THE COUNTY SEAT NEWSPAPER

COUNTY'S VOTERS FAVOR ROOSEVELT

As was the case the nation over, Wheeler county voters turned out in large numbers in the General Election Tuesday to give Roosevelt and Truman electors a large majority.

Polling more votes than in either of the Democratic primaries this year, voters ran up a county wide total of 2,686 votes polled. Unofficial tabulation gives Roosevelt 1,869 and Dewey 511. The Texas Regulars received 232 votes while there were 4 ballots cast for the Socialist party and 4 for the Prohibition party. No votes were cast for the Independents or America First party.

In the Wheeler box 293 votes were cast, in the Stanley precinct 202 and in Mobeetie 286.

Countywide totals on the amendments show voters favoring the city plan pension 333 to 316, turning down the state pension plan 314 to 310 and favoring the county tax reallocation amendment 329 to 203.

Coke Stevenson received 2,264 Wheeler county votes while his Republican opponent, B. J. Peasley, received 262. Other state and district offices were voted upon in a very similar manner by the local voters by the two main parties.

In the latest radio reports today the nationwide vote shows:

For Roosevelt 35 states with 413 electoral votes. For Dewey—13 states with 118 votes.

And, of 43,727,779 popular votes thus far tabulated, Roosevelt took 23,267,746 to Dewey's 20,460,033.

Democratic inroads into Republican seats in senate and house barked the president's position in dealing not only with foreign affairs but also with domestic problems.

While buttressing their working majorities, Democrats bounced out of both branches some of the men on whom they had hung "isolationist" labels during the campaign.

Out of the senate went such Republicans as Gerald P. Nye of North Dakota and John A. Danaher of Connecticut. The house dropped among others, New York's Hamilton Fish and Illinois' Stephen A. Day.

As the ballot tabulations piled up, it became more and more apparent that Dewey could claim only the Middle West as his own. That was where he got most of his states and most of his electoral votes.

In 11 southern and five border states it was a clean sweep for Roosevelt. And the East and Far West went as strongly for him as the Midwest did for Dewey.

Men Over 38 Are Placed In Classification IVA

Members of the Wheeler County Selective Service Board said this week that all men who have reached the age of 38 and are eligible for service except for their age will now be placed in Class IVA which means that they are not under present regulations, subject to call for active service. They are merely in an inactive status but subject to a change at any time the National Director of Selective Service feels their services may be needed.

All men who have been honorably discharged from any branch of the service will now be carried in class IC and not have their classifications changed in some instances as was true in the past.

The board again warned all registrants carrying a IIC classification that the board has no other alternative than to place them in Class IA subject to call if they leave their occupation without consulting the board and gaining permission for so doing.

Hospital News

Mrs. W. D. Harris, Twitty, entered the hospital for treatment Nov. 1.

Jimmy Holland, Briscoe, entered the hospital for treatment Nov. 2.

Euna Mize, Wheeler, entered the hospital for treatment Nov. 2.

Mrs. Lois Taylor, Wheeler, underwent an appendectomy, Nov. 3.

Mr. and Mrs. John Weeks, Twitty, are the parents of a daughter born Nov. 3.

V. J. Sharpe, Mobeetie, entered the hospital for treatment Nov. 3.

Mrs. Frank Chandler, Allison, entered the hospital for treatment November 3.

Mrs. C. H. Worley, Kelton, entered the hospital for treatment Nov. 5.

Joe Stenbridge, Wheeler, underwent a major operation Nov. 2.

Sgt. and Mrs. J. A. Kennedy, Allison, are the parents of a son born Nov. 2.

Mrs. Calvin Keelin, Kelton, entered the hospital for treatment Nov. 8.

The Nation's Choice

FRANKLIN ROOSEVELT

HARRY TRUMAN

Child Is Born To Kennedy's; Father Is Prisoner Of Nazis

The arrival of John Richard Kennedy was a grand event. He is the first child of Sgt. and Mrs. John A. Kennedy and the first grandchild of Mr. and Mrs. R. A. Kennedy, Amarillo, the father's parents, and the first grandchild of Mr. and Mrs. G. T. Richardson of Allison, the mother's parents. He is the first great grandchild of Mr. and Mrs. John Potts of Bovina.

The only drawback to family happiness was the fact that Sergeant Kennedy is a prisoner of the Germans. He was engineer on a B-17 bomber. The wife, the former Margaret Richardson of Allison, has been receiving letters from the sergeant. The baby, an eight-pounder, was born at Wheeler November 2.

The only drawback to family happiness was the fact that Sergeant Kennedy is a prisoner of the Germans. He was engineer on a B-17 bomber. The wife, the former Margaret Richardson of Allison, has been receiving letters from the sergeant. The baby, an eight-pounder, was born at Wheeler November 2.

Pvt. H. O. Crowder Missing In Action

Mrs. Dollie Crofford received a message from the War Department Tuesday stating that her son, Pvt. H. O. Crowder, 24, had been missing in action since Oct. 22. Pvt. Crowder has been overseas only a short time and had written that he was with the infantry in Holland. His wife and daughter reside at Morton.

Group Inducted Thursday, Nov. 2

Following are Wheeler county inductees who were inducted at Oklahoma City, Okla., November 2:

Cecil William Richardson, Jr., Cecil Junior Wood, Clifford Lee Farmer, Donald Ray Vearner, Porter Lee Wiginton, Leslie Lucian LeBlanc, Roscoe Pershing Allen and Claude Alvin Pillers.

Kenneth LeRoy Harrel, Wilbur Kenneth Roberts, Leslie Gleason Valentine and Edward Blaine Buford were transferred to other boards for induction.

Pantex Representative Talks To Lions Club

R. J. Wheeler of the public relations department of the Pantex Ordnance Plant at near Amarillo, gave an interesting demonstration on shell loading before members of the local Lions Club at their regular luncheon Tuesday.

Wheeler stated that the Pantex plant was proud of two remarkable records achieved by its employees, that of the production of shells and bombs and of the safety record maintained since the plant began operation.

BRISCOE SCHOOL WILL RESUME CLASSES NOV. 20

Superintendent Evans of the Briscoe schools told The Times this week that the school would take up Nov. 20 after the cotton picking recess instead of Nov. 13 as originally intended. Cotton and grain harvest is in full swing in that section of the county.

Several Building And Repair Jobs Are Going On In And About Town

Several building, remodeling and redecorating jobs are going on in and near Wheeler as the town continues to tidy up a bit to keep pace with the progressiveness of the new down town street paving.

