THE COUNTY SEAT NEWSPAPER

District Court Jury List Is Released

Artie Lee Hunt, court clerk, has released the names drawn for grand and petit jury duty in the approaching fall term of district court here.

The term opens this year on November 9, for a seven-weeks session, terminating shortly before Christmas.

Present indications, it is learned, point to another light docket, similar to that of the past several terms of court.

The schedule of civil and criminal weeks has not yet been made known, other than the first and last weeks will be non-jury, according to usual custom.

The docket will be set the latter part of this month or the first of next.

From the list of 16 grand jurors named, 12 will be chosen for service. Petit jury duty will depend, of course, upon the number and nature of cases brought to trial.

The panels are as follows:

Grand Jurors
R. B. Mann, J. A. Bryant, Bill Cole, M. C. Burgess, Wheeler; M. H. Vaughn, Briscoe; Robert Taylor, R. T. Waldrip, Allison; Tom Lamont, Curtis Lancaster, Leonard Green, Mobeetie; Carl McPherson, Fred Holmes, H. H. Reeves, Shamrock; Noel Revious, Texola; L. McCombs, McLean; A. C. Johnson, Kelton.

Petit Jurors
Second Week, Nov. 16—S. W. Stewart, Albert Anderson, A. F. Waldo, A. J. Worley, Lige Mitchell, Narville Arganbright, Harold Nash, Johnnie May, Wheeler; Clay York, A. H. WORLEY SENDS PICTURE OF GENERAL GEO. MARSHALL FOR LOCAL WINDOW DISPLAY

Fred Ashley, local manager for the Panhandle Division of the Southwestern Public Service Company, stated this week that he had received a letter from Congressman Gene Worley that he (Worley) was sending a photograph of General George Marshall, commanding officer, to go in the company's window display of men in service.

An interesting feature of the approximate ninety pictures now in the window is that of a special display of "last year's models," local men who served in former wars. No names appear on these pictures and it is causing considerable comment as to just who some of them are due to the fact that the pictures were made twenty or more years ago.

SATURDAY AWARDS ARE DISCONTINUED

Last Saturday afternoon, for the one hundred and fourth consecutive Saturday, Wheeler merchants contributed a cash award to a member of the large crowd that habitually favor local merchants with their patronage. Deciding that it is probably a bit unpatriotic to continue giving cash awards under present conditions, local merchants have decided to discontinue the practice, for the time being at least. With the present tire shortage and gasoline rationing soon to be placed in practice it has been decided that it would be better to divert the funds to war bonds and stamps, as some merchants will, rather than encourage persons to drive their automobiles to town when the trip might be avoided.

Cash gifts amounting to a total of \$2,109.26 have been presented during the 104 weeks with 100 persons being recipients. One person has received three awards, two persons two each.

Awards have gone into practically every community in the county. They have shown the merchants appreciation of the patronage afforded them and these merchants will continue the appreciation of all who offer them their business in the future.

Wheeler merchants have long been known as having a deeply loyal patronage afforded them by people of this area and it is naturally expected that this loyal patronage will continue, chiefly because it is a known fact that selections and economy of prices offered by local merchants compare favorably with neighboring towns, even the larger ones.

Discontinuance of the awards will probably have one effect on local trade and that is that business will likely be spread out more over the week and persons will take advantage of making every trip to town count and make as few trips as possible—a habit that should be put into effect by everyone because of its patriotic advantages.

Briscoe Gins First Cotton of Season

B. F. Holland, manager of the Briscoe Gin, reports that the first bale of 1942 cotton arrived there Tuesday. 520 pounds of lint was ginned from a load of 1,870 pounds of bolls. Frank McDonald brought in the first bale. A contribution for the usual first bale honors is to be contributed by Briscoe and Wheeler merchants, Mr. Holland stated.

Absentee Balloting Started October 14

General election ballots were printed and delivered this week to the county clerk's office in time for absentee balloting to start Wednesday, the date scheduled for such balloting to begin. October 30 is the last day absentee balloting is permitted. Soldiers from Wheeler county who paid their poll taxes before the first of February may vote in the General Election of Nov. 3. Application must be made for an absentee ballot to County Clerk Harry Wofford.

MONTAGUE SALE IS POSTPONED UNTIL NEXT WEDNESDAY

Leonard Green, Mobeetie auctioneer, announced late yesterday that the H. E. Montague public auction sale that was scheduled for Wednesday of this week, had been postponed until next Wednesday, October 21, because of rain. A large amount of farm implements, cattle, hogs, horses, chickens, household items and many other items have been listed for the sale. Times readers may secure information pertaining to the sale by reading the ad on the back page of this issue.

FSA Anxious to Help Farmers of County Produce Foods

Full mobilization of manpower on the small farms of Wheeler county for increased food production is needed to win the war, Frank O. Wofford, rural rehabilitation supervisor for the Farm Security Administration, believes.

"Unless our small farm operators can produce greater quantities of food," said Mr. Wofford, "our country will be compelled to ration almost all foods and there is no assurance that we can maintain nutrition needs of our civilians."

"For this reason," he continued, "the federal government has ordered the Farm Security Administration to extend every possible aid to low income and small farm and ranch operators to enable them to increase production."

The supervision said the FSA's loan policy, collection policy, health, tenure improvement, cooperative, and farm ownership programs, and all other phases of the total FSA effort is being directed and coordinated into a wartime food production program.

Urging all families in Wheeler county to make the most of their opportunity now to conserve food and feed and to plan for next year's production, Mr. Wofford advises that application for operating loans are being received from farm families at his office in the Court House at Wheeler.

"The farmer's main job now is to produce food and this will continue to be his main job until the war is won. Farm Security is anxious to help all eligible borrowers in the nation so they may exert every effort to feed the United Nations as well as themselves," he said.

Farm Stored Cotton Eligible for Loan

Government loans on cotton in farm storage will be made this year for the first time, Fred Rennels, assistant state administrative officer of the Agricultural Adjustment Agency, announced today.

Heretofore, farm stored wheat and other grains have been eligible for loan in restricted areas, but only cotton stored in commercial warehouses could be placed under government lease. Under the new provision, loans on farm-stored cotton will be available throughout the Cotton Belt.

Under the 1942 cotton loan program, loans would be available only to cooperators on eligible cotton stored in approved farm structures. The farm storage phase of the loan program will be administered in each county by the Agricultural Conservation Committee, and a member of the committee must approve all loans.

A storage allowance of 10 cents a bale will be allowed the producer storing cotton on the farm, provided the cotton is delivered to Commodity Credit Corporation in satisfaction of the loan. Farm-stored cotton offered as security will be inspected by a county loan inspector appointed by the county committee. Such cotton will be classed by a U. S. Board of Cotton Examiners.

To be acceptable for cotton storage, a farm structure must be in such condition that it will (1) protect the cotton from damage by rain, snow, flood, and ground water, (2) provide protection from damage by poultry and livestock, and (3) provide reasonable protection against loss by fire and theft.

The structures in which the cotton may be stored, the AAA official explained, must be located within a reasonable distance of adequate water supply which is constantly available for use in case of fire, and a floor or supports to keep the cotton off the ground. Storage which is part of a barn containing hay or other highly inflammable materials will not be approved.

"With a shortage of commercial warehouses in evidence," Rennels said, "the new farm storage plan will enable more cotton farmers to use the advantages of the government loan. It is another forward step taken by the government to assist farmers who are making such a valuable contribution to the nation's war efforts."

Local county AAA offices can supply full information to farmers desiring to obtain a loan on farm-stored cotton. Loan forms and instructions are now being distributed to county offices.

NEWS FROM THE BOYS IN SERVICE

HARRY GARRISON IS ONE OF TEN-MAN GUARD FOR PRESIDENT

In a letter received recently by Mrs. Inez Garrison from her son, Harry, Marine stationed at Bremerton, Washington, he reveals that he was honored with being one of a ten-man guard escort for the president during the recent nation-wide tour made by the chief executive.

Excerpts from young Garrison's letter are as follows:

Dear Folks,
You are now hearing from the luckiest Marine in the world. I hope you will excuse me for not writing, but when you hear what has happened, maybe you will understand. In order for you to get the whole thing straight I will start at the first. Night before last I had liberty and when I went down to get my card I found out that all liberty had been cancelled. A little later they came up and told us all to get cleaned up and to fall out at 7:30 the next morning. We got all squared away and then fell out at the said time. They then informed ten of us to get into our 'blues.' We did this and then went back. They put ten of us on a truck and took us over by Tacoma where a big bridge had washed out. We waited for the ferry to come across and when it landed, guess who came off? None other than Franklin D. Roosevelt, Frank Knox and Admiral Nimitz. Now, just try to figure out how I felt being in a ten-man honor guard for the president, secretary of the navy and commanding officer of the U. S. fleet. I rode in a convertible Packard, right in front of the official car and we came right on into the yards. He made a short speech and then we all went to the Naval Hospital.

