THE COUNTY SEAT NEWSPAPER

Annual Farmer Meeting Will Be Held September 4

Picnic Dinner This Year Instead of Barbecue

The annual get together of Wheeler county farmers will be held this year on Friday, September 4, county agent Jake Tarter announced this week.

The picnic will be held at the usual place, the Kelley brothers ranch on Sweetwater Creek, seven miles northwest of Wheeler.

In former years the annual event has been known as the Farmer's Barbecue, but since beef and pork are so badly needed in the war effort, it has been decided to let each farmer bring his own eats and farmers of each community can get together in groups and hold picnic dinners, or in smaller groups if they choose, the county agent stated.

About \$800.00 would be required to finance the affair and everyone consulted about the matter are of the opinion that stamps and bonds should be bought instead of using that large amount for an entertainment.

Committees will not have such great responsibility of guessing what amount of food will be needed if each brings his own food and he may also bring what he likes and have what he wants to eat, it was brought out in making plans for this year's meeting.

Farmers in each community are asked to band together and come to the affair in groups to save rubber and gasoline.

More details pertaining to the program are to be worked out and published next week.

Group Pass Check-up For Army Service

Out of the group of men leaving here for Lubbock Wednesday, August 12, the following have passed their final type examination and are being inducted into the army:

Wesley Brooks Sims, Curtis Orville Holland, Robert Clarence Hawk, Francis Joseph Admie, Marion Elvis Moore, Obal Francis Dollins, William Coleman Woodruff, Elza Allen Thurston, Oscar Albert Butts, jr., L. A. Meathenia, Bert John Nipper, George Wheeler Cobb, Charles C. Vermillion, Jessie Gentry Brown, Herbert Arno, Wm. Eisenmeyer, Hobart McKinley Risner, Wesley Lawrence Weldon, Albert Theodore Ferguson, Allie Boyd Hensley, Clyde Leroy Ayers, Leroy Martin Lamb, Grady Woodfin Harris and George Thoburn Stowe.

Included in the call but enlisting in service were Orville Kendall Rascoe, Charles William Godwin, Floyd Glen Blake, Treas Vance Wade, Cecil James Turney, Huffman Walker, John Mark Parrish, Eldon Malcome Sonnenburg, Jonce Edward Throckmorton and Hobard Dempsey Davis.

Transfers from Wheeler to other counties included Claud Raymond Self, Jesse Glen Gossnell, Clifton Bernard Blair, Dewey C. Collingsworth and Warring G. Harding Fletcher.

Most of the group who went to Lubbock are taking advantage of the two week's leave granted them for winding out their personal affairs and are scheduled to leave for Fort Sill, Okla., Wednesday morning, August 26.

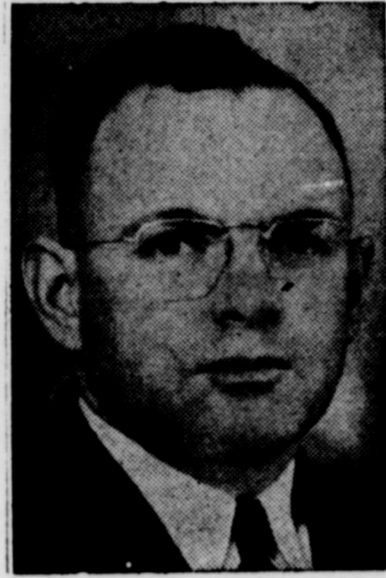

Friends and relatives of the young men are asked to be at the court house lawn to bid them goodbye in the service of their country.

Gwen Wofford, former assistant clerk for the local selective service board, has accepted a secretarial position at Fort Sam Houston. She is to begin work there Friday.

Methodist Will Start Revival Next Sunday

REV. J. H. CRAWFORD

Rev. Crawford is pastor of the Methodist church at Chillicothe, Texas and will do the preaching in the revival services at the Wheeler Methodist church, beginning Sunday, Aug. 23.

Rev. Crawford is one of the general secretaries of the Northwest Texas Conference, and always in demand for special services in other churches. The membership of the church and the people of the community are invited to hear his messages at the Methodist church.

Week day morning services are to be held at 10:00 a. m. while services will begin at 9:00 each evening.

Leaf Worm Pests Are Reported Active In Wheeler County

According to Jake Tarter, county agent, the weather is at the right stage for millers to make the greatest infestation of Leaf and Army worms Wheeler county has yet encountered, especially in the earlier cotton and low lands with rank growing cotton.

Leaf worms have already started in some portions of the county and farmers have been busy spraying poison over affected areas. In the following paragraphs Tarter outlines an effective formula of poison and suggests early spraying of cotton with it.

The marketing supply of calcium arsenate is exhausted, but 300 drums or 30,000 pounds of this poison was bought and stored last year. This poison will be of great benefit to Wheeler county farmers this year.

One should mix 4 lbs. of calcium arsenate with 10 gallons of water; add to this solution 30 to 40 gallons of water to make approximately 50 gallons of poison. An effective method of spreading the poison is to use a barrel spray of which there are several in the county. Spread four to five rows at a time and use 50 gallons to the acre.

Farmers should band together and swap work in the spray job as the water haul is the biggest job. Two persons are required to do the labor, one to drive and one to work the pump.

Dusting is just as effective as spraying, Tarter further stated. Do the dusting early in the morning or late at night as the dew will hold the poison to the foliage of the cotton. If it is too dry the poison does not cling to the foliage sufficient enough to get a good kill.

It is believed by farm leaders that the threat to cotton is the greatest of any time in the past even in comparison with 1930 when 300,000 pounds of poison was used.

Farmers are urged to watch the activities of the leaf worm millers and be prepared to either dust or spray their cotton to control the worms as the war department of production is anxious that all cotton be produced that can be sold so as to have the seed for oil.

Questionnaires Mailed 18-19 Year-Old Group

Cliff Weatherly, clerk for the local selective service board, reported today that the mailing of occupational questionnaires to men of the last registration, youths of the 18 and 19 year-old group, will start next week.

At first rulings stated that this group would receive questionnaires only as they became twenty years of age, but present regulations provide that the blanks be mailed the entire group.

Lonzo Clay Killed As Pickup Crashes Into Cattle Truck

Lonzo Clay, resident of Wheeler county for the past thirty years, was injured fatally about 2 a. m. this (Thursday) morning when the pickup which he was driving collided with a cattle truck 3 miles south of Wheeler on the Shamrock-Wheeler highway.

