Fourth, Final 'Cash' Drawing Held Friday

CWE CHAT WITH EDITOR
By Louis C. Stas

Congratulations, Bret Goad, Ben Dollar and Brooks Brown on being named to the *Globe-News* Super Team.

Ready or not, here it comes. The new millennium has been of great concern for some time; we will soon see if there is any reason for concern.

Y2k came early for me. One morning a couple of weeks ago, I put my watch on and the screen was almost blank. Then Wednesday the electrical system on the Silhouette went out on the way to Pampa.

Prior to our holiday journey, I was stranded in Pampa. The Silhouette had to be towed—Cross Car Center to the rescue.

I was sailing along, headed for Pampa, and I realized I had no radio. In fact, I had no power at all. The motor continued to run and I made it to Pampa.

We hope everyone had a Merry Christmas.

Our Christmas was a bit unusual and certainly hope is a 'one and only'.

It did however turn out to be a Merry Christmas for us. Even though Lavila Meriwether (Barbara's sister) is not 'out of the woods' she is still with us.

Our holidays started out on the right track, the weather was beautiful and we got to leave on time.

After arriving in Oklahoma City on Thursday afternoon and our visit with Mother Porter, we received a call that Lavila was in the hospital in Weatherford.

We were at the hospital 'off and on' for the remainder of the weekend.

The food and festivities will have to (Continued Page 4)

Changes Are Made In Personnel At Commissioners Court Mon.

The Wheeler County Commissioners Court convened Monday, December 27 with eight items on the agenda. After approving the hourly payroll and the approving the bills for payment, the governing body set the speed limit for county maintained roads at 35 miles per hour.

The commissioners approved the contract with the City of Wheeler for law enforcement by the Wheeler County Sheriff's Department.

Three items on the agenda had to do with personnel. Martha Helton will retire from the Wheeler County Tax Office December 31, 1999; her replacement will be Andrea Auldridge.

Richard Belote, an employee of the Wheeler County Sheriff's Department for the past eight months, resigned from the county department. Kenneth Berdecko has been hired to fill the vacancy left by Don King in the Texas Agricultural Extension Service; he will move to the Wheeler office from Roberts County on February 1.

Wheeler County is presently negotiating for the purchase of two new ambulances; one for each side of the county. The negotiations are continuing.

Three Mustangs Are Named to 1999 Globe-News Football Super Team

Super Team Roster
Among other players named to the *Globe-News* Football Super Team are the following...

Offense
Lineman, Bret Goad, Wheeler, 6-0, 185, Jr.
Defense
Linebacker, Ben Dollar, Wheeler, 5-10, 200, Sr.

Secondary, Brooks Brown, Wheeler, 5-11, 180, Sr.
Bret Goad, Wheeler—The Mustangs averaged 388 yards and scored 521 points in a 13-1 season. The 6-0, 185-pound junior triggered the offensive line throughout the year as Wheeler's center. He made the blocking calls as Wheeler assembled maybe the best 1A power offense in the state. Goad, a two-year starter, was named a first-team all-stater in 1999. "He did a great job adjusting to the different situations every week," Wheeler coach Jim Verden said. "One week he would block a linebacker, and the next week he would be block-

ing a noseguard. To be a center, you kind of have to be hard-nosed and he was really a physical player."

Ben Dollar, Wheeler—The 5-10, 200-pound senior earned a first-team all-state nod and helped guide the Mustangs to a fourth consecutive semifinal appearance. As the Mustangs' middle linebacker, Dollar made 79 tackles, had 75 assists, 11 tackles for loss, two sacks, two interceptions, three knocked-down passes, one fumble recovery and three caused turnovers. The Mustangs allowed just 142 points all season and gave up 167 yards a game. Dollar also played on the offensive line and handled the place-kicking duties. "Not many people know this, but he played half the year with a bad shoulder, and we had to tie braces on it to keep him playing," Wheeler coach Jim Verden said. "He has a great nose for the football and he has a great sense of where the ball is going to be and how to get there. He's not really big but he carried a big punch."

