VOLUME XI—NUMBER 38

ONLY 1630 VOTES POLLED SATURDAY Only 1.630 votes, approximately

one third of the county's voting strength, were polled in the Second Democratic Primary in Wheeler County last Saturday.

In the only county race, that of Tax Assessor-Collector, Terrell Gunter, incumbent, defeated James O'Gorman. Gunter received 1,104 votes and O'Gorman 501. Lloyd Anglin with 407 votes was named Commissioner in Precinct No. 1 and defeated J. P. Keeton who received 295 votes. For Constable of Precinct No. 1 Frank Noah received 252 votes to defeat Homer Pitcock who had 187 votes.

In the state races Jesse E. Martin received 855 votes and Grover Sellers 518. These were contestants for 'the Attorney General office. For Associate Justice of Supreme Court Gordon Simpson received 778 and Richard Critz 488 of the Wheeler county votes

Only 321 votes were polled in the ator on his crew, and is being fitted two Shamrock boxes, 472 in the two to be a valuable member of a "team" tie box. Balloting was heavier, of course, in the Wheeler and Mobeetie horor heavier because to enter service in May Wheeler boxes and 331 in the Mobeeboxes because of the precinct races.

Mobeetie Boy Injured In Car Collision

Property Owners Are Willing To Participate

THE COUNTY SEAT NEWSPAPER

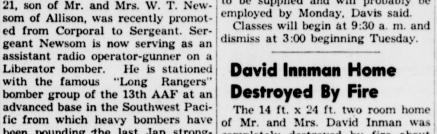

Mayor R. H. Forrester reported today that arrangements with property owners on paving three blocks in Wheeler has been completed and a fourth block is pending completion of negotiation with property owners.

The Mayor desires to express appreciation to the property owners for their cooperation thus far, and since it is the desire of the majority of the property owners along the fourth block, that is the block on Main Street immediately south of the square, to have the pavement laid on that block, the Mayor is asking all property owners who have not yet signed the agreement to make arrangements immediately because the State Highway Engineer is only waiting for the completion of the property owners contract in order to begin laying out the grade on the blocks of streets to be paved.

County Judge D. A. Hunt and Mayor Forrester expected to meet the General Superintendent of the Uvalde Construction Company in Wheeler last Tuesday but the General Superintendent was called to Pecos, Texas this week in regard to other contracts of the Construction company. In a long distance call to company headquarters yesterday Uvalde Construction Company, would be in Wheeler within a day or two to complete negotiations pending the signing of a contract by the company.

If you are a property owner on any of the following blocks - 1. Main Street on the West Side of the square; 2, Texas Street on the south Thursday. Sgt. St. John had formerly first block south of the square and side of the square; 3, Main Street on 4, Texas Street on the first block west of the square, you are urged to see that your name is signed to the general city contract before Saturday night so that immediately upon signing of the contract between the Construction Company and the county and city the grade and drainage work can be begun in the blocks that are completed.

> Grading and drainage work in preparation to widening the paving on the north side of the square was uner way this week. This part of the paving program is being done by the nighway department.

THURSDAY, AUGUST 31, 1944

Hot under the collar, brows gathering moisture by the minute as we pray for relief from summer heat, it is still seasonable to think of Christmas shopping and mailing of packages for the soldiers overseas. Postoffice officials have been planning for some time, and now voice suggestions to the public on regulations that cover the parcels going to army camps and overseas stations. The Christmas mailing date for both army and navy overseas, if from Sept. 15 to Oct. 15. Let us begin early, say today, to save cardboard boxes and stout string as these will be scarce by the time we need them. The same pointers of wrapping securely, addressing carefully is necessary since so many packages last year never reached servicemen through carelessness in mailing. Shop early. Mark parcels "Christmas Gift" to be given special attention, packages to weigh not over 5 pounds, measuring not more than 15 inches long and 36 inches length and girth combined.

Normally Labor Day is a holiday for Americans to celebrate the rights and meaning of labor. This year factories, warehouses, warfs, offices, will continue their work and put in time to being of special service. War changes holidays but the meaning of

them is not lost. One of the principle The collapse of Germany will be so interests of founding Labor Day was complete that the United Nations der the lash and the whip. Labor to- means that we shall not run away through labor was not a true gentle-

By BOYCE HOUSE Just about the biggest bargain a man can buy, when you consider the trivial sum involved, is a dime packout: age of smoking tobacco. You cram a little into your pipe and your thoughts are wafted away on the puffs of fragrant smoke. At least the smoke is fragrant to you, because you're doing the puffing. ...

If you're smoking in a group of friends, the deliberate draws cause you to mature your thoughts before uttering them and maybe the result will be something ripe in wisdom and rich in homey philosophy. At any rate, a pipe requires enough effort to use and it occupies a man's mouth to an extent that it keeps a fellow from saying so many foolish things.

All of us can utter philosophic wisdom as long as the trouble is not our own. Kipling coined a great smile when he wrote, "As cheerful as a man watching another's house burn down.

