Mrs. Matthews is still away with Gene, and since you have an old reporter on duty, indefinitely, those wishing to contribute news items to our news column will please call 48, or drop a card or letter in the postoffice, box 59, and it will be appreciated.

Word from Gene is that he is recovering satisfactorily at St. Mary's hospital in Rochester. Mr. Matthews returned home Sunday while Mrs. Matthews and Doris plan to remain indefinitely.

The children and grandchildren of the George B. Dunn family have been called to the bedside of their father and grandfather who is gravely ill in the Highland General hospital at Pampa. Mr. Dunn is one of our oldest pioneers and quite well known in this section of the panhandle.

Twenty-three members of the local chapter were present. Refreshments and a social hour followed the chapter meeting.

Lions Club meeting Tuesday evening was attended by some thirty-three local Lions and visitors from both Shamrock and Wheeler clubs.

DRIVE-IN SITE SELECTED BY LEE GUTHRIE

Lee Guthrie of the Rogue Theatre announces that the site for the location of the new Drive-In Theatre has been selected and purchased. It is one mile north of Wheeler on the south east corner of the Fred Rowe property where the pavement makes a bend to the left and the old dirt road goes straight on north to form a triangular piece of land. It begins just at the top of the hill, beyond the creek, and the main electric power lines serving Wheeler parallel the east side. It is practically level and will afford excellent drainage and good visibility. It may be seen from the intersection of Highways 83 and 152 since it is on a relatively high ground.

Mr. Guthrie states that the dirt work will start in the very near future, and when that is completed the laying of underground cables, the construction of the screen tower, ticket office, projection room, concession stand, speaker stations, main entrance, and finally the topping of the entire parking area, and the drilling of a well will follow.

They expect to have the entire project completed in time for an opening early this summer. Mr. Guthrie states that the public has manifested considerable interest and enthusiasm in the undertaking, and he is looking forward to the opening when another service can be brought to the Wheeler community.

"This is more than just a fund raising drive. It is a peculiarly individual appeal. The fight against polio is everybody's fight because everybody is eager to provide our children with all the protection possible against this crippling disease.

"Scientists report that we are definitely closing in on polio. We are faced, however, with keeping scientists at work and caring for patients at the same time. We

Wheeler Whisperings

By J. C. Howell

A man has a barrel of water. He has three faucets in barrel. One faucet will drain barrel in 15 minutes, 2nd faucet will drain barrel in 30 minutes, 3rd faucet will drain barrel in 45 minutes. By turning on all faucets at once, how long will it take to drain barrel. When you get your answer, check with Dr. V. N. Hall to see if it is right. . . we haven't taken time to work out the problem and see what the correct answer is—been pretty busy serving as taxi driver for the family since Mrs. Whisperings is not yet able to drive the car.

George Gandy, one of Wheeler's finest civic leaders, has asked that we let the people know who the individuals were who operated the equipment and helped in the dirt moving which recently took place at the Wheeler Community Show Grounds and the softball diamond in the City Park. Most of those who helped operate the county equipment in this operation were: Bill Hampton, Carroll Pendleton, Chessie Pendleton, Nile Patterson, A. H. Scott, Johnnie Johnson, (Continued on Last Page)

THE MARCH OF DIMES DRIVE IS ON AGAIN

The March of Dimes Drive is on again, and this year the effort is launched with greater hopefulness than ever before. Only two months ago, Basil O'Connor, National Foundation head, announced that progress toward the development of a vaccine to prevent polio was definitely on the way to perfection.

This comes as welcome news to a nation

in which polio has each summer stricken thousands of unsuspecting citizens, sometimes proving fatal and in other cases leaving victims crippled for life. This disease has struck annually for many decades and has, until this time, defied all the powers of the medical profession.

A contribution to the March of Dimes is a contribution to a cause which takes second place to none and since the money donated by Americans in recent years has paid off in concrete results, which are now on the verge of producing a vaccine, the incentive should be all the greater.

