THE COUNTY SEAT NEWSPAPER

County-Wide Drive by U. S. O. Starts

United Service Organizations to Seek Quota of \$850.00 to Aid Defense Program

As county chairman of a campaign by the United Service Organizations for National Defense, Inc., Flake George, Shamrock postmaster, was here Friday to form a unit of the county solicitation group.

The following were named on the local committee: Dick Craig, chairman; Fred Ashley, secretary; Bob Holt, treasurer; Chester Lewis, C. G. Miller, Harry Wofford, Jake Tarter.

This committee is expected to devise ways and means of raising Wheeler's share of this county's \$850.00 quota. While nothing definite is ready to announce, preliminary steps have been taken to arrange entertainment programs of interest to the greatest possible number, with popular admission charges.

At the present time it is the intention of leaders in this drive to first try the program plan before direct, personal solicitation for funds is made. Not that contributions will be refused, by any means; donations will be received by any member of the committee at any time. It is believed, however, that greater interest will be aroused through offering the general public an opportunity to participate in this worthy cause by sharing in entertainments and other programs.

The U. S. O. is a co-operative enterprise involving the Y. M. C. A., National Catholic Community Service, Salvation Army, Y. W. C. A., Jewish Welfare Board and National Travelers Aid association. This corporation, with these welfare groups guiding and directing its program, will provide the personnel in charge of the home-atmosphere soldier and sailor centers which will be located in nearby towns outside the camps.

The coordinated effort embodied in the U. S. O. is expected to solve a difficulty experienced in raising funds for the benefit of service men and workers in the first World War. At that time all the listed organizations worked separately toward the same end, and experience with competition, overlapping of work and some of the ensuing mistakes induced social work leaders to organize the present method to make a united drive to help soldier morale by providing proper surroundings for his out-of-camp hours.

This nation-wide set-up will save both in collecting and distributing funds. It means that one should patronize its entertainments or contribute as liberally as possible and help maintain the corporation. It means that no other appeal through any of the recognized welfare agencies will be made to the public.

Every dollar collected, except for the bare minimum necessary for operating expenses, will go to provide entertainment and better surroundings for service men. The government will furnish buildings and certain equipment and the U. S. O. is to provide supervision of activities and certain specified performance to the men in the armed service.

During the other war literally thousands of paid solicitors swarmed over the country and the percentage of money reaching the soldier and sailor was much smaller than is anticipated under the U. S. O. plan. This time there will be no paid workers and any expense incurred by a county chairman will be on his own responsibility. Therefore, close to 100 per cent of every dollar raised for the benefit of soldiers and sailors and affiliated members of armed forces will be spent direct.

O. L. Slaten Passes Away On Wednesday

Oliver Lester Slaten, 60, died at his home here early Wednesday morning, June 11, from heart trouble following an illness of some two years. He had been a resident of Wheeler county 21 years and of Wheeler since November, 1940.

Slaten was born August 15, 1881, at Mesquite, Texas, and died June 11, 1941, at Wheeler, Texas. He was married April 12, 1913, at Throckmorton.

Surviving relatives who mourn his passing are his wife, Mrs. Nannie Slaten; two daughters, Mrs. F. A. Murray, Briscoe, and Mrs. Willard Ingram, Wheeler; two sisters, Miss Annie Slaten, Fort Worth, and Mrs. Cora Newman, Davis, Okla., also four grandchildren.

Funeral services were conducted at the First Baptist church of Shamrock this afternoon, with Rev. Watt Lummas officiating. Mrs. Dennis Reynolds was in charge of the song service.

Interment was made in the Shamrock cemetery.

Baptist Revival Here Making Fine Progress

According to leaders of that congregation, the revival which started at the Baptist church last Sunday is making fine progress. Taft Holloway of Sanderson is doing the preaching and George Stokes, educational director of the First Baptist church of Plainview, is in charge of the singing.

Good attendance at the revival services are expected throughout the week, with a goal of 200 in Sunday school next Sunday morning, June 15.

Morning services are at 10 o'clock, evening services and prayer meeting at 8:30 followed by song service at 8:30 p. m.

Hours of Sunday worship are: school, 9:45 a. m.; preaching, 11 a. m.; prayer meeting, 8:10 p. m., and song service at 8:30.

Local Variety Store Has New Ownership

Clara Finsterwald and Associates Buy Harrell's 5c to \$1.00— to Continue Operation

Announcement was made this week of the purchase, by Miss Clara Finsterwald and associates, of Harrell's 5c to \$1.00 store stock of merchandise and assumption of the concern's management, which will be continued at its location in the Austin building on the west side of the square.

Miss Finsterwald, proprietor of the R. & F. store a few doors north of the new purchase, will supervise its operation assisted by a sales staff. Mrs. Martha Aldridge, manager of the store while under the Harrell name, has severed connection with the business and leaves this week on a vacation, after which she will return to Wheeler pending other arrangements.

Charley Harrell, former owner, disposed of his interest in preparation for a year's training in an army camp. He was called for service several weeks ago but obtained a six months furlough in which to close up his business affairs before reporting for duty.

The variety store has enjoyed a good business and under its new management should attain even a larger volume of patronage.

CARLTON-MORGAN NUPTIALS ON MAY 4 JUST ANNOUNCED

Mr. and Mrs. W. A. Carlton announce the recent marriage of their daughter, Miss Helen Ruth, to Mr. James A. Morgan, which took place at Sayre, Okla., on Sunday, May 4, 1941, at the Baptist church with the pastor, Rev. John Daniels, officiating.

Mrs. Morgan has many friends in Wheeler where she has lived for a number of years and attended high school.

Mr. Morgan is the son of Mr. and Mrs. S. T. Morgan, who live north of town, where he has spent most of his life. He graduated from the Wheeler high school in 1933, since which time he has been working on his father's ranch. During his school years he took an active part in 4-H club work and was a grand prize 4-H club winner and also won other honors in the state.

Mr. and Mrs. Morgan are making their home with his parents for the present.

Financial Report for Wheeler Is Published

Citizens of Wheeler interested in financial affairs of their town—and every taxpayer should be—will find an itemized financial report of the general fund of the city on Page 7 of this issue. The period from Sept. 1, 1939, to March 31, 1941, is covered by this report.

C. R. Weatherly, public accountant who compiled the figures, prefaces the report with this comment: "In the course of this audit I found everything in good order. The records have been kept in an excellent manner and all records are well preserved. I found no discrepancies whatsoever and all funds accounted for. I especially wish to thank C. J. Meek for his splendid co-operation during the course of this audit. I also found that T. L. Gunter, tax collector, has done a splendid job of handling tax collections. All tax reports were found to be correct and to properly conform to the tax receipts issued for the period."

One feature of special interest to those having business with the city clerk's office is announcement of a new schedule of hours. Hereafter the office will be open for business from 9 a. m. to 3 p. m., each weekday. Miss Reba Wofford is the city clerk and her office is with the Wheeler Abstract Co. at the rear of the Citizens State Bank building.

Wheeler Asks Place In Defense Program

To Lead Drive for Designation of Highway 41 as Supplemental Military Highway

Prompted by a sincere desire to assist in the National Defense program which merits an "all-out" effort by every city, town and hamlet as well as rural areas of this nation in preparation for democracy's preservation, preliminary action was taken this week by Wheeler to lead the drive for a highly important defense movement in this region.

Encouraged by the report of an appropriation of 250 million dollars for supplemental military highways, Mayor R. H. Forrester appeared before a representative group of business people on Wednesday to ask approval of expenditure of city funds, if and when authorized by the city council, to conduct a campaign in towns along Highway 41 requesting designation of that road as a supplemental route to Highway 66 from Oklahoma City to Amarillo as a starter. Extension of the request to so designate No. 41 from Oklahoma City to Denver, Colo., is being considered. Possibilities of its continuation to the Pacific northwest are also being studied.

Benefits redounding to Wheeler from such designation are of local interest, naturally, but of far greater consequence is its contribution to the defense program. Through improvement of this road, and in the event of heavy military travel over No. 66, an invaluable service would result to both civil and military traffic.

Now heavily burdened with usual peace-time traffic whose congestion can be blamed to some extent for the numerous accidents occurring on that road, it is easy to visualize what would happen if large convoys of troops and war material trucks should suddenly be thrust upon Highway 66.

From the transportation standpoint, well-informed observers declare this proposition one of great merit. It would afford a badly-needed route across the Panhandle with its gasoline fuels and oils so essential to motivation of war equipment by land, air and water.

Highway 66 is recognized as one of the principal east-west traffic arteries from coast to coast, and what it has carried in peace time travel is only a drop in the bucket to what would develop in case of warfare. Men, munitions and supplies must be transported across the country on short notice. No amount of work that could be accomplished in time would make Highway 66 adequate for the demands to be met. Thus, from both safety and service standpoints, the immediate designation of No. 41 as far as is practicable, is to be devoutly hoped for.

Deft-Fingered Couple Filch Old Man's Cash

One of the most despicable crimes heard of in Wheeler for a long time—if ever—occurred Tuesday afternoon when a pair of deft-fingered crooks picked the pocket of J. W. Williams, aged Wheeler man in very modest circumstances, of \$18 in cash.

According to the story told by Williams, a rather flashy car containing a man and woman, drove up alongside the garden where he was putting around. Calling him to the car, they asked if a man by the name of Jones lived there. When informed in the negative, the stranger told Williams the woman had a message for him and to come around on her side of the car, which he did.

She told the aged victim he didn't look well and probably had heart trouble, but that she could help him and offered to tell his fortune. Taking hold of his hands, she mumbled some words unintelligible to him and concluded by saying he should feel "relieved," finishing with a blessing pronounced upon him.

The pair then departed rather suddenly, Williams said.

The incident made quite an impression on his mind and some "relief" which changed to something else when he found that evening that his purse had been removed from his pocket, the money taken out, and the purse returned. He had really been "relieved"—of \$18 saved from his meagre pension money. Failure to miss his cash until long after they had departed made it practically impossible for officers to trace the crooks. The sheriff's force is on the lookout for any suspicious couple, which might be the pair who picked the Wheeler man's pocket.

Williams declared the couple appeared of Gypsy or Spanish extraction.

Richard Brown has been ill this week but was much improved today.

Local Postoffice May Stay at Present Site

Letter from Washington Indicates Rife Building, with Repairs, as Favored Location

Following consideration of leasing quarters for the accommodation of the Wheeler post office, either its present site or some other location, the department at Washington has written Postmaster C. L. Lewis a letter which appears to favor the Rife building, present location, for another term of years.

An extract from the communication, received late last week, reads: "The proposal recommended is that of the Rife Construction company, covering the present quarters. Proponent agrees to make any repairs or improvements necessary to place the building in a satisfactory condition, including a new floor in the lobby, repairs to floor and workroom, as well as repairs to roof, walls, doors, etc. It is further agreed that proponent will install a vestibule at the front door and awning over the front entrance, to weatherstrip the windows and repaint interior and exterior woodwork. Any necessary repairs to the equipment and a few additional equipment items will be furnished."

"It will be appreciated if you will advise whether there is any reason why satisfactory service cannot continue to be rendered in the present quarters with the improvements proposed. If so, any such reasons should be set forth in detail," concludes the letter.

Boy Scouts Spending Week at Lake Marvin

Mr. and Mrs. F. B. Craig, Lee Guthrie and Don Anglin went to Lake Marvin Sunday to take the Boy Scouts to Camp Ki-O-Wah.

The 11 Scouts spending the week at the camp are Donald Hunt, F. B. and Lewis Craig, Don Farmer, Chas. B. Sandifer, Bill Wiley, Jean Hall, Marion Lee Guthrie, Junior Ahler, Chester Stewart Anglin and Elmer Tolliver.

Lee Guthrie, Max Wiley, W. C. Zirkle and Judge D. A. Hunt have been with the boys during most of the week.

