Now It Can Be Told

Now it can be told. The stories of the atrocities committed by both the Japanese and the Germans.

Because these stories did not circulate as freely in the early days of this war as they did in the last, many persons became prone to disbelieve the few that did reach their ears.

Then came the invasion of Germany and the recapturing of Manila. Wholesale atrocity, organized and ordered by higher ups. These were not just an outpouring of individual hatreds of enemy soldiers. Here was official atrocity.

General Eisenhower, seasoned and hardened soldier though he is, was shocked into calling the governments of the United States and England to see for themselves. In the Philippines confirmation statements were taken from witnesses, so shocking were the discoveries.

It is well that all this is known before Japan can make peace proposals. The Manila horror, the German horror, and their cause make us realize as never before the full iniquity of regimes which must be utterly destroyed, no matter what the price, if we are to know genuine peace and security.

We, here on the home front, are given opportunity, a dual opportunity, to do our part against these beastly enemies. The Mighty Seventh War Loan is that opportunity. Support it with bigger and more War Bond purchases. To do so is to help win the war and then to maintain the economic peace by the defeat of inflation. When our boys come home they want to find things as they left them. Set your own quota—then make it.

Time For Correction

The consumers and the merchants of the nation have now operated under rationing and price control a sufficient length of time so that definite ideas have been formulated in the minds of merchants and individuals as to how corrections in the Price Control Act and its operation can be effected.

The associations and organizations of hundreds of thousands of retail stores scattered throughout the 48 states, are requesting five changes which have been presented to the House Committee on Banking and Currency.

First, Congress should interpret the phrase, "generally fair and equitable," in a manner to assure that price ceilings will be applied fairly to all. A price administrator can take advantage of the word, "generally," and, as has been done, set price ceilings which in many instances are unfair and inequitable when applied to the individual retailer. Price squeezes which result are not borne by some fictional average merchant, but by the corner grocer, drug store, general store, or hardware dealer.

Second, judicial discretion should be permitted in all cases arising under the Price Control Act. Courts should be given power to make a distinction between the willful violator of price regulations and honest merchants who make a mistake. Under the present law, the courts must issue an injunction whenever OPA requests it. The courts and not OPA should decide when and where an injunction should be issued.

Third, citizens should be given the right to contest OPA regulations in the nearest Federal court. At present there is only one court which may hear price-regulation cases—the Emergency Court of Appeals which sits in Washington, or briefly, in other cities throughout the country. A small retailer should be permitted to take his case to the nearest Federal District Court.

Fourth, the price administrator should be given control over commercial rents uncontrolled, one more cost of doing business has kept on increasing while retail sale prices have been frozen.

Fifth, the Price Control Act should be extended for one year only, instead of 18 months. Periodic review is a sound principle. No one can predict when the war emergency will end, and we should not saddle industry and the nation with restrictions for longer periods than are absolutely necessary.

Certainly such requests for clarifying the Price Control Act and making it more equitable and in accordance with the true aims the Act seeks to accomplish, are reasonable.

Pertinent Paragraphs from Panhandle Press

Items of interest culled from newspapers on the Times' exchange list.

Hap Wiseman helped the Hereford Brand out of some serious electrical troubles yesterday morning; and after he was through and the presses were rolling again, remarked that he could fix that machine a lot quicker if it were just "up on a pole."
—Hereford Brand

We catch ourselves wondering what we will use for news after the war is over. For six years the press and radio have been given over to war news. Everything else has taken a second place.
—Tulia Herald

One of the great advantages of living in the smaller towns of Texas is to be found in the closer, firmer and more enduring friendships formed with one's fellow citizens. When you are closely associated with your everyday friends, your neighbors, you find in them the many fine traits of character that make you proud of the ennobling influence they have upon you, yourself.
—Harry Schwenker in The Brady Standard

The post-war pedestrian must think quicker and more faster, else he will gradually become extinct. So Herman A. MacDonald, Massachusetts Commissioner of Public Works, told a New York traffic conference. MacDonald is concerned at the coming increase in car speed, and is anxious to preserve this dwindling species.

