starved to surrender. She learned her lesson. Have we?"

Long an advocate of Lord Beaverbrook's "Dig For Victory" plan to make England more self-sustaining, the white-haired veteran declared that "every acre of land in this blessed isle must take its full contribution to national safety before we reach the faithful crisis," and added:

"We have five million more mouths to feed and six million less tons of shipping to feed them with than in 1914-18."

Discussing the possibility of war with Russia, he declared "don't run any more risks. I would not allow any reckless or inconsiderate steering on icy roads to skid us into war with Russia. It is a big job we have undertaken. It will need all our strength to get through."

Lloyd George declared that when peace comes "it must no longer be a sham pact" and "certainly it must be a peace that will not be a betrayal of our principles."

Congress Responsible

Doing something to reduce unemployment is the purpose of a conference of members of the congress, called by the signatures of two dozen of the more than four hundred members in a recent meeting.

Anything that is done will have to be along lines that have not been laid down or practiced the last seven years, for according to the committee's own statement unemployment is as large now, or larger than, it has ever been.

These things have been done by congress and that body is responsible. The president may have asked that they be done but a member of the congress is, or should be, a free agent, doing what is for the general good, rather than what someone higher up might think should be done.

WASHINGTON—An important Washington military authority told us when the war first started that the moment Britain and France began organizing an expeditionary force in the Near East you could bank on one thing—Italy was on the allied side.

Washington's best story—Republicans will be telling it a lot during the campaign: A doctor, engineer and economist were arguing about who was the oldest profession.

Peace has been installed in the world in one spot, at least a modified peace. Senators Rush Holt and Matthew M. Neely of West Virginia appear to have suspended their bitter long war while they combine forces to beat down opposition in the coming primary.

U. S. officials are not panicked by any threat that may be carried in Japan's denunciation of its commercial treaties with the Netherlands. Some observers hastily concluded that Japan was opening the way for a drive southward into the Netherlands East Indies, rich in oil, rubber, tin and other military essentials.

Corona, Attra Win Tests In Nat'l Meet

Texas Has Four Representatives Left In Fight Tournament

CHICAGO, Feb. 23 (AP)—Texas had four fighters still in the running in the national Golden Gloves tournament today with quarter-finals next on the schedule for all weight classes.

Tonight the field will be cut to 22 youngsters who will battle it out March 6 in the semi-finals and finals.

Morris Corona of Beaumont and Tom Attra of Austin won last night, Corona beating Charles Eusebi of Milwaukee in the welterweight division and Attra defeating Ernest Westbrook of Dayton, Ohio, in the middleweight class.

The night before found Bantamweight Richard Menchaca of Beaumont and Flyweight Jose Andreas of Fort Worth coming through.

Attra last night stepped down from the light heavyweight class to replace Andy Eagleton of Fort Worth, who was unable to fight because of illness. Alternate Sanders Cox of Dallas, who was to have fought in the light heavyweight division, was rejected on a physical examination because of an injured jaw.

Aubrey Pool of Houston lost a decision in the heavyweight division in a scrap with John Dux of Green Bay, Wis.

ROOKIE PARADE— Young Mr. Young From Knoxville Is Southern Loop's Top Recruit

By DYLLON GRAHAM Sports Editor, AP Feature Service

Norman (Babe) Young, Knoxville's slugging first sacker, might be tagged as the Southern Association's "rookie most likely to succeed" in the big leagues next summer.

Boss Bill Terry of the New York Giants has gone overboard on the southpaw sacker voted the Southern's most valuable player last year. Terry says Young will supplant the veteran Zeke Bonura.

A Fordham University graduate, Young has been a hard hitter in every league in which he has played. He hit .364 last year and was ejected out of the Southern batting championship. Young led the loop in hits, runs batted in, two batters and total bases and was a good fielder to boot. He hit .307 in 22 games for the Giants late last season.

The Giants also have Catcher Ras Blazemire, who hit .317 for Nashville, and Outfielder John Rucker of Atlanta. Rucker, nephew of Brooklyn's famous Nap Rucker, hit .346 and was perhaps the fastest man in the circuit.

Brooklyn Grabs Five

Brooklyn has Bert Haas, the Nashville first baseman who beat Young out for the batting crown with .365 but with Dolph Camilli around there may not be a spot for Haas.

The Dodgers also have Pitchers Carl Doyle of Memphis and Sam Nahem of Nashville and Outfielders Calvin Chapman and Charles Gilbert of Nashville.