METHODIST VACATION BIBLE SCHOOL OFF TO GOOD START

The Methodist Vacation Bible school got off to a good start Monday morning of this week with a fair enrollment. The schedule previously planned by officers and teachers of the school was followed, beginning with the first period.

The morning is divided into five periods of 30 minutes each, comprising handwork, text, devotional, music and play.

Departments, directors and teachers are as follows: Beginners, studying "Beginners in God's World"—Mrs. Vernie Hardcastle and Mrs. W. C. Zirkle in charge.

Primaries, studying "Children of One Father"—Mrs. Tobe Giles and Mrs. Buford Conwell in charge.

Juniors and Intermediates, studying "The Effects of Alcohol"—W. C. Zirkle and Mrs. C. J. Meek, teachers.

Departmental directors are: Music, Mrs. C. J. Meek and Melba Wiley; devotional, Rev. Wayne Cook and Mrs. J. M. Porter; playground, W. C. Zirkle and Melba Wiley; handwork, W. C. Zirkle and Mrs. H. M. Wiley; pianists, Mrs. J. L. Gilmore and Mrs. John Gilliam.

Proclamation

WHEREAS, the Government of the United States, through the Secretary of the Treasury, has caused to be issued Defense Bonds for public subscription, and these bonds are now being sold throughout the Nation; and

WHEREAS, the people of this City have always been patriotic and supported in every way the Government of the United States; and

WHEREAS, Saturday, June 14, 1941, is National Flag Day when we as a free people pause to consider and to prepare against the menace to our national security; and

WHEREAS, the President of the United States has declared an Unlimited National Emergency, and it behooves the people of this City to investigate and consider the purchase of Defense Bonds in order that the security of our Nation may be maintained; and

WHEREAS, the bonds so issued give a fair return on the savings; and

WHEREAS, at this time attention of the people is directed to the needs of our Government for financial support, and our citizens are urged to buy a share in America by purchasing these Defense Bonds;

NOW, THEREFORE, I, R. H. FORRESTER, Mayor of the City of Wheeler, Texas, do proclaim Saturday, June 14, 1941, Flag Day, and with equal significance, also proclaim that same day National Defense Bond Day.

Done at the office of the Mayor, this the 12th day of June, 1941.

R. H. FORRESTER,
Mayor of Wheeler.

(SEAL)

Wheeler Boy Receives Diploma In Air Corps

"Keep the planes in the air" was the message given to Pvt. Grady W. Anglin, son of Mr. and Mrs. J. T. Anglin of Wheeler, and the 212 members of the class of radio students just graduated from the U. S. Army Air Corps radio school at Scott Field, Ill., according to an announcement by Col. Wolcott P. Hayes, commandant.

The message was given by Capt. A. T. Wilson of the radio school when he spoke before the class, second largest ever graduated from the school.

To get his diploma, Pvt. Anglin completed a 22-week course in radio operation which has prepared him for radio duty anywhere in the air corps. Approximately 6,000 students are now attending the center of air corps communications at Scott Field, receiving their training in order to take their places as the "ears and voice of the air corps."

Lamb Feeding Is New County Club Project

First Time in History of County for Project—Ten 4-H Club Boys Co-operating

Lamb feeding, for the first time in its history, is Wheeler county's newest project now being conducted by 4-H club boys, reports Charles Griffin, assistant county agent. At this time 48 lambs are being fed by 10 different club members. Many adults are watching these demonstrations in hopes of finding another profitable enterprise for Wheeler county, declares Griffin.

The lambs will be fed about 60 or 70 days and then shipped to market at Oklahoma City. They will be fattened on a strictly commercial basis and most of the feed will be home grown. Records are to be kept on each lot of lambs and net profits or losses made public.

The public is invited to visit these demonstrations and observe the progress being made.

The following boys are co-operating in this new project:

Alvin Hefley and Bobby Zybach, Briscoe; H. B. Krug, Texola, Okla.; Giles Phillips, Shamrock; Edgar Close, Bradford Bullard and Lesley Johnson, Lela; Cary A. Dysart, Jr., Mobeetie, and Jake King, Magic City.

PAMPA BOOSTERS SCURRY HOMEWARD IN RAINSTORM

The caravan of Pampa Fiesta boosters arrived here on schedule Friday afternoon, as published in last week's Times. However, they scarcely halted because of heavy storm clouds approaching from the northwest and rain pelting down at the time, or shortly after, the group reached Wheeler. After circling the square a time or two with horns blaring, the boosters scurried homeward, thus showing good judgment.

WOFFORD RELATIVES MEET FIRST TIME IN 28 YEARS

Mrs. Fannie Wofford returned last week from Tulsa, Okla., where she attended a family reunion at the home of her sister, Mrs. Ruth Jett, when their brother, W. S. Bishop, Spodra, Ark., and sister, Mrs. O. B. Wofford, Atlanta, Ga., were all together for the first time in 28 years. Mr. and Mrs. O. B. Wofford took Mrs. Wofford to Tulsa after spending three days in Wheeler with her and other relatives.

Places Chosen for July Registration

Arrangements Made for Listing New Class Selective Service Men on Tuesday, July 1

Confirmation has been received by the Wheeler county board at its office in the court house here of a presidential decree ordering another registration of men under the Selective Service system. The date is Tuesday, July 1, and those who will have reached the age of 21 by that time since Oct. 16, 1940, are to be listed.

Because of the small number of registrants expected, only nine centrally located places in the county have been chosen. These, it is believed, will be much less cumbersome than all voting places as used last year, and will sufficiently convenient to serve all who are required to register.

Places announced by the board Tuesday are: Wheeler, board office; Shamrock, city hall; Mobeetie, Briscoe, Allison, Kelton, Kellerville, Lela and Magic City. Volunteer workers, serving without pay, will be on duty to list the selectees. Names of these are not yet available for publication.

Of the estimated national total of a million young men, Wheeler county is expected to supply between 100 and 125.

The forthcoming registration was predicted in the news columns of this paper two weeks ago. It was stated the president said the action was required in the interests of national defense and defined those who must register as all unregistered male citizens or aliens in the United States, Hawaii, Puerto Rico and Alaska who will have attained their 21st birthday on or before July 1.

Some of those who have become 21 since the first group of 16,500,000 men were signed up last October already have registered and volunteered for a year's training. A provision of the draft law permits voluntary service by men 18 to 21 years old.

The July 1 date was selected, say reports, in order that men registering then will have time to ascertain before fall whether or not they may expect to be called for duty, which would permit planning ahead for fall and winter work or educational pursuits.

Many Physically Disqualified

Regarding selectees appearing for examination and induction, Gen. J. Watt Page, state selective service director, declared late last week that the number of rejections for physical reasons in Texas constitute a challenge to public and private health agencies and also to the public at large.

Referring to a statement by Deputy Director Lewis B. Hershey that the general physical condition of the country's youth, as revealed by selective service tests, is something of which "we nationally should be thoroughly ashamed," Page pointed out that the national condition is reflected to a certain extent in every state, and emphasized the need for vigorous action by all citizens to improve the general health.

(Continued on Last Page)

Storm and Flood Play Havoc In Many Places

During the past week Texas has suffered its share of property loss and several deaths from windstorm and floods.

At an early hour Monday morning a twister, said to have originated in New Mexico, entered this state and traveled a northeasterly course toward Woodward, Okla., where it apparently broke up.

At Kress, a few miles south of Tulsa, E. P. Singleton, 70, was instantly killed when the storm swept his home away. Mrs. Singleton and a son were injured. At Clarendon the storm injured several persons as it tore through the northeast part of town, smashing buildings and leaving estimated property damage of \$500,000.

No appreciable damage from wind has been reported in Wheeler county, but a 10-foot section of roadway and approach at the west end of the Sweetwater bridge just west of Mobeetie, was carried away by high water. A railroad bridge near Miami was also wrecked by flood waters.

Downpours of near cloudburst proportions at several places in the county caused considerable loss and damage to farm lands. One of these occurred just southeast of Mobeetie and another in the Briscoe community.

Apparently the long series of rain has come to an end and farmers are planting crops, especially cotton, with all possible speed.

THURSDAY, JUNE 12, 1941

NO TIME TO CHANGE

Modern war has two distinct phases. One is military. The other is economic. And the deciding weapon in either case will be the belligerent powers' natural resources. It takes coal to keep factory furnaces glowing. It takes oil to provide motive power for planes and armored equipment and fighting ships. It takes metal of all kinds in an incredible quantity to build the weapons and the machines which produce the weapons. It takes abundant electric power to keep industries producing on a wartime basis.

And the extent of a nation's natural resources determines its position as a trading power—and so determines to a very large extent what its diplomatic influence shall be.

The United States is singularly blessed by nature with the principal natural resources—metals, petroleum, coal, water-power. Second, and equally important, under the private enterprise system we have developed these natural resources to an extent unrivaled anywhere else on earth.

The American tradition of private initiative has borne magnificent fruits for all the people. And it is this tradition which must be maintained if this country is to achieve its full strength both as an arsenal of democracy, and as a free nation where every man may succeed and prosper and serve to the very limit of his abilities, ambitions and energies.

There are those who would now use "national defense" as an excuse to have the government develop our natural resources—who would, in a word, socialize them. We have examples to indicate what would follow if that happened. Russia is rich in natural resources. Yet the Russian standard of living, after more than 20 years of socialism, remains at rock-bottom, and Russian production is notoriously low, wasteful and inefficient. Is this the kind of political philosophy the American people wish to follow?

The industries which turn our natural resources to productive use will co-operate to the limit with government now and in the future. They will show the world that a free America, working under a free enterprise system, is stronger than dictatorship, and that free men will out-produce slaves.

This is no time to change a system which has met and conquered every menace of the past, and which today is gathering all of its vast resources to meet the menace of the present.

LABOR'S RULE OR RUIN

Certain labor leaders in the United States today set themselves and their demands above the welfare and safety of the nation. To enforce their demands, whatever they happen to be, they do not hesitate to imperil the lives, not only of the workers themselves, but of every man, woman and child in our country.

Standing behind the cloak of free-

HEY! TAKE YOUR HAND OFF!

dom which they enjoy in this land, they are deliberately pursuing a course which may well destroy that freedom, and destroy with it the labor movement they prostitute for financial gain and power. They dictate to government as well as to industry and the worker. There is only one force that can control them—public opinion, which eventually controls government.

The welfare of the public is today threatened on all sides by rule or ruin labor leadership.

First, our national defense is at stake. Second, the nation's supply of coal is depleted to the danger point by strikes and threatened strikes.

Third, farm production is discouraged through increased costs the farmer cannot meet.

Fourth, the railroad workers now go the defense workers and the coal miners one better and demand a 30 per cent increase in basic wages which, if granted, would so boost living costs that the vicious circle of strikes would start all over again.

The development of little dictatorships was practiced in foreign lands until helpless people accepted a total political dictatorship which finally destroyed personal liberty and labor liberty as well.

Labor must realize that when the safety of the nation is in jeopardy, anything can happen. If the people are driven too far, they will be forced to demand a government dictatorship that will end labor dictatorship. And if that happens, the eventual result will be the destruction of the kind of freedom we have all enjoyed.

TEXAS' NEW SENATOR

A curious paragraph in American history was written last Monday when Andrew Jackson Houston was sworn in as senator from Texas.

He is the son of a man who 80-odd years ago left the senate to become governor of Texas. The father was born when George Washington, his father's friend, was president. The induction of Andrew Jackson Houston as a senator is thus a link in a chain whose first link was forged in the earliest days of the American republic.

The new senator will not have the opportunity, even if he possessed the ability, to become a noteworthy figure in Washington. Within about a month he must step aside in favor of the man whom Texans will elect June 28. His age and the manner of his appointment detract from an incident which, while curious, is of slight significance except in the sentimental sense.