An Oregon engineer complained to the convention that pedestrians were coddled. They expect motorists to get out of their way, which everyone knows they have no intention of doing.
A more constructive suggestion for more sidewalks on rural roads. Walking on some country highways is about as healthful as walking on the railroad ties.
The upshot is that if pedestrians are to survive without speeding up their thought processes and legs, they will have to be made of more durable materials. —Amarillo Times

The best way we can "do something for the boys" is to keep things on an even keel at home. It may turn out that "the boys" are in better shape mentally and otherwise than a lot of us at home. Certainly they are not charitable cases. All they need or want is an even break.
—McLean News

Tom Wood, Memphis Democrat printer who is with the Army engineers in Germany, says:

"It will take years for the Germans to rebuild their cities, and I hope that they are never able to rebuild their 'super-race.' If the Allies sit back and let Germany rearm, they

deserve to have to fight."

Tom, 99 per cent of Americans believe as you do. It's the 1 per cent that will want America to fight again. You and your buddies, when you come home, will have the job of seeing that your country does its duty toward keeping Germany and her kind from arming again.
—Memphis Democrat

Canadian, Tex. — W. G. Clark, arriving off his run one morning last week, reported to Game Warden Jess Felts, some deer had dashed in front of his train as he approached the Canadian River, and his locomotive had struck one of them.

The men returned to the scene and found a fine young buck severely wounded and helpless. The deer was given the coup de grace, dressed, and placed in frozen storage for the use of the hospital. —Miami Chief

Up in Denver they fined a man of 74 years \$10 for hanging a rat in a tree so that his cats could practice on it. Over in France an alleged army board at a court martial trial of a GI sentenced him to THREE years of hard labor and dishonorable discharge from the army because he "bopped" four German prisoners of war when they refused to work. The GI was a guard. He served SEVEN months in jail over there before the

news got back to his home state of Massachusetts. Then Congressman John W. Carmack got up in Congress and aired the scandal. The Congress called on the Secretary of War. That was really getting somewhere. This young GI of 22 years, wounded in action in the invasion of France, was given his army status, the charge against him annulled immediately. Now he is a hero in the sight of all good Americans. What do you think of that alleged court of justice? Maybe there are several GIs in hock who do not have contact with the

outside world. Maybe it would be a good idea to find out which side that alleged court bunch was on in the fighting. In the language of the old Panhandle pioneer, "hadn't we better pray for a shower of brains?"
—J. C. Estlack in The Donley County Leader

Mrs. Juanita Wood and Mrs. Faye McDowell of Amarillo were in Wheeler Saturday visiting Mrs. A. B. Griffin and Mrs. Belote.
Miss Betty Riley is attending W.

T. S. C. at Canyon. She has been teaching at Berger and will return there this fall.
Dr. John W. Cobb, head of the Bible department of Wayland College at Plainview, visited in the home of Rev. P. D. Fullingim Friday.

Worley Gives Report Of European Trip

(In this first of a series of brief but informative, factual reports, Congressman Gene Worley tells of his recent trip with other congressmen to the war-torn European battlefields and German prisons.)

Germany is a nation destroyed. Thousands of tons of bombs, millions of rounds of heavy artillery, and the steady pounding of tanks, machine guns and other small arms have literally crushed a nation of eighty-five million people.

Visualize in your own mind how Dallas, for example, would look after a thousand plane raid with bombs ranging in weight from 2000 to 6000 pounds. Nothing remains of Germany's principal cities but shambles and rubble. I was in or flew at low level over the following cities which

were formerly key German points: Coblenz, Aachen, Frankfurt-on-the-Main (now General Eisenhower's headquarters), Mannheim, Ludwigshafen, Cologne, Weimer, Jena (home of the Zeiss Optical Works.) and other towns both big and small. There is no way on earth you can conceive of the absolute destruction of these places without actually seeing it.

Authoritative German sources have conceded that Allied air power was the deciding factor in knocking out their war production. The Nazis were still producing an ample number of planes, both propeller and jet, but it was impossible for the Luftwaffe to get them aloft without gasoline and oil. The German refineries were of course the principal targets originally and all of them were completely knocked out.

