CAREER OF WASHINGTON

Washington's Birthday is a favorable time to dwell upon the great part which George Washington played in building up our country. His wonderful work in leading the military forces of the nation in the Revolutionary war may be considered his greatest

achievement. His superb genius played a tremendous part in winning that war.

The United States after winning the Revolutionary war, was far from being a united country. The original states were scattered along the Atlantic coast, connected only by travel by sea and by poor roads of those times, which made communication between them slow and difficult.

There were serious differences between these states and between the various elements of the people, and the tie that bound them together seemed pretty weak. Washington greatly regretted the condition of near chaos which existed, and he helped by his correspondence to bring the leading men of the country to a determination to create a more perfect union.

As the first president, his personality and power of leadership was a very important factor in securing the loyalty of the people of the separate states to the new form of government. He conciliated people of all political parties by his broad statesmanship and the intelligence and sense of justice with which he dealt with all problems.

The life of Washington has many lessons of the youth of today, and for older people as well. It tells a story of intense patriotic devotion, of thoroughness in whatever he undertook, of fidelity in performing every task, and of fairness and justice exercised toward all.

Where Cissy Spent Her Honeymoon

Most of the young newlyweds in our town spend their honeymoon at Roundstone Lake or Jackson Falls; why the Martins even went as far as New York City.

But when Cissy Cupper married the young Carter boy, they allowed as how they were going to spend their honeymoon right here.

"There's no place better than our town," Cissy says. "And I'd like to start married life at home, with things Bud and I are used to."

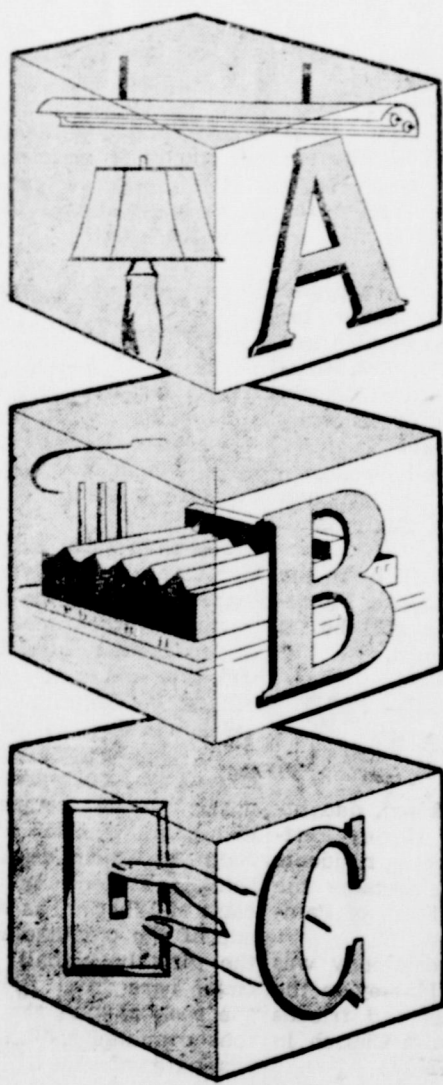

Makes sense, come to think of it. Folks naturally left them alone;

and except for occasional the Garden Tavern for a beer, they stayed at home used to married bliss.

My missus prefers to where I sit, there's a better for a honeymoon—than right with your own possession home cooking, and a friend of beer or two—with the panion in the world.

... without the
ALAMO!

No, Texas wouldn't be the same without the Alamo, the Texas Rangers, or the natural gas industry. The Alamo commemorates the brave and brilliant past... the Rangers symbolize the orderly life of the present... the gas industry reflects the natural wealth of the state—now and for the future.

Every cubic foot of natural gas produced in Texas contributes in one way or another to the welfare and well-being of every Texas citizen. It pays royalties to land-owners. It pays taxes to the support of city, county and state. It provides jobs and payrolls that ring cash registers in nearly every business in the state. It provides fuel for thousands of industries which, in turn, pay more taxes, employ more workers, and turn more money into their respective cities and towns. Indeed, it wouldn't be Texas... without the natural gas industry.

Tom P. was seen taking Roberta to the Dr. when she got her arm hurt. Now, girls, it wouldn't be worth it to break your arm just for a ride with a handsome man.

Mr. Coleman asking everyone in Algebra class to be his valentine and put a problem on the board.

The seventh and eighth grades are drawing names to exchange valentines. The moral is, "Learn to love one another."

Rosemary was seen with a box of valentine candy. She wouldn't even pass it around.

Billy H. passing out valentines only to the girls. Do you always do that?

