The City Park

(An Editorial)

In a small place like Wheeler, there is very little for teenagers and children to do on week-day nights other than go to the show and then if they went to every show that came along they still wouldn't be occupied every night in the week and when a youngster is not occupied then is when he is most apt to get into some meanness or do something he wouldn't think of doing if he were occupied.

Since such is the case, it behoves the people of this fair little city to do everything within their power to provide good clean wholesome recreation for the youngsters . . . and if they have a place to gather for good sport and recreation they are less apt to do something that they shouldn't.

The Wheeler Kiwanis Club has taken on the project of improving the city park and fixing up a baseball diamond and tennis courts and having actually done a little work on the park proper and have drawn up a set of plans showing what they hope to make the park look like in the future.

We believe that one of the most immediate needs of the youngsters of Wheeler is a lighted softball diamond and it is part of the Kiwanis program to build such a diamond, but this has been put on the list of long range proposals in the list of improvements which are planned for the park due to the fact that it would entail a good deal of labor and possibly some little expense.

We believe that there are a number of public spirited citizens in Wheeler who do not belong to the Kiwanis Club and would like to help with this program of improving the park in more ways than one but we know that the Kiwanis Club is not going to come right out and ask you to donate your services or your money; however, anyone who feels inclined to help with this project won't have to look far to find a Kiwanian who will direct him to the proper authority. . . . George Gandy is general chairman of the Kiwanis park improvement committee.

The Kiwanis already have made arrangements to get the dirt moving work done without any cost to the club, and the Wheeler Gas Co. has agreed to haul the stone which will be used to build fireplaces and other things, and it is hoped that the Southwestern Public Service Co. will see fit to help out with the proposition of lighting the softball diamond.

If the entire park project, including the baseball diamond and tennis courts, along with swings, see-saws, sand box, fireplace and tables can be fixed immediately the youngsters of Wheeler will have some place to start spending their idle time as soon as the school term ends and there can be baseball games in the park at least two or three nights each week and this would not only furnish recreation for the participants but also for the spectators.

The public is invited.

OES Chapter Holds Regular Meet Tuesday

The Wheeler Chapter of Order of Eastern Star met in regular meeting Tuesday night of this week. After a short business session, the degree of the order were given to three candidates.

Following the disbursement of business, refreshments were served to about 25 members who attended.

MOBEETIE WILL OPEN SEASON SUN. AFTERNOON

People of this area will get their first look at the Mobettie entry in the Red River Valley Baseball League Sunday when they meet the strong Memphis nine in their opening contest of the 1949 baseball season. Sunday's contest is to be played on the Mobettie diamond beginning at 3:00 o'clock according to Frank Cocke, manager.

Sunday's contest will be the first outing of the season for the strong Mobettie nine but will be the second league game for the Memphis team since they opened their season last Sunday by taking a close contest from an improved Childress nine by a count of 2 to 1. Mobettie did not play last Sunday due to the fact that there are only seven teams in the league this year and they drew a bye in the opening round.

The Mobettie team will play at home almost every Sunday this year due to the fact that members of the league decided to play two games a week with one being played on Thursday night and the other on Sunday. Since Mobettie does not have a lighted diamond she will play all her Thursday games away from home and the most of the Sunday games will be played at home.

In other games in the league last week, Shamrock took a slugfest victory over Altus by a count of 17 to 15 and Wellington took a close contest from Mangum.

JUDGING TEAMS WIN AT LUBBOCK

James Clepper, Wheeler vocational agriculture instructor, took four FFA judging teams to Lubbock last weekend to participate in the area one and two judging contests. The teams taken were meats, cotton, dairy cattle and livestock.

The livestock judging team composed of Maurice Pettit, Lonnie Kelly and Lindon Sanders placed fourth in competition with 63 other teams from this area. Placing fourth qualified the team to compete in the state judging contests which will be held in Austin in the near future.

The meats team composed of Jamie Clark, Richard Brown, and James Cox won ninth place. Jamie Clark was high man in judging meat carcasses and cuts of meat and second high man in the entire meats contest.

The cotton and dairy cattle teams failed to place in the high 10 but did well according to instructor Clepper.

FFA TO HOLD ANNUAL FEED

The Wheeler FFA chapter will hold its annual father and son banquet at the Wheeler School Cafeteria Friday night, April 29 according to announcement made this week by James Clepper, vocational agriculture instructor in the local schools.

Members of the local FFA chapter will honor their dads by serving them fried chicken with all the trimmings.

