The Livestock Boosters are offering two trips for two to Las Vegas. With a \$10 donation you have a chance at 3 days and 2 nights in Las Vegas. For a \$50 donation you get a steak dinner at Maxey's and a chance at the trip for two to Las Vegas. If you are interested in either of these offers, contact James Masters.

If you checked the figures on the story on the candidates in the Democratic Primary last week, they didn't match up. We omitted the District Clerk Race and the two candidates, Sherri Jones and Lyndon Loyd. I did the

Service was very busy during 1993. Three hundred and ten calls were answered during the year. Sixty seven patients were transfered to Amarillo and eight went to Pampa. There were fifteen auto accidents of these, 60% were not wearing seatbelts, some of these not belted in were young chil-

dren. Of course the children did have broken bones. Cardiac still leads the list with fifty. The rest of the complaints are: strokes, thirteen, respiratory, thirty, acute abdomens, twenty, falls, thirty, acute abdomens, twenty, falls, thirty, fractures, twenty, head injuries, fourteen, kidney failure, one, cancer patients. fourteen, diabetic, thirteen, chocking two, seizures, seven, acute chest in, one. Several unusual calls were received. One person fell 30 feet from a storage tank, one person fell from a running norse, one lawnmower accident, three partial amputations, one resulted form an electric saw, one patient suffered from gangrene, one person was stomped by a bull. Two calls were D.O.S. and one was D.O.A. One patient was overdosed, two were appendicitis, two smoke inhalations. Thirty patients were sick calls. We had thirty-three stand bys for fire calls, thirty hours for football games, nine

As well as carrying and answering our pagers, we kept busy on our continuing education and training. We Finsterwald and Charles Kuntz. conducted an ECA class in 1993 as well as several CPR classes.

Please be careful and safe in 1994. Remember, "Mommas who love their babies put them in their car seats and belt them in". Do you carry your baby in your lap when you drive? Can you deal with their death if you crash and they die? It matters not whether you travel 4 blocks or 100 miles, little people county, three hours for wild west bike need your protection. Use the car seats and belts, a baby just sitting in their car seat and not belted in is not safe. They must be belted in. A life is so precious, please be responsible.

From the Minister's Desk: A thought-providing bulletin ar-

ticle was recently written by John Gibson, the minister of the Sixth and Izard Church of Christ in Little Rock, Arkansas. The title of this article was "The Church Will Never Be The Same" and it said:--

According to the April 5, 1993

Time magazine the church will never be the same because baby boomers, the generation that forgot God, is going back to church. But it's not going to be business as usual. These returnees are described as "traveling from church to church or faith to faith, sampling creeds, shopping for a custom-made God." While most say that they believe in God: "One-third also believe in reincarnation, ghosts and astrology. The God of their understanding is not necessarily the personal, all-powerful and all-knowing deity of orthodoxy. Nor is the Jesus affirmed by boomers necessarily the Son of God and unique Savior of humanity.

In an effort to attract, more and more churches are becoming "customer oriented". As an example of this one church was cited as having songs one Sunday morning ranging from "Oh, What a Beautiful Morning" to "Danny Boy". The meeting climaxed in hugging with the preacher raising his arms high and booming, "Hey God, make my day! Go for it.

In the <u>Time</u> article, mention is made of the book <u>The Churching of</u> America by sociologists Roger Finke and Rodney Stark. Martin E. Marty, the historian, summarized their in-

SWEETWATER By Mrs. Joe Flowers

The New Year is off to a good start. We had two who got a National holiday out of the big day. Joe Mong and Richard McEntire had birthdays. We enjoyed the Rockin' Eve 94 with Dick and the other New Yorkers, sure been a nice week tho sort of temperamental. it was 70 Wednesday on one side of the house and 80 on the other.

Care Center Comments By Cathy

The WCC would like to welcome Mr. Loyd Davidson back to the Care Center. Mr. Davidson first came to stay with us for respite care. Now he is back to stay with us as a permanent resident. Welcome back!! We also would like to welcome Mrs. Pauline Hogue. Mrs. Hogue is from White Deer, TX. Mrs. Hogue likes to visit and watch T.V.

We have started working on Valentines crafts for next month. The way time flies we want to be ready Valntines

We still have some residents that are still in the hospital. They are Lera Weehunt, Dub Mason and Elsie Wagner. We wish all these residents a speedy recovery.

