

Dawson County 4-H Club Boy Wins In State Cotton Contest, Gets Expense-Paid Trip To Chicago

R. B. Wilkerson, one of the leading 4-H club boys of Dawson county and winner of that county's cotton contest, has been named one of four state winners by the Anderson & Clayton Cotton company of Houston and will have all his expenses paid to Chicago.

Caught it soon after coming up and "washed it out in spots." Rising to the occasion, because he could get no more seed, R. B. planted the washed spots in feed, reducing his cotton acreage to about four acres.

Avoca Field Is Extended Over A Mile

Pool's Largest Producer Rated Over 7,000 Barrels

ABILENE, Nov. 27—A mile and a quarter west extension and completion of its largest producer brought Thanksgiving to the Jones county Avoca field this week and the holiday was lost to many operators as a new rush for leases and royalty started.

SHOWINGS IN YOAKUM CO. FEATURE OIL ACTIVITY

Denver Pool Extensioner Flows 561 Barrels; Wildcat Between Two Fields Has High Markers

SAN ANGELO, Nov. 27—A 561-barrel oil flow in 24 hours by a mile east extension to the Denver pool, most southerly in Yoakum county, the showing of oil by a test one mile southwest of the most northerly and first of southwestern Yoakum's three strikes and high markers in a wildcat between two Denver pools in Yoakum and the Wagon field in northwestern Gaines were among principal Texas oil developments this week.

Langdon, farthest east producer in the Wagon field in Gaines county and a diagonal southeast offset of the same operators' No. 1 Moore-Langdon, a producer, flowed 775 barrels of oil in 24 hours through two-inch tubing for completion at 4,980 feet. It was treated with 9,000 gallons of acid in three stages. The well is 440 feet from the north, 2,200 feet from the east line of section 43-AX-2.

2 Charged In Train Holdup

Convictions In Robbery, Murder Carry Death Penalty

LAS CRUCES, N. M., Nov. 27 (AP)—Harry Dwyer, 22, and Henry Lorenz, 27, were charged today with murder and train robbery—both carrying a death penalty—for their wild west attempt to hold up a passenger train Thanksgiving day.

Hand Has Gang Terror

Johannesburg (UP)—Hand police have been ordered to shoot a kill in their campaign to get out the native gang terror in the Johannesburg district.

The murder complaint grew out of the fatal shooting of Switchman W. L. Smith of El Paso during a holdup that broke out when passengers beat and captured the two "bude cowboys" as they tried to leave the crack Southern Pacific train after the holdup.

25 Finish Projects Of the original 41, some 25 boys were able to finish their demonstrations, rain and sand having ruined first plantings for many.

Winning is getting to be a habit with him, but no foolish person is this budding farmer. He has planned what he will do with his profits and prizes.

DALLAS MAN NAMED B.T.U. PRESIDENT BEAUMONT, Nov. 27 (AP)—H. O. Rothell of Dallas was elected president and Wichita Falls was selected the 1938 convention city by the Texas Baptist Training Union at its closing conference session here today.

FOURTH CRASH DEATH BORGER, Nov. 27 (AP)—John Roth of Amarillo died here today, the fourth victim of a highway crash near here this week.

Spreads around the test were taken by Merry Brothers & Perini, Lion Oil & Refining company; Ungren & Frazier and Thomas D. Humphrey.

Revenues began to come in when he picked two bales on Oct. 25 weighing as follows: 1) 1,570 seed cotton, ginned 592 pounds lint, and 1,350 seed cotton and 550 pounds lint. He saved 40 bushels of seed from the two bales and got nine cents for his cotton. His father offered him \$1.25 on seed he did not save and he has about two bales of lint cotton to pick.

7,000 Bbls. Daily The pool's biggest producer, Iron Mountain Oil company and Humble No. 2 Jones & Stoney, a quarter-mile of the discovery, rated a flow of more than 7,000 barrels daily on two short gauges taken during and immediately after drilling of the lime. On first flow it made 109 barrels in 20 minutes, later flowing 148 barrels in 30 minutes through four-inch flowline.

High Markers High markers credited to American Liberty No. 1 W. W. Willard, 1-2 miles northwest of the farthest northeast well in the Wagon pool in northwestern Gaines county and four miles southeast of Denver No. 1-A Whittenberg in Yoakum county, strengthened the belief of many that the two pools are on the same structure and eventually may be joined.

Drilling Resumed On Great West Near Big Spring Encountering oil shows in the north central Glasscock county wildcat, Amerada No. 1 A. D. Neal, one location out of the southeast corner of section 15-33-3a, T&P, and resumption of drilling on the Westbrook and Graham No. 1 Great West, four miles east of Big Spring, paced oil developments through a comparatively quiet week here.

