for signing applications.

A total of \$678.47 had been turned in as we went to press this week. Of this amount Wheeler contributed \$602.97 against a quoa of \$1,100 and Jowett came through with \$75.97 to make the best showing of any community in the area. Jowett had been assigned a quota of \$60. C. H. Candler was the chairman.

Bodie Cole and R. J. Holt, Jr. an excellent job of the southwest corner of the Wheeler busness district, collecting \$145 against a quota of \$125.

The most liberal contributors in Wheeler were: Citizens State Bank, H. M. Wiley, Wheeler Hosnital and the Southwestern Public vice, each of whom gave \$25. Here are the funds turned in to Wednesday night: American Legion street collection \$133.90, Southeast corner block \$145 West side square \$87.50, industrial district \$108.07, south side square \$108.50, Wheeler churches \$20 and Jowett \$75.50.

Dr. H. E. Nicholson, Harry week. Wofford and Buford Conwell who re directing this year's campaign are hopeful when additional Wheeler contributions are reofficial explained, but he emphasized that the applications must erts come in, the quota will be sched. It is going to take a lot unsolicited contributions to

Uncle Bud Burgess Has Some Explaining To Do

"Uncle Bud" Burgess who enjoys the honor of being nextdoor neighbor to The Wheeler Times, is proudly exhibiting the head of a huge catfish in his shoe shop window this week.

Uncle Bud had nothing to do with catching the fish; in fact, doesn't even know who caught it and mailed it to him. He received a big box the other day and not knowing what was inside, he unpacked the box in the presence of witnesses. The word spread around town

and although Uncle Bud insisted to early questioners that he caught the fish, weighing 85 pounds, by himself, unaided, with one hand on the pole, he broke down when confronted by witnesses who had seen him take the fish head out of its

Uncle Bud asked The Times to please correct any misunderstanding about the fish. He said he did not intentionally leave the impression he caught the fish. He said what he intended to say was that he had caught many fish of approximately the same size. He recalls he was running some machinery in his shop when various people dropped in his office and asked him who caught the fish and says that undoubtedly the noise drowned out his voice, causing

the misunderstanding. (EDITOR'S NOTE:-We are publishing the above article to keep peace with a neighbor, and the veracity or lack of it does not necessarily reflect the opinion of this newspaper.)

Grand Jury Cuts Charge To Assault

A thirty-first district court grand jury convening in Wheeler Wednesday returned an indietment charging Eugene Young and John Sloss of Borger with aggravated assault after examining witnesses in Wheeler's "wild west" fracas on the afternoon and night of March 5

The two men had been charged with assault with intent to murder in a complaint filed by H. S. Goodner of Pampa, but the charge was reduced to a misdemeanor after grand jurors had examined witnesses in the case. Young and Sloss will face trial in County Court some time in April. They are being held in jail until bonds of \$1,000 each have been posted.

Conviction on an aggravated assault charge carries a fine of from \$25 to \$1,000 and a jail sentence of from one month to two years, or both.

The grand jury, scheduled to convene on April 8, was called Wednesday by District Judge W. R. Ewing in order to complete preliminary plans for an early trial.

Young and Sloss are charged Grocers who have not received with holding 16 guests of the their posters by the effective date. It wasn't so long ago that only a few farmers in the Panhandle-Plains area knew that the finest potatoes in the country could be grown in this area. It was a small crop then and didn't amount to much.

But look at the potato crop now! It's important and becoming more so every year. Our potatoes are superior to those from the northern states. They taste better-bake better. Agriculture experts will tell you that! And our potatoes are easily marketed.

Yes-we have everything in the Panhandle-Plains-including an abundant supply of cheap, dependable electric power for irrigation and processing of agricultural products.

PUBLIC SERVICE

21 YEARS OF GOOD CITIZENSHIP AND PUBLIC SERVICE

Where Is Your New Home Now?

Right now the home you want to build is in the tree, the iron ore pits, the clay banks and the quarry.

Legislation, HH priorities, allocations, preference ratings, will not build a home. Neither will such legal juggling of a meagre supply of materials produce building materials. An HH priority may mean little more than a license to hunt home-building

Lumber and building material dealers and contractors can build all the homes America needs-if building materials are available. But unless production of materials is unblocked, no one can build homes. Whether a house is labeled "Public Housing" or "Prefabricated Housing" or a "Privately Built Home"-all are bidding for the same supply of

Here are the materials that must be produced. These are the materials in short supply which are subject to distribution controls through priorities:

Lumber Concrete Block Clay Sewer Pipe Structural Clay Tile Gypsum Board Cast Iron Soil Pipe Gypsum Lath Cast Iron Radiation Bath Tubs

Common Brick Millwork **Face Brick**

What has happened that all these essential building materials are lacking? Have we exhausted raw material supply? Or plant production?

RA

This w flowing four to high-gle colors!

CL

NO! But the irresistible force of industry has run into an immoveable body! In the case of Brick and Tile, for example, it took

the OPA six months to grant a price adjustment that allowed 125 of 400 closed plants to reopen. This action resulted in a 35% increase in production within the following three months.

Similarly, OPA's unrealistic pricing policies blocked adequate production of Gypsum board and lath, cast iron soil pipe, and clay sewer pipe for Although price adjustments have been granted in the above-mentioned fields, lumber production

still remains under wartime pricing formulas. It is still more profitable for the lumber mill to cut items for export to foreign countries, or to cut logs into sizes used by industry than it is to manufacture lumber for home construction. Premium prices for industrial items have been granted in some instances during the war, but now that peace has come, price adjustments encouraging home con-

struction lumber have not been made by OPA. Price adjustments are needed to obtain maximum production of hardwood flooring, millwork, ceiling, siding and plywood.

Recommendations have been made to the OPA

repeatedly, but action is not forthcoming.

The Building Industry stands ready to build the homes Americans need. But until the production and flow of materials is unblocked by OPA, thousands upon thousands of homes for Americans and veterans will go unbuilt!

Any government program that does not First remove the obstacles blocking production of materials will simply add additional difficulties to the problem facing the building industry.

U found Gas urJand

Twenty years ago you would have been disappointed if drilling on your land had . produced only natural gas. "No oil . . . might as well be a dry hole!" Even today, if your land is far

from a pipe line, a gas well would be a disappointment, for GAS IS WORTH NOTHING UNLESS SOLD! That's what it means to have a pipe line near your land; a market for your gas-new wealth for your own family and hundreds of other families in the area. Last year the United Gas Corporation and its associated companies, Union Producing and United Gas Pipe Line, had 278,000 acres of Texas land under lease or owned in fee. United Gas is marketing gas for thousands of land-owners and royalty-owners through its 12,000 miles of main and distribution lines. This is only one of the ways the United Gas companies are helping to build prosperity, creating payrolls and jobs, benefiting every resident of Texas in one way or another.

Admission-20 and 40 cents.

CARD OF THANKS

May I take this method to express to my friends in Wheeler my sincere thanks for the kindness shown me during my illness. I want to especially thank Dr. Nicholson and the nurses and others and car jacks. Also complete stock for the fine treatment I received of tractor tires. NASH APPLIat the hospital.

I am getting along fairly well and would like to hear from any of my friends at Wheeler. W. S. Reno