Program for the affair will be presented by the boys themselves according to Clepper and there will be no principal speaker; however, Leroy Thurnburg, state vice-president of the FFA, will be present for the occasion.

Instructor Clepper pointed out the fact that this is one of the events that helps develop FFA members in leadership since they will run the whole show.

Drug Store Is Holding 2nd Anniversary Sale

This week marks the second anniversary of the Wheeler Drug Store under the management of Frank Wofford and to celebrate this anniversary and offer their thanks for your patronage they are offering some special values on nationally advertised merchandise.

You are invited to turn to another page of this paper and look over the values they are offering in this special anniversary sale.

There will be a special gift presented to someone at the drug store at 9:00 o'clock Saturday night.

MRS. LINDA CLAY FUNERAL HELD WED. AFTERNOON

Mrs. Linda Clay, a beloved Wheeler resident for 46 of her 57 years, passed away at the home of her daughter, Mrs. Cecil Denson, last Tuesday morning at 12:30 a. m. following approximately 14 months of ill health the last few weeks of which she had been bed fast.

Hundreds of friends, relatives and admirers gathered at the Wheeler Methodist Church Wednesday afternoon at 3:00 o'clock to pay their respects to this courageous, hard-working pioneer lady who had helped to serve them from the grocery store which bears her name for many years. Rev. Hugh Hunt, former pastor of the local Methodist Church officiated at the last rites and was assisted by Rev. S. Y. Allgood and Bascom Litton. Special music for the occasion was rendered by Frank Wofford and Mrs. R. J. Holt, Jr.

Melinda Wilmoth Taylor was born in White Flat, Greer County, Oklahoma on July 1, 1891 and departed this life on April 26, 1949 at the age of 57 years, 9 months and 25 days.

Linda Taylor was married to E. Monroe Clay in Wheeler on December 22, 1909 and to this union were born three daughters one of whom preceded her mother in death as an infant in 1913.

Mrs. Clay joined the Methodist Church in girlhood and was a faithful member until the time of her death.

Survivors include: two daughters, Mrs. Lottie Eva Denson of Wheeler and Mrs. Martha Pailee Ellis of Canadian; one sister, Mrs. Eva Lee of Wheeler; one brother, Lloyd Taylor of Captain, N. M.; three grandchildren, Mary Bob and Robert Denson of Wheeler and Frederica Ellis of Canadian.

Funeral services were held at 2:00 p. m. at the Wheeler Methodist Church. Burial was in the Wheeler cemetery.

Honorary pall bearers included: Frank Rogers, J. P. Clark, L. K. Fields, C. W. Allen, Clarence Robinson and Marvin Bradstreet.

Flower girls were members of the Cecilia Mann Sunday School Class of the Methodist Church and included: Mesdames H. E. Nicholson, George Berry, E. E. Willard, S. Y. Allgood, Tom Britt, D. O. Beene, C. J. Meek, Cora Hyatt, Monroe Galmor, Jess Swink, M. McIlhenny, Harold Nash, Clarence Robinson, J. M. Lawrence, Fred Farmer, Chester M. Hampton, Jess Crowder, H. M. Wiley, and Mrs. Ernest Dyer who has been an employee of the food store for the past 10 years.

Interment was in the Wheeler Cemetery under the direction of Clay Funeral Home of Shamrock and Kirk-Mason Funeral Home of Wheeler.

Dist. Supt. To Conduct Services At Mobettie

Rev. W. E. Hamilton, district superintendent of the Clarendon District, will preach at the Mobettie Methodist Church Sunday morning, May 1 at the eleven o'clock hour. Rev. Vernon Willard, pastor announced this week.

Rev. Hamilton will also be in charge of the fourth quarterly conference which will be held beginning at 2 p. m. The pastor states that this will be an important meeting and every member is urged to attend.

Lunch will be served at the church at the noon hour and the membership is expecting to have a great day of fellowship together. A cordial invitation is extended to everyone to come and join in the services of the day.

Kelton Nine Loses To Miami Team On Friday

The Miami High School baseball team defeated the Kelton nine Friday afternoon by a score of 9 to 3.

The battery for the Miami nine was Bengie and Nelson. The Warriors got nine hits and two errors and came up with one home run. Vines and D. Miller were the battery for the Kelton nine. The Lions collected 2 bingles and gave up 4 errors. Ambler and Higdon were the outstanding players in the Kelton lineup.

Mr. and Mrs. Ebb Farmer were visitors in Pampa Sunday afternoon.

Miss Gladys Mobley spent the weekend in Oklahoma City.

