cwe—
Mary Hall and Kyle Zybach were named to the All-Star First Team.

cwe—
Heather Dean, Sharisa Mong and Eric Laughlin were named to the Second Team.

cwe—
Stephanie Forgay received Honorable Mention.

cwe—
The measured moisture for the last part of last week was 0.34 and 0.98 inches, Thursday and Friday morning measurements.

cwe—
Proof in the variation in moisture measurement was visible Monday night as we returned from playing cards. The ground was lightly powdered on the north end of town and on the south end one questioned if it was even snowing.

cwe—
The snow and rain was not enough to measure Tuesday morning. The moisture continued throughout the day. 0.16 inches was measured Wednesday morning; most of that was in the form of drizzle.

cwe—
We had a few short periods of heavy snow. I had thought I might try to capture the heavy snow on camera, but it had stopped before I could make the attempt.

cwe—
Congratulations to the students

Happy Anniversary: to Rev. Ralph and Mary Hovey on February 28th, to Steve and Samie Corse on March 4th, to Rayburn and Geneva Corcoran on March 6th, and to Mike and Sherry Wash on March 7th.

Our sympathy goes out to the family of little Derrik Alton Marshall and their friends in his death.

These precious little ones have a special way of touching so many hearts and lives.

Our sympathy also goes out to Clifford and Euline Waiser and the family and friends of Clarence Waiser with his death February 20th. His services were held Saturday February 22nd at the Church of Christ in Wheeler.

Clarence's wife Mamie passed away in 1988. They raised their four boys in southern Hemphill County.

Clarence is survived by sons Melvin, Eldon and Weldon all of the Canadian area and Glen of Duncanville. Also eleven grandchildren and ten great-grandchildren.

Brother Bill Morrison of Wheeler, Alfred White of Claude and Mike Heatwole of Canadian officiated at the service. Burial was at Canadian.

Clarence will be missed by many. The rain last week was wonderful. We only registered 1.65" here at the house. But others in the area got over 2". It came so nice and slow and soaked in.

After so many nice days last week. This cold spell is hard to accept again. That 45 degrees - 50 degrees weather had us spoiled. Sunday the clouds and cool wind blew in. Of course it had to blow most of the night. Monday stayed cold and windy. It barely made it to the mid-20's. Just waiting for the snow that the Amarillo TV Channels are predicting.

Good to see Pierce Walker feeling better. He felt well enough Wednesday to go with Aline to see Nettie. She was doing pretty well and glad to see Pierce.

Our little Harley had scarletina last week, so she got to spend some time with Grandma and Grandpa. She didn't feel too bad, just sort of itchy and sunburned looking. She took her antibiotic quite well as long as it was in a dropper. And she knew Dr. Powell gave this to her. She likes Dr. Powell.

Sorry the Allison Antelopes lost to Gruver the 21st. Good job though.

Nice to hear from Tia Boydston. Neal had been home Saturday so that brightened the girls week. They are all doing well and getting ready for church.

Corrina's and Kendra's pictures were so cute in the paper. They were each featured in the "Citizens of Tomorrow" the Feb. 13th and Feb. 20th issues.

Sorry to hear Andy Eubanks of

Canadian had the balloon surgery on a couple of arteries to his heart last Thursday in Amarillo. Glad to hear it went so well and he is recuperating at home.

Andy was the speech therapist for the Mobettie Independent School District for many years.

Good to hear Estelle Hodges sounding so well. The nurses released her from the home health service last Wednesday. Her leg is finally all healed up. Estelle is feeling stronger everyday.

Audrey Seitz was over Monday. She is working on her periwinkle quilt top. It is going to be beautiful. They trade quilt squares and had a wonderful visit.

Glen said they got 2.35" of rain last week. It was really appreciated. Friday was the beginning of a won-

derful weekend for Tommy and Christy Forbes and Ryan. Christy's mother, sister and her children came for a visit.

Christy's mom, Margo Gott, lives in Las Animas, Colorado. Her sister, Melinda Metzger, and children are from Colorado Springs, Colorado.

Ryan and his cousins, Melissa and Joshua are all about the same age. So they were a lively crew and had a great time together.

Grandma Gott gave Ryan his belated Christmas present. (It was definitely worth waiting for.)

Ryan is racking up the miles on his new bicycle. Grandma Gott knew Ryan's favorite color is blue so he is sporting a sharp looking blue and black bike.