Mr. Clay, who was returning from Shamrock to his home 3 miles southwest of Kelton, was killed instantly when, evidently blinded by the truck's lights he side-swiped the truck lights, he side-swiped the pick-up and plowed under the trailer part into the rear wheels. Both the pick-up and truck were badly wrecked by the impact.

Merl Keys of Shamrock, driver of the truck, escaped serious injury. The truck is reported to belong to Bob George of Shamrock. Mr. Clay was traveling alone.

Funeral services for the deceased are to be held at the Twitty Church of Christ at 2 p. m. Friday. Burial will be in the Shamrock cemetery. The body was taken this afternoon to the home of Tom Clay near Kelton. There it will lie in state until time of the funeral tomorrow. Hunt Funeral Home is in charge of funeral arrangements.

The wife, five daughters, one son, three brothers and three sisters survive.

The daughters are Mrs. Thomas Daughtery and Mrs. Harold Westmoreland of Twitty, Mrs. Rayford Purnell of Kelton, and Misses Marjorie and Tommy Clay. The son, L. G. Jr., is in the United States army and is stationed in Ireland. Brothers are J. E. Clay of Twitty and T. J. and V. C. of Kelton. Sisters are Mrs. Oia White of Shamrock, Mrs. Lula Smith of Bard, N. Mex., and Mrs. Sally Hodges of Canadian.

Two grandchildren, several nieces and nephews also survive. Mr. Clay moved from Oklahoma to Twitty about thirty years ago and had been engaged in farming since moving to the county. Two years ago he moved from Twitty to near Kelton where he, his wife and the two younger daughters made their home.

Besides the relatives, Mr. Clay leaves to mourn his passing a host of friends throughout the entire area. Those who knew him speak of his many good deeds and all are shocked by his sudden passing.

4-H Club Boys Attend Annual Encampment

Twenty-three Wheeler county 4-H club boys attended the annual district encampment held at Lake McClellan August 13, 14 and 15.

There were twenty-three counties represented at the camp, including all the counties in the Panhandle district. Several state leaders were present to instruct and to entertain the boys.

Those going from Wheeler county included Jake Tarter, county agent; Victor Joyner, ass't. county agent; A. B. Pike and J. V. Younger, club sponsors, and J. W. Locke, Howard Adams, Truman Zybach, Eddie George, Joe Johnson, Walton Williams, Junior Rex, Deroy Herd, Harold Lowery, Charles Carver, Charles Welty, Henry Hink, jr., Henry Krug, Ralph Krug, J. Roy Henry, Jerry Keys, L. T. Braxton, Houston Anderson, John Cadra, Stanley Rankin, R. L. Pike, Don Macina and R. L. Zybach.

The group left there Thursday afternoon, spent Thursday evening, all day Friday and Saturday morning at the camp. The boys enjoyed rifle-firing, swimming, boating, free picture shows and games.

Large Packages Of Sugar For Card 8

Sugar ration stamp No. 8 will be good for five pounds of sugar in the 10-week period beginning August 23 and ending October 31, the office of price administration announced recently.

While not charging the basic ration of one-half pound per person per week, it will enable consumers to make purchases of larger units and facilitate the disposal of five, 10 and 25-pound packages.

Packages of these sizes were put up before the start of rationing and processors have had difficulty marketing any substantial part of them because ration stamps have been good for one or two pounds purchases. Unless this sugar is sold, the OPA said, it would have to be re-packed, causing an "undesirable waste of labor and materials."

Tire Thieves Active Here Wednesday Night

Theft of four tires from local persons was reported to peace officers this morning as the result of culprits taking two tires and one wheel from a car belonging to George Porter, one tire and wheel from the Holt Green car and a tire and wheel from a car belonging to Mrs. Ila Jo Gilliam.

None of the cars were in garages but were parked either beside or in front of the owner's homes.

All of the tires are reported to have been 6:00x16 sixe.

966 Families Are Participating in County Rural Health Service

J. B. Johnston, manager of Wheeler county's Rural Health Service program, this week makes the following report on the progress of the co-operative health plan:

"There are many people who have received medical care under the new Rural Health program and all the comments are very satisfactory. At the close of July there were 966 families with approximately 18 that have not but will be certified for medical service soon.

"Since this is a co-operative each family must do their part in making it a success. We must not forget that our doctors must have some rest and that they should not be called after 7:00 p. m. unless it is an emergency. They are willing to co-operate in every way possible but for minor ailments they should not be disturbed until the following morning.

"The success of anything depends on the amount of effort that is put forth by every individual and to insure the success of this program it is going to require the co-operation of doctors, participating families and the principles of the association. The doctors are putting forth every effort they can and it is up to us to do our part. All of us should help them carry through the policies and in the end we will all have something that will not only be praised in Wheeler county but in all the country as well.

"This program is being watched all over the United States and we have a chance to get Wheeler county some publicity. At different times of the year there will be people here from all parts of the country to see how well people are liking this type of program and how well the doctors are satisfied. After all, the doctors do the work and we must do in such a way that they will be satisfied with the program. We want to make this a permanent thing in Wheeler county. We have the best chance in the world to get something that no other county has as Wheeler county is the leader in the program.

"At the present time we are giving the other counties the benefits of the mistakes that we have made, and all the time we are doing our best to improve every act that we do."

H. H. Walser Solicits Voters Consideration

H. H. Walser, candidate for reelection to the office of Commissioner of Precinct 2 of Wheeler county, has authorized The Times to make the following statement regarding his race:

"I would like to first thank all the voters of my precinct for the consideration shown me in my campaign now drawing to a close. If there are those who I have not been able to contact personally, I want to apologize to you and assure you that it has not been my intention to overlook you.

"As I promised you when I first ran for office—and I have endeavored to keep that promise—I have tried to handle the affairs of the office in such a way to do honor to myself and to Wheeler county. I am willing for you to check my record. You will find it available at the court house.

"In regard to the finances of our precinct I should like to refer you to the county's financial statement appearing quarterly in The Wheeler Times.

"During the three and one-half years that I have been your commissioner I feel as though I have gained a knowledge and experience that I think will be of great importance and much benefit to the people of both this precinct and Wheeler county as a whole if you see fit to return me to office for another term.