After that we all had lunch and did I feel big. I didn't get to sit at the same table, but I did eat in the same room with the notables. The fact that none of us knew what was happening before he rolled off the ferry makes it all the more exciting. You should have seen the jaws drop, and you should have seen the guests that were present. There were soldiers lined up from here to Seattle and sailors from here to Seattle. There were about 20 army generals and about fifty navy admirals. It looked as though all the cops in the state were present, together with about half of the FBI. All the rest of the Marines were lined up here in the yard and it was the biggest thrill I ever had. Gosh, I'm lucky.

The president said if they would let him he would tell all the people what he has seen while touring. Photographers took several pictures for the papers and it is possible that I might be in some of them.

I don't know of much more I can say now, as I'm still sorta dumb-founded. I will try to write again soon. Love,

FLUNK.

Mr. and Mrs. Luther Petty of McLean have recently learned of the promotion of their son, Francis L. Petty, from Sergeant to Staff Sergeant. He was transferred August 15, from Las Vegas, Nev., to March Field, Riverside, California. Sergeant Petty has been in service since February, 1941. He is assistant chief clerk in the technical supply section of the 84th Service Squadron.

Word was received this week from the West Texas Recruiting and Induction station at Lubbock that Burford West Reynolds of Shamrock has recently enlisted as Air Corps Specialist in the armed forces.

Relatives of L. D. Whiteley have recently learned (since now it can be told) that the young man's squadron took part in the battle of Midway. L. D. reports that not a man was killed and that they all saw action. All planes got back to their base safely even though one had a hole 2 feet in diameter shot in it and only two engines out of four working when it landed.

J. M. Burgess received the following letter early this week from his son, Bailey, now somewhere in the Pacific:

Dear Ones:
How are all of you? I am safe and sound and have had a fine trip. I surely hope we get to stay at this location. I have not been on land yet, but it is only a few minutes to land. We have several boats to go ashore with. Don't ever think we are without protection. I am really satisfied. We surely have had a nice trip—I did not get seasick. Only a few of the boys did. I hope I can see some of the boys soon. One man on our boat saw his son yesterday. Another boy got to see his brother. Both were on some other ship and

SCHOOL CHILDREN OVER TOP IN SCRAP DRIVE

Even though the school's salvage drive has not been completed, reports indicate that every school in Wheeler county will go over the top in quotas designated at the start of the campaign. Schools were dismissed Monday afternoon and children could be seen going in every direction in gathering the much needed metals to feed Uncle Sam's furnaces.

54 pupils of the Magic City School turned in 55,020 pounds of scrap in the first few days of the drive.

42 pupils of the Twitty School have turned in 2,499 pounds. Early this week 300 students of the Mobeetie Schools had collected 81,000 pounds of scrap metal.

The Wheeler grade school had accounted for about 15,000 pounds of the salvage. Names of the students contributing 20 pounds or more of the scrap, the quota set for each child, together with more complete reports of the drive, are to be published at a later date.

First school child of the county credited with bringing in his bit of scrap metal for Uncle Sam is James Douglas Hubbard of Twitty who brought 120 pounds of the metal to County Superintendent Dyer on Sunday, October 5, after he learned a drive was in the making.

WORK STARTED ON INTERNMENT CAMP

Ground work on the Japanese internment camp, 18 miles west of Shamrock, was started last week end, and the camp is expected to be completed in about five months, a representative of the Randall Construction company of Amarillo stated this week.

Two contracts, each specifying "less than \$1,000,000" have been awarded on the project. One for the construction area grading, roads streets and drainage was awarded to the Plains Construction company of Amarillo and J. L. Foxworth of Dallas for construction of general housing.

The camp site is in Gray county, bordering Wheeler county line and one mile north of 66 highway. The camp will cover one section of land. The camp is supposed to be completed within three months, but contractors expect winter weather to extend the work about two months.

Funeral Services Held for Pioneer Ranchman

Funeral services were held at the Briscoe Baptist church Sunday afternoon for E. L. (Bud) Puryear, long time ranchman of south Hemphill county.

Mr. Puryear was born in Whitfield county, Ga., June 22, 1876 and died in the Shattuck, Okla., hospital Friday.

He came from Georgia to Okla., in December 1895 and to the ranch on Gageby creek, Hemphill county, Texas, in 1903, where he has since resided.

The deceased is survived by his widow and five children. A son, Joe, is with the U. S. Army and now at Sheppard field; Jeff and family live in Briscoe; Jane is employed in the First National bank, Canadian; Paul and Ruth are at home on the ranch with their mother.

Four pastors of Mr. Puryear's assisted in the funeral service, Rev. E. M. Dunsworth, now in Pampa, who came first to this section of the Panhandle as Baptist missionary in 1925, Rev. M. E. Wells and Rev. Fields formerly of the Zybach church, and Rev. Wood, the pastor of the Baptist church in Briscoe now.

Downpours Detrimental to Maturing Cotton

An approximate two and one-half inch rain that fell over this area Tuesday night and Wednesday is said to have caused considerable damage to maturing cotton as the lateness of a vast majority of the crop necessitates lots of sunshine for proper maturity at this time of the season. However, clearing skies today have given hopes that the rainy spell will not be of long duration. Feed crops are also late in this section and need warm, clear weather for maturing.

Mr. and Mrs. Luther Petty and daughter, Miss Zora Idabel, visited in the home of Gray County Treasurer W. E. James at Pampa, Thursday night. Mrs. Petty and Mrs. James are sisters.

David F. Eaton is spending Thursday and Friday in Childress, where he is attending a district meet regarding quotas and marketing under the AAA program.

MUSTANGS READY FOR FIRST HOME CONFERENCE GAME FRIDAY NIGHT

Ready, willing and determined to do their best in their first home conference game of the season, the Wheeler Mustangs declare themselves ready to pit their skill, speed and strength against the Memphis team here Friday night. The game is called for 8:15. Gates to the grandstand will open at 7:30.

While realizing that they are meeting a more experienced team, as several of the Memphis squad are last year lettermen, the local lads are eager to enter the fray and carry on the honored traditions of Mustangs squads who have gone before them by playing the game fairly and putting everything that they have into it. Speed, together with tricky plays, will likely offset any weight or experience disadvantage the local squad may possess. With the promise that the game will be high-lighted with plenty of thrills and action and a determination to win the first home conference tilt, the boys are naturally expecting a large, loyal turnout of local fans to see this initial home performance.

Starting lineup for the Mustangs will probably include Johnson and Farmer as ends, L. Craig and Herd as tackles, Pettit and Lamb, guards, C. Pendleton, center and Burton, F. B. Craig, Robertson and Riley as backs.

Last Friday night the Mustangs were defeated by the White Deer Bucks 21 to 6, a score that indicates the game a bit more one-sided than it really was. Several tough breaks resulted in the slightly top-heavy score, was an opinion expressed by some of the several local fans who saw the game. C. Pendleton's defensive playing and Robertson's and Riley's offensive play were said to have been outstanding highlights of the game.

Coach Phillips announced this afternoon that the schedule for games this year has been changed from that recently announced. The Mustangs are to go to Wellington Friday, October 23, instead of playing Canadian here, as it was previously announced.

Boards Advised to Defer 'Essential Men'

General J. Watt Page, State Selective Service Director, today cautioned all local boards against withdrawing from war production industries and transportation services "necessary men" because they happen to be without dependents. He said:

"If a registrant qualifies for occupational deferment as a 'necessary man' under the provisions of the Selective Service Regulations and any of the several National Headquarters Occupational Bulletins, then he should be classified II-A or II-B, depending upon the character of the industry, even though he is single, and married men, not essentially employed, will have to be used to fill the board's call.

"Boards should remember that practically all war production industry is still in the period of expansion and that every man or woman they are able to train is used to fill a new job. The same applies to transportation services, whose facilities are taxed to the utmost by troop and war freight movements. Very few industries have been able to train replacements for their potential I-A employees. Accordingly, local boards should give most careful consideration to the continued deferment of 'necessary men' in war production and transportation until such time as replacements are available or can be trained."

In the long run, public pressure will force the adoption of a real anti-inflation program. And that program will involve ceilings on the wages of labor as well as the profits of industry and the income of farmers.

There has been much senseless talk about farm prices being primarily responsible for the high cost of living.

Farmers are not asking for favored treatment. They are asking, instead, for equitable treatment. They are pointing out that the farmer can't be made the goat in the fight against inflation. If the prices he receives are to be limited and perhaps reduced, the wages received by labor must be given the same treatment.

There is far less excess purchasing power on the farm than in labor circles. The greatest pressure in favor of inflation today is the billions of dollars in record wages which labor is receiving. And all the argument in the world can't offset that fact.