His father was a giant in the days when giants were not few. As a union Democrat who believed that preservation of the union was of greater importance than the slavery question, he strove valiantly but in vain against the forces of disruption, Northern and Southern. He continued that effort when he became governor and again he strove in vain.

Thus there is a tie-up between the accession of Andrew Jackson Houston to the post his father held and one of the great tragedies of history. If there were ghosts who looked on as he took the oath, among them were some who saluted the new senator for the name he bears.

TAXATION PROBLEMS

The problem of taxation today has three sides to it. First, our tax rates must be adequate to produce necessary revenue. Second, the burden must be distributed so as to fall equitably on all classes of taxpayers. Third, we must not unnecessarily imperil our standard of living and our productive capacity by excessively burdening either industry or the individual.

One criticism of the new tax bill is that it places far too great a burden on the middle-income groups—those who earn from \$5,000 to \$15,000 a year. The bill would force these groups to pay for a percentage of government expenditures which is

out of all proportion to their size or financial capacity. And, as now proposed, it would not place anything like a commensurate tax load on taxpayers in the lower income groups.

The proposed bill has also been severely criticized for the staggering taxes it would levy against industry. What this country needs is production—and still more production. Any tax bill which takes too high a percentage of the earnings industry must use for expansion and to attract new investment, will have a deleterious effect on production.

Criticism is increasing because of the refusal of lawmakers and government bureaus to make cuts in non-defense expenditures which would reduce new tax demands. There must be "sacrifices" by taxpayers as well as taxpayers.

The critics of the new tax measure include government experts as well as private citizens. They should be listened to—and congress should take all the time needed to frame a tax law that is in accord with the emergency of the time.

THE WORLD GRADUATES FACE

Current high school graduates receive their diplomas at a time when world conditions are very similar to those existing in the world as viewed by the high school graduates of 25 years ago. The freedom of the seas issue was as critical then as now, the difference as far as this country was concerned resting on the fact that President Roosevelt had been elected to another term, whereas President Wilson was then in the midst of a campaign for re-election.

President Wilson knew full well that war was tragically near, but was reluctant to believe that Germany would provoke our entry. The campaign slogan, he kept us out of war, (even if sincere) was upset by events which followed shortly after he was inaugurated for the second term.

Following that war, we went through convulsive periods of effort at eliminating the causes of war, going so far as to disavow the policy of freedom of the seas so far as they applied to war zones.

But there was a kickback at this disavowal, as tragic as that of the other efforts at preserving peace. We came to see that our very security if not our existence was threatened by results of those efforts. A part of the world took advantage of our relaxation of defense preparations as well as policies, until we are back where we were in 1916.

The 1941 high school graduate is younger than the senior of 1916, but a long war would draw the boys in by the draft route as were the boys of the previous generation.

It should be mentioned again that the second world war is not as remote as the first. The dramatic taxicab movement of troops when Paris was threatened in the first world war, when motorized equipment changed ground tactics, is matched by the still more dramatic parachute troop and glider invasions of this world war, which has given full development to the airplane, introduced in the first world war but changing the strategy of this one.

Mechanized warfare brings the threat of this war closer to us by the very possibilities of its blitzkrieg character and of its admission of dominance by early preparation.

The youth of today is encouraged to continue his education, even as in 1916, but the opportunities for employment are equally as enticing. No one can predict the turn of events, since it is not ours to call them. But the commencement addresses of today have a concern for the blight of war which bears more directly on the lives of the youth than on those of their elders.—Sherman Democrat.

Airman (after landing in a tree): "I was trying to make a new record." Farmer: "You did. You're the first man to climb down that tree before climbing up it."

Pertinent Paragraphs from Panhandle Press

Items of interest culled from newspapers on The Times' exchange list.

The American Medical Association and three doctors were fined several thousand dollars last week for interfering with "socialized" medicine. We printers have been harassed by "socialized" government printing for most a half century and don't like it, either. But we don't want to be fined.—Donley County Leader.

Pete Loran of Munday, president of the Texas State Farmers Union, was in Paducah last Saturday to contact Cottle county farmers and urge them to use cotton bagging as a covering for cotton bales. "This use of cotton will be an effective way to reduce the surplus," Loran said. "Cotton bagging makes a cleaner, better looking bale, ships more economically and bales under the loan are not penalized if wrapped this way, just to mention a few of the reasons for using this type of bale covering," he added.—Paducah Post.

Modern business would be paralyzed without advertising. Firms that use the home paper not only help themselves, but contribute to others' success. Anything that is done to attract trade to the home town is bound to help the whole community. Better things for the community are secured only as the town grows. Co-operation is a much overworked word, but it is the only word yet invented that carries the full measure of community success.—White Deer Review.

John Palmore, county agent, said today that the report which has been circulating, that wheat which has been treated with poison to destroy army worms will not be bought by grain-dealers, is false. He added that farmers should ignore any rumors in regard to this matter, and continue "doctoring" their wheat in order to get rid of as many of the pests as possible.—Tulia Herald.

Roberts county should be claiming some sort of record according to the county agent, due to the fact that out of 106 votes none were against the wheat marketing quota. The 106 votes represented about 85% of the local wheat raisers of Roberts county too. Quite a few non-resident wheat growers of the county didn't get their vote in, but we are proud of the large number of votes polled in relation to the population of the county.—Miami Chief.

Haven't been able to get up much steam over this Texas race for a senator to succeed the late Morris Sheppard. Thought for a while that we would just stick in our vote for O'Daniel in order to get him out of Texas at least for a part of the time. But have decided that that would be a pretty low down thing to do. If you had a half-witted child, you wouldn't push him out in front of everybody where he could show off. No, you'd keep him out of sight as much as possible. So we're not going to cast our ballot to show off W. Lee any more than the present spectacle.—Ochiltree County Herald.

Black worms that destroy the army worms that are eating wheat fields in Collingsworth county made their appearance last week, and along with a tiny, wasp-like fly, are aiding wheat growers in ridding themselves of one of the most serious grain pests here in recent years. But even as the army worm appeared fairly well under control, another crop pest appeared—grasshoppers. And all efforts of the county agent's office, and many farmers throughout the county are bent toward hopper control.—Wellington Leader.

Hemphill county is to have an oil test underway within the next few days, it was announced here this week. The Indian Territory Illuminating company will spend in on the R. B. and T. D. Wiggins land, one mile north of the town of Mendota. Kerr-Lynn Drilling company of Oklahoma City, is to do the drilling. Mr. Grover, representing the drilling company, was in Canadian the first of the week making preparations for the job.—Canadian Record.

Perhaps the first special term of the 84th district court ever called for trial of a criminal case, was called May 19 and recessed until June 10, when the date for trial of Orrin J. Brown, suspected murderer of Leota Frances Murphy was set. Judge Jack Allen set the trial date on the opening day of the special term of court, and a special venire of 125 men has been summoned to report to the court house at 10 a. m. Tuesday morning, June 10.—Spearman Reporter.

They staged a new kind of rodeo in Palo Duro canyon last Sunday morning—a dear rodeo. Frank Miller caught his dear and as they say in cow-poke parlance, "wrapped her up" in record time. At a sunrise service held at 6 o'clock in Coronado Lodge Miss Vivian Burleson, daughter of Mrs. J. E. Burleson of Silverton, became the bride of Frank Miller of Quitaque, concessionaire at Palo Duro

LET'S SEND ANOTHER GOOD

MANN

TO WASHINGTON!

Hear Gerald C. Mann at Shamrock June 18

On June 28 it becomes our duty to choose a United States Senator. No democracy can function successfully if the electorate fails to do its duty as voters. We should learn all we can about the men who offer for this important office.

It is generally conceded that we have only four candidates really placing in this race: our present governor, two congressmen and our attorney general.

Our governor can serve us to best advantage in his present position, we need him to finish the program he has started; the governor's office is more important than that of senator.

If the two congressmen candidates are half as good as they say they are—and they are already at Washington with the same opportunity for service in the lower house as in the upper house—their only apparent advantage in the senate is that they would only have to run for reelection every six years instead of every two years. If they are half as good as their friends say they are, their districts will continue to return them to Washington from biennium to biennium and we will not lose their valuable services.

Let's Send Another Good MANN to Washington!

(This advertisement paid for by Wheeler friends of Gerald C. Mann for Senator)

Mr. and Mrs. Sid Morgan have a new Chevrolet car this week.

Joe Meek of Borger spent the week end in Wheeler with relatives and friends.

Mrs. Jack Badley and daughter, Delaine, of Levelland were house guests of Mr. and Mrs. Loyd Lee and other friends over the week end.

Mrs. Clarence Robison and son, Guy, came Friday from Morton to visit relatives and friends and attend to business, returning Saturday.

Mr. and Mrs. R. H. Cailloutte, Elk City, Okla., and Mr. and Mrs. D. H. Porter were Sunday dinner guests of Mr. and Mrs. C. G. Miller and son, Bill.

E. J. Cooper of Texola, Okla., was in Wheeler Monday, making plans for the singing convention that will be held at Dodson on June 22. Bobby Cooper accompanied his father.

Mr. and Mrs. Terrell Gunter motored Sunday to Sanatorium to take Shelby Murphy to the tuberculosis institution for treatment. Mr. and Mrs. Gunter returned home Tuesday afternoon.

Mr. and Mrs. Lawrence Teague and daughter and his mother, Mrs. W. C. Teague, of Canadian came Sunday and took Mrs. Martha Aldridge to Wellington where they spent the day with relatives and friends.

Mr. and Mrs. Harmon Weeks and son, Kenneth, and Alton Weeks of Pampa were Monday dinner guests of their father, Dan Weeks, and family and visited with her sister, Mrs. F. B. Craig, and other relatives, returning home that night.

Mrs. Carl Levitt, Mrs. Denver May, Mrs. Fred Begert and Mrs. Cecil McCoy of Allison were in Wheeler Monday in the interest of their Home Demonstration club work. Mrs. Levitt reported a heavy rain in that vicinity early Monday morning but said there was no noticeable hail damage.

Miss Geardine Williams and her uncle, Glenn Lackey, Amarillo, motored Friday to Dallas to spend the week end with Mrs. Lackey who is staying for the summer with her sister, Mrs. Howard Hinch, and family. Miss Williams remained for a two weeks visit with her aunts while Mr. Lackey returned to his home Sunday.

Mobeetie Scout News

By BERNARD LOWREY, Scribe
Troop No. 44

Travis Patterson, the new assistant Scoutmaster of Troop 44, met with the Mobeetie Scouts for his first time Monday, June 2. All the Scouts are proud to have Mr. Patterson for this office.

The Scouts missed their Scoutmaster, Rev. T. H. Ewing, last Monday, but they are glad that he got to make the trip to Dallas to the Baptist convention and wish him a most enjoyable trip.

Troop 44 is sorry to lose two of its best Scouts, Mac and Drummond B. Thomas. These boys graduated from the Mobeetie high school last month. They are planning to enter college at Canyon next fall.

The following poem was taken from a Scout's handbook:

Equipment
By Edgar A. Guest
Figure it out for yourself, my lad,
You've all that the greatest of men
have had;
Two arms, two hands, two legs, two
eyes,
And a brain to use if you would be
wise.
With this equipment they all began,
So start for the top and say, "I can."
Look them over, the wise and great,
They take their food from a common
plate;
And similar knives and forks they
use,
With similar laces they tie their
shoes,
The world considers them brave and
smart.
But you've all they had when they
made their start.

You can triumph and come to skill,
You can be great if you only will,
You're well equipped for what fight
you choose;

You have legs and arms and a brain
to use,
And the man who has risen great
deeds to do
Began his life with no more than you.

You are the handicap you must face,
You are the one who must choose
your place,

You must say where you want to go,
How much you will study the truth
to know;

God has equipped you for life, but
He
Lets you decide what you want to be.
Courage must come from the soul
within,

The man must furnish the will to
win,
So figure it out for yourself, my lad;
You were born with all that the
great have had,

With your equipment they all began.
Get hold yourself, and say: "I
can."