While the weather was so nice the kids all played with the remote control vehicles. They kept Tommy busy playing mechanic on them. They'd forget that remote controls aren't waterproof. Saturday was ladies day out. Tommy was "Mr. Mom" while the gals had a great time shopping and visiting. Even shopping in Pampa is a treat. Margo and Melinda.

Margo and Melinda made it home safely Sunday. They hit snow in the Oklahoma Panhandle. But the roads were good all the way home.

Canyon City had gotten 22" of snow Saturday and Sunday.

There is one "happy Chappie" in Mobettie that doesn't miss that weather at all, or having to get out to work in it.

Please keep Tommy in your prayers. He's still having alot of pain from his back injury. The pain is always there. Just some days worse than others.

Put March 6th on your calendar to hear a real blessing. Rev. John Catt will be witnessing and doing a concert at the First Baptist Church of Pampa.

Hunter Brice got to spend the weekend of Feb. 16th with Grandma and Grandpa Moffett. They really enjoyed his visit. He's one busy, inquisitive little boy.

Grandma and Hunter stopped in Pampa on their way to take Hunter back to Amarillo. They visited with Aunt Sheila and Ann Touchstone. Ann accompanied Alesha and Hunter to Amarillo.

Ann and Alesha went by for a quick visit with "Nanny" Margaret Moore. Ann is such a little character.

Never a dull moment around Ann and Hunter.

Alesha's mother, Margaret Moore, is doing quite well this winter.

Glad Ray and Velma Forbes are feeling a little better. Ray has already started working on rototillers and lawn mowers. People are getting smart and getting their stuff serviced and in shape before the spring fever really hits.

It was nice to see Connie Reeves with her daughter, Melanie Ellison and children Erica and Garrett having lunch at Furr's in Pampa Thursday. Such a beautiful family.

Harley kept an eye on Erica and Garrett.

Saturday Robert, my mom and dad and I all went to Amarillo for a little shopping and even got to see a movie.

We saw "Mother" with Debbie Reynolds. It was sort of cute. It may be a little too much like real family life for some people.

Now we're waiting to see "The 6th Man" a basketball comedy.

Sunday, mom and I went to the Hunt Memorial Methodist Church. Steven Gaines is the pastor there. (He has several aunts, uncles and cousins in the Wheeler area.) He is one preacher that you won't sleep through his sermon. And a person always leave with something to think about.

Bob's brother, Albert, from Tucumcari, New Mexico has been visiting in Cheyenne, Oklahoma. He came by and spent the night with us on his way home Friday. I think he was anxious to get back to Tucumcari and his "real life" Saturday.

Patsy and David Howard are getting settled into their new home in Fort Morgan, Colorado. They said to greet all their friends. So hi!

David is getting settled into his job as a senior plant operator at the Colorado Interstate Gas Plant. David has also got several projects going at their new home. He's a very talented Mr. Fix It and a gifted wood craftsman. David is putting in new cabinet and windows in their new home.

Patsy stays busy trying to keep everybody's schedules straight. She's currently typing the recipes for the Brownlow Family recipe book, a junior Girl Scout assistant leader and unit coordinator for the cookie sales for the whole Fort Morgan Girl Scout Council.

Mendee is a 5th grader and involved in just about everything. She is continuing her piano lessons, has taken up the clarinet with school band, is learning to play the bells in the church bell choir, she sang 2 solos in the Christmas musical "Angels Aware". She had taken art lessons and gymnastics in Larkin which has really helped her. Mendee is taking a computer programming course after school, participating in the puppet ministry and American Baptist Girls in their church and continues developing her swimming skills. Last summer

Allen is already a 2nd grader. He also participated in the "Angels Aware" as the presenter of the third of the Ten Commandments. He is learning to like school and is picking up some wonderful reading skills. Allen has adjusted to "having" to play with the girls. Because most of his playmates are girls in their new neighborhood.

The Howard house in Lakin, Kansas is presently under contract with the renters with an option to buy. (Another of the blessings the Lord has showered on the Howard family this year.)

Welcome to Stacci Kinnamorff and her family. They have moved to one of the larger school houses.

Our little community is definitely not growing. As we welcome Stacci and her family the Vasby's and the Bails moved on. We wish them good luck.

It's encouraging to know that there are government grants out there available to maybe help us get our streets paved, an emergency siren system and maybe even some such needed equipment for the city and the volunteer fire department.