The Wheeler Times cannot endorse the latest March of Dimes too highly. We urge every reader to examine his own personal situation and do his best in this humanitarian effort.

A NEW ERA IN AGRICULTURE

At the annual meeting of the American Association for the Advancement of Science, there was a demonstration of a synthetic chemical named Krillium, that converts non-productive into productive soil in a matter of hours instead of years or generations required by present methods. Krillium is not a fertilizer but a soil conditioner which restores the physical structure of the soil to the proper consistency, thus enabling plants to get the proper amount of oxygen, water and nutrients from the soil.

This development marks the beginning of a revolutionary era in agriculture. It is conceivable that in the distant future deserts may be turned into rich farm land. Old worn-out land may become farm frontiers.

Unfortunately, Krillium is still in the development stage and will not be on the market in substantial quantities before 1953. It is expected, however, that one pound of Krillium will cost around two dollars and that it will have essentially the same effect on soil structure as five hundred pounds of commercial compost, which sells at about two and one-half cents a pound.

CANNON-LIKE PROJECTOR

A new way to advertise is with the Astralux. The Astralux is a giant projector that looks like a cannon and beams advertising matter on to cloud banks in the sky. The men who operate this projector are dressed in protective clothing and mask.

Wilhelm Hartmann of Northern Germany developed the Astralux. It weighs two and a half tons, is 36 ft. long, and beams its message more than three miles into the sky. It can be seen more than eight miles away.

While the Astralux is not available to the advertisers of this community, an effective medium is available to Wheeler advertisers, The Wheeler Times.

For your Christmas canape tray Cheeses are a must. Mix 1 package snappy cheese with 1/4 pound (1 stick) vitaminized margarine, 1 cup flour and a dash of cayenne. Form into roll and wrap in wax paper; refrigerate until firm. Slice and bake in moderate oven till firm and slightly brown. These are marvelous served with fruit salads, too!

Have trouble unrolling your "picture" salads? I've found this works: An hour ahead of serving time run a knife around edge of mold, then invert mold on plate you intend to serve salad on. Return the whole thing to the refrigerator. At serving time the salad has dropped down and is as lovely as can be. Hope it works for you, too.

Here's a very easy and economical way to "snow" your Christmas tree and other holiday greens. Use liquid white shoe polish in a clean household spray. Goes on very easily!

SENIOR NEWS

We are glad to welcome a new member to our class. She is Mary Bourne. She just moved here from Lubbock. This boosts the number of seniors up to 20.

Everyone is very glad the mid-term tests are over, now if we could skip the ordeal of receiving report cards we would be happy.

The seniors want to extend their best wishes to Miss Brown who became Mrs. Ralph C. House-

holder, Jr. on Saturday, January 19.

We wish to thank all the people who patronized our concession stand during the tournament. We thank all the parents, Mrs. Nelson Porter, and Miss Wiley for their generous donations of food to sell at the stand.

JUNIOR NEWS

Well, now that the mid-term exams are over maybe we can breathe easy again. We can wash the answers off our hands and quit carrying our notes around in our shoes. But wait a minute, we can't breathe too hard because there are the report cards coming up any day now.

Patricia, what's this we hear about you having company from Wellington Thursday? It's a pity you had to stay home because of exams the next day.

When the Cool of the Night Calls for Food and Drink

What the recipes require for a late snack

After a dance or other summer entertainment, likely as not the weather will have cooled off. Then hot food will appeal more than at any other time during the day. Be prepared to serve it—for yourselves and for any friends you may bring back to the house.

The phenomenal rise in sales of chafing dishes in recent months is not surprising. This is a wonderful invention which should not be permitted to disappear into attics or scrap piles.

Food and Drink

Be it said at once, however, that there's nothing you make on a chafing dish which can't be made equally satisfactorily on the kitchen range, albeit with less display of exhibitionism and perhaps less glamor!