Kelton News

(By Rena Johnson)

Mr. and Mrs. Ned Craig, Mr. and Mrs. Marion Glasscock and Miss Morene Clay spent the week end here in the home of their parents, Mr. and Mrs. Tom Clay.

Mrs. L. H. Tucker and daughter of Shamrock spent Saturday night here in the home of Mrs. R. O. Johnson. Glenda Ann is the new daughter of Mr. and Mrs. Albert Holcomb. She was born June 8 in a Shamrock hospital. Miss Holcomb weighed 6 1/2 pounds at birth.

Mr. and Mrs. A. C. Johnson returned home Friday from Dallas, where they visited Mrs. Johnson's mother.

Mr. and Mrs. George S. Gandy left Thursday to spend the summer at Hereford and other points.

Miss Janie Lee Traweck returned home Monday from Stephenville, where she attended the wedding of her brother.

Miss Rena Johnson was a Sunday dinner guest of Miss Dorothy Hester. Mrs. Alfred Washam and children of Pampa spent Saturday in the home of her parents, Mr. and Mrs. Walter Davidson.

Grandmother Williams is in the Wheeler hospital. Her many friends wish her a speedy recovery.

Mrs. Edith Carter of Wheeler spent a few days here last week with her parents, Mr. and Mrs. E. P. Joiner, and family.

Twitty News

(By Mary Ella Westmoreland)

Mr. and Mrs. Elmer Pillers, Mr. and Mrs. Buck Ellerbee of Amarillo and Mr. and Mrs. Claudie Pillers of Shamrock spent Monday afternoon in the home of their father, M. A. Pillers, and family.

Mr. and Mrs. Thomas Daughtry and Mr. and Mrs. Harold Westmoreland spent Sunday in the Lonzo Clay home at Kelton. Mr. and Mrs. Clay are both ill.

Miss Mary Ella Westmoreland returned home Wednesday from Weatherford, Okla., where she had

been visiting her uncle, W. L. Rozelle, and family.

Mitchell Rozelle of Weatherford, Okla., returned home Sunday after spending a few days here with relatives.

W. A. Tinney of Alvord is here for an indefinite visit with his son, A. L. Tinney, and family.

George Henderson, L. L. See, Geo. Hefley and Raymond Reeves spent Saturday night on Sweetwater creek. Miss Elsie Fay Havenhill of Sayre, Okla., is visiting her grandmother, Mrs. S. C. Havenhill, and aunt, Miss Viola Havenhill, this week.

We are sorry to report Mrs. Haskell Sammons is ill again. Hope for a speedy recovery, also for Grandpa Westmoreland, who is also ill.

Club Notes

Happenings of Interest by and for Home Demonstration Club Women of the County.

Allison Homemakers Meet

"Etiquette is the name given to the rules of society, and society is the game that all men play. If you play it well, you win; if you play it ill, you lose. The prize is a certain sort of satisfaction without which no human being is ever satisfied," it was declared at a recent session of the Allison Homemakers club.

To be at ease at all times and free from embarrassment, one must first of all be unconscious of self but thoughtfully considerate of others. One must not only know what is good form, but must make good form a habit through daily use. If we want good manners we must practice them in the home. We should invite those who are congenial to each other as a group or individuals.

The table must be attractive in appearance and should exhibit the use of perfectly laundered linen. Floral centerpieces should be chosen to blend with the general color scheme.

Foods should be served hot if they are supposed to be hot; if cold, serve cold. All silver should be arranged in the order in which it is to be used. Four types of table service are generally recognized.

Guests should always be on time. They should make it a point to converse on topics of interest.

We should see that we are getting the right kinds of food. Learn to eat the things we don't like, or try to find something in which we can get the correct balance to maintain bodily health.

Those present were Mesdames Carl Levitt, Beulah Pyeatt, Denver May, George Parker, Cecil McCoy, Lloyd L. Jones, W. O. Traylor, W. S. McCoy, Fred Ball, R. T. Waldrip, J. L. Davidson, J. G. Newman, L. H. Johnson and Lois Curlee, and Miss Lucile Chance.

Messrs. Holbrook, Lawrence Traylor, George Parker, Oscar Traylor, Cecil McCoy and Denver May.

Troy Dean, Kay LaRue, Billie Ray and Harold Jones, Wanda Ann, Dawn

and Roy Dell McCoy, Mozell, Ailene, Delanvier and Robert May, Bonita and Charlene Parker, Pauline Brooks, Chester Cornelius, Gene Levitt and Roy Brooks.—MRS. CARL LEVITT, Reporter.

NOTICE, CORN VALLEY VOTERS!

Due to absence there of suitable accommodations for a polling place since the school house burned some months ago, voters of Corn Valley District No. 22 will cast their ballots in the June 28 senatorial election at the Wheeler box in the American Legion building, Wheeler.

D. A. HUNT,
County Judge.

Lawn and Garden

This region has enjoyed bountiful rains in recent weeks. Lawns and gardens have made fine progress. And now, whether the rainy cycle is over or not, these lawns and gardens require attention to help them do their best. For ease and satisfaction in the proper care of grass plot and truck patch, good tools are a necessity. We are prepared with a nice selection of quality tools for this purpose—all reasonably priced.

Eclipse Mowers
Be sure to see the new models in this popular brand of lawn mower which offers the maximum in quality and service at the minimum in price.

Garden Hose, Sprays and Nozzles, Rakes, Grass Shears and other items.

Ernest Lee Hardware

FURNITURE RUGS RADIOS HARDWARE

Certified: 13,398 MILES ON A SINGLE 5-QT. FILL OF THIS NEW OIL

5 OTHER GOOD OILS
OUTDISTANCED 74% TO 161%
Impartial test in Death Valley Desert.
6 cars Destroyed to give you Economy data beyond any Quibbles.

U. S. Patent No. 2,218,132 tells exactly what is new about the new Conoco motor oil named

CONOCO Nth MOTOR OIL

5 quarts of this same new Conoco Nth oil that you can buy today, lasted 13,398.8 miles in a stock coupe—under lock and under scrutiny every minute.

13,398 miles up and down Death Valley. Sand and sagebrush. Lowest land and highest extremes of heat in our U. S. A.

5 other well known oils got the same chance as new Conoco Nth oil. 6 identical new cars were used. Tune-ups, tire pressures, speeds, and all other factors were the same for all—impartially. Engines were under lock. Qualified authorities eyed everything.

The test was simple and stern... Each car got its 5-quart fill of some one competing oil and was run at a 57-mile speed, without added oil, till the engine smashed up. New Conoco Nth motor oil went 13,398 miles. Certified. Not another oil came within 5,683 miles of that and one was outlasted 8,268 miles by new Conoco Nth oil. Certified.

The reasons are straight and simple... New, patented Conoco Nth motor oil contains Thialkene inhibitor, a new synthetic... man-made by Conoco.

Now an inhibition is something that restrains you—checks you. And Thialkene inhibitor checks the effect of poisons always formed in normal engine operation. Instead of "festering," weakening, and passing out, this oil is scientifically prepared to keep its health, so that the engine can do the same—a good way to keep up the oil-level.

OIL-PLATING, too!... Long the keystone of Conoco success, OIL-PLATING comes from another Conoco synthetic... (U. S. Patent 1,944,941). Magnet-like action bonds OIL-PLATING to engine parts, so it can't all drain down—not even overnight.

While you use Conoco Nth, this OIL-PLATING stays on guard against wear in advance! By OIL-PLATING the engine and inhibiting the worst effect of oil pollution, one fill of new Conoco Nth lasted 13,398 miles. Certified.

You'll not put your car through such a third-degree—any more than you keep starting in high gear just because you could. You'll certainly never want to exceed the recommended distance between crankcase drains. But knowing that new Conoco Nth oil lasted 74% to 161% longer than other oils tested, see how seldom you add a quart. At Your Mileage Merchant's Conoco station today change to your correct Summer grade of popular-priced new Conoco Nth oil. Continental Oil Company—Pioneers in Bettering America's oil with Synthetics

CERTIFIED I hereby certify that the Death Valley Test and related work were thoroughly and fairly conducted. Engine Destruction occurred in each case at the mileage stated.

H. H. Jackson
Consulting Engineer, who during academic years Professor of Automotive Engineering, Purdue University

Ray, son of Mr. and Mrs. Floyd Adams, Jowett, entered the hospital Saturday for treatment.

Tink Ingram, Locust Grove, entered the hospital Wednesday for medical attention.

Bob Black was a patient in the hospital Monday night.

SUMMARY OF ACHIEVEMENTS BY FARM SECURITY ADMINISTRATION IMPOSING

Area Program in 1940 Outlined by Director Cowen—Local Office Rates Near the Top

A semi-personal letter received this week by the editor from Judge Wilson Cowen, Amarillo, regional director of the Farm Security Administration, contains so much data of general interest that The Times is taking the liberty of publishing the entire communication for the information and inspiration of its readers. The letter follows:

"The world situation and our rejection to it is foremost in our thinking today. In the present emergency the nation's strength is engaged in making America strong. Tanks, guns, airplanes and ships are the outward

JUDGE WILSON COWEN
Regional FSA Director

signs of this effort, but defense also includes protection against the internal weaknesses which help to undermine a people—economic depression, decayed morale, a social stagnation. The first line of defense in a democracy are those people who compose it," writes Judge Cowen. Continuing, he says:

"Because the health, welfare, and morale of all our people are vitally important to national defense, and because of your leadership in your community and your continued interest in the welfare of the people comprising it, I feel that you might be interested in a recent survey conducted by the Farm Security Administration.

This survey indicates the gains in terms of money, living standards and capacity for self-support made during 1940 by borrowers from this agency—the low-income farm families throughout the nation. Obviously you are more interested in conditions close to home, hence I shall deal only with those in the 47 counties in West Texas served by the Amarillo regional FSA office.

In these 47 counties there were 4,435 active standard rehabilitation borrowers at the end of 1940. The survey showed that the average borrower earned a net income of \$788 during the year as compared with \$549 in the year before he borrowed from Farm Security, an increase in annual net income of 44 per cent for the average family.

This means that Farm Security borrowers in 47 counties increased their total annual incomes by \$1,082,521. Naturally this growth in prosperity and purchasing power has been reflected on the books of merchants and other businessmen. National defense efforts must be based on purchasing power and taxing power also.

You will be pleased to learn that borrowers are rapidly repaying their loans. Already \$3,555,622 has been repaid on loans totaling \$6,668,577, although much of the money does not fall due for four or five years. In the entire country, rehabilitation loans totaling \$420,865,050 had been made as of December 31, 1940, and \$149,626,442 had been repaid.

In view of the fact that none of the borrowers from Farm Security were able to get adequate credit anywhere else, and that many of them were near relief status, I believe you will agree that this repayment record is a tribute to the honesty and industry of these needy farm people. There is ample evidence that the great majority of them are getting back on their feet and becoming permanently self-supporting. In large measure, this progress is due to the advice and technical guidance in sound farm and home management which accompanies each Farm Security loan.

A nation's strength must be measured in terms of health, morale and happiness of its people as well as other things. For example, we encourage our borrowers to strive for better diets and to produce at least 65 per cent of their living at home as well as raising as much as possible of their own feed for livestock.

During 1940, the average borrower-family in these 47 counties produced \$300 worth of goods for home consumption, as compared with \$155 before they came into the FSA program. This included 429 gallons of milk per family, 386 pounds of meat, and 225 quarts of vegetables and fruit canned for the winter. This increased production of food did not, of course, add to the supply in the commercial markets, since virtually none of it was offered for sale. It

simply meant better living standards for these families.