Times Presents New Feature In This Week's Issue

The Times is introducing a new feature this week entitled, "Your Votes At Work", which is written each week by Gene Ehrlich, a young journalism major at the University of Texas.

The feature is printed on an inside page of the paper this week and The Times plans to make it a regular feature each week from now until the State Legislature adjourns if our readers like this type of news. The Times would like mighty well to hear from some of our readers to know whether they enjoy such a report.

Relatives Of Kelton People Killed When Struck By Lightning

A grandson of Mrs. R. O. Johnson and Mrs. A. F. Stovall of Kelton, David Johnson of near Hereford, was killed when he was struck by lightning on Monday evening.

Funeral services for young Johnson were conducted Wednesday afternoon from the Church of Christ at Friona with burial in a Dallas cemetery.

David Johnson was born and educated in Friona. He served two years with the Merchant Marine during the late war and had been engaged in farming near Hereford since January. Johnson was 22 years old at the time of his death.

Surviving besides the grandmothers are: his wife, Billie; his parents, Mr. and Mrs. W. H. Johnson of Hereford; and one sister, Mary Jones of Chickasha, Okla.

PCA DIRECTORS SET MEET DATE

Directors of the Canadian Valley Production Credit Association have set Saturday, April 30th, for the annual stockholders' meeting, according to Director E. E. Henderson.

The meeting will be held at the High School Auditorium in Canadian, at 9:30 a. m.

Mr. Henderson states the Association serving Wheeler, Roberts, Gray, Hemphill, Lipscomb, and Ochiltree Counties was originally capitalized by the government. He says that all the government capital has been returned and the Association capital and surplus accounts, equaling one quarter million dollars is now owned by the farmers and ranchmen stockholders in the six counties.

He says it is expected that a large crowd of stockholders, their wives and their friends will attend this local ownership celebration meeting. Directors of the Association in addition to Mr. Henderson are: Wallace Hamker of Ochiltree and Lipscomb counties, M. H. Smith of Hemphill county, H. H. Keahey of Gray county, and Lloyd Bussard of Lipscomb county.

Skidmore To Hold Auction Sale Friday

John Skidmore, who lives 6 1/2 miles northwest of Wheeler, announces in an advertisement on another page of this week's Times that he will hold an auction sale of dairy cattle and equipment at the farm located northwest of town Friday, April 29 beginning at 1:00 p. m.

Skidmore is offering 21 head of dairy cattle, mostly holsteins, two bulls and some milking equipment to the public at auction.

Mr. and Mrs. R. Wm. Brown returned home Monday from Hot Springs, N. M. where they have been the past three weeks.

Wheeler and vicinity received better than 1.7 inches of rain during the past 48 hours ending today (Thursday) along with a little hail Tuesday night but no strong winds accompanied the rain and hail.

Damage from hail appears to have been worse to the north and east of Wheeler as farmers in those areas report that a large portion of the leaves were knocked off trees which had already leaved out and some stated that anyone couldn't touch the ground without putting his finger in a hail hole early Wednesday morning.

The moisture will be a great help to growing fruit and wheat and will give farmers enough season to allow them to start planting operations right away. Pastures were also badly in need of this moisture and it will be a great help to dairy farmers and ranchers in these parts.

Tuesday night rain gauges in the City of Wheeler caught .61 inches of moisture and Wednesday afternoon, night and until noon today the gauges caught 1.10 inches of moisture, making a total of better than one and seventy hundredths inches all together.

B. HOWELL TO GIVE CONCERT

Bernie Howell, accomplished organist and music director of KGNC, Amarillo, will be featured in a program of organ music at Clark Auditorium in Shamrock, Sunday afternoon, May 1 beginning at 3:00 o'clock. The vesper program will officially open music week.

Music lovers have enjoyed Mr. Howell's music over the air waves for the past several years, and members of the Thursday Fine Arts Club of Shamrock feel fortunate in being able to bring the famed musician to that city for a personal appearance.

Mr. Howell is one of the most sought after musicians in the Panhandle, appearing almost nightly in programs throughout the area.

The popular musician stated Monday afternoon that he had not arranged a definite program for his Shamrock appearance but said it would consist of light numbers, mainly semi-classics. He will bring his own Hammond organ.

Mr. Howell is a native Texan, born and reared in Vernon. He studied music in that city under the private instruction of Mrs. A. H. Hingst. He began his radio career in 1931 at Wichita Falls and was later associated with KFYO in Lubbock. He served with the Army Air Forces for three years during World War II, and since his discharge in 1945 has been music director of KGNC.

