WHAT MAKES  
 THE BLACK MARKET  
 The Saturday Evening Post re-  
 cently ran an extra-ordinary gra-  
 phic article entitled "Confessions  
 of a Black-Market Butcher." The  
 dodges used to circumvent the  
 law are described in detail. In  
 one instance, a local undertaking  
 establishment and the undertaker's  
 hearse were used to collect

and handle illegal beef. The pro-  
 fits were enormous. To quote  
 the anonymous author's own words,  
 "I've cleared more in the last  
 three years than my father, who  
 owned the shop, made in thirty-  
 five years . . . I've been socking  
 it away where the income-tax  
 boys won't find it."

Legitimate meat dealers, he ob-  
 serves, such as the chain stores,  
 honest independent merchants, and  
 the old established packing houses  
 sold meat at ceiling prices—when  
 they could get meat. But their  
 supply was nothing in the light  
 of the demand. The black mar-  
 ket was siphoning off the bulk of  
 it. And in this connection the  
 writer makes this extremely im-  
 portant observation: "You got a  
 black market because the govern-  
 ment didn't enforce price ceilings,  
 and braintrusts who knew nothing  
 about the business made dumb  
 rules that encouraged breeders,  
 packers, farmers and dealers like  
 me to cheat."

That's worth thinking about,  
 now that OPA ceilings on meat  
 prices have been restored. The  
 purpose of this article isn't to dis-  
 cuss the extremely intricate prob-  
 lem of what meat should and  
 should not cost. It should be clear  
 to everyone, however, that arti-  
 ficially low prices will result only  
 in the emergence of the black  
 market on its old-time scale. You  
 can't police every store, every  
 farmer, every village slaughter-  
 house. During the period when  
 OPA meat controls were off, meat  
 of all kinds appeared in abun-  
 dance in legitimate outlets. Prices  
 went up—at least in part because  
 of the elimination of government  
 subsidies—but buyer resistance  
 was gradually controlling the rise.  
 So was competition, with stores  
 honestly competing against each  
 other once more for consumer  
 business.

The logical cure for the black  
 market is adequate production,  
 real and open competition among  
 retailers, and the normal proces-  
 ses of supply and demand.—From  
 Wichita Falls Record.

**Danger Days Ahead**

Carelessness, the predominating  
 cause of accidents, is teaming up  
 with the mass movement of school  
 going youngsters to reap a red  
 harvest that would make a ceme-  
 tery of little graves, side by side,  
 more than a mile long—a parade  
 of the injured the same length.  
 According to the Texas Safety  
 Association, accidents of all kinds  
 made human wastage of 883 school  
 age children last year.

**QUESTIONS & ANSWERS**

Q. If I have obtained a Veter-  
 ans Administration guaranteed  
 loan to purchase a farm, am I  
 still eligible to receive the self-  
 employed veteran's readjustment  
 allowance?

A. Yes. You may obtain the  
 monthly allowance, depending on  
 the length of your military ser-  
 vice, up to a maximum of 10 2-3  
 months. The payments guarantee  
 to the farmer a minimum net in-  
 come of \$100 a month during the  
 period of his entitlement.

Q. I have had no farm experience  
 but I believe I could learn quick-  
 ly to operate a farm successfully.  
 Is there any way I can get train-  
 ing under the GI Bill so that I  
 could later qualify as a good risk  
 with a lender?

A. Under both Public Laws 16  
 (vocational rehabilitation) and  
 346 (GI Bill) eligible veterans are  
 entitled to both on-the-farm train-  
 ing and institutional education  
 which give them a practical and  
 a scientific knowledge of agricul-  
 ture.

Q. If I obtain a real estate loan  
 to purchase a farm and it is guar-  
 anteed by VA, may I also obtain  
 a VA guarantee on a loan to pur-  
 chase machinery, livestock, seed  
 and other farm equipment?

A. Yes, you may obtain a com-  
 bination of real estate and non-  
 real estate loans. However, the  
 percentage of the guarantee maxi-  
 mum used by a veteran is obtain-  
 ing one type of loan reduces by  
 that percentage, his entitlement  
 to guarantee of another type loan.  
 For example, if a veteran obtained  
 a farm real estate loan guaranteed  
 of \$2,000, his non-real estate guar-  
 antee maximum would be \$1,000.

Q. I am planning on going into  
 business for myself with the aid  
 of a GI loan but I don't intend  
 to make this move for another  
 three or four years. Will it be  
 too late for me to apply for a  
 government loan then?