C. B. hasn't found a girl yet. Get busy C. B.

THE JUNIOR FOGHORN

The juniors have started practicing on the play. We hope that everyone will learn his part so that it will be a success. We haven't set a date for it yet but it will be sometime in the near future. We have selected the characters as follows: Pamela Royle, an art student—Jeanne Lee, Geraldine Ware, a dramatic student—Faye Francis, Mrs. Meek, who loves a masterful man

—Geraldine Risner, Mrs. Tuppy, a landlady with an eagleeye—La Verne Finsterwald, Natasha Fedorova, a temperamental Russian—Dortha Pannell, Jimmy Love, a glamour boy—Richard Dyson, Shelby Parsons, a medical student. Bill Price, Aunt Eustacia Carstairs, Pam's aunt—Juanita Clepper, Braymer Babcock, Gerry's poultry minded uncle, Bob Zybach, Ethelbert Meek, who has an engrowing disposition—Tom Fuls, Mike, who is played by R. J. Smith and Bill who is played by Jack Finsterwald, are deliverymen for the Slocum Music Company.

This will be a good play so watch for the date to appear in the Briscoe Bronco column.

SOPHOMORE BITS

Everyone reported a good time at the theatre party Wednesday night.

Betty and Rosemary seem to delight in taking surprise pictures.

Why aren't we all as ambitious as Eleanor? She is always working?

Why did Janice high-hat us all in the study hall Thursday?

The boys sure enjoy English lessons. They miss Thurman very much. Not that he helps them.

THE SENIOR HIGHLIGHT

The seniors have been pretty busy lately measuring and ordering graduation gowns and invitations. We have also been thinking about where we will take the juniors on a trip. After we decide, the problem then comes about how to raise more money to finance the trip.

We are expecting the senior Panel for the hall any day now.

THE FRESHMAN WAIL

The freshman have been staying in most of the week. What is wrong kids, or is it the teachers? Roberta is giving a class party Thursday night. This will be our valentine party.

THE SPORTS NEWS

The Briscoe basketball boys played the Samnorwood boys in an exhibition game here Friday night, during the girls county tournament. We were defeated by the score of 20 to 25. We are going to District Tournament, Friday, February 14, where we will play Lelia Lake first. If we win we will then play Claude.

The boys have painted the lines on the tennis court and started playing tennis. We find that we are somewhat rusty on our aces.

Girls teams entered in the girl's county tournament held here Feb. 7th and 8th were Kelton, Wheeler, Mobeette and Briscoe. The tournament was played round-robin with Kelton coming out as county representative at District. The Briscoe girls were defeated only by Kelton.

We wish to express our thanks to Mrs. Waters and Mrs. D'Spain for setting up the hamburger booth and to all who helped in

Mrs. Zybach Hostess To Briscoe H. D. Club

The Briscoe Home Demonstration Club met Feb. 4 in the home of Mrs. Clarence Zybach.

Roll call was answered by each telling of a good sewing hint, one very helpful hint given was one telling of fastening a turkish towel on the machine leaf when sewing slippery material. Mrs. Emma Hastings gave a demonstration selling eats. We also want to thank those who donated pies, sandwiches and cakes.

on sewing room equipment. Three very convenient articles to have are a sleeve board, a pressing roll and pressing hem in order to get each seam pressed as soon as it is finished.

Those answering roll call were: Mesdames E. A. Zybach, Malcomb Levitt, Effie Renfro, L. S. Childre s, Oden Hudson, Roy Waters, Sy Mason, Henry Lee, Lee Barry, Hastings, Miss Tamsy Riley and the hostess: Mrs. Clarence Zybach.

The hunting season for some forms of game may not last long, but some people hunt in all seasons for household and personal articles they misplace.

The junior class gave the program Monday morning in the grade school auditorium. Mr. Osborne, class sponsor, was Master of Ceremony. The sophomores have the program next Monday morning. All visitors are welcome.

GOSSIP

Ida is your boyfriend always late for your dates?

The seniors, that is most of them (Floy, Joy, Vendell, Nell, Ida, Wayne and Richard) went kodaking after Miss Wiley's wedding Sunday afternoon.

We must have some awfully al-

luring senior girls. Anyway they have what it takes to get married. One of our senior girls, Nelda Barry, was married Saturday. We will miss you Nelda, honest we will.

Mrs. Brown was disappointed because Floy and Joy didn't giggle during the marriage ceremony Sunday.

We think Pat and Harold should tell Pat and Clyde how they get along without fussing.

Bill you are really smart in English II. Where did you learn so much?

Both strings of basketball girls were fortunate with a victory over Mobeetie last Thursday night. Keep the good work up girls.

