There will be a lot of 'toe tapping' going on at Mobeetie this weekend.

The Nineteenth Annual Bluegrass Festival starts Friday evening and continues through the weekend.

-cwe-There will be lots of good music.

There will also be lots of good homemade ice cream. The Mobeetie Volunteer Fire Department will again operate the concession stand. -cwe-

The 'family bluegrassers' and their guests will arrive Thursday evening. -cwe-

It is going to be HOT, so keep that in mind and take the necessary precautions.

Wheeler Kindergarten **Enrollment Information**

Any child who will be 5 years old on orbefore Sept. 1, of this year is elgible to attend kindergarten.

Registration packets for children who will be attending Wheeler ISD Kindergarten during this school year are available and may be picked up in the hall outside the superintendent's office on business days.

The required forms included in the packets are: 1. Registration form. 2. Student health information (a two page questionnaire); 3. Home language survey. The parent/guardian must provide all the requested information, including full legal names and the child's social security number, as well as, copies of the child's official birth certificate (state copy - not hospital copy) and immunization records (authorized by doctor of official clinic), before his/her child can be enrolled in

The estimated length of time needed to finish these documents is from 15 to 30 minutes; some of the information required (for example, the date of the last dental exam or the phone number of your preferred hospital) is generally kept with other personal records at home or may even require a call to your family

Because of these factors, coupled with the usual, unavoidable registration "Traffic Jam" of waiting in line to complete the enrollment process. school personnel believed some parents might prefer the option of completing these documents in the quiet and privacy of their own homes. Parents who prefer to wait until registra-

tion day are welcome to do so. Kindergarten registration will be in the school cafeteria on Thursday, August 13, from 8:30 A.M. until 10:00

Reported Incident West of Town **Causes Sheriff Adams Concern**

A trucker reported being pulled over by a young man impersonating an officer Tuesday afternoon. The Wheeler County Sheriff's office in Wheeler was notified of the incident at 4:45 p.m. The location of the alleged stop was approximately 3 miles west of Wheeler.

The gravel truck was traveling east. After being "pulled over" the driver continued through Wheeler and waited until he was almost to the Texas-Oklahoma line before notifying the Sheriff's Department.

The impersonator is reported to have been driving a white Chevrolet pickup with Texas tags. Fifteen to seventeen years of age, the individual of slender build was wearing a white shirt and black pants, and used a hand-held red spotlight to indicate he wanted the trucker to pull over. He flashed what appeared to be a plastic badge bearing the word "Sheriff" and

had a "gun". It was reported the light was knocked out of the impersonator's hand.

Sheriff Jimmy Adams told the Times the incident has been thoroughly investigated. If anyone witnessed the

incident, please notify the Sheriff's office.

Sheriff Adams wants the public notified and ask the Times to inform the public that the Sheriff's Department does not use any pickups for patrolling. The department has a "license and weight " vehicle, a Jeep Wagoneer; it is black and white in

top. Otherwise the department's vehicles are well marked white cars. Sheriff Adams said the department is "assuming" the incident happened and wants the public informed before anyone is "accosted"

The truck driver reported he was traveling east on Highway 152 about Mobeetie when he met the pickup. The pickup turned around and followed the truck several miles before pulling him over 3-4 miles west of

Telephone retiree and bass player, Jim Simmons, (also from Virginia) agrees. "We've all been playing music for what seems like forever," he adds with a typical grin. "Of course forever' is longer for some of us than for others . . . take Jeff, for example he's older than dirt!"

The laughter, teasing, and general camaraderie which spice up a Star Canyon show is no act. Quite simply, what you see is what you get, both on stage and offstage. "We all love music," explains Randy, "and we take it seriously-we just don't take it, or ourselves, so seriously that we can't have fun at it."

The Star Canyon Band is definitely "entertainers;" each member is an accomplished lead vocalist and collectively, they perform some wonderful four-part harmony. Over the past 10 years, they have amassed a large following of fans who readily proclaim these fellows to be "four of the most talented and nicest guys you could ever hope to meet."

So, one might ask, what are four fun-loving "naturalized" Texans from two different coasts doing in the flatlands of West Texas? "Pickin' and grinnin'," says Jeff, "Pickin' and grinnin'.

SUMMER TIME AND BICYCLES As we are in these lazy, hazy days of summer, days are longer, the temperatures are hot, school is out, and children are playing outside. One of the most popular summer activities for children is riding a bicycle. Whether it is a tricycle, bicycle, racer or a mountain bike, motor vehicle drivers must remember to be on the lookout for these young drivers. Drivers must remember to share the road with bicyclists. Sharing the road is critical but drivers must also be alert of the fact that many bicyclists do not know the rules of the road or follow safety practices, especially young children. Young children less than 10 years of age, do not have the skill judgement to cope with traffic.