Skipper Leo Durocher likes Doyle's look and sees a bright future for Chapman, who hit .246, and Gilbert, son of the veteran Southern association manager, Larry, who played with the 1914 Boston Braves.

When training camp opened Brooklyn had no less than 10 outfielders on hand so it is likely that Chapman and Gilbert will be sent out again.

The Chicago Cubs acquired a trio of hurlers — Richard Bass of Chattanooga, who won 19, Clare Bertram of Knoxville, and Julian Tubb of Birmingham.

Dick Lannahan, Chattanooga southpaw who won 19, gets a chance with Pittsburgh along with Fitcher Vaughn Swartzart who captured 17 for Knoxville.

Infielder Al Rubelling of Atlanta, who hit .328, and Pitchers Ed Heusser and Herman Besse of Memphis and Chester Polndexter

BABE YOUNG Replacement For Zeke Bonura?

JIM BAGBY Gets Another Try At Boston

of Atlanta may make the grade with the Athletics. Heusser won 19.

Bagby Tries Again

Jim Bagby, who pitched well for Boston in 1938, gets another chance after a season at Little Rock. The Red Sox also have Pitchers Alpha Brazie, Frank Dasso and William Saylor from Little Rock.

Others include Pitcher Almon Williams of Chattanooga with Washington; Pitchers Marvin Earl Center, John Hurrphries, Don Pulford and Floyd Stromme, Infielder Stan Rogers and Outfielder Clarence Campbell of New Orleans and Infielder Russ Peters of Atlanta with Cleveland; Outfielder Bud Bates of Memphis with the Boston Bees; Infielder Ed Russell Bevell of New Orleans and Outfielder Art Luce of Birmingham with Cincinnati; Pitcher Clyde Small of Atlanta, Infielders Stan Benjamin and Charles Letchaw of Chattanooga and James Shilling of New Orleans with the Phillies.

Seabiscuit To Be Under Big Handicap Sat.

To Carry 130 Pounds, Has Twice Been Nosed Out In Big Event

LOS ANGELES, Feb. 23 (AP)—The rosiest dream of all is that Seabiscuit will win the \$100,000 added Santa Anita Handicap and go down in turf annals as the biggest money winner of all time, but it will take more than dreams to get the 'Biscuit across the wire the winner in the big race Saturday.

There is no doubt that a million horse lovers are pulling for Seabiscuit to win.

But—

The fact remains that the star of the C. S. Howard stable failed by a nose to win the Santa Anita classic in 1937 from Rosemont, and failed again in 1938, another nose, to Stagehand.

It seems like asking a lot to believe he can do it in 1940. As courageous and sturdy as he is, Seabiscuit, it would appear, can't be any better than he was two years ago; particularly after an injury that put him on the shelf for almost a year.

Consider the cold figures on the weights. Seabiscuit must carry 130 pounds in the mile and one quarter grind. That was the weight he carried against Stagehand. True, Stagehand, a colt, packed only 100. But in 1937 Seabiscuit carried 114 pounds and Rosemont 121.

There probably is no Stagehand to worry about this year, however. Featherweighted candidates, at this date, don't seem to figure.

There are others of known merit, though, to which the 'Biscuit must give weight, including Heel-fly at 114 pounds; Specify, 116; Whitebe, 114; Don Mike, 112, and Carl. Seabiscuit must be reckoned with at a mere 108 and a liking for the distance.

There is Kayak II, too, at 129, the so-called solid candidate to repeat his 1939 win in the Santa Anita.

If Ruth Wants To Help Baseball, He Should Tour In Minor Leagues

If Babe Ruth is still of the opinion that he wants a place in professional baseball, we think he could contribute no finer service to the game than to travel among the minor leagues as an ambassador of good will much in the fashion of Al Schacht.

Ruth is a legend. There has never been another like him and probably never again will be.

A large percentage of baseball fandom has never seen him in action, would relish such a chance.

Even today, a decade after his greatest years, the Bambino might still be called the greatest figure in the game. When active, he drew the largest crowds. If he were to step into harness again, fandom would doubtless respond with all the old time enthusiasm.

Only 60 years of age, the famed slugger is not too old to don his monkey suit, hit a few. The fans would eat that up. The players would like it, too. He'd probably revel in the chance, too.

The door of major league baseball may be closed to him for once and for all but the way is certainly open for him to pioneer on the other frontiers.