Brooks Brown, Wheeler—The Mustangs allowed just 142 points all season, and Brown's coverage ability was one of the main reasons. Brown always took the opponent's top receiving threat in addition to his quarterbacking duties. Brown made 27 tackles, 21 assists, knocked down five passes, recovered a fumble and made two interceptions as the Mustangs made their fourth straight trip to the state semifinals. As the quarterback on offense, Brown also passed for 1,018 yards and 10 touchdowns. "Brooks did a really good job for us in the secondary. He was kind of the leader out there," Wheeler coach Jim Verden said. "He always faced the top receiver when we played man defense. We really asked a lot out of him, and he delivered."

County Farm Service Reports On Farm Programs Conducted

The Wheeler County FSA has administered the following farm programs during the 1999 calendar year.

- 1) Conservation Reserve Program (CRP)
- 2) Environmental Quality Incentive Program (EQIP)
- 3) Crop Loss Disaster Assistance Program (CLDAP)
- 4) Livestock Assistance Program (LAP)
- 5) Non Insured Assistance Program (NAP)
- 6) Marketing Loss Assistance (MLA)
- 7) Production Flexibility Contracts (PFC)

The CRP and EQIP are two programs that are shared between the Farm Service Agency (FSA) and Natural Resource Conservation Service (NRCS). NRCS has been charged with providing technical service to producers as needed on Highly Erodible Land (HEL). CRP allows producers the opportunity to return HEL to grass land, thus enhancing wildlife while providing erosion control on marginal land. EQIP allows producers to improve cropland and/or pasture land through the use of incentive costshare payments. Wheeler County received a total of \$1,081,425 for CRP and \$10,899 for EQIP assistance.

Because of the adverse weather conditions, Congress approved new programs such as the CLDAP and LAP programs to be implemented in drought stricken areas. Because Wheeler County was in the heart of the drought, crop yields were devastated. Producers of Wheat, Rye, Cotton, Grain Sorghum, and all Hay crops located in the County, producers received \$396,111. Livestock producers were not over looked entirely. Livestock Assistance was also provided through LAP. Losses were calculated on grazing losses Vs the number of cattle grazed. These losses mounted, while assistance totaled to \$592,377.

The Non Insured Assistance Program (NAP) is available for non-insurable crops, such as hay and grazing crops. Producers become eligible when the County average loss is 35% and the individual loss is 50% of the applicable crop. Losses in this program amounted to \$330,662 for 1999.

Poor market conditions for mechanically harvested crop also prompted congress to allow Marketing Loss Assistance payments to be

made for the second year in a row. Congress approved FSA to issue payments according to a producers established history of crops marketed in past years. These payments amounted to a total of \$1,024,198 for Wheeler County.

Production Flexibility Contracts, simply put is what was once referred to as the annual farm program. Producers are assisted for established histories of planted crops. The 1996 Farm Bill did away with the many planting requirements and set-aside acreage mandates. The Bill allows for producers to be paid for what has been established as a cropping history as of 1996. Yields and crop acreage was frozen for payment provisions. Payment rates were established to be declining increments from 1996 through 2002. This was to be a way of easing out government support to farmers. Those 1999 payments amounted to \$1,024,198.

In conclusion, Wheeler County Farmers and Landowners received a total of \$4,063,759 during the year of 1999.

Extension Update
By Debbie Epperley, CEA-HE

What does stress mean to us? Stress is the body's reaction to day-to-day living.

There are two types of stress distress, the damaging or unpleasant form of stress and eustress the stress that makes life go on, the good type of stress.

Too much stress, however can seriously affect our physical and mental well-being.

Some health problems related to stress are headaches, neck and back pain, ulcers, heart disease and mental illness. So when stress occurs it is important to recognize and deal with it. Develop a support system and anchor. Religion, home, family, friends and work are all anchors and help us control the effects of stress. Strong people work to strengthen family ties, have well-defined clear values and face problems realistically. When you are nervous, angry or upset release pressure through exercise or physical activity.

Walking is an inexpensive exercise that improves the quality of life by enhancing well being and improving physical functioning.

