

The Big Spring Herald

BIG SPRING, TEXAS, FRIDAY, OCTOBER 28, 1921

BY JORDAN & HAYDEN

C. HAS INTERESTING MEETING

Commerce Committee met Monday Night to Make Report and Outline Work

Members of the Chamber of Commerce met at the C. C. office at 8 o'clock Monday night to hold the first of a series of monthly meetings at which reports of the various committees will be made and the outline of the work for the coming year will be discussed.

The president of the Chamber of Commerce, J. W. Harrison, presided at the appointed hour and had on the agenda the report of the various committees. The first of these was the report of the Finance Committee, which was made by R. T. Piner, chairman. The report was a very interesting one and outlined the work of the committee for the coming year. The committee has been successful in securing a loan of \$10,000 from the State Bank of Big Spring, which will be used for the purpose of purchasing a new building for the chamber of commerce.

The report of the Schools Committee, made by A. W. Flanken, chairman, was also very interesting. The committee has been successful in securing a loan of \$5,000 from the State Bank of Big Spring, which will be used for the purpose of purchasing a new building for the schools.

The report of the Agriculture Committee, made by J. E. Mundell, chairman, was also very interesting. The committee has been successful in securing a loan of \$5,000 from the State Bank of Big Spring, which will be used for the purpose of purchasing a new building for the agriculture department.

The report of the Civic Improvement Committee, made by R. L. Price, chairman, was also very interesting. The committee has been successful in securing a loan of \$5,000 from the State Bank of Big Spring, which will be used for the purpose of purchasing a new building for the civic improvement department.

The report of the Advertising Committee, made by W. G. Hayden, chairman, was also very interesting. The committee has been successful in securing a loan of \$5,000 from the State Bank of Big Spring, which will be used for the purpose of purchasing a new building for the advertising department.

The report of the Membership Committee, made by N. H. Hatch, chairman, was also very interesting. The committee has been successful in securing a loan of \$5,000 from the State Bank of Big Spring, which will be used for the purpose of purchasing a new building for the membership department.

The report of the Entertainment Committee, made by Nat Shick, chairman, was also very interesting. The committee has been successful in securing a loan of \$5,000 from the State Bank of Big Spring, which will be used for the purpose of purchasing a new building for the entertainment department.

The report of the Public Instruction Committee, made by A. M. Fisher, chairman, was also very interesting. The committee has been successful in securing a loan of \$5,000 from the State Bank of Big Spring, which will be used for the purpose of purchasing a new building for the public instruction department.

The report of the Cotton Marketing Committee, made by J. A. Kinard, chairman, was also very interesting. The committee has been successful in securing a loan of \$5,000 from the State Bank of Big Spring, which will be used for the purpose of purchasing a new building for the cotton marketing department.

The report of the Beef Cattle Benefit Farm Committee, made by J. W. Harrison, chairman, was also very interesting. The committee has been successful in securing a loan of \$5,000 from the State Bank of Big Spring, which will be used for the purpose of purchasing a new building for the beef cattle benefit farm department.

The report of the American Legion Day Committee, made by J. W. Harrison, chairman, was also very interesting. The committee has been successful in securing a loan of \$5,000 from the State Bank of Big Spring, which will be used for the purpose of purchasing a new building for the American Legion Day department.

The report of the Boosting For Our City Committee, made by J. W. Harrison, chairman, was also very interesting. The committee has been successful in securing a loan of \$5,000 from the State Bank of Big Spring, which will be used for the purpose of purchasing a new building for the Boosting For Our City department.

The report of the Believes in a Square Deal Committee, made by J. W. Harrison, chairman, was also very interesting. The committee has been successful in securing a loan of \$5,000 from the State Bank of Big Spring, which will be used for the purpose of purchasing a new building for the Believes in a Square Deal department.

The report of the Blanton in Bad Again Committee, made by J. W. Harrison, chairman, was also very interesting. The committee has been successful in securing a loan of \$5,000 from the State Bank of Big Spring, which will be used for the purpose of purchasing a new building for the Blanton in Bad Again department.

The report of the Brunk's Comedians Make Good Committee, made by J. W. Harrison, chairman, was also very interesting. The committee has been successful in securing a loan of \$5,000 from the State Bank of Big Spring, which will be used for the purpose of purchasing a new building for the Brunk's Comedians Make Good department.

The report of the Prairie Fire at Slaughter Ranch Committee, made by J. W. Harrison, chairman, was also very interesting. The committee has been successful in securing a loan of \$5,000 from the State Bank of Big Spring, which will be used for the purpose of purchasing a new building for the Prairie Fire at Slaughter Ranch department.

The report of the Cattle Shipments Committee, made by J. W. Harrison, chairman, was also very interesting. The committee has been successful in securing a loan of \$5,000 from the State Bank of Big Spring, which will be used for the purpose of purchasing a new building for the Cattle Shipments department.

The report of the Home Town Paper Week Committee, made by J. W. Harrison, chairman, was also very interesting. The committee has been successful in securing a loan of \$5,000 from the State Bank of Big Spring, which will be used for the purpose of purchasing a new building for the Home Town Paper Week department.

monthly gatherings are to be made a big factor in the life of our county. Every one with an idea for the advancement of the city or county should come to the monthly meeting or send their suggestion to one of the committees to the end that we may get the benefit of the best thought of the entire community.

Following is a list of the committees for the coming year:

Committee on Finance: R. T. Piner, Chairman; O. T. Lacey; Nat Shick.

Committee on Schools: A. W. Flanken, Chairman; M. H. Morrison; J. W. Harrison; R. L. Davis; F. B. Etelson.

Committee on Agriculture: J. E. Mundell, Chairman; J. A. Kinard; T. H. Johnson; J. W. Curtis; W. H. Cardwell; L. E. Lomax; J. G. Arnett; I. B. Couble.

Committee on Trade Extension: H. L. Rix, Chairman; A. M. Fisher; Bob Austin; J. D. Biles.

Committee on Highways: J. T. Brooks, Chairman; M. H. Morrison; T. H. Johnson; W. G. Hayden; Bernard Fisher.

Committee on Railroads: B. Reagan, Chairman; J. B. Littler; F. F. Gary; A. M. Fisher; T. S. Currie.

Committee on Civic Improvement: R. L. Price, Chairman; J. M. Fisher; B. Reagan; J. W. Harrison; R. W. Baker.

Committee on Advertising: W. G. Hayden, Chairman; S. H. Hall; McCall Gary.

Committee on Membership: Nell Hatch, Chairman; Nat Shick; J. A. Kinard; others to be added.

Committee to Confer with City Aldermen: E. A. Kelley, Chairman; L. E. Coleman; R. W. Baker; W. G. Hayden; O. T. Lacey.

Committee on Entertainment: Nat Shick, Chairman; L. E. Coleman; B. O. Jones; R. T. Piner; J. M. Fisher.

Committee on Oil: J. D. Biles, Chairman; G. T. Hall; O. T. Lacey.

Teacher's Institute

Today marks the fifth day's session of the Howard County Teachers Institute. The daily sessions have been held in the district court room with James T. Brooks, ex-officio County Superintendent, presiding.

The teachers of Glascock and Martin counties have joined with the teachers of Howard County in the work of the institute.

Busy, interesting and instructive sessions have been in order. S. Ma U. Marra, first assistant Superintendent of Public Instruction, was here from Austin Wednesday and addressed the institute Wednesday morning and afternoon.

The following teachers have been in daily attendance: Misses Beulah Glenn, Emma Wallace, Vera Holder, Lucile Cobb, Grace Lewis, Kathleen Eiland and Messrs O. A. McRae and O. H. Davis of Garden City; Misses Ruth Clark, Ruby Jones, Irma Bull, Mildred Fleming, Reba Johnson, Carrie Alvia, Lillian Rogers, and Messrs B. M. Gramlin, and James M. Metcalf of Stanton; Miss Lena McCleeny of Soash; Misses Minnie Hood, Grace Mann, Ethel Mann, and Messrs R. B. Hood and J. M. Hood, Coahoma; Mrs. Cordelia Castle, Knott; Miss Velma Gilmore, Stiles; Miss Natha McCoy and H. S. Bengt. Vincent; Earl Phillips, Richard; Mrs. B. E. Wagster, Luth; Misses Arab Phillips, Grace Sherman, Odessa Lomax, Twila Lomax, Gilla Lawrence, Fairy Shafer, Hene O'Keefe, Annie Ward, Effie Jewel Fleeman, Margaret Anderson, Irene Frost, Lillian Barnett, Alta Hull, Virginia Lee Johnson, and Messrs Ed Simpson, James Little, H. A. McDonald, D. M. Spear of Big Spring.

Big Bargain Day Plans

Twenty-four progressive business firms are going to try out a monthly Bargain Day program for Big Spring and each firm will make a big bargain on one line carried by them—thus offering folks twenty-four bargains as an inducement to come here on that day to do their trading.

Wednesday, November 9th will be the first bargain day under this program.

Folks from adjoining counties will be invited to spend Bargain Day in Big Spring. It will also be sales day and farmers will be asked to list stuff they may have for sale. It may be too late to complete arrangements for this time for November 9th, but watch for the announcement of the Bargain Day to be offered on that date—the list will appear in The Herald, Friday, Nov. 4.

In addition to the advertisement in The Herald, five hundred or more extra copies will be mailed to folks residing in this trade territory.

Accident at Light Plant

Floyd Tiner was painfully burned about the face last Friday night about eight o'clock, at the power plant of the West Texas Electric Company.

He was rekindling a fire in the furnace when the oil burner backfired and was struck by the ignited gas. The furnace doors were torn off and other damage resulted.

Some inflammable material in the engine room ignited and caused the fire alarm to be sounded, but the blaze had been extinguished before the fire engine arrived on the scene.

J. A. Gardner, of the Gulf Production Co., was a business visitor here Wednesday.

DERRICK READY FOR NEW TEST

Pecos Oil Well Causes Excitement. Work in the Local Field Going Forward

A Report on the Toyah Bell Well

T. F. Grisham, J. C. Horn and William Horn made a trip to Pecos by auto Wednesday for the purpose of taking a squint at the new oil well, brought in about 25 miles north of Pecos, at a depth of 4300 feet.

Mr. Grisham stated to a Herald man, after his return, that it was impossible at present to tell just what kind of a well they had, but in his opinion it would make a good well.

The well is not flowing as there is very little gas in same; but when it is swabbed the oil comes up ahead of the swab and then flows for some time the swab has been withdrawn.

He also states that after bailing a few barrels of oil from the well that the oil will follow the bailer up and flow for a few minutes.

Furthermore, he points out that the parties putting this well down think enough of the prospects to go to work on a pipe line from the well to the Santa Fe Railroad. A four inch line will be installed and work on this is to be started immediately.