Phillips, Ex-Steer Great, Watches From Sidelines

Content to watch his basketball team scrap for the Major-City basketball league title from the side-

manager of the Vaughn's M-C team, won district and bi-district honors and represented this sector in the state meet at Austin.

Phillips was the "midget" of the crew which had as other members Tommy Hutto, later to take a name for himself at Texas A.M., Elmer Pardue, Dave Hopper, Bill Flowers and Cy Reid.

Competing in the western half of district play, The Herd dipped of Roby, 22-12, to earn the chance to meet Abilene for the district title. Stevens' crew then twice trimmed Abilene by scores of 26-22 and 28-12 to go into bi-district play where Breckenridge was ousted in two successive games. The Bovines won the first game of that series, 24-23, then sewed up the title with a 31-24 victory.

However, the Steers' campaign for a state title was short lived. They lost out in first round play to Yancy, 25-22, despite great shooting on the part of Hutto who counted 18 points.

Phillips attended West Texas State after completing his eligibility here, lettering three years at the Canyon school.

He played independent ball as late as last season but decided to retire from competition this year.

Coahoma And Ackerly Meet In Bid For M-C Cage Title

Baccus Called The Shots In S'west Race

DALLAS, Feb. 23 (AP)—Porrett (Whitey) Baccus, youthful coach of the Southern Methodist university basketball team, can take his place with Confucius and other noted prophets.

Almost two months ago Whitey say: "Southwest conference basketball race be tight as Scotchman on vacation but tight race always work against champion. Rice will win by whisker."

Those were not his exact words but anyway that's the general idea. He took Rice first, Texas second, Arkansas third, Baylor fourth and Southern Methodist, Texas A. and M. and Texas Christian to fight it out for the other places, forecasting they would finish in that order.

Today Rice is the champion. Texas has clinched second place. Baylor is in third, Southern Methodist fourth, Arkansas fifth, Texas A. and M. sixth and T. C. U. last.

Arkansas has two games remaining, both with Texas Christian at Fayetteville. Baylor plays Southern Methodist at Dallas Friday night. Texas goes to College Station Saturday night to ring down the curtain against the Aggies.

Before it's all over Baccus may be even closer than he is today.

First Battle At High School Gym Begins At 7:30

The Major-City basketball season draws to a close at the high school gymnasium this evening with the second half title still undecided.

The puzzle will be clarified to a degree in the evening's opening battle when Coahoma's Ollers and the Ackerly Eagles, in a deadlock for first place, tangle in a 7:30 battle but the winners can only share the lead if the Phillips Tire company quintet comes through in its 9:30 test with the R-Bar Wranglers.

The Coahomans, who two weeks ago dethroned Phillips, will be slightly favored over the team from Dawson county, which lost to the Tremen last week.

Anchored by Hollis Parker, all-star center, the Ollers boast a speedy crew that has played an aggressive, eventful brand of ball throughout the season.

Manager Burl Cramer in Louis Heuvel boasts one of the fastest players to ever be seen in action on a local court. Heuvel's chassis measures considerably less than six feet but he proved good enough to land on the league's all star team.

The Eagles, the "team without a star," have probably the toughest defensive combination in the loop and in C. Bristol offer as potent a scoring threat as any quintet in the loop.

The 8:30 game will pit the Vaughn's 8-man 5-6-7-8-9 team against Montgomery Ward. The Plimen, out of the running for a second half title, are heavily favored to win.

The Tremen, who recently won the Klondike tournament, should have little trouble with R-Bar.

Lewis May Be Moved To Sen Outfield

By the Associated Press

ORLANDO, Fla.—Buddy Lewis, Washington's regular third baseman the past few seasons, is taking regular turns in the outfield in preparation for a permanent assignment there.

FROSH HURLER REVEALS HE CAN CLOUT BALL

BRADENTON, Fla.—Casey Stengel's broad grin apparently means he can pick pitchers who can hit, whether or not they can pitch. Wilbur McElroy, youngster from the University of Southern California and picked up by Casey for the Boston Bees, belted a 400-foot home run over the fence yesterday with two on board.

BEGGS CONFIDENT OF STICKING WITH CINCY

TAMPA, Fla.—Joe Beggs, pitcher who came to the Cincinnati Reds from the Yankees in the deal for Lee Grissom, thinks he'll "do all right" with the Reds, if given a chance to pitch regularly.