Construction began this week on a two-story 45-foot addition to the Nash Appliance and Supply Store building after the firm received a WPB permit for the approximate \$2,500 project. The new addition will be of tile construction with concrete floor and will allow some 2,000 more square feet of floor space.

In the south part of town the new Ray Lee three-room residence is nearing completion and will take on a very neat appearance as soon as stucco is applied to the outside.

Mr. and Mrs. C. P. Waters have their new home in the south part of town nearly completed.

Mr. and Mrs. Bob Rodgers are redecorating three rooms of their home while Mr. and Mrs. Shorty Erwin who reside just west of Wheeler, are remodeling and redecorating their home.

The Southwestern Associated Telephone office building and residence, located in downtown Wheeler, has a new coat of paint and a WPB permit is being obtained for the addition of one room.

One room is being added to the Baptist parsonage.

Interior decorating of the court house is still in progress with the Commissioners Court room, ration office, judge's office, county treasurer's office and county attorney's office already having received newly painted walls and floors.

The Sam Watsons who purchased the Zirkle place just west of Wheeler are redecorating the house inside and will move here from Canadian.

Mrs. S. D. Conwell this week will move the stock of merchandise and cafe equipment to the small building recently moved to just across the street from the school buildings and rebuilt to accommodate her student patronage.

W. O. Traylor is putting a new shingle roof on his home.

O. D. Arganbright is also reshingling his home.

W. W. Adams is adding a porch to his rent house where Mrs. Seedig and daughter reside.

The Steer place in south Wheeler is being retinked on the exterior to considerably improve the appearance of the stucco finished property.

Mr. and Mrs. Ed Watson have men at work this week brightening up several rooms of their hotel on the east side of the down-town square.

The Hepry Millers have a new shingled roof on their residence.

The Dr. C. C. Merritt residence is being completely remodeled, interior decorated and exterior stuccoed.

Mr. and Mrs. Holt Green have started the construction of a sidewalk along the west side of their business property at the southwest corner of the town square.

Also observed downtown yesterday was the installation of a long concrete step at the end of the sidewalk in front of Clay Food Store. Since the new paving project has been completed, several of these are needed adjoining the sidewalks in front of downtown stores and will very likely be erected.

Funeral Rites Held Wednesday Afternoon For Ollie Brodnax

Funeral services were held from the Wheeler Baptist church at 3 o'clock yesterday afternoon for Ollie Lee Brodnax, 46, of Rogers, Ark. and formerly of the Locust Grove community.

Brodnax was killed instantly in a head-on car collision near Willow, Okla., last Monday. His parents, Mr. and Mrs. W. O. Brodnax of Pampa, his wife, 3 sons, 2 daughters, 3 brothers and 2 sisters are among survivors.

Rev. P. D. Fullingim, local Baptist pastor, was in charge of the last rites. Interment was in the Wheeler cemetery under the direction of the Hunt Funeral home.

Fire Wednesday Does Little Damage

The Wheeler fire truck made a run late yesterday to the Fred Farmer Garage when a pan of gasoline was turned over and became ignited from a gas stove. Quick work of the firemen and neighbors are credited with putting out the blaze before very much damage. There were five cars in the garage at the time and had it not been for quick thinking and action of the men, considerable damage could have resulted.

Bill Hix is a new employee of the personnel over at the county agent's office.

PFC. ODIS McCRAW SERIOUSLY WOUNDED

Mr. and Mrs. C. V. McCraw of Briscoe received a message from the War Department Saturday night stating that their son, Pfc. Odis McCraw, was seriously wounded in France Oct. 21. Pfc. McCraw has been overseas since August 15th and was with the Infantry. Entering the army in January 1942, he took his training at El Paso, Camp Haan, Calif., and Camp Carson, Colo. He attended school at Briscoe and his wife, the former Wilma Dale McDonald, who now resides in Amarillo, is a former Briscoe resident. Only last week The Times reported that word had been received that Pvt. B. F. McDonald had been slightly wounded while serving in the army somewhere in Germany. The two young men are brothers-in-law.

Wheeler Students To Get Out Books Again Next Monday Morning

Superintendent Jesse J. Dyer of the Wheeler schools states that the five weeks cotton picking recess for the students would come to an end this week and classes will be resumed on full time schedule next Monday, Nov. 13. The local school has been turned out for five weeks so the students might help in the fields and relieve to a great extent the labor shortage. School busses will make their routes at their regular time Monday morning.

ARRANGEMENTS MADE FOR CROW BLASTING

County Agent Jake Tarter states that financial arrangements have finally been completed for blasting crows in the culmination of a deal worked out with the State Game Commission and the Commissioners Courts of Wheeler and Hemphill counties.

Farmers are requested to watch roosting places for crows and when they have roosted in the same place as many as four nights to report the location of such roosts to the county agent so blasting can be carried on. Tarter stated that it is important that he have some assistance in locating the crow roosts.

A great amount of work is required in building bombs and in running wiring throughout a shinnery patch where crows roost in preparation for the shooting and assistance will be called for by the county agent when assistance is needed. Tarter still requests that no one send money to the county agent's office for any purpose until money is requested.

Soldier Dies Sunday From Poisoning

Pvt. Malcolm Cassel, 25, of Beaumont, soldier stationed at the McLean prisoner of war camp, died Sunday afternoon in a Shamrock hospital.

A verdict of "death by suicide, poison self inflicted" was given at an inquest held by county officials. The youth was reported to have been despondent for some time and had on at least one occasion threatened to take his own life.

Cassel was rushed from a Shamrock hotel to the hospital but medical aid failed to revive him.

LT. WOODY POND VISITS WHEELER RELATIVES

Lt. Woody Pond, accompanied by his wife, returned to Longview Monday after several days visit in Wheeler and Pampa with friends and relatives.

Lt. Pond has been in the U. S. Army since January, 1941 and served overseas nine months with a Tank Destroyer Division. He went into France on D-Day and on June 11th was injured in the side and hip by a machine gun. He has been awarded the Purple Heart.

COUSIN DIES IN DALLAS

Mrs. M. McIlhenny and Miss Blanche Grainger received news Monday of the death of their cousin, Ernest R. Tennant of Dallas. He was widely known as a financier and philanthropist and was an active worker in behalf of underprivileged children.

At Guadalcanal

Guadalcanal—Corporal Melvin M. Baxter, husband of Mrs. Margie M. Baxter of Allison is now on duty here with an Engineer Heavy Shop Company.

Corporal Baxter graduated from high school in Allison, in 1941 and worked for his father until he entered the army in September, 1942. He is now engaged in the maintenance and repair of vital engineer equipment at this Pacific base.