All this and more maybe made avail-

Congregational Concerns:

On this coming Sunday morning, March 2nd, a fellowship luncheon will be held in the multi-purpose building at the conclusion of the morning worship service.

Doyle Ramsey is hospitalized in Baptist/St. Anthony's Hospital in Amarillo. He will probably have surgery later this week.

Sympathy must be expressed to the family of Clarence Waiser. Clarence died last Thursday evening in Amarillo and his funeral was held last Saturday afternoon in Wheeler.

From The Minister's Desk:

When I was a student at Abilene Christian College in 1960's, I was privileged to meet several outstanding preachers. One of these preachers was Marshall Keeble, a black preacher who preached for churches of Christ in Tennessee.

Mr. Keeble was an excellent Bible student who participated in numerous religious debates during his ministry. In these debates, he often used his keen sense of humor to emphasize or illustrate a Biblical truth.

For example, he once had a debate with a preacher who had been a farmer until he had an experience which directed him to become a preacher. When this preacher was asked by Mr. Keeble to describe this experience, he said that he was working on his farm when he saw some clouds in the sky which formed the letters, "G. P. C." He then said that he interpreted these letters to mean that he should "go preach Christ". With one humorous question, Mr. Keeble refuted this preacher's contention. He asked: "Sir, how do you know that "G. P. C." did not mean, "go plant corn"?"

With this one question, Mr. Keeble clearly showed the foolishness of a faith that allows an emotional experience to be its authority. The apostle Peter also recognized the foolishness of such a faith because he wrote: "We did not follow cleverly devised tales when we made known to you the power and coming of our Lord Jesus Christ, but we were eyewitnesses of His majesty. For when He received honor and glory from the Father, such an utterance as this was made to Him by the majestic Glory, This is My beloved Son with whom I am well-pleased, and we ourselves heard this utterance made from heaven when we were with Him on the holy mountain." (II Peter 1:16-18)

In this text, the Apostle Peter apparently referred to an emotional experience that he had during the ministry of Jesus. This emotional experience is vividly described in the seventeenth chapter of Matthew which says: "Jesus took with Him Peter and James and John his

brother, and brought them up to a high mountain by themselves. And He was transfigured before them; and his face shone like the sun and His garments became as white as light. And behold, Moses and Elijah appeared to them, talking with Him. And Peter answered and said to Jesus, Lord it is good for us to be here; if You wish, I will make three tabernacles here, one for You, and one for Moses, and one for Elijah. While he was still speaking, behold, a bright cloud overshadowed them, and behold, a voice out of the cloud, saying, This is My beloved Son, with whom I am well-pleased; listen to Him." (Matthew 17:1-5)

Peter had an incredible emotional experience. He had seen the transfiguration of Jesus. He had seen Moses and Elijah. He had heard the voice of God. But Peter did not allow this emotional experience to be the authority for his faith. Rather he wrote: "And so we have the prophetic word made more sure, to which you do well to pay attention as to a lamp in a dark place, until the day dawns and the morning star arises in your hearts." (II Peter 1:19)

Notice the first part of verse 19. What did Peter mean when he said: "We have the prophetic word made sure?" Peter realized that the inspired Scriptures was a more trustworthy authority for his faith than any emotional experience that he could have. Some other people need to come to this same conclusion. Instead of having a faith that is rooted in the Scriptures, these people have a faith that is rooted in the emotional experiences that they have. Then these people either mangle the teachings of the Scriptures to fit their experiences or they completely ignore the teachings of the Scriptures.

Emotional experiences are the natural outgrowth of a genuine faith, but these experiences must never become the authority for faith. When emotional experiences become the authority for faith, it will be a faith that is characterized by speculation and error.

Deuteronomy 4: 39-40: "Know therefore this, and consider it in thine heart, that the Lord he is God in heaven above, and upon the earth beneath; there is none else.

"Thou shalt keep therefore His statutes, and His commandments, which I command thee this day, that it may go well with thee, and with thy children after thee, and that thou mayest prolong thy days upon the earth, which the Lord thy God giveth thee, forever."

A cloudy cold winter Monday morning here in Allison, the weatherman says possibly snow.

My overnight guests last Saturday night were Darrel and Johnnie Harrison from Amarillo. We attended church Sunday morning and then and Louise Boydston went to Elk City after church to attend Margie Clay's 100th birthday celebration.