The military men think that German air-raids on England will increase heavily this winter. Reason: ice and snow will immobilize the opposing forces in Russia, and that will make it possible for Goering to divert the air force to the West.

At the same time, Allied airpower is growing fast, and very ambitious plans have been made for blasting the Reich from the skies.

ROAD TO VICTORY!

I don't want to tell anyone else what to do with his money. This is a note to myself:

What do you mean,
Walking around in Nylons without

When MacArthur needs guns?

You've killed a lot of people, Scherf
But what have you done
To hustle Adolph under the turf?

Oh! you bought some 10c stamps?
Well, well.
An occasional dime
Isn't going to construct a griddle
For Goering's middle.

You'd better fork over to your

Or you will be sitting in the Nazi

Writing in Hygeia, R. M. Cunningham, Jr., declares that medical frauds cost the public millions of dollars annually. This money is spent for worthless gadgets, fake cures and nostrums which are dangerous to the health as well.

There are state and Federal laws designed to protect the public from medical quackery: But the perpetrators of such frauds often show a high degree of ingenuity in getting around the law. In many instances, worthless and injurious medicines will be on the market for a long time before successful legal action to banish them can be taken. As a result, the only sure protection is public knowledge and awareness of medical frauds.

The unscrupulous manufacturers and salesmen of fake nostrums work on the fact that sufferers from serious disease will grasp at straws. For many years, tuberculosis cures were sure-fire sellers. In one case, a compound was advertised as a cer-

Scissored and presented for publication by W. F. (Deacon) Wright. I'm one of the fellows who is making the world safe for Democracy! I fought and I fought and I fought—but I had to go anyway. I was called in Class "A." The next time I want to be in Class "B." (Be here when they go and B here when they come back.) I remembered when I registered. I went up to a desk and the man in charge was my milkman. He said, "What's your name?" I said, "Oh, you know my name." "WHAT'S YOUR NAME?" he barked. So I told him "August Childs." He said "Are you an alien?" I said, "No, I feel fine." He asked me where I was born, and I said "Pittsburgh." Then he said, "When did you first see the light of day?" I said, "When we moved to Philadelphia." He asked me how old I was so I told him, "Twenty-three the first day of September." He said, "The first of September you'll be in China and that will be the last of August."

Then I went to camp and I guess they didn't think I'd live long—the first fellow I saw wrote on my card "Flying Corps." I went a little further and some fellow said, "Look what the wind's blowing in." I said, "Wind nothing, the draft's doing it." On the second morning they put these clothes on me. What an outfit! As soon as you're in it you think you could fight anybody.

They have two sizes—too small and too large. The pants were so tight I couldn't sit down. The shoes were so big I turned around three times and they didn't move. What a raincoat they gave me! It strained the rain. I passed an officer all dressed up with a funny belt and all that stuff. He said, calling after me, "Didn't you notice my uniform when you passed?" I said, "Yes, what are you kicking about—look what they gave me."

treaty with Germany was in full force and effect. Russia was aiding Germany while England was being blasted almost off the map. England cried for help and got it. Maybe Uncle Sam will be as lenient with Russia. No nation is so friendly as in time of need.—The Donley County Leader.

The next time a speeder passes you on the road try giving him three toots of your horn.

The other day a radio announcer told about his success with the treatment. He was driving along at 30 miles an hour when a car went whizzing by him. Realizing that this driver was wasting gasoline and rubber, the announcer tooted his horn three times as if to say, "Don't be a Nazi."

The car went speeding on past a second conservative driver. That driver took up the cue and blew his horn three times. Both watched as the speeder showed he realized what it was all about by pulling over to the side of the road and taking it easy for the rest of the trip.

Whether it's three toots of the horn or any other signal, it's a good idea for all of us to have a way we can express our resentment against anyone "speeding as usual" these days. Since the three-toot signal has been started let's carry it on.—The Paducah Post.

tain cure for tuberculosis without surgery, segregation or diagnosis! Today, many fakers are specializing in worthless remedies for diabetes, claiming that they can effect permanent cures regardless of the age or condition of the patient.

"At best," as Mr. Cunningham says, "these victims are defrauded of their money—but there are graver consequences. Their health is endangered by delaying the scientific diagnosis and treatment which hold their only real chance for recovery. Worse yet, in many instances they may have taken treatments or medications which were actually harmful." The American people can put the frauds out of business by refusing to patronize them—and by consulting registered physicians when ill.

There is great deal of talk at this time concerning proposals of enforced purchasing of War Bonds. Some such plan as this may become inevitable under any circumstances. And it is certain to be adopted in the relatively near future unless the people substantially increase their voluntary purchasing of Bonds and Stamps.

The Treasury some time ago established a goal of \$1,000,000,000 worth of Bond and Stamp sales monthly. That goal has not been reached. It must be reached and passed if the war is to be properly financed, and if excess purchasing power, the creator of inflation is to be reduced.

American business has responded superbly to the War Savings challenge. The banks, for example, long ago started stressing War Bonds in their advertising and in displays. They have done everything in their power to encourage the public to buy, and they have paid out of their own pockets the heavy promotion costs.

A similar work on a nation-wide scale is being done by retailers. Stores are making special efforts to increase the sales of Stamps as well as Bonds, and they have been notably successful. A very high percentage of all War Savings are made through stores today. In their case, as with the banks, the participating stores are paying all the expenses, and they are promoting Stamps and Bonds in every possible way.

The public has responded fairly well to these drives—but not well enough. In these days, when wages are at record levels and almost any man or woman can quickly obtain a good job, all of us can afford to take all or part of our change in Stamps when we shop in stores. All of us can afford to buy one or more Bonds each pay day. Certainly, giving up some luxuries is a mighty small price to pay to help the war effort along. The duty of every American is plain—to cut his personal expenditures severely, and to put the money into War Savings. Remember that next time you go to the bank or to a retail store featuring Bonds and Stamps.

When Congress approves the restrictions on farm prices recommended by the President, it should at the same time enforce equally strict ceilings on wages.

The principal farm organizations of this country, such as the marketing cooperatives, have never blindly opposed equitable controls over farm prices. They have, however, pointed to the obvious fact that the cost of living cannot be held down unless wages are held down. In short, the worker can't have his cake and eat it top.

Increasing prices can be controlled only by placing ceilings over costs that enter into the operation of business, farm and home. There can be no exceptions, and no favorites.

Pertinent Paragraphs from Panhandle Press

Items of interest culled from newspapers on The Times' exchange list.

Ramsey S. Black, third assistant postmaster general, is authority for the statement that newspapers to men in the armed forces will be forwarded to new addresses, when they are transferred. This service is given only to first class mail to persons other than in the armed forces.—Ochiltree County Herald.

President Roosevelt made a sweep across the nation to visit the vital war plants. He wanted to see for himself just what was going on in all parts of the nation. His trip was kept quiet. Every newspaper was notified before the President started that no publicity was to be given of the trip until the President authorized a statement. As a result the President traveled from plant to plant without local interference; saw what he wanted to see; talked with people whom he wanted to meet; and at every plant even the workers did not know of his coming until the President appeared for the inspection. It was a fine compliment to the newspapers that the President made his long trip without the slightest word appearing in print regarding the trip. Most Americans thought he was in Washington all the while. This is a thought for the Third Annual Newspaper Week: The newspapers of America are keeping faith with our government, and are doing everything within their power to further the war work.—Canyon News.

No man is indispensable, as every death proves, yet we see some men holding on to their small responsibilities long after others might do it better. Of course, lots of men refuse to accept responsibility, but there should be a happy medium and the best men possible selected for responsible positions in every community.—McLean News.

Remember, back in the lush days when Herbert Hoover was elected President, the campaign slogan was, "Two cars in every American garage and a chicken in every pot." Memory of the slogan caused a radio speaker to observe, "Now the chickens are in the garage and the cars have gone to pot."—Higgins News.

A lady just told me some mighty fine logic about rationing. She said: "When they ration something to us here at home, it kinda makes me feel glad, cause I know that's just a little more that the boys are getting." Well, now that's a mighty fine way to look at it. Much better than the way some folks take it.—Roy Hahn in The Briscoe County News.

The space chisels of the postal department, the civil service commission and the thousand and one governmental agencies, bureaus, commissions and departments keep up their ever increasing barrage of publicity releases to the newspapers of America. If the smart boys in Washington and their satellites throughout the nation had their way about it, the newspapers of America would be nothing more or less than bulletin boards for the government. And if some of you government boys want to get sore at us for this, that'll be okay. You'll probably throw the word slacker at us. All right, Big Boy, the government is paying you for what you do. The newspapers are giving their space. What are you giving?—Ochiltree County Herald.