Corporal Baxter received his technical training at Camp Claiborne, (Continued on Last Page)

NEWS OF OUR MEN AND WOMEN IN UNIFORM

Awarded Honors

SGT. W. T. SEITZ, son of Mr. and Mrs. Ernest Seitz of Amarillo and formerly of Mobeetie, has been overseas since last spring and more recently is somewhere in France where he has been in combat service. His parents have recently received word of the following citation of the troop carrier command of which Sgt. Seitz is a member:

"The troop carrier group is cited for outstanding performance of duty in action against the enemy and fearlessly approaching their objectives through a barrage of anti-aircraft fire to lead the troop carrier spearhead of the Allied invasion of Europe in the greatest air troop operation in the history of world aviation despite adverse weather conditions. Personnel of the group unflinchingly discharged their paratroops and released their gliders with extreme accuracy while flying at dangerously low altitude and minimum air speed. Functioning as a perfectly balanced team the carrier group, by its successful accomplishment of these missions in such a gallant and distinguished manner, rendered outstanding service to the army air forces."

Sgt. Seitz finished Mobeetie high school in 1942 and afterwards was employed in a Pampa furniture store until the time for his induction into the army about two years ago.

Awarded Badge

With the 37th Infantry Division in the Southwest Pacific—(Spi)—Corporal Glen O. Render, 37, former clerk at the Citizens State Bank of Wheeler, has been awarded the Combat Infantryman Badge for service in combat against the Japanese.

Render earned the badge—a silver rifle on an Infantry blue field imposed on a silver wreath—for his part in helping defeat Jap assaults on Hill 129, Bougainville Island.

Awarded Citation

An Eighth Air Force Fighter Station, England—Cpl. Lawrence Scribner, 23-year-old aircraft armorer, son of Mr. J. A. Scribner, of Mobeetie, is among those honored by a Presidential Citation of the 4th Fighter Group of the Eighth Air Force, "as public evidence of deserved honor and distinction."

The fighter group commanded by Col. Don Blakeslee, of Fairport Harbor, O., was praised by the citation for "its extraordinary heroism, gallantry, determination and esprit de corps" during the period from March 5 to April 24, 1944, when its P-51 Mustang pilots destroyed 323 German planes, 189 in aerial combat and 134 by strafing attacks.

One of the veteran air combat organizations of the European Theatre of Operations, the 4th Fighter Group is a unit of the 2nd Bombardment Division, commanded by Maj.-Gen. William E. Kepner, and has a long record of bomber escort, ground staffing and dive bombing.

Members of the group, both pilots and non-flying personnel, are entitled by the citation to wear a gold-bordered blue ribbon as evidence of their contribution to the achievements of the Blakeslee group.

At some future time, when other road work is being done by the State (Continued on Last Page)

STREET PAVING IS COMPLETED

FORRESTER EXPRESSES APPRECIATION FOR COOPERATION OF ALL

The Uvalde Construction Company has this week moved men and equipment from Wheeler after completion of rebuilding highway 152 across most of the county and paving five blocks of down town streets.

Mayor R. H. Forrester, in connection with the completion of the city paving job, makes the following statement:

"It is my desire, acting for the City Council of Wheeler, to express our intense appreciation for the spirit of cooperation shown by the people of Wheeler. We found the property owners very willing to allow for changes in plans as well as in price. Without such realization of the position in which the City Council was placed, it would have been impossible for us to have ever made the contract with the Uvalde Construction Company for the paving. The Council through its representatives was placed in the attitude of being a supplicant in as much as the Uvalde Construction Company did not want to undertake the paving but we felt that it was necessary at this time to complete arrangements while the construction company had the necessary equipment to do the work in this vicinity or pass up the chance to ever have such an improvement done to the streets of Wheeler without the expenditure of large sums of money."

"We desire especially to commend the County Judge of Wheeler County and the Commissioners Court for their aid. The county has appropriated and paid the sum of \$2,000.00 on the job. The total cost of the paving was \$11,751.42. Of this total the property owners paid \$6,667.04; The City paid for intersections, etc., the sum of \$3,056.85 and, as heretofore stated, the county \$2,000.00. The sum of \$27.53 is being held by the Citizens State Bank pending the outcome of the north 25 feet of the alley in block 20. The north 25 feet of this alley, because of the break of the water line under it was not, according to the state highway engineer and according to the superintendent of the construction company, such a job as was desired even though the construction company put down an extra layer of gravel in an attempt to make the alley what it should be. This amount of money was placed in the bank for the credit of the construction company provided that that part of the alley was still standing up on April 1, 1945. All other portions of the paving was accepted by the city, upon recommendation of the state highway engineer, as being according to contract.

"Contrary to information current among some of the parties who did not know, the contract with the construction company never did provide for a double shot of rock and asphalt. The city council was advised by the state highway engineer that the city streets did not need a double shot and consequently the contract was signed for only one shot and the construction company completed the job in accordance with the contract.

"In this connection it is the desire of the City Council also to express their appreciation to Mr. H. T. Cunningham for his services as engineer. These services were rendered free because Mr. Cunningham was interested in the improvement of the streets in Wheeler intersecting with the highway. He has spent much time on the grades and on general supervision work in connection with applying the asphalt and rock on the base.

"At some future time, when other road work is being done by the State (Continued on Last Page)

Legionnaires Celebrate; Stores To Remain Open Saturday, November 11

Armistice Day, Saturday, Nov. 11, will be just another Saturday to the majority of Wheeler merchants and farmers anxious to get their cotton and feed harvested. The local Legion is, however, making plans for their annual fish fry and big noon day feed at the Legion Hut. All members of the local Legion, all ex-service men and all service men home on leave in the Wheeler, Kelton, Allison, Briscoe, Mobeetie and neighboring communities are asked to be on hand to take part in the feed and fellowship of all service and ex-service men.

The local bank, postoffice, county offices, Public Service Co. office and county agent's office will be closed all day but grocery stores, dry goods stores, drug stores, implement houses, hardware stores, filling stations, varieties, cafes, lumber yards, and appliance stores plan to remain open to accommodate their usual Saturday trade.

By BOYCE HOUSE

It is encouraging to note that little by little the small towns of Texas are prettying up. Tiny Howe (pop. 546), under leadership of Mame Roberts, is setting a pace for beautification and though it is only a spot on the vast surface of Texas it is one which its own people love and admire. Little in size, it is becoming big in influence as more and more towns through garden clubs and other organizations are beginning to think of beauty and cleanliness.