"Upon these merits I earnestly solicit your support in Saturday's election."

Lack of Asphalt Stops Road Work

Due to "freezing" of asphalt material by federal agencies, work on highway 152 from a point 10.4 miles from Wheeler to the Oklahoma-Texas state line has been halted for the time being.

Work of grading, draining and culvert work was completed last week.

In order to provide the necessary asphalt for construction of army training camps, air bases, defense plants and other war activities, the use of asphalt has been restricted to military installations and the strategic military highway network.

Briscoe School Will Start Term Monday

School will open at Briscoe at 10:00 a. m. Monday, August 24, C. C. Brown, superintendent, announced this week.

Mr. Brown is starting his first term at Briscoe where he comes after having taught at Kelton for the past seven years. He holds a B. A. degree from West Texas State College of Canyon, M. A. degree from the University of Colorado of Boulder and since receiving his Masters he has done two summers work in the field of History in the University of Texas.

Besides acting as superintendent of the Briscoe school he will teach Social Science in the high school.

Other teachers of the faculty elected up to date are:

O. C. Evans, who has served the community long and faithfully. Mr. Evans will be high school principal and will teach math in the high school.

Mrs. Lena Woods, who will be serving her second year. Mrs. Woods teaches English in high school and some music and art in the grades. Mrs. Woods has a B. S. degree from the University of Oklahoma.

Miss Faye Wilson, who will be serving her third year. Miss Wilson teaches homemaking and language arts in the grades. Miss Wilson holds a B. S. degree from Canyon.

Miss Laverna Evans, who is a new teacher, holds a B. S. degree from West Texas State College. She is the daughter of Mr. and Mrs. O. C. Evans, and Briscoe is her home. Miss Evans will teach the second primary.

Miss June Cox, who is a new teacher, comes from Amarillo. Miss Cox has two years training in the Amarillo Junior College and two and one-half years in West Texas State College. She will teach science in the high school and elementary science and math in the intermediate grades.

Mrs. C. C. Brown is a new teacher and wife of superintendent Brown. She taught primary work seven years at Kelton, has a B. S. degree from West Texas State and will teach primary work.

At the present time there are two vacancies in the school's faculty. A shop teacher and band director are yet to be elected.

School opening exercises Monday will be a short program from 10:00 o'clock until 11:00 o'clock and will include the presentation of new teachers and announcements which concern the program of the day.

County Expected to Poll About 2,500 Votes

Whether W. Lee O'Daniel will return to the Senate in January or whether Jimmie Allred will take over will be decided by Texas voters Saturday in the second Democratic Primary, and in Wheeler county, like most other counties of the state, this contest is considered the most important race listed on the ballot.

All of Wheeler county's officials, with the exception of one precinct

Harry Wofford, county clerk, reported this morning that 40 absentee ballots had been cast in the second primary. This is an unusually large number for a second primary race in this county, especially considering the fact that ballots were not available for absentee voting until last Friday afternoon. Tuesday midnight was the deadline for absentee balloting.

race, that of Commissioner of Precinct No. 2, were decided in the first primary. These two mentioned races and four others make up the local ballot and it is estimated at least 2,500 persons will cast their votes in this county compared with 3,331 polled in the first primary.

Election Party Staged

A. B. Crump, county Democratic chairman, who has the reputation of being the fastest county ballot-cavasser in West Texas, states the regular election party is to be held on the court house lawn and complete county returns will be posted as well as district and state returns, as complete as possible.

Chairman Crump again urges town folks to vote in the morning and farm folks to vote as early as possible to lessen the burden on judges and vote counters.

Voters in what has been known as the Corn Valley precinct are reminded that they are now to vote in the Wheeler No. 3 box.

For the benefit of election officials throughout the county chairman Crump has requested that the following resolution be published:

BE IT RESOLVED by the State Democratic Executive Committee that it is the sense of this committee that all statutory regulations governing Absentee Voting, the Party Pledge and all other primary regulations be strictly adhered to and observed by all County Clerks and Election Officials in every precinct and county in primary elections.

"There are 60,000 fires annually
in the United States—half of them
in dwellings—directly traceable to
rubbish and trash," says the Satur-
day Evening Post. "Probably twice
as many more are written off as
'Cause Unknown.'"

"Yet while we suffer these deadly
accumulations of junk in our homes
and business places, three war plants
in New Jersey, making cardboard
packing for artillery shells, close
down for lack of scrap paper. The
trash that would keep those plants
going is burning at least 275 Ameri-
can homes a day!"

Everyone of these trash fires is
unnecessary—every one is simply and
easily preventable. And the statistics
indicate what can be done. Some-
time ago, Cincinnati instituted
systematic cleanup campaigns—and
its fire loss has been cut \$850,000
a year as a result. Through similar
activity, Kansas City reduced its per-
capita fire loss from \$8.04 to \$1.83—
and Erie reduced its per-capita loss
from \$2.36 to fifty cents.

Every community, whether it be
a village or a metropolis, should at
once start a trash elimination cam-
paign. The co-operation of every
householder, every business man and
every worker should be enlisted.
The average home is a far more
dangerous place, from the stand-
point of fire hazards, than its in-
habitants realize. How much trash
have you got stored away in base-
ment, attic, garage and closets?
Take a look and find out. And get
rid of it before a spark or sponta-
neous ignition starts a fire that may
totally destroy your property—and
may take lives as well.

Usable trash should be turned over
to salvage committees for transfer
to war agencies which want it. Un-
usable trash should be destroyed.
This is an activity in which civilian
defense workers can perform a job
of the utmost value. We want less
trash at home—and more trash for
use in the war effort.

This country owes a debt of grate-
tude to the retail industry. For no
industry has shown a more aggressive
and co-operative spirit in dealing
with the tremendous problems im-
posed by our war economy. That
goes for chain stores, independent
stores, department stores and all
other accepted forms of retail dis-
tribution.

Long before federal price control
was adopted, retailing in general
went to work to hold prices down.
Whenever possible, it lowered its
operating costs and passed the sav-
ings on to the consumer. In many
instances, it voluntarily reduced its
own modest margins of profit in
order to control prices. It is a sig-
nificant fact that, over a long period
of time, wholesale prices increased
to a far greater extent than retail
prices. In other words, had retail-
ers increased their mark-up on the
basis of the wholesale price index,
the cost of living would have been
substantially higher than it actually
was.