It is my understanding that a great

deal of publicity has been given to the notorious German Concentration Camps. I hope every man, woman, and child in this nation has had an opportunity to see pictures and secure the fullest possible information. Better still, I wish it were possible for every American to view these things in person.

I have never seen any sight so horrible and so repulsive as I saw at the concentration camp at Buchenwald. Try to imagine the entire population of a city the size of Amarillo being starved to death. This is approximately the number who were killed or starved at Buchenwald. The filth, stench and disease were unbelievable and death was undoubtedly welcomed by many of the political prisoners rather than a continuance of the living hell in which they were confined.

There were no sanitary facilities whatever. Each inmate received a crust of black bread and a bowl of potato peeling soup once a day. This was the complete ration day in and day out. Typhus and dysentery ran riot. Every conceivable kind of body parasites and skin diseases were present. I was in one barracks which measured about 20 feet by 200 feet in which 2300 prisoners were kept.

When we were there the Army had not had time to move many of its inmates. They still lay on ragged blankets. Dozens to a room too weak to move. A Texan, Colonel W. E. Williams of Austin, had been placed in charge of the camp and was exerting every effort to clean it up as quickly as possible and to prevent the spread of fatal diseases. He showed me some human skin which had been taken from the prisoners by the wife of the Nazi Commandant of the camp. Some of the skin had been made into lamp shades and other morbid and fantastic items which gives you some idea of how absolutely devoid of feeling were the Nazis running the camp.

General Eisenhower was allowing as many of our own troops to go through as it was possible to provide transportation for. In addition he was compelling German civilians from the surrounding communities to also go through the place and see exactly how barbaric the Nazi Government really was — if they didn't already know.

A distinction should be made between the concentration camps and the Prisoner of War Camps.

So far as I was able to ascertain there were no Americans at Buchenwald but most of the eighty thousand concentrated there were Russians, Jews, Poles, French and a number of Anti-Nazi Germans.

Next Week: How did the Nazis treat our own Prisoners of War?

They complain that people divorce today for such trivial reasons. A woman suggests that they marry in the same way.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. There shall be submitted to the qualified voters of the State of Texas the matter of amending Article VI of the Constitution of Texas, by adding thereto a new section which will modify the present restrictions concerning voting. This new section shall be inserted between Section 2 and Section 3 of the said Article VI, and shall be known as Section 2a, and shall read as follows:

"Section 2a. Nothing in this Constitution shall be construed to require any person, who at the time of the holding of an election hereinafter referred to is, or who, within eighteen months immediately prior to the time of holding any such election was, a member of the armed forces of the United States or of the Armed Force Reserve of the United States, or any branch or component part of such armed forces or Armed Force Reserve, or the United States Maritime Service or the United States Merchant Marine, and who is otherwise a qualified voter under the laws and Constitution of this state, to pay a poll tax or to hold a receipt for any poll tax assessed against him, as a condition precedent to his right to vote in any election held under the authority of the laws of this state, during the time the United States is engaged in fighting a war, or within one year after the close of the calendar year in which said war is terminated.

Provided, however, that the foregoing provisions of this section do not confer the right to vote upon any person who is a member of the regular establishment of the United States Army, Navy, or Marine Corps; and provided further, that all persons in the armed forces of the United States, or the component branches thereof, not members of the regular establishment of the United States Army, Navy, or Marine Corps, are hereby declared not to be disqualified from voting by reason of any provision of sub-section "Fifth" of Section 1, of this Article."

Sec. 2. The foregoing Constitutional amendment shall be submitted to

a vote of the qualified electors of this state on August 25, 1945, at which election all voters favoring said proposed amendment shall write or have printed on their ballots the following:

"FOR the amendment to Article VI of the Constitution of Texas, providing that any person in the armed forces of the United States, or the Armed Force Reserve of the United States, or of any branch or component part thereof, or of the United States Maritime Service, or the United States Merchant Marine, or who has been a member of same within eighteen months prior to the holding of any election in this state authorized by law, and is otherwise a qualified voter, shall not be required to pay, or to hold a receipt for the payment of, a poll tax in order to vote at any such election, if same is held while the United States is at war or within a certain stated time thereafter."