Opal and Juanita Boydston were last Thursday evening supper guests with Vance and Caroline Boydston, last Saturday. They were supper

guests with Neal and Tia Boydston and girls. On Sunday Sylvia Brown from Wheeler was dinner guest with Opal and Juanita. In the afternoon they all went to Reydon to Mary Hartleys 83rd birthday celebration.

DRIVERS HAVE RESPONSIBILITY WHEN THEY GET BEHIND THE WHEEL

Chances are that the majority of citizens over the age of 15 spend part of every day in a car — driving to school or work, riding with friends, or going places with family members. Since motor vehicles are such a large part of everyday life, vehicle occupant safety should be a top priority.

Department of Public Safety records indicate that the majority of motor vehicle crashes are due to driver error. What can be done to reduce driver error? Reducing driver error must start with individual drivers pledging to buckle up and not drink and drive.

First of all, it is recommended that all occupants buckle up. When worn correctly, safety belts reduce the chance of death or serious injury by about 50 percent.

Lap/shoulder safety belts provide more protection than lap belts alone. Lap belts must be worn low on the hips, not across the abdomen. The pelvic bones help to distribute the force of a crash. The shoulder belt should be worn over the shoulder and across the collarbone in a diagonal direction. Never put the shoulder strap under the arm or behind the back. Everyone should remember that safety belts are the primary restraint and should be worn even when the vehicle is equipped with an airbag.

Impaired driving is one of the leading causes of death in America. All individuals who choose to drink should find alternate transportation. Individuals can take a cab, bus, or call a friend to drive them where they need to go.

Choosing a designated driver is important if one chooses to drink. Cities have designated programs for individuals at reduced cost. Nothing can ever make up for the devastation an individual will feel if he or she causes a fatal crash. An excellent slogan to remember is: "If you drive don't drink. If you drink don't drive."

Always remember drivers have the responsibility of keeping themselves free of alcohol and having everyone in the vehicle buckle up every time. Think of all the lives that can be saved by increasing seat belt usage and decreasing drunken driving.

To The Editor
The Wheeler Times
Wheeler, TX 79096

I am writing a short history of my father's family and find that I need the help of some Wheeler County residents.

My father and mother, Gorden Gatewood and Retta Thompson, respectively, met while teaching school at Dixon. Daddy later taught one year at Gageby/Nubbin Ridge also.

If one of your readers could provide to the following address a photograph of either of these schoolhouses, I would certainly appreciate it.

I would also like to have a picture of the Mt. Zion school because one of my aunts, Gracie Thompson, taught there.

Very truly yours,
Mr. John Gatewood

LA RESPUESTA QUE PIENSA DE TU PAPA?

En la Biblia encontramos un consejo y a la vez un mandamiento para los hijos 'Honra a tu padre y a tu madre Exodo 20: 12 'pero hoy en dia estamos en la era de 'la rebeldia' y los hijos creen saber mas que los padres por lo cual les es dificil tomar los consejos paternales por lo cual tambien sufren muchos descalabros de la vida y para cuando se dan cuenta de que 'el viejo tenia razon para muchos ya es demasiado tarde; Esto es lo que piensa el hijo del papa.
"A los 7 años: papa es un sabio todo lo sabe.
"A los 14 años: papa esta equivocado en lo que dice.
"A los 25 años: papa es anticuado no puede entender que estamos viviendo tiempos modernos.
"A los 25 años: 'el viejo' realmente no sabe nada.
"A los 35 años: Con mi experiencia mi padre a mi edad hubiera sido millonario pero no lo penso.
"A los 45 años: me dan ganas de consultar a papa en este asunto 'tal vez pudiera ayudarme'.
"A los 55 años: 'Que lastima que se haya muerto papa la verdad es que tenia muy buenas ideas'.
"A los 60 años: 'Pobre papa era UN SABIO que lastima que yo lo haya comprendido muy tarde. Querido amigo si esto te ha puesto a pensar y aun tienes tus papas Honralos, Amalos y sobre todo dales de tu tiempo ahora que que todavia los puedes disfrutar. Sweetwater News

By Lois Flowers

Most wonderful news is the rain. Our gauge showed 1.7. Amounts varied around. We are truly thankful. Maybe the fire hazard will abate a little. Our volunteer fireman went to two these last few days. One was the home of Mike Smith south of Cheyenne which was completely destroyed. The other a grass fire south of the Lonnie Isch place. Some said this one was started by a cigarette.