As shortages and priorities be-
came more severe, retailers took the
lead in advising consumers on how
to select and use suitable substitutes.
They issued factual information
which showed the consumer how to
make many kinds of articles last
longer. And in the food field, re-
tailers are an important factor in
advancing the National Nutrition
Campaign, which is designed to guide

Today, retailers are proving their
abilities as salesmen of war stamps.
A short time ago, a "Retailers for
Victory" drive was started, in which
all kinds and sizes of stores partici-
pated. The object is to sell \$1,-
000,000,000 worth of war stamps and
bonds each month for the duration.
Reports on the early weeks of the
campaign show that, as usual, Ameri-
ca's retailers are doing the job with
complete and spectacular success.

Your store, in short, is more than
just a place where goods are bought
and sold in routine fashion. Retail-
ing is working to protect the con-
sumer to the ultimate of its abilities
on the one hand—and to give maxi-
mum service to the war effort on the
other.

In a recent address, John Brandt,
head of the National Cooperative
Milk Producers Federation, had some
common-sense things to say about
agriculture in this country.

On the subject of the farm labor
situation, he observed: God pity this
nation and its liberties if the farmers
of America said tomorrow, "We are
going to quit on Friday at four
o'clock and we won't turn a wheel
again until eight o'clock Monday
morning." We'd be licked before we
started. . . Our men are going to the
army, as we expect them to go, and
we likewise expect whatever is ne-
cessary of the manpower on the farm
to go and work in defense factories.
But until such time as the man-
power of the city has been used to
the extent of more than 40 hours a
week, they have no right to draw
from agriculture men and women
out of the 70-hour category."

Food is as necessary to this war
as bullets. We have obligated our-
selves to supply other united na-
tions with gigantic quantities of
foodstuffs which they cannot obtain
elsewhere. If the farms are drained
of manpower, that food supply can-
not be produced. In some sections
of the country, lack of manpower
for farming is already forcing cur-
tailment of operations. This is a
real and imminent problem, and it
must be solved.

A great pile of newspapers stacked
up while my campaign was going on.
After that was over, I delved into
the stack and the last one of all
had been mailed to me by my aunt
in Memphis, Tennessee—and when I
ripped the wrapper off, there was
the news that Judge A. B. Pittman
had died.

Now perhaps none of the readers
of this column ever heard of Judge
Pittman but, because he was my
friend, I hope you won't mind my
writing something by way of a tri-
bute; and because he was unique, I
hope further that you will find these
words of interest.

Judge Pittman was, perhaps more
than anyone else, responsible for my
becoming a newspaperman and so,
if there were no other reason than
this, I would always cherish his
memory.

But this is to be about the Judge
himself.
Judge Pittman presided over what
would be, in Texas, the civil district
court.

He was not a handsome man, ex-
cept in the way that Abraham
Lincoln was handsome—rough-hewn
features that readily lighted with a
smile, and kindly, gray eyes.

The Judge was a man of wide
reading and of wider study of men.
His sympathies were with the poor,
the under-privileged, the voiceless.

He was unorthodox in his conduct
of the court. You might go in and
there would be a witness on the
stand, and questions and answers
would be in progress and there
would be a jury in the box—but no
one on the bench. A lawyer would
arise—Judge Pittman always in-
sisted that a lawyer must rise when
he addressed the court—and say,
"Your Honor, I object."

A man standing over by the win-
dow, gazing out on the street, would
say, "Objection overruled," and the
trial would go on.

Judge Pittman insisted on punctu-
ality on the part of attorneys,
jurors and witnesses. He imposed a
fine of \$1 for each minute that any-
one was late.

One day, the Judge entered the
courtroom. It was one minute past
9.

"Mr. Clerk," he said, "enter a fine
of a dollar against the court"—and
the Judge handed over the fine.

He had little patience with pom-
posity—with stuffed shirts.

A lawyer who didn't like a ruling
gave out a statement to the press,
severely criticizing the Judge.
Everyone thought he would cite the
lawyer for contempt of court. When
he didn't, the reporters asked Judge
Pittman for a comment on the mat-
ter. His reply was:

"It is the inalienable right of any
American citizen to make a darn
fool of himself whenever he wants
to"—and that was all he would say
about the attorney.

Judge Pittman really believed that
"reason is the basis of law"—that
common sense should govern trials—
that the purpose of a court should
be justice between man and man.

He disliked excess verbiage and
high-sounding questions. A negro
truck-driver was injured and he
brought suit. A fellow truck-driver
was on the stand and was asked:
"Did the plaintiff know, or could
he have known by the exercise of
reasonable prudence, that the truck
was in a defective condition?"

The witness walled his eyes in be-
wilderedment.

Judge Pittman said, "What the
lawyer means is, Did George over
there know—or ought he to have
known—that the truck was liable
to break down?"

The darkey grinned in relief and
answered, "Naw, suh."

Judge Pittman believed that the
office should seek the man, not the
man the office. And so he never
filed his name—friends would place
it on the ballot by petition. He
never had a card printed; he never
made a campaign speech; he never
asked a man to vote for him. And
yet he was elected and re-elected
for 20 years.

Judge Pittman was an able judge;
he loved his fellow man; he was a
truly great man.

There's a lot of folks in the Perry-

money this year. A lot of these
successful folks will have to pay
federal income taxes next March,
many of them for the first time.

Just a word of warning! Keep
your records so that you can make
a true and accurate report. Be
careful with your spending of the
big 1942 profits. Don't invest too
much in lands, houses and business

Women Wanted For
Army Auxiliary Corps

Lieut. Colonel Marvin B. Durrette,
district recruiting and induction of-
ficer for the west Texas district an-
nounces shipping quotas for the next
two months for the Women's Army
Auxiliary Corps require considerable
numbers of clerks, chauffeurs, tele-
phone switchboard operators, stenog-
raphers, typists, cooks and general
duty auxiliaries.

Specialists who can qualify for
these occupational classifications, and
who are otherwise qualified for en-
rollment in the WAAC, have an ex-
cellent chance to be called to active
duty immediately.

Women interested in this new or-
ganization may obtain information
at any of the following army recruit-
ing stations: Amarillo, Lubbock, Big
Spring, Sweetwater, Plainview, Pam-
pa, Odessa and El Paso.