The bringing in of this well is indeed good news, not only to Pecos but to all of West Texas as it is the first real deep oil ever struck in this part of the State and should the well come up to expectations it will start a big development in many sections of West Texas and especially in those portions where some oil has been found at what is considered a shallow depth.

In the wildcat wells put down in the Big Spring County, practically the same strata of gas and oil were hit as were struck in the Toyah Bell and if oil in commercial quantities exist there we have every reason to believe that it will be developed here. When more work in the Big Spring field is started plans will be made to make deep tests, as deep as this well in the Pecos section, instead of starting out with the expectation of striking oil just below the grass roots.

Mr. Grisham further states that the oil encountered in the Toyah Bell well as Pecos is a high grade oil.

At the Enders-Cushing Test

Anyone who has kept tab on the opening of a new oil field is aware of the trials and tribulations of the wildcat, who is located miles from a railroad. As all others, the Cushing Ranch Drilling Association are being handed their share of such troubles but they keep right on just as quickly as the obstacles can be surmounted.

A fishing job and then battered threads on the drill stem has delayed progress this week. It was necessary to send the drill stem to San Angelo to be re-threaded and a break down of the truck caused a further delay so it was not until Thursday that drilling was resumed. The drill is now pounding away in brown shale at a depth of 2800 feet and Captain Cushing is of the opinion that mishaps may be over for a while and good progress can be made.

Recent reports from geologist who have made a study of the Cushing ranch district are to the effect that oil in big quantities may be encountered between 3200 and 3700 feet. This is coming to be accepted as a fact that our prospects for oil depend on our encountering it at a greater depth than was formerly thought.

The Tanco Oil Co. Derrick Completed

The Tanco Company, composed of Pennsylvania oil men are going forward with their plans to make a deep test on the C. D. Read ranch in the eastern part of Howard County.

The location of this test is several miles northwest of Read No. 1 of the General Oil Company.

The derrick has been completed and as soon as the machinery is secured they expect to begin operations.

In the Iatan Section

Drilling on Foster well No. 2 of the Colorado-Texas Oil Co. has been at a standstill, the force being used to lower additional casing in Foster well No. 1 to comply with orders from the State Railroad commission.

As soon as this work is completed drilling will be resumed on No. 2.

At the Conoway Test

We are informed that operations on the Conoway test in Mitchell County were practically suspended the past week due to a shortage of water.

Former Pastor Dies

Rev. George W. Sherman, pastor of the Polytechnic Baptist Church died at his home in Fort Worth at 4 o'clock Friday morning, October 21st and was buried Sunday afternoon.

Rev. Sherman served as pastor of the First Baptist Church of Big Spring some years ago and his many warm friends here regret to learn of his death.

Mrs. Ben McDermott of Mineral Wells, came in Wednesday to visit Mrs. Sam Lamar and her many friends and will be here for several weeks.

Armistice Day to be Observed

Members of the American Legion Post in Big Spring have concluded all necessary preparations for proper observance of the Third anniversary of the signing of the armistice. A full day of festivities to commemorate the occasion has been planned. November Eleventh, being a legal holiday, all banks and stores will be closed, and an effort is to be made to get the merchants to decorate their windows as much as possible to lend a festive air to the day.

In the morning of November 11, a fitting commemorative service will be held at the Baptist Church in this city. At 10:30 the ex-service men will meet at the Court house square, "fall in" and give a body to the Baptist Church Commemorative Exercises at 11:00 and the following program will be rendered:

Hymn, "America."

Invocation, Rev. J. W. Harrison.

Vocal Solo, Miss Mabel Ricker.

Address, "Lest We Forget," Captain Jas. T. Brooks.

National Anthem, "The Star Spangled Banner."

Benediction, Rev. Hardy.

At eleven o'clock, the fire siren will sound, at which time everyone will turn facing the West, men uncovered, and remain standing for a minute in silent prayer for, and in tribute to those Sons of Freedom who were called to "go west," that "Democracy might not perish from the earth."

During the afternoon the chief attraction will be the football game between the San Angelo High School football team and Big Spring High, at which time the members of the Legion are going to be much in evidence, particularly so in the matter of cheering for the lads from B. Spring High, who we are expecting to win.

Everyone is cordially invited to attend these exercises.

A Question of Importance

The proposition of securing a way to drive cattle from the south of Big Spring to the Texas & Pacific loading pens is one of first importance.

Notwithstanding the fact that the T. & P. Ry. offers quick delivery to markets many cattlemen are shipping by way of other lines due to the trouble of driving cattle thru Big Spring.

Most people do not like to drive a herd of cattle thru a town, as the cattle are hard to control and there is danger of children being hurt. Then, too, at the place where the cattle must cross the track in order to reach the stockpen the task of switching trains is usually underway, and this excites the cattle and makes them difficult to control.

It would be best for our city, the stockmen and the railroad company if a way could be secured thru the mountain pasture and the corral be permitted to cross the railway tracks west of the T. & P. shops.

This is an important proposition and should be solved at the earliest possible date.

Mrs. A. M. Fisher Entertains

One of the most delightful affairs of the season was attended by about forty guests at the home of Mrs. Albert Fisher, last week when she entertained with Bridge. The Halloween idea was carried out in the score cards and decorations; the centerpiece on the dining table being a lovely fruit basket made from a pumpkin and filled with luscious fruit. The two course luncheon was delicious; yellow and black decorations carrying out the idea. There were many exclamations of surprise when each guest found concealed in the serviette a favor in the shape of a doll made of candy.

The out of town guests, Mrs. Half of Midland, Mrs. Douthit of Sweetwater, and Miss Oppenheimer of San Antonio, were presented with miniature corsage bouquets made of candy.

At the end of the favorite game it was found that Mrs. Etheridge had made visitor's high score and Mrs. Wallace Rix, club high score.

J. H. Bishop to Leave

J. H. Bishop residing on the M. L. Musgrove farm six miles north of Big Spring is to dispose of his household goods, farming implements, feed and livestock at public auction, for cash, on Tuesday Nov. 1st. He will serve a big free dinner at noon on that day, all you have to do is to bring a cup in case you want a cup of coffee. There will be bronc riding and other amusements between the sale of the various articles.

Mr. Bishop is compelled to sell out everything on account of Mrs. Bishop's health. She is a sufferer from heart trouble and the doctor advises a lower climate. They expect to leave for Hot Springs, Ark. just as soon as he disposes of his property. Mr. and Mrs. Bishop express regret for having to leave Howard County, as both state they have found it a place where the people are just the finest folks a person could hope to come in contact with.

Cattle Shipments

On last Saturday W. E. Phillips shipped three cars of cattle to the Fort Worth market; E. I. Beddell shipped one car, and Mr. Crosby shipped one car to Fort Worth.

"Home Town Paper Week," Nov. 7-12.

FIFTH ANNUAL RED CROSS ROLL CALL

Howard County Chapter to Start Red Cross Roll Call Armistice Day, November Eleventh

At a meeting of the Board of Directors of the Howard County Chapter of the American Red Cross Monday afternoon, it was decided that the local chapter would cooperate in the Roll Call.

It is to be regretted that the Howard County Chapter will not be permitted to administer Civilian Relief because they do not employ a paid Red Cross worker, but they will continue to aid disabled ex-service men and carry out Red Cross activities.

One-half the fund raised in the drive will be retained by the local chapter to carry on Red Cross activities which the chapter is authorized to carry on.

The Roll Call starts on Armistice Day, November 11th and will continue until November 25th.

Rev. J. Thos. Brown has been named County Chairman of the Red Cross Roll Call Campaign and is empowered to appoint as many as he sees fit to assist him in this work.

The Red Cross did a great work during the war and with starvation and disease rampant in many sections of the globe, not to mention its work in disasters in our own country. Health and educational work and aiding disabled ex-soldiers its need in Peace time is indeed great.

The one dollar membership you are asked to pay will not ruin you but it will help others.

Enroll during the Membership Campaign.

Beef Cattle Benefit Farm

The use of beef cattle in connection with general farming throughout the Corn Belt, says the United States Department of Agriculture, offers the following advantages:

It is possible to make greater use of dry roughages produced on the farm, as beef cattle consume larger quantities of these feeds than any other class of live stock.

Beef cattle can be used profitably on rough land unsuitable for crop production.

Beef cattle use the total production of grain and roughages on the average farm, without the purchase of other feeds, more efficiently than any other class of live stock.

Beef cattle on the farm favor a well-balanced distribution of labor throughout the year. They require very little attention during the summer and fall, when crops need attention, and during winter and early spring, when there is little field work to be done, farmers can utilize their time to advantage by caring for the breeding herd, wintering the stockers and feeders, or fattening some steers.

Report of U. S. Cotton Crop

Washington, D. C., Oct. 25.—Cotton of this year's growth ginned prior to October 18, amounted to 5,477,397 bales exclusive of linters, compared with 5,764,582 bales last year and 4,929,104 bales in 1919 to that date, the census bureau announced today.

Round bales numbered 99,371, compared with 140,009 last year; American-Egyptian numbered 7498 bales, compared with 14,312 last year, and Sea Island numbered 1204 bales, compared with 3334 last year.

"Reports indicate a large percentage of the crop has been ginned," said the report, which referred to a total production forecast of 6,537,000 bales issued October 3.

Ginnings by states included the following:

Arizona, 8657; California, 4012; Texas, 1,740,766.

Fire Prevention Worth While

Farm fires cost about \$20,000,000 a year—\$18,160,710 in 1918, of the fires that year 33 per cent were from causes classed as preventable, 37 per cent from partly preventable causes, and 30 per cent unknown but believed to have been largely preventable. With inadequate fire-fighting equipment on farms, fires are hard to control. Prevention is the best way to deal with them.

Defective chimneys and flues took toll to the extent of \$1,962,037; sparks on roofs, \$1,181,171; careless use of matches by smokers and others, \$1,071,987; petroleum and its products, \$732,067; and stoves, furnaces, boilers, and their pipes, \$674,968.

The largest item listed as partly preventable is lightning, \$3,033,960.

Prairie Fire at Slaughter Ranch

A costly prairie fire was averted Wednesday evening at the Slaughter ranch, twenty miles north of Big Spring, when the fire was brought under control after a two hours fight. Farmers and ranchmen from all points rallied to aid in checking the fire and several went from Big Spring to assist.

About 1290 acres, a mile or so west of the headquarter ranch house was burned off.

Luck was in our favor on this occasion as there was no wind, otherwise this fire might have spread over an immense territory.

B. P. O. E. to Have Entertainment

Plans have been completed for a big Halloween entertainment at B. P. O. E. Hall, Monday night, October 31st and in addition to members and their families quite a number of out of town guests are expected to be present.

The hall is to be tastily decorated in keeping with the occasion and nothing is going to be overlooked in an effort to make this a truly enjoyable occasion for everyone attending.