Politics may create strange bed-fellows, but not so strange as war. Russia today is crying for the Allies to begin a second front, likely needing help. Then one can recall less than two years ago when Russia's

grees below they called us out for an underwear inspection. Talk about scenery—red flannels, B.V.D.'s—all kinds. The unionsuit I had on would fit Tony Galento. The lieutenant lined us up and told me to stand up. I said, "I am up, Sir, but this underwear makes you think I'm sitting down." He got so mad he put me out digging a ditch. A little while later he passed me and said, "Don't throw that dirt up here." I said, "Where am I going to put it?" He said, "Dig another hole and put it there."

Three days later we sailed for Australia. Marching down the pier, I had the worst luck. I had a sergeant who stuttered, and it took him so long to say "HALT" that 27 of us marched overboard. They pulled us out and lined up on the pier. The captain came by and said, "Fall in!" I said, "I have been in, Sir."

I was on the boat 12 days—seasick for 12 days. Nothing going down and everything coming up. Leaned over the rail all the time. In the middle of one of my best leans the captain rushed up and said, "What company are you in?" I said, "I'm all by myself." He asked me if the brigadier was up yet. I said, "If I swallowed it, it's up." Talk about dumb people, I said to one of the fellows—"I guess we dropped the anchor." He replied, "I knew they'd lose it—it's been hanging out ever since we left New York."

Well, we landed and were immedi-

ately sent to the trenches. After three nights there, the cannons started to roar and the shells started to pop. I was shaking with patriotism. I tried to hide behind a tree, but there weren't enough trees for the officers. The captain came around and said, "We go over the top at 5 o'clock." I said, "Captain, I'd like to have a word with you." He said, "Well what is it?" I said, "I'd like to have a furlough." He said, "Haven't you any red blood in you?" I said, "Yes, but I don't want to see it."

Five o'clock we went over the top and 10,000 Japs came at us. The way they looked at me you'd think I had started the war. Our captain yelled, "Fire at will!"—but I didn't know anybody by the name of Will. I guess the fellow behind me thought I was "Will" because he fired his gun and shot me in the excitement!

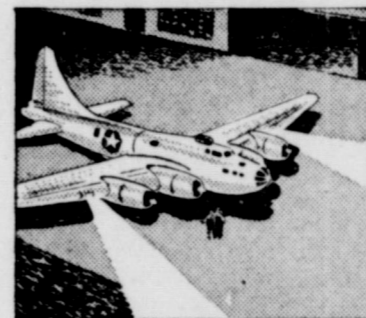

NEVER AGAIN

Mother wanted to spend Saturday in town, and father, an accountant reluctantly agreed to give up his golf and spend the afternoon with the children. On the return of the mother, the father handed her the following report of the afternoon:

"Dried tears—9 times. Tied shoes—13 times. Toy balloons purchased—3 per child. Average life of a balloon—3 seconds. Cautioned children not to cross street—21 times. Children crossed street—21 times. Number of Saturdays I will do this again—0."

Wings of Victory

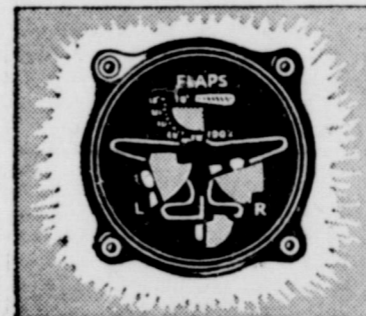

Electricity helps make America's war planes some of the world's most deadly weapons. Here are a few of the ways in which G-E equipment serves in the air.

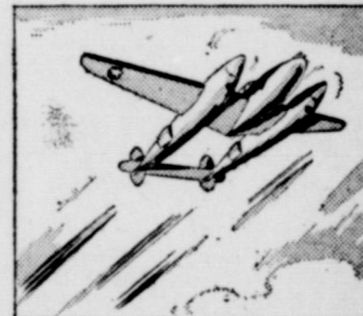

1. Lamps are the eyes of the plane at night, ranging in size from cockpit lamps no larger than a pea to landing lamps of more than half-a-million candlepower.

2. Radio combines the voice and the ears of the plane, allowing communication between the pilot and his squadron, and the ground and sea forces.

3. Instruments are the sensitive brain that relays messages to the pilot from all parts of the ship and helps him to control the plane in its flight.

4. Superchargers are the lungs of the plane, pumping extra oxygen to the carburetors, giving our planes the altitude so necessary to modern warfare.

Buy Your Lamp Bulbs Now--Avoid Fall Rush

SEVEN LAMPS 72c

That is the price of the Special Household Carton which includes 1-100, 1-75, 3-60, and 2-40 watt Mazda Lamps.

NO FALL ACTIVITY

Because of the restrictions on purchases from Lamp Manufacturers, it is essential that purchases by users be spread out more evenly throughout the year.

NO HOME DELIVERIES

Because of the importance of conserving rubber for the war program, the delivery of lamp bulbs has been discontinued for the duration.

SPARES ARE NEEDED

Lamp bulbs burn out without warning, leaving you in the dark unless you have spares on hand. Spares will eliminate special trips down town—and thereby save rubber too.

PROMPT ACTION WISE

The usual fall rush for lamp bulbs could create at least a temporary shortage. The wise thing and the safe thing is to anticipate your needs and order NOW.

The officers of F.H.T. met last Thursday afternoon for the purpose of planning the year's work, and made plans for a few socials. They decided to do Red Cross work.

81,000 Pounds of Scrap Collected

The Mobeetie Schools took a day off from their study to collect scrap to make Uncle Sam scrap happy. The drive will continue for two weeks. There was 81,000 pounds collected Thursday, October 8. Jimmy Walker brought in the most scrap which was a little over 4,000 pounds.

Mrs. Si Marchbanks weighed all the scrap at the lumber yard and Mrs. Scribner, Miss Burton, and Mrs. Green stayed at the school to weigh little amounts of scrap. Superintendent Jack Davis used his "precious" tires on his car and trailer to haul the scrap to the school.

C. E. Trimble was leading the high school Thursday; Bud Carroll Scribner was second; and Helen Trout was third.

Prizes amounting to ten dollars in war stamps will be given for the most scrap collected at each school. Five dollars will be given to the first winner; three dollars, second and two dollars, third place.

PROTECT YOUR TIRES INSIDE AND OUT

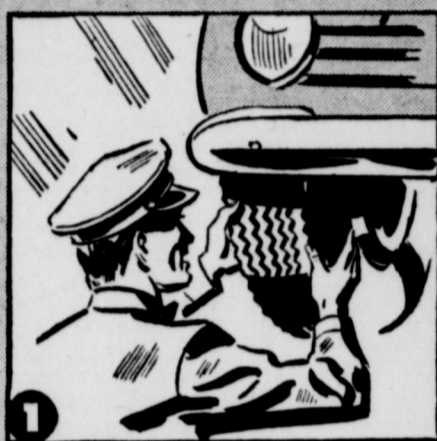

with the New

Firestone

TIRE INSPECTION

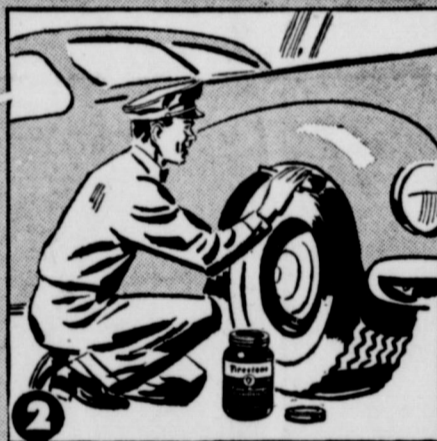

and EXTRA MILEAGE PLAN

Here's what we do

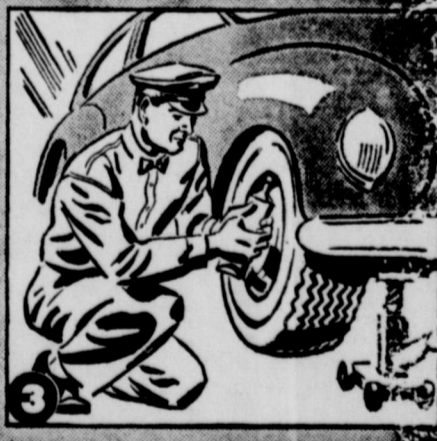

We Will Inspect and Rotate Your Tires from Wheel to Wheel and Help You Get Extra Mileage

First, we inspect each tire, removing glass, tacks and other foreign particles imbedded in the tread. The tires will then be rotated scientifically from wheel to wheel to assure more even wear. This service helps increase tire mileage.

We Will Apply Firestone Extra Mileage Tire Preservative

Next, the tread and sidewalls of each tire will be thoroughly treated with Firestone Extra Mileage Tire Preservative. This is an entirely new process that seals the cracks in the rubber and protects against oxidation. This service helps protect tire mileage.