Pierce Brooks Leads
Race For Rail Post

PIERCE BROOKS

Dallas, Aug. 19: Pierce Brooks, Dal-
las, is the choice of Texas voters as
the man to fill the unexpired term
on the Texas Railroad Commission.
Brooks polled a plurality of more
than 64,000 votes in the July pri-
mary, with eleven in the race. In
the previous primary, Brooks polled
420,000 votes. "Let's finish the job
we started in 1940," say Texans.
"Pierce Brooks is entitled to the un-
expired term. Elect Pierce Brooks
on August 22."

Dear Jim:

"THE old man hasn't got much time to be
sentimental these days. But whenever I look at that picture you had taken
when you were home on leave the last time, I sort of get a lump in my throat.

"It reminds me of the time when you were eight years old and getting
over scarlet fever. I'd promised you anything you wanted, and you
asked for a soldier suit. Gosh, it was hard to turn you down, but I
couldn't tell you then it was because your Mother was against it. She
didn't want you to even play soldier.

"Neither did I, son—but now you've finally got your soldier suit, I
couldn't feel any prouder if I was in it myself! Your Mother feels the
same way about it.

"I wish I was with you, Jimmy—and don't let anybody kid you, I'm not
too old to take on a few of those bums myself. But—well, I don't know
how to express it, but son, I am with you. If you could see the amount
of stuff this plant's turning out, you wouldn't have the worry about us
here at home backing you up!"

For us at home, the job is to increase production. One way to do it is by
the proper use of light wherever eyes are at work. Give a man good light,
so he can see without squinting or strain, and results prove he'll do more
and better work, spoil fewer pieces, and feel better when the day's over.

It's our job to supply the electricity that keeps industry going. It is also
our job to have trained men ready to help every war plant get the last
bit of light from every bit of current. To leave nothing undone that
might mean another plane or tank or gun for Jimmy . . . wherever he is!

Seed Treatment to Control Smut Is Recommended

Chemical seed treatment is cheap insurance against losses from smut in winter grain crops, says E. A. Miller, agronomist of the Texas A. and M. College Extension Service. Wheat, oats and barley are subject to this fungus disease. Unless the grower is certain that his seed is not infected it should be thoroughly cleaned and then treated before being planted.

Stinking smut of wheat often is not noticed in the field unless the grower is familiar with the symptoms. When wheat is heading the leaves of infected plants are a dark green than those of healthy plants. Before ripening the smutty heads also are a slightly darker green than the healthy ones. The diseased young kernels turn into balls of smut consisting of millions of spores. During threshing the spores are spread over the healthy seed, and unless it is treated before planting the smut spores will germinate along with the wheat, especially if the weather is rather cool after

Wheat Farmers to Vote Third Straight Year

Sometime before June 10, 1943, Texas wheat farmers will vote in their third national wheat marketing quota referendum.

Purpose of announcing the marketing quota proclamation at this early date is to get word out to all farmers now planning their fall wheat seeding operations, B. F. Vance, administrative officer of the AAA in Texas, announced.

"With the present war emergency like it is and the urgent need for certain types of commodities other than wheat, I hope Texas wheat farmers will divert as much acreage as they possibly can to other war crops insofar as it is possible," he said.

He explained that wheat is a valuable war crop, as shown during the first World War when there wasn't enough of it, but that present supplies were so heavy that the nation was hard pressed to find adequate storage even though large amounts were being fed to livestock.

Diversion of wheat acreage to war crops, storing wheat on the farm and marketing it wherever possible in the form of livestock and poultry were cited as special contributions wheat farmers could make to the war program.

Quotas are announced for an approaching year whenever it appears the total supply of wheat will exceed a normal year's domestic consumption and exports by more than 35 per cent.

Due to successive large crops and decreased exports, the 1943 wheat supply not only will exceed domestic consumption and exports by 35 per cent but probably will be twice the size of these outlets, Vance said.

Cotton Picking Sacks Will Be Available

Cotton bag manufacturers in Texas have informed the Texas USDA War Board that they can supply plenty of picking sacks made from

cotton cloth, B. F. Vance, board chairman, has announced.

Vance said that shortages of cotton duck cloth for the manufacture of cotton pick sacks required a shift to sacks made from osnaburg. Texas mills, in answer to queries from the war board, indicated they could

supply as many of the osnaburg sacks as needed.

planting. Chemical treatment consists of cleaning the wheat by fanning or otherwise removing the smut balls and treating the seed either with two ounces a bushel of 50 per cent grade of copper carbonate, or one-half ounce a bushel of ethyl mercury phosphate, known as new improved ceresan. Many growers prefer the ceresan treatment because copper carbonate has a tendency to clog grain drills, especially in damp weather.

Treat the grain in a container—an oil drum will do—having a tight fitting lid. Solder a pipe diagonally across the drum, extending about one foot on either side with a handle on one end so the container can be revolved when this axis is placed on two sawhorses. For small amounts any tight fitting container may be used.

Well here we are again folks, trying to tell you something about the movies and we well know that you know more than we know to begin with. Anyway, Torpedo Boat with Richard Arlen and Jean Parker is a very timely subject and it will give you a better idea of just what these small, fast boats are doing in the present war. We are talking about the picture for Friday and Saturday, August 21 and 22 at the Rogue.

So if you are a Robinson fan, we are sure you will be pleased with Edward's performance.

PLAYMATES

Don't overlook the show for Wednesday and Thursday, August 26 and 27, because if you do you will have regrets. It's Kay Kyser and his orchestra in their newest picture, Playmates. It's a daffy, wacky goofy comedy, musical romance. Of course you don't know what kind of picture that would be,—neither do we. However, we expect to like it and believe you will if you like Kay Kyser.

Last Rites for Kelton Resident Held

Last rites for Joseph Nelson Richardson, 63 year-old Kelton resident, were held at the Baptist church in Twitty, Thursday afternoon.

Mr. Richardson passed away Wednesday morning in a Pampa hospital. He had been in ill health for a number of years and his condition became more serious about two weeks ago.

Rev. V. M. Lollar, pastor of the Kelton Baptist church, was in charge of the services assisted by Rev. H. H. Henry of Twitty. Interment was in the Shamrock cemetery with the Nix Funeral Home in charge.

