

Junior Newman Qualifies for Nationals

Area Students Participate in AAU Regional Meet

AAU Regional Meet in San Antonio
The Wheeler area was well represented at the San Antonio with six boys and one girl competing in the Regionals for an opportunity to qualify for the Nationals in Northfork, Virginia. Only the four best times, throw or jumps qualified.

Those boys from the Wheeler area competing were Michael Jones in the 300, Juan Salas in the 100 m hurdles, 200 m hurdles and mile relay; Dee Alston in the same three plus the triple jump; Tyler Lewis in the 100 m, 400 m and the mile relay; Chris Gallagher in the 100 m, mile relay and the long jump; and Junior Newman from Briscoe in the 400 m and the 800 meters.

Juan Salas in the 100 hurdles; Michael Jones in 800 m, and Junior Newman in the 800 m (midjet division) qualified on Friday to stay and compete in the finals on Saturday. However because of their slow prelim times, Salas and Jones decided not to stay and run on Saturday. Junior Newman did stay and ran a very fine 2:34 800 meters to place fourth and qualify to go on to Virginia.

Chris Gallagher placed ninth in the long jump competition with a good 16'2" jump. The winning jump in his age group was 19'6".

In the girls division, Lindsey Lewis competed in the 100 m and 200 m dashes and while she did not qualify for the finals Saturday, she gained important experience.

Coach Bailey commented after the San Antonio meet that "when you live in far west Texas as we do, you can get satisfied with being the best around. This type of competition helps remind you that there are a lot of great people out there that you normally don't see; and that you need to continually strive to get better if you want to really be the best! It's always an eye opener when we run against the rest of the state, whether it is in AAU or UIL. I want to thank all those track athletes, who spent a lot of extra time trying to get better, and a special thanks to the parents, who worked with them to give them that opportunity. It has been a good year."

Wheeler I.S.D. Receives TEA "Recognized" Rating

Wheeler ISD has received accountability ratings from TEA. Wheeler ISD is again a "Recognized" school. In order to be rated as Recognized, at least 80% of students and each student group had to show mastery on the TAAS tests. Dropout rates had to be 3.5% or less for all students and each student group. And, attendance rates had to be at least 94% for grades 1-12. In order to be classified as "Exemplary", the highest rating, a school would have had to have at 90% passing rates, a 1.0% dropout rate, and at least 94% attendance. Scores are very good, but there are areas in

which improvement can be made.

While in London, she will march in the London Parade with other All-Star cheerleaders from all over the United States chosen by the UCA (Universal Cheerleading Association) staff. If you would like to help her raise this money, donation jars will be set up at several businesses around town, and she will be having some fund-raisers within the next few months. She would greatly appreciate anything you can give and will proudly represent the Texas Panhandle in the London Parade.

1998 Property Tax Rates in WHEELER CITY OF

This notice concerns 1998 property tax rates for WHEELER CITY OF. It presents information about three tax rates. Last year's tax rate is the actual rate the taxing unit used to determine property taxes last year. This year's effective tax rate would impose the same total taxes as last year if you compare properties taxed in both years. This year's rollback tax rate is the highest tax rate the taxing unit can set before taxpayers can start tax rollback procedures. In each case these rates are found by dividing the total amount of taxes by the tax base (the total value of taxable property) with adjustments as required by state law. The rates are given per \$100 of property value.

Last year's tax rate:	
Last year's operating taxes	\$106,305
Last year's debt taxes	\$0
Last year's total taxes	\$106,305
Last year's tax base	\$24,727,090
Last year's total tax rate	0.430000 / \$100
This year's effective tax rate:	
Last year's adjusted taxes (after subtracting taxes on lost property)	\$106,305
/ This year's adjusted tax base (after subtracting value of new property)	\$24,346,080
= This year's effective tax rate	0.436641 / \$100
This year's rollback tax rate:	
Last year's adjusted operating taxes (after subtracting taxes on lost property and adjusting for transferred function)	\$103,995
/ This year's adjusted tax base	\$24,346,080

Micah 7-18: 7 & 8: Who is a God like unto thee, that pardoneth iniquity, and passeth by the transgression of the remnant of his heritage? He retaineth not his anger forever, because he delighteth in mercy.