Complete freedom from stress is death but in the mean time there are tips and alternatives to help us manage the stress we may be feeling in our lives.

Listed below are some management techniques to help us get a handle on Stress!

Tips for Reducing Stress

1. Learn to plan
2. Recognize and accept limits
3. Learn to play
4. Be a positive person
5. Learn to tolerate and forgive
6. Avoid unnecessary competition
7. Get regular physical exercise
8. Learn a method of relaxing
9. Talk out your troubles
10. Change your way of thinking

Alternatives for Managing Stress

1. Decide to leave things as they are
2. Learn something
3. Talk to someone special
4. Locate resources
5. Talk with family members
6. Stop doing something that you really don't want to be doing
7. Stop trying to do the impossible
8. Stop allowing things that upset you
9. Begin doing things you want to do

Happy Holidays.

LA RESPUESTA.

tal vez DIOS le este pidiendo que de un paso de fe para servirle. usted pudiera asustarse por causa de lo desconocido, aun mientras usted pregunta DIOS puede darle de su presencia, recuerde que el mismo DIOS que lo llamo para que le sirviera estara con usted cuando obedecer su llamado a servirle. al obedecer a DIOS, usted descubrirá su gracia capacitadora. le concederá fortaleza, poder y sabiduría cuando dependa de EL. su presencia y su unción estaran con usted de una forma que nunca creyo posible. EN OGE aspectos de su vida esta pidiendole a DIOS que confie en EL? COMO ha usado DIOS la Biblia para revelar su plan para la vida de usted? Abram creyo a Jehova y le fue contado por justicia Genesis 15:6.

We had our first Christmas dinner at a restaurant in Weatherford.
—cwe—
We were greeted with an 'I know you' as we walked into the hospital. One glance and we knew it was one of the 'Lee girls', but the name escaped me. It was **Mellanie Gates**; she is the director of nurses at Southwestern Memorial.
—cwe—
Later, Lavila received excellent care from another Wheelerite, **Angie Martin** will complete her education in May—she will be an RN. Thanks, Angie.
—cwe—
She even shared some of her mother's homemade peanut patties. Delicious of course.
—cwe—
Jane had to host the card party Monday evening. We had six players. It did not take the whole game for Mike, Jane and Paul to show us who was going to win the first game.
—cwe—
Fortunately the 'tables turned' midway into the second game. Bob, Dwight and I were the victors in the last two games.
—cwe—
Happy New Year! We wish the best for each of you in 2000!

We got a multitude of lovely cards. I have them hanging in garlands on the walls. May just leave them until Easter. The closest came from Iva on the hill and the farthest from Campersdown, Australia. Thank you everyone, very much.

Leanne Smith was really beaming last week. She was showing a picture of her little week old grandson Cass. He was darling. Lives at Sayre.

Robert Claussen, New Mexico, has been visiting his Aunt Gerie Coffey this past week. I went to school with his mother Clara long ago.

Hope you all got out Tuesday night and looked at the moon. It won't look that way for another 33 years. Not many of us will be around then. It was beautiful. So plump and sort of blue.

For some unknown reason, the geese were flying north the other evening and honking as they went by. I saw about a million blackbirds on the way to Erick Tuesday. Oh, yes, I had several real bluebirds at the feeder. They aren't as brilliant as bluejays but act much nicer.

Stephen, Morgan, and Alec Stites, Van Buren, Arkansas, and Monica Shoffner, Edmond, visited Sunday with the Ed Logans.

Mary Ann Harding was out Saturday and we had a Mexican lunch with burritos and such. She's been playing accompaniment for some of the Christmas programs at the Erick Methodist Church.

Funeral services were Tuesday at the Rose Chapel for Dora Farmer, 91. Henry Newman, and Norman Jones were in charge. She was a member of the Primitive Baptist Church. She lived most of her life in the Bulo Community. Burial was in the Buffalo Cemetery.

It surely got cold this past week but not down in the teens as was forecast. Cold enough to drip the water a couple of nights. Had some frosts so white that it looked like snow.

The Baptist folks had their Christmas dinner with a good turnout.