Artie Fuchs was honored on her 90th birthday Saturday. Over 100 attended including our little 104 year old neighbor, Birdie Whipkey. She and Artie were county club members and friends many years.

E. L. and Wilma Fowler visited in the Geneva Fuchs home Friday. Home for Artie's party were Curtis Fuchs and family from Stillwater where he is a professor. And Jerry and Rita Wilson from Anchorage, Alaska.

Our Junior kids played Carter Monday night and Merritt B teams Tuesday night. The boys were elated to win two games in a row. The girls lost one and won one. Coach Gary Pasby took them to McDonalds for a treat. On the boys team are Trampus Fowler, Chris Dolloff, Jeremy Henson, Brian Cox, Nathaniel Quinn, David Alexander, Ricky Hanson, Brian Curtis Chandler, Shane Yarbrough and Chase Arrington.

On the girls team are Lindsey Anderson, Cassie Perry, Joni Perry, Lindsay Coffey, Mindy Cappleman, Margie Banks, Terri Calverley, Bailey Davis, Carlie Humphrey, Tandra Jones, Jana Hanson and Kim Gracey. Jennifer Alexander and Amber Anderson went along as Cheerleaders.

The senior teams beat Blair Thursday night and the girls will play Seiling and the boys Minco Saturday at Weatherford.

The Sweetwater Baptist church will have Revival Services March 2-5, 1997. Services will begin at 11 am Sunday morning and 7 pm each evening. The visiting evangelist will be Chuck Hampton from Mississippi, and Brad Spitzer of Sayre will be leading the music. There will be youth fellowships after the March 2 and 5 services. The public is invited.

We went down to Elk Monday to let Dr. Morrison check and count my teeth. Visited with them and Linda Nix, Mrs. G. R. Buckner, Mamie O'Neal and Mrs. Fount Hudgins.

Had bad news last week. Got a letter from the sister of penpal Dorothy Best in Cornwall, England telling me that Dorothy died and her funeral was Feb. 14. Dorothy and I had been writing for almost 50 years. One time her husband gave her a call to America for a birthday present and we had a visit. I will miss her.

Also heard that our friend Margaret Boney, Bethany had fallen and broke her left arm. Cousin Myrtle Flowers in CA fell and broke both arms. She visited during the summer. Is 90 years old.

It is odd how they O. J. ed us to death for about 2 years and no one remembered about the pictures of his feet they had taken till the big money came along. I never did believe he was guilty and still don't.

Anyone who gives the matter a second thought knows that if things had been reversed - O. J. a white millionaire that a criminal court had declared innocent of murder and a second court deemed him a fit parent to have his children - and the Browns and Formans had been colored folks trying to get his money - that Civil trial would never have taken place.

Gail and Billy Sutton spent the

listed on the Honor Rolls for the fourth six weeks. The 96-97 school year is flying past.

—cwe—
We are in need of more pictures for Eastern Panhandle. Let's see how those youngsters have changed since the last time we ran their pictures. Please send us your latest picture of the children, grandchildren or greats.

—cwe—
'Wife #2' surprised us with a short visit Tuesday afternoon. Inez Erwin was on her way back to Amarillo and had not had the opportunity to wish me happy birthday—we were out of town when she called.

—cwe—
We ended up in Oklahoma City last Friday and Saturday to offer Jennifer moral support in getting over the Crud of '97. She is still working at getting over it but I am sure the visit helped.

—cwe—
We were in Hinton Saturday evening for the card games; Jennifer needed her rest.

—cwe—
Yes, more cards on Sunday.

—cwe—
Monday night's games were in my team's favor; which only leaves Barbara, Patsy and Mimi seeking revenge. Way to go, Jane and Mike.

A variety of homestead exemptions could lower your property taxes!

A homestead exemption lowers the property taxes on your home by lowering its taxable value. If your home is valued at \$50,000 and you receive a \$5,000 homestead exemption, your home will be taxed as if it were worth \$45,000.

Who qualifies for an exemption?
Anyone who owned a home on January 1st (and used it as their primary residence on that date) is entitled to a \$5,000 homestead exemption to lower their school taxes this year...and it doesn't matter if your home is a house, condominium or mobile home. (Counties, cities and special taxing districts may also offer homestead exemptions.)