The public is cordially invited to attend the vesper program and enjoy the special arrangements of organ music. There will be no admission charge.

Junior Class To Hold Food Sale Saturday

Members of the Junior Class of Wheeler High School will hold a food sale at the Clay Food Store on Saturday, April 30 according to announcement made this week.

The class will offer home-made pies, cakes, cookies and candy for sale and they promise that they will be delicious.

The purpose of the sale is to raise money for the Junior Class to use in putting on its activities.

Auxiliary To Sponsor 42 Party Tuesday Night

The Wheeler American Legion Auxiliary is sponsoring a forty-two tournament at the Legion Building Tuesday night, May 3 beginning at 7:30 o'clock.

Everyone is invited. Refreshments will be served and the admission price is 75c per person. Tickets may be purchased in advance from members of the Auxiliary.

Mr. and Mrs. R. Wm. Brown returned home Monday from Hot Springs, N. M. where they have been the past three weeks.

**TRUMAN'S 'SUFFICIENT'
U. N. POLICE FORCE**

President Truman wants "a sufficient police force" for the United Nations to maintain the peace of the world, after which he would have "world disarmament" but "not on a unilateral basis." This is the substance of a letter he wrote to Sen. Elbert D. Thomas, member of the Senate committee on foreign relations. It was in reply to a letter from Senator Thomas to the President, stating that the "technique of accomplishments of . . . disarmament is still lacking."

It is difficult to see, that the President's letter adds anything to the possibilities of achieving a disarmament technique. It is a reiteration of thoughts that have been privately expressed many times. Yet it is important because it is a flat-footed statement from the head of one of the two great powers in the world today. It is more definite and goes farther than the U.N. Charter.

Of course, the President could not afford to say so, but possibly he is thinking of a police force built up among the signatories of the North Atlantic Pact and the Rio Agreement. Such a police force would not be an all-U.N. organization unless Russia could be persuaded to contribute its part, and that seems highly improbable—for the present, at least. Yet Article 51 of the U.N. Charter, under which the Rio Agreement and the North Atlantic Pact have been signed, provides for collective armed action by members of the U.N.

The North Atlantic Pact in its present form contemplates only defensive military action by the signatory Western Democracies. Yet it would not be difficult so to amend the pact as to provide for a police force. The same would apply to the Rio Agreement. Such action might lead to an outright consolidation of the two international alliances.

KITCHEN MEMO

The men, bless 'em, love any food with chocolate flavoring and it's the thoughtful wife who keeps chocolate cookies on hand in the cookie jar for between-meal nibbling. For *Chocolate Meringue Cookies* sift together 2 cups sifted confectioners' sugar, 1/2 cup flour, 1/2 tsp salt. Beat 2 eggs whites until stiff. Add sugar mixture 2 tbsps. at a time until thoroughly blended. Fold in 2 squares unsweetened chocolate (melted and cooled), 1/2 cup shredded coconut, and 1 tsp vanilla. Drop from teaspoon on lightly greased baking sheet. Bake in moderate oven (375°F) for 10 mins.

A two or three-burner gas hot plate is inexpensive to operate and a helpful addition in the laundry when starch must be cooked or handkerchiefs boiled.

If your family likes pork chops, try simmering them in pineapple juice over a low flame. Then place in a 400-degree oven for about 20 minutes.

Colored clothes that can be safely washed with white laundry can also be dried with white clothes in your automatic gas dryer. It holds approximately the same amount as the washer so that each load can be dried immediately after washing.

Save the juice from cooked dried fruits to make a flavorful chilled fruit drink.

To peel tomatoes easily and quickly, spear them on a long fork and hold over the gas flame while turning. The heat loosens the skin.

**Capture the Coffee Flavor
In These Delicious Desserts**

By ALICE DENHOFF

YOU can't get too much of a good thing. So if it's the flavor of coffee that you can't get enough of, how about starting it in some delectable desserts—perfect pals for that perfect cup of coffee!

First of all, treat the family to a Coffee Date Loaf, a nice idea for a snack or to serve that unexpected but welcome caller. Pour one c. double-strength, freshly-made coffee over one c. sliced dates; let stand until cool. Sift together 1 1/2 c. sifted flour, 3/4 tsp. baking powder and 1/2 tsp. salt. Cream 1/2 c. shortening; add gradually one c. sugar, creaming until light and fluffy. Add one slightly beaten egg, 1/2 c. chopped nuts and 1/2 tsp. vanilla. Add sifted dry ingredients alternately with date and coffee mixture. Bake in oiled shallow pan (7x9 inches) in 350 F. oven for 35 to 40 min. Sprinkle top with powdered sugar or spread with a mocha butter frosting. Cut into squares. Makes 12 squares.