Mrs Hyatt had church services for the residents on Tuesday. They sang several songs and then Mrs. Hyatt had a devontional ready for the residents. Several resedents attended and had a great time.

We played bingo on Wednesday and Satuarday. Wednesday we had 22 residents to play and Mr. Knoll was the blackout winner. Ila Byers and Katherine Holt helped out in bingo. On Saturday they had 19 residents to play Joe Richardson was the blackout winner.

Fern Young had church with the residents on Thursday. Fern was by herself so she played the piano and led the singing but, Ariel Lohberger came to her rescue and helped her lead the singing. Afterwards Fern had a short devotion. Over 25 residents

deposited in the bank.

I would also like to thank Mary Mar-

Here we go on another one and it seems like it is goin to be OK. Got to visit with a few complete strangers this mornin and I feel that is the thing for all of us to do. Honest we need to say such things as good moning to everyone we have the chance to and be nice to each other. We all are Gods children if you like it or not and should be treated as such. Last night about the midnight hour I heard a knockin on a wall and when I wuz well awake I found it wuz on the house next door. I looked at the clock and saw it wuz one minit past the hour so actually it wuz 1994. I wondered what wuz happening and finally figered it wuz some ancient Irish or Check customs to wake everyone in the neighborhood up at that time. This mornin I thought about it and figered whatever sort of custom we could put up with it one night a year if the other neighbors could so Happy New Year everyone.

I figered I would'nt make any resolutions of; any kind for the year and wuz just figerin on sittin by the fire and Mama, the little fat wife, said I should shovel the snow from the drive, sweep the pine needles off the porch and

Don't know about all you fellers but I always figered one service we boys ought to have is a good barber shop. Now I don't mean one of them hair stylist, I mean an ole time clip shop where you can shoot the bull, get the local gossip and that sort of stuff. I mean a real two bit clip joint. I found one and the barber is red headed and meaner than a sore toothed tom cat.

Noticed where the new 94 pace car is goin to be a Ford. Hope it aint one of them Motel T's mite go with a Model A but them T models kicked too durn hard and at the most unexpected times. A buddy and I wuz out tom cattin one nite and when we left the joint we had been tom cattin and he reached down and grabbed the crank on the Old T and forgot and wrapped his hand around the thing to give it a spin and it kicked back and by him grippin it so hard durn near had his arm jerked off.

Wish them durn Republicans would leave our President alone. First if wuz women then joggin and the 200 buck haircut and now it is some savins and loan stuff. Looks like a feller ought to have a bit of privacy even if he is in the oval office. Whats a few million bucks to us taxpayers anyhow.

Have you noticed that new Bolshevic over there in Moscow? He wants to start another republic or sumthing and all the news men and women will have to be blond headed and blue eyed. Hope we don't get something like that started over here. I've got used to Sam, Charley and that otherfeller that worked with Walter Crankcase and sort of enjoy their views and complications on the tube, don't you?

Speakin of the tube, me and Mama have a couple of them afternoon shows we been watchin for years and honest you would think your watchin some dirty movie you rented from a adult video store. The other day one of the commericals even got a little smutty, but how in the world do them writers keep goin with all that junk and why do the big soap and toothpaste compaines keep sponserin them. Don't recon them companies would miss my business cause I soak my teeth in sodie water and bath once a week with P&G soap and a bar will last

Got a good friend that has been in the hospital the past few days recoverin form a serious bypass operation and he ain't been doin too well but tonight his family said he is doin much better.He can growl at them and has begin to complain about everthing so he must be on the road to recovery. > To the Editor The Wheeler Times

On January 11th I gave something on my radio broadcast on KPDR that drew listener response. Maurine Brotherton called and requested I submit it for publication in the Wheeler

Last week I was Meditating on the helplessness of the Christian Church in our day due to the attitudes of believers. Most are so timid and passive that they essentially have no evangelical witness at all. Those who are bold seem to develop an attitude of superiority, harshness without brashness, giving forth an image of pride that turns people away. As I thought upon this I prayed "Lord, give me boldness without brashness." As I then thought upon other attributes that were needful in my life I took out my pen and began to write as these things came to my mind. What Maurine wanted published follows:

Lord give me Boldness without

Fluency without arragance; Meekness without Passiveness; Spititual power without Personal

Servitude without complaint; Knowledge without Aloofness; Let me live by faith without confusing it with fantasy.