Often it has been necessary to work out an adjustment of the family's old debts, before rehabilitation could be successful. Local Farm Debt Adjustment committees have been set up for this purpose. They have no legal authority to compel adjustments, but by bringing the farmer and his creditors together in a neighborly way, they are usually able to help both parties reach a friendly understanding and settlement.

All farmers may use this service whether or not they are rehabilitation borrowers. As a result of this free service hundreds of farmers in the 47 counties have had their debts adjusted to a point where they could pay them. Consequently they were enabled to remain in the farming business and their creditors, in many cases, have collected what might have otherwise been bad debts.

In addition to the rehabilitation program, Farm Security is carrying out the Bankhead-Jones Farm Tenant act, which provides a limited number of loans to competent tenants to enable them to buy family-type farms. During the first three years of this program, we made 79 such loans in West Texas. Throughout the country delinquencies of these loans have amounted so far to only 2.6 per cent, or \$23,658, and this has been more than offset by other borrowers who have made advance payments totaling \$196,765, as the result of good crops and management.

Farm Security offers many other kinds of help to low income farm families, such as loans for community and co-operative services, whereby farmers can have facilities jointly which none of them could own individually, loans for water facilities purposes, and loans enabling needy farm people to participate in group medical service programs. However, I hesitate to make this report more detailed than it now is.

We believe Farm Security constitutes a first line of defense for hundreds of thousands of needy farm

people who are suffering most severely from the economic dislocations in our country. People who are well-nourished, well-housed and in good health believe democracy is worth working and, if need be, fighting for.

Casual inquiry reveals that the local FSA office, with quarters in the court house here and serving Wheeler and Gray counties, rates near the top of the list, standing second in number of repayments. The Times believes that compilation of data in the Wheeler office would show it very near, if not in first place, for Region 12.

Frank Wofford is supervisor of this office, his duties as such starting in June, 1939, exactly two years ago this month. Under his direction, the program has made exceptional progress, testifying to his good judgment, ability and application.

Legion and Auxiliary Sessions at Lubbock

Preparations are complete for joint conventions of the American Legion and auxiliary of the Fifth Texas division and the 19th congressional district to which Allen Bros. post at Lubbock will be host Saturday and Sunday, June 14 and 15, according to Chas. Whitacre of Lubbock, 19th district commander.

Registrations are to begin at noon Saturday in the Legion home, 910 Texas Avenue. Members of the 40 and 8, fun organization of the Legion, are to frolic Saturday afternoon and will stage their "wreck" at 8 p. m. Business session of the 19th district is scheduled Saturday night at 7:30 o'clock, when a commander and vice commander are to be elected. John W. Scott of Plainview is the present vice commander.

Business session of the division convention is to be held Sunday morning at 9:30 o'clock, with Charlie Maisel of Phillips, the commander, presiding. A free barbecue at noon will be followed by a joint business session in the afternoon.

Two dances Saturday night will be the entertainment feature. Officials predict that attendance at the meetings will exceed that of

any other Legion gathering in Texas this year with exception of the state convention. Among those who have accepted invitations to attend are Charles Morgan of Artesia, N. Mex., state commander, and Raymond Fields of Guthrie, Okla., past com-

mander in that state. Division president of the Legion auxiliary is Mrs. John Deaver of Memphis. District president is Mrs. Elmer Anderson of Plainview.

Times Wanted—5c a line.

DE LAVAL

MILKERS and SEPARATORS

The De Laval Magnetic Speedway Milker is first choice with dairymen who want the best, fastest and cleanest milking... the greatest savings of time and labor... a positive means of producing highest quality milk... and the certainty of years of dependable, foolproof, trouble-free service. No other method can provide the uniform, regular milking that is a built-in feature of the De Laval Magnetic Speedway.

For small herds be sure to investigate the wonderful new De Laval Sterling Milker. De Laval gave the world the first centrifugal cream separator... and today, even more than ever, De Laval Separators are first choice with dairymen for cleanest skimming... longest life... easiest turning... and for lowest cost per year of use. No matter what your separator requirements may be they can best be filled with a new De Laval.

WOMEN'S CLUBS AND SOCIAL EVENTS

LOVELY SHOWER HONORS A RECENT BRIDE

The Kappa Beta club and its sponsor, Mrs. H. E. Nicholson, honored Mrs. Lindsey McCasland with a post-nuptial shower on the beautiful back lawn at the H. M. Wiley home Tuesday evening.

The honoree was seated in a large white-robed chair, with Mrs. Lee McCasland on her left and her mother, Mrs. J. W. Barr, on her right, before a background of alder.

Miss Maurine Hunt played piano selections during the evening, while Mrs. J. L. Gilmore gave a reading, "The Newly Weds," by Walter Ben Hare.

The refreshment table was artistically decorated with pink roses and larkspur.

Misses Ina Fay Robison and Evonne Hubbard greeted the guests, while Melba and Patsy Wiley assisted with the gifts. Miss Marthalsy Wiley and Mrs. Max Wiley poured.

Those attending were Mesdames J. E. Willard, M. McIlhany, J. W. Barr, Lee McCasland, C. M. Hampton, H. E. Nicholson, J. M. Porter, W. C. Zirkle, R. G. Russ, Artie Lee Hunt, C. J. Meek, F. B. Craig, Dorsey Hutchison, Lonnie Lee, Loyd Lee, Bronson Green, J. L. Gilmore, H. M. Wiley and Max Wiley and Misses Elva Willard, Genevieve Britt, Irene Hunt, Ina Fay Robison, Mary Eunice Noah, Evonne Hubbard, Clara Finsterwald, Maurine Hunt, Marguerite Ficke, Marthalsy Wiley, Melba and Patsy Wiley and Mrs. Marshall Adams, Shamrock; Miss Maurita Dunn, Mobeetie; Miss Arlie Ruth Waters, Lubbock; Miss Colleen Morris, Amarillo, and the honoree, Mrs. McCasland.

Those sending gifts were Mesdames W. L. Jolly, Sr., T. A. Greenhouse, R. T. Watts, J. B. Roper, W. L. Williams, G. L. Wren, D. A. Hunt, J. P. Green, Wayne Cook, Ernest Dyer, Lee Guthrie, I. B. Lee, Homer Pitcock, J. D. Merriman, Holt Green, Buck Britt, D. E. Holt, Luther Parks, Lloyd Davidson, Floyd Pennington, Elsie May Hood, H. H. Herd, G. A. Bolton, H. H. Greenhouse, V. B. Hardecastle, H. E. Cole, Reuben May, Amos May, H. Flanagan, Jack Meek, A. B. Crump, Neva Sampson and C. G. Miller and Misses Blanche Grainger, Lucille Hutchison and Delpha Flanagan, Miss Florence Merriman, Washington, D. C., and Bernice Fehle and Loraine Craiger, McLoud, Okla.

Miss Edith Ashley of Moorewood, Okla., is visiting her sister, Mrs. Jess Moore, and family this week.

MRS. JOE HYATT HOSTESS TO METHODIST SOCIETY

Mrs. Joe Hyatt was hostess to members of the W. S. C. S. of the Methodist church Monday afternoon at her home on South Shamrock street.

Mrs. D. A. Hunt conducted a Bible quiz on Stewardship.

Refreshments were served to Mesdames Joe Beasley, D. A. Hunt, J. M. Porter, E. T. McCleskey, J. D. Merriman, G. L. Wren, W. C. Zirkle, J. A. Bryant, Ernest Lee and the hostess, Mrs. Hyatt.

The society will meet with Mrs. Ernest Lee at 3 o'clock Monday afternoon.

BAPTIST W. M. U. MEETS WITH MRS. M. L. GUNTER

The Baptist W. M. U. met at the home of Mrs. M. L. Gunter Monday afternoon for a program on Ministerial Relief, led by Mrs. Floyd Pennington, assisted by Mrs. Chas. Flynt, Mrs. George Porter and Mrs. J. N. Green.

Mrs. Lee Guthrie and Mrs. Frank Wofford gave a playlet, "At Eventide," and Naomi Merritt and Pauline Dyer sang a duet.

Others present were Mesdames Fannie Wofford, Narville Arganbright, Edgar Flynt, W. J. Williams and the hostess, Mrs. Gunter.

MRS. PETTIT HOSTESS TO STITCH-CHATTER CLUB

The Stitch and Chatter club met Thursday of last week with Mrs. E. G. Pettit at her home in the west part of town. Mrs. J. F. Witt gave an interesting account of her trip to France as a Gold Star Mother. Needlework was enjoyed during the afternoon.

The hostess served dainty refreshments to Mesdames Harold Shively, A. C. Wood, J. N. Green, J. L. Bailey, Pyron Martin, Miss Ida Mae Martin, and Mrs. A. J. Shively, Greeley, Colo., guests, and Mesdames Annie Sivage, J. F. Witt, Frank Noah, H. H. Walsler, Percy Farmer, W. E. Bowen and the hostess, Mrs. Pettit, members.

Mrs. J. F. Witt was hostess this week at the Pettit home.

HOLLIS ALUMNI GROUP HAS 11TH ANNUAL MEET FRIDAY

The 11th annual session of the Hollis, Okla., High School Alumni association was held there Friday afternoon, when each class entered a float in the parade. The class of '27 was awarded first place honors.

About 500 members of the association attended the 8 o'clock banquet given in the American Legion Hall, while a dinner was served at the hotel for husbands, wives and friends of the members. Following the dinners, a dance was enjoyed by members and guests.

Those attending from Wheeler were Ansel McDowell and Marlow Dill, members, and Mrs. McDowell, a guest. Mr. and Mrs. Earl Cromer of Shamrock also attended the festivities.

Jimmie Coward is visiting his grandparents at Twitty this week.

Mr. and Mrs. Walter Coward were in Wheeler Saturday.

H. F. Dyson and Joe B. Williams of Pampa were visiting here and at Mobeetie Thursday.

Gerald Mann Leading In Senate Campaign

Attorney General Heads the Field in State-Wide Poll—to Speak at Shamrock Wednesday

Attorney General Gerald C. Mann was campaigning in South and West Texas this week with a clear lead over every opponent in the United States senatorial race, as established by the accurate Beldon Poll at Austin.

This state-wide, scientific poll of the campaign which Time Magazine has called "the biggest United States political sideshow since the presidential campaign last fall," show the standings of the candidates now to be:

Gerald C. Mann	27.0
W. Lee O'Daniel	25.6
Martin Dies	23.7
Lyndon Johnson	19.4
Others	4.3

Thursday Mann spoke in Brady, Mason, Taylor, Rockdale, Cameron and Temple, in addition to a speech at Fredericksburg. In the seven weeks of the campaign he has covered approximately 190 counties. He has made 260 speeches and has visited 750 Texas towns, large and small.

As the nation was swept with headline after headline of strikes in defense industry, Mann lashed out angrily at the men responsible for those strikes and shouted:

"The president should use his emergency powers to see that the wheels of industry continue to turn. I predict that he will do this.

"Strikes in defense industries must be stopped. We must have action in stopping them. They imperil the very freedom which has made it possible to strike in this country. A defense strike is a blow at democracy.

"I urge congress to pass the bill I have advocated. It will prohibit strikes and at the same time guarantee labor fair mediation and retroactive backpay when labor's cause is just.

"I shall draw this bill now and make it available for congress. My congressmen opponents are welcome to have it.

"And I repeat, until a bill such as mine is passed, the president should, and I am sure will, use his emergency powers to see that the wheels of industry keep turning."

As Gerald Mann spoke from the back of trucks, from court house steps, in city parks and on public squares to the farmers and town-folk who turned out to hear the man who fulfilled his promises once and pledges to do it again, he spiked a sly rumor that he would withdraw from the race, and he called the governor's hand on his references to "professional and pussyfooting politicians."

"Don't you let any man or set of men tell you that Gerald C. Mann is going to be sidetracked out of this race for the United States senate," Mann shouted. "I never have and I never will start anything that I can't finish."

