VETO OF GAS BILL AFFECTS TEXAS

President Truman's veto of the Kerr Natural Gas bill will have a vital, long-run effect on the utilization of the gas resources of Texas and other Southwestern States unless some substitute measure can be passed. Texas has more than half the nation's natural gas reserves. Texas and nearby states have about 85 percent of these reserves.

If the Federal Power Commission can

firmly establish its control over the country's natural gas production and reserves, we will have a situation in which policies will be dictated by the politically powerful pressure groups of the North and East. The FPC has been striving for such control. Permanent veto of the Kerr bill will let it take a long forward step in this direction.

Much has been said by opponents of the bill about the "interests of the consumers." Nothing is said about a just price for gas which is now selling far below coal and other fuels on basis of equivalent BTU value. No consideration will ever be given the producer, including big and little land lease holders, if the future setup gives control of the limited producing area to the political pressure groups of nonproducing areas. The only half-way sound argument of Texas advocates of building the big pipelines has been that increased consumption would give producers a better price. They overlooked the possibility that future Texas production and pricing would be in the hands of consumers from nonproducing areas.

Putting natural gas production and marketing in the hands of FPC would hold down prices to producers while still hastening the depletion of Texas reserves. And it will hasten the day of restricted use of gas for industrial fuel. It will evolve into a share-the-gas policy to the detriment of Texas' industrial development.

If Mr. Truman were as worried about the Texas electoral vote as he is worried over the vote of New York, Illinois, Ohio and other Northern States, he would not have vetoed the Kerr bill. But he figures he has the Texas vote in the bag. We have before us just one more aspect of a situation that Texans are gradually coming to understand.—From Dallas Morning News

AID TO EDUCATION

The danger inherent in the principle of federal aid to education is illustrated in new regulations governing higher education in the republic of Argentina.

All fees and tuition charges have now been abolished, with the government carrying the financial burden, except for a \$10 diploma charge at graduation. At the same time, however, every student must file annually a police certificate of "good conduct."

Good conduct apparently involves supporting the right political party, which is the Peron party in power. Two members of an anti-Peron party already have been denied certificates, and thus the opportunity for a university education, and the applications of many other students are pending. The step from aid to control, and control for political purposes, is a short one.

**Chickenpox Comes
Early, See Doctor**

Chickenpox comes your way? If it does come your way, the first thing to do is call your physician. W. Cox, State Health Officer, says chickenpox is a common disease caused by a virus most frequently in children and spring among children under 15 years of age. It is present in the skin, the mouth and nose. Small blisters which are watery fluid. Chickenpox is contagious and is probably spread by direct contact with the

Chickenpox begins from about 14 to 21 days after exposure, usually with feverishness and loss of appetite. Within about 24 hours, the skin breaks out in small raised rose-pink spots which change into blisters. The blisters quickly become crusted with scabs which eventually fall off. The scabs are not contagious. Each crop completes its course from rose-pink spot to crust in from two to four days. Scratching or picking at the blisters may cause serious sores and disfiguring scars. The doctor will probably suggest a remedy to relieve the itching, which may be severe. Usually the child is not very ill and begins to feel better in from one to three days.

But when a person has not been vaccinated, mild smallpox is sometimes mistaken for chickenpox, because the early symptoms are strikingly alike. Smallpox is a serious disease which spreads rapidly among unvaccinated persons.

At the first sign of what appears to be chickenpox, call your physician so that an early diagnosis can be made. If he finds that the patient has smallpox, prompt vaccination may save the other members of the family and outsiders, who have been exposed, from an attack of the disease.

**DAVIS RELEASES
HIS PLATFORM**

He is Ronald Davis of Childress, a star basketball and football performer at Childress High and West Texas State College in the 1930's. He was president of the senior class at West Texas State in 1936.

Davis is a native Texan, 39 years old. He has taught school at Happy, Childress, Estelline, White Deer and Wellington. He is married to Cozette Lindley of Childress. They have two boys, Lindley and Cagle Dean Davis.

Davis has taught agriculture and worked with Future Farmers. He has his own ranching and farming business in Hall County.

Davis released his platform in Amarillo. It follows:

AGRICULTURE—For price support program, with definite plans eventually to get agriculture able to stand on its own feet. Less bureaucratic control, with more emphasis on local control. I believe in soil conservation of a permanent and lasting type, with more emphasis placed on local control by local people. I believe in acreage allotments set up on a fair and equal basis for the farmers in all sections of the country. I am definitely for a government cotton classifying office set up in the 18th congressional district.