We Will Apply Firestone Extra Mileage Puncture Seal

Finally, we apply Firestone Extra Mileage Puncture Seal to each of your inner tubes. This sensational new development automatically seals leaks and punctures caused by nails, tacks or small pieces of glass, thereby minimizing the danger of flat tires. It helps maintain correct inflation. This service assures increased tire mileage.

W. M. Jeffers, Rubber Administrator, Urges You to Have Your Tires Inspected Immediately

The rubber on YOUR car is actually more precious than gold. And it is your patriotic duty to conserve your tires Now. Don't wait for compulsory tire inspection. Help America conserve rubber by having your tires inspected today at your nearby Firestone Dealer or Firestone Store.

Use Our New Firestone Tire Inspection and Extra Mileage Plan

Firestone Dealers and Firestone Stores are equipped to expertly inspect the tires on your car, to inflate them properly and to switch them from wheel to wheel. In addition, we will apply Firestone Extra Mileage Tire Preservative to your tires and Firestone Extra Mileage Puncture Seal to your tubes. These two new amazing products, developed by Firestone engineers, are designed to help you protect the mileage in your tires. And we will advise you when it is time to have your tires inspected again.

This Plan Assures You of Extra Mileage from Your Tires

Whether you can buy new tires or not — you want to get the most miles out of the tires now on your car. And that's what our Inspection and Extra Mileage Plan gives you.

Don't put off your inspection. Drive in today! You have a real opportunity to save money and get our expert service that will help you get more mileage out of your tires.

WOMEN'S CLUBS AND SOCIAL EVENTS

PFC. E. C. JONES IS TO WED CALIFORNIA GIRL

Word has been received here by Mr. and Mrs. Edmond Randolph Jones of their son, Pfc. E. Clowes Jones, of Hamilton Field, Calif., and Miss Claire Burtchaeil, daughter of Mr. and Mrs. Clarence Burtchaeil, of Ross, a suburb of San Francisco.

The engagement was announced recently at a tea Mrs. Burtchaeil gave to honor Miss Helen Harkey, bride-elect of her son, Sam Burtchaeil of Seattle. In May, Miss Burtchaeil caught the bouquet at the wedding of a cousin, giving credence to the tradition that the one who "catches" a bride's bouquet is herself soon to be a bride.

The couple will not marry until after the war is over.

The bride-elect is a graduate of Leland Stanford University, Palo Alto, where she was a member of Hammer and Coffin, honorary humor magazine. She is a member of the Women's USO committee of Northern California.

Pfc. Jones is a graduate of the Wheeler High School and his parents, Mr. and Mrs. E. R. Jones, made their home in Wheeler about twenty-one years, leaving here in March of 1941 and moving to Lubbock.

COUNTRY NEIGHBORS LEARN OF MENU ECONOMY

"Not only is it possible to reduce the cost of the menu by using home grown and home stored vegetables and fruits, but the satisfaction of having a supply of fresh fruits and vegetables at all times means much to the homemaker," said Miss Lucile Chane, Wheeler County Home Demonstration Agent, to the Country Neighbors Home Demonstration Club which met in the home of Mrs. Thomas Todd, Friday, October 9th, at 2:30. She also gave an interesting talk on First Aid. Those enjoying the meeting were Mesdames John O'Gorman, Roger O'Gorman, H. N. Carver, Forest Carver, W. A. Nelson, M. A. Pillers, Gus Wegner and Miss

Cecilia O'Gorman and the hostess, Mrs. Todd.

The next meeting will be with Mrs. W. A. Nelson, Oct. 23, at 2:30 p. m. All members urged to be present. Visitors always welcome.

SOCIAL SPONSORED BY LIBERTY HOME DEM. CLUB

The Liberty Home Demonstration Club sponsored a social at the school house Wednesday night, attended by husbands, children and a few friends, with 42 being played by the adults and outdoor games by the young folks and children.

Those present were Mr. and Mrs. Floyd Lively, Mr. and Mrs. C. T. Calvert, Mr. and Mrs. Olen Davis, Mr. and Mrs. H. L. Dorsey, Mr. and Mrs. A. L. Morgan, Mr. and Mrs. Luther Petty, Mrs. C. A. Myatt, Messrs. Meredith Corbin, W. L. Lewis and son Bill, Lawrence Prevett, Buddy Shuping, Kenneth Davis, Troy Corbin, Clinton and Ray Dorsey, C. A. Barney and Keith Myatt, Miss Zora Idabel Petty, Mary Jo Lewis, Lou Ann Wall, Norma Lee Myatt, Dorothy Sue Davis, Annie and Cleon Jones, Eulamae and Sue Lively.

MRS. BUCK BRITT IS WEDNESDAY CLUB HOSTESS

Mrs. Buck Britt was hostess for the Wednesday Study Club, Wednesday afternoon, October 14.

"Pottery" was the theme of the program, with Mrs. Ansel McDowell as leader. Mrs. Bill Burden of Shamrock, was guest speaker. She gave a very interesting review of the "History of Pottery," with roll call being answered by "Display of Pottery."

Refreshments were served by the hostess to the following members present: Mesdames Holt Green, M. L. Gunter, Lee Guthrie, Joe Hyatt, R. D. Holt, John Lewis, Jimmie Mitchener, Ansel McDowell, Floyd Pennington, J. M. Porter, Glen Porter, T. S. Puckett, H. M. Wiley, Ed Watson, W. C. Zirkle, Bronson Green, D. A. Hunt, Wayne Cook and Nelson Porter.

W. S. C. S. CONTINUES LATIN AMERICA STUDY

The W. S. C. S. met Monday afternoon in the church parlor for another lesson on their study of Latin America, led by Mrs. J. M. Porter. Mrs. D. E. Holt gave the devotional. A playlet demonstrating the needs of South America for Christian work was presented by Mrs. Joe Hyatt, Mrs. Albert Hayter and Mrs. Lloyd Davidson. A "Primer of Latin America" was displayed and various members attending the meeting gave the illustrations.

Those present were Mesdames J. M. Porter, J. D. Merriman, D. E. Holt, Roy Green, Loyd Davidson, Albert Hayter, Wayne Cook, H. M. Wiley, Joe Hyatt and Mrs. Elizabeth Wren.

W. M. U. MEETS WITH MRS. GEO. PORTER

The W. M. U. met in the home of Mrs. Geo. Porter, Monday afternoon. Mrs. Floyd Pennington conducted a short business meeting, before the Bible study which was directed by Mrs. Jimmie Mitchener.

At the close of the study, refreshments were served by the hostess to the following: Mesdames Narville Arganbright, C. N. Wofford, J. W. Williams, Curtis Pond, Minnie Farmer, Frank Wofford, Floyd Pennington, Lee Guthrie, A. C. Wood, Carl Lafflin, Jimmie Mitchener, J. N. Green and M. L. Gunter.

The W. M. U. will meet with Mrs. J. W. Williams next Monday afternoon.

MRS. WALSER IS STITCH AND CHATTER HOSTESS

Mrs. H. H. Walsler was hostess to the Stitch and Chatter Club, Monday afternoon. Sewing was the afternoon's diversion.

Refreshments were served to the following: Mesdames D. O. Beene, Jud Johnson, Bob Rodgers, Frank Noah, S. P. Hodnett, E. G. Pettit and W. E. Bowen and the hostess.

The next club meeting will be with Mrs. D. O. Beene, October 27th and will be a Hallowe'en party with the husbands as guests. The group is to meet at 8 p. m.

BUSINESS WOMEN'S CLUB RESUMES FALL STUDY

The Business Women's Club resumed its studies for the fall and winter, after a two month's vacation. The club met at the Home Ec. Cottage Monday evening at 8 o'clock. Mrs. Jack Garrison was program leader, assisted by Mrs. Inez Garrison, Mary Eunice Noah and Ina Faye Robison.

Members present were Mesdames R. H. Forrester, Jack Garrison, J. L. Gilmore, Bryan Witt, Inez Garrison, Misses Clara Finsterwald, Mary Eunice Noah and Ina Faye Garrison.

WHEELER H. D. CLUB MET LAST WEDNESDAY

The Wheeler Home Demonstration Club met Wednesday afternoon, Oct. 7, at the club room in the court house for a demonstration on the storage of vegetables and fruits.

The club is sponsoring a tin can drive and all clubs are requested to save tin cans. The cans should be washed, labels removed, both ends removed and flattened and tied in bundles to conserve space and to make collection easier.

Those present were Mesdames Risner, Porter, Zirkle, Watts, Miss Lucile Chance, Della Beth Wright and Larry Don Zirkle.

LIBERTY H. D. GROUP MET WEDNESDAY NIGHT

The Liberty Home Demonstration Club met Wednesday night at the Liberty schoolhouse with a question and answer drill on Parliamentary Rules by Mesdames Olen Davis and Luther Petty with Mrs. C. A. Myatt giving several interesting points.