A. No. The time limit for loan  
 applications is now ten years af-  
 ter your separation from the ser-  
 vice or ten years after the end  
 of the year, whichever is the later  
 date.

The Veterans Administration

today reminded veterans in educa-  
 tion or training of the changes  
 in subsistence allowances neces-  
 sitated by recent alterations in  
 servicemen's legislation.

- The following changes were em-  
 phasized:
1. Subsistence limitations apply  
 only to non-disabled veterans,  
 training under Public Law 346  
 and not to disabled veterans  
 training under Public Law 16.
  2. The limit on subsistence al-  
 lowances applies to Public  
 Law 346 veterans pursuing a  
 standard apprentice course  
 or taking on the job training,  
 as well as those in school.
  3. Each P. L. 346 veteran must  
 give his training officer or re-  
 gional office, not later than  
 Nov. 5, a statement of his  
 earnings during August, Septem-  
 ber and October. After  
 veterans have turned in this  
 notice, VA will start making  
 adjustments in any subsistence  
 allowances that require  
 changes.
- If the veterans need to refund  
 to the government any money  
 they have received in August,  
 September and October sub-  
 sistence checks they will be  
 notified of the amount.

The "Nurses Wanted" sign is  
 still on display at VA hospitals  
 in Texas, Louisiana and Mississip-  
 pi, which are short 400 nurses.  
 Salaries for VA nurses range  
 from \$2645 to \$5905 a year. In  
 addition, VA offers retirement  
 pensions, recreational facilities and  
 other benefits for nurses.

Bicycle riding—as a wholesome  
 form of recreation and exercise—  
 will become a phase of the re-  
 creational and entertainment pro-  
 gram in Veterans Administration  
 hospitals and homes of the South-  
 west.

VA's Washington Office has or-  
 dered 1,000 bicycles, which will be  
 distributed among the 110 hospitals  
 and homes of the VA.

**AROUND WHEELER HIGH**  
We Seniors notice that some of the Exes are sporting bruises after the football game Friday night.

We wonder why someone left a note on Mr. Osborn's desk? Could be she wanted him to make the American History lesson easier for them.

Nelda is catching on fast to our Wheeler High traditions. She even chews gum when she knows she isn't supposed to.

Richard's arm seems to be much better. Maybe he will be playing football soon.

Anita has been sick the last few days. I see that she is in school today, though.

Clyde, will you never learn to spell "whose"? The "s" comes before the "e", not after it.

It seems that things were real-

ly popping over the week end for everyone, especially for Peggy and June. Have you seen their bruises?

Betty, we hear you had company over the week end. Could it have been Jody and Ruby?

Yvonne, you had better watch out or your "dream girl" will stomp you for going with her boy friend. (No, she doesn't care, honey)—Peg.

Was that Ruby and Raymond we saw at church Sunday night? Impossible as it seems, it was.

Betty, how are you and Johnny getting along? Well, judging from Sunday night you are doing OK.

The Home Ec I and II girls are cleaning and painting the Home Ec building and doing a good job of it, too.

Well, well, Dolores, how are you making out lately? Oh, just sputtering along, huh?

James, we want you to quit flirting with all of these girls. Some of them are bashful.

Joyce B. what is this we hear about that certain something you are going to get for Christmas?

Johnny, haven't you gotten your hair trained, yet?

Joyce Brown has had so many boyfriends lately we can't even keep up with her.

Vaneta, we hear you are a lone wolf again (all of the free boys had better watch out.)

**PEP SQUAD NEWS**

Iris Conner, sponsor of the Pep Club this year, called a meeting of the girls of high school, Tuesday, Sept. 3. The girls decided on their suits which will be black slacks and sweaters, gold W and yellow diskies. They elected for their cheer leaders, June Johnson, Anita Weatherly, Ruby Reid and Peggy Weatherly. The leaders will have black skirts and sweaters, gold trimmings and gold tight.

We will accompany our boys to all the games Coach thinks necessary, which we hope will be all of them. We are going to do our best to help our Mustangs win.

Carson Barton McLendon

**TOP HONORS** for Texas in the 1946 model car design competition of the Fisher Body Craftsman's Guild went to Jean Carson of Borger, who won the state junior award, and Charles D. McLendon, of Longview, who took senior division honors. Young Carson's model also received a regional award as the best junior in the states of Texas, Arkansas, Louisiana and Oklahoma. Because he is the son of a GMC truck dealer, Craftsman's Guild rules require a duplicate award to the next highest ranking boy for state junior honors. This was received by Dan K. Barton of McAllen, while Robert Eskridge of Little Rock, Ark., was named a junior co-regional winner. Carson and Eskridge will attend the national convention at Detroit, Mich., to compete for university scholarships. The Craftsman's Guild is an educational foundation sponsored by General Motors to encourage development of handiwork and craftsmanship among teen-age boys.