"I've burned up every minor league I've been in," he explained, "and I am sure I would have done the same in the American League, if the Yankees had given me a chance to strut my stuff."

MACPHAIL FEEVED WITH CAMILLI AND LAVAGETTO

CLEARWATER, Fla.—Larry MacPhail, Brooklyn Dodgers president, is peeved at holdouts Dol Camilli and Cookie Lavagetto and doesn't care who knows it.

"I'm through with Camilli," he announced yesterday. "My office has instructions not to keep the contract he returns more than five minutes. Just fire it right back." Larry also said he had made his final offer to Lavagetto, in camp here.

GOMEZ ADVISES GRISSOM TO TAKE IT EASY

ST. PETERSBURG, Fla.—Lety Gomez, who already has offered Lee Grissom his title as "pop-off" champion of the New York Yankees, is impressed with the newcomer's ability to pitch, as well as to talk. After watching Grissom burn them past the battery in mid-season style yesterday, Gomez commented: "If you're on the level with that no-previous-practice stuff, you'd better take it easier or you'll spoil a good arm."

Horning Still Has Hopes Of Opening Park

By GAYLE TALBOT

MIAMI, Fla., Feb. 23 (AP)—Jack Horning, the blind, starry-eyed young man who sank a cool million dollars of his and his mother's money into the construction of a horse race plant in a community where two tracks already flourished, still is wishing he could get the first nickel of it back.

Any sunny day Jack can leave his home on Hibiscus Isle and in a 30-minute drive reach his beautiful, bankrupt racing property. There it stands—Gulfstream Park—its great steel grandstand yawning empty, its splendid track unmarred by hoof prints, and its long lanes of stables giving no odor or horse.

So far as young Horning or anyone else knows, Gulfstream Park will remain a ghost track indefinitely. Only a little over a year ago it opened amid fanfare, before the biggest crowd to attend the opening of a track in Florida, and in game but hopeless opposition to Hialeah.

Friends of Horning had tried to dissuade him, but he hadn't listened. He had a struggle all day through the third day, on which the mutual play fell to \$8,922, and then Jack's bubble collapsed. The mutual "bankroll" was whisked away, Horning didn't have any money left to operate the plant, and since then Gulfstream has slumbered.

So long as Hialeah and Tropical Park continue to operate as prospectively as now, horsemen can see no chance for Horning's folly. At present the fine, modern plant is in bankruptcy, and it is estimated that more than \$500,000 of fresh money would be needed to straighten out the mess and put the place in operation.

Unless such a sum is forthcoming, as appears extremely unlikely, there is nothing Horning can do toward salvaging the fortune tossed into the venture by him and his mother.

Kinney Paces Rice Owls To 42-41 Win

Houstonians Cop Title In Bout With Texas

HOUSTON, Feb. 23 (AP)—Rice's towering Owls came home today with the Southwest conference basketball championship and it wouldn't be surprising if they were tacking another pennant at the top of the flagpole about this time next year.

The Owls, who found the needed spark this season in a giant of a youngster named Bob Kinney, beat Texas 42-41 in a thrill-jammed game at Austin last night to give Rice its first clear title in 22 years.

Eight thousand fans saw Rice cash in on free throws to beat a Texas team that staged a rally in the closing minutes that almost tagged the Owls.

Victory for Texas would have virtually sewed up the Longhorns' second championship in a row.

Rice last figured in the conference title race by finishing in a first place tie with Southern Methodist and Arkansas in 1935. This season was the second for Buster Brannon, a former Texas Christian university star, to coach the Owls. Last season Rice won six and lost six.

The Owls lose only Levi Craddock, a forward, from this year's squad.

They called last night's crowd the largest in conference history and it got its money's worth and more watching a sensational game in which Rice, trailing 23-22 at the half, surged ahead to build up a nine-point lead with five minutes to go.

The Longhorns got hot with the clock ticking away their doom and pitched in eleven points while Rice got but two the remainder of the way.

Bobby Moors, Texas' great guard, went out via the personal foul route, but he was high point man for the night with 16. Kinney paced the Rice offense with 15 points and also turned in a sensational defensive game.

The real margin, however, came in the free tosses, with the Owls getting 12 and Texas five.

BLOOD RUNS COLD

By Ann Demarest

(Continued from Page 4)

In where he was going and he hadn't taken the car. Was it still outside of the house?