Which reminds me of the story of the individual who called on a friend in jail and, trying to cheer him up, When you meet up with a disagree- said: "Remember what the poet deble person, never allow yourself to clared, "Stone walls do not a prison e upset by him. Cost Of Living Remain Stable The cost of living has risen six tenths of one per cent in retail prices of essential commodities, Secretary of Labor Frances Perkins reports. The figure is for the month ended July 15, most recent for which data are available. During the last year, Secretary Perkins added, average of war plant workers. The National prices of family living essentials have risen 1.8 per cent, as compared with advances of 6 per cent and 11 per cent in the years ended July 1943 and July 1942. Higher prices for fresh fruits and vegetables were noted. Prices for potatoes, sweet potatoes, spinach and onions were up in July, but there were large decreases for cabbage, lettuce, and green beans.

Go-To-School Campaign

Progresses

More than 40 national organizapaign to get employed high school month. In 30 states especially organized campaigns are under way. Norwegian Laborers Undernourished

The food ration for Norwegians working in Nazi Slave Labor Camps is so small the workers must have food sent them from their homes, the Swedish Newspaper Stockholms-Tidningen says in an article reported to OWI. Attempts to get Norwegians to sign up for "Harvest Work" failed because all knew that meant working on military fortifications. Not one person signed up.

Everyone reading The Wheeler Times today has either paid 5 cents for it, subscribed for it in cash, or has indicated intention to pay for it at the advertised rate of \$1.50 a year in Wheeler county and \$2.00 outside the county.

There are no FREE Wheeler Times.

We could easily increase our circulation another thousand or two by just putting names on our subscription list, by one method or another. That would please a few of our advertisers, perhaps, but not the majority of discriminating business men.

For it is a recognized fact that The Times has QUAL-ITY circulation. It is read by people who are ABLE TO BUY the articles advertised in it. Anyone who cares enough about a weekly paper to lay down the advertised subscription price to have it sent to him, is not only going to READ it-he or she is likely to have money with which to buy the things advertised in it.

We have not increased the price of The Times-rather, we have increased its quality, and are pleased to note a satisfactory response. We have kept our old friends and added scores of new ones during the past few months. We do not add 100 new subscribers a week, but we have added as many as 10 in one week and they all paid in advance. They will read the paper from cover to cover. Some of them will keep it all week, while others will pass it on to a neighbor.

The paid circulation of The Wheeler Times has increased in number over 300 in the past two years.

This will interest our advertisers.

Homemade Velva Fruit

Velva Fruit, the new frozen fruit dessert with the smooth texture of ice cream, developed at the Western Regional Research Laboratory of the U. S. Department of Agriculture for inch of sand, then another layer of commercial manufacture, may be made at home either in a hand freez- ed. er or in a tray of a mechanical refrigerator. Berries of several kinds, cherries, red jlums, cantaloupes, peaches and apricots may all be used for this dessert. Mellow ripe fruit, too soft for canning, is ideal for Velva Fruit, because it has full flavor and color

To make the dessert at home, first wash the fruit, remove any pits crush and force through a sieve of potato ricer fine enough to remove any seed and skins. Save and use all juice. Because apricots and peaches darken on exposure to air, they should be halved and put in boiling sugar syrup 10 per cent) 5 minutes before sieving

Ingredients, when tart fruit like berries or plums are used, are: 3 1 teaspoon gelatin; 14 teaspoon salt. When less acid fruit like peaches, cantaloupes or apricots are used, only 1 cup of sugar is needed, but 1 3 cup lemon juice is added for tartness. Mix together sieved fruit, sugar, salt and lemon juice if used. Keep this mixture cold while softening gelatin in cold water and dissolving by heating 5 minutes over boiling water. Stir dissolved gelatin into fruit-sugar mixture

Rapid freezing is recommended because it gives a smoother texture. using 1 part salt to 8 parts ice. The too cool for sprouts to grow, the turning to freeze. Remove dasher and pack to harden, using 3 parts On the whole, cellars provide a good ice to 1 part salt, and draining off storage place for Irish potatoes. water as ice melts

with spoon, then whip in chilled age. bowl with egg beater, and return part of the mixture freezes to about 1-12 quarts of Velva Fruit.

STORING VEGETABLES AT HOME

By Amy Sue Beckett Asst. Co. Home Demonstration Agent With vegetables coming to matur-

ity the question of safe storage is next in order. Selection of the vegetables to be put away for winter use throw or drop them. is most important, says J. F. Rosborough, horticulturist for the Texas A. crates and baskets. and M. College Extension Service. In

minimum as essential to successful onion storage plenty of ventilation, ow temperature and dryness; storing in open crates of not more than one bushel capacity; and selection of onions matured and ried until they attle when handled.

Pack beets and carrots in layers of sand in jars or boxes of about one bushel capacity and store in a cool, well ventilated place. In a dry clinate, slightly moisten the sand and place two or three inches in the bottom of the container. Follow with a single layer of vegetables, not touching each other, cover with one vegetables until the container is fill-

To store well, beets should be two inches in diameter, in perfect condition and of good color, and carrots one to two inches in diameter and also good color. Cut off the tops, leaving one inch of stem, and dry one hour in the shade before storing.