Pallbearers were E. B. Robertson, Tommy Henderson, George Davidson, Tom Clay, Walter Davidson and Tillman Clemens. Flower attendants were Ella Clemens, Barney Stansel, Hallie Burrell, Tommy Henderson, Beny Strange and Miss Billie Jean Henderson.

Mr. Richardson was born August 30, 1879. He was married to Julia Sophronia Ann Womack, August 22, 1897. To this union were born 13 children. Mrs. Richardson and two children preceded him in death.

Survivors include Thurman Richardson, who is in the army, and Tony Richardson of California, who were unable to attend the last rites; Grady of Lela, Claude of Knox City, George of Twitty, Gordon of Borger, Mrs. Albert Bearden of Pampa, Mrs. Howard Mansel of Erick, Okla., Mrs. Oscar Henson of Gracemont,

Okla., Newton and Jullitte of Kelton.

Other survivors include 32 grandchildren, one brother, O. D. Richardson of Twitty, one sister, Mrs. Lizzie Kee, of New Edenburg, Ark. Two nephews, Clyde Richardson of Summerfield and Vesta Richardson of Texola. Also a host of other relatives.

Mr. Richardson was converted in his early youth and lived a devoted Christian life. He was a Sunday school leader up until he was unable to attend services. He made his home in the Kelton community for a number of years where he made a host of friends.

The Kelton community extends to the bereaved family the deepest of sympathy in their loss.

UNITES FOR MILLER INFANT ARE HELD AT KELTON

Funeral services were held Wednesday morning of last week at the Kelton Baptist church for Cora Ann Miller, infant daughter of Mr. and Mrs. Otto Miller.

Thompson-Wilson Vows Spoken August 9th

Miss Elsie Thompson and Corporal Bernard Wilson were married at the Mobeetie Church of Christ Sunday, August 9, by J. L. Prichard, minister of Dickens Church of Christ.

Their only attendants were Rosa Thompson, Faye Wilson and Dale Wilson.

Mrs. Wilson is the daughter of Mrs. W. M. Thompson of Canadian. She graduated from West Texas State College the spring of 1941, where she was a member of Alpha Chi for three years. After her graduation she taught commercial work at the Higgins high school and since April she has been employed as stenographer in the office of the Berger Herald.

Corporal Wilson is the son of Mr. and Mrs. Milton Wilson of Briscoe. He graduated from West Texas State College in 1940 after which he taught in the Wheeler school system until he was inducted into the army in April 1941.

The couple are at home at 611 N. W. 2nd Avenue, Mineral Wells, Texas. They invite all their friends to drop in to see them when down that way.

Midget Auto Tags To Be Used in 1943

Midget automobile license tags—one by four inches—will be used in Texas next year.

The Highway department announced the tags will be bolted to 1942 standard license plates.

Despite their size, a restriction ordered by the War Production board because of steel shortages, they will not be cheaper unless the legislature revises automobile registration fees.

Forty tons of steel will be used in their manufacture whereas 800 tons normally are consumed in making the standard license plates.

Farmers to Be Paid for Using Cotton Bagging

Cotton farmers who wrap their bales in cotton bagging henceforth will receive payment for seven pounds in addition to the gross weight of their bales, the National Cotton Council announced today.

Under agreements completed by the council between mills, trade associations, and cotton exchanges, all trading rules governing the buying and selling of cotton have been amended to compensate the seller for use of cotton bagging in place of burlap, jute or other materials.

"These agreements," according to Hugh M. Comer, cotton mill executive and chairman of the council's committee on cotton bale covering, "reverse the former procedure under which the farmer was penalized for use of his own product. They indemnify him completely for the difference in weight between cotton bagging and jute bagging, and remove the last obstacle to the adoption of cotton wrappings for cotton bales throughout the entire industry."

Mr. Comer said that serious shortages of jute and burlap for use on cotton bales had made it imperative that protection be given to farmers in time for the movement of the current crop. In recognition of such shortages, the Department of Agriculture has subsidized the manufacture of sufficient cotton bagging to cover four million bales, or approximately one-third of the 1942 crop. Under previous practice, the difference in weight between these cotton coverings and the heavier jute would have resulted in direct cash loss to farmers in excess of \$5,000,000.

"This addition to the trading rules is a much more satisfactory plan than was the net-weight trading law proposed through legislation," Mr. Comer explained. "With the allowance established in the trading rules, a farmer who takes to market a bale of cotton wrapped in cotton bagging will have seven pounds added to the gross weight of his bale, whereby under a net weight law the buyer would be required to deduct 22 pounds from the gross weight of a jute covered bale and 15 pounds from a cotton covered bale."

JUDGE
E. L. PITTS
Candidate for
**CHIEF JUSTICE
COURT OF CIVIL
APPEALS
AT
AMARILLO**

JUDICIAL, NOT SECTIONAL
PITTS WILL BE "JUDGE" OF ENTIRE DISTRICT,
NOT MERELY LOCAL "REPRESENTATIVE" CERTAIN
"PART"

Sectional Representation? Don't be misled by appeal to sectional prejudice for election of "representative" from "Northern part" of District, because Judge lives in Amarillo instead of Lubbock. Pitts takes broader view that, in suit by citizen of one section against citizen of another section, law should not be "charted" along sectional lines.

Amarillo Always Represented. The truth is that Amarillo (where the Court is centrally located) always has all the Judges, because after their election they live there, and Amarillo's gracious citizens gladly welcome them, no matter which one of the 46 counties in the District the Judges may come from. And these Amarillo people (the same as the people of other sections of District) properly expect these Judges to be judges for every part as well as the "Northern part."

Lubbock Not Represented. In no election, during 30 years existence of District, has Lubbock ever had a candidate for office of Judge on this Court. (20 years ago, one Lubbock lawyer, appointed to fill unexpired term, served only 8 months).

JUNK NEEDED FOR WAR
Scrap Iron and Steel

Needed for all machines and arms of war. Fifty per cent of every tank, ship and gun is made of scrap iron and steel.

Other Metals—Rubber—Rags—Manila Rope—Burlap Bags

Needed for making bombs, fuses, binoculars; planes; tires for jeeps; gas masks; barrage balloons; wiping rags for guns; parachute flares; insulation for electric wiring.

WASTE COOKING FATS—When you get a pound or more, strain into a large tin can and sell to your meat dealer. **NEEDED ONLY IN CERTAIN LOCALITIES**—Waste paper and tin cans—wanted only in certain areas, as announced locally. **NOT NEEDED** (at this time)—Razor blades—glass.