The business session was in charge of the president, Mrs. Myatt, and procedures were carried on by Parliamentary Rules even roll call. Mrs. F. C. Lively read a paper on "Duties and Procedures of Home Demonstration Council."

Those answering roll call were Mesdames Davis, Myatt, Petty, Lively, Calvert, A. L. Morgan and H. L. Dorsey.

The next meeting will be under the direction of Miss Lucile Chance on "Vegetable Storage." This meeting will either be in the home of Miss Hettie Burr or Mrs. Petty's home on the afternoon of Oct. 21, when officers for the ensuing year are to be chosen.

MRS. RAYMON D. HOLT CONTRACT CLUB HOSTESS

The Contract Bridge Club and three guests met Wednesday in the home of Mrs. Raymon D. Holt, for a 1 o'clock luncheon, followed by an afternoon at bridge. Fall flowers decorated the entertaining rooms.

At the close of the games, Mrs. Buck Britt held club high with second high going to Mrs. Ansel McDowell. The guest prize went to Mrs. Thomas Jones of Canadian.

Covers were laid for Mesdames Thomas Jones, Canadian, Nelson Porter and Fred Ashley, guests, and the following club members: Mesdames D. A. Hunt, Joe Hyatt, Glen Render, Ansel McDowell, Buck Britt, Glen Porter, Ed Watson, Bronson Green and Inez Garrison.

Labor Shortage No Help to Some on Relief Rolls

AUSTIN, Oct. 14—(Special)—Commenting on agitation of the East Texas Chamber of Commerce, which is seeking to persuade the various county commissioners' courts to withdraw support of relief activities, J. S. Murchison, executive director of the State Department of Public Welfare has issued the following statement:

"The East Texas Chamber speaks for its board of directors. It does not speak for the people. The resolution passed by the West Texas County Judges' and Commissioners' Association sounds more like the voice of the people to me. This resolution pledged the West Texas commissioners' courts to economize on one hand and to accept essential relief functions as an inescapable responsibility of government in time of war as well as in time of peace.

"Those who have always subscribed to the 'let 'em starve' philosophy are now making a zealous attempt

to pin the farm labor shortage on the assistance programs. The West Texas courts see the problem in its true light. These public officials have not been misled by the representations of the East Texas Chamber of Commerce which, although there is not a farmer on its board, has suddenly become alarmed over the dangers of the imaginary problem of able-bodied persons subsisting on relief instead of on farm labor. Special privilege groups are trying to capitalize on the serious farm labor shortage which has been created by the attractive wages of war industries and military manpower needs. It is silly to charge that this shortage has been caused by food stamps, surplus commodities, old age assistance, aid to the blind, or aid to dependent children.

"I hold no brief for any recipient who turns down work that he is able to perform. If there be such a person in the state, he will not be permitted to receive government aid. No employable person is receiving aid in any county of the state where the commissioners' court has certified that work is available. When any group advocates that local and state government withdraw support from 'relief' they are simply contending that aid should be discontinued to the disabled, the blind, the widowed mothers with destitute children and the helpless aged, on the hollow pretext that work is available to such persons. The able-bodied persons, who are said to prefer meager government aid to work, represent less than one per cent of commodity recipients and it has been our standard practice to cut off all such persons when work is refused. Selfish groups are urging courts to cut off the only source of bread the helpless have—all in the name of patriotism. The people will recognize such attempts as an unworthy attack upon the humanitarian responsibilities of enlightened government.

The West Texas County Judges' and Commissioners' Association went on record last week in its state convention at Big Spring as favoring curtailment of all non-essential activities and retention of government relief for those citizens unable to help themselves. The resolution passed by the convention said in part: "... wherefore we further pledge that we shall zealously administer the funds of our county governments with the utmost frugality and endorse all efforts of the Federal and State Governments directed to this end still preserving those functions essential to the needs of our people and fundamental in maintaining our Democratic government—of which our commander-in-chief has given us this directive when he said, 'I would ask no one to defend a democracy which in turn would not defend everyone in the nation against want and privation. The strength of this nation shall not be diluted by the failure of the government to protect the economic well being of all citizens.'

"And, whereas, private and govern-

mental employment incident to the war effort has and will decrease the unemployment problem in our counties, we realize that it has not and will not assist the disabled, the blind, the widowed mothers with dependent children and the aged, and to all these we reaffirm our support of the Federal, State and local programs for their assistance as long as their need shall continue."

Our Gang Happenings (Sophomore)
Lottie Marie has been keeping house very nicely lately. Hint, hint, boys.

Why has Wayne M. not been speaking to Mary Ruth lately? Could it be because of her location in study hall Monday morning?

Sammie and Lottie Marie were taking an interior decoration course Monday morning apparently.

We wonder why Anita had such a nice time Friday night. Perhaps Z. F. could give some information.

Wonder why L. M. Z. was so disappointed Sunday? Could it be because some certain company didn't come. She says it could be.

Senior Scribbblings
The seniors got their report cards last week, much to our distress. Although some were satisfied with their grades, the most of us think we can do better.

We are still sweating through biology, though we expect the course to be easier since we got our new work books. The juniors are still wondering if we are going to put on a play. We wonder the same thing about them.

Basketball Game with Mobettie
The first and second strings of the boys' basketball team played Mobettie Friday night. The boys went in cars. The first string lost to the second 17 to 21. Everyone played a good game. We are grateful for everyone who took cars and boys to the game.

Seen and Heard
Wayne T. making two Wheeler girls get their own ride back to Wheeler. Allison missing the Briscoe boys. Well, these boys are finding entertainment here at Briscoe. Clara Helen wanting to go to the basketball game, Friday night. The seniors thinking about their senior play. Mrs. Wood breaking her glasses. Several of the students bringing in scrap iron. Anita getting stuck to her desk seat, we wonder if Wayne Meek knows anything about this.

Wonder Why?
Zetha was so happy Monday morning? The basketball girls are so happy? Warren doesn't like noisy

Editorial
Through the many generations of American history, we, as a nation have lived to learn. Often we gullible Americans learn too late. Now our scrap, which two years ago was being sold to the Japanese in large quantities, is being shot at our loved ones and friends. For our greediness we are paying with human blood. Shall we never learn? Now, we are trying to cover up our mistake and we will, as we have often done before.

Our scrap metal is being called for. Some of us do not realize the seriousness of our quest. Some, we fear, will never know until after this war is over. Then they will understand they could have shortened the war and saved the lives of many of our soldiers.
This task has been given to the schools. Boys and girls all over America are realizing, long before the adults, the need of scrap metal. Wagons and wheelbarrows, rolling down the street, pushed by children, is a typical American scene. Yes, we have learned our lesson. Freedom is tottering. Will you, as an American, bring forth your metal and lift the torch of liberty?

Six Weeks Tests This Week
The student of Wheeler schools are beginning to study for exams as the end of the first six weeks rolls around. Wonder why everybody puts this work and study off until the last week?

Don't be surprised if your son or daughter suddenly takes an interest in his work. He will probably be preparing for the tests.

Dear Keyhole Spy—Why was Mary Elizabeth so happy Sunday?
Answer—Must be six weeks tests this week.—K. S.
Dear Keyhole Spy—Why do the boys want to know where a certain girl lives that came from Oklahoma City?

Answer—They want to know more about the city.—K. S.

Dear Keyhole Spy—Why does Billie Joe make such poor grades in English? Is it because he does not study or is it because he sits by Oscar Regan in class and Oscar does not make very good grades?

Answer—Might be the influence of "Dark Eyes" in the study hall.—K. S.

Around School
Mary Elizabeth Marrs and Louise Whitener took Private Hiram White-mer to Shamrock Sunday afternoon. He caught the bus to Dalhart, Texas where he is stationed at the present. Billie Jean and Chester Anglin have started back to Wheeler school. We are glad to have them back with us.

Billie Joe Wright was sick with appendicitis the greater part of last week, but is better now and is back in school.

The Wheeler school dismissed last Monday evening to have a scrap drive. A great deal of scrap was gathered and brought in.

The Wheeler Mustangs were defeated by the White Deer Bucks to the score of 6-21 last Friday night. The Mustangs put up a game fight, but the Bucks were just a bit stronger. Come on Mustangs!! We are backing you for the rest of the games!!

FARM MACHINERY GOES TO WAR

ALL FARM MACHINERY AND EQUIPMENT

is divided into three (3) groups, A, B, and C.

GROUP "A" shall include the following New Farm Machinery and Equipment:

- | | | |
|---------------|----------------------|------------------|
| Beet Lifters | Fertilizer Spreaders | Milk Coolers |
| Beet Loaders | Grain Drills | Milking Machines |
| Combines | Grain Elevators | Pickup Balers |
| Corn Pickers | Hay Balers | Potato Diggers |
| Disc Harrows | Lime Spreaders | Shredders |
| Feed Grinders | Manure Spreaders | Tractors |

Each farmer desiring to purchase machinery or equipment in Group A will file an application with his County Rationing Committee. The County Rationing Committee will consider each application or disapprove it. If an application is approved a purchase certificate will be issued to the applicant authorizing him to purchase the equipment. The purchase may be made from the dealer named in the application or from any other dealer.