Mr. and Mrs. L. A. Parks are our class parents. Jack Mitchell is Sgt.-at-arms.

**HOMEMAKERS MEET**

The Future Home Makers Club met Monday to elect officers.

The officers elected are: president, Dolores Ahler; vice president, Ruby Reid, secretary, Patsy Sue Hunt; treasurer, Peggy Rodgers; reporter, Frances Porter; assistant reporter, Mary Alice Close.

Approximately 40 students belong to the club.

**HEADS PREVENT ACCIDENTS**

Would you gamble the life of your child on the flip of a coin? Of course not! Then take a tip from the Texas Safety Association and teach that youngster to take no chances—to look in all directions when crossing a street—to obey signals—to THINK about what he's doing. Heads always win in preventing accidents!

**State Fair Has Big Poultry Show for '46**

Walter Burton of Arlington, outstanding poultry authority who has served as superintendent of the State Fair of Texas Poultry Show since 1913, has again been appointed to that position for the 1946 State Fair, held at Dallas October 5-20, announced Ben E. Cabell, chairman of the livestock and agriculture committee of the State Fair.

Mr. Burton stated that in addition to the Poultry Show, which includes a Bantam Show, a Turkey Show, a Waterfowl Show in a large pool adjoining the Poultry Building, and an egg laying contest, other outstanding event will be held. Entries from as far as California are expected for the Pigeon Show, and Rabbit fanciers will have their own show.

The Junior Poultry and Turkey Show for 4-H Club and Future Farmer of America members will open the show on October 7, Mr. Burton said.

**1945-Crop Cotton To Be Pooled October 1**

**COLLEGE STATION**—All cotton still under the 1945-Crop Loan on October 1, 1946, will be pooled for producers' account by the Commodity Credit Corporation.

According to F. C. Elliott, cotton work specialist of the Texas A. and M. College Extension Service, Texas farmers who have 1945-crop cotton under loan now should give serious consideration to marketing the cotton before it is placed in pools. The average 1945 loan rate for 15-16-inch Midling cotton, gross weight, was 21.09 cents per pound. Since the price now has climbed considerably, producers should be able to dispose of this cotton at prices that will give them a substantial profit.

The 1945-crop loan cotton which is not redeemed before October 1 will, as provided in the loan agreements, go into pools. Not until all the cotton in the pools is liquidated will the producer receive any payment. Net proceeds, if any, will then be distributed among the producers whose cotton was placed in the pools in

proportion to their interest. From the proceeds of the pool cotton will be deducted all advances and accrued costs—including storage, insurance and handling charges. No payment will be made to producers at the time their cotton is placed in pools and after October 1, farmers will not be entitled to order the sale of cotton now under loan.

#### Hall of State Seeks County Histories

DALLAS — The Texana Reference Library in the Hall of State, Dallas, wants materials on the History of Wheeler County, and officials of Dallas Historical Society are appealing to citizens of the county to help locate the needed items.

"Copies of these books and pamphlets are in the hands of pioneer citizens and their descendants," Director Herbert Gambrell said, "but they are not to be found in bookstores. Placing them in this great shrine of Texas History for the use of the public, will not only be a permanent memorial to the donors, but a genuine service to those seeking accurate information about the county."

Information regarding available county materials should be addressed to:

dressed to the Director, Hall of State, Fair Park, Dallas 1.

Biographical directories, booklets on the histories of towns, churches, schools and other institutions, are also desired for the library, along with histories of the county itself. Special anniversary numbers of county newspapers are also wanted.

A special museum display of Texas County Histories is planned for the Hall of State during the State Fair of Texas in October. The Hall of State occupies the center of the Fair Park, and will be open daily, free of charge, to visitors.

**FARM FACTS**  
WORTH KNOWING

**Q. How can nutritional scours in calves be kept down?**

**A. To keep nutritional scours in calves down, watch all these points:**

1. Feed limited amounts of milk for 30 days rather than over-feeding on milk.
2. Feed proper balanced dry calf feed, block salt, good quality hay, and plenty of fresh water.
3. Thoroughly wash all utensils after each use.
4. Keep calves dry and free from drafts.