Easy to prepare but so very good is a Mocha Refrigerator Cake. For 8 servings, split 24 lady fingers and

put layer in bottom of shallow loaf pan. Cream 1/2 c. butter, 1/2 c. egg yolks, 1/2 tsp. salt, 1/2 tsp. vanilla; beat thoroughly. Add 3 c. sifted confectioners' sugar, 3 squares chocolate melted and 1 c. double-strength, freshly-made coffee that have been cooled. Beat until light and fluffy. Pour over filling on top of lady fingers, alternating lady fingers and filling. Chill in refrigerator 24 hours. Unmold and serve with garnish of whipped cream.

Coffee Custard Pie, a favorite version of that favorite, comes along to wind up the dessert parade. To make a pie combine 3 well-beaten eggs with 1/2 c. of sugar; blend evaporated milk and 1/2 c. sugar, double-strength coffee, 1/2 tsp salt to 3 egg whites, until stiff; add 1/2 c. sugar, 1/2 c. milk, beating constantly. Pour first mixture. Pour into an 8-inch pie shell. Bake at 400 F. 10 min., then reduce temperature to a slow, 300 F. oven for 15 min. longer.

IMPORTANT ROLE

Manager—In the play we are preparing to give, I am casting you for a very prominent part.

Candidate—Shall I have the leading role?

Manager—Not quite, but almost. You are shot just before the first act begins. We have arranged a funeral song for three voices, as the opening and as we have only two singers you will have to help them out.

THESE are the people who own your electric light and power company. Chances are you are one of this group, too.

They represent a cross-section of America — housewives, doctors, teachers — industrial workers, craftsmen, farmers — mechanics and milkmen. Yes, people from all walks of life have put their savings into companies like ours. They're direct owners.

But there are countless indirect owners, too — many who don't know they have a stake in the electric industry. They're people with life insurance policies and savings accounts. When banks and insurance companies accept your money, they must invest it wisely. And because business-managed electric companies have a long record of successful service, much of that money is invested in utility securities.

So, you see, the electric industry is owned by the people it serves.

YOUR VOTES AT WORK

By Gene EnGLISH

The legislature will have been in session exactly 107 days on April 27. And as the constitution only suggests a 120 day session at ten dollars per day, members of both houses are getting worried about the possibility of having to stay over the 120 day period when the daily pay drops to five dollars. Senators and Representatives have complained they couldn't live in Austin on ten dollars a day and some have shown an unwillingness to stay overtime. This is one case when overtime doesn't get you time and a half or double pay.

On Wednesday, April 20 Representative Granger W. McIlhany of Wheeler introduced an amendment to the Gilmer-Aiken Bill 116 that lowered the pupil-teacher ratio. The amendment read as follows: "Any school district having fewer than three scholastics per square mile maintaining a four year high school shall have its teacher-pupil quota based on 20 pupils in average daily attendance." McIlhany, Timmons.

The effect of this amendment was to equalize the teacher-pupil ratio in sparsely settled areas, for example, a Panhandle school with 125 pupils would get an additional teacher. Until the amendment passed the house the ratio was approximately 25 to 1.

Forty five million dollars is the burden the counties are going to be expected to carry under the Gilmer-Aiken Bill 115. An economic index will be used to determine the ability of the county to pay. A variety of factors such as payrolls, population, value of minerals, value added by manufacture, income tax returns, assessed property values, values of agricultural products went into figuring the economic index.

Suppose a given district has an assessed property valuation for

Farm Facts

1. According to Earl Bufkin in "Handling Your Hunting Dog," a book recently published by the Ralston Purina Co., St. Louis, Mo., false pointing is most often caused by excessive cautioning in the field. The master fears that his dog will overrun the birds and cautions him. Thus the dog may be encouraged to stop and falsely point. Bufkin suggests that you let the dog do his own hunting and handling of game. Another remedy is to wait for a point at a place where you are sure no birds are present and then simply ignore the dog and let him decide for himself that he is wasting time. Or the false pointer may be worked with an older dog who has too much sense to back an unproductive point.

2. Yes, according to findings of the U. S. D. A. based on a study of 402 beef Shorthorn calves born over a period of 14 years. The birth weight of the calves ranged from 40

to 109 lbs., and the heavier calves tended to reach a weaning weight of 500 lbs. sooner than calves that were lighter at birth. The same was true for those calves fed to a slaughter weight of 900 lbs.