Let's blast Japan—and Germany—and Italy—with the chain lightning of destruction that can be built from the scrap in our cellars, attics and garages, on our farms and in our places of business.

Scrap iron and steel, other metals, rubber and waste materials. It will all be used to make tanks, ships, planes and the fighting weapons our boys must have. It is needed at once.

Sell it to a Junk dealer—give it to a charity or collection agency—take it yourself to the nearest collection point—or consult the Local Salvage Committee... If you live on a farm, and have found no means of disposing of your Junk, get in touch with the County War Board or your farm implement dealer.

H. J. R. No. 24

A JOINT RESOLUTION proposing an Amendment to Article V of the Constitution of Texas by providing that the Legislature shall have the power by local or general law, in counties having a population in excess of two hundred thousand (200,000) inhabitants to create other courts, having exclusive jurisdiction or concurrent jurisdiction with the county court in civil, criminal or probate matters; fixing the time for an election therefore; prescribing the form of ballot; providing for a proclamation of such election and the advertisement thereof; and making an appropriation therefor.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. Article V of the Constitution of the State of Texas be amended by adding thereto a new section to be known as Section 22-a and reading as follows:

"Section 22-a. The Legislature shall have the power, by local or general law (without the necessity of advertising any such local law), in counties having a population in excess of two hundred thousand (200,000) inhabitants according to the then last Federal Census, to create other courts having either exclusive jurisdiction or concurrent jurisdiction with the county court in civil, criminal or probate matters."

Section 2. The foregoing Constitutional Amendment shall be submitted to the qualified voters of the State of Texas at a special election to be held on the first Tuesday after the first Monday in November, 1942, at which time all voters favoring such proposed Amendment shall have written or printed on their ballots the following:

"For the Amendment to the Constitution, providing that the Legislature may in certain counties create other courts having either exclusive jurisdiction or concurrent jurisdiction with the county court in civil, criminal or probate matters."

Those voters opposed to such Amendment shall have written or printed on their ballots the following:

"Against the Amendment to the Constitution, providing that the Legislature may in certain counties create other courts having either exclusive jurisdiction or concurrent jurisdiction with the county court in civil, criminal or probate matters."

If it appears from the returns of said election that a majority of the votes cast is in favor of the Amendment, the same shall become part of the Constitution of the State of Texas.

Section 3. The Governor of the State is hereby directed to issue the necessary proclamation for said election and to have it published as required by the Constitution and existing laws of this State.

Section 4. The sum of Ten Thousand Dollars (\$10,000) or so much thereof as may be necessary is hereby appropriated out of the State Treasury not otherwise appropriated to pay the expenses of said publication and election.

H. J. R. No. 1

A JOINT RESOLUTION proposing an amendment to Article III of the Constitution of the State of Texas by adding a new section thereto to be known as Section 49a, requiring all bills passed by the Legislature on and after January 1, 1945, appropriating money for any purpose, to be sent to the Comptroller of Public Accounts for his approval, and fixing the duties of the Comptroller with reference thereto; authorizing the Legislature to provide for the issuance, sale, and retirement of serial bonds, equal in principal to the total outstanding, valid, and approved obligations owing by the General Revenue Fund on September 1, 1943; providing for the submission of this amendment to the voters of this State; prescribing the form of ballot; providing for the proclamation and publication thereof; and providing for the necessary appropriation to defray necessary expenses for the submission of this amendment.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article III of the Constitution of the State of Texas be amended by adding thereto, immediately after Section 49, a section to be known as Section 49a, to read as follows:

"Section 49a. It shall be the duty of the Comptroller of Public Accounts in advance of each Regular Session of the Legislature to prepare and submit to the Governor and to the Legislature upon its convening a statement under oath showing fully the financial condition of the State Treasury at the close of the last fiscal period and an estimate of the probable receipts and disbursements for the then current fiscal year. There shall also be contained in said statement an itemized estimate of the anticipated revenue based on the laws then in effect that will be received by and for the State from all sources showing the fund accounts to be credited during the succeeding biennium and said statement shall contain such other

information as may be required by law. Supplemental statements shall be submitted at any Special Session of the Legislature and at such other times as may be necessary to show probable changes.

"From and after January 1, 1945, save in the case of emergency and imperative public necessity and with a four-fifths vote of the total membership of each House, no appropriation in excess of the cash and anticipated revenue of the funds from which such appropriation is to be made shall be valid. From and after January 1, 1945, no bill containing an appropriation shall be considered as passed or be sent to the Governor for consideration until and unless the Comptroller of Public Accounts endorses his certificate thereon showing that the amount appropriated is within the amount estimated to be available in the affected funds. When the Comptroller finds an appropriation bill exceeds the estimated revenue he shall endorse such finding thereon and return to the House in which same originated. Such information shall be immediately made known to both the House of Representatives and the Senate and the necessary steps shall be taken to bring such appropriation to within the revenue, either by providing additional revenue or reducing the appropriation.

"For the purpose of financing the outstanding obligations of the General Revenue Fund of the State and placing its current accounts on a cash basis the Legislature of the State of Texas is hereby authorized to provide for the issuance, sale, and retirement of serial bonds, equal in principal to the total outstanding, valid, and approved obligations owing by said fund on September 1, 1943, provided such bonds shall not draw interest in excess of two (2) per cent per annum and shall mature within twenty (20) years from date."

Section 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of the State of Texas, at the next general election to be held on the first Tuesday after the first Monday

in November, 1942, being November 3, 1942, at which election all voters favoring said proposed amendment shall write or have printed on their ballots, the words:

"For the Amendment to the Constitution of the State of Texas, requiring appropriation bills passed by the Legislature to be presented to and certified by the Comptroller of Public Accounts as to available funds for payment thereof, limiting appropriations to the total of such available funds, providing for issuance of bonds to pay off State obligations outstanding September 1, 1943, and fixing the duties of the Legislature and Comptroller of Public Accounts with reference thereto."

Those opposing said proposed Amendment shall write or have printed on their ballots, the words: "Against the Amendment to the Constitution of the State of Texas, requiring appropriation bills passed by the Legislature to be presented to and certified by the Comptroller of Public Accounts as to available funds for payment thereof, limiting appropriations to the total of such available funds, providing for issuance of bonds to pay off State obligations outstanding September 1, 1943, and fixing the duties of the Legislature and Comptroller of Public Accounts with reference thereto."