I'm sorry we missed the Dog Show in Elk. I bet that was interesting. The Road Crew was out picking up

trash last week from Erick to Sweetwater. Really looked nice.

Birthday folks are Bessie Perkins, Clifford Jones, Floyd Pickering, Johnny Davis, Louise Perry, Buena Davis, Royce Rose, Jeannie Sanders, Dusty Elam, Margie Banks, Kenny Hobbs, Ruth York, Laquense McArthur, and Faye Mong. Anniversaries are Mr. and Mrs. Earl Tucker, Mr. and Mrs. Billy Sutton, Mr. and Mrs. Durwood York.

Happiness to all and to All a Happy, Prosperous and Healthy New Year.

Holy mackerel! A mother cod can lay as many as five million eggs at a time. Usually only six survive. If they all produced live fish, there would be no room left in the ocean for water.

Holiday visitors to David and Phyllis Hefley were Darren and Chalene Hefley and Dawson from Tulia and Kristi Hefley from Lubbock. They all went to Clifford and Pauline Hefleys Christmas night for visiting and snacks. Also there were Jim and Beth Alvey and Tina Tabor and Emily from Arkansas.

Correction: Those at Bob and Debbie Kinnaman and Kirbie's home for an early Christmas Saturday, Dec. 18 were Cory and Audrey Kinnaman and Zane from Reydon, Joe Bob Kinnaman and Dalton, Alyssa and Destrine, Joe Bob's fiancée, Katrina Hart and Christina and Nicole, Mark and Stephanie Bowman and Kim and Megan Edmonds from Arlington and Lou Dean Douthit and Donnie Barr.

Sunday, Dec. 19, Lou Dean left as the granddaughters left with Stephanie driving Lou Dean's car. The family were getting together at Le Andra and Montie Whittenberg and Mathew home in Arlington. Billy and Donald Stuckey and Don and Peggy North also attended and Lou Dean stayed some with the Norths at Tolar. It was easy to get to. Lou Dean started getting a sore throat so came on home Sunday, Dec. 26. Needed to get back to the basketball games. Glad you are back, Lou Dean. Pray for Lou Dean. So hard for her to shake the hoarseness and sore throat.

Christmas Eve guests at Bob Kinnaman home were Stacie Kinnaman and C.J., Justin and Colby Bryant, Alicia and Adrian Reis, Joe Bob Kinnaman, Katrina Hart, Corey and Andrey Kinnaman and Zane.

Nice to have Dallas Fillingim and Dave and Rita Pearson join us for supper at Maxeys Monday night. Very big crowd there. Guess everyone was getting tired of turkey. Nice to see Melvin and Helen May there with Paul and Clarice Hathaway, Greg Bryant with wife and baby with Mike and Beverly Bryant and Josh and Lacy, Kevin and Heather Shields, Alton Lohberger, Kyndal and Kathy Murray and Derek, Joe Bob Glassey with relatives, Bill and Virginia Ridgway with Clara Ridgway and other relatives, Bryan and Tess Markham and Monty Markham with a group.

Grandson Brandon was visiting Doris Finsterwald Monday. He was helping her take down and put away Christmas decorations except for the lighted village.

Gageby church people. Members able to be there were Dan and Theresa Trimble, David and Winnie Gilmer, Margaret Leach, Evelyn Meek, Willa Fillingim, J. Wheeler Church of Christ

Congregational Concerns:

At the conclusion of the morning worship service on Sunday morning, January 2nd, a fellowship luncheon will be held in the multi-purpose building.

Between Monday, January 10th and Wednesday, January 12th, the grocery truck from Tipton Home will be in Wheeler. A list of the needed items is posted on the bulletin board in the lobby. If you would like to contribute some of these items, please put them in the box that has been placed in the lobby.

A youth rally will be held by the churches of Christ in Childress on Saturday, January 8th. Information about this youth rally is posted on the bulletin board in the lobby.

The latest mission report from India has been received. This mission report, which is posted on the bulletin board in the lobby, was prepared by Ron Clayton, a former minister of this congregation.