Water Shut Off Shutting off salt water, the Westbrook and Graham No. 1 Great West, famed as an "air well," drilled below 3,110 feet. It was shut down three months ago after encountering sulphur water at 3,050 feet in lime. The well attracted wide attention in February when it blew in with a nitrogen gas issue estimated at 285 million cubic feet daily.

In Snyder Pool Snyder pool developments in eastern Howard county feature shows by the Ajax No. 1 Snyder, 350 feet out of the northeast corner of section 28-29-1a, T&P, a 2,530-73, 2,850-10, and from 2,710 to 2,720 feet when preparing to drill in Saturday afternoon. It is half a mile north of nearest production.

original slide area, where tremendous pressure has been at work for at least a month, were still intact. Dr. John P. Buwalda of the California Institute of Technology, said another slide was inevitable. 'There is less hope than ever,' he said. 'The worst is yet to come, too.'

Dr. Thomas Clements, head of the geology department of the University of Southern California, urged that further precautionary measures be taken against another slide. Everyone was agreed that with Southern California's rainy season only a few weeks off, the Elysian park bluff might crumble with the first downpour. Traffic on the affected part of Riverside drive will not be re-opened until all danger is past, authorities said.

FREED ON BOND

DALLAS, Nov. 27 (AP)—James A. Grisham was released on \$500 bond today after pleading guilty to a charge of embezzling \$700 from the First National bank of Gorman, Eastland county, at a hearing before United States Commissioner John Davis.

America's annual exports to China proper, amounting in 1936 to about \$47,000,000, move through the Shanghai customs.

Britain Wants To Know About Any Changes

LONDON, Nov. 27 (AP)—Great Britain today ordered her ambassador to Tokyo to inform Japan Britain insisted on being consulted before any changes were made in the Chinese maritime customs. As British anxiety shifted from Europe to the Orient, some quarters suggested recent Japanese moves to take over the government of conquered Shanghai might lead Britain again to try to bring the United States into a joint British-French-American program.

The British instructions to Sir Robert Craigie, Tokyo ambassador, were to make it plain to the Japanese Britain had given up none of her claims to consultation on changes in the customs administration. Estimates here placed the Shanghai customs revenues at 50 per cent of the total Chinese customs income. The service is staffed mainly by British officials.

Bill

(Continued from Page 1)

pending under the program to \$500,000,000 with its power over appropriations and that he assume the question of appropriation would be taken up at the regular session beginning in January.

Chairman Jones (D-Tex.) of the house agriculture committee expressed belief the farm program would not cost in excess of \$500,000,000 annually "unless they want to appropriate more."

The attitude of Jones' committee has been to leave the question of financing the program to the house committees in charge of taxation and appropriations after Secretary Wallace and the budget bureau present their estimates of its cost.

After a White House conference Chairman Douglas (D-N.C.) of the house ways and means committee told reporters he saw nothing for his committee to do about financing the farm program "until we know what the law is going to be."

Week

(Continued from Page 1)

the midst of their favorite program, a deafening buzz sets in. They have the choice of shutting off the radio or being driven mad with noise. Now they are saying that something "ought to be done." We are told that in some few other places that ordinances have been adopted compelling all electrical motors or other contrivances calculated to cause interference to install condensers. If this is legal, it would be a means of adjusting a large amount of difficulty. An uncalculated item, however, is that of old radios which frequently transmit their deficiencies back to power lines in the form of interference.

Prospects for the Red Cross chapter reaching its goal of \$2,000 are good. With more than \$1,200 raised, Shline Phillips, chairman, says around \$300 more is in sight. He's least doubtful of all about it, and says simply, "We'll keep going until we do get it."

More than any one thing paving has tended to beautify the east and west entrances into the city. Property owners, including those who deal in junk, should realize this benefit and cooperate to the end of further improvement by erection of fences or some other barrier which would hide unnecessary unsightliness from view.

The municipal high school band this week launches upon a series of plays sponsored by it in an attempt to raise funds for uniforms. Growth of the band in numbers and quality over a period of three short years brands it as a worthwhile enterprise. Further than this, a large percentage of the people believe that every town ought to have a band, and in a town of the size of Big Spring, the only hope of a band is one sponsored by some organization or the school. Hence, the band, as a community institution, is deserving of support.