Card Of Thanks

We want to say "Thank You" a million times over, to the Wheeler Firemen, for you swift and most kind response to the emergency in our home over the Christmas Holidays, in the wee hours of the morning. It is wonderful to know that our com-

munity has so many fine people like yourselves, who are ready and willing to come to our aid, even under the most extreme circumstances. How fortunate we are!

We hope you all had a wonderful Christmas. Thanks to you, we did, though be it without benefit of our central heat. Many of you so generously offered your homes to accommodate us over the holidays, as did, many of our long time neighbors. Thank you all for your concern and kindness! Thanks again! We pray Gods blessing on you all!

TRIBUTE TO EDITH LEVITT

A tribute to my Granny, who was a very funny, sweet, and loving person. She has been around for many years. One of the things that was invented in her life time was the airplane, which was invented in 1903.

Edith Eliza Gibson Levitt, my greatgrandmother, and her family, came from England eighty years ago, and settled in Illinois. Her family came to Texas eighty-five years ago and settled in Canyon, Texas. My granny's parents' names were Ed Gibson and Lena Bowling. Granny remembers that her parents were active church members that farmed for a living and were always thankful for plenty of rain to help grow their crops.

Edith's birthday is November 28, 1901, the same month and day as my Uncle Randys' birthday. Over the past years, we've always tried to celebrate their birthday together. Edith was born in Hannabol, Missouri. She remembers swimming in the great lakes that flooded this past year. Her worst memory was of the poverty during the depression and the terrible drought. Edith remembers most affectionately about her home life as a child. There was a lot of activity always going on in her log house, She loved to read and play baseball with her brothers and

When Granny was a child many common illnesses plaques her and her family such as, bad colds, flu, small pox, measles and other childhood diseases. Granny attended a one room school house with only one teacher for every grade level. Most kids didn't get to finish high school so that they could go to work and help their families. Granny always had to walk at least half a mile to school and her favorite subjects were music and readying history. She eventually went on to college in Canyon, Texas known today as West Texas A & m University, and received her teaching degree. I can remember my Papa (her son) telling me that when he had her for a teacher when he was in school, she would be extra hard on him so that the other kids wouldn't think she was being parcel.

My Granny played the piano at church for many, many years and she is still a very good christian person. I know that I can always count on her prayers for me and my family. Granny was very well known for her baking abilities For income after her retirement from teaching school, she be-

"The Latest Gossip" Granny played baseball at school and enjoyed choir and music. The chores at home consisted of helping outside by milking the cows and taking care of the animals. She also helped inside with cleaning the house. The only clothes she had were two homemade dresses made from cotton materials. There is no comparison in cost of clothes back then and the quality and cost of clothes today.

As a teenager, she got along fine as long as she was obedient to her parents and tried to help with the chores. Granny's biggest influence on her life as a child was her older sister Dewey. Dewey was a school teacher also and that is were Granny obtained her goals for herself

World War II effected her family because her brother was drafted and sent off to war. The family tradition was to play baseball, since there was enough in her family for a team. Music was also a family tradition. Granny met her husband, Lester Levitt, while getting a teaching job. She was eighteen when she met him. On dates he rode on horseback to see her. She recalled what a good honest man he was that loved his family but left her a widow at the age of 70.

Modern conveniences were not invented when Granny was a child. There was not a vacuum to sweep with, only a broom, there was not a washer machine or dryer but only a piece of homemade lye soap and a rub board. In order to get from one destination to the other when she was grown up, you had tod o so on horseback. Today we just hop in the car, plane or train. Schools were extremely smaller and just don't compare to the schools of today.

The Viet Nam War affected her family like it did most families by the natural ways war effects life. She did not have anyone in her immediate family involved in that war.