Anita, is it good to get to ride in the "Blue Goose" again?

Yreva, what really happened to your nose? Is Melba telling the truth about someone biting it?

Imagine the sophomores handing in some news.

Peggy R. you really make a good mother.

Pat and Melba are good at entertaining themselves. That is, they were Saturday night.

We hear Peggy and Anita really had a good time in Memphis and Lakeview over the weekend.

The English II class are crazy about their long assignments.

Everyone seems to be showing pictures to each other.

The freshman class met at the home of Dorothy Esslinger, Feb. 10, 1947 for a Valentine party. Refreshments were carried out in the Valentine motive. Those present were twenty-five freshman, Mr. Luther Parks, class parent; Mrs. Wilkes, guest; Mrs. A. Close, class sponsor; and the host and hostess, Mr. and Mrs. Esslinger.

ONIONS AND ORCHIDS
 Onions to the ones sending comic Valentines.

Onions to the teachers for giving long assignments over the weekends.

Onions to the freshman boys that date sophomore girls.

Onions to the six-weeks exams that are coming up.

Onions to beans in the lunch room.

Orchids to the basketball teams.

Orchids to teachers that let us eat candy.

Orchids for the upperclassmen for dating freshman girls.

Orchids to the new teacher, Miss Wischkaemper.

Orchids to the freshman class for giving their sponsor such a lovely Valentine cake.

GUESS WHO

A senior boy who has dark hair, brown eyes, and is about 6 ft. tall. Likes sophomore girls, especially one. Can never get Lulle Bell to run for him. He has a wonderful personality and is active in all sports. He is liked by everyone.

A senior girl who has brown hair and green eyes. She is about 5 ft. 3 inches tall and a little on the chunky side. Has a habit of giggling at everything. Plays the piano fairly well, plays guard on the basketball team and is liked by everyone.

Answer to last week's Guess Who: Glenn Robertson and Ida Martin.

In the old days wives used to "blow up" their husbands, but now they would probably say they were merely offering constructive suggestions.

Many people desire to develop "lamor" but all that some are able to accomplish is considerable "lamor."

Blackeyed Peas Have Developed Into Crop

COLLEGE STATION—Black-eyed peas have developed into a big cash crop in West Texas.

In Dawson and surrounding counties, the 1946 crop of green field peas brought farmers an average of \$110 per ton in the hull, reports Dawson County Agricultural Agent T. A. Barfield. The blackeyed pea acreage in Dawson County alone last year was between 20,000 and 25,000 acres, Barfield says. Yields were reported to range from 400 to 2000 pounds per acre.

Commenting on the value of the peas as a cash crop, the county agent states, "Our minimum at Lamesa was \$800 per ton, and competitive buying boosted the top price paid to \$130 per ton. I judge that the average price paid at Lamesa in 1946 was \$100 or \$110 per ton."

The green peas have helped Dawson County farmers to restore some "much needed nitrogen" to the soil, Barfield says, as well as bringing in cash during the last two dry years that the county has had.

Large acreages were also planted to the peas in Lubbock, Lynn, Terry, Bailey and Hale counties, says Barfield, and "some fabulous yields" were reported on land under irrigation.

"Buyers seem to like the superior quality of the West Texas blackeyed peas", the county agent continues, "and they tell me that the peas have fuller pods, which make them yield more cans of peas per ton."

He adds that many Dawson County farmers will be planting blackeyed peas as long as there is a market for them.

The cat seems very happy as he purrs when petted, but it may be sometimes well to remember that there are sharp claws within his soft paws.

That means more and more high-volatility elements are added to Phillips 66 as the temperature goes down. Phillips can be liberal with its high-volatility fuel because Phillips is the world's largest producer of high-test natural gasoline.

The number of World War II veterans soared over the 14,000,000 mark in December, according to Veterans Administration estimates.

Veterans may advise Veterans Administration rulings on their claims for benefits to the Administrator of Veterans Affairs.

FARM FACTS WORTH KNOWING

Q. What causes my cows to gnaw wood and pick up old bones and chew them?

A. This indicates a lack of minerals in their rations. Make sure that their diet has sufficient mineral content. Or it may be that your cows lack vitamins A and D which influence the absorption of minerals into the body.

Q. How many turkey toms should be kept for breeders?

A. One tom for every 12 hens is the general rule, but if tom rotation is practiced keep 50% more toms than the above ratio, or one tom for eight hens.