Two new developments of the past week were important to Big Spring as a strategic air terminal in West Texas. The first was the pronouncement by Major E. A. Haight, regional director of the bureau of air commerce for the department of commerce that the local airport project, involving the ultimate surfacing of 4,000-foot runways, was approved and would be back here soon. The other was the announcement of some sort of feeder line survey which only affects seven cities in Texas. Big Spring is not among them. However, a city to the west is, and so is San Angelo. Big Spring might well keep her eyes open to that situation. In the meantime, use airmail whenever you can.

An encouraging factor in the commercial affairs of Big Spring these days is the substantial growth in building permits. November, with more than \$45,000 in permits, is the record month for the year and the largest for the month since 1923. As to type of construction, it is one of the best balanced months on record for balance between new

Farmer

(Continued from Page 1)

Winters, Vincent farmer, as a member of the committee. In the western half of the county, A. J. Stallings, Lomax, L. H. Thomas, Highway, and W. T. Bly Knott, three men who have served in official capacities almost since the formation of the association were returned as committeemen. J. O. Rosser, Elbow, and M. L. Hamlin, Bisco, were named alternates.

Bankers Represented

Selection of Norvin Smith as a committee member and Louie Hut to and M. L. Hamlin as alternates gave ranchers, now an important factor in the organization under the federal range program, better representation in the affairs of the association.

Hale, Cantrell, Smith, Stallings Thomas and Bly automatically constitute a board of directors for the association and will name a president and vice-president at a meeting here next Saturday. Thomas is president this year, and Cantrell is vice president.

Also to be chosen, and perhaps the most important business for the meeting next Saturday, are three county committeemen. There will be one of the committeemen from the east and west communities chosen, and a third member from either. It is possible that these committeemen may be replaced on the community group by their alternates, who will, in turn, become members of the board.

Methodist Merger Now Seen As A Certainty

CHICAGO, Nov. 27 (AP)—Mergers of three branches of Methodism into the largest protestant denomination in the United States was virtually assured today.

Methodism united under the name of "the Methodist church" will create an organization of 8,000,000 members with an constituency of 25,000,000 and church property of \$1,000,000,000. The groups which split over the slavery question more than 100 years ago were the Methodist Episcopal Church, South and the Methodist Protestant Church.

The action of the Louisiana conference of the Methodist Church south in approving the reunion plan 123 to 10, virtually clinched the reunion plan.

The 95 conferences in the northern branch of the church and 17 of the 24 in the Methodist Protestant group already approved the merger. The church south announced 4 of the 43 conferences voted 7,537 for the plan and 1,247 against. Only the Cuban and Chinese groups "have yet to vote. Regardless of the outcome, their votes cannot change the final result.

HEREFORD STEER IS WINNER AT CHICAGO

CHICAGO, Nov. 27 (AP)—A hefty, handsome Hereford steer, born on a Montana range and raised by a 18-year-old Wisconsin farm boy, moved into King now today at the International Livestock Show by winning the junior livestock feeding contest.

The animal, first to take a crown in the big exposition, is owned by Homer Graber, of Mineral Point, who got him just a year ago. On showing, the steer weighed 1243 pounds.

Homer said he planned to use the money—about \$100 in prizes and whatever the steer brings at auction—to buy more Herefords.

The steer, called "Jerry," for no particular reason, automatically became a contestant for the show's highest cattle honor, grand champion steer.

CAR CRASHES INTO BUILDING; 2 HURT

ELMO, Nov. 27 (AP)—Faulty brakes were blamed for an accident which injured two persons here today when an automobile plowed into a sheet iron building.

M. E. White, welder, and Orville McDaniel, mechanic, were slightly hurt when the automobile driven by Mrs. Mary Sappington of Fort Worth left the pavement at a curve and struck the building.

Occupants in the automobile and repair work for residential and business property alike. We would like to believe that November is typical of what may be expected in 1938.

Greeters Meet In Big Spring

Half-Dozen Towns Represented At Hotel Mens' Session

More than a score of hotel men from a half-dozen cities in the area gathered in Big Spring Saturday night for the monthly meeting of the West Texas Charter Hotel Greeters of America. Sessions, held at the Settles hotel, attracted greeters from as distant points as Amarillo and Brownwood.

Brownwood was selected as the December meeting place. A brief business session was held in the Settles ballroom, with Jack Gregory of Big Spring, president, in charge. The greeters discussed common problems and made plans for comprehensive business programs at future gatherings.

The visitors were honored at a banquet, where informal talks were made, and later a dancing party.