**Q. Are blind or inverted teats inherited?**

**A. Yes. Blind or inverted teats are a heritable physical defect which will handicap production. When a high rate of production is reached in a hog breeding herd, such as the record of ten pigs per sow farrowed, weaned and marketed from each sow in the Purina herd at the Ralston Purina Company's Research Farm, all defects, large and small, must be constantly watched for and eliminated from the herd. This is only one point to be considered in a program of good breeding, sound management, careful sanitation, and good feeding.**

**Q. Are goat kids difficult to raise?**

**A. Problems occur in getting goat kids off to a good start as with other young animals. They should be removed from the mother at birth and placed in separate, clean, disinfected pens. When kids are 4 to 8 hours old, they should be pan fed the mother's milk. Then small amounts of milk at (100° F.) should be fed often for the first week. Milk can be replaced at one month with a reliable dry feed for goat kids.**

**Q. What size should the slats of a floor of a turkey porch be? My birds are kept on slats until they go to market.**

**A. 1" x 1", or 1" x 2" slats, spaced one inch apart, seem to be the most practical.**

Send your questions about livestock or poultry problems to FARM FACTS, 825 South Eighth Street, St. Louis 2, Missouri. Questions will be answered without charge, either by mail or in this column, as a service of this newspaper.

**Oldest Dog in America: Is It To Be Found Here?**

In the hope that it may be found in this locality, the Wheeler Times has been asked to aid in the Gaines Dog Research Center's search for the oldest dog in America.

The dog is wanted so that it—and its owner or owners can be duly honored during the forthcoming observance of National Dog Week, September 22 to 28.

Persons owning or knowing of extremely aged dogs are urged to send complete data and pictures immediately to Harry Miller, executive secretary, Gaines Dog Research Center, 250 Park Avenue, New York 17, N. Y. In the case of a purebred, a copy of the registration papers should accompany the communication, while in the case of a crossbred, an affidavit from the owner accompanied by sworn statements from persons acquainted with the dog since birth should be sent. The final selection will not be made until the leading candidates have been seen and investigated, according to Mr. Miller, who adds that any

documentary papers submitted will be returned after National Dog Week is over.

**WHAT CURE?**  
By Dr. C. C. Merritt

Webster's definition of "cure" is to make whole again.

No one of the many healing Arts has any corner on the cure of disease. And there are some ailments that no one of these vast healing arts can cure.

Whatever may be the remedy it may only assist the organic mechanism of the human system to do its own healing.

Chiropractic helps the human organism to self-correction in many of the most common ills.

Chiropractors do not make the claim that chiropractic may replace any of the other healing arts.

Of what does a course in chiropractic consist?

It takes four years to complete the course. Off-hand, let me give you a list of some of the studies: Anatomy, Physiology, Organic & Biological Chemistry, Pathology, Hygiene & Sanitation, Psychology, Symptomatology, Diagnosis, Relatology and the application of the principles of chiropractic. This is not a complete list of subjects required but it is sufficient to give one an idea of what the science of chiropractic consists.

**Must Show Proof of Ownership Before You Obtain Title For Car**

AUSTIN—Buyers of used cars were warned Thursday to secure from the seller acceptable proof of ownership as the State Highway Department moved toward wiping out traffic in stolen and mortgaged motor vehicles in Texas.

"All County Tax Collectors have now received instructions to hold the line in requiring proof of ownership on all applications for vehicle titles," E. J. Amey, Director of Motor Vehicle Registration announced. Applications for Texas titles are made through local Tax Collectors under the present law.

"Properly signed certificates of title from any of the thirty States having a title law similar to Texas is the best evidence of ownership. The purchaser should insist upon receiving a release of any lien recorded on a Texas title or a title issued by any other state," Amey stated.

Outlining minimum acceptable ownership proof of vehicles brought into Texas from any one of the seventeen non-title States, which includes Louisiana, Amey announced, "We will accept a 1945 license receipt from Louisiana or other non-title State and the current receipt if both are in the name of the person applying for the Texas title."

"Bills of Sale showing all changes in ownership must supplement such 1945 license receipt, if applicant for a Texas title is not the same person in whose name the receipt is issued," he added.

Strict enforcement of the Texas title law was endorsed at a recent meeting of car dealers, enforcement officers, tax collectors, and representatives of finance and insurance companies. The meeting had been called to determine if present requirements for title were meeting with the approval of all concerned.

"Numerous stolen and mortgaged cars bearing license plates from non-title States have been sold in Texas," Amey stated. "Purchasers of such vehicles are unable to obtain valid titles in Texas and the vehicles are subject to seizure by their lawful owners."

The National Automobile Theft Bureau has estimated that the current requirements of the Highway Department have reduced sales of stolen cars in Texas by half.