From the refrigerator, chilled bottles of Coke provide the other ingredient which, with the piping hot dish listed below, will make a success of the middle of the night repast.

Welsh Rarebit

1 tablespoon butter
 1 tablespoon flour
 1/2 teaspoon dry mustard
 1/2 teaspoon salt
 Dash of cayenne
 1 teaspoon Worcestershire
 1 1/2 cups milk
 1 round sharp Cheddar, cubed

Over direct heat, melt butter and blend in flour, mustard, salt and cayenne. Add milk and stir until well blended. Add Worcestershire and cheese and place pan over hot water. Stir constantly until all cheese has melted and is blended with the sauce. Serve, at once, on toast points. Serves 6.

Chafing Dish Tuna

2 tablespoons butter
 2 tablespoons flour
 1 1/2 cups light cream
 2 7-ounce cans light tuna
 1 4-ounce can sliced mushrooms
 Salt, pepper, paprika

Melt butter over direct heat. Blend in flour. Add cream and stir constantly until thickened. Place over hot water. Add tuna, flaked, and mushrooms and blend well. Season to taste with salt and pepper. Allow to heat through. Serve over toast points with a dash of paprika on top. Serves 4-6.

Eggs In Cream

6 eggs
 1/2 pint sour cream
 2 tablespoons butter
 2 tablespoons chili sauce
 2 tablespoons minced chives
 Salt and pepper

Melt butter over hot water. Add chili sauce, sour cream and chives. Heat and season to taste with salt and pepper. Break in eggs carefully and poach until they have reached the degree of doneness you like. Lift carefully from sauce and place each on a toasted English muffin half. Spoon sauce over. Serves 6.

Western Eggs

8 eggs
 3 tablespoons cream
 1 tomato, chopped
 2 tablespoons chopped green pepper
 2 tablespoons chopped onion
 Salt and pepper

Beat eggs with cream. Add chopped vegetables and turn into top pan of chafing dish over hot water. Scramble gently with a fork until the mixture has reached the degree of doneness you like. Season to taste with salt and pepper and serve at once with buttered toast. Serves 6.

I think most of the eighth grade enjoyed the high school tournament here at Wheeler. We are sorry high school couldn't get at least one of the big trophies. But we are glad we got second and consolation.

The eighth grade boys and girls are looking forward to their junior tournament at Lefors. We think we stand a good chance.

The girls first game during the tournament was with Shamrock. We won 48 to 27. The second game was with Kelton, which we won 36 to 27. That put us into the finals with Mobeetie. We lost by a score of 71 to 27. Dixie Moore was on the second all-tournament team.

Glorified Gingerbread

Here's Gingerbread in party dress. This two-layer affair is filled with fresh applesauce and topped with whipped cream cheese.

Who cannot remember his delight as a child with munching a fat Gingerbread man? An old-fashioned dessert, Gingerbread still finds a popular place on the modern menu as "cake" or muffins.

Bakers offer a number of molasses-and-spice desserts in the Gingerbread class. But Gingerbread is easily made at home too, as this recipe proves. Though it can stand alone with its mellow molasses flavor and exhilarating spices, Gingerbread looks pretty with a whipped cream cheese icing. You may give it an applesauce filling, if you're making the two-layer kind.

A hot lemon sauce makes a good topping for Gingerbread Muffins served as dessert. In any of these roles, Gingerbread provides dessert enjoyment at a minimum of cost, yet proffers excellent nutritional value. It is especially high in the food mineral iron provided by enriched flour, eggs and molasses, plus the B-vitamins of enriched flour.