Q. How can a hunting dog be corrected of false pointing?

A. According to Earl Puffin in "Handling Your Hunting Dog," a book recently published by the Ralston Purina Co., St. Louis, Mo., false pointing is most often caused by excessive cautioning in the field. The master fears that his dog will overrun the birds and cautions him. Thus the dog may be encouraged to stop and falsely point. Puffin suggests that you let the dog do his own hunting and handling of game. Another remedy is to wait for a point at a place where you are sure no birds are present and then simply ignore the dog and let him decide for himself that he is wasting time. Or the false pointer may be worked with an older dog who has too much sense to back an unproductive point.

Q. What percentage of lambs born finally reach market?

A. Only about two-thirds of the lambs born reach market. This average could be greatly increased through a program of good feeding, good breeding, sound management, and careful sanitation.

Q. What is the best type of hog for marketing?

A. Consumer preference plays a big part in determining the best type of hog. The "medium" or "middle of the road" type is more desirable than either the "chuffy" overdone hog or the rangy, underfed hog. The ideal type of hog should have a maximum of lean in proportion to fat and should have not more than 1 1/2 inches of fat over the neck, loin, and hams.

of a new ailment which affects the chronic disease.

Q—I was wounded in action in World War I and have a service connected disability. Can Veterans Administration change my rating from service-connected 20 per cent to nonservice-connected total disability at age 65?

A—A World War I veteran receiving compensation for partial disability due to disease or injury incurred in service who's rated permanently and totally disabled for pension purposes, is awarded the greater monetary benefit, if his claim is otherwise appropriate. If the service-connected disability subsequently becomes even more disabling and represents an additional benefit, the payments can be made on that basis.

Q—I have two dependent children. I am a World War I veteran and would like to know if I can get a nonservice-connected pension?

A—If you believe you are permanently disabled you should communicate with the Veterans Administration regional office having jurisdiction over your address and forward to that office VA Form 8-526b, together with evidence of your condition.

Q—My son was killed in World War II. He had designated his two sisters as beneficiaries of his GI insurance. One of the sisters passed away recently and I would like to know if I have any rights to her insurance benefits?

A—If his sisters were jointly designated beneficiaries or if each sister was specifically designated contingent beneficiary of the other, then upon the death of one sister the other sister would get the share of the one who died. However, if the designation is not joint or each sister was not designated contingent beneficiary of the other, then upon the death of one of the sisters the remaining installments would be paid according to law, National Service Life Insurance Act of 1940, and you may have some rights.

Nearly 200,000 veterans of World War II are going to school or training under federal veterans benefits in the Dallas Branch Area of the Veterans Administration, a year-end report has revealed.

As of January 1, 1947, veterans in training by states in the Branch Area numbered 131,306 in Texas, 31,310 in Louisiana, and 33,441 in Mississippi.

VA reported the status of other major veterans benefits in the tri-state area as follows:

1. Disability compensation being paid to veterans of all wars—Texas, 112,098; Louisiana, 28,072; Mississippi, 31,433.
2. Number and value of G. I. guaranteed loans—Texas, 28,271 for \$147,577,537; Louisiana, 5,224 for \$29,731,875; Mississippi, 2,234 for \$10,896,787.
3. Veterans in VA hospitals in the three states—6,432.
4. Out-patient treatments—monthly average of 41,000 examinations and 25,000 treatments. (No state figures available).
5. Insurance—more than one million policies representing accounts of 985,000 veterans in the three states. (No state figures).
6. Death compensation and pension awards—33,000 awards in the three states. (No state figures).

The cost of all veterans benefits (including administrative expenses) in the three states for 1946 was: Texas, \$180,775,264; Louisiana, \$37,411,561; Mississippi, \$45,084,790.

Veterans with service-connected dental conditions may apply to the VA regional office in their area for out-patient treatment by private dentists participating in VA's "home town" medical program.

For one year after a veteran's discharge, VA will accept prima facie evidence of a service-con-

ected or aggravated dental treatment and authorize out-patient treatment.

After the veteran has been out of a service year, his application must be adjudicated by a rating board as service-connected before out-patient treatment can be authorized.

Treatment authorized must be in a VA clinic if it is feasible available. If not, treatment on a fee basis by a participating dentist of the veteran's own choice will be authorized.

QUESTIONS & ANSWERS

Q—Since my discharge from the armed services, I find that I am suffering from a chronic ailment. Am I entitled to anything in the way of compensation or pension because of my disability?

A—Chronic disease causing 10 percent or more disability within one year from separation from active military service is presumed to have been incurred in, or aggravated by military service. Your service must have been for a period of 90 days or more, part of which was war time service. However, a finding of service connection may be rebutted by evidence showing previous existence of presence