A regular Halloween good time will be the program with dancing as the chief attraction. Refreshments in keeping with the Halloween season will be served during the evening.

The arrangements committee are now on the job and will be working until the success of this is assured.

Every member of B. P. O. E. is urged to come and bring his best girl, and come prepared to enjoy one of the most pleasant occasions he has participated in for many a day.

Cotton Marketing

The Howard County Farm Labor Union has sold but very little cotton the past week due to the falling market—less than seventy-five bales being disposed of.

They have pooled ready for marketing when they consider the price right, more than nine hundred bales here in Big Spring and about four hundred and fifty bales at Coahoma.

Cotton came in at the rate of a seventy-bales per day here the week and about forty bales at Coahoma.

The grade of the cotton in Howard County is still causing lament, less than 26 bales amount handled by the Howard County Farm Labor Union, grade middling.

Everyone having mark Union this year are in the prices received and recorded.

American Legion Day

On the night of Armistice day, November 11, a big day given by the American Legion of this city, at the Danahall has been recently put in the best of cooperation, Mr. Lester Fisher kindly offered it to the Legion Post for the day and music has been procured.

Tickets will soon be on sale at a very low price and a capacity crowd is expected to be there.

Boosting For Our City

There is an opportunity for many people from the Big Spring to spend the winter months in the city. The funds to carry out an advertising campaign. There is a big chance of making our section a summer resort for the cool nights we have throughout the summer are worth a trip to our section. We should begin to plan to boost our section as a health resort. A half mile high salt bathing pool, golf course and other attractions, we might add, will hasten the day when we can hope to bring wealthy folks here to spend a holiday. It takes persistent and properly directed effort to put over such a proposition but it's worth the effort.

Believes in a Square Deal

Here's the way a successful business man sizes up the situation. The one great necessity in every undertaking and in every business especially, is teamwork. And while encouraging teamwork, no man should ever stoop to slung an opponent. The law of the golden rule should be followed. It is only common sense to take into consideration the fact that while you may be in a position to slug him today, the conditions may be reversed tomorrow and he may be able to apply the knife to you. There are good points to be found in every man, even a competitor.

Blanton in Bad Again

A resolution was introduced in the house of Representatives Tuesday calling for the expelling of Congressman Thos. L. Blanton of Abilene. The resolution charges that Blanton being given permission to extend his remarks did insert and cause to be printed in the congressional record, grossly indecent and obscene language, unworthy of a member of the house of representatives, contrary to the rules of the house, derogatory to its dignity and in violation of its confidence.

Brunk's Comedians Make Good

Brunk's Comedians opened here Monday night in their big tent theatre at the ball park and have been playing to full houses each night.

An overflow crowd was a feature the opening night.

Harley Sadler, the premier comedian, ably supported by capable artists has been pleasing the crowds.

Two good entertainments are assured tonight and tomorrow night, closing their engagement in Big Spring.

Miss Melba Macpherson left Thursday for Phoenix, Ariz., to spend the winter with her sister.

There is SAFETY IN TRADING Here

CERTIFICATE OF COMMISSIONERS' COURT

THE STATE OF TEXAS,

County of Glasscock.

In the Commissioner's Court:

—We certify that we have examined the following 4 pages of Collector's report of lands and town lots assessed on the Tax Rolls of Glasscock County, for the year 1920, which are delinquent for the taxes of 1921, and find the same correct, and that W. L. Lemmons, Tax Collector, is entitled to credit for the taxes shown thereon.

Given in open court this the 11th day of April, A. D. 1921.

U. E. Bailey, County Judge.

W. B. Burns,
B. O. Mann,
W. E. Phillips,
E. T. Cobb,
County Commissioners of said County.

Attest: Joe. E. Calverley, County Clerk.

THE STATE OF TEXAS

To the Sheriff or any Constable of Glasscock County—Greeting:

You are hereby commanded to summon L. B. House; W. H. Evans; Sam Emden; J. O. Bobinette; W. A. Currens; Max Hahn; R. T. Cammack; John C. Williams; B. J. Currens; W. P. Johnson, Trustees; Car Hahn Company, a private Company and Copartnership, the names of which is unknown to petitioners; W. T. Glass; Hall Etter; F. H. Etheridge; J. D. Ward; J. L. Reese; J. C. Wilson; D. B. Akin; Donald E. Metzger; I. Williamson; G. L. Evans; Sam Emden, Trustees; K. L. Whitsett; J. E. Humphrey; A. R. Mosher; Jeanette Emden; Hazel Emden; Mrs. F. Gillman; Maurice Sellman; F. Gillman; Ben Chambers; Lillian Isaaks; Tommie Yates; Alice James; Lucile Hawks; Dora Trout; Gladys Pelsner; Edmina Corneliua; L. W. Zirjacks; A. H. Klees; Mrs. Rosabel Johnson; Mrs. P. W. Shumaker; Adelenia Urquart; W. P. Johnson; Robert Brilling; Louis Emden; Bess Currens; Ruby Rion; Mary Pesche; Ella Kneiberg; Lillie Bell Emden; B. H. Ward; Hetty W. Ray; M. F. Ward; Virgie Leatherberry; Bulah Felix; W. M. Gold; Mary O'Brien; Mrs. Allyn; Mrs. M. Barcaw, and the Associates of L. B. House and H. W. Evans by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in any newspaper published in the 32nd Judicial District; but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said 32nd Judicial District, to appear at the next regular term of the District Court of Glasscock County, to be holden at the Court House thereof, in Garden City, on the 1st Monday in Nov. A. D. 1921, the same being the 7th day of November 1921, then and there to answer a petition filed in said Court on the 12th day of October A. D. 1921, in a suit, numbered on the docket of said Court No. 262, wherein J. O. Carter and Lillian Carter are Plaintiffs, and L. B. House; W. H. Evans; Sam Emden; J. C. Bobinette; W. A. Currens; Max Hahn; R. T. Cammack; John C. Williams; B. J. Currens; W. P. Johnson, Trustees; Car Hahn Company, a private company and Copartnership; the names of which is unknown to petitioners; W. T. Glass; Hall Etter; F. H. Etheridge; J. D. Ward; J. L. Reese; J. C. Wilson; D. B. Akin; Donald E. Metzger; I. Williamson; G. L. Evans; Sam Emden, Trustee; K. L. Whitsett; J. E. Humphrey; A. R. Mosher; Jeanette Emden; Hazel Emden; Mrs. F. Gillman; Maurice Sellman; F. Gillman; Ben Chambers; Lillian Isaaks; Tommie Gates; Alice James; Lucile Hawks; Dora Trout; Gladys Pelsner; Edmina Corneliua; L. W. Zirjacks; A. H. Klees; Mrs. Rosabel Johnson; Mrs. P. W. Shumaker; Adelenia Urquart; W. P. Johnson; Robert Brilling; Louis Emden; Bess Currens; Ruby Rion; Mary Pesche; Ella Kneiberg; Lillie Belle Emden; B. H. Ward; Hetty W. Ray; M. F. Ward; Virgie; Leatherberry; Bulah Felix; W. M. Gold; Mary O'Brien; Mrs. Allyn; Mrs. M. Barcaw; and the Associates of L. B. House and H. W. Evans are Defendants, said petition alleging plaintiffs are the owners of all of Section No. 12, Block 34, Trp 3 South, T. & P. Ry. Company surveys, Glasscock County, Texas, and was on the April 19th, 1920; that on that date plaintiffs leased for oil and gas the said section to defendants L. B. House and W. H. Evans, and their Associates, with the obligation on the part of lessors to complete a well producing oil or gas in paying quantities by January 1st, 1921, and in default thereof, to pay plaintiffs the sum of \$5.00 per acre for the purpose of deferring the completion of a commercial well of oil and gas, for one year; that such well was not ever completed on the said section according to the contract, and is not completed at this time; and that the rentals for deferring of such obligation has not been paid, except that J. D. Biles and A. J. Gallemore have paid the annual rentals for Jan. 1st, 1921, on the 8 1-2 of the N 2 1-4 of the S E 1-4 of the said section, and John Tros, W. H. Edwards, W. P. Bell and V. B. Bell have paid such rentals for deferring such obligation for one year on the S. W. 1-4 of the S W 1-4 of said Section, but that the defendants, claiming under and by virtue of such contract so entered in to April 19th, 1920, have forfeited all their rights and title to the balance of the lease and land not held by these last named persons; that by virtue of such contract, still of record, there is a cloud on the title to this land, and plaintiffs are unable to use the same, and release the same to other parties and oil companies; that the original lease instrument is in the hands of defendants and defendant does not have possession thereof, and gives notice that in case the defendants do not produce the said original at the trial plaintiffs will introduce certified copies of the same and the assignments thereunder as evidence, that the said original lessors has assigned parts of the said lease to others herein named as defendants, who hold some sort of claim and right in said lease, the lease an originally made being

assignable in part or whole, and the whole terms of the lease, and the plaintiffs pray that the court after hearing the testimony and proof of the instrument holding the said lease void as to all parties except the parties held by the said lease, more, Tros, Edwards, Bell, and for other and further relief in equity.

Herein fail not, but have your Court, at its aforesaid term, this writ, with your commission, showing how you have obeyed the same.

Witness, Joe C. Calverley, County Clerk of said County, at office in Garden City, this the 12th day of October, A. D. 1921.

Methodist Notes

Attendance not only holds up at school, but increases each week. The pleasure of listening to the talk of Abilene last Sunday. He made a brief but graphic sketch of the life of Paul, the great missionary, concerning whom the lesson of the past month has been devoted. Only one member was absent, being out of town. Of the 29 regular officers were present.

The morning service Bro. Doak gave an extremely interesting sermon on the woman at the well. At the hour his powerful appeal for education was both forceful and eloquent. We enjoyed very much the visit. He is as enthusiastic as ever. As educational secretary he is doing a splendid job.

The Circle met at the home of Mrs. Leeper. About fifty members were present. This being our social hour the month, a good time was had. Mrs. Brown had charge of a most interesting program, combining instruction with recreation. The hour seemed in happy mood. At the close of the hour, Mrs. Leeper, assisted by Mesdames Everly, Painter, and True, served a most excellent lunch. This was one of the best and most enjoyable circle lunches of the year. Mrs. Johnson was hostess in November.

ERID OF THAT ACHE

If you are a sufferer with lame back, rheumatism, dizziness, nervousness and other disorders, why don't you try the Climax that your own neighbors recommend. Ask your neighbor!

Mrs. A. Bilger, 211 West 1st St., Big Spring, says: "I had heavy, bearing pains in my back and was all out. I was sore and lame all over my kidneys. I had headaches and was nervous and usually felt faint. A friend recommended Climax Kidney Pills so I started using them and I got the trouble in time. Climax certainly brought me fine relief. Since then I have used them once in a while to keep my kidneys in good condition."