Those opposed to such amendment shall have written or printed on their ballots the following:

"AGAINST the amendment to Article VI of the Constitution of Texas, providing that any person in the armed forces of the United States, or the Armed Force Reserve of the United States, or of any branch or component part thereof, or of the United States Maritime Service, or the United States Merchant Marine, or who has been a member

of same within eighteen months prior to the holding of any election in this state authorized by law, and is otherwise a qualified voter, shall not be required to pay, or to hold a receipt for the payment of, a poll tax in order to vote at any such election, if same is held while the United States is at war or within a certain stated time thereafter."

Sec. 3. The Governor shall issue the necessary proclamations relating to the publication of the foregoing Resolution, in the various counties of the state, and shall cause the same to be published as required by the statutes and the Constitution in connection with the submission of proposed amendments to the Constitution, to the people for their action at a statewide election. If it shall appear from the returns of the election at which the foregoing amendment to the Constitution is voted upon that a majority of the qualified voters have voted for said amendment, same shall then become a part of the Constitution of Texas.

Sec. 4. There is hereby appropriated out of the General Fund of the State of Texas, not otherwise appropriated, the sum of Fifteen Thousand Dollars (\$15,000.00), or so much thereof as may be necessary, to pay the expenses of advertising said Resolution in each county in the state and for such other purposes as may be necessary, or required by law, or by the Constitution.

Fullingim, Baptist pastor, read the ceremony in the presence of Dr. and Mrs. Walker, Mr. and Mrs. Lee Guthrie, Miss Beth Stiles, Mrs. L. D. Lancaster and daughter, Elaine, and W. J. Pollard. The bride chose a rose and white printed sheer dress with white accessories. She wore a shoulder corsage of pale pink rosebuds. MOVIE CHATTER
She Gets Her Man
 For Friday-Saturday, June 15-16, the Rogue offers a somewhat unusual picture to its patrons. It is unusual from the standpoint that it is not a western, but rather a screwball comedy. And, though you be a western fan, we can assure you that you will thoroughly enjoy this fine comedy called *She Gets Her Man* which stars Joan Davis and Leon Errol. It is guaranteed to chase the blues away and cause you to relax.

God Is My Co-Pilot
 You have heard much in the past several years concerning General Chennault and his Flying Tigers, and now for the first time you have the

opportunity of seeing their story on the screen. *God Is My Co-Pilot* was written by Capt. Robert L. Scott, one of the Flying Tigers, and his book has been made into a movie by the same name. It comes to the Rogue Preview - Sunday - Monday, June 16-17-18, with Dennis Morgan plus all the original cast of Tigers played by important film personalities. Put this picture on your MUST list and we guarantee you will be more than satisfied that you came.

Roughly Speaking
 Rosalind Russell and Jack Carson furnish the star power in Warner Brothers' *Roughly Speaking* which comes to the Rogue Wednesday - Thursday, June 20-21. Here we have another of those fast moving comedies that starts out to go nowhere and ends up by doing nothing, but in the meantime you have had the time of your life trying to keep up with all the nonsense. We believe you will go for it in a big way.

SOME DIED IN THEIR SHROUD LINES ON BLOODY 'ISLE'
By BUD HUTTON
Issel River Line, Germany, Mar. 25—American paratroopers today drove eastward from the island of bloody ground they took and held to spearhead the Allied thrust beyond the Rhine.

Past wrecked gliders, past the black skeletons of fire-raised transport planes, and away from the German fields mottled by their colored chutes, these remnants of U. S. and British paratroopers moved to strike at enemy forces routed in yesterday's airborne attack.

The paratroops were back fighting as doughfeet but even if they should stay earthbound they will always be the guys who jumped across the Rhine and opened the road to Berlin—and did it the hard way.

The C46 was burning when we hooked up and shoved for the door. Bob Reeder and the rest of the carrier's crew never said a word. They stayed in there to keep us level and

we went over the side into a weird sky of bursting flak, lazy tracers and colored silk.