Cody Sparlin, the grandson of Jackie and Brenda Sparlin, was hospitalized in Sayre, Oklahoma. However, his condition has improved and he has been released.

Christine Conner, the mother of Claudine Finsterwald, is hospitalized in the local hospital.

Sympathy must be expressed to Irene Rogers upon the death of her sister, Hazel Shaw. The funeral was held last Friday morning in Pampa.

From The Minister's Desk:

With the approach of the new millennium, there are some people who resemble Chicken Little in the fairy tale, *Henny Penny*. These people are not warning that the sky is falling. Rather they are warning that January 1, 2000 will witness two events that will dramatically affect the world.

The first of these two events will supposedly be a terrible financial and technological crisis. According to the "millennial prophets", this terrible crisis will be the result of a computer glitch that will be known as Y2K.

Simply stated, Y2K is a computer abbreviation for the year 2000. This abbreviation is important because many of this nation's computer systems have been programmed to recognize the last two digits of a year. Therefore, these computer systems may recognize the double 00 of the year 2000 as 1900 or these computer systems may recognize these two digits as a non-number which will cause these systems to malfunction.

Regardless, the "millennial prophets" are predicting that this computer glitch will cause a massive disruption in the functions of many of the essential infrastructures of this nation. Although I am not a computer expert, I truly believe that this prediction is wrong. Oh, I do not doubt this computer glitch will cause some disruptions that will frustrate people for a few days, but I do not believe that this glitch will cause a massive national financial and technological crisis.

Perhaps I am too naive! But I have tremendous confidence in the ingenuity of this nation. If this nation can send men to the moon and safely return to earth, it can and will successfully cope with Y2K.

The "millennial prophets" are also predicting that another event will occur shortly after January 1, 2000. This event, which will follow the supposed terrible financial and technological crisis, will be the second coming of Jesus.

During His earthly ministry, Jesus repeatedly taught about His second coming. (John 14:1-3) However, He also taught that no one knows the day or the hour of His second coming except His Heavenly Father. (Matthew 24:36) Yet history is filled with examples of who have brazenly announced that they had learned or determined the date of the second coming of Jesus.

Do you remember Harold Channing? He was the religious radio broadcaster who predicted in July of 1994 that the second coming of Jesus would occur between September 15th and September 27th of 1994. Of course, his prediction was wrong! Therefore, Mr. Channing has now taken his place alongside Charles Russell, Edgar Whisenant, William Miller, and other prophets who have falsely predicted the date of the second coming of Jesus.

With the arrival of January 1, 2000, I suspect that the names of the "millennial prophets" will be added to the list of the

other prophets who have falsely predicted the date of Jesus' second coming. Oh, I know that the second coming of Jesus could occur on January 1, 2000. But I also know that the second coming of Jesus is not anymore likely to occur on January 1, 2000 than it is on any other date.

The second coming of Jesus is one of the major tenets of Christianity. However, the date of His return is God's well-kept secret. For this reason, disciples of Jesus should be troubled by the bold predictions of the "millennial prophets" that Jesus' second coming will occur on January 1, 2000. Rather they should do what Jesus told them to do. (Matthew 24:42-44) They should be prepared for His second coming, believing that someday, when they least expect it, He will come again.

New Wipes Handle All Cleaning Needs

Your wife sneezes, you drop coffee on the seat, your children's hands are sticky, and your glasses are dirty. Now there is an all-in-one cleaning wipe that can handle all of these situations with no problem.

Inventors Vince and Ronda Ramirez were inspired to develop the idea for the **ASAP Wipes** in May, 1999. They needed wipes that could handle all types of situations and could find nothing comparable, so they began to develop their own product.

This original idea is now being made available for licensing to manufacturers interested in new product development, especially in the tissue products industry. Mr. and Mrs. Ramirez are hoping to have the **ASAP Wipes** in full production and available to the public within the very near future.

Additional information about the **ASAP Wipes** can be obtained by contacting the Publicity/Press Department of Invention Technologies, Inc. at (800) 940-9020 ext 85 or at products@invent-tech.com. Invention Technologies, Inc. is a Coral Gables, Florida based company that is handling the publicity and public relations for the **ASAP Wipes**.