GINGERBREAD

- | | |
|------------------------------|---------------------------|
| 2 cups sifted enriched flour | 1/4 teaspoon cinnamon |
| 1/2 cup sugar | 1/4 teaspoon cloves |
| 2 teaspoons baking powder | 2 eggs, beaten |
| 1/2 teaspoon salt | 1/2 cup molasses |
| 1/4 teaspoon soda | 1/2 cup sour milk |
| 1/2 teaspoon ginger | 1/2 cup melted shortening |

Sift together flour, sugar, baking powder, salt, soda, ginger, cinnamon and cloves. Combine eggs, molasses, sour milk and shortening. Add to flour mixture stirring until smooth. Pour into greased muffin pans or 2 8-inch layer pans. Bake in moderate oven (375°F.) about 20 minutes for muffins or 30 minutes for layers. Makes about 16 2-inch muffins or 2 8-inch layers.

B. Killingsworth acting as the teacher.

Those present were: Mesdames J. A. Tucker, C. O. Killingsworth, T. B. Killingsworth, Leonard Rathjen, Vera Boatman and J. F. Rathjen.

County PMA Office To Be Closed Saturdays

For the past several months the PMA office has remained open until noon on Saturday for the convenience of farmers in the county. Since very little business was conducted on Saturday, the office will close all day on Saturday, Albert Marshall announced this week. If a busy season develops in the future, the office will again remain open on Saturday mornings. You will be notified of any change in office hours.

The office will still remain open Monday through Friday from 8:00 a.m. until 5:00 p.m. continuously. You may still handle your business by mail if that method is the most convenient for your needs. Most business with out of county landowners is taken care of this way.

Margaret Holt visited her folks and friends this week in Wheeler. Miss Holt is a junior at Oklahoma University.

Mr. and Mrs. J. H. Richards returned home Monday after visiting relatives and friends at Tahoka and Brownfield last week.

This & That

From The HOME DEMONSTATION OFFICE

By Frances B. Stanton

DO YOU KEEP A HOME ACCOUNT BOOK?

It would be interesting to know how homemakers keep records of their accounts—whether they keep daily records on the wall calendar in the kitchen—a small notebook record—or a regular Farm and Home record book.

Records are a kind of mirror. They reflect for study the year's business. Cost of production figures on various crops and livestock grown on the farm may reveal that operations now considered minor should be expanded so as to more fully utilize the equipment and labor available.

How you keep your home records or accounts is of course up to you and the time you spend on them. Most people, when figuring income tax at this time of year, resolve to keep records that give more detailed information to guide them for another year. A good form for your account book means that at any time you can check on the money paid out and balance it against income.

A convenient place to keep this book will help to make it convenient so that it may be entered each day. Describe them fully so that you can tell what they mean months later. On the right hand page, for instance, enter amounts paid out under headings like health, where Billy's dental work would go; Mary's shoes would go under clothing if she is a member of the family—or under gifts and contributions if she is not. Don't fail to make note of any livestock that have died under losses or depreciation.

Records indicate that a farm is being operated on a business-like basis, and when it comes to getting credit, they reveal for the representative of loan agencies the productive capacity of the farm, and a list of the assets, in inventory form located on the farm. From a set of records kept regularly, one often finds deductions in preparing income tax statements, which were previously not thought of. Then, as in any other business, the farmer needs an inventory to show what the family owed at the beginning of the year to check against the finish of that year.

Good record books may be bought from many stores, or a good one may be ordered from the Exchange Store, College Station, Texas. It is designed to take care of Texas farming.

Let's spend a little time each day and resolve to keep a good set of records in 1952.

Mr. and Mrs. Emmett Herd and Maurine made a trip to Sayre and Erick, Okla. Wednesday.

KIWANIS NOTES

By Dr. C. C. Merritt

Because of illness our lieutenant governor could not be with us this week. Watson Burgess, who is proving to be an efficient program committee chairman, secured George Gandy to furnish the program. He did . . . in the persons of George W. Taylor of Childress and our own county agricultural agent, Ray D. Siegmund. Mr. Taylor is soil conservation agent and was he needed here Monday with the soil changing places and, as usual, in the wrong places . . . some of it got in our personal property. We enjoyed the words of these men very much. Even our own George Gandy said a few appreciated words. Thanks, George, and the rest of you who helped!