"The governor offered me the post of chief justice of the state supreme court. Would he have offered that place to a professional politician?"

"The governor has requested me to give him my opinion on 45 important bills that came to his desk in the last year and a half. He followed my opinions on all 45 of these. They included the controversial fair trade and barber bills, and the question of paying pensions with warrants. The first two I said were unconstitutional and he vetoed them. The third I held to be valid, the governor signed it and the old people got pensions in 1939.

"Do you think he would have asked my opinion on those bills if he thought I was a pussyfoot?"

Mann is coming to visit this region next Wednesday, June 18, when he will speak at the following hours and places: 9:30 a. m., Shamrock; 10:30 a. m., McLean; 11:45 a. m., Pampa; 1:30 p. m., Borger; 2:45 p. m., Pampa; and 8:00 o'clock that night in Amarillo.

FOOD STAMP PLAN SURPLUS FOR JUNE JUST ANNOUNCED

Surplus foods which will be available during the June 1 through 30 period to families taking part in the Food Stamp plan in the Wheeler county area were announced today by Robert M. Moss, local stamp plan representative. These are the surplus foods available at local stores in exchange for the blue surplus food stamps.

Fresh cabbage and snap beans have been added to the list of foods which will be available nationally during June, while butter and fresh carrots, obtainable during May in all areas, are not included on the June list.

With these revisions, the complete list of blue stamp foods for June in all stamp plan areas, is as follows: fresh grapefruit, oranges, apples, cabbage, snap beans, Irish potatoes, raisins, pork lard, all pork (except that cooked or packed in metal or glass containers), corn meal, shell eggs, dried prunes, hominy (corn) grits, dry edible beans, wheat flour and whole wheat (graham) flour.

I. C. Thurmond, Sr., Amarillo, and Ben Parks, Allison, were in Wheeler Tuesday enroute to Allison.

Eastern Star Head

Mrs. Zilpha Ellis Mansell of Jackson, Miss., grand worthy matron of the Mississippi Chapter of the Eastern Star, wears a cotton lace dress similar to those worn by 125 officials of the organization at their annual convention held at Meridian.

"They Own Their Home!"

You've heard people say that about friends or acquaintances. The tone of voice they use speaks volumes. It says "they are substantial people"—"they are more important people now"—"I envy them."

Owning your home does make you and your family more important in the eyes of your friends and neighbors. For the family that owns its home is a substantial family. It has confidence in its future. The comment you arouse is important, too. For that stimulates others to imitate you; to follow you.

You have a right to be proud. For in building a home for your family you have proved your faith in your community. That's one reason why people like to see other families own their homes.

Building a home is not such a big problem. Through the help we can extend and the advice available in planning it, you can build remarkably easy—and settle back in comfort and security.

Summer Homemaking Course

Under the direction of Miss Virginia Sue Crowell, vocational home economics instructor in the local high school department, 19 students are taking the summer homemaking course. Some of the projects being carried out are gardening, bedroom improvement, garment construction, yard improvement, canning fruits and vegetables and meal planning.
All students who complete their work and make a passing grade of 70 will receive a one-half activity credit in summer home economics.

Those taking the course are Eulene Price, Neweta Williams, Mary Belle Heare, Maxcie Puckett, R. B. Ford, Wanda Creekmore, Luvene Red, Winifred Lowrey, Augusta Matthews, Evelyn Patterson, Jewel Eubanks, Modell Robison, Imogene Herd, Lanelle Scribner, Annas Hodges, Edna Mae Alexander, Audrey Brewer, Juanell Shelton and Agnes Corcoran.

Mr. and Mrs. Louis McCauley and children of Miami visited in the L. D. McCauley home Sunday.

Mr. and Mrs. Frank Painter and daughters, Norma Jean and Yvonne, of Sunray visited his mother, Mrs. J. P. Painter, and her sons, Alvis and Leon, Monday and Tuesday.

Rev. and Mrs. Ted Ewing and party of friends returned Friday from Dallas where they had visited relatives and attended a pastor's convention. Mrs. Ewing's mother, Mrs. Waldrop, of Dallas returned home with them for a visit.

Dr. and Mrs. B. A. Harris returned Monday from Oklahoma City, where they had been visiting their daughter and her husband, Mr. and Mrs. Gilbert Morris, and daughter, Dorothy.

Bill Bartram left Sunday for Glacier National Park in Montana, where he will be employed this summer. He has spent the past few days visiting with his mother, Mrs. A. H. Bartram, and family since returning from school at Austin.

Mr. and Mrs. Bud Eubanks returned home Sunday from Compton, Calif., where they had spent the past two weeks visiting Mr. and Mrs. Henry Kerr and family and Miss Mildred Eubanks. They made the trip with their son, Lloyd Eubanks, and family of Pampa.

Mr. and Mrs. Ernest Lee and Hoyt Dunn of Wheeler spent Sunday afternoon visiting Mr. and Mrs. George B. Dunn.

Wilbur Sims came Tuesday from El Paso, where he is stationed in the army medical corps, to visit his parents, Mr. and Mrs. Al Sims, and other relatives. He is home on sick leave, after being dismissed from the hospital where he was being treated for injuries received in a car wreck about four weeks ago.

Miss Arlie Ruth Waters of Lubbock is visiting Mr. and Mrs. E. E. Johnston and other relatives and friends here and in Briscoe and Wheeler. She came last Tuesday with Mr. and Mrs. O. W. Elliott and Mrs. Johnston, who had been in Lubbock to attend the graduation of Miss Zelma Elliott.

Sunday guests of Mr. and Mrs. A. A. Burch and son, C. W., were Mr. and Mrs. F. B. Flaherty and children of Pampa and Delbert Beauchamp and Jess Smith, from the CCC camp in Perryton.

H. L. Flanagan motored Saturday to Eldorado, Okla., to attend to business.
Mr. and Mrs. G. L. Key and children, Dealia and Louis, left Sunday for Eagle Nest, N. Mex., on a fishing trip and vacation.

Rev. and Mrs. G. W. McLain attended the funeral of Mrs. J. N. Duncan, mother of J. Wade Duncan, of this city in Pampa Tuesday.

Miss Ina Fay Robison of Wheeler spent last week end with her parents, Mr. and Mrs. Wallace Robison, and family.

Mr. and Mrs. Johnny Gregg of Altus, Okla., recently visited Mr. and Mrs. Austin Caldwell and children, Beverly and Geoffrey.

Mr. and Mrs. Eric Hawn and son, Everett Joe, of Amarillo spent last Saturday night visiting his mother, Mrs. Minnie Hawn, and Miss Ona

Lee Brown. Everett Joe remained here to spend about two weeks.

Mrs. S. D. Speck and Mrs. Callie Speck of Rochester spent last week end visiting their sister and husband, Mr. and Mrs. A. A. Burch, and family. They were accompanied by Mrs. Wylie Johnson and two children of Munday.

Mr. and Mrs. O. W. Elliott and Mr. and Mrs. John Dunn motored to Pampa Tuesday to attend the funeral of Mrs. J. N. Duncan.

Mr. and Mrs. H. L. Flanagan and daughter, LaRue, visited Mr. and Mrs. Bill Carver in Shamrock Thursday.

Mrs. John Gilliam of Wheeler spent Saturday night with Mr. and Mrs. Travis Patterson. She also visited her parents, Mr. and Mrs. Wallace Robison, and family.

Mr. and Mrs. Emmett Tabor and sons, Don and John, left Sunday for Sacramento, Calif., to visit Mr. and

Mrs. Loy Compton. J. F. Haning is working in the barber shop during their absence.

Rev. and Mrs. Ted Ewing visited relatives and friends in Clarendon Monday.

Mr. and Mrs. Lyle Nunn and children, David, Harrell and Sally Sue, of Hobart, Okla., and their house guests, Trussel and Jimmy Nunn, of San Francisco, Calif., visited Mr. and Mrs. C. Mixon and family the first part of this week.

A. H. Dyson and children, Miss VaRue and Bert, of Pampa were here Saturday evening visiting friends and relatives.

Miss Maurita Dunn spent Saturday night and Sunday in Amarillo visiting Mr. and Mrs. R. A. Davenport.

Mr. and Mrs. Travis Patterson visited in the home of Mr. and Mrs. John Gilliam in Wheeler Friday evening.

FIRESTONE TIRES WIN AGAIN IN 500-MILE INDIANAPOLIS RACE

MAURI ROSE, Co-Winner With Floyd Davis in the 500-Mile Indianapolis Race May 30th, Averaged 115.117 Miles per Hour on Firestone Gum-Dipped Tires Without a Tire Change or Tire Trouble of Any Kind.

FLASHING down the straightaways at speeds as high as 160 miles an hour, Mauri Rose streaked to victory in the 1941 Indianapolis Sweepstakes without a tire change. 500 miles of grinding, pounding, torturing speed — and not one tire failed! Here's proof of safety — proof of blowout protection — proof of endurance — proof of tire superiority backed not merely by claims, but by PERFORMANCE! For 22 consecutive

years all the winning drivers in this great classic of speed and endurance have driven to victory on Firestone Tires. Why? Because race drivers know that their very lives depend upon the safety of their tires. They have made it their business to know how tires are built. And they know that the patented construction features found only in Firestone Tires provide the extra strength and durability necessary to safety and victory!

LIBERAL ALLOWANCE ON YOUR OLD TIRES
Come in TODAY!

The same super-safety and dependability that are built into Firestone Tires for the speedway are also built into the new Safti-Sured Firestone DeLuxe Champion Tires for the highway. Both are Safti-Sured against blowouts by the patented Safety-Lock Gum-Dipped cord body. Both are Safti-Sured for longer wear by the exclusive new Vitamic rubber compound. Profit by the experience of famous race drivers. Equip your car today with a set of these new Firestone DeLuxe Champion Tires — the world's first and only tires that are Safti-Sured.

EASY TERMS AS LOW AS \$5.00 PER WEEK

Firestone HIGH SPEED TIRES
First Quality—longer mileage—greater blowout protection—greater non-skid safety—less cost per mile. Finest High Speed Tire Firestone has ever built. Equip your car today.
\$10.95

Firestone Tires Used On Leading Race Cars

Rose Brings Car from 15th to 1st Place to Win His First Race at Indianapolis Classic

Driving his teammate's car from 15th place to a spectacular victory in one of the most dramatic races ever held at the historic Indianapolis Speedway, Mauri Rose won his first 500-mile race on May 30.

Starting the race in the coveted pole position by reason of his highest qualifying speed of 128.691, Rose was well up with the leaders when his car developed engine trouble after 155 miles and was forced out of the race. Lou Moore, owner of the car which Rose had been driving, asked Rose to relieve Floyd Davis, who was driving another one of Moore's cars and Rose drove to victory at an average speed of 115.117 miles per hour without a tire change or tire trouble of any kind. This was the 22nd consecutive year that Firestone Tires have been on the winning cars in this great race.

One by one, Rose passed the other cars in the race until he had his car in 4th position. At the 380-mile mark a broken wheel eliminated Wilbur Shaw, defending champion and three-time winner, who was leading the race at that point.

Driving spectacularly around the turns and brilliantly on the straightaways, Mauri Rose soon overtook the other leading cars and swept across the finish line in a final burst of speed. After completing an extra lap around the 2½ mile track, Rose pulled into the pits to let Floyd Davis drive the winning car into victory lane. Davis, however, already was waiting in the winner's pen to congratulate Rose on his remarkable exhibition of driving.

This is only the second time in the history of the Indianapolis Sweepstakes that two drivers have shared the championship as co-winners.

Rex Mays, popular California driver, won second place money for the second consecutive year. He was followed across the finish line by Ted Horn, Ralph Hepburn and Cliff Bergere, in that order, all of them riding on Firestone Tires.