EDUCATION—I believe in a fair and equal investment in education for our youth in the 18th congressional district, compared with any and all regions of the United States. I am strongly for our continued control by the local people.

BUSINESS—More consideration for the small business man and his problems. I believe in less bureaucratic and socialistic encroachments on his rights. I believe in more encouragement of self-initiative, which has been the builder of this great nation. I oppose any socialistic trend—the ball and chain of ambition, thrift and democracy.

LABOR—I believe in less cur-

If candles drip on your best table linens, scrape off the drippings with a dull-edged knife or spatula. Then place a clean, white blotter over and another under the spot. Press with a warm iron several minutes using clean parts of blotter until all the wax is absorbed. Now you can launder the cloth as usual.

For epicurean delight, nibble on these toasted nuts. Mix 2 tablespoons real mayonnaise with 1/2 pound shelled pecans or almonds. Spread in shallow baking pan and bake at 375°F. Pecans take 15 minutes; almonds 25 minutes. Stir nuts with a fork three or four times as they bake. Drain on paper toweling and sprinkle with salt. Mmmmm! Takes more than a squirrel to appreciate these.

"Oooops! Something's burning! There goes my pot, but worse—my potatoes. What will Harry say?" Well, he won't say a word or even notice a scorched or burned flavor, if the good pieces are transferred to another sauce pan, fresh water added and the potatoes again brought to a boil. Thus, dinner is saved by the bucket brigade.

This Spring and Summer will find milady pitter-pattering in many different shades of shoes—tangerine, honey-blonde, cherry bounce, even blushing pink and violet. They're lovely to look at, but worrisome to clean. For there's always the danger the pretty color won't be so pretty after cleaning. Just put your faith in the ol' shinola—a thin coat of neutral shoe cream and they're safe.

Next time you're cooking spinach, dress it up with a little onion juice and bits of crisp bacon.

tailoring in the rights of labor to have their share of the income and freedom of our republic. I believe in more control of labor when and if they take undue advantage of more than their share of the income and freedom of the nation.

VETERANS—I believe in being faithful to the veteran as prescribed by our state and national legislation. I believe that the educational program of veterans should be kept in line with sound educational principles. I believe in less red tape of any kind which causes hardships and delays for the veteran. I believe in the right to purchase land under the Veterans Land Bill. I oppose favoritism in administering this land purchasing program.

WATER CONSERVATION—There is a water crisis in the 18th congressional district to a great extent, this is a national problem, one of public welfare. I favor the proposed Canadian River dam and a policy of taking care of any other section of the district in the matter of water conservation.

ARE YOU GOING TO TAKE THE VETO OF THE KERR BILL LYING DOWN?

EVERY Democratic Congressman from Texas and both our Democratic Senators pleaded with the President not to veto the Kerr Bill. The Kerr Bill represented economic security for every single citizen of the Panhandle. The Kerr Bill would have prevented the Socialists in Washington from plundering our natural gas reserves and setting prices however they wanted them.

WHAT ARE YOU GOING TO DO ABOUT IT?

IF YOU were to elect another Democrat to Congress on May 6—no matter how able he or she might be—you would be telling the Socialists that the people of the Panhandle would continue to come back for more no matter how much they were kicked in the teeth.

BUT IF YOU ELECT BEN GULL, THE REPUBLICAN CANDIDATE, TO CONGRESS YOU WILL BE SERVING NOTICE ON THE SOCIALISTS WHO HAVE STOLEN THE DEMOCRATIC PARTY AWAY FROM YOU THAT THE PEOPLE OF THE PANHANDLE CAN NEVER AGAIN BE INSULTED AND BETRAYED WITH SAFETY.

BUT the big bosses of the crooked northern political machines ordered the President to veto the Kerr Bill—or else. The Socialists said the folks in the Panhandle would continue to be suckers and vote Democratic no matter what was done to them. So the President obeyed the order of the gangster-ridden political machines and stabbed the decent citizens in the back. He vetoed the Kerr Bill.