I shook my head. "Is it... is it...?" But before I could gasp out my question Norton had slammed the outside door of the shop and was on his way back to the garage. I wanted to look out of the window for Dirk's car, but there were policemen on the sidewalk, so I went upstairs and knocked on the door of the front apartment.

I must have been pale because Adrienne Wells, when she opened the door, looked at me queerly.

"Is there anything the matter?" she asked.

I tried to explain. And then I went to the window. Dirk's yellow roadster was still in front of the house. And my mind became perfectly clear again. With his car there it seemed unlikely that he'd have gone into the garage.

Adrienne Wells offered me a cigarette and I accepted it. When she lighted the match I was shocked at the change in her. She was gray and haggard from lack of sleep — or from worry. Her purple silk pajamas were very unbecoming. I kept wondering for no reason at all why she wore such a trying color.

"Where is Mary Ann?" I asked. And the girl told me she was spending the night with the Fifty-seventh Street aunt.

"If you're lonely," I suggested, "why don't you come to my apartment? I'd be glad to have you."

She shook her head. "No, thanks. I'm not lonely, or afraid."

And I believed her. There was obviously something on her mind, but it wasn't fear.

DOG IS A HERO

ALTOONA, Pa., Feb. 25 (AP)—The barking of Sandy, wire-haired terrier, awakened the family of Howard C. King as fire broke out in a double house.

King awakened Mrs. Grace Bought and her daughter, Jean, 16, the other occupants of the house. Firemen extinguished the blaze—then had to remove a section of the kitchen floor to rescue the frightened dog from his hiding place.

Former Kaiser Wilhelm of Germany killed 4,000 dogs in hunting expeditions.

LEAVE 'EM WHERE THEY LIE

Treatment of Wounds—Leave 'Em Lie—Control Bleeding. Treat Shock. Remember that emotion, excitement and hurry increase shock. In the treatment of wounds you have been told to control bleeding by simple pressure or by the use of a tourniquet if the bleeding is severe.

Besides this you should try to prevent or limit infection from unavoidable or unwarranted contamination. Use only clean material with which to bind or dress the wound; a clean handkerchief or the inside of a newspaper is usually at hand. Tissue paper is splendid. But all cars can and should carry a package of sterile gauze and a bandage procurable for 25c which may save many, many dollars. Cheap insurance—buy some.

What about antiseptics and disinfectants?

Fine—and you have the best all ways at hand in your car—GASOLINE.

There is nothing better: It is a powerful antiseptic (germicide), cuts out the grease and dirt—disinfects the wound and surrounding skin and does NOT burn or hurt. Bath the wound with it freely and allow to evaporate and then apply the dressing DRY. Carry a can of engine or lighter fluid in your car with the gauge or tissue paper. Iodine burns, blisters and destroys tissue—gasoline does not. Gas without lead is best.

And do NOT hurry someone else to get the wound sewed up. The dirtiest wound will be ready to heal in two or three days if kept CLEAN and OPEN but if it is sewed up it will be red and inflamed in two or three days and have to be opened and then take weeks to heal.

Control bleeding—be clean—wash the wound with gasoline—dress it dry—not too tight—THREAT SHOCK—LEAVE 'EM LIE till you do these things—get smart.

Many Demo Congressmen Owe Their Jobs To FD; That Explains A Part Of Third Term Support

WASHINGTON, Feb. 25 (AP)—Two-thirds of the democrats in congress owe their jobs either to President Roosevelt or to the political upheaval which he precipitated. This has something to do with the way the third term idea has taken hold.

In addition, the president has a strong hold on state jobholders. In 1932, the democrats held 26 governorships, 13 of them in the solid south or in the so-called border states which are more often democratic than republican. After the new deal was still rising. Fifty-two more rode into office on the coat-tails of that 1932 sweep. Another 28 are first termers elected in 1936.

Not all of these can be said to be ardent third termers. Some are deeply opposed. But these figures give evidence of the way success or failure can become associated with a name.

COLBERT, PETTAWAY DRAW

HOUSTON, Feb. 25 (AP)—Billy Colbert's nimble left hand, the fencer of five years' careful grooming, paid off dividends last night.

That left, and a little more kick in the cleaning antes enabled unorthodox Billy, the Houston high school boxer to earn a split decision over Eddy Pettaway, his logical rival, after ten fine rounds.

Special Sermon Series Announced By Evangelist

A series of special sermons will be inaugurated at the service this evening, as a feature of the revival meeting in progress at the East Fourth Street Baptist church, Rev. Jesse Yarbrough, evangelist conducting the meeting, announces the following topics:

Wednesday—"Do You Know That You Have Been Saved?"