The big concern of small towns and cities alike is when the war will be over. The next concern of the hamlet is whether its sons scattered all over the globe will come back and be satisfied to live in the community they left. They will return. But it is the job of folks at home to see that they are contented. If the small town cannot offer the returning veteran what the world calls a lucrative job, it can offer him a quiet, clean, beautiful place to settle down, forget what he has been through and enjoy the simpler pleasures which do not come with money.

Unfortunately, too many towns are not that type of place now. They are eyesores. Papers litter the streets. Houses are unpainted. There are no parks. Alleys are filthy. Nature made Texas beautiful, but man has been guilty of making much of it unattractive. The landscape has been marred by mushroom honky-tonks, billboards and filling stations. If the towns will clean up, as did Howe, will build parks, plant flowers and turn eyesores into garden spots of peace and beauty the returning soldier will be satisfied. The same can be said for the big cities. —Dallas News

It's a generally accepted fact that plenty of red tape is involved in the process of mailing a package to a soldier overseas—a request must be received the request must be shown at the post office, etc.; but despite the difficulties involved, people mail about three times as many packages to soldiers as they do to sailors and marines, who can have packages mailed at any time. Cecil Williams over at the post office declares that this ratio works out regularly, and says it just proves that the American people like to do something if it's hard enough to do. —Hereford Brand

Few people living in this part of the state realize that the nation is looking toward this section as the only one in the country that will eventually be able to produce cotton so economically that the export can compete with low labor costs of Brazil, India, Egypt and, soon, Russia. Mechanical equipment to do away with labor is being built specifically for the cotton territory north and west of Wichita Falls. It has been found that cotton can be brought to maturity in Northwest and West Texas at a far less cost than in any other cotton belt in the United States. When costs of gathering are lessened, it is believed that low grades from here can compete with the price demanded by other countries.

A chemical dusting powder is being used that removes all leaves from early cotton, that has matured and then a boll puller will be used. Late cotton loses the foliage after a frost and will be gathered mechanically. The mechanical puller will clean in the field and the cotton will be re-

If his choice lost, then as a member of that body of American citizens, he will do his best to see that the framework of freedom given by the founding fathers, will be supported. Whatever our politics, we are Americans before we are Republicans or Democrats.

Not since Sam Houston's day has a more colorful figure strode across the Texas political stage than "Farmer Jim" Ferguson, who passed away recently.

Tradition says that one Sunday morning, while waiting for his wife to put on a new hat preparatory to going to church, the small-town banker-lawyer made up his mind to run for Governor, financing his campaign with a sum he had set aside with the idea of making a trip to Europe.

He was elected on a platform championing the cause of the tenant farmer. Re-elected, he found himself facing impeachment. According to legend, Ferguson declared that if the Senate removed him from office, he would be an issue in Texas politics for the next 20 years. He was removed and he made the prophecy come true.

Ferguson established a party of his own, ran for President in 1920 and was badly beaten — and it looked like the end of the trail. He ran a butcher shop in Temple, tried for the United States Senate two years later in the Democratic primaries and made the runoff but was defeated.

Next campaign year, he decided to try for Governor but the courts barred his name. He was seated on a baggage truck, waiting for a train, when he told a friend he was going to file his wife's name for the office. "Two governors for the price of one" was his slogan. That — and "vindication." Again, he made the runoff, against the Ku Klux Klan candidate. Former enemies of Ferguson supported Mrs. Ferguson's candidacy against the robed organization and the cry, "Me for Ma," swept the State. Mrs. Ferguson was defeated for reelection by young Dan Moody, the so-called "red-headed" Attorney General—(actually his hair is a light brown; Capitol correspondents should be fitted with glasses). The woman Governor won a belated second term in 1932.

Ferguson's "vest pocket vote" was proverbial. He was especially strong in the rural sections. A stump-speaker said, "You farmers have only three friends in the world—God Almighty, Sears-Roebuck and Jim Ferguson."

Cotton, low grade, from Brazil, can be bought for 9 cents a pound now at Galveston. Cotton growers must make some change in production methods to lower costs for government subsidies cannot and will not go on forever. —Anton Koch in The Quannah Tribune-Chief

RUPTURED?

Experimenting with questionable trusses at the expense of your health will prove costly. See your Physician at once for the proper diagnosis and we will fill his prescription to his entire satisfaction.

If your condition has already been determined and you are not securing the proper comfort or relief, pay us a visit at once and be convinced that under competent hands, truss fitting has been reduced to a science eliminating all guess work.

We feature the famous line of Non-Bald Spot Pad Trusses which hold the rupture with a fraction of the pressure required by other appliances. We also have a complete assortment of Abdominal Supporters, Elastic Bandages, Shoulder Braces, etc.

McDOWELL DRUG CO.

Farmer's Foresight

The farmer is looking ahead, planning along post-war lines, thinking of tomorrow's market, exportation trading and of domestic demands for the future. Feeding the world won't be for so long, for after the fighting, many countries will soon return to feeding themselves. The farmer knows his biggest market is here at home and he wants employment in lines not agricultural to be kept going, since through them he prospers or fails. He knows that at the war's end, there will be a rush to produce autos, radios, refrigerators, houses. So will industry buzz with activity and so will the farmer in his turn, flourish. But after-what? Well, the smart producers know they can't continue indefinitely to make money from the unusual wartime's needs, and they are consequently determining today to keep inflation in hand, starting at home, curbing the buying of goods that costs more, is one way. To buy War Bonds today is a stake in tomorrow when they know that increased taxation must come to pay war costs that must be met. They look about at present machinery wearing out, buildings in need of repair, general equipment needed to be replaced. They plan wisely to put away today this higher income from war to take care of future purchasing. Every farmer hereabouts remembers the rural indebtedness that followed the last war. Never again — and mean it!

Our Local Memorial

What sort of memorial will Wheeler erect as a tribute to those from here who have lost their life in war? Statutes of concrete, plaques of bronze have long stood as timely reminders. Some cities are planning community recreation centers as living, pulsing, things, standing for past glories with a vision ahead. A few centers are establishing scholarships in universities and colleges in honor of boys lost in battle. Many other ways have been suggested. Here, we may not be able financially to complete such plans but we do have it in our power to build a fitting memorial to local heroes. No better than to make this home town to which those lost won't return, a place to satisfy the longing of every boy who WILL come back. Those dead would say that to make the expected beauty and joy of home, to give a chance for a worthy future, to each returning soldier, is not only an obligation but as important a memorial to a memory as any town might conceive. Industry everywhere is busy figuring on reconversion plans, changing over to peacetime production without danger to employment. Big business is determined it will not again reap such an aftermath as followed the First World War. It is the duty of Wheeler to make its own plans, even if all on a small scale, for caring for those soldiers who plan to remain here. Keeping faith is an impressive and tasteful war memorial.