Another visitor to our club Monday was Tom Dearen of Aracoma. Many Wheelers were glad to meet Tom again Tom works for the Blackburn Bros., but he was not the cause of the fire that destroyed that business recently. Tom does get about the party lively.

Have you noticed the fine dirt moving job done at the soft ball field in the city park? We are planning to have that place all ready for the boys and girls by the time soft ball season rolls around.

There was only one vacant chair at the tables Monday. That means that the attendance was splendid. But some of you were not there. We missed you, too. Try a little harder next time so you can make us all happy together.

Living in the U. S. Army, stationed at Yuma, Ariz. is spending a few days visiting relatives and friends in Wheeler while on a few days.

Mrs. Bob Rodgers visited with her daughter, Peggy, who is attending college at Baylor University, Waco, last week from Thursday until Monday.

Your New SOCIAL SECURITY

Self-employed persons were reminded today by John R. Sanderson, manager of the Amarillo office of the Social Security Administration that coverage under the new law is mandatory and not voluntary. He said, "While it is true that certain professionals are excluded from coverage, the exclusion is by law and not by choice."

Self-employed men and women who are not excluded by law, will have to report their 1951 "net earnings" for social security purposes on their income tax returns which will be filed on or before March 15th. The social security tax will be paid at the same time.

In the meantime, those businessmen and women who are now covered for the first time under social security should get social security numbers if they have never done so.

Anyone whose net earnings from self-employment are \$400 or more in a taxable year is "covered" under the new law, unless the earnings are derived from the operation of a farm or the practice of an excluded profession. Among those excluded are doctors, dentists, veterinarians, full-time practicing public accountants, professional engineers.

Booklets listing all of the excluded professions can be obtained without cost from the Amarillo social security office.

Ed Got Red
In His Own "Hot Water"

Big Ed started a "Pay-Your-Bill" campaign last week and ended up with a slightly red face. Ed's been our Water Commissioner for ten years, and for ten years now he's been getting riled up over slow payments of bills. So, he finally decided to do something drastic about it. Last week he sent notices that if the slackers didn't pay up by Friday, he'd shut off their water. Naturally, some still didn't square accounts. Ed ordered their water turned off, and 14 homes

went without all week end—the Commissioner's among them. Seems Ed forgot to pay his bill. From where I sit, Ed's mistake is one we all make at times. We are too quick to accuse others while forgetting our own faults. Lots of us do it, for instance, over a difference in taste for a soft drink or a friendly glass of beer. Let's respect each other's preferences and we'll all stay out of "hot water."

The high school girls entertained the boys with a leap-year party Thursday evening of last week, at the gym. They made the date, bought show tickets for the movie, and furnished transportation. Games were played after the show in the study hall, and refreshments were served to fifty youngsters and sponsors.

We hope we have not failed to name anyone who has helped in the aforementioned project . . . if we have we would like to know it so we can publicly express the thanks of the Wheeler Kiwanis Club and the people of this community for the labor they have performed. If we had more public spirited citizens like the ones named above, it would not be any trouble at all to get enough money together and build a good softball diamond for Wheeler.

Let us remind you again, there are just six more days left in which you can pay your poll tax and assure yourself of the right to have your say in the elections which are scheduled to be held during this year. The school and city elections will be held first, then the precinct, county and state democratic conventions will be held, followed by the primary elections in July and August and finally the General Election in November at which time we will elect a president to lead us for the next four years.

Lonnie Lee over at the City Drug Store ran an advertisement on Cara Nome Hand Cream last week and he was so busy selling this fine product that he didn't take time out to read the paper and see what we had said about it until he just told us to run the same item on special this week so he could see the ad. The Cara Nome Hand Cream which he is selling at a very special price for the rest of this month only is really worth the money at the regular price . . . let alone half the regular price which he is now selling the item for.