Get Climax at all dealers. Don't stop for a kidney remedy—get Doan's Climax Kidney Pills—the same that Mrs. Bilger uses. Foster-Milburn Co., Mfrs., Buffalo, N. Y. (Advertisement-7)

Learning to Co-Operate

When any progress worth while may be made in co-operation, rural people must meet at their school houses, water aqueducts and understand each other. Co-operation is dependent on confidence; it requires harmony; it cannot thrive with selfishness nor succeed with misunderstanding. It is a mistake to assume that a self-organization can be effective and satisfactory when it is composed of people who have little in common and do not know nor understand each other. To sell against competition and the requirements of commercial organizations must be composed of neighbors, friends and intelligent, progressive citizens who co-operate, not themselves only, but also for their members and for the community. Farmers must learn to co-operate. Salaried managers may do so for a while but unless farmers themselves co-operate the selling organizations will fail.—Farm and

Baby Comes First

in their own shop

Our new department of infants and little tots to 6 years is most complete in wearables. Bed coverings, nursery articles and playthings. A convenient shopping place for mothers.

Infants coats in long and short models, of cashmere, mummy and crepe de chine, satin or silk lined hand embroidered; prices from \$1.75 to \$17.50.

Infants caps, a very choice line, made of crepe de chine, poplin or corduroy; modest in price, \$1.25 to \$9.50.

Infants wool petticoats, in Gertrude style, machine or hand embroidered and hemstitched, scalloped bottom, infants to 3 year sizes \$2.50 to \$4.00.

Infants silk quilts, also satin and crepe de chine, plain; also hand embroidered; pink or blue; \$2.50 to \$9.00. Creations at \$4.50.

SALE OF LADIES AND MISSES COATS

One of the greatest selling events in many seasons—

\$24.75

One of the most unusual purchases ever made in the world. Indeed this is a sale of so many such remarkable features that it immediately takes precedence among the notable selling events of recent months.

It is of interest to all women and misses, whether they care for smartness, for quality or for pricing. For in every way they far excel those usually to be found at anything approaching the same extremely low pricing.

This extraordinary sale at \$24.75, the wisdom of which is apparent.

Is Your Heating Stove Ready?

You know it is best to be ready and waiting for the cold to come. You have a stove to buy. This is your best time to buy. Stoves won't be any cheaper. We can give you prompt service now installing your stove, besides you have a complete stock to select from. Before you buy, visit our hardware department. You'll find any size heater. Prices a little less.

Fisher Shoes

WHY

There has never been a time when the name on a shoe meant as much as it does today—and there never was a time when the name J. & W. Fisher did not mean more than any other shoe name. The war destroyed many things, including nearly all old standards of value in shoes, but it did not disturb the fundamental relation between price and value in J. & W. Fisher shoes. They always have been, are now, the best shoes and the most economical shoes that you can buy. They are priced from 90c to \$15 per pair—most of them from \$2.50 to \$10.00. At these prices they represent the utmost value that can be put in shoes—therefore the utmost economy.

The real cost of shoes is not the first cost but the final cost—the cost per year—not the cost per pair.

There is a distinctive Fisher Shoe for every occasion.

The Fisher evening Slippers are produced in the satin, price

\$10.00

High School Carnival Postponed

The High School Carnival which was planned for today and tomorrow, has been postponed until Friday, Nov. 5 on account of so many other entertainments being given this week.

This postponement will give the members of the Senior class, who are directing the Carnival more time to complete arrangement and insure the success of this event.

Make your plans to attend the Big Carnival, Friday, Nov. 5th.

Notice to Housewives

Just received a carload of Tea Table flour—the kind we have always depended upon to make the finest bread—and we can now assure our patrons that our Bread will be as good as it used to be. Phone 5. CITY BAKERY

Republican leaders at Washington have at last decided that the party is on the brink of disaster. Conceded failure of the big G. O. P. majority in congress to satisfy the country's expectations of taxation and tariff reform is the cause of alarm. They are convinced that the situation is such as to threaten overwhelming rebuke at the 1922 elections.

The ginners report showed much less cotton than the experts estimated, some 300,000 bales less, and as a result the price of cotton advanced about one cent per pound Tuesday.

Notice to Housewives

Just received a carload of Tea Table flour—the kind we have always depended upon to make the finest bread—and we can now assure our patrons that our Bread will be as good as it used to be. Phone 5. CITY BAKERY

Just after the cotton pickng is completed, the feed crop stored away for winter and other odds and ends of work completed around the farm, the road work in our county should be started and it is stated that there is going to be work for all the men and teams that apply for work on the roads.

None of us will ever forget the joyful news of the signing of the Armistice Nov. 11th. It is unlikely that we will soon forget the horrors of the great war. We should all join with the members of the American Legion in an appropriate observance of Armistice Day.

It's a cinch that the folks in West Texas are not going to be starved out even though the big railroad strike should take place. Jack rabbits are most plentiful and we could exist on them for quite a while if we had to.

If you have a grouch try taking it out on the rubbish around your premises. It will make you feel better to rake up all the rubbish about the yard and place it in sacks to be hauled away.

O. T. Lacey was a business visitor in Pecos Wednesday. He was there to look after his holdings in the new oil field north of that city.

Indigestion

Many persons, otherwise vigorous and healthy, are bothered occasionally with indigestion. The effects of a disordered stomach on the system are dangerous, and prompt treatment of indigestion is important. "The only medicine I have needed has been something to rid digestion and clean the liver," writes Mr. Fred Ashby, a McKinney, Texas, farmer. "My medicine is

Thedford's BLACK-DRAUGHT

for indigestion and stomach trouble of any kind. I have never found anything that touches the spot, like Black-Draught. I take it in broken doses after meals. For a long time I tried pills, which griped and didn't give the good results. Black-Draught liver medicine is easy to take, easy to keep, inexpensive."

Get a package from your druggist today—Ask for and insist upon Thedford's—the only genuine.

Baptist Missionary Meeting

The W. M. U. of the First Baptist Church was most cordially entertained in the home of Mrs. A. T. Lloyd, when their regular missionary meeting was held Monday afternoon Oct. 24th.

The occasion was the program and social meeting of the society. As leader, Mrs. C. P. Bass had arranged an interesting program, with "W. M. U. Plans" for her subject.

The opening song "The Son of God Goes Forth," was followed by a prayer with Mrs. Stokes leading.

The scripture lesson was read by Mrs. Bass, then we sang "My Faith Looks Up to Thee."

A prayer, "That we may be led in the right way in making our W. M. U. plans for the year," was led by Mrs. Gary. Our slogan "Before the Lord is your way, where you go," was repeated in concert. Several splendid articles were read as follows: "Enlistment," Mrs. J. T. Reid; "Bible and Mission Study," Mrs. Joe Lewis; "The W. M. U. Training School," Mrs. Homer McNew; "The Royal Law," Mrs. Clifton Tucker. Mrs. P. G. Stokes explained, in her usual vivacious manner, "The Union's Plans for Systematic and Proportionate giving and our society's part in the plan," after which Mrs. Hatcher led in a prayer "that our society may redeem their pledges to the 75 Million campaign."

An interesting letter telling about the new W. M. U. headquarters, which are located at Birmingham, Ala., was read by Mrs. W. C. Henley.

The program was concluded with Mrs. Gary's prayer in which, the excuses for not being active in work for missions, were familiar to all. Definite answers to each of them were quoted from the Bible.

A short business session during which "The Rummage Sale" of next week, was discussed, was followed by a delightful social hour, at which time the hostesses Mesdames Lloyd, Menzer and Shick served a delectable salad course.

Notice to Whom It May Concern

This is to serve notice that my ranch, formerly the Henry Boatler place, southeast of Big Spring, is not a dumping ground and those who have made a practice of hauling dead animals and dumping them on this property must cease this practice. Heed this warning if you do not want to be prosecuted.

Benediction.

A. W. Flaniken, chairman, and Rev. F. B. Eteson, Rev. J. W. Harrison, Dr. R. L. Davis and M. H. Morrison, members of the Educational Committee of the Chamber of Commerce, visited all the school rooms of the North Ward, Central and High School Thursday morning and on a regular inspection trip to take note of the work being done in our schools.

A gasoline stove at the home of Mr. and Mrs. J. J. Shick became unruly Sunday morning causing the fire alarm to be sounded, but the blaze was averted by prompt work of those who were early on the scene.

Homemade cakes and pies will be on sale Saturday, October 29th at the Big Spring Co-Operative store. This sale is being conducted by the Ladies of the Christian Church.

Mr. and Mrs. C. D. Ambrose of San Angelo enroute home from an auto trip to Childress spent Wednesday night with friends in this city.

Rev. and Mrs. W. A. Bowen of Lubbock visited friends in this city Tuesday and Wednesday.

Pufnam Dyes, 10 cents. Ward's.

Home and School Club

Last Friday afternoon at 4 o'clock at the Central building the Home and School club held its second monthly meeting with Mrs. Dan O'Keefe presiding and Mrs. A. W. Flaniken, the new secretary, in her place.

Mrs. G. W. Lees gave a report of the party which was held at the "Y" for the teachers and the young people of the town. She stated that there was very little expense as nearly everything was donated. It was the sense of the meeting that a vote of thanks be given those who donated cakes, punch, score cards, and other things, and especially to Mrs. E. H. Happel and her class who painted the artistic score cards.

The matter of employing a nurse for the school was referred to the president and the committee.

Mr. Ashburn asked for a first-aid equipment for Central Building and a committee consisting of Mrs. Shick, Mrs. M. H. Morrison and Mrs. W. W. Rix was appointed to purchase same.

Mrs. Hardy was unable to be present so her paper—on Social Needs of our Young People—was deferred until another meeting.

Mrs. Ellington, Mrs. Stamper and Mrs. Jones were appointed on the visiting committee for the month.

It is a deplorable fact that very few mothers who have children in High School attend our meetings.

A committee consisting of Mrs. Lees, Mrs. Holmes, and Mrs. Hatcher was appointed to confer with High School teachers and work out some plan to induce these mothers to attend.

In the book contest Miss Ethel Palmer won at Central and Miss Thompson at South Ward. Press Reporter.

Report of Prayer Circles

Wednesday, October 26, 1921.

Circle 4A. Met with Mrs. W. R. Purser, Mrs. Hatcher was the leader, and 7 were present. Will meet next Wednesday with Mrs. Cliff Talbot, and Mrs. Ben Hardy will be the leader.

Circle 4B. Met with Mrs. Prichard, Mrs. Troup was the leader, and 16 were present. Will meet next Wednesday with Mrs. Ervin, and Mrs. Ervin will be the leader.

Circle 4C. Met with Mrs. R. C. Reed, Mrs. Crawford was the leader, and 13 were present. Will meet next Wednesday with Mrs. Crawford and Miss Vera Lynch will be the leader.