Are other exemptions available?
If you're disabled—or if you're 65 years old or older—you are entitled to an additional \$10,000 school tax exemption on your home. And if you qualify for the over-65 exemption, you're also entitled to a permanent, locked-in "ceiling" on the school property taxes on your home. (The ceiling does not apply to county or city property taxes, and those entities may offer other exemptions.) The over-65 homeowner's exemptions and school tax ceiling transfers to the surviving spouse, if the spouse is 55 years of age or older at the time of death and lives in and owns the home.

Do I have to apply each year?
No. If you had a homestead exemption on your home in 1996, you won't need to reapply for 1997 unless your chief appraiser requires it. However, if you haven't received an exemption on your present home—or if you've moved to a new home—you'll need to file for an exemption for 1997. And if you turned 65 or became disabled during 1996, you need to file for the additional exemptions.

When and where should I file?
File applications by April 30 at your appraisal district office. If you need more time, contact us at:

Sure is good to hear that Cathy Hunt is doing so well after her back surgery. Just have patience, Cathy. Don't try to do too much, too soon.

—Sure hope this surgery gives you a lot of relief after you heal. You're in our prayers.

Good to hear Charlotte sounding pretty good. She's planning on staying close to the fire.

This cold, blustery weather, blowing in sure has set off the ol' arthritis. Earl Corse is back home at Dumas and doing quite well. He is still awfully weak but not in pain.

Sam, Amanda and Jayton Childress, Nancy Shelton, Tim and Sallie Adcock met Jackie Don's at Pampa Pizza Hut to celebrate Peyton's 4th birthday Thursday, Feb. 13th.

Silent Partners Shield Livestock

Silent partners to cow/calf producers in Wheeler County are shielding livestock while increasing profits.

Livestock windbreaks, multiple rows of evergreen and deciduous trees and shrubs, are increasing cattle weight gains and reducing mortality rates by buffering cattle from harsh weather conditions, according to Robert Fewin, Texas Forest Service (TFS) area forester, Lubbock. During winter months, cattle hidden in a "L" or "U" shaped multiple row windbreak are allowed to utilize their energy to continue gaining weight rather than expending it to keep warm. And as a result, the amount of feed afforded by the producer is reduced as well.

These living cattle shelters also provide livestock shade during the hot summer months.

Three to four row windbreaks containing two rows of evergreens and a windward side shrub row will enhance the overall performance of the break, Fewin said. Depending on the number of cattle using the barrier, the planting should be at least 750 to 1,000 feet in length.

M&F Feedlot owners and operators, Frosty and Margaret Freese of Plainview, planted two livestock windbreaks, a three and four row break, to prevent a repeat of the past and prepare for their future in cattle.

"Blowing snow out of the northwest blinded our cattle for three to four days. We had to do something if we were going to be in the cattle business," said Frosty Freese, who along with his wife Margaret, feed Holstein replacement heifers, Holstein calves,

mother cows, and steers in their feedyard.

To ensure maximum performance from a livestock windbreak it is essential that it be fenced in from the cattle, according to Fewin. He said fencing prevents cattle from browsing and breaking the lower branches and compacting the soil over the tree roots, which can result in tree mortality.

The partnership between the windbreak and the producer is not limited to livestock protection. Depending on the species planted, these living fences provide recreation as well. For example, evergreen rows of Eastern redcedar concerted with a shrub row of nanking cherry create habitat attracting wildlife for the hunter or the observer. And if planted near a water supply will often sustain wildlife populations.

"Trees added to the beauty. They're good place for cattle to get in the shade and good for game," said a Hutchinson County landowner, Wes Balentine. Balentine owns a four row livestock windbreak north of Stinnett.

To create a livestock windbreak this Spring, seedlings, produced by the TFS West Texas Nursery, are available for order through Wheeler County Soil and Water Conservation District. Order quickly. Inventory is limited and planting season is approaching. For more information contact your local district or for assistance in designing and planting a multiple row livestock windbreak contact the TFS WTN at (806) 746-5801.

HOSPICE AWARENESS

In our great-grandparents' time, birth and death were commonplace in the family home and accepted as natural events.

With time and the advance of medicine, birth and death were transplanted to a new and often strange and intimidating environment the modern hospital, where family members were merely guests and control rested with unknown health professionals.

While acknowledging the many benefits of modern medicine, a group of clergy, healthcare workers and other thoughtful people began wondering in the 1970s whether these advances, by depriving the natural dying process of its family ties, hadn't also robbed it of its dignity. Out of their concerns hospice care was born in the United States, and the natural process of dying was returned to the home.