Lend Support

Election Day, another passing of time when those governed step to the polls to elect that many whom they wish to represent them in the nation's capitol. The fanfare over, the bally-hoo and cat-calls dying down, the voter goes home to his cot to pray that this man named President, will lead the country strongly, wisely, that the custodians of all public offices will display character, capacity and integrity. Each citizen wants good government and by voting he has used his influence to try and get it. Such is the way of our Republic.

It was an opposing speaker who angrily declared that there were parts of East Texas where the only name that would get more votes than Ferguson was Levi Garrett, the snuff manufacturer. (To be continued.)

Those folks who used to complain because they never got all of their clothes back from the laundry, now plead with the laundry to keep them on their list.

Why is it that flattery is disgusting when lavished on another but sounds sweet when coming your direction?

DOWN

GO ELECTRIC RATES

"Pre-war quality at pre-war prices" would be welcome right now on your household goods and services. As a matter of fact, your residence electric service has actually been giving you that. Now it goes even further — offers pre-war quality at LESS than pre-war prices!

With the family budget strained by higher living costs, an actual reduction of any item seems too good to be true. But that's what you are getting, on the residential and commercial lighting bills now going out. Now you can enjoy the benefits of electric service, at less cost than ever before.

This saving is yours NOW—and our contribution to electrical living in the post-war world. When better wiring, lighting and appliances become available, you can take advantage of them. The low cost of electricity will make it possible for you to hire electric servants for all your household tasks, and use them freely. In war or peace, you can be sure of getting a bargain when you buy electric service.

Southwestern PUBLIC SERVICE Company

NEWS OF OUR MEN and WOMEN IN UNIFORM

Marilyn Kay Jones has received the following letter from her father, Arnold T. Jones, S2c, who has been in the southwest Pacific since the first of May.

My Dear Daughter:
It seems I can not send you a birthday present so I will write you a letter. I am ashamed of myself for not sending something on your first birthday but under the circumstances I cannot help it. I love you with all my heart and soul and think you are the sweetest and prettiest daughter a sailor ever had. Always remember that your mother and dad were the happiest couple that ever lived one year ago October 30. A sweet little black haired baby girl in the Wheeler hospital was named Marilyn Kay Jones. She had lots of company and everyone was proud of her. Soon she went home and her parents had lots of fun with her when she began laughing.

Then one day her dad was called away to do his part in defeating the Axis. He went through boot camp and came home for a visit when she could hardly sit alone. Now he's been away about six months and his daughter's walking — will soon be talking. Your dad will be thinking of you on October 30 and can proudly say "I have a daughter back home who is one year old today."

Although your brother has gone to his home up above, we will meet him some day and be together again. Our dear Father in Heaven looks over him and takes care of him, like mother looks after you. Be sweet and obey her while daddy is away. There will come a day when daddy will come home to stay — then we'll have a big birthday dinner for you that we didn't get to have this time.

He writes his parents, Mr. and Mrs. A. A. Jones, "I've seen lots of things in lots of different places that I would never have seen had I not joined the navy — but I would give it all just to be back with my wife, baby and folks. But we have a job to do out here and the quicker we get it done the better everything will be. I'll be back one of these days. So keep your chin up and don't worry about me, I'll be o.k. There is a power bigger than any of us that sees things like this through and we all follow Him wherever He says go. Some day I'll be home to plan for the future."

It has been reported that a statue of Marvin Jones was placed in the Smithsonian Institute in Washington this week.

MOVIE CHATTER

(By a Rogue)

Roger Touhy, Gangster
Well, folks, last week end we gave you Preston Foster in Bermuda Mystery and you seemed to like him pretty good. So again we are bringing you the same guy plus Victor McLaglen in Roger Touhy, Gangster. Of course this will be a rough and tumble gangster type picture. It has been a long time since we have given you a straight gangster picture and maybe you are ready for this one. Preston Foster is usually well liked. The date is Friday - Saturday, November 10-11 at the Rogue.

Home In Indiana
Prevue - Sunday - Monday brings Home in Indiana to the Rogue. This is an all Technicolor picture which stars Walter Brennan and introduces for the first time two new starlets, Jeanne Crain and June Haver. And we bet you will be asking for more from the two girls. Home in Indiana is a race horse picture that compares with such outstanding pictures as Kentucky and My Friend Flicka. If you saw either of these you will know what to expect. We frankly tell all our patrons that this is one grand and glorious triumph of the flying hools in gorgeous color. Bring the whole family. We guarantee this picture with all at our command.

Lady In The Dark
Ginger Rogers, Ray Milland, Warner Baxter and Jon Hall will all be at the Rogue Wednesday - Thursday, November 15-16, in Paramount's technicolor production, Lady in the Dark. Again, we say that technicolor is your guarantee of a good picture. Let your own knowledge of Lady in the Dark be your guide. We know that you have read plenty about the picture from the various movie magazines and are, therefore, capable of making the right decision.

The Fred Jackson's have moved to the Nelson Porter home. The Porters now live in Santa Rosa, New Mexico.

Floyd Morris has purchased the Lake place, south of Wheeler, from the Holts.

Ferrell L. Wallace, MM2/c of Camp Parks, Calif. and First Lt. and Mrs. J. M. T. Wallace of Alaska are visiting in the T. T. Wallace home.

Mr. and Mrs. Lem Guthrie were Sunday lunch guests of Mr. and Mrs. Lamar Guthrie in Erick, Okla.

Mrs. Cecil Denson was a Canadian visitor Wednesday afternoon.

Rev. and Mrs. John English, Jerry English and Mrs. J. M. Porter are attending annual conference in Sweetwater. They expect to return Sunday night.

Political bickering sounds juvenile indeed, when it reaches the "you did" and "I didn't" stage.

NUPTIAL VOWS EXCHANGED BY COUPLE IN CHURCH CEREMONY

Miss Barbara Huckabee, daughter of Mr. and Mrs. W. M. Huckabee of Wichita Falls became the bride of Lt. J. M. Tolbert Wallace, son of Mr. and Mrs. T. T. Wallace of Wheeler, October 20 in the First Christian Chapel. Dr. Kelly O'Neill, pastor, performed the ceremony before a lovely background of white chrysanthemums and greenery.