Methods Suggested In Clothes Moth Control

Clothes moths feed on wool, hair, feather, fur, upholstered furniture and leather, but they do not eat cotton, linen, rayon or other fabrics of vegetable fiber or silk, according to Cameron Siddall, entomologist for the Extension Service of A. and M. college.

He says articles in a reasonably tight trunk, chest or wooden box can be protected perfectly during the summer by scattering between the folds of the clothing either flake naphthalene or paradichloro-benzene. Either of these moth-preventatives should be separated from the clothing by sheets of thin, clean paper. Four ounces will give protection under ideal conditions, but the specialist says it pays to use more—possibly a pound—and be safe. Both chemicals are inexpensive.

The addition of flake naphthalene is advised since it destroys any moths which may have gotten in the clothing before it was wrapped. Under any circumstances, however, keep all covers tightly closed.

Cold storage is excellent for protecting furs, garments and rugs from moth injury, Siddall adds. He explains that dry cleaning kills all forms of moths during that process but it does not give moth resistance. The same is true of washing garments in a strong solution of neutral soap.

Clothing just dry-cleaned or washed, if wrapped in paper with its edges well folded back or sealed carefully, will remain free from moths indefinitely if the paper is not broken. Sealing in unbroken hat boxes or other cardboard boxes will accomplish the same results. Woolen garments kept in closets and not packed away for the summer should be sunned or brushed frequently.

FIRESTONE TIRES HAVE WHAT IT TAKES TO WIN

Mauri Rose, co-winner with Floyd Davis of the 1941 Indianapolis 500-mile race, is pictured above in the American-built car which he drove to his first speedway victory. His car forced out of the race at the 155-mile mark, Rose took the wheel of the car which was being driven by Floyd Davis, and took it from 15th place to first place, averaging 115.117 miles per hour on the same set of Firestone Tires that were on the car when the race began.

Home-Making Hints

By MISS VERA MARTIN
Home Supervisor, F. S. A.

Canning Inventory

"With a home canning program dovetailed into a carefully planned home-production schedule, many families can assure themselves of a year round diet that is better balanced and more varied than one they could afford to buy entirely at the store. And when food prices rise, the woman with plenty of canned food in the pantry can count herself doubly provided," declares Miss Vera R. Martin.

Home canning, of course, is most economical on farms or in villages where families have the land to grow their own garden stuff.

The homemaker who plans to "can as usual" this season will want to check her equipment and supplies before she gets into the full swing of the busy summer season. Here are some of the main points she'll need to check according to home economists of the U. S. Department of Agriculture:

CANNING BUDGET—If you live on a farm, your canning budget will fit into your garden plans. In making a budget, figure how much food the family needs for a year. And take into consideration how long fresh foods are out of season.

THE CANNER—If you plan to can non-acid vegetables, you'll need a steam pressure canner. For only in such a canner is it possible to get temperatures above boiling. These high temperatures are needed to kill the organisms that cause spoilage in practically all vegetables except tomatoes.

Steam pressure canners need to be re-checked each year to see that the pressure gage registers correctly.

For processing acid foods—fruits and tomatoes—it is best to use a water bath canner. There is little that needs to be checked on such a canner except to see that all the parts are together. There needs to be a tight fitting lid and a rack for the bottom to set cans or jars on. A wash boiler or a bucket makes a good water-bath canner if it is high enough to permit covering the cans or jars with one to two inches of water.

CANS OR JARS—Always buy new rubber rings for glass jars. Good rubber rings stretch to twice their length. Discard any jars or caps that show cracks, chips or dents. Porcelain-lined metal lids should be thrown away if the lining is the least bit loose.

INSECT CONTROL PROGRAM—Always buy new rubber rings for glass jars. Good rubber rings stretch to twice their length. Discard any jars or caps that show cracks, chips or dents. Porcelain-lined metal lids should be thrown away if the lining is the least bit loose.

Insect Control Program Proposed for Farmers

The threat of the flea hopper and the boll weevil to destroy as high as 20% of the current Texas cotton crop is so serious as to arouse farm leaders, oil millers and ginners alike to action this year.

Bailey B. Ragsdale, president of the Dirt Farmers congress, announces that plans have been perfected to launch an effective insect control campaign throughout Texas within the next week with the co-operation of the South Texas Cotton Oil Co., who also view the threatened curtailment of production with grave apprehension.

In outlining the proposed program, Ragsdale pointed out that no stone would be left unturned to apprise not only cotton farmers, but all allied interests of the absolute necessity for immediately waging a widespread and thorough war upon this "enemy of the cotton industry" which has already begun to invade the cotton fields of this state in unusually large numbers due to the wet season.

The active interest and support of local bankers, vocational agriculture teachers, newspaper men, oil mills, gins and merchants will be sought to furnish all possible aid to A. & M. college and the county agents who are on the front firing line in this "battle with the insects."

These groups can render a great service by seeing to it that dusting

equipment and materials are readily available to the farmer when he needs them; and to render all possible aid to the county agents in conducting dusting demonstrations and getting concrete, practical information on recognizing infestation and controlling it to all cotton farmers in their respective areas.

Ragsdale pledged the co-operation of organizations, affiliated in the congress to this effort, and will seek the active support of other organizations and governmental agencies in making this insect control campaign successful in giving county agents all possible assistance in efforts to save the cotton this year.

He emphasized, "that it would be poor economy to save the few dollars insect control will cost and sacrifice from one-eighth to one-third of the potential yield," and expressed confidence that farmers throughout the Texas cotton belt will welcome this co-operation and co-operate fully themselves. He expects to launch the program in an address before the third annual convention of the Farmers league at Yoakum, June 9. From there it will be carried on into the Coastal Bend area and the Rio Grande Valley.

Movie Chatter (By a Rogue)

Telegraph Trail

For Friday and Saturday, June 13-14, patrons of the Rogue Theatre will once again have an opportunity to see one of their favorite cowboys, John Wayne, in one of his real western thrillers, Telegraph Trail. We are sure that you will find plenty of action and suspense in this great outdoor story of the West. Also, two reels of short subjects in connection with the feature picture.

Western Union

Twentieth-Century Fox Film Co., the producers who made Jesse James and The Return of Frank James, have made another picture along the same big scale as the two mentioned. The picture we are talking about is Western Union. The entire production is filmed in technicolor. It is the story of the building of the Western Union telegraph lines back in the early days of the United States. It deals with hardships, trials and tribulations that the early pioneers had to undergo in order to build and maintain the great Western Union system of today. The stars are Randolph Scott, the Indian scout; Robert Young, the tenderfoot from back East who turns out to be no tenderfoot at all; Dean Jagger, the civil engineer, who recently played in Brigham Young, and then for heart interest we have Virginia Gilmore who does an excellent job. The writer of this column has seen the picture and can truthfully say that it is comparable to Jesse James in every way. It has everything that could be desired in any picture. It is truly a million dollar picture worthy of your consideration. It comes to the Rogue Theatre Preview, Sunday and Monday, June 14-15-16. Do not confuse this picture with Union Pacific which was made some time last year. Western Union is brand new and you will not want to miss it.

That Night in Rio

Last Christmas we brought you a picture called Down Argentine Way with Don Ameche, Alice Faye and Carmen Miranda. It was one of the hit pictures of the season. We are recalling this picture because it will give you an idea of what to expect in That Night in Rio which comes to the Rogue Theatre Wednesday and Thursday, June 18-19, and which has the same cast as the former. The entire production is in technicolor, and it is comparable in every way to Down Argentine Way. In fact, Carmen Miranda is even better. Then, too, you get more of Don Ameche because he plays a dual role. It is, as the title implies, a picture made in South America, and carries all the charm of that beautiful country. The writer has seen this picture and knows whereof he speaks. Don't miss this one.

NOTICE OF SALE OF REAL ESTATE UNDER EXECUTION

STATE OF TEXAS, County of Wheeler.

By virtue of an execution issued out of the Justice Court of Precinct 1, Wheeler County, Texas, on a judgment entered in said court on the 10th day of February, 1936, in favor of the Citizens State Bank of Wheeler, Texas, and against R. D. Douglas, No. 173 in said court, I did on the 19th day of May, 1941, at 3:30 o'clock P. M., levy upon all the undivided right, title, and interest of R. D. Douglas in and to the following property:

The East one-half (E½) of Section Sixty-five (65), Block M-1, H&GN Ry. Co. Survey, situated in Wheeler County, Texas,

and on the first day of July, 1941, being the first Tuesday of said month between the hours of 10 o'clock A. M. and 4 o'clock P. M. of said date at the court house door of said county, I will offer for sale and sell at public auction for cash all the undivided right, title, and interest of the said R. D. Douglas in and to said property.

Dated at Wheeler, Texas, this 3rd day of June, 1941.

JESS SWINK,
Sheriff, Wheeler County, Texas.

Laziness In Children Learned; Not Natural

Children aren't born lazy; they learn to be.

That's a tip to parents from Dosca Hale, extension service specialist in family relations, who explains that no healthy, normal individual is naturally lazy. Young children, she says, are energetic and eager to find out new things about the world around them.

Children may learn to be lazy if adults give them too much supervision. In fact, some adults watch children so closely they have no opportunity to experience new yet simple undertakings in their own way.

Then some children are lazy because people around them are lazy, the specialist says, calling attention to the way children are great imitators. In addition, there are children who use laziness as a means of getting what they want.

"If a child is active, full of curiosity, and busy learning things, the adults around must devote more time to providing play equipment for the child or else spend much of their time keeping him 'out of things,'" Miss Hale comments.

Other children may learn to be

lazy because they get the idea from others that there is something degrading about hard work.

Perhaps the most serious reason for many children having little energy is because they eat too little food or the wrong kinds of food. The specialist emphasizes that a well balanced diet helps to make a child energetic, playful and happy, and his development depends to a great extent upon his getting and learning to eat the right food.

Wheeler Times Wantads are result getters and cost only 5c a line.

Notice, Friends

I have made plans to spend the summer in Wheeler, and will be available for

FOUR MEMBERS REYNOLDS FAMILY RETURN FROM VISIT
Atty. Dennis Reynolds and son, Roland Hugh, and daughter, Miss Arlene, and Miss Agnes Reynolds returned Sunday from Wichita Falls, Dallas and Fort Worth, where members of the party spent the week attending to business and visiting relatives.

Fred Wallace, who had been a guest in the Reynolds home, accompanied the party to his home in Waco. He had been attending Texas Tech at Lubbock and was a roommate of Roland Hugh, also a student at Texas Tech.

Cotton Stamp Meeting Has Large Attendance

Business Men and Farmers Display Interest Here Yesterday—Committee Named

Large attendance and good interest prevailed at the Cotton Stamp program meeting held in the district court room here yesterday forenoon. Purpose of this session was the dissemination of information regarding the Cotton Supplement program, commonly known as the Cotton Stamp plan. Details in connection with purchase of cotton goods under the plan by consumers and acceptance and redemption of stamps by banks and other financial agencies were explained.

Paul Macina of Pakan, chairman of the County Land Use Planning committee, called the meeting to order and then appointed Jake Tarter, county agent, to serve as chairman and introduce the speakers.

Among these were the following: Miss Doris Leggett, district home demonstration agent from College Station, discussed the duties and work of the extension service in conducting the educational portion of the program.

J. N. Rayzor, representative of the Surplus Marketing administration, in an extended discussion said:

"It is of utmost importance that merchants and their clerks fully understand the rules and regulations governing the operation of the program. Retail merchants dealing in cotton goods will be one of the most important groups in this program designed to help our cotton farmers, merchants and the South's No. 1 industry as a whole.

Many more citizens of the United States depend upon cotton for a living than upon any other crop we grow," Rayzor declared. "It is the most important cash crop we grow. On 2,000,000 cotton farms of the South and Southwest more than 10,000,000 persons are dependent for the greater part of their income.