As a parent, it is critical to teach children safe cycling habits from their first day on a tricycle. Bicycles and tricycles are not toys, they are vehicles that rely on human power to move. Knowing and practicing safe habits will reduce their risks of injury. Wearing a safety helmet is one critical habit that a cyclist needs to adopt.

When children first ride a tricycle, they need to wear a bicycle helmet. If they learn this habit from the very beginning, the more likely will always practice the habit. The risk of head injuries while riding tricycles is real. A recent review of pediatric trauma cases nationwide showed that, although the tricycle population (children under 5 years old) accounted for a small proportion of children with bike-related injuries, their injuries were just as severe as those of older children (5-14 years old). As children move from a tricycle to a two-wheeler, continue to insist on their wearing a bicycle helmet. According to Marlene Albers, Extension Associate with Passenger Safety Education, letting your child choose a helmet is one way to encourage helmet use. Just make sure the helmet fits snugly, covers the forehead and is certified to meet either Snell, ASTM, or ANSII

Head injuries are the most serious type of injury and the most common cause of death for bicyclists. Numerous studies have proven that bicycle helmets work to reduce head injury According to the Texas Department of Public Safety, a total of 60 bicyclists were killed in the state, nine of those fatalities were children ages five to nine. That number may not seem very significant, but if the seriously injured or killed individual is a member of your family or community, your life is affected. Parents and children are both responsible for wearing helmets when they ride.

Once a helmet has been involved in a crash, do not use it again. The damage may be obvious but sometimes it is not. The helmet may have small invisible cracks which weaken the shell. After a crash, buy a new helmet and use the old one as a reminder that helmets do save lives!

It takes time to develop great art. It also takes time to develop children into mature and independent adults. Children have the longest period of dependence of any God's creation. They are dependent upon their family from seventeen to twenty years.

During this period of dependency, parents should carefully train their children, developing them into mature and independent adults. However, some parents are too lenient in their training of their children. Other are too strict. And the results of either extreme are usually disastrous.

When parents are too strict in the training of their children, the children will often rebel, demonstrating the libertine and licentious life-style that their parents sought to prevent. Like nuts and bolts, children can be tightened up too tight. And when they are, there is a point where the tighter becomes

There is no greater art than the development of children into independent adults. And like any other art, this art takes time that consists of Biblical and logical training.

Moving of the Dead from Fort Elliott

This is an excerpt from a letter written by Mrs. Sue Johnson, first wife of the late Jim Johnson. Mrs. Johnson lived near Mobeetie at the time the letter was written. She was a sister-in-law of Mrs. Betty Johnson. The letter is dated July 10, 1892 and was written to a sister in Uz, Montague County, and Texas. A niece Mrs. Maggie Totty Thompson furnished this copy.

"I went a visiting yesterday to the post and came by the cemetery. They have taken up the dead soldiers and moved them to another post. It was the awfulest thing I think. They dug down to the coffins. A man got down and opened them in the grave and would tear all the flesh off the bones

Star Canyon Band to Play at Mobeetie

The Star Canyon Band, one of the most popular bluegrass bands in Texas, will be returning to our area to paticipate in the 19th Annual Mobeetie Bluegrass Festival, July 24, 25 & 26.

The Star Canyon Band, in their eleventh year as a group, have developed their own unique style of music which cannot be easily classified. "Take a lot of bluegrass, soften it up with a little country and maybe a touch of folk music and you've got the general idea," says Randy Blackwood, banjo player, who hails from Oak Harbor, WA. Randy supplements his "bluegrass income" by working for Federal Express.

"We're orphans," jokes guitarist, Jeff Simmons, a native of Virginia and electrician by trade. "We've been disowned by purists of more kinds of music than I ever knew existed! But that's okay," he grins, "we just do our own kind of music our way."

Youth 16-19 can enter tie-down calf roping, ribbon and breakaway roping, barrels, poles, goats, bareback, and bull riding.

Team Ropers will enter at the rodeo and can rope up and back or change partners. It is open to all age groups. Adult-Youth Ribbon Roping and team roping will not count for All-Around points.

"That's what it's all about," adds Virginia-born mandolin player, Joe Kitts, who is twice retired (US Air Force and Railroad Repair Shop). "We play as a group-not as individuals-we draw from our different backgrounds to enhance the basic bluegrass sound." His reference to varied background may be an understatement. "I've played bluegrass all over the country from Virginia to California," says Joe. "Jim's background is primarily east coast country, Randy's a veteran of country and bluegrass throughout the southwest, and Jeff wentthe Nashville route-he's shared states with some of the best."