Mrs. Lucile Brooks Huff, pianist, provided a musical setting for the nuptial rites. Violinist was Miss Monterey Lewis of Dallas. In addition to the traditional processional and recessional, the musicians provided a pre-nuptial concert and a muted musical background for the exchanging of the vows.

The bride, given in marriage by her father, was attractive in a suit of blue-grey wool with accents of velvet. Her accessories were of black and included a veiled hat of black felt with sequin trim. Orchids and stephanotis carried atop a prayerbook were her flowers, and she completed her costume with a lace handkerchief as "something borrowed."

Mrs. Theda Carrow of Sweetwater was matron of honor. She was attired in a suit of black, with which she wore a fuchsia hat and other accessories of black. Her corsage was of gardenias.

Best man for the groom was Clinton R. Meek of Wheeler and ushers were R. J. Brown and Leonard Herzfeld, both of Wichita Falls.

A reception at the home of the bride's parents in Wichita Falls immediately followed the ceremony. White flowers were arranged throughout the reception suite with a particularly attractive floral piece of white chrysanthemums as a centerpiece for the lace-covered refreshment table in the dining room.

Presiding at the handsomely decorated bride's cake was Mrs. Edilee B. Fitzhugh and Mrs. T. T. Reese was at the silver coffee service. Signatures of the guests were secured for the bride's book by Mrs. Clinton R. Meek of Wheeler.

For a short wedding trip following the reception the bride chose a Fred A. Block suit of aqua flannel with accessories of black. Her corsage was of orchids.

A well known Wichitan, the bride graduated from the local high school and received her college education in the junior college and in Texas Technological College in Lubbock. The

MRS. GUNTER IS STUDY CLUB HOSTESS

The Wednesday Study Club met this week in the home of Mrs. M. L. Gunter for a program on Great Britain and Her Dominions. Mrs. Floyd Pennington was leader; Mrs. W. L. Williams discussed the "British Isles"; Mrs. George Porter, the "Dominion of Canada" and Mrs. Bronson Green "British Rule in India."

After the program delicious refreshments were served to two guests, Mrs. Weldon Sandifer and Miss Delpha Flanagan and the following members: Mesdames J. W. Barr, Bronson Green, M. L. Gunter, Lee Guthrie, Jimmie Mitchener, Ansel McDowell, Floyd Pennington, H. M. Wiley, W. L. Williams, Harold Nash, George Porter and Buddy Martin.

W. M. U. MET FOR BIBLE STUDY MONDAY

The Baptist Women's Missionary Union met at the church Monday afternoon to continue their study, "A Missionary Tour of the Bible." Rev. P. D. Fullingim had charge of the study.

Others present were: Mesdames T. L. Meadows, Lee Guthrie, Minnie Farmer, Jimmie Mitchener, George Porter, A. C. Woods, C. N. Wofford, Charlie Waters, C. R. Flynt, Arganbright, Raymond Sayer and Louise Ealum.

CLUB MET WITH MRS. COOK TUESDAY

The Stitch and Chatter Club met Tuesday of last week with Mrs. J. F. Cook. The afternoon was spent quilting for the Red Cross.

Those present were Mesdames W. E. Bowen, Frank Noah, Annie Sivage, F. M. Robinson, Bill Black, Cook, S. P. Hodnett and Ayers. Mrs. Bankston and Mrs. H. E. Cole were visitors. The next meeting will be November 14 with Mrs. Sivage.

Mrs. Joe Tilley and Bonnie Rae, Mrs. R. B. Mann and La June were Pampa visitors Wednesday.

groom received his education in Wellington. He worked with W. C. Murray and Son in Byars, Texas seven years before entering the army in 1940. He completed officers training at Ft. Francis E. Warren and has been stationed in Alaska the past two years.

Included in the out-of-town guests for the wedding and reception were Mrs. W. E. Valentine of Dallas, Mrs. J. K. Kirkpatrick, Mr. and Mrs. W. B. Morris and Mrs. R. J. DuPree, all of Temple; and Mr. and Mrs. Clinton R. Meek of Wheeler.

Autumn Smartness

Among the season's smartest new cottons is this beige coat of wide-wale cotton corduroy. Simple severity of the coat is relieved by the slight blouse effect over the belt made of the same corduroy material.

POSTWAR PREDICTION ABOUT ELECTRICITY

Wiring of many farm houses likely will have to be improved as new electrical equipment is obtained by farm families after the war. This statement was made by Mrs. Bernice Claytor, A. and M. Extension Service specialist in home improvement, who spoke to members of the Texas Committee on the Relation of Electricity to Agriculture at a recent meeting on the college campus.

In many homes where there is electricity, lighting can be improved and outlets added for convenience in the post war period. When this time does arrive, the specialist said, the Extension Service will seek to aid families in selecting equipment which will meet their needs and give them the greatest satisfaction and return for cost.

She suggested to research workers that they develop additional accessories for more convenient storage of milk in electric refrigerators. Something similar to vegetable hydrators would be welcome, she said. Since the war, the A. and M. College Extension Service's home improvement program has shifted emphasis from buying and adding electrical equipment to efficient operation and maintenance. Mrs. Claytor reported that schools have been held during the war years to train county home demonstration agents in simple repairs such as adding plugs and repairing and splicing electric cords. Schools have been given in seven of 12 Extension districts, and others have been sought. In conducting the schools Mrs. Claytor has had the assistance of M. R. Bentley, Extension agricultural engineer; and P. T. Montfort, research associate of the college agricultural engineering department.

In some instances, county home demonstration agents have helped rural women map out wiring of their homes and explained principles of the fuse box, facts every homemaker ought to know.

Sunday visitors of Mr. and Mrs. Zack Coleman and Mr. and Mrs. Marl Jaco were Mrs. C. S. Jones and daughters, Mr. and Mrs. Al Shanes, Mrs. Millard Millstead and son of Elk City and Mrs. Alda Niece of Riverside, Calif.

Auto License Plate Rules To Be Modified

The state highway commission announced recently that wartime restrictions will continue to apply to automobile license plates for 1945, said DeWitt Greer, chief engineer, applicants will be issued only a "license sticker" about the size of a postal card. This may be placed on the outside of the car in any prominent place or on the inside windshield as the occupant desires.

After April 1, 1945, all registrants will be issued just one metal plate. This will be about the size of the 1942 license and carried on the rear of the car. It takes the place of the small metal wartime tabs.

Greer said the last legislature authorized the highway department to depart from ordinary rules governing license plates in order to cope with wartime metal shortage.

MOBEETIE HAPPENINGS

By Mrs. F. C. Peace

Fay Bearden was a business visitor in Wichita Falls last week.