Therefore I will look unto the Lord; I will wait for the God of my salvation; my God will hear me.

Rejoice not against me, O mine enemy; when I fall, I shall arise; when I sit in darkness, the Lord shall be a light unto me.

It's nice, August came in nice and cool with a few sprinkles of rain now and then. I am sure that everyone is enjoying a break from the heat for a while.

Darrell Harrison brought Johnnie over to Allison Friday morning. Then he went back to the farm to work. She spent the day with me and fixed my hair. We had a good visit. I took her over to the farm where we met Darrel about five-thirty for them to go home. Enjoyed having Wilma go with us and to ride back with me.

They surprised Anna with an early 80th birthday celebration. They all had a good time and flew back home Thursday, July 23rd. On July 27th granddaughters Bonnie Doty and children Coulter and Caitlin and Robin Dethloss and children Kendall and Kelton, all from Bridgeport, Texas. They all came so Anna and Kelton could celebrate Anna's 80th and Kelton's 3rd. They had cake and ice cream. On Wednesday they all helped Red and Anna get peaches ready and put in the freezer. They all went home on the 30th.

Red and Anna were looking for Jim and Shirley Pewitt to come on Friday the 31st, and they did but the surprise was to Anna and Red. The surprise was her other three all came too. Sylvia with her husband, Joe Richardson, Claude and Pat Pewitt and Melvin and LaNell Pewitt, and they brought enough food for supper that evening and for breakfast and dinner the next day and also number three birthday cake. That was a lot of celebrating for Anna's 80th birthday. The ladies got busy and helped Anna peel and get peaches ready for the freezer. They all went home on Saturday.

Sweetwater News

Still hot and dry tho we did have a 0.3 inch shower Monday night. Every one says "Did you ever see it so hot?" Yes, I have. We lived in the Rio Grande Valley in 1937 and picked cotton in June and July. This hot or worse. Some poor Mexicans died in the field across the fence but we Okies made it.

The cotton was high as our heads. There wouldn't be a dry thread on us in an hour's time. The men carried their Bull Durham and cigarette papers in their hat bands to keep dry. I could pick 300 pounds or so a day. We were paid fifty cents a hundred for picking and thirty five cents for pulling bolls in the plains. No wonder we consider mechanical cotton pickers the greatest invention ever.

Leonard Smith was out to see the Ray Smiths. Doris said her kids got her a bread machine and she is making delicious bread. We know who to visit now.

Our kids are gone to Falls Creek Camp this week. Those going were Bailey Davis, Terri Calverly, Kim and Becky Gracey, Joni Perry, Kristina Henson, Kenema Hill, Cassie Perry, Tera Boswell, Amber Anderson, Garrett Parvin, David Alexander, Jennifer Alexander. Adults were Larry Parvin, Karen Gracey and Wanda Yarbrough as sponsors.

Vera Nation was honored with a party on her 85th birthday Sunday afternoon at the Sayre Housing Authority.

Troy Sites was over to see Birdie Whipkey and brought her a mess of blackeyed peas.

Betty Anderson dropped by to drink coffee with Stella Jenkins. Judy Tipton came by with a Care Package of garden goodies.

Betty tells me her granddaughter, Heather Anderson, and Derek Dunlap were married in her home last week. The young couple are back from a week at Red River and moved into their home at Weatherford where both are enrolled in college.

Joe fell today and I couldn't get him up alone. Judy and Gerald Tipton were kind enough to come over and help. Jan and boys are visiting them from Watonga and she came too. Jan is a nurse and checked him over. Just shook up.

Memorial services are pending for J. L. Kirkland of Shamrock. He is the father of Linda Cox.