Irish potatoes should be mature when stored, sound and free from pruises and blemishes. After they are dug they should dry for a day or two in the shade before they are stored. Dig when the soil is dry enough so that it will not adhere and carefully place the potatoes in crates of one bushel capacity. The crates should be raised from the floor 2 or 4 inches, so there will be a circulation of air

under and around the potatoes. Store cups sieved fruit; 1-14 cups sugart in a dark room or cover with burlap bags. Darkness is essential if potatoes are to retain their natural flavor. It takes considerable light exposure to turn potatoes green, but even a light makes them taste strong. Irish potatoes greened by light have been found to be harmful.

Some have successfully stored poatoes in sand just as the root vegetables are stored. This necessitates close watching. The cellar tempera- E. T. O. - Commendations for exture found in most parts of Texas cellence in bombing during Ninth Air

lines this morning while I'm not very busy. This is the morning in several A Ninth Air Force Bomber Base, mornings that I haven't really been busy. We usually have most of our work in the late afternoon and night and then I have to work on the books every morning, but I finished them in

ium bomber group of which Sergeant member.

A veteran of ten combat missions over Europe, Sergeant Lamb is an engineer gunner in Colonel Thomas B. Hall's target busting B-26 Marauder group which has distinguished itself with an outstanding bombing record in the European Theatre of Operations.

Colonel Hall's group has been commended several times for pin point percision bombing of enemy marshalling yards, bridges and gun positions. Its pre-invasion attacks aided in paving the way for the Allied landings in France while subsequent operations in support of ground troops have been credited with assisting the Allies to make steady progress in Normandy.

Sergeant Lamb is the son of George W. Lamb, Wheeler, and before entering the service in August, 1942 was a farmer.

ROBERTSON BROTHERS

Pvt. Glenn Robertson and Pfc. Lester Robertson, both of whom have APO addresses out of New York, have written their mother. Mrs. Bessie Robertson, as follows:

England, Aug. 8, 1944 Dear Mom and Bill:

I guess it is about time I was answering your last two letters. I got two from you last week, but I just haven't had time to answer. I was away from camp for three days too. went to (censored). Boy, there is really some beautiful country there. It is warm all the time and the town is right along the sea. We went in swimming in the ocean. The water wasn't so cold as I thought it would be and we surely had a swell time. But it wasn't so nice coming back. I was driving along one of those darn little narrow roads and hit a civilian's car. It didn't hurt anyone, but it sure tore his car up. He was on the

wrong side of the road. Our sidewalks are wider than the roads over here. It's hard for a truck to go down one, much less pass a car.

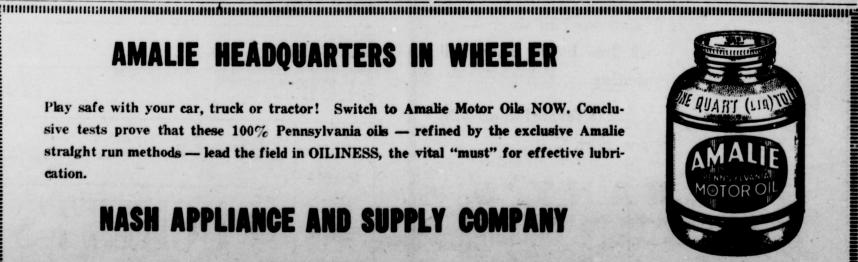

Yesterday the mail clerk and I went after the mail and a jeep passed us. I thought I saw someone in it I knew, but they kept going. But when we started back to camp the same jeep pulled up beside us and we stopped and Wayman Herd got out. Boy I was really glad to see him. We talked for about an hour. His camp is about a hundred miles from us. I was surely glad to see him. He is the first boy I have met that I knew before coming over here. Well, Mom, I guess this is about all for now. Be good and don't worry about me. You can send me some

OF PRECINCT 1

THANKS TO THE VOTERS

I wish to again thank the voters who supported me in the last election. I shall never forget my friends. I do not hold any ill feeling toward those who were coaxed to vote with the click who so bitterly opposed me. For a third time I carried my home precinct, this being an honest people who have known me for the past 18 years.

There were statements published just on the eve of the election too late to be answered. Folks, I am happy to say that I am broad enough between the eyes and have the backbone to not ask our editor to print anything that I couldn't sign my name to.

My son, who is in the army and who held a poll tax two years ago mailed his ballot back for his dad — it was ignored. At this election he was at home on an emergency furlough and was booed at on our court house lawn as the vote was being posted. Just a short time later he responded to his training and was backed by the home front. If he is sent across and licks a yellow Jap, will he be shoved in and charged for it of his hard earned scant salary. Mothers, I ask that you pray for your sons while at home that they be respected. My heart goes out for all mothers' boys who are willing to offer their red blood for this and generations to come. I am sure my son will be pleased to know his dad is clear enough of yellow streaks to place his name on the dotted line.

Again, thanking my friends and neighbors for their kindness, I am respectfully,

J. P. KEETON