Hospice has experienced extraordinary growth since then, with nearly 2,500 hospices now serving people in every state of the union and the District of Columbia.

Bringing death out into the open and making sickness and loss a time of sharing and remembrance is difficult. And while the hospice experience may not be for everyone, those who choose hospice find the specialness of caring for a loved one and the richness of sharing memories of youth, trials and joys a rewarding experience never to be forgotten.

Dame Cicely Saunders (founder of the first modern hospice, in London in 1968) summed up the hospice philosophy best when she told her patients:

"You matter to the last moment of your life, and we will do all we can, not only to help you die peacefully, but to live until you die."

What Hospice Is Not

1. Hospice is not a place, like a hospital.
2. Hospice is not a place to send people to die.
3. Hospice is not a "death bed" service for people in the last 48 hours of life.
4. Hospice is not a place to send dying patients so they won't have to know what is happening to them.
5. Hospice is not a place to send dying patients to get them out of the way.
6. Hospice is not for everyone.
7. Hospice is not just for cancer patients.
8. Hospice is not a resignation to hopelessness and helplessness.
9. Hospice is not a substitute for the family or the family's care.
10. Hospice is not expensive.

What Hospice Is

Hospice is a way of providing care wherever a patient is - at home, hospital or nursing home.

Hospice is a way of helping people to live out the remaining time of their

ARC of Texas-Wheeler Reports February Meeting

We had our February meeting on the third at the Methodist church, members present were Shirley Tindoll, Dell and Mary Ford and Christie Jones. We were happy to have Kim Moore come, this was her first meeting. Kim had a lot to contribute to the meeting, telling the group about special olympics that her son Jarrett is involved with in Pampa.

We had two girls Valerie Watson and Wendy Umsted take care of the nursery. We really do appreciate these two girls coming.

We discussed Jeff Tate coming in April to talk with the Kitanas. Dell stated that Mr. Holland at the school has given approval for Jeff to do a transition training workshop with coordinators at the school on that same date. Jeff Tate is the ARC of Texas Chapter Services Coordinator.

Our next meeting will be held on March 3 at the Methodist church at 6:00 p.m. Anyone interested is welcomed to attend.

lives with as much comfort and dignity as possible.

Hospice is a comprehensive care program for patients and families which emphasizes quality of life and is the most effective during the final six months of life expectancy.

Hospice is a care system based upon the right of people to know accurately and honestly what is happening to them so they can choose how they want to spend the precious remaining amount of time in the most purposeful and meaningful way consistent with their wishes and needs.

Hospice is a care system which is committed to the provision of support to patients and families to help families deal with the stress of caring for a dying member, and to assist families through the time of bereavement.

Hospice is a system of care which is chosen by some patients and families because it helps them meet their own goals and is consistent with their values and concerns.

Hospice is available to patients of any age, race, sex, or religion who have a disease in its final stages.

Hospice is a way to deal realistically and humanely with one of the great challenges of human life, and offers new perspectives on hope and help to patients and families.

Hospice is a family-oriented program which helps families to care for their loved ones in their place of residence, and provides institutional backup as needed.

Hospice is an alternative system which emphasizes cost-savings by keeping the patient at home, cared for by the family. Medicare and many private insurance companies provide reimbursement for services, and no patient is ever denied care because of inability to pay.

"There remains no known cure for arthritis," Dr. Carl W. Hastings, Reliv Executive Vice President, stresses. "Traditional products on the market simply treat the symptoms, such as pain, and often provide side effects. In stark contrast, Arthrafact is a functional food that focuses on the source of the problems. It is the ideal method for caring for joints and fighting problems associated with degenerative joint conditions, all with no known side effects."

For several years, Arthred has been widely used by thousands of arthritis sufferers and athletes in Germany, where the protein-based substance has been the subject of double-blind, parallel group clinical trials by some of Europe's leading researchers.

Involving hundreds of participants suffering from joint pain, stiffness, weakness, sensitivity to cold weather, exercise pain, fatigue, night pain, swelling, etc., the studies demonstrated significant improvement in each area among those whose daily regimen included 7 to 10 grams of Arthred. Improvement generally is noticed in one to three months.

The U. S. Food and Drug Administration has approved a protocol for a major study in this country to look at the effects of Arthred on joint problems.