Circle 5B. Met with Mrs. J. G. Carter, Mrs. Kent was the leader, and six were present. Will meet next Wednesday with Mrs. W. B. Allen, and Mrs. Flawell will be the leader.

The attendance was good this week, there being 73 present in the six Circles. Number 8 has the banner this week for the largest attendance.

J. W. Harrison, Chairman.

Engineers were here Monday making a survey for the railroad siding which is to be built from the main line of the Texas & Pacific Ry. to the gravel pit in the southeastern part of Big Spring. All the gravel to be used in surfacing the ninety-nine mile stretch of the Bankhead National Highway thru Howard, Martin Midland, and Ector counties will probably be secured from this gravel pit.

"They Satisfy"

Cold Water on Disarmament Hopes

"Don't expect too much from the disarmament conference," is the latest warning sent out by President Harding.

For many weeks an effort has been made to gently break the news to peace loving people that the conference of powers was mislabeled; that it was only to be a meeting of political diplomats who will gather behind closed doors for trading purposes with the subject of disarmament only an incident. The people would not believe it and continued to express the hope that the political leaders and rulers of nations would hear the demand coming from those who must bear the brunt of war, and find some basis for permanent peace.

No insistent has been the hope thus expressed that President Harding finds it necessary to come boldly forth with the announcement to the effect that the world is not yet ready to abandon its armies and navies, or to adopt peaceful means of settling differences, but that more wars will yet drench the soil with the blood of our young manhood and Nations be plunged deeper into the mire of debt.

Is there any doubt that the great mass of citizens of the United States, Great Britain, France, Japan, and all other Nations of the Earth would welcome almost complete disarmament as a basis for permanent peace? If there is no doubt, then are our leaders incompetent and afraid or are they against any system of government which permits the people to rule? They profess to abhor war. They agree that war is a species of national insanity. Undoubtedly they will admit that those whom they lead and profess to represent are for disarmament and against war. Yet they confess that they are unable to bring about the conditions demanded.

The Nations of Europe and Asia are dependent upon this Government for financial and moral support. Therefore, no better opportunity will ever be presented for the United States to lead the world in the cause of peace. If President Harding and his delegates will correctly interpret the desires of the people whom they represent, and enter this conference with a firm determination to direct its course of action, much good may be expected to be accomplished. If they consent, as it seems that they have already done, to the injection of European politics, then the meeting will resolve itself into a political farce in which the diplomatic jockeys of the old world, because of much practice, will nullify all efforts made to even make a start towards accomplishing the original purposes of the disarmament conference.—Farm and Ranch.

We have a complete stock of widow glass and you will find our prices very reasonable....Cunningham & Phillips.

Boy Scout Notes

Our regular meeting will be held at the Y. M. C. A. Friday evening at seven o'clock. All members of the troop are urged to be present at this meeting, and all other boys who want to enlist for the new year. We have certificates to be presented to the following named boys at our meeting Friday evening:

James Crawford, Clarence Miller, Buell Vick, Joe Moore, Cecil Shockley, William Turpin, Charles Johnson, Festus Hoffman, George Homan, Joseph Hayden, Morris Ray, Earl Edwards, M. D. Collins, Dan Buchanan, D. S. Russell, Fred Blumhardt, Walter Agard, J. W. Harrison, Quartermaster.

The Hen Has It on Ma

The coal-oil light's a burning bright; (It will, sometimes, when it feels right);

Pa sits here reading, silek as sin, The latest poultry bulletin;

Then, half to Ma, and half to me, Pa ups and speaks: "I see," says he, "As how correct illumination

Will make hens lay like all Creation; I've thought it out; the help's all hired; I guess I'll have the henhouse wired."

Ma stops and peers and sews away, Does Ma, and then I hear her say: "I wisht I was a blamed old hen; Maybe they'd wire the homestead then!"

—Cuyahoga Co. (Ohio) Farm Bureau News.

It surely looked like Halloween around the editor's desk last Saturday for our good friend J. T. Parrish bombarded us with a whopping big pumpkin and a big stack of sweetpotatoes.

He stated that this was some of the products raised on his place just east of town and practically raised without any moisture. The one good rain in June was about the only real moisture they had to pull them thru the season.

Eversharp pencils, 65c and 75c. Ward

How Ford Would Run

Washington, D. C., Oct. 24.—Ford, in a publication for the purpose of commerce of the United States, how he would run a big business.

Ford's operation of his business in Detroit, Toledo & Ironville, subject of much discussion.

First of all, he said, he would get rid of individual stockholders. He considers a parasite; he turns to lighter rolling nationally, "fire useless employees the lawyers."

Finance as it applies to business, he says, is a failure; he spends money wastefully in particular in accounting.

"Real purposes of a business," he writes "are to serve the public. It is no reason why it should be money into the pockets of those who make no contribution to actual operation. The public dividends. They are a nuisance."

GATES TIRES

The Tires With the Wider and Thicker Tread

Nobody Questions This

Every experienced motorist knows that it's the tread of his tire that tells the story.

When the rubber tread wears out there is not more than a few hundred miles left in the tire.

Perfectly obvious, isn't it, that a wider and thicker rubber tread will wear longer?

That's why the Gates Super-Tread Tire is making friends so fast—it has a lot more miles in it.

What Must Be Attained and Maintained

Therefore thy servant an understanding heart to judge thy people, that discern between good and bad; that is able to judge this, thy so-called people?—Solomon.

The kings of the earth had prayed for understanding instead of power, for wisdom instead of authority, war instead of peace and peace and order.

Men in less eminent positions, and monarchs sometimes set an example that they may rule and order. When this is the case their name is to be an affair of one or two individuals, or even one or more, but becomes of concern to the masses, since they are thereby maintaining the peace and safety of the land. It is at such times as these that there are those who "cry peace," when there is no peace, and when there can be no peace without the power of God-given rights and authority. Peace bought under such circumstances is cowardly, ignominious and unbecoming.

Nations as with individuals, are sometimes when peace can be obtained only by struggling for it. The individual is constantly at war with the powers of darkness, and would have him violate justice, and truth. In "his contest for peace" he is sometimes made to struggle with those who oppose the good for the sake of the bad. This also is the case with nations. Nations are but aggregations

of men and women who are offered by them; therefore the impulse to do evil overcomes the better impulses of some, especially when that impulse is fortified by authority and power, supplemented by unholy ambition to rule, regardless of qualification, worth or capacity. When such motive and desire lie back of the ambition to govern, it is very evident that he who is the ambitious one would rule neither wisely nor well, but because of the very stimulus which excited his ambition, would reign with oppression and tyranny. Misrule has characterized the reign of all monarchs who have even in a measure attained their ambition to become the masters of their fellow-men.

It is not to be wondered at that it was said by a very wise man centuries ago, "When the righteous are in authority the people rejoice, but when the wicked beareth rule the people mourn." The Apostle exclaimed, "Behold, how great a matter a little fire kindleth!" And well may we exclaim with horror and amazement and with righteous indignation, Behold how great a matter a little sin kindleth—the little sin of envy, of pride, of thirst for power. When a beast with rabies is running amuck it is no time to sit still and say, "Let's wait until it comes into our yard. When an assassin goes forth to pour poison into the wells of our neighbors, should we sit still until he reaches our own before warning and assisting our neighbors?"

Such a theory if carried into execution would penalize every criminal law, bear down penitentiaries and invite the criminal to continue his crimes, leaving every one to his fate who is not able to make his own personal defense. Such a condition would make anarchy look like law and order, and our present government system like heaven.

There be many of those who "bite their teeth and cry, Peace." The rescue of a helpless child from the beating being administered by an overgrown brute of a man is analogous to the rescue of a nation from subjugation and enslavement by another with overpowering armies and navies.

The peace of the world, its happiness and prosperity, is to be attained only in proportion that the Golden Rule is recognized and practiced by all nations. It is selfishness and fear which maintain armies and navies, forts and citadels. These give way in proportion to the practice by men and nations of

the admonition, "As ye would that men should do to you, do ye even so to them." It can not be otherwise in the very nature of things. Disarmament will be accomplished in the ratio of appearance of selfishness and egotism, fear and unholy ambition.

A loving heart, a desire to be of benefit to mankind, would have taught the wickedly high and mighty that "Pride goeth before a fall, and an haughty spirit before destruction." The ambitious and haughty ruler should realize that the real work of him who has been trusted with the destinies of a people is not only to bear righteous rule, but to be an exemplar as a man as well as a sovereign. He should know that "Righteousness exalteth a nation, but sin is a reproach to any people," for "to do justice and judgment is more acceptable to the Lord than sacrifice."

How terrible shall be the "day of wrath" to him who may be responsible for the death, wounding and suffering of millions! What unspeakable remorse must be his who discredits, disgraces and humiliates a whole nation! Who betrays his trust and deserts integrity; who causes the death of women and children as well as of men; who sanctions the desolations of happy homes and drives into slavery and disgrace innocence and virtue; who holds in contempt the prayers of the helpless and the wails of widowhood and orphanage; who stuffs his own conscience by falsifying records and misrepresenting his truth!

As some hymn writer has said, peace is the fruit of conquered sin, and peace will come to nations and to the entire world in proportion to the relinquishment of that which produces all the ills of mankind—sin!—Dallas News.

Rapid Work on Roads in West Texas.

Within 16 months the road across western Texas from El Paso to Dallas and Fort Worth—State Highway No. 1, a link in the Bankhead highway—will be completed, according to Judge Adrian Pool.

Work in El Paso county is now under way. When this is finished all the distance in El Paso county will be paved.

In Hudspeth county the work is under contract and under construction.

In Culberson county the work is finished and is in fine shape.

Contract has been let to complete the stretch of road east of Kent to Pecos in Jeff Davis and Reeves counties.

The biggest road job ever let in the United States was closed last week, according to Judge Pool, when contract was signed for the construction of 99 miles of the highway across the counties of Ector, Midland, Martin and Howard.

Work in Mitchell county has all been completed with the exception of eight miles, which is being financed and will soon be constructed.

This will complete the work between El Paso and Sweetwater—a little over 400 miles—with the exception of 34 miles in Ward county, which will not be built for some time. Judge Pool says, unless the state and federal governments do the work, as Ward county is bonded to its limit and has spent all its funds.

East of Sweetwater, the roads are all completed, according to Judge Pool, except in Palo Pinto and Eastland counties and bonds have been issued in both. Palo Pinto issued a million dollars in bonds for road work, most of it to be spent on Highway No. 1.

It is expected that both Eastland and Palo Pinto will have their roads completed by the time the work west of Sweetwater is finished, when there will be a paved highway between El Paso and Fort Worth and Dallas with the exception of that short stretch in Ward county.

Judge Pool believes the state and federal governments can be induced to take care of this stretch of road under the circumstances.