War has sharply curtailed our exports of American cotton which, more than any other American crop, has been dependent on foreign buyers for its market. Accordingly, it is today more in the national interest than ever before that we increase our domestic consumption of cotton goods grown, processed and manufactured in this country. Merchants, farmers and the general public should co-operate in this important national objective of increased cotton consumption," Rayzor concluded.

B. A. Zorns, secretary of the Wheeler County AAA, outlined regulations with which farmers must comply to become eligible to receive the stamps. He stressed the fact that planting must be sufficiently under the 1940 acreage to effect a reduction of 250 pounds of cotton produced in order to get the \$25.00 in cotton stamps.

To expedite the program, a Cotton Industries committee was appointed by the chairman as follows: T. A. Gilman, Mobeetie; M. A. Whitehurst and P. E. Bear, Shamrock; J. G. Haralson, Briscoe; M. Ball, Allison; Floyd Pennington and R. G. Russ, Wheeler.

It will be the duty of this committee to secure the names of every firm in the county within three days and transmit this data to the county agent. He will forward the information to the Dallas office, where the forms will be completed and final arrangements made for Wheeler county merchants to accept cotton stamps in exchange for cotton goods.

June 15 is final compliance date in the cotton stamp program, but it is understood that Wheeler county potential eligibles have practically all signed up at this time.

Club Council Gathers Papers and Magazines
Collection of a carload of old newspapers and magazines, which they expect to sell and raise money for a 4-H club sponsor to accompany the 4-H club girls to Short Course at College Station in July, is a goal of the Wheeler County Home Demonstration council, according to Mrs. Gus Wegner, chairman of the council's finance committee, it was revealed today.

The council budget also includes a trip for the chairman of the council and chairman of sponsors to attend the Texas Home Demonstration association meeting at Beaumont in September. Mrs. Jim Risner of Wheeler is a member of the state committee of sponsors and it is quite important that she attend this meeting.

A portion of the money raised from the sale of papers will be given to the Girls 4-H council. A carload of old papers, an economical unit for shipment, contains 40,000 pounds. The ladies have a substantial start on that quantity now and want to complete the car lot as quickly as possible. A very nice profit can be realized on the undertaking, it is said.

The finance committee, composed of Mesdames Wegner, O. O. Sander and Perry White, will appreciate donations of old newspapers and magazines for this purpose. Any county club member will call for them if informed of their availability.

Improvements Appear INTERIOR AND EXTERIOR All Around the Town

While the risk of unintentionally overlooking some of the items which should be included is fully realized, The Times ventures to enumerate those improvements, interior and exterior, to buildings and property around the town which have come to its attention. Among them are the following:

Puckett's Cash Grocery has rearranged its retail sales space and moved the wrapping counter and cash register to a more convenient location near the door for both clerk and customer.

City Barber Shop and Permanent Wave Shop building front has been treated to a new finish coating of stucco.

Doris Forrester Insurance and Atty. R. H. Forrester law office has had new paint applied to interior and exterior woodwork.

Mr. and Mrs. Albert Hayter have recently re-painted their residence property in the northwest part of town.

W. C. Zirkle is constructing a native stone retaining wall at the Zirkle family home on Highway 152 at the west edge of town.

Grading and landscape work has been done around the water tower and city fire station this week.

Mr. and Mrs. Lindsey McCasland have started erection of a new home on the McCasland farm just south of town. Hub Cole is the boss carpenter.

Chester Lewis, postmaster, was seen mowing grass near the Lewis residence in the east edge of town the other day, and acted like it was work.

The grass has been cut on a certain churchyard and adjoining lot, even though it may let the weeds grow and cause more labor.

If anything was left out of the foregoing, please tell The Wheeler Times and it will "tell the world."

Legalized Sale Boozed Now County Memory

Purveyors Shut Up Shop Monday Night in Compliance with Result of Election

At 12 o'clock Monday night of this week the legal sale of beer and light wines in Wheeler county ceased. This action was in compliance with the result of an election held Saturday, May 3, in which voters of the entire county—by a margin of 29 votes—outlawed the sale of all alcoholic beverages in Wheeler county.

An official count of the ballots was made by the county commissioners court on Saturday, May 10; posting was made, and 30 days from that date the sale of alcoholic beverages became illegal for the first time since a short period during the summer of 1938.

Legalized beer made its appearance in this county in 1934 under the 1933 amendment which allowed local option for selling 3.2 per cent beverage. The drink containing 3.2 per cent alcohol was sold until April of 1938, when a special election was held and the voters said "no" by approximately 50 votes. The election was contested on the grounds of irregularity of ballots and judges, but was finally upheld.

Another election was held in June of the same year on a separate issue, with the ballots reading: "Malt and vinous beverages containing not more than 14 per cent alcohol by volume." This election brought beer and wine in by a margin of 150 votes.

Since that time the two north-side justice of peace precincts have voted beer out in local elections, and although those precincts were dry and the result of the May 3 election would not have affected them, regardless of the outcome, franchise holders in those districts were permitted to vote in the election.

The two Shamrock boxes voted three to one in favor of the legalized sale of beer, with most of the south-side boxes voting in accordance, but the balloting in the north side of the area brought the lead down to favor the dries.

So Monday night at 12 o'clock, beer and light wines, from a legal standpoint, bade farewell, for an indefinite period, to the people of Wheeler county.

PEEPING IN THE WHEELER TIMES WINDOW

Nine soft-shell turtle eggs on display the past few days have attracted considerable attention. Robert Bean caught a large turtle in the creek and turned it over to Charles Hubbard, who opened it and found 11 eggs. Nine were brought in for exhibit.

A heavily laden plum branch in the other specimen on display. It was brought in Monday by Russell Anderson, living a mile north of town.

Mr. and Mrs. Lesley Havenhill, Mobeetie, were Sunday dinner guests of her parents, Mr. and Mrs. Joe Weatherly, three miles east of Wheeler.

Ginnings BY COTTON JOE

Those machines for pickin' cotton outa' the field may work out fine, but the biggest help to the farmer would be to get more cotton goods picked off the store counter.

County School Board Fixes Number Grades

At a meeting of the county school board here Monday, members of that body fixed the number of grades in the various county schools for the coming school term. According to a member of the board, the number of scholastics in a school determines the number of teachers to be employed. This, in turn, establishes the number of grades for each school.

This is also the first year in which 12 grades will obtain in Texas schools. Heretofore, only 11 grades were recognized. Action of state educators at a conference some months ago resulted in the added grade's adoption.

The schools and their grades are: Hay Hollow, none; Briscoe, 12; Rock, none; Kellerville, 8; Heald, 8; Bethel, 8; Locust Grove, none; Corn Valley, none; Pakan, 6; Ramsdell, Benonine, Plainview, Twitty, Magic City, Center, Davis and Lela, each 8 grades; Liberty and Spring Creek, none.

Wheeler, Shamrock, Kelton and Mobeetie will each have 12 grades.

Scholastics in the various school districts, according to the census of several weeks ago, just now compiled and believed to be accurate, are:

- No. 1—Hay Hollow.....10
No. 2—Briscoe.....229
No. 3—Rock.....36
No. 4—Kellerville.....178
No. 5—Heald.....114
No. 6—Bethel.....34
No. 19—Locust Grove.....30
No. 22—Corn Valley.....49
No. 24—Pakan.....36
No. 27—Ramsdell.....26
No. 28—Benonine.....39
No. 30—Plainview.....27
No. 31—Twitty.....62
No. 32—Magic City.....129
No. 33—Center.....87
No. 35—Liberty.....34
No. 37—Spring Creek.....2
No. 38—Davis.....59
No. 16—Lela.....155
No. 14—Kelton.....158
No. 21—Mobeetie.....313
No. 17—Wheeler.....467
No. 9—Shamrock.....888
3162

EXTERMINATION OF INSECT PESTS WITH POISON URGED

Endeavoring to render the utmost in service and co-operation, County Agent Jake Tarter announces that people in Wheeler, Shamrock, Mobeetie or any other community center may obtain grasshopper poison at the mixing stations on the same basis as residents of farms.

In some sections of these towns, it is pointed out, hoppers are numerous and those interested in maintaining and protecting flowers or gardens should examine their plantings and if hoppers are present in appreciable numbers they should be poisoned.

Hopper poison will kill two to three weeks old chicks but will not harm older domestic fowls or prairie chickens.

It is surprising, observes Tarter, how well trees will do despite bagworm infestation. Some people are showing interest in extermination of these pests, as indicated by a number of letters received at the agent's office asking for the formula to kill bagworms. A spray formula, same as that used for army worms, is recommended as follows:

Four ounces calcium arsenate to three gallons of water, or one level teaspoon of arsenate to a small sized fly sprayer.

Bagworms are in almost full hatch now, which affords an excellent time to kill them.

Mr. and Mrs. Al Watson of Pampa came Saturday to take home their daughter, Miss Dolores, who had been visiting her grandparents, Mr. and Mrs. Ed Watson, and friends the past two weeks. The Watson family returned home Sunday evening.

PLACES CHOSEN FOR JULY REGISTRATION

(Continued from First Page)

Page, using the nation at large as an example, asserted that out of one million registrants who have been given physical examinations, 380,000—or considerably more than one-third—have been found unfit for general military service.

"Looking into the cause of the rejections," Page said, "we find that nutritional deficiencies are directly or indirectly responsible for a third of the rejections. That is a dangerous condition which calls for action—concerted action, immediate action, vigorous action."

Of the total number of men rejected in the nation because of physical disabilities, Page said, about one-half were unfit for any military service and the remainder placed in Class I-B, or fit for limited military service. The men in this group, he continued, present a special problem and every effort should be made to correct the physical defects among them that can be corrected so they may be able to fulfill their military obligations.

"That means," he concluded, "we are confronted with the necessity for rehabilitation in cases where it is possible to better physical condition. And we should strive to find a place in the national defense picture for those with uncorrectable disabilities."

ALBERT GUNTER HOME FROM CAMP TO VISIT RELATIVES

Albert Gunter, who is stationed at Camp Clatsop, Ore., came Thursday to spend a week with his mother, Mrs. M. L. Gunter, and sister, Miss Gladys, and brothers, M. L. and Terrell Gunter, and wife.

M. L. Gunter returned by way of Camp Clatsop from Springfield, Ohio, where he transacted business, and brought his brother home via California.

Private Gunter, serving in the coast artillery, returned Wednesday to his duties.

WHAT SAY YOU?

Preach the Word

Preach the Word; be instant in season, out of season; reprove, rebuke, exhort with all longsuffering and doctrine, for the time will come when they will not endure sound doctrine, but having itching ears, will heap to themselves teachers after their own lusts.—II Tim. 4:2-3.

In the beginning was the Word and the Word was with God and the Word was God.—St. John 1:1.

And the Word was made flesh and dwelt among us and we beheld his glory, glory as of the only begotten of the Father, full of grace and truth.—St. John 1:14.

"Always Something New"

He's a grand guy . . . that Dad of yours . . . and June 15 is HIS day. He probably won't admit his pleasure over what you get him, but down deep inside where he thinks no one can see, he'll be tickled pink. A big grin will betray his real feelings. Of course, you've known for a long time that his not caring about sentiment was a bluff . . . he really gets a kick out of being appreciated. So, on June 15 surprise him . . . show him you remember those things he's always done . . . bringing in the bacon, seeing that you got what you wanted and needed. Whatever you do, though, don't forget Father's Day.

You can probably think of dozens of things to remember him with, but if you can't here's a tip: take a look through our stock and you'll find plenty of things to give him . . . your Dad . . . the All-American good fellow.

LADIES—YOU ARE INVITED to attend a most interesting Marie Tomlin Open House Week in our Cosmetic Department.

A presentation of practical information about the care of the skin and the selection of your cosmetics. Demonstrations and instructions under the direction of Bess Conrad