The County Rationing Committee is Authorized to Approve Applications Only if it is Evident that:

1. The Applicant's present equipment cannot handle the increased production or new production planned and needed as a contribution to the current agricultural need.
2. The applicant cannot meet his equipment needs by repairing his old equipment, by purchasing or renting used equipment, by custom work, by exchange of work or equipment, or by any other means.
3. The Failure to approve the application would result in a substantial reduction in the production of crops or commodities essential to the war effort, and
4. The machinery or equipment will perform more than one average service for similar machinery or equipment in the community.

The County Committee Shall Disapprove an Applicant for One or More of the Following Reasons:

1. The applicant is able to have repaired and made serviceable the machinery and equipment which he proposes to replace;
2. The applicant refuses to turn in the machinery and equipment which he proposes to replace;
3. The applicant has not named in his application a dealer from

whom he can purchase the new farm machinery and equipment;

4. The applicant wants to change from horse power or mule power to motor power and has not given a satisfactory reason for the change;
5. The applicant wants to change from hand labor to machinery and has not given satisfactory reason for same;
6. The applicant refuses to rent or let others use the new machinery and equipment on such terms and conditions as the County Rationing Committee may deem necessary.

If the application is approved, a non-transferable certificate for the purchase of new farm equipment is prepared in triplicate and two copies mailed to the applicant. This certificate will be known as form MR-3. The equipment authorized must be purchased within 10 days after the date the certificate is granted.

No sales of machines listed in Group A may be sold or delivered after September 17 unless purchaser has a purchase certificate. If a machine has been sold and has been paid for but has not been delivered, it is understood that the purchaser must now make an application and be given a purchase certificate before the dealer will be permitted to make delivery of the order.

GROUP "B"—Machinery and Equipment—

All other machinery not in Group A or in Group C, is included in Group B. This group is covered by WPB Limitation Order No. L-26, with which many of you are familiar.

To secure machinery under Order No. L-26, it is necessary for the purchaser to certify his need by his signature on one of these forms—but the Ration Board certificate is not required at the present time.

GROUP "C" included Hand Tools—

Hoes, Rakes, Forks, Scythes, Shovels, and All hand operated and one-and-two-horse drawn farm machinery and equipment not included in Group A.

There are no Restrictions whatever on Repair Parts . . . or on items in Group C. Neither are there any restrictions on the sale of Used Farm Machinery and Equipment! However, this does not mean we can always get repairs without delay.

(The above information is brought to you by the equipment dealers listed below, who hope that it may be of value to you in determining the extent of purchases which may be made under the present set-up).

THE STATE OF TEXAS

TO: Gussie Andrews and her husband, James Andrews, Iver Hansen, if living, or if dead, then the unknown heirs of the said Iver Hansen, deceased, and the unknown heirs of Grace Vaught, deceased, Defendants, GREETING:

You are hereby commanded to appear before the Honorable Thirty First District Court of Wheeler County, Texas at the Court House thereof, in Wheeler, Texas, at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, the same being the 9th day of November, A. D. 1942, then and there to answer plaintiff's first amended original petition filed in said court on the 21st day of September, A. D. 1942 in lieu of plaintiff's original petition filed in said court on the 19th day of June, A. D. 1942, in this cause, numbered 3396 on the docket of said court and styled Commissioners of the Land Office of the State of Oklahoma, said Commissioners now being Leon C. Phillips, C. C. Childers, Frank C. Carter, Joe C. Scott and A. L. Crable, constituting said board of Commissioners, Plaintiff's vs. Ernest Purcell, Homer Purcell, Laverne Purcell, Gussie Andrews, James Andrews, Bernice Giddens, Norval Giddens, Jas. C. Moore, E. R. (Gene) Brewer, Ruby Brewer, Iver Hansen, if living, or if dead, then the unknown heirs of the said Iver Hansen, deceased, and the unknown heirs of Grace Vaught, deceased, defendants.

A brief statement of the nature of the suit is as follows, to-wit:

Plaintiffs in their official capacity sue to establish and foreclose as against all defendants a certain mortgage and mortgage lien securing a certain mortgage note in the principal sum of Eighteen Hundred and No-100 (\$1800.00) Dollars, dated May 15, 1923, due May 15, 1928, payable to the order of the Commissioners of the Land Office of the State of Oklahoma, with interest at the rate of Five Per Cent per annum, said mortgage and note given and signed by Charles A. Purcell and wife, Ada Purcell, said mortgage covering Lots 2, 3 and 4 and the East Half of the Southeast Quarter of Section 18, and Lots 1, 2, 3 and 4 and the East Half of the Southeast Quarter and the East Half of the Northeast Quarter of Section 19, and Lots 1 and 2 of Section 30, all in Township 13 North, of Range 26, West of the Indian Meridian, containing 463.34 acres, it having been determined by decision of the Supreme Court of the United States, dated March 17, 1930, that 303.67 acres off the west side of the above described land is located in Wheeler County, Texas. Said 303.67 acres has been surveyed and is now known as Section 34, Block OS-2, Wheeler County, Texas. Under the terms of Article 5330a of the Revised Civil Statutes of Texas, the plaintiffs as lienholders made application for patent to said Section 34, Block OS-2 from the State of Texas and paid \$387.64, purchase money, costs and fees to secure said patent to said land in the name of the March 17th, 1930 owner, and plaintiffs now sue to establish and foreclose their lien for the said sum of \$1800.00 and \$387.64 aforesaid, together with all interest and Ten Per Cent of the principal as attorney's fees as provided by said mortgage and for order of sale, all as is more fully shown by the Plaintiffs' First Amended Original Petition on file in this suit.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.

Issued and given under my hand and the Seal of said Court, at office in Wheeler, Texas this the 21st day of September, A. D. 1942.

On The Home Front

Food, shelter, clothing and transportation represent the Home Front essentials while most of everything else goes to war. And of the four essentials certain maximums will have to suffice for civilians.

During the last week while points concerning some of the maximums were being worked out, interest in all of the essentials except clothing was high.

Highlights:
FOOD—All civilians are asked to "share the meat" by going on a volunteer 2½ pounds per person per week ration pending enforced rationed about next February. Although price control now has been extended to all but about 10 per cent of the average food basket, certain adjustments in prices are being made to eliminate inequities.

SHELTER—Nationwide rent control was ordered. Areas already designated will have enforced control as soon as the Office of Price Control can take necessary steps. Control in all other areas will be possible on and after December 5.

TRANSPORTATION—The Office of Defense Transportation and the OPA announced that the national policy for mileage-gasoline rationing will be to keep cars rolling by saving every mile possible for essential use to help the war effort.

In transportation, a five-point program to keep America's passenger cars rolling for essential mileage with a minimum use of rubber has been outlined by the Government. This includes rationing of used tires and recaps, control of mileage through the rationing of gasoline, compulsory periodic inspection of tires to guard against abuse and to prevent wear beyond the point where they can be recapped, denial of gasoline and tire replacement to drivers who fail to abide by the national speed limit, and capacity use of cars through car sharing.

Under the ODT program calling for certificates of necessity on all trucks and commercial vehicles by November 15, mailing of certificate application forms have been started in the Southwest, with owners in 19 counties in Oklahoma the first on the list. Other owners will receive theirs as fast as possible. County and Parish War Boards are setting up transportation committees throughout Texas, Oklahoma and Louisiana to assist farmers in filling the blanks.

In addition to personal and commercial transportation, schools also are affected by recent ODT policies. Continuance of school bus service will depend on strict and immediate compliance with conservation principles. School districts are asked to survey their service at once to see where cuts can be made. There must be fewer stops and no duplication of service, and physically able children may be asked to walk up to two miles to and from school where weather permits.

Check Your Anti-Freeze
OPA cautions motorists to have the anti-freeze they saved from last winter checked before they put it back into cars, to avoid risk of motor damage. Although anti-freeze production has been cut to 60 per cent of 1941 sales, to release critical chemicals for war use, the supply is expected to be adequate. Motorists are urged to buy only what they need and to refuse to pay more than ceiling prices.

Turn-In Tubes Must Be Metal
Consumers who turn in collapsible tubes in exchange for new tubes of toothpaste or shaving cream should be sure the used tube is made of metal. WPB has warned that plastic and other types of tubes now appearing on the market are not acceptable for exchange purposes.

Rubber Component Exempted
Agriculture components of furfural, a commodity used in making butadiene for synthetic rubber, have been exempted from price control by OPA. Products affected include cottonseed hulls, cottonseed hull bran, oat hulls and others. The price control exemption is applicable only when they are sold for the specific purpose of making synthetic rubber.