Granny recalls the happiest moment in her life is when she was saved. She asked Jesus to come into her life and be the Lord of her life. It's the only way we as sinners can go to heaven. The very saddest time in her life was when her son, my grandfather, passed away due to lung cancer. This was

Granny's favorite singing group was the "Stamps Quartette" and she vividly remembers getting to meet them in person. One of her favorite sayings is, "So mote it be!" When Granny looks for a friend she looks for honest traits. Her favorite president was Franklin Roosevelt, she named my Papa after him, and Jimmy Carter because he was a good christian. Granny claimed a major happening that helped to change her life is evangelization of the world. He best advice to young people is, "Seek the Lord, while he may still be

Granny lived in Missouri until she was five years old and then her family moved to Canyon, Texas in 1906, which is where I moved from before coming to Burleson a year and a half ago. When she married she moved to tiny Allison, Texas, which is up in the top of the Panhandle. Granny's family came to Texas because a man told her dad, "If you throw an onion out on the ground it will grow." She likes Texas because of the General Occupation and even has a granddaughter named Texas. The weather is a factor that she hates to contend with every year. There are many harsh changes in the weather that comes from living in the Panhandle, which is know for its bad winters and is nicknamed "Tornado Alley

The advice my Granny would give to a person that people this day and time are too caught up in their busy lives to focus on what is really important, God, church, family and friends. Granny also says, "A neighbor close by is better than a brother far away."

I haven't seen my Granny since I moved to Burleson and I hope to make a trip soon to see her. At ninety-two it is hard for her to make any road trips. I have been very fortunate to know and be loved by my great-grandmother. She is a very brave and independent woman, who has lived on her own and taken care of herself for the past twenty-two years. I pray that the Lord will let us keep her for as long as

To help the time pass away, Granny crochets and makes many pretty things. She has mailed pot holders to many famous people such as, Billy Graham, President Bush, President Clinton and received special thankyous and autographed pictures from

My Granny is the best great-grandmother a person could ever have and I thank God for her extended time her on earth.

The case of the Clinton, Okla., store clerk, whose body was found southwest of Wheeler, is back in the news. The man serving time for the 1984 murder will most likely get a new trial in Oklahoma. One of the other suspects is said to have worked in Wheeler for a period of time. Scary isn't it.

Propane Use Provides More Efficient Heating

AUSTIN, TX -September 27-A water heater fueled by propane could save the average Texas family nealy \$200 a year compared to the cost of heating water eletrically, while at the same time benefiting the environment and creating jobs in Texas.

Commission's new newspaper and radio advertising campaign that kicks off statewide this week. The campaign is part of the Commission's legislative mandate to educate Texans about propane's benefits as an environmentally beneficial alternative fuel.

That's the message of the Railroad

Commission studies show the initial expense of installing a propane-fueled water heater is no higher than other types, but the return on investment is much faster. According to Chairman James E. (Jim) Nugent, fuelcost savings recoup the initial purchase price in about two years. "That's about a 50 percent annual return on investment," Nugent said, "which is considerably more than you get at the bank." Assuming typical delivered costs of 82 cents per gallon for propane, savings over the ten-year life of the water heater could total more than \$2,000, Nugent added.

A major reason for propane's economy is its efficiency compared to other methods of energy production. More than two-thirds of the energy generated by oil-or coal-burning electric utility companies literally goes up in smoke, and is therfore lost at the source. Propane, a clean-burning primary fuel, is nearly 21/2 times as effecient, delivering 87 percent of its energy directly to the burner tip.

Propane technology has also become more efficient in recent years. Today's propanes water heater uses one third less fuel than heater manufactured as recently as five years ago, which contributed to the fuel's economy. Advanced burner design, energy-saving temperature controls and better insulation make the most of every gallon fuel.

Good News Diet on Eating Habits of Low-Income Households

By JENNIFER LOVEN South bought more red Associated Press Writer

WASHINGTON (AP) Low-income households ate more dairy products, fish, fresh fruits and vegetables and juice in the 1980s while cutting back on poultry, fats, cereal, bakery goods, red meat, eggs, sweets and canned vegetables.

And if that isn't good per person than smaller enough news for the health-conscious, spending per person in low-income households went down for with single mothers bought most foods, despite dramatic increases in consumption.

The researchers found that regional price differences greatly affected what kind of foods low-income househlds bought.

Beef price outlook favorable for consumers

AMARILLO-Consumers can look forward to slightly lower retail beef prices in 1994, thanks to ample supplies of beef and other meats.

"Increased beef and poultry production will cause 1994 retail beef pricces to drop 1 to 2 percent from the \$2.95 average in 1993," said Jim Gill, market director for the Texas Cattle Feeders Association.