Thursday—"Christ The Rock."

Friday—"The Meaning and Message of Baptism."

Saturday—"The Signs of the Times and the Sign of Jesus' Coming."

Sunday evening—"Prepare To Meet Thy God."

Rev. Elmer Dunham, pastor of the church, reported the revival is a success. At the close of the Wednesday morning service 70 had united with the church, with four others having made professions to join later. Sunday School officers and teachers were to hold a special meeting Wednesday evening to plan to reach all possible numbers by the end of the week. Baptismal services were held Monday night when 23 were baptized. This was the second such service during the meeting, and another will be held Friday evening. It was announced.

HOW TO QUENCH FIRE

CUT BANK, Mont., Feb. 25 (AP)—The reason Glen Day's initiation of a rotary snowplow was so convincing was because Day's clothes were on fire.

They were ignited by burning gas escaping from a high pressure line he was digging out of the snow. Day plunged into a snowbank and burrowed through it for about 30 feet, quenching the blaze.

No Spectators

PHILADELPHIA, Feb. 25 (AP)—Spectators were barred from the Benjamin Franklin-Central high school basketball game here yesterday—by the fire marshal.

He explained the fans might get excited and yell, and if there was yelling the fourth floor gym might crash through to the third floor auditorium.

The gym is clad in place by 30 steel suspended girders extending from the ceiling—giving the effect of 10 extra players on the floor. Benjamin Franklin won the hidden-go-seek game 42-22.

PROBERS MAY STUDY FOREIGN PROPAGANDA

WASHINGTON, Feb. 28. (AP)—Chairman Dies (D-Tex.), announcing an inquiry into reports of communism and nazism in the motion picture industry, said today the house committee on un-American activities may investigate foreign propaganda designed to involve the United States in European wars.

Dies also announced that the committee had voted to investigate statements that communist and Nazi agents from Mexico are carrying on subversive activities in the United States.

The Mexican situation will be under supervision of Rep. Dempsey (D-N.M.), who disclosed that George Hurley, a committee investigator already had assembled information which the committee decided to study.

Dempsey said that he probably would go to the Mexican border to make a first-hand survey.

Test Calves Show Gains

Average daily gains ranging from 2.14 to 2.66 pounds were noted Wednesday as tabulations were made on the third 28-day period of feeding for 50 calves on test at the U.S. Experiment farm.

The period marked the half-way point for the test, which this year has a new objective—the determination of values of minerals in the ration.

Lot No. 1, fed a low limestone quantity, showed an average 60 pound or 2.14 per day gain. The second lot, high limestone, had 69 pounds or 2.56 daily average. Lot No. 3, given high phosphorus content in the ration, showed 68 pounds or a 2.43 daily average. The first three lots were all fed a 50 per cent ration to insure complete consumption of minerals.

In the fourth lot, which is on full feed and given cod liver oil for vitamin A, the gain spurted to 74.4 or 2.66 daily average. Lot No. 5, fed a similar ration but brought along slowly on cottonseed meal, showed 68 pounds or 2.43 daily average. The sixth lot, on full feed and given a rapid increase in meal at the start, showed slightly in gaining 60 pounds around, a daily average of 2.14 pounds.

Out of the test, among other things, it is hoped that the effect of balancing calcium and phosphorus elements in the ration may be demonstrated. This, however, will call for a post-mortem examination of all carcasses.

INDIGNANT—Irked by Britain's policy of searching American ships for contraband and her interference with U. S. mail, Rep. Melvin J. Maas (above), Minnesota Republican, has urged that overseas mail be transported in warships.

UNION ORGANIZER TELLS OF ATTACK

DALLAS, Feb. 28 (AP)—Baron De Loula, an organizer for the International Union of Automobile Workers of America, told an NLRB board hearing today how he and a companion were assaulted in a drug store near the Ford plant here in 1937.

De Loula testified he and Leonard Guempelein came to Dallas upon orders of Homer Martin, president of the union which then was affiliated with the CIO, to find out if it were possible to organize employees of the Ford plant. He was the board's second witness at a hearing on charges of alleged unfair labor practices at the Ford plant here.

DEATH SENTENCE UPHeld BY COURT

AUSTIN, Feb. 28 (AP)—The court of criminal appeals today affirmed a death sentence assessed J. C. Lomax, Montgomery county negro, for conviction of rape.