Mr. and Mrs. Otis Vernon have moved to Skellytown where he is employed.

Clarence Smith made a business trip to eastern Oklahoma last week. Mr. and Mrs. Tom Arnold of Sunray visited relatives and attended to business here last week.

Mrs. H. A. Heckard and children moved to Wheeler Tuesday.

Rev. and Mrs. Higdon and daughter spent last week with Mrs. Fay Bearden.

Messrs. and Mesdames Edgar Newman, Johnnie Newman, Albert Newman and Raymond Newman and families of Pampa were Sunday dinner guests of their mother, Mrs. Nancy Newman.

Mrs. Tom Lamson left Tuesday for a visit with her daughter, Mrs. Edwin Sleuter of Corpus Christi.

Mrs. Edgar Newman spent Monday with Mrs. Theodore Givins.

Pfc. Barney Lowrie, who has been stationed in Louisiana, is now overseas.

Wilma Dean Patterson of Pantex spent the week end with her parents, Mr. and Mrs. H. N. Patterson.

NEWS IN THE WORLD OF RELIGION BY W.W. REID

"It is said that already the number of deaths in the Bengal (India) famine exceed the total casualties through enemy action during the first four years of war throughout the whole British Empire: that sounds hard to believe, but it is true," reports the Rev. J. H. E. Pearce, of the Bengal Christian Council Relief Committee. "This year rice prices are rising and people in the remote villages are beginning to go hungry and to look for food. More destitute people can be seen in Calcutta, having come in from outside districts. Thousands cannot get medicine, or building materials, or seeds, or bullocks for plowing. . . . We are careful in distributing every dollar in relief money received from America."

The Christian world has lost one of its most liberal leaders, and one whose voice was heard most attentively among the Allied Nations on behalf of a just peace for all mankind, in the recent death of Dr. William Temple, Archbishop of Canterbury and Primate of all England, at Westgate-on-the-Sea in his sixty-fourth year. Dr. Temple had served only two and a half years in this highest post of the Church of England, having previously been the Archbishop of York. His father, the elder Dr. Temple, had also held this highest post — the only father and son combination in the ninety-six churchmen who have filled the office of Archbishop of Canterbury since its inception. In one of Dr. Temple's last messages, he warned against the temptation that might come to the great world powers after the war to take advantage of their position and press economic injustice upon the weaker nations — eventually leading to more warfare.

Fifteen hundred cases of medical supplies, sent by the American Red Cross, as part of a total shipment of 16,000 cases, recently arrived in Chungking, West China, and will be distributed to missionary and other civilian hospitals that are serving the non-military population. The distributing agencies include the National Health Administration of China, the Red Cross Society of China, the International Relief Committee, and the Chinese Ministry of Education. These medical supplies are flown into Chungking via India from the United States.

The Rev. John Brastrup, Danish-born missionary of the Methodist Church in the Belgian Congo, who has recently returned there from the United States and has been appointed superintendent of the Kapanga and the Sandoa districts, is now rebuilding the eight dormitories which will house more than one hundred boys of the Methodist School in Kapanga. There are three large and five small dormitories for the school which draws boys from some scores of surrounding villages among the Mwato Yamvo tribe. Besides the dormitories, Mr. Brastrup is building a social hall and two temporary school buildings. All of these are made of native woods and local clay. Mr. Brastrup has also laid the foundation for a new church building to be made of adobe bricks burned on the Kapanga mission grounds. Dr. Arthur L. Piper, missionary doctor who has been on Kapanga station for more than a quarter of a century, is planning soon to rebuild many of the hospital buildings which have served the people through the years but are now the victims of climatic conditions in the Congo.

Among religious groups recently

MOBEETIE HI-LIFE Items of interest pertaining to the Mobeetie Schools

Staff
Editor, Ray Jones; assistant editor, Leroy Patton; sports editor, George B. Dunn; reporters, Carl Carter, George B. Dunn, Harold Hanning, Juanita Alexander, Betty Jo Brewster, Clea Fae Davis, Freda Eubanks, Dorothy Goodnight, Maurita Lamson, Billie Lou Trimble, Juanita Walker.

The New Library Books
The school has received four new books this week. They are: The Adventures of Huck Finn, Sergeant York, Ramona, Knute Rockne. These books were paid for with the money collected for late books. A student may keep a book from the library one week. If the book is not rechecked or turned in at the end of the week the student pays a fee of five cents. The student pays five cents each day that the book is overdue. Many new books are being ordered with this money.

Believe It Or Not
Mobeetie was well taken care of by spooks Halloween night. Lindy Mason came to school on time Tuesday morning. Mrs. Marchbanks looks like Betty Grable. Some one drove the International bus which has no motor. Juanita Walker was quiet this morning in home room. No one moved Miss Duren's home Halloween night. The Juniors and Seniors get expressing disapproval of compulsory military training in peacetime are noted the Southern-California-Arizona Conference and the New Jersey Conference of the Methodist Church, the American Friends (Quakers) Service Committee, and the Fellowship of Reconciliation. "Nothing would be more ironically un-American than for us to close a war for larger and wider freedom with that system fastened upon our children and upon future generations," said the California-Arizona clergymen.

An interdenominational commission of thirty-four Protestant churchmen, ministers and laymen, headed by Prof. William E. Hocking of Harvard University, has for some weeks been busily engaged in studies designed to "strengthen the purpose of the American people to insure the nation's participation in post-war collaboration." This commission will consider the findings and the reports so far published on the principles and policies for future world organization that have come from such official meetings as that at Dumbarton Oaks and the meetings of President Roosevelt with Prime Minister Churchill, Marshal Stalin and others; also plans that have been advocated for the future control of Germany and of Japan. Under the guidance of the Federal Council of the Churches of Christ in America, the commission will report to "the second peace conference (the first having been held in Delaware, Ohio, three years ago) in Cleveland on January 16.

TOWN and FARM in WARTIME

Prepared by OFFICE OF WAR INFORMATION

Reminders

Meats, Fats — Red stamps A8 through Z8 and A5 through P5, good indefinitely. The four red stamps validated October 29 totaling 40 red points will have to last for at least a 5-week period. No new red stamps until December 3.

Processed Foods—Blue stamps A8 through Z8 and A5 through W5, good indefinitely. No new stamps until December 1.

Sugar — Sugar stamps 30, 31, 32, and 33, each good for five pounds indefinitely. Sugar stamp 40, good for five pounds of canning sugar through February 28, 1945.

Shoes — Airplane stamps 1, 2, and 3, in book three, good indefinitely.