3. Probably the milk was cold, and kids will not drink cool milk. The fresh colostrum should be heated carefully in a pan placed in hot water or in a double boiler over a low flame, as it scorches and coagulates easily. Stir constantly while heating. It should be quite warm, about 100 degrees F. If kids do not drink well the first one or two feedings, do not be alarmed. Usually the trouble is that the milk is not warm enough.

privies and other filth that offers the fly proper warmth, moisture and food. Flies thrive on filth, and inasmuch as one female housefly will lay from 600 to 1000 eggs per season, it can easily be seen that one breeding place left available in a community, can be responsible for a tremendous horde of flies.

Dr. Cox recommended organized community efforts as being effective in ridding a community of flies, and emphasized that no matter how clean one family's home and premises are, they are still not safe if another home down the street leaves exposed filth where flies can breed.

QUESTION

Have you, as a parent, finally yielded to small fry pressure and purchased a box of Kokonut Kwicks, the breakfast food of the mighty? Have you torn off the box top (sides and bottom not accepted) and enclosed fifteen cents (no stamps, please), forwarded it to Kokonut Kwicks, Box 000, New York, for the magnificent, multi-plated plastic seven-tube, air-cooled, wrist-watch G-man radio receiver with built-in audibility, combined with an automatic double-tone phonograph — with RECORDS? You haven't! Then you have neither small-fry nor a radio!

How We Licked The Parking Problem

While it looked like we'd put up parking meters, parking in town—including the store owners—were up all of the space along street.

done comfortably, and the merchants have a better place to park than they had before. Just took a little friendly co-operation to make everybody happy.

From where I sit, most differences can be ironed out by just talking things over—maybe with a cup of coffee or glass of beer—and seeing the other person's side of it. Next time you have a problem or a little difference to settle, why not try just that?

ADDING THE Smell THAT MEANS SAFETY

You can't see it... you can't smell it. Natural gas is odorless and colorless as it comes from the well. In the interest of safety, a telltale odor must be added to your gas as it enters the local distribution mains. Small quantities of a special type of liquid are added to the gas, so even the smallest leak may be discovered.

The odorization of gas is one of many functions of the United Gas system... all of which have the ultimate purpose of assuring a continued safe, dependable supply of natural gas to our customers.

Three general types of odorizing equipment are used on United Gas lines. One is the "drip" or "injection" type, by which small quantities of odorizer are introduced into the gas to add the smell that means safety.

The second type, comparable in action to the barometric lamp, is one in which a wick carries the odorant into the flow of gas. This is commonly used to give "individual" protection to one consumer or a small group of consumers in suburban areas.

A third type is the absorption odorizer that serves small towns. Part of the gas passing through the line is detoured through a tank where, like a sponge, it absorbs sufficient odorizer to odorize the remainder of the gas.

NECESSARY ITEM

"Now," said the man who was paying the bills, "can you tell me what this pantry room is for?"

"That will be a chart room, not a pantry," exclaimed the architect. "As long as your wife wants the complete electric kitchen we have to put a chart room next to it, so she can refer to when wanting to push the right lever or turn the right switch for roasting, toasting, defrosting, grilling, canning, boiling, doing dishes and so on."

Be Bright at Night, but Dim Your Lights!

NIVVER O WORRY

"Yes," said Paddy, "the last time you saw me I was just about finished. Hadn't even any coal in the house."

"Poor old Paddy! And are you all right for coal now?"

"Sure, I've sold the stove."

Home dry cleaning with flammable liquids has disfigured or fatally burned many persons; has burned houses to the ground or demolished them with explosions. Commercial cleaning is inexpensive, more effective and much safer.

WHERE THEY ALL CAME FROM

The choir in the little country church was practicing a new anthem.

"Now don't forget," cautioned the choirmaster, "the tenors will sing alone until we come to the gates of Hell. Then you all come in."

TURNABOUT

"Does your wife go to church to see what other women were asked snoopy Mr. Harris?"

"Oh, no," rejoined the rich Mr. Updyke, "my wife has much money to spend on clothes now that she goes to church and other women see what she wears."

There are some people who lie, even now, that matters are made in Heaven.

EIGHTH GRADE NEWS

We all received our pictures today. Just about everyone was pleased with them.

The eighth grade banquet will be May 6, 1949. The mothers are giving it to them.