"The people of west Texas deserves great credit," said Judge Pool, "for their work of financing this road. Many of the counties are far from wealthy and much of the construction work was heavy and expensive, but these people went about it with determination and they have succeeded."—El Paso Herald.

Safer Farming

The spirit of both the business man and the farmer of the west is ever progressive, and which many of our older sections may well follow with advantage, as shown from letters, received by officials of the United Campaign for Better Agriculture, from the Snyder Chamber of Commerce, which is putting on a campaign for 100 chickens, four cows and three sows on every Scurry County farm, and from which there is expected to be derived a million and a half dollars to Scurry County farmers within the next one or two years. This is safe and sane farming and if a home garden is added, will practically make a living at home for every farmer. Money saved is money made, and every dollar kept at home from these products gives added purchasing value to the cotton dollar, to be expended in the farmer's home market.

With approximately 40,000 Texas farms on which there is not a cow, and possibly an equally large number without chickens, hogs or a home garden, all Texas would do well to follow this lead. This year has demonstrated that Texas is better off without all cotton. Let us maintain and make permanent the advantages gained by continued diversification.

"Home Town Paper Week" Nov. 7-12

"Drag" Trains Declared Costly

Ford is making his big killing by swift car movement and handling light tonnage trains. Train and engine men have always wanted rapid train movement and know from actual experience that engines of the same class can be handled by train and engine crews and handle 1,500 tons from A to B and return with the same tonnage in less time than they can go one way with all they can drag, possibly 2,000 or 2,200 tons. All conditions are favorable for the light tonnage trains; all conditions are unfavorable for the drag tonnage trains.

These are the observations of an experienced railroad man, one of the workers, who insists that the late James J. Hill was wrong when he proposed the increased car and tonnage mile per decreased engine mile and that the time will come when the "big interests" will throw the "Hill methods" into the discard. Big cars and long, heavy tonnage trains must be controlled with first-class power brakes which must be kept always in proper condition to handle these trains successfully, says the railroad man.

He contends that all conditions are unfavorable for the drag tonnage trains; that tonnage drags have more train failures, more engine failures, more damage to equipment, more claims for damage to freight, more fire claims, more overtime, more expense for fuel, more expense for running repairs and more damage to engines. "That's the reason Ford can move 500 per cent more cars in the same number of hours with the same number of men," he declares.

It is not to be expected that the railroad executives are working in ignorance of real conditions or that they are operating the railroads in a manner purposely to lose money, yet the actual results of Mr. Ford's return to old-time methods coupled with such criticisms as the railroad workers quoted, based on a practical knowledge of the handling of railroad trains are worth looking into. The railroad employees insist also that the heavy or drag trains puts more arduous duties on the trainmen, on the engineer, conductor and all of the train crew and that these are overpaid in comparison with their working hours and conditions and the working hours and conditions in other lines of labor.

It is evident that the drag trains now operated on all the large railroad systems are not giving satisfactory returns; it appears that the light tonnage trains operated by Ford on his railroad are making excellent records. The big railroad systems claim to be "saving money and are asking both for higher rates and to be permitted to make a further cut in wages; the Ford railroad is said to be making money and Ford recently applied for permission to reduce freight rates. And further, it is said that Ford is paying his engineers, conductors, train crews and other employees more than the lines operating drag trains are paying their men. If Ford can do so well with his methods, might not other railroad lines do well to give them a trial? Where Ford has succeeded other railroad lines might succeed also."—Fort Worth Record.

School Children Asked to Aid

Solicitation of funds and gifts of clothing will be made in all public schools of the State for the 20,000 Armenian Orphans following the permission granted by Miss Anne Webb Blanton, State School Superintendent, Dr. N. L. Linebaugh, State Director of the Near East Relief said following the receipt of a permit from Miss Blanton.

The order permitting the Near East to ask for contributions of School children was contained in a monthly letter sent out to the principals and superintendents over the State in which Miss Blanton endorsed the movement.

The statement of Miss Blanton reads: "I hesitate to ask the schools to assist in the many charitable enterprises but this is one which I can earnestly endorse. State organizations are being called on to redouble their energies to save lives of helpless children in the Bible lands. A recent cablegram received from Armenia gives some of the conditions: 'Children, some barely old enough to stand alone, so shriveled by starvation that they have lost all semblance to anything human, covered from head to foot with sores from which they have not the strength to brush off the flies, moaning and whining like little animals for food for which hunger has robbed them of the power of speech to ask are seen daily. There is scarcely enough food for those on the inside of the orphanages. The dead wagons are hauling loads of dead children away every day.'"

With this permission to canvass the schools and the endorsement of Miss Blanton the efforts of the Near East Relief in this field will be doubled, Dr. Linebaugh said.

Dr. Linebaugh left Dallas Wednesday afternoon for El Paso where a convention of the Near East Workers and County Chairmen will be held and the work planned for the winter and spring. John W. Mace, National Field Director, and Able C. McCrea, National Director of the Bureau of Schools and Colleges, who have just returned from an inspection of the work in Armenia will report on the conditions they found.

FLASH LIGHTS ARE VERY POPULAR WITH THOSE WHO STUMP THEIR TOES....CUNNINGHAM & PHILIPS.

How to Plant Asparagus

Dig a trench from 14 to 16 inches deep, spread well rotted manure in the bottom to a depth of three or four inches, which should be well tramped down. Cover this manure with a good garden soil from four to six inches deep. Set the one year old rooted plants 14 inches apart on top of this soil, being careful to spread the roots of the plants out naturally. After this operation cover the plants with three or four inches of good garden soil, which should be well firmed about the plants. After planting give the plants a good irrigation.

Asparagus may be planted in the late fall, early winter or early spring. During the growing season the plants should be given sufficient moisture and cultivated frequently to keep the ground mulched and the weeds down. In the fall, remove all old tops and mulch the ground two or three inches deep with well rotted manure.

Asparagus is very easily grown and two rows 25 or 30 feet long set out three feet apart will supply the ordinary family. If well taken care of, Asparagus may be harvested for use when the young plants emerge an inch or two above the ground. The young shoots should be cut off with a knife two or three inches below the surface. Asparagus is one of the earliest vegetables that can be grown in the garden. J. E. MUNDELL.

City Federation Notes

We wish to extend a big "thank you" to the many people who responded to our announcement in last week's Herald, that we make October "clean-up month."

So many smokes went up as a result that the effect is very perceptible. In fact our people are so responsive to suggestions as to civic betterment, that it is most encouraging to start things of the kind. Now, let us get the hauling of rubbish and cans accomplished, and we may look forward to Thanksgiving with glad hearts. Don't leave the alleys full of weeds and refuse. Let us have a thorough fall cleaning. Any one who has been busy with other things, do take time to imitate your estimable neighbors, those who believe and practice the old saying "Cleanliness is next to Godliness." No dirty family will ever tread the streets of gold—think how little at home they could feel. Let everybody clean up!

The "female of the species" From every tribe and nation. Is invited to the meeting Of the City Federation. Come most promptly, on the hour. Be prepared to boost—not knock. The place is Rest Room, Court house. The time is three o'clock.

Our one aim is progress, uplift. We abhor the small, the mean. And our job through October Was to get our home town clean.

Book Club Notes

The Thursday Book Club met with Mrs. Joe E. Neal this week and an especially enjoyable meeting was reported. In the interesting games Mrs. Leeper and Miss Barnes tied for visitors' high score, Miss Barnes winning in the cut. Mrs. Williamson made club high score.

Delicious refreshments added to the pleasures.

Public Stenographic Work

I am now prepared to do public stenographic work, having opened an office in the Chamber of Commerce room, opposite the post office, and will appreciate being entrusted with any work in this line you wish done.

Mrs. Sarah Gill Dies at Age of 63 Years

Mrs. Sarah M. Gill, 63 years old, resident of Abilene since 1910, died at the home of her son, C. W. Gill, Saturday morning at 6:30 o'clock after a prolonged illness.

She was born near Cincinnati, Ohio, October 31, 1858. Besides her son, C. W. Gill, who is one of the city commissioners, she is survived by a daughter, Mrs. Victor Payne of this city, and two grandchildren, Victor Payne, Jr., and Leah Elizabeth Gill.

Mrs. Gill was a member of the Methodist church and lived a consecrated Christian life. She lived in Colorado, Texas, twenty years and came to this city to live with her son in 1910. Her death comes as a great shock to scores of friends of the family in this city and in Colorado, where she was known and loved by hundreds.

The remains will be sent to Colorado, Texas, and burial will be made at 10 o'clock this morning, the Rev. Browning officiating. Two brothers also survive: Tom Runyan of Colorado and J. A. Runyan of Coahoma.

The deceased had been a patient sufferer for over 20 years.—Abilene Reporter.

G. E. McNew's Mother Dead

G. E. McNew returned Saturday from Bowie where he had been called by the illness and death of his mother, Mrs. M. S. McNew, aged 82 years, 2 months and 20 days, was a pioneer resident of Bowie and was loved and esteemed by a wide circle of friends. She had visited Mr. McNew in this city in September, was hale and hearty but caught cold enroute to her home and a three weeks' illness culminated in death.

In addition to G. E. McNew of this city, E. O. McNew of Mineral Wells, and two daughters, Mrs. J. B. Salmon of Dallas, and Mrs. J. B. Winfrey of Bowie, survive and to those who mourn for a dearly beloved mother is extended our heartfelt sympathy.

The Big Spring High School Football team lost their first game at Lubbock last Saturday by a score of 20 to 0. Anyway the Lubbock bunch must be convinced that theirs is not the better team as they are afraid to come to Big Spring for a return game.

Marriage licenses were issued Wednesday to John Akers and Miss Addie Pharr.

Best cigars. Ward's. Huyler's candy, best ever. Ward's.

T. W. Huddleston recently purchased of Hefflin Bros. of Mineral Wells, three hundred and twenty acres of land in the Hart Wells community. In addition thereto Mr. Huddleston leased an adjoining three hundred and twenty acres. Mr. Huddleston is not planning to turn farmer as he expects to rent part of his place and run his cattle on the remaining pasture land.

Visitors in our city last Saturday afternoon were amazed at the crowds that thronged the streets of Big Spring as well as filled practically every business house where they were busy with their shopping.

NOTICE OF PUBLIC SALE

By J. H. BISHOP on the M. L. Musgrove place, north of Big Spring, Tuesday, November 1, 1921, Beginning at 10 o'clock a. m.

J. J. Hair sold to T. H. Johnson seventy acres of land three miles south of town.

In Memory of John W. Pike

Lines of condolence to the memory of Brother John W. Pike who the Lord in his wisdom saw fit to take from our midst on October the 19th, 1921. Brother Pike was a loving son, a true husband and indulgent father, a Christian father, a Christian gentleman and a loyal Odd Fellow. May each member of this Lodge so live that when the final summons comes that we may cross the river of death to meet him on the sunny shore of sweet deliverance, where we can be in constant attendance at the Grand Lodge of Odd Fellows, where God is the Grand Master and Christ the Inside Guardian.