Flak hit one man in the air and he blew up.

Col. Jim Coutts, the Philadelphia West Pointer, slipped out of his harness, walked through burp-gun fire and began to attack before he had a battalion, let alone his 513th Parachute Regt. of the 17th AB Div.

Lt. Col. Ward Ryan another West Pointer from Ft. Atkinson, Wis., and the rest of our stick landed squarely in the middle of a German artillery CP. Some of the stick died where it hit.

It was difficult to be sure, but the 513th Paratrooper Pfc Lynn Vaughn, of Georgetown, probably took the first two prisoners. He landed in a tree, slid down, shot one Jerry. The other two quit. Perhaps the first man to kill a German was Sgt. Curtis Gadd, of Cleveland, who unslung his M1 in the air and splattered a Nazi soldier who was beating his horse to a gallop across the field.

Mostly, the paratroopers figured the first didn't matter.

South of us Col. Edson Raff, who took the first American troopers into a combat drop in Africa, was on the ground with his 507th Regt. and clearing the way to a link-up with British who had crossed the Rhine in darkness.

As Col. Coutts and the main force fought southward, the regimental executive officer started out from the Nazi-CP with what got to be known after seven hours of fighting as "Task Force Ryan." TF Ryan never had more than 40 men including medics but it took more than 100 prisoners. The entire 513th Regt., from 1015

when it hit until nightfall, took more than 1,100 prisoners. With enemy killed and wounded, that figured out to more than the regiment's strength.

The cost was one man out of every ten.

Side by side with the paratroopers fought the glider pilots who wheeled their craft down to the fields as the troopers started shooting.

FO Billy Hill, a gliderman from Brewster, Ala., grabbed a tommy-gun and tacked on to Task Force Ryan, "madder than hell because a mortar busted that lovely old glider after I got it down right."

Curtiss Watters, of Cape Girardeau, Mo., organized the glider pilots of the 41st and 42nd groups into combat teams and took on German artillerymen. Some crews of burned C 46s helped.

You'd have a hell of a time telling the 513th parachuters that the air corps isn't all man. Everybody fought. Jerry was scared but sometimes he fought like a guy defending his home. Then a lot of brave men died. A lot of brave men lived, too.

You'll go from one end to the other of the island in the middle of the German army that the paratroopers took and held and there'll never be a braver man than old Doc Moir.

Doc Moir, a major, comes from Medford, Wis. He's the regimental surgeon. It's against all rules to shoot at medics but a lot of them got shot yesterday.

But from the moment he went out of a burning C46, Doc Moir hurt and making the Schmeisser fire popped loudest, walking among the mortar hurt and make it easier for those he couldn't help.

Probably he didn't plan it that way but what Doc Moir was when the chips were down made the paratroopers better fighting men. The guys who charged German emplacements with gun butts and knives figure Doc Moir was a pretty brave guy.

One "take this" is better than two "you shall have's."

The first time your columnist's name ever appeared in print was about the age of 6: "Master Boyce House is recovering from a spell of the chicken-pox." Right under that highly important item was: "Farmer George Higgins, one of the most successful farmers of the Liberty community, was a welcome visitor to the Argus office Saturday and while here left ye editor a watermelon and renewed his subscription for another year."

One line about my having been the victim of a long illness and four lines about a farmer renewing his subscription! It was a long time before I forgave the press—in fact, it was after I had become a home-town weekly editor myself and realized that there was nothing more important than a subscriber renewing.

PFC HENRY L. LANE
Pfc. Henry L. Lane of Mobeetie has been assigned to the San Bernardino (Calif.) Air Technical Service Command, Southern California AAF maintenance and supply center, for special mechanical training, according to an announcement just received from the Command.
Pfc. Lane, son of Mr. and Mrs. B. R. Lane, Mobeetie, is a member of an aircraft service group which is the first group of its kind to receive training for war theater maintenance training of the Air Forces newest fighter plane, the announcement disclosed.
His present station is part of the globe-girdling AAF maintenance and supply network operated by the Air Technical Service Command, which is also the design, engineering and procurement agency of the AAF.
Pfc. Lane previously was stationed at San Antonio, Texas.