The high tribunal said evidence was sufficient to support the conviction and the trial was free of error. The appellant had raised the question of race discrimination and jury misconduct.

Opera Ballet May Return To B'Spring

Probability that the Lions club will sponsor the appearance of the San Francisco Opera Ballet company here in November was seen in preliminary approval of such plans by the club membership Wednesday.

The ballet scored heavily with those who witnessed its first appearance here in January.

Under the direction of Otis Grafa, "new" members of the club made brief addresses at the regular Wednesday session, Larson Lloyd discussing liberty and loyalty, H. M. Rowe, intelligence and integrity, and J. H. Brown the idea of insuring the nation's safety through intelligent service. John Ratliff said that to him such an organization as the Lions offered the best medium for concerted community service.

Ray Ogden announced that all members of the club interested in organization of a civic club bowling league were to report at the bowling alley at 6 p. m. Thursday. Other clubs, he said, have expressed an interest in such a loop. Melvin J. Wise, Church of Christ minister, was a guest for the day. An added attraction was the presentation of an unusual birthday gift to Dan Hudson, club taltwister.

MARKETS
Wall Street

NEW YORK, Feb. 28 (AP)—Stocks advanced along a narrow front today and held their ground tenaciously despite scattered selling forays.

Prices were below their best toward the close, but the day's average appeared to have erased most of the previous session's losses. Transfers were about 550,000 shares.

Chief gainers were the aircrafts, whose early morning rise was supported through the rest of the day by steels, motors and chemicals.

Reports of enlarged manufacturing plans in the aviation industry to handle the present backlog of airplane and engine orders as well as constantly increasing new orders were the inspiration for the aircraft's leadership.

The Vienna-born Miss Jessner is a niece of Novelist Jacob Wasserman, usually summers in Hollywood.

DEWEY-VANDEBERG TEST IN NEBRASKA

LINCOLN, Neb. Feb. 28 (AP)—A test of strength between Republican Presidential Candidate Thomas E. Dewey of New York and Senator Arthur H. Vandenberg of Michigan was assured today in Nebraska.

Lee Rankin, Lincoln attorney, filed petitions putting Dewey's name on the April 9 primary presidential preference ballot.

Vandenberg supporters filed petitions immediately for their candidate.

BENEFIT PLAY ADDS FUNDS FOR USE OF SCHOOL DEBATERS

High school faculty members, turned thespian for sake of the debate teams, scored another theatrical triumph Tuesday evening in the high school auditorium when some 250 persons turned out to see the pedagogues present their version of a Friday afternoon in a country school.

The production was estimated to have grossed around \$25, which will be added to the more than \$50 raised by the faculty with the original skit last week before school children. Funds will be used to send debate team members, coached by Eloise Haley, to the district meet in Sweetwater.

Mr. and Mrs. J. H. Leatherwood, enroute to their home near Las Vegas, N. M., visited here Tuesday with relatives.

ATTACK REPULSED

BERLIN, Feb. 28 (AP)—The German high command reported today a strong infantry assault supported by artillery was repulsed by German forces east of the Moselle river last night.

PAVING OPERATIONS MOVED TO 5TH ST.

With base material being hauled in on the two and a half-block section of Wood street in Highland Park and the one-block segment in Orleans street, city paving crews are transferring equipment to a four-block stretch on Fifth street west from Main.

When this portion of the street is complete, operations will be started on four blocks on Ayford south from Fourth street, and then one a five-block section on Douglas south from Fourth.

There is a possibility that the surfacing of W. 4th street from Gregg to Douglas may then be the next part of the city's paving program provided the sign-up of property owners progresses satisfactorily by that time.

BACK FROM SANTONE

Miss Stella Bates and Mrs. Florence McNew of the Malone & Hogan Clinic-Hospital staff returned Tuesday evening from San Antonio, where they attended sessions of the Texas State Hospital association. They were accompanied by Mrs. R. L. Price, who visited friends there during the convention. The party returned by way of Fort Worth and Denton, and at the latter place they visited Mrs. McNew's daughter, who is a student at TSCW.

FORGERY CHARGE

Lawrence Bartek, alias Clarence Bartek, was charged with the offense of forgery here Wednesday.

Bartek is scheduled to go on trial for a similar offense in Midland Thursday and will be returned here by officers after that time. The complaint was signed by Constable Carl Mercer.