From Mullin Lodge No. 372, I. O. O. F. Committee:

J. F. Henderson,
W. A. Prescott,
Ben Miller.

To the Railroad Unions Howard County

Big Spring, Texas, Oct. 26, 1921.

To the Railroad Unions of Howard County:

The Howard County Farm Labor Union wish to extend to you our moral support in your present troubles, also all the resources at our command.

We believe you are in the right and will help you in every way possible. We can feed every Union man in Howard County for Twelve months without outside assistance.

"GO TO IT."

(Signed) J. G. ARNETT, President.
(Signed) W. W. SATTERWHITE, Secretary-Treasurer.

Lost

A Ford demountable rim, with Simmons casing and tube, was lost between Big Spring and Lamesa. Will pay for return of same to Big Spring Herald office. 6-2t-pd.

Furniture for Sale

A mahogany living room suite, a Rooster Kitchen Cabinet and an oil stove for sale. Act quick if you want them. Mrs. J. W. Thurman. 1t.

Rooms for Rent

For rent, bedroom and garage. \$12 per month. MRS. J. A. BASS, 1507 Scurry street.

WASTED POWER IS WASTED MONEY—WE SAVE YOU MONEY

CYLINDERS RE-BORED

or scored cylinders filled and bored out good as new. Bring in your automobile or gasoline engine. We re-bore with a machine that can't go wrong—we install the proper pistons and rings to give it that new life and pep it used to have.

Piston rings and pins, all sizes, carried in stock.

TOURIST GARAGE
W. D. McDonald, Proprietor.

Notice to Business Men

Some of our business men are unwittingly laying themselves liable to a fine of \$25 per day. A law enacted by the 37th Legislature requires each and every business firm to file with the County Clerk an instrument, acknowledging in the manner of deeds, showing the names and addresses of all members of the firm, and if only one owner then his name and address, unless he is doing business purely under his full name, and his full name only.

Every partnership, and any firm using the word Company, except a corporation, is required to file this information.

It might be good business for you to investigate and ascertain if the law means that you are subject to its provisions, and if so, and you have not filed the information desired with the County Clerk, do so at once.

It's the law—let's abide by it.

Y. M. C. A. Membership Campaign

Remember the Y. M. C. A. Membership Campaign is on and all members are urged to extend their memberships to Oct. 30, 1922.

The International Committee has planned to make Oct. 30 of each year the annual membership day and all members of the "Y" are urged to cooperate by extending their memberships to Oct. 30, 1922—if they are paid up to April, 1922.

Then too, you are urged to assist in getting new members during the drive which closes Nov. 1, 1921.

For Sale

One baby bed and one Kiddle Koop, practically good as new, for sale. Phone 586. MRS. TRAVIS REED. 1t.

Join the crowd and buy your fresh meats and groceries from Pool-Reed Co. We kill fat young hogs and handle Quality Groceries. Pool-Reed Co.

Mrs. Cecil Peake returned Monday morning from a visit in Dallas.

BIG SPRING, TEXAS, FRIDAY, OCTOBER 28, 1921

BY JORDAN & HAYDEN

Crowded! Jammed! Packed!

Our store has been crowded to its utmost capacity with buyers from far and near, who are taking advantage of this wonderful **MONEY SAVING EVENT**, which is very evident that the people of Big Spring and surrounding vicinity appreciate attending

A REAL SALE!

and knowing that they are being supplied with the highest grade of merchandise **At Prices That Competition Dare Not Undertake!**

Don't Hesitate, Don't Wait, But Come

and come prepared to witness the **Greatest Slaughter of High Class Merchandise ever seen in Big Spring**

ABRAHAM LINCOLN

used to have a conundrum that went something like this, "if you call a sheep's tail its leg, how many legs has a sheep?" Some one would invariably say five. No Lincoln would say, it would only have four, because, calling a sheep's tail a leg don't make it one. A great many people are prejudiced against a sale because the advertiser sometimes tries to add a sheep's tail to the sum total of its legs and make it count five. Mr. Mellinger does not misrepresent and positively guarantees everything as represented.

SATURDAY

We are going to have **Extra Special Bargains** in every department, as we are going to make that day the greatest bargain day of our entire business career, and a day long to be remembered by the buying public of this vicinity.

Come!—And See If We Keep Our Promise

\$2.00 A YEAR IN HOWARD COUNTY
\$2.50 A YEAR OUTSIDE OF COUNTY

Entered as second class matter at the Postoffice, Big Spring, Texas, under Act of Congress, March 8th, 1897.

Big Spring, Friday, October 28, 1921.

Who Wants Increased Acreage?

The Industrial Digest, a new publication devoted to a resume of the chief contents of the leading trade journals—thirty industries, and which is ably edited, gleams from the publications of the fertilizer industry that there is an expectation that the cotton acreage in South will be greatly increased next year.

"The recovery of the price of cotton," says, "should result in an increase in acreage of next year's crop. Consequently the market for mixed fertilizer, which comprises 80 per cent of the fertilizer used, will undoubtedly be much better during the early part of 1922 than it was in 1921. Farmers will be encouraged and will be disposed to fertilize their crops more efficiently."

Now we are not concerned with the outlook for the fertilizer industry. We like to see all industries prosper. And while it might be remarked in passing that the fertilizer manufacturers should be quite as concerned about the ability of the farmer to pay for what he buys as about the amount he sells him, that is beside our purpose here. What strikes us is the assurance with which it is assumed that the cotton acreage will be increased next year. The Industrial Digest is simply interpreting the opinion of the fertilizer trade as reflected in fertilizer publications. The latter merely seek to interpret conditions as they see them in the light of experience. They take it for granted that there will be an increase in acreage because "farmers will be encouraged and will be disposed to fertilize their crops more efficiently."

That is a perfectly natural deduction in the light of past experience. And there is real danger that the farmers of the South will "go hog wild on cotton" next season. At a conference held several weeks ago, at which representatives of all the leading agricultural, financial and commercial organizations of the State were present, it was decided to launch a movement to the end that safe farming again be the program in Texas next season. A similar movement will be launched in each of the other cotton producing States. These leaders have surveyed the situation and have come deliberately to the conclusion that the world cannot buy a big cotton crop next year and that it would be suicide to abandon or curtail the production of other products which are needed in the farm home itself, in the domestic market and abroad, in order to produce more cotton than the world can buy. If an increase in the consumption of mixed fertilizer, therefore, must depend upon an increase of cotton acreage, it is not desirable, from the standpoint of the economic interests of the South, or even of the general interests of the country, that there shall be an increase in the consumption of mixed fertilizer. Too great a price would be paid for the rehabilitation of the fertilizer industry.

We don't use much fertilizer in Texas, but we are primarily interested in the extent of cotton acreage. We have learned from experience that the labor and money and land that is applied to the production of more cotton than the world can buy is worse than wasted. We have learned that the wise thing to do, the safe and sane thing, is to apply that labor and money and land to the production of other things—things which we need ourselves and which the world needs more than it needs surplus cotton that it cannot buy. But in this, as in other matters, there are interests that run counter to our own interests and to the general interests. The fertilizer manufacturer is a case in point. One can hardly blame him, nor anyone else whose interests lie in that direction, for encouraging the farmer to plant a big acreage of cotton next season. It is to be feared that a lot of farmers will be inclined to feel thus "encouraged" without much urging. But it is equally clear that there will be those who will be interested in a propaganda for increased acreage. It is this circumstance which will make it all the more necessary to conduct an intensive campaign for safe farming. Whatever recovery there has been has been due entirely to the fact that the farmer adopted a safe program during the past year. The effect of the latest glumming report tends to show that just a little larger cotton crop would have meant disaster. Everything must be done between now and planting to prevent that disaster yet coming upon us. We are still far from being entirely out of the woods.—Port Worth Star-Telegram.

Waterman's Ideal. The famous Shaffer and Conklin pens at THE CLOUGH JEWELRY CO.

An organization committee, headed by the Hon. W. F. Ramsay of Dallas, will launch the cattle loan company. First they plan the sale of stock in a Southwestern Livestock Loan Agency, capitalized at \$1,500,000. This was the program decided on by the stockmen and bankers of the Southwest at the Fort Worth meeting where stock subscriptions of \$180,000 were made. This agency will handle funds of the war finance corporation. It was formed at the suggestion of this corporation because limitations on the government loans prevented banks from obtaining as much money as was necessary to meet the demands of the Southwest. Members of the organization committee are W. F. Ramsay of Dallas, Marion Sanson of Fort Worth, Frank Kell of Wichita Falls, R. J. Kieberg of Kingsville, E. A. Calhoun of Roswell, N. M.; Joseph Hirsch of Corpus Christi, W. W. Turney of El Paso, B. T. Ware of Amarillo, and Ben E. Keith of Fort Worth. It is announced that should this loan agency be established there will be millions to be advanced to the different industries of the Southwest and loans will not be for the exclusive benefit of the livestock industry. Frank Kell has been working on this plan for months and he advocated a similar plan last winter when Governor Harding of the Federal reserve board visited Texas. Congressman Hattin W. Sumners was the first to subscribe for stock and authorized the secretary to list him for \$2,000. He has been investigating conditions in the Southwest for sixty days and came to the conclusion that unless financial aid could be obtained without delay the livestock industry would be imperiled for the reason that those engaged in the industry were compelled to sell their breeding stock which would automatically put them out of business as meat producers.—Wichita Falls Record-News.

General Wood, governor general of the Philippines, has been visiting in Japan, and his welcome there has been conspicuous for its cordiality. He and Mr. Forbes, his assistant, have been given decorations of the Order of the Rising Sun, first class, and their hosts have lost no opportunity to indicate to them their desire for friendship and understanding with America. The general has risen to the occasion in a manner that will be approved by the great majority of Americans, and given assurance of the friendly attitude of the American nation toward Japan. He dismisses the war talk as nonsense. He declares Japanese-American relations are not strained, and predicts they will not be. The pacific character of the talk of the distinguished American who is in personal charge of America's possessions in the Far East should be reassuring to the Japanese. While being subordinate to other questions just now, the question of the future of the Philippines and their relation to Japan has been regarded by many as one of the most dangerous issues between the two countries. Apparently, General Wood discounts the danger almost entirely, and sets at rest any apprehension of trouble over the islands. The general's utterances are such as to discourage the jingo talk in both nations, and to make it possible for the Japanese representatives to approach the coming conference on limitation of armaments, with less apprehension. His visit to Japan will doubtless be productive of many good results. The advantage of having General Woods as governor of the Philippines is thus quickly apparent. He is not only an administrator of unusual ability, who will serve the islands efficiently, but he will contribute to the peaceful solution of American problems in the Far East. The general gives evidence that he will exploit the possibilities in the Philippine post for service of this sort, to the fullest.—Houston Post.