What the Latest Crash Tests Mean for Insurance

Crash tests conducted recently by the Insurance Institute for Highway Safety on large family and luxury cars offer Texans an opportunity to re-

valuate insurance rates. "The results of the crash tests are obviously very important for consumers and vehicle manufacturers alike

because as manufacturers improve their design there will be fewer deaths and injuries," said Brian O'Neill, president of Insurance Institute for Highway Safety in Arlington, Virginia. "In turn, there will be fewer insurance claims. The reality of auto insurance is that rates are based on actual claims experience."

Variables used to determine auto insurance rates include claims experience, vehicle make and model, driver age and place of residence. Rating variables and the weighting given those variables may vary between companies, which explains why there is such a wide disparity, or variance, in rates available for identical policies.

"If one insurer has significantly

higher claims than another within a given category, that company's premiums are probably going to be much higher for drivers fitting that profile," said Willy Graves, president of Progressive County Mutual Insurance Company of Texas. "Therefore, rates can vary a lot from company to company. It really pays to shop around."

A study conducted by Progressive earlier this year found that Texans could be saving an average of \$689 every six months on auto insurance if they just took the time to compare rates. The study showed the same driver could receive a quote of \$1,501 for a six-month auto insurance policy from one company and quote of \$812 for the identical policy from another company.

Regardless of insurer, your auto insurance premium will be based in large part on the following factors:

-Your driving record. Drivers with multiple moving violations or at-fault accidents are statistically more likely to file future claims. As a result, their premium rates vAH be higher than those for drivers with clean records.

-Geographic location. A vehicle operated in a large city is more likely to be stolen or damaged than a vehicle operated in rural Texas.

-Age. You might be an extremely safe 18-year-old driver. The fact remains, however, that your peers file more claims than drivers in other age categories. As a result, you probably will be viewed as a higher risk.

-Gender. Most auto insurers have had better claims experiences with female drivers, according to the In-

urance Institute for Highway Safety. This is particularly true among unmarried drivers and those under 25 years of age.

-Miles driven. The more you drive, the more likely you are to have an accident or file a damage/theft claim.

-Vehicle. The make and model of your vehicle plays a huge role in determining your premium. A new Chevrolet Camaro can represent a significantly greater risk—in terms of theft, vandalism and repair costs—than an older, less expensive vehicle.

Obviously, there's not much you can do about your age or gender. And marital status, home location and miles driven can be difficult to control. That's why it pays to shop around and check rates from several insurers.

Local TV, Radio for Y2K Electricity News

Local radio and television stations will be the best sources for news about any problems with electric service in this region on New Year's Eve.

Southwestern Public Service Company and other energy providers in the area are confident that electric service here will not be interrupted by the so-called Y2K bug. However, vehicles colliding with utility poles, as well as blizzards and ice storms -

even squirrels playing in electric substations - could cause electric service outages on New Year's Eve, just as they do at other times.

Energy consumers who want to know the cause of any energy-reliability problems in the region on Dec. 31 or early Jan. 1 should tune to area radio and television stations.

SPS and other utilities will be working closely with area broadcasters. The plan is to inform the public quickly about the actual causes of any interruptions to electric service.

Southwestern will open three "media centers" on New Year's Eve, in Amarillo, Lubbock and Roswell. News media that contact the information centers will be kept abreast of any service problems for SPS. In turn, they can report to customers about SPS's progress in restoring service.

The rural electric cooperatives and government-owned utilities in the region also are making plans to apprise news media of New Year's Eve service problems and restoration efforts.

In the event of an extreme storm or other disaster - at any time - the region's utilities and emergency response agencies will work primarily with three regional radio stations. The three, which can operate without general utility services, are the designated national Emergency Alert System stations for the region. They are: KCNC, of Amarillo, at 710 on the AM dial; KFYO, of Lubbock, at 790 on the AM dial; and KCKN, of Roswell, at 1020 on the AM dial.