John and Martha Haag were down Saturday to visit us and Joe Dales.

Ted Stone was guest speaker at the Sweetwater Baptist Church Sunday night. He gave a very good talk about the dangers of drug abuse and addiction. Mr. Stone is on his second trip walking across the nation.

That reminds me, I read that the man who has been living in the tent on I-40 down toward Clinton packed up and left last week. Seems his dog died and he wanted to take him to Amarillo to bury him in the pet cemetery there.

Todd Sutton, Johnny and Beth Wilson, Sayre, Sharon, Wayne and Eddy Gibson, Erick, Darrell and Linda Cox, Matthew and Bryan and Kyle Cox visited Ruby Sutton during the weekend.

Ola May and C. B. Crook have had grandsons visiting this week. Jeremy Crook of Amarillo, Chris and Shelby Crook of Pampa. They took in the Mobeetie Festival and really enjoyed it. Chris is a Boy Scout and helped park cars.

One Live to Live has been celebrating their 30th anniversary. When they started, Elk City, OK, and a little village out west (Sweetwater?) was named as their home towns. Only one original character is left.

Keith Stone, Shady Shores, Tx, has been visiting Mellie. He gathered a lot of wild plums and made juice to take home for jelly. Other guests were Randy and Karen Greer, Brandy and Christy, Olathe, Kan., Kenny Conkle, Jerry and Carol Stone, Janie, Sara, Riila and Levi of Dallas.

Scholars believe that the first people to live in Peru were Indians who came from North America about 12,000 years ago.

Pain may be eliminated for millions
(SPECIAL) -- A drug that is exciting researchers in the treatment of pain has been formulated into a new product known as "Arthur Itis," and is being called a "Medical Miracle" by some, in the treatment of debilitating conditions such as arthritis, bursitis, rheumatism, painful muscle aches, joint aches, simple backache, bruises, and more. Although the mechanism of action is unclear, experiments indicate that Arthur Itis, relieves pain by first selectively attracting, and then destroying the messenger chemical which carries pain sensations to the brain, thus eliminating pain in the affected area. Arthur Itis, is available immediately without a prescription in an odorless, greaseless, non-staining cream or new roll-on lotion form. Arthur Itis, is guaranteed to work or your money back.

Congregational Concerns:
The men's monthly business meeting will be held in the multi-purpose building on Monday night, August 10th. A fellowship meal will be served before this business meeting is held. This fellowship meal will be served at 7:00 p. m.
This congregation will host a Bible school workshop on Saturday afternoon, August 22nd. This workshop will be conducted by Dan Whitaker, the Minister of Education at the Southwest Church of Christ in Amarillo, and his wife, Lois. Some copies of the schedule of this workshop have been placed on the table in the lobby.

From The Minister's Desk:
John Quincy Adams was the sixth President of the United States, serving from 1825 to 1829. One of the most important accomplishments of his administration was the establishment of the Bureau of Standards.

According to history, President Adams reported to Congress that there was no standard measurement or standard weight for the nation's report to Congress, F... Adams exhibited two one pound weights, saying: "The weight in my right hand came from Massachusetts; the one in my left hand came from Maine. Gentlemen, one of these weights is nearly an ounce heavier than the other one." The results of President Adams' report to Congress was the establishment of the Bureau of Standards which has continued to maintain absolute weights and measures for the nation.

While we recognize the importance of a standard for weights and measures, do we recognize the importance of a standard for life? Consider these two facts.

1. Life demands a standard. Without a standard of good and bad—right and wrong—goodness and wickedness—life would be a catastrophe.

2. The Bible—the word of God—is the only acceptable standard of life. The Bible declares that it is a completely sufficient standard for faith and practice. It says: "—His divine power has granted to us everything pertaining to life and Godliness.—" (II Peter 1:3) It also says: "All scripture is inspired by God and profitable for teaching, for reproof, for correction, for training in righteousness; that the man of God may be adequate, equipped for every good work." (II Timothy 3:16-17)