Vondell, who passed in front of the phone office Sunday? How about that H. C. Johnson?

Why was Waylon wanting a picture from Shirley?

The eighth grade is starting on their graduation exercises. We don't know for sure when it will be.

GOSSIP

Why has Joyce been running around so much lately?

Why does Mary talk so much about Oklahoma?

Ann Nell and Kathryn, where did you go Sunday? Could it have been Pampa?

Evelyn, who's your dream man now? Could it be Carl S.?

Madge, where did you go Sunday?

We are wishing you better luck next time "Edwina".

What's this we hear about Harold going to Miami?

Joe, what's this we hear about Arkansas?

Jimmy H., where have you been keeping yourself lately?

Edwin seems to have stayed home on the weekend, working Algebra.

Bobby, what's this we hear about six feet to three feet?

Bernice, did you find your little book?

Oudia, we hear you like a dark show building.

Patsy, why do you like Pampa so well? Could it be H. J.?

Pauline, you had better watch that temper of yours.

Edith, where did you go Saturday night?

Madge and Pat, do you girls really like to help guys get wheat cutting jobs?

Bill and Naomi are back together again this week. Maybe it's for keeps this time.

Jo, did you have a good
 the banquet Saturday
 we sure are glad you and
 are back together again.
 Jo, we sure do think
 friend is cute.
 Mae, your corsage was
 pretty Saturday night.
 we're really sorry you

broke your wrist.
 Katy, we sure do think you and
 "him" make a cute couple.
 Shirley S. were you very lonesome
 Saturday night?
 Bessie Jo, did you and Louis
 Wayne have a good time Saturday
 night at the Shamrock carnival?
 Shirley Jo, you and R. C. certainly
 do make a striking couple.
 Bette, guess who we saw you
 with Saturday night?
 Lyn, we never did even see you
 Saturday night.
 We nearly had to go to the
 "Lost and Found" Saturday night
 to find Sammie and Helen Marie.
 R. C., we never knew you were
 afraid of the high altitudes.

WONDER WHY?

Katy looked so happy over the
 weekend?
 Shirley Jo was so enthusiastic
 Monday about her date Sunday
 night?

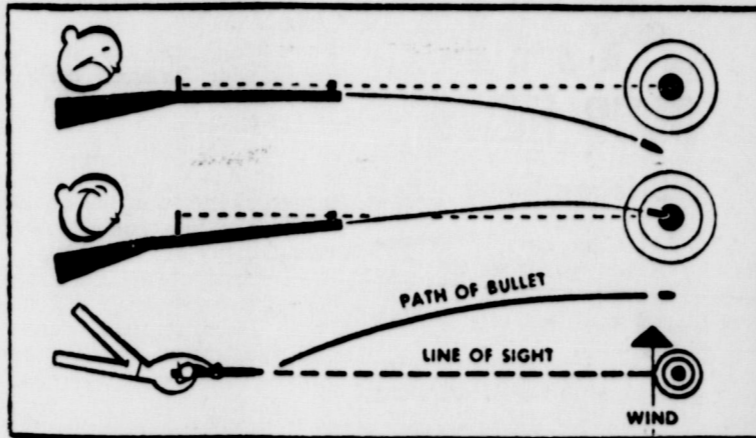

Bessie Jo hasn't gotten home
 earlier than any 1:30 every night
 for the last two weeks?
 Laura Mae was so undecided
 Sunday evening?
 Jay Dean looked so happy Sun-
 day night?
 The boys don't have any man-
 ners?
 The new ball jackets haven't
 come in yet?
 Jay Dean wishes Laura Mae's
 daddy was only a picture.
 Jerry always rides with Troy
 Dean instead of Bill Bob? What's
 the matter Jerry, don't you like
 to be teased?
 Mr. Dyer had Johnny in the
 office? Did you get a whipping
 Johnny?
 Women are so changeable?
 Jay Dean hates to say good-
 night?
 Valoise likes to do things on
 time?
 The boys like to tease the girls?
 Bessie Jo wasn't at League Sun-
 day night?
 The eighth graders call Carlene
 Punk?
 Glenna Sue likes Ericose so
 well? Tell us his name Elemore.
 John J. is so thrilled about the
 party Tuesday night? Do you have
 a date?
 Today couldn't have been Sun-
 day instead of Monday?
 Everyone was in such a hurry
 to get to Shamrock Saturday
 night?