OPA To Help Locate Cars

Holders of certificates for the purchase of new cars can get help from the Office of Price Administration in locating that automobile, that Agency announces. Any certificate holder having difficulty in laying hands on a car is urged to write OPA, Inventory and Control Branch, Empire State Building, New York 1, N. Y. The records of that office will be made available to assist the buyer in locating an automobile.

At the same time OPA will require all automobile dealers to post lists of their current inventory of 1942 cars held for sale and dealers who refuse to sell to a buyer who has the cash and required papers may be barred from dealing in any cars rationed now or in the future.

November Tire Quota Increased

The November quota of new automobile tires allocated by the War Production Board will be 1,850,000 or 250,000 more than in October, it is announced by the Office of Price Administration and War Production Board. "As near as we can tell, this quota should satisfy normal November replacement needs of eligible B and C ration holders," Max McCullough, Deputy OPA Rationing Administrator said. He pointed out that the ration quota this month makes it "clear that recapping will still be necessary for most motorists if they are to keep their cars in operation." Unfilled B and C tire applications, needed increases in dealer inventories and a higher production rate are required before A ration holders can expect new tires.

Paper Shortages To Continue

The public can expect no relief from existing paper shortages until about the middle of 1945 because of the heavy wartime requirements of newsprint, magazine and book paper and the manpower shortages in this industry, the War Production Board reports.

OPA Consumer Notes

The basis for a nation-wide reduction of consumer prices on cooked corned beef expected to be at least 10 cents a pound and greater in some instances—was set by issuance of

Army Doctor Recruitment Ended

Recruitment of civilian physicians for the army has been discontinued, according to information received from the War Department by Paul V. McNutt, Chairman of the War Manpower Commission. At the same time, Mr. McNutt said that recruitment for the Navy must continue since it has urgent need for approximately 3,000 additional medical officers. The Public Health Service of the Federal Security Agency and the Veterans Administration are also continuing to recruit physicians.

Less Dusty Roads In Prospect

Prospects of less dusty intermediate and county roads next spring and summer are decidedly improved as a result of action by the Petroleum Administration for War in permitting the use of residual fuel oil for road building and maintenance. The permission applies to all parts of the country except the west coast. This action is possible because of current supplies of residual oil. The restrictions were lifted at this time to permit states, counties and local governments to plan year's road programs now.

Ships Named After Great Americans

The names of three great Americans, Wendell L. Willkie, George W. Norris and Alfred E. Smith, will be honored by being given to three new liberty ships now under construction, it is announced by the United States Maritime Commission.

The Times War Time Reporter Says

Folks I'll tell you:

I was just a settin' here thinking about the power of love. You know love is something you just can't sidetrack. It is a force you can't handle. I remember one time my Grandma was hunkered down between two corn rows a filing her hoe when the love bug bit her. She didn't say a word, she just dropped that hoe and file and started on the look for Grandpa.

And she finally found him in under a shade tree asleep and I want you to know she hunkered down right beside him in that sand and put her arms tenderly around his neck. And she says, "Paw, I didn't marry you for looks for God knows you ain't got 'em. I married you for your love and nothing else." And I want you to know the power of her love was so strong that Grandpa crawled out from under that shade tree and went out in the hot sun and filed her hoe so that she would go back to work. My little poem today will be:

Louisiana and Fort Belvoir, Virginia and left for overseas duty with his organization in January, 1944.

Graduates in Radio

Bluejacket Ward Stephens, 22, of Twitty, received recognition as eligible to qualify for the petty officer rate of radioman third class during graduation exercises recently held at the Naval Training School (Radio) on the Northwestern University campus, Evanston, Illinois.

Selection to attend the specialty school is based on recruit training aptitude test scores. The completed course of study included the use, operation and maintenance of radio equipment and the operation of Navy radio transmitting and receiving equipment. The theoretical phase included electricity and radio fundamentals.

The newly graduated man is now awaiting further duty orders to sea or to some shore station.

Week end visitors of Mr. and Mrs. E. Tillman include: T. Sgt. R. L. Tillman and Charles Fulton of McCook, Nebraska; Mrs. L. D. Broome and daughter of Borger; W. E. Tillman and family of Lefors and Mrs. Geneva Sansbury of California.

Mrs. Ruth Wiley, who has been with her husband, Pfc. Max Wiley, in McCook, Nebraska, is expected home Sunday night.

David Britt left today for a visit with relatives in Dallas.

Street Paving

(Continued from Page One)
Highway Department, it is hoped that the city can obtain some more cheap paving in other places that need it and on other streets that bear a good percentage of the burden of travel in the city. Wheeler is showing the spirit of progress and that is the spirit which makes a town fit to live in."

The following recommendation has been received by the city council from H. T. Cunningham, resident engineer of Texas Highway Department:

"The improvements in the city of Wheeler constructed by the Uvalde Construction Company having been completed, you are authorized to make payment to them covering the square yards shown on the sketch in your office.

"The bituminous material used in stabilization of base was above the minimum amount required.

"The asphalt used in surface was approximately 500 gallons above the minimum amount set out in contract.

"The aggregate used as cover material was also above the minimum amount set out in contract.

Yours very truly,
H. T. Cunningham,
Resident Engineer,
Texas Highway Department.

We Fill Any Doctor's Prescription
ANSEL McDOWELL, Manager-Pharmacist Phone 11—Wheeler

Silage Makes Good Feed

Feed in a silo will keep indefinitely, says E. R. Eudaly, dairy husbandman for the A. and M. College Extension Service. Some make better silage, but anyone which cattle will eat is good filling for the silo.

It is not necessary to have a big crew and fill the trench in a day or two, Eudaly explains.

A farmer with one helper could fill a 20-foot section of a 100 by 6 foot trench in three days by putting down a two foot layer daily. In this way the trench could be filled completely in 15 days, using a cutter or by "shingling" in the bundles. In upright or pit silos, however, bundles could not be used.

Groups like corn, grain sorghums and sweet sorghums may be handled in the same manner for making silage. Other crops or groups, require

different treatment. If any of the former group is destined for the silo immediately after cutting the grain should be in the stiff dough stage. If the majority of the leaves are a healthy green and chopped into one-half inch length or less, no water need be added. If the feed is put in bundles enough water should be added to dampen it.

On the other hand if the majority of the leaves are dry and little juice is in the feed, bundles should be wet thoroughly. The protein content of corn and grain and sorghum in the stiff dough stage is five to six per cent. To increase the protein, cut the sorghums in the bloom stage and the corn in the milk stage, and allow them to lay in the field until about half dry enough to bale for hay. When in the trench add enough water to dampen it.