Section 3. The Governor of the State of Texas is hereby directed to issue the necessary proclamation for said election and have same published as required by the Constitution for amendments thereto.

Section 4. The sum of Five Thousand Dollars (\$5,000), or so much thereof as may be necessary, is hereby appropriated out of any funds in the Treasury of the State of Texas, not otherwise appropriated, to pay the expenses of such publication and election.

YOUR MAN FRIDAY..... even on Tuesday!

- This is a story about a man named Friday and what he did one Tuesday. A vital repair had to be made on a pipe line at the bottom of a river, so that there would be no interruption in Natural Gas service. Although he had never been in a diving suit before, he realized the job had to be done—and he did it!
- This was not unusual. The sole job of our more than 3,000 trained employes is to see that Natural Gas service is **DEPENDABLE**. Knowing full well what Natural Gas means to the war effort, for instance, our organization has been geared, and our employes trained, to assure dependable service.
- Natural Gas is working for Victory—AND WE WILL WIN!

Old Cowhands Gather At Canyon Aug. 27

The old cowpunchers of the West are ready for their annual reunion on the T-Anchor range near Canyon on the evening of Aug. 26 and all day Aug. 27, president E. C. Britain announced today.

On Thursday evening, Aug. 26, there will be son-of-a-gun stew prepared by Mel Armstrong, an Old Tascosa sheriff. Ed Baird of Canyon will supervise the evening program.

The feature of the evening will be a ranch style square dance on a big and strong platform. There will be suitable music. Bill Hensley of Amarillo, "Uncle Billy" Jarrett of Dalhart and others will do the leather-lunged calling. The dance will last as long as anyone wants to "shake a leg."

The big reunion comes the next day—a morning of yarn swapping, a John Snider barbecue at noon and a snappy program in the afternoon. President Britain will call the

meeting to order just before the "come and get it" sounds for the barbecue. Elmore Dodson of Dodson in Collingsworth County, an old Laurel Leaf puncher, will say the invocation.

Soon after the barbecue, President Britain will call for order. There will be music, including numbers by the Blackburn-Shaw Quartet, and second generation cowboys and girls.

Officers will be elected; then Judge C. E. Coombes of Stamford will speak. Also on the speaking program are Mrs. Billy Dixon and Miss Laura V. Hammer. All old punchers and pioneer women will be introduced by John McCarty, the master of ceremonies.

Mr. Britain said today that all persons eligible should notify him of membership and send in the \$2 initiation fee. Mr. Britain's address is Oliver-Eagle Building, Amarillo.

This will be the 22nd reunion of the old punchers. Any men, or their families, who pioneered in the west prior to 1900 are eligible for membership.

Government Offers to Buy Mules for Army

Anyone in Wheeler county having mules that will meet certain specifications for sale to the United States Army are asked to contact county agent Jake Tarter.

The commanding officer, South Central Remount Area, has just received orders to purchase 900 pack mules. These mules will be purchased in the states of Texas and Oklahoma, and must be, in the opinion of the purchasing board, capable of performing the duties for which they are being purchased. The following specifications will be adhered to:

1. Age—4 to 8 (a 4-year-old mule must be a full four).
2. Height—14.3½ to 15.2 hands. (A hand is four inches).
3. Weight—1,075 to 1,150 lbs.
4. short, straight back.
5. Deep chested.
6. Big bodied (well sprung ribs).
7. Straight legged.
8. Good bone.
9. Gentle.
10. Sound in every respect.
11. Mules to average \$200.00 per head.

A schedule of places and dates of inspection by the purchasing board will be published at a later date for the information of those desiring to present pack mules to the board.

Pat Beene, county attorney of Andrews county, his wife and children visited relatives here this week.

Wheeler Scouts Asked to Meet August 25

All Boy Scouts and prospective members are urged to attend a meeting at the regular place in the basement of the Methodist church, on August 25, at 8:30. This meeting is important for purpose of registration. David L. Eaton, who is experienced in Scout work, will serve as Scout leader.

Boys of Scout age and their parents are urged to mark this date on their calendar.

J. W. CORDELL ENLISTS IN UNITED STATES NAVY

J. W. Cordell, son of Mr. and Mrs. Geo. W. Cordell of Magic City, enlisted in the United States navy and left Monday, August 17 for Dallas to take the final examination. He is to be stationed at San Diego, Calif. J. W.'s enlistment fulfills a boyhood ambition and adds to the navy record of the Cordell family. Three uncles of his, Roy, Rolla and Richard Cordell are 1st Class machinists, and were among the survivors of the sinking of the U.S.S. Lexington.

They have been in the navy about seven years and are now stationed at Norfolk, Va., installing machinery in the U.S.S. Essex until the second Lexington is ready to be outfitted.

Mrs. Lou Cordell of Durham, Okla., J. W.'s grandmother, and the mother of Roy, Rolla and Richard, is to christen a tug, the "Choctaw," on August 28 at Charleston, N. C.

Young Cordell was graduated from the Wheeler schools last year and has just completed a welding course in Denver, Colo.

THE WARTIME IMPORTANCE OF THE RAILROAD COMMISSION OF TEXAS IS TREMENDOUS

BEAUFORD H. JESTER

Corsicana, Texas

Candidate for
**Railroad
Commissioner**

The Commission regulates transportation and the oil and gas industry, both vital in war.

Beauford Jester is a native Texan, a lifelong resident of Corsicana, forty-nine years old, married and has three children; the son of George T. Jester, Lieutenant Governor of Texas in 1894-1898.

He has never before been a candidate for public office. Yet his life is full of conspicuous, unselfish, public service. He was a Captain in the famed 90th Division, during the first World War, and saw front line action at the battles of St. Mihiel and the Argonne. Past Chairman of the Board of Regents at the University of Texas. A member of the Methodist Church. A charter member of the Corsicana Rotary Club. Past Commander of the American Legion Post in Corsicana. Twenty-two years a practicing lawyer. His high qualities of leadership, fidelity to the public welfare, and capacity for constructive service, have been amply proved. He is a man of poise, courtesy, experience, ability and integrity.

We, named below, are strongly convinced that Beauford Jester is the right man to be Railroad Commissioner, and give him our whole-hearted endorsement in the runoff election August 22.