"Beef production in 1994 will be near 24.2 billion pounds, 2 percent above the record production of 23.9 billion pounds in 1993. This will be the seventh consecutive year of record beef production, putting per-capita beef consumption at 67.2 pounds retail weight for 1994," he said.

"Pork and poultry will continue to offer stiff competition for beef prices," he predicted. "For 1994, pork production is forecast at \$16.9 billion pounds less than 1 percent abover 1993. Poultry production is forecast to exceed 23 billion pounds, compared with 22.1 billion pounds in 1993—the 19th consecutive year of production prices."

For cattlemen, Gill predicted that fed cattle prices will trade in a narrow range in 1994. He estimated first quarter prices will range from \$72 to \$76 per hundred weight; \$74 to \$78 in the second quarter; \$70 to \$74 in the third quarter and \$73 to \$76 in the

"Cattlemen's big concern in 1994 is feed prices," he said. "Corn production for 1993 will be near 6.5 billion bushels, down sharply from the record 9.5 billion bushels in 1992. Grain sorghum production is also down to 620 million bushels, a sharp decrease from 884 million bushels in 1992," he added.

"Corn prices during the first half of 1994 will average higher than the \$5.05 per hundred weight in 1993, but may trend lower in the second half due to larger plantings," he said.

"The same trend will be seen in grain sorghum, but first-half prices higher than the \$4.41 average for 1993, but breaking lower in late summer and early fall."

With increasing feed costs, cattle feeders are not expected to be aggressive bidders for feeder cattle in 1994. Feeder steers weighing 650 pounds will likely average \$87 to \$89 per hundred weight in 1994, down slightly from the \$89 average in 1993, he predicted.

"However, feeder prices could grow lightly as feeder cattle supplies continue to increase slowly as the beefcow inventory gradually grows," he said. "On Jan. 1, 1994, the beef cow inventory was near 34.5 million about 2 percent higher than a year ago. Slow growth to around 36.5 million is anticipated by 1996-97. Along with the larger cow herd, calf crops are expected to trend slightly higher.'

By JENNIFER LOVEN the 60 countries will there is 2 million tons less Associated Press Writer

WASHINGTON (AP) — Without increased food aid this year, the world's developing nations will have less than half the grain they need to satisfy minimum nutritional standards. the Agriculture Department says.

Last year, 60 developing nations received 10.8 million tons of grain — falling considerably short of the 27 million tons needed to meet minimum nutritional standards, USDA said.

An annual needs assessment by the department projects another shortfall in 1993-1994, despite part of the need being filled by a dramatic increase in production in southern and eastern Africa.

Congressional committees have approved \$1.6 billion in aid for fiscal 1994, down \$100 million from last year.

calves are likely to narrow special Cattle-Fax analysis feed costs.

During the 1987-93 the premium on 500-pound period, the average price paid for a 500-pound steer calf was \$21 per hundred weight higher than the average fed-steer price. As cattle production increases in coming years, the difference between fed cattle and calf prices is likely to narrow significantly, the report points out.

The analysis of sprice premiums on calves was part of a Cow/Calf Focus report which Cattle-Fax prepared for its members. Cattle-Fax, a market information and analysis service, periodically analyzes and reports to its members on developments of special interest to cow-

Looking at the next three or four years, Randy Blach, director of market analysis for Cattle-Fax, pointed out, "expansion of the cow herd is resulting in larger beef production, and that is likely to mean lower fedcattle prices and tighter margins for feeders. Stock operators will be affected next, because the price trend on yearling-weight catle also will turn lower,"

Members of Congress and officials in the former Soviet Union have suggested adding conditions to any renewed credit. However, the Agriculture Department says it cannot attach conditions under the program because it is a commercial one, assisting sales by U.S. companies at market interest rates and repayment terms.

no injection and no patch over the eye after the procedure.

Like Jan McKesson, I (Steve Simmons), have had RK surgery. It is one of the most wonderful things that has happened in my life. Being a rancher and hay producer is a constant outside job, either in the summer or in the winter. Not having to worry about getting dirt, snow, wind or rain in or on contacts or glasses is something that I really relish. Also, since having RK surgtery, I have not had the allergy problems that I had before. This surgery, to me, is like having been born again. Is/ Steve Simmons