Registered at the meeting were Henry Myer, Mr. and Mrs. Dallas Wales, T. R. Proctor, R. H. Seals, and Harry Morris from San Angelo; Eddie Manger and Mr. and Mrs. Lee Hubby from Lubbock; J. R. Gray and Mr. and Mrs. Cy Jones from Brownwood; Mr. and Mrs. Charlie Pryor and A. R. Turpin from Amarillo; Jimmie Noyles, Bob Williford, Bill Reidy, Carl Wells and Glen Riddle from Abilene; and Jack Gregory, A. C. Hutton, Mr. and Mrs. Tom Pendergraft, Mr. and Mrs. Cal Boykin, H. E. Furr and Paul S. Limer from Big Spring.

Chinese Give Way Before Jap Push

Capital May Be Isolated Before Defenders Can Leave

SHANGHAI, Nov. 28 (Sunday)—Japan's soldiers today pushed their conquests deeper into China's provinces while Japan's representatives in the rear tightened their hold on the communications and customs services of conquered Shanghai.

Wely and Kwangteh, in Anhwei province, hitherto not invaded, were objectives of rapid thrusts which threatened to isolate Nanjing even before the capital could be reached by other Japanese columns and perhaps before its defenders could withdraw.

Hankchow, capital of Chekiang province, was menaced by other Japanese forces swarming through the hilly country 100 or more miles southwest of Shanghai.

News that Great Britain had warned Japan the British government expects to be consulted about any changes in communication and customs services in Shanghai, had no apparent effect on the Japanese program of consolidation here.

Japanese officers today were seeking the cooperation of Chinese technicians and telegraphers to insure uninterrupted operation of the radio and telegraph services in the Shanghai area over which the Japanese yesterday assumed control.

A Japanese spokesman said cooperation "fail, temporary interruption of communications facilities would follow to the regret of the Japanese authorities."

The Japanese thrust toward Wuhu, 55 miles south-southwest of Nanking, threatened to bottle up all civilians remaining in the capital and cut off Chinese military forces in the entire Nanking region.

Eleanor And Doris Are Guests Together On Homestead Tour

ELKINS, W. Va., Nov. 27 (AP)—Delayed by rain and fog, Mrs. Franklin D. Roosevelt and Mrs. James H. R. Cromwell, the former Doris Duke, came to West Virginia late today in time to make a swift tour of the Tygart homestead in fast-fading light.

More than 400 eager settlers at the homestead 12 miles south of Elk Kings heard their president, Andrew Wood, head of the Tygart Valley Cooperative association, introduce their guests.

Mrs. Roosevelt, whose greatest interest in the administration's projects lies in resettlement work, said: "I am not interested in what I am doing for you, but in what you are doing for yourselves."

She described a new woodwork plant which she said she hoped to see established in Tygart valley soon, and plans for a community school, similar to one at Norris Dam, in the Tennessee valley, with classes for both children and parents.

During this speech, Mrs. Cromwell, the "world's richest girl," sat gravely in the background, as attentive as any member of the audience.

She is known to take considerable interest in charity and social work, but makes all her contributions, which are said to be extensive, with the understanding her name is not to be used.

AT THE CHURCHES

CHRISTIAN SCIENCE SERVICE

Room 1, Settles Hotel
"Ancient and Modern Necromancy, Alms Mesmerism and Hypnotism, Denounced" is the subject of the lesson-sermon which will be read in all Churches of Christ Scientist, on Sunday, November 28. The Golden Text is: "Do they not err that devise evil? but mercy and truth shall be to them that devise good" (Proverbs 14:22).
Among the citations which comprise the lesson-sermon is the following from the Bible: "I will overturn, overturn, overturn, it: and it shall be no more, until He come whose right it is; and I will give it Him" (Ezekiel 21:27).
The lesson-sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Marvels, calamities, and sin will much more abound as truth urges upon mortals its resisted claims; but the awful daring of sin dejects sins, and foreshadows the triumph of truth" (page 223).

ST. MARY'S EPISCOPAL

P. Walter Henckel, Rector Services for Sunday: 9:45 a. m. Church school. 11 a. m. Bible class. 11 a. m. Morning prayer and sermon by the rector. You are invited to worship at St. Mary's.

DEMURRERS FILED IN SUITS ON SCHOOL CATASTROPHE

HENDERSON, Nov. 27 (AP)—Attorneys for the defendants today filed demurrers in a hearing before Judge R. T. Brown of two suits which resulted from the New London school disaster last March. The Ward Oil company, the board of trustees of the New London independent school district, the board members as individuals and Superintendent W. C. Shaw were named in the suits.

Attorneys demurrers said the action of the trustees in furnishing heat for the school building was a governmental function and that they were not liable because this action was judicial in character—distinct from a ministerial act.

Judge Brown took the case under consideration after asking for written briefs.