Lamb Ceilings Continued
A new regulation, continuing indefinitely the OPA price ceilings on lamb, has been issued to establish maximum prices at the highest levels at which individual slaughterers, wholesalers and retailers sold during the period July 27-31, 1942. Lamb represents approximately 4.8 per cent of the nation's total meat purchases. Average farm price for lambs was \$11.92 per hundredweight as of September 15, compared with an \$8.94 parity price.

Rubber Footwear Rationed Only
To clear up some reported confusion, OPA has announced that the only types of footwear rationed are men's rubber boots and rubber workshoes. Leather footwear is not affected in any way. Only six types of rubber footwear are being rationed, and these are ordinarily worn only by workmen. Sailors on ocean-going vessels may purchase rubber footwear from their ships' slop-chests without ration certificates.

Priorities Aid Offered Schools
If, after making every effort to ob-

"Hey, Mom...it's ALIVE!"

"HELP! HELP! I thought it was a pretty green stone, but when it stuck its neck out, I knew it was alive. It just shows you can't always judge by appearances."

That goes for motor oil, too. When you want quality oil... and who doesn't these days?... it is best to rely on facts and on the good name of the petroleum producer. That way you're sure of getting the genuine article.

You know that Phillips is one of the great independent organizations in the petroleum industry. You know that Phillips has a well earned reputation for giving greater value. So it means something when Phillips makes this simple, straightforward statement: If you want our best oil, remember we specify that Phillips 66 Motor Oil is our finest quality... the highest grade and greatest value... among all the oils we offer to car-owners like yourself.

Because quality oil means so much to car life, remember these facts when a new 1,000-mile mark clicks up on your speedometer, and when you are making the seasonal change.

IT'S PHILLIPS FINEST QUALITY

tain supplies and equipment without priority aid, schools, hospitals and institutions must have such assistance the WPB region and district offices in the Southwest will furnish information, copies of forms and orders without delay, R. Eugene Risser, WPB region director, announced. He suggested that each school or institution centralize its priority activities in one office, such as the purchasing department or business office. In the Southwest region, WPB offices are located at Dallas, Houston, San An-

tonio, Fort Worth, El Paso, New Orleans, Shreveport, Tulsa and Oklahoma City.

Substitute Jar Tops Available
Although zinc jar tops, like so many other metal items, will soon disappear, housewives can convert to war standards with little trouble. An excellent substitute for the zinc top, fixture of home canning since pioneer days, is available in a porcelain closure with a steel rim. Prohibition of the use of zinc in closures for jars

and bottles was effective October 10 under WPB order. It will save more than 35,000 tons of brass badly needed for ammunition.

Jobs Frozen In Two Industries
Only the non-ferrous metals and lumbering industries, in Texas and 11 other designated states, are affected by the War Manpower Commission's employment stabilization plan. Employment is affected in all logging operations and sawmill activities, and in small mines producing ores from

which non-ferrous metals are made, as well as smelting and refining operations connected with these ores. Except under certain conditions, workers in these industries may not switch to other jobs nor be released by their employers without obtaining a certificate of separation from the United States Employment Service.

CITATION BY PUBLICATION
THE STATE OF TEXAS

To Nettie Faye Miller, defendant, Greeting:

You are hereby commanded to appear before the Honorable District Court of Wheeler County at the Court House thereof, in Wheeler, Texas, at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 30th day of November A. D. 1942, then and there to answer Plaintiff's Petition filed in said Court, on the 14th day of October A. D. 1942, in this cause, numbered 3414 on the docket of said court and styled John L. Miller, plaintiff, vs. Nettie Faye Miller, defendant.

A brief statement of the nature of this suit is as follows, to-wit:

Suit for divorce, plaintiff alleging defendant guilty of cruel, harsh and mean conduct toward the plaintiff of such nature as to render their further living together insupportable as is more fully shown by Plaintiff's Petition on file in this suit.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.

Issued and given under my hand and the Seal of said Court, at office in Wheeler, Texas, this 14th day of October A. D. 1942.

(SEAL) Attest:
ARTIE LEE HUNT,
Clerk District Court, Wheeler County, Texas.

Twilight on the Trail

Cattle rustling, detectives, secret valleys, all this mixed up with Hop-along Cassidy and California, sounds exciting, and I'm sure it is. Besides this, there is plenty of dry humor, hard riding and shooting, interspersed with musical hits. These few words give you an insight to our western production this week entitled "Twilight on the Trail." I'm sure we'll all be seein' ya' this weekend at the Rogue.

Prevue Sunday-Monday
Take a Letter, Darling

Everything that excellent acting, superb writing and exacting direction can provide was poured in copious quantities into "Take a Letter, Darling," making it a complete laugh riot from start to finish. Critics and the public alike rank it with all top comedies to come out of Hollywood, back to and including "It Happened One Night."

To be more exact, Fred McMurray is secured as a secretary to Rosalind Russell, not only as secretary, but escort, protector, fiancée. Matters become complicated, but funny nevertheless. It will be a good tonic for you. Don't miss it.

Wednesday-Thursday
Grand Central Murder

The screen's most effective conversationalists and performers, Van Heflin and Sam Levene keep this murder mystery sparkling. They portray respectively the lawyer and the police inspector, who in a continuous and competitive questioning of suspects ultimately identify the murderer. The humor of this murder mystery sets it apart and keeps it from being the ordinary detective story. You are sure to remember Van Heflin from "Johnny Eager" and other more recent productions. Our midweek shows are good.

Also remember "Remember Pearl Harbor" Oct. 30-31.

Mr. and Mrs. W. C. Zirkle and son, Larry Don, spent Sunday in Shamrock as the guests of Mr. and Mrs. H. C. Weatherby and family.

W. T. Johnson, a former Mobeetie resident now residing in Bell, California, is suffering from injuries received October 3rd which caused a broken arch. He will be unable to work for about 5 weeks.

Couple Celebrate Golden Wedding Anniversary Recently

The Golden Wedding Anniversary of Mr. and Mrs. B. W. Jackson, of Reed, Okla., was observed September 27. Mr. and Mrs. Jackson made their home here for a number of years. Mrs. Jackson is the sister of Mrs. G. E. Robertson.

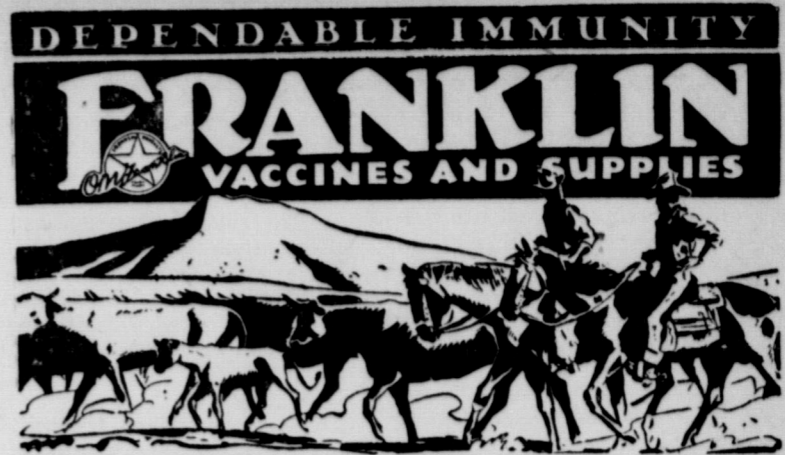

Much credit of this event goes to the Jay Buckle Home Demonstration club, of which Mrs. Jackson is a member. More than one hundred guests attended. A very delicious "feast" was served from a table three feet wide and thirty-two feet long. It was decorated with different colors of electric light bulbs.

Music was from the world famous accordians, played by Mrs. Dr. L. E. Pearson of Mangum and Mrs. Louis Venable, a druggist of Reed, Okla. Due to present world conditions, Mr. and Mrs. Jackson requested that no gifts be given to them.

Mr. and Mrs. Jackson were brought into the room by members of the club. A quilt from the club with each member's name and many others was given to the couple.

After the delicious meal, soft guitar music was rendered by Mrs. Doris Packer and Miss Joyce Presley of Reed. Miss Joan McAlister assisted them with beautiful singing.

Mr. and Mrs. Jackson wish to thank their many friends who helped made this a perfect celebration. This was the happiest moments of their fifty years of married life. The following is a list of the guests present: Mrs. Lillian Slaton, club president; Mrs. Virgie Presley, club secretary; Mesdames and Misses Filma Stove, Edward Moseley, Ella M. Lowrey, D. I. Knight, Lucy Terry, S. H. Wallace, Fay Wilson, R. J. Hamilton, Kate Packer, Maude Presley, Ed Elder of Reed, Okla.; Mrs. Francis Packer, Mr. and Mrs. L. E. Pearson, Mrs. Ada Wallace, Mrs. H. C.