HOW TO SHOOT A RIFLE

By ARTHUR E. COOK
 National and Olympic Rifle Champion
 Advanced Training

A bullet never travels in a
 straight line. As soon as it leaves
 the gun muzzle, gravity begins to
 pull it toward the ground. There-
 fore, at longer distances, the bul-
 let is likely to fall short of the
 target unless (1) you deliberately
 aim high, or (2) you adjust your
 sights to compensate for the drop
 of the bullet.

The same thing applies to hori-
 zontal (or sideways) movement of
 the bullet due to wind while shoot-
 ing outdoors. Particularly with
 small caliber bullets, wind is cap-
 able of blowing the bullet inches
 off course. Again it is necessary
 to compensate for this action.

If your rifle is equipped with an
 adjustable rear sight you need only
 to determine the amount of adjust-

ment needed and the direction, and
 then turn the adjustment knobs
 the necessary amount. There is
 one basic rule to follow: **MOVE
 THE REAR SIGHT IN THE
 SAME DIRECTION YOU WANT
 TO MOVE YOUR SHOTS.**

Don't try sight adjustment until
 you have learned to put all your
 shots in a tight little group on the
 target. Then, if the group is not
 in the center you can correct the
 rifle's point of impact by adjusting
 the sights. Remember that a rifle
 is only as good as its sights—put
 the best ones you can afford on
 your gun.

(This instruction based on the book,
 "HOW TO SHOOT A RIFLE,"
 published by The National Rifle As-
 sociation, Washington, D. C.)

Know your gun and ammunition!

MCLEAN POST TO STAGE RODEO

McLEAN, Texas—A 20-mile cow
 pony relay race will be one of the
 features at the American Legion-
 sponsored rodeo, to be held here
 April 29 and 30 and May 1.

The 20-mile race will be run
 from Shamrock to McLean Satur-
 day morning April 30, beginning
 at 9 o'clock. The race will involve
 three horses to each rider, and
 that rider must change his saddle
 at each relay station.

A \$100 pot awaits the winner
 of the race. Entry fee is \$10 per
 rider. Bob Sherrod of McLean is
 in charge of the contestants.

Another feature of the rodeo
 will be calf roping by McLean
 merchants, many of whom have
 had little experience in riding,
 much less in roping. Roger Powers
 is in charge of this group.

Three performances of the
 rodeo will be given. The first will
 be Friday night at 8 o'clock, sec-
 ond Saturday afternoon at 2, and
 third Sunday afternoon at 2. The
 Legion will also sponsor two
 dances, one Friday night following
 the rodeo performance and the
 other Saturday night.

Spencer Sitter is serving as the
 rodeo committee chairman, and
 has announced that prize money
 will total more than \$1,000 for the
 three performances.

Contests will include a ladies
 sponsor contest, bareback and
 saddle bronc riding, bull riding,
 bull dogging, and calf roping.

Cowboy headquarters during the
 three-day rodeo will be at the
 Alderson building, immediately
 south of the City Hall building.
 Legionnaires will be present at all
 times to handle entries.

Potato Growers Need Examine Seed Carefully

Texas sweet potato growers should examine around 25 potatoes from each field lot for internal cork before bedding for slips. A. A. Dunlap, head of the Texas A. and M. College department of plant physiology and pathology, warns.

When cut crosswise a sweet potato shows internal cork as black spots in the flesh. The spots vary in size and several may be clustered together. Lengthwise cuts may show the disease as black streaks up to an inch or longer. These corky islands remain hard and bitter after cooking.

In the field, internal cork causes spots on the leaves. Reddish or purplish discolorations form around the spots. As the leaves grow older these symptoms usually disappear.

No infested potatoes should be bedded; the virus of the disease is probably spread in the field by insects. Potatoes infested with internal cork may be used as stock feed.

Internal cork first showed up in South Carolina in 1944 and within two years had spread through the southeastern states. The Porto Rican is especially susceptible.

Texas has been free of the disease until 1948; internal cork has just been verified by laboratory tests in some potatoes sent in from a farm near Omaha, Morris county. Dr. Dunlap said. The potatoes were grown from slips reported to have come from Georgia.

Commissioner of Agriculture, J. E. McDonald issued a proclamation March 7 prohibiting the importation of potatoes or slips from states known to harbor the disease. These include South Carolina, Georgia, Louisiana, Mississippi, Alabama, Florida, North Carolina, Tennessee, Arkansas and Oklahoma.

Mr. and Mrs. Bill Perrin and girls of Shamrock were guests of Mr. and Mrs. Buster Black and daughters Saturday night.

Mr. and Mrs. Roy Bailey were Pampa visitors Sunday.