PFC EUGENE L. McCLAIN
6th Army Group, Germany—Medics of the 111th Medical Battalion, veterans of combat in Italy, France and Germany, treated their 46,000th patient when they supported the 36th "Texas" Division and its allied armor and artillery in breaching the Siegfried Line facing General Jacob L. Devers' 6th Army Group. Pfc. Eugene L. McClain of Wheeler is a member of the battalion.

Litter bearers and ambulance drivers of the 11th braved intense enemy fire to transport casualties from the Siegfried battlefield to the battalion's clearing station. Here medical officers administered aid to wounds and prepared patients for evacuation to hospitals a few miles behind where detailed surgical care would be given. Men who received minor wounds were treated and held for subsequent return to duty.

This action marked the U. S. Seventh Army unit's second anniversary overseas with over 365 days of combat support. Many medics have been wounded and 29 have been killed while performing the dangerous task of battlefield evacuation. Over 200 Purple Hearts have been awarded while heroic action has won for them 20 Silver Stars and more than 200 Bronze Stars.

Lt. Col. John M. Hardy, Brownwood, Texas, Battalion commander, pointed out that during an 18-month operational period there were three men sick for every man wounded. His clearing company, which operates a 200-bed hospital, has returned as high as 27 per cent of admissions direct to duty. These included mainly disease cases and some minor wound patients.

CPL J. D. HERD
1st Base Air Depot, Warrington, England—V-E day found Cpl. J. D. Herd of Wheeler on the job, helping to ready more combat planes and equipment for immediate action wherever they might be needed.
Cpl. Herd, son of Mr. and Mrs. H. H. Herd, Wheeler, is one of the crack Air Service Command team who pitched in to back the air assaults that helped knock Germany out of the air.

Commending their battle-backing efforts, Brigadier General Morris Berman, Commanding General of the Base Air Depot Area, Air Service Command, declared: "These soldiers of the Base Air Depot have, since their work began, dispatched 415,000 tons of air corps supplies, assembled and modified 12,000 combat planes, and repaired or overhauled more than 50,000 aircraft engines.

"Every soldier, whatever his job, contributed materially to the magnificent, final result. I commend them, and I know that whatever their next task, they will fulfill it with credit to themselves and their country."

Cpl. Herd has been overseas since October 1943 and joined the army in February 1941. He was employed by the Skelly Oil Co., Pampa. He attended Wheeler High School.

of the issuance of this citation, same being the 16 day of July A. D. 1945, then and there to answer Plaintiff's Petition filed in said Court, on the 2 day of June A. D. 1945, in this cause, numbered 3604 on the docket of said court and styled Hubert Shipman, Plaintiff, vs. Era Shipman Defendant.

A brief statement of the nature of this suit is as follows, to wit:

Suit for divorce, plaintiff alleging in substance as follows: Residence for statutory time in State and County, that he and defendant legally married in Wheeler County, Texas on or about March 21, 1942, they living together as husband and wife until May 21, 1942, when on account of cruel treatment on the part of defendant toward plaintiff, he was compelled to finally separate from her, since which time they have not lived together, which cruel treatment was of such a nature as to render their further living together insupportable, plaintiff praying for divorce, as is more fully shown by Plaintiff's Petition on file in this suit.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.

Issued and given under my hand and the Seal of said Court, at office in Wheeler, Texas this the 2nd day of June A. D. 1945.

Attest: Ollie W. Beene, Clerk District Court, Wheeler County, Texas

PITCH IN! on the mighty 7th... it's two big War Loans in one!

You have seen pictures of American soldiers falling wearily into fox-holes, too tired to even dodge the shells raining all around them. Did it make you fighting mad? You have seen pictures of American bombers hit by enemy fire, plummeting downward into enemy territory. Did it make you fighting mad? Then pitch in... turn your folding money into fighting money... buy twice as many bonds as you bought last time! The mighty 7th War Loan must do the job that two war loans did last year. It's the biggest, most urgent war loan of all. Back it up with every dollar you can lay your hands on.