Senator Kenyon must have returned from the investigation of the coal fields almost in despair, else he would not have suggested national control of the mines as a solution of the coal problem. It is usually the case when problems get beyond a certain point in seriousness, that some men can think of nothing but to unload them on the federal government. Yet the experience of the government in the control of private industry during the war were certainly not such as to indicate that the government possesses any superior power in management that afford the public better service. On the contrary, the record of inefficiency and loss made during the period when the government undertook to engage in private business was such as to forever frighten the people away from agreeing to such arrangements in the future. The people never had poorer service on the railroads than during the time the government controlled them, while the roads lost billions, which the people are now making good. The attempt of government to engage in the building and operating of ships was one of the most miserable and costly failures in history. The people are still being taxed to make up deficits caused in part by almost incredible government inefficiency. These are examples here at home with which everybody is familiar. Great Britain went further and undertook to put the mines under national operation, and the disaster rivaled the failure of our railroad and shipping administration. As was the case in this country, it was easy going to take control, but it was another thing to operate and to turn loose. It was not until after England was seriously threatened by a bolshevistic revolution that the mining industry was restored to a fairly efficient basis. The coal problem in America is indeed a baffling one. How to keep down friction between miners and operators, how to get enough coal mined for the country's needs, how to prevent

 such.—Farm and Ranch.

Services at Catholic Church
 Mass will be held at the Catholic
 church on the second, third and fourth
 Sunday of every month at 10:00
 o'clock.
 S. KISTNER, Pastor.

The time has arrived when farmers
 and stockmen can discard the shacks
 and temporary sheds and primitive tools
 they have made shift to get by with in
 the past. Many have suffered incon-
 veniences for years, and are more or less
 accustomed to them but, in rounding
 out this strenuous life they are surely
 entitled to the comforts and luxuries
 that by right belong to them. Better
 a smaller herd and more convenient
 and comfortable quarters for them. Bet-
 ter a smaller home with some of the
 modern comforts, than the larger ram-
 shackle ranch houses of yore. It is due
 to the family they are rearing to get
 out of the rut of frontier days and sur-
 round the youngsters with those things
 that will tend to add contentment to
 their environment and lessen their anx-
 iety to leave the home nest. Perhaps
 you have been accustomed to the present
 condition and every shingle over a
 knot hole has some loving association
 that cannot be felt by the rising gener-
 ation. "What's good enough for father
 is good enough for the boy," is a
 fallacy that many fathers cling to only
 to discover his error too late to hold
 the interest of the son. The last census
 returns show 100 per cent increase in
 land valuation in Texas, shows an in-
 crease in farm owners and population.
 Weather, rainfall, sunlight, all con-
 spire to make for a better state, so let
 us do our part toward a satisfactory
 home for our native sons and daughters.
 Hold a family council occasionally and
 listen to the suggestions of the young-
 sters and many knotty farm problems
 will disappear.—Panhandle Herald.

Emma Wants to Come Back
 "I am going back to America—my
 country."

This declaration comes from Emma
 Goldman, whose enthusiasm over the
 prospects of overthrowing the United
 States Government led to her deporta-
 tion two years ago. "My country!" In
 her vernacular of the day we are tempt-
 ed to say: "How does she get that
 way?"

"I have found less liberty in Russia
 than in the United States," she adds.
 Yet, two years ago from stumps and
 soap boxes she was holding Russia up
 as the ideal. Now she says that she
 is "scrupulously avoided participating
 in any anarchist's activities since she
 has been in Russia," because "you know
 this government wouldn't stand for it."

Emma occupies her little attic room,
 wrapped in shawls to keep herself
 warm, lives as best she can, and dreams
 of America "her country." Two years
 ago she found it an easy matter to
 make speeches and gather in the dol-
 lars, and live in luxury. That was in
 America! In Russia she has been
 treated badly, and now she wants to
 come back. No doubt, if she looked
 around a bit, she would find whole
 families in her fix.

Emma can't come back to America.
 If perchance she is allowed to pass
 through the gate, she will find a dif-
 ferent America from the one she left
 two years ago. A great many people
 were drunk with too much money two
 years ago, and being drunk, they were
 ready for most anything. Things are
 different now. People are more inter-
 ested in jobs than in sand-blot anarchists
 and Americanism is more universally
 appreciated than ever before.

Emma had her chance in America,
 and she failed to make good. She had
 best turn her mind to other parts of
 the world. America is a big country,
 but there isn't room for her ilk.
 Poor Emma!

Fordson

TRADE MARK

325 P. O. B. DETROIT

The Fordson is built with over-strength in every part to withstand the strains of constant heavy work. It was tested under every possible condition of farm work before it was put on the market. It has been tried out by thousands of farmers in the past three years and has never fallen down on its claims.

The Fordson is simple in design, flexible in control and operation.

Let us demonstrate this tractor on your farm.

Cotton Acreage Normalcy
 (By Chas. E. Baughman)

(Com. Markets & Warehouse Dept.)
 We notice in the Dallas Morning
 News, issue Oct. 18th, an item purport-
 ing to reflect the plans of the Texas
 Cotton seed crushers. In this news
 item it was stated, "members of the
 Texas Cotton Seed Crushers Association
 at a meeting in Dallas yesterday
 in the North Texas building, voted to
 immediately start a campaign through-
 out the State urging farmers to plant
 more cotton and get back to a normal
 acreage in Texas."

We are at a loss to know just what
 is meant by a normal acreage. If it
 means back to the acreage basis when
 we were growing from 3,000,000 to 4,-
 000,000 bales and over, selling same at
 from five to ten cents a pound, with
 picking charges from \$0.50 to \$1.50, and
 with cotton seed selling at from \$7.50
 to \$15.00 per ton, and with hundreds
 of thousands of bales of cotton going
 to waste in the fields not picked, and
 later plowed under, we would say most
 emphatically let's steer clear of such
 normalcy.

This news item stated further that
 the Hon. W. A. Bennett of Fort
 Worth, President of the Association,
 said that while diversified farming
 was all right "to a certain extent," the
 association felt the prosperity of the
 farmer and the State would be best
 served by a material increase in the
 cotton acreage over this and last year.

"As the situation exists today the
 farmer has practically nothing," Mr.
 Bennett said, "while every bale of cot-
 ton would mean real money."
 Now, we are commenting on this for
 several reasons, the first of which is
 that it would be most ruinous to the
 farmers of Texas to return to normalcy
 in the production of cotton. The best
 fixed farmers today are those who
 have something to sell the year round.
 They are diversifiers. They raise most
 of what they eat and in a large measure
 what they raise, selling their surplus
 commodities.

A careful investigation will reveal
 the fact that in our higher institutions
 of learning today the farmers who di-
 versify have a larger representation
 than the farmers who make cotton
 their principal crop. The planting of
 large cotton acreage means keeping our
 farm boys and girls out of school,
 denying them the best asset for their
 future welfare.

Should the State of Texas produce in
 1922 and 1923 a cotton crop double that
 of this year, if one will take past re-
 cords as a basis, he would be safe in say-
 ing that the crop would not bring as
 much money as will the crop this year.
 Cotton has been crowned "King" and
 his being true it carries the suggestion
 that every King has his slaves. And
 any one familiar with the real condi-
 tions existing in the larger cotton pro-
 ducing areas of our State is also aware
 of the fact that these people have very
 few advantages in the way of giving
 their children higher education. This,
 of course, is a result of the necessity
 of gathering the crop.

We believe that one of the best sys-
 tems that can be inaugurated in our
 State today is the building and opera-
 tion of bonded warehouses in which the
 producers of our State may store their
 farm products and sell them from Janu-
 ary 1st to December 31st, and put a
 stop to the plucking of any of the mar-
 ket. It has been but a few weeks
 since cotton sold for less money than
 it took to pay for the picking, the haul-

ing to the gin and the ginning charges
 And for this reason it would mean
 bankruptcy to the cotton producers
 should they go back to a normal cotton
 acreage in this State.

The growing of cotton is just as
 much a science as is the growing of
 any farm, ranch or orchard commodity,
 and when our farmers come to fully
 appreciate the many advantages to be
 had in diversification, just so soon
 will they be in a position to be inde-
 pendent, in a very large measure. We
 believe that there should be a close co-
 operation between the farmers, the
 bankers, the oil mills, the cotton gin-
 ners, and every other industry that is
 in anyway connected with the produc-
 tion of farm, ranch or orchard products.

A bonded warehouse in every county
 seat, and in fact in every point where
 a quantitative production might require,
 operated along with a well organized
 marketing association, would be the
 greatest asset possible in the hands of
 the producers of this State. Our idea
 is to let the farmer grow everything.
 First, that which is needed for his own
 table, and assist in every way possible
 in the organization of bonded ware-
 houses and marketing associations as an
 avenue through which he may dispose
 of any surplus. And when he goes to
 town to buy something, let him have
 something to sell.

We would say to the farmers of
 Texas, most emphatically, do not let
 the present seemingly fair price for cot-
 ton induce you to double your acreage
 another year, and be not deceived, be-
 cause a normal crop in Texas would
 likewise mean a normal price, and you
 would have doubled the amount of
 work and at the same time get less
 money in the end.

The Southern States can never get
 away from growing cotton. The or-
 chard and garden products are unques-
 tionably necessary, so is the growing
 of grain and forage crops, yet it is
 absolutely essential that the producers
 of the crop with which the teeming mil-
 lions of the earth's inhabitants are
 clothed, prepare to grow and market
 this crop in such a way as will enable
 them to get from under the burden of
 the crop mortgage.

Cut Out Vandalism on Halloween

Parents should warn their boys
 against destroying property on Hallow-
 ween. Each year our folks are several
 hundred dollars poorer due to property
 destroyed by those who imagine they
 are merely celebrating by the proper
 observance of this holiday.
 Halloween may be a time for fun, but
 it affords no excuse for vandalism,
 and when you destroy property there is
 nothing funny about it to the man who
 suffers the loss.

We cannot afford this useless de-
 struction of property; and in addition
 to warning their boys against damag-
 ing other folks property, parents should
 make it a point to keep in touch with
 their sons if they permit them to get
 out with the "gang" on this occasion.
 If there is any likelihood of parents
 failing to cooperate, special officers
 should be posted at various points in
 the city, as much city property gener-
 ally comes in for wrecking by the
 Halloween crew.

In addition to drilling two deep tests
 for water to augment the water supply
 needed for the big railway shops, to
 furnish water for locomotives, passen-
 ger cars and other purposes, the Texas
 & Pacific railway company will also
 overhaul the four wells that have been
 on the pump in order to increase the
 amount they will supply.

D. C. Norrell arrived Monday from
 Louisiana, summoned here by the ser-
 ious illness of his wife, who has been
 here for a visit with her mother, Mrs.
 G. D. Lee.