BEN GULL has promised to bring the treacherous veto of the Kerr Bill to the floor of the House. He will be given the complete and unanimous support of every Republican leader in Washington to redress the wrongs of the Panhandle. No such assistance would be given to a Democratic Congressman from the Panhandle. He wouldn't get to first base. **THE ONLY WAY THE DEFRAUDED CITIZENS OF THE PANHANDLE CAN GET ANY CONSIDERATION IS TO SHOW THEIR INDEPENDENCE AND PROVE THAT HERE, AT LEAST, THE PEOPLE ARE STILL BOSS. THE ONLY WAY THEY CAN DO THIS IS TO ELECT**

The chief industries of the state of Oregon include fruit growing, fishing and agriculture. Its lumber industry is important; its salmon industry is very large. It also produces hops in large quantities.

Social Security Is 3-Way Partnership

Old-age and survivors insurance is a three-way partnership between the employer, his employee, and the Federal Government. "It is a joining of forces and resources in attacking the economic hazards of old-age and death," says John R. Sanderson, manager of the Amarillo Social Security Office.

He points out that this three-way cooperation is often overlooked. He summed this up as follows:

(a) The Federal Government issues social security account numbers, maintains records of wages and pays benefits.

(b) The employer quarterly lists wages paid his employees, their social security account numbers and turns over the employee-em-

ployes contributions to the Internal Revenue Commission to the old-age and survivors insurance trust fund.

(c) The employee pays social security taxes on wages covered by social security. The employee also pays into the trust fund for social security. The employee also pays into the trust fund for social security.

CHECK THE TELEPHONE DIRECTORY

A quick glance into the telephone directory before calling, often saves you a second call. For, when you leave numbers to your memory, it's easy to make a mistake. Result: wasted time; wasted effort; wrong number. So unless you're absolutely sure of the number you're calling, just check it for yourself in the telephone directory. You'll be helping yourself to better telephone service as well.

How Heavy IS WATER?

The average bucketful weighs 29 pounds. Wash day takes between 12 and 20 buckets, scrubbing and cleaning about the same amount. Routine kitchen work demands about 200 pounds of water every day. Water can be very heavy — if you have to pump and carry every drop you use. But Dumpster Water—delivered by a Dumpster Water System—makes light work of all your chores.

In agriculture the state of Indiana includes almost every staple crop; in mineral it produces coal, pig iron, petroleum, natural gas and many others. It also ranks high in manufacturing and its wholesale trade.

The state of South Dakota is outstanding in agricultural production; its dairy and livestock in-

terests are large; its minerals consists of gold, silver and several other minerals. It was admitted to the Union in 1889.

The first American made rifles were manufactured in Pennsylvania in 1834. Like the ax and the plow, the other two tools with which this country was won, rifles were made by local smiths out of local iron.

MOBEETIE DUMPS PANHANDLE 10 TO 5
 Mobeetie upset the Panhandle Panthers, 10 to 5, in a District 2-B baseball clash here this afternoon.
 Ronald Beasore, Panhandle's outstanding pitcher, held the winners to four hits, but he walked six and his mates erred six times behind him.
 Key blows for the winners were a two-run double by Vernon Willard, Mobeetie third sacker, in the fifth, and a two-run triple by Ed Simms in the four-run sixth.
 Beasore fanned 13 batters while Chubby Haynes whiffed 14. Haynes gave up only one walk.

SPORTS
 Baseball has become a major interest around school this spring. Our team has won five and lost none so far this season. The Hornets clamped a firm grip on first place in the standings of the south half of district 2-B by clipping the Panhandle Panthers last Friday 10 to 5. Haynes was the winning pitcher. He was credited with 14 strike-outs, one more than Panhandle's ace, Beasore, who struck out 13. Mobeetie's defensive play was outstanding.

FRESHMAN NEWS
My Darling.
 I love you so much it hurts me. Why don't you haul off and love me? I saw you in my dreams and said to myself, that's for me. Be honest with me, do you love me? You are a necessity to me. You are a thorn in my heart. You are my one love. Ours is a tragic romance. Sometimes I think it's magic. It seems you call everybody darling. I always have heartaches. When you said goodbye, you laughed and I cried. Everyday I love you just a little bit more. I wish you were nobody's darling but mine. Don't you know I care? Have I told you lately that I love you? Why do you treat me this way?
 You told a lie and I believed you. You put those blues in my heart. What will I do tomorrow? Why don't you make those blues stay away from me?
