Farmers of the Wheeler Conservation District... are planning to tie grasses this fall and next spring...

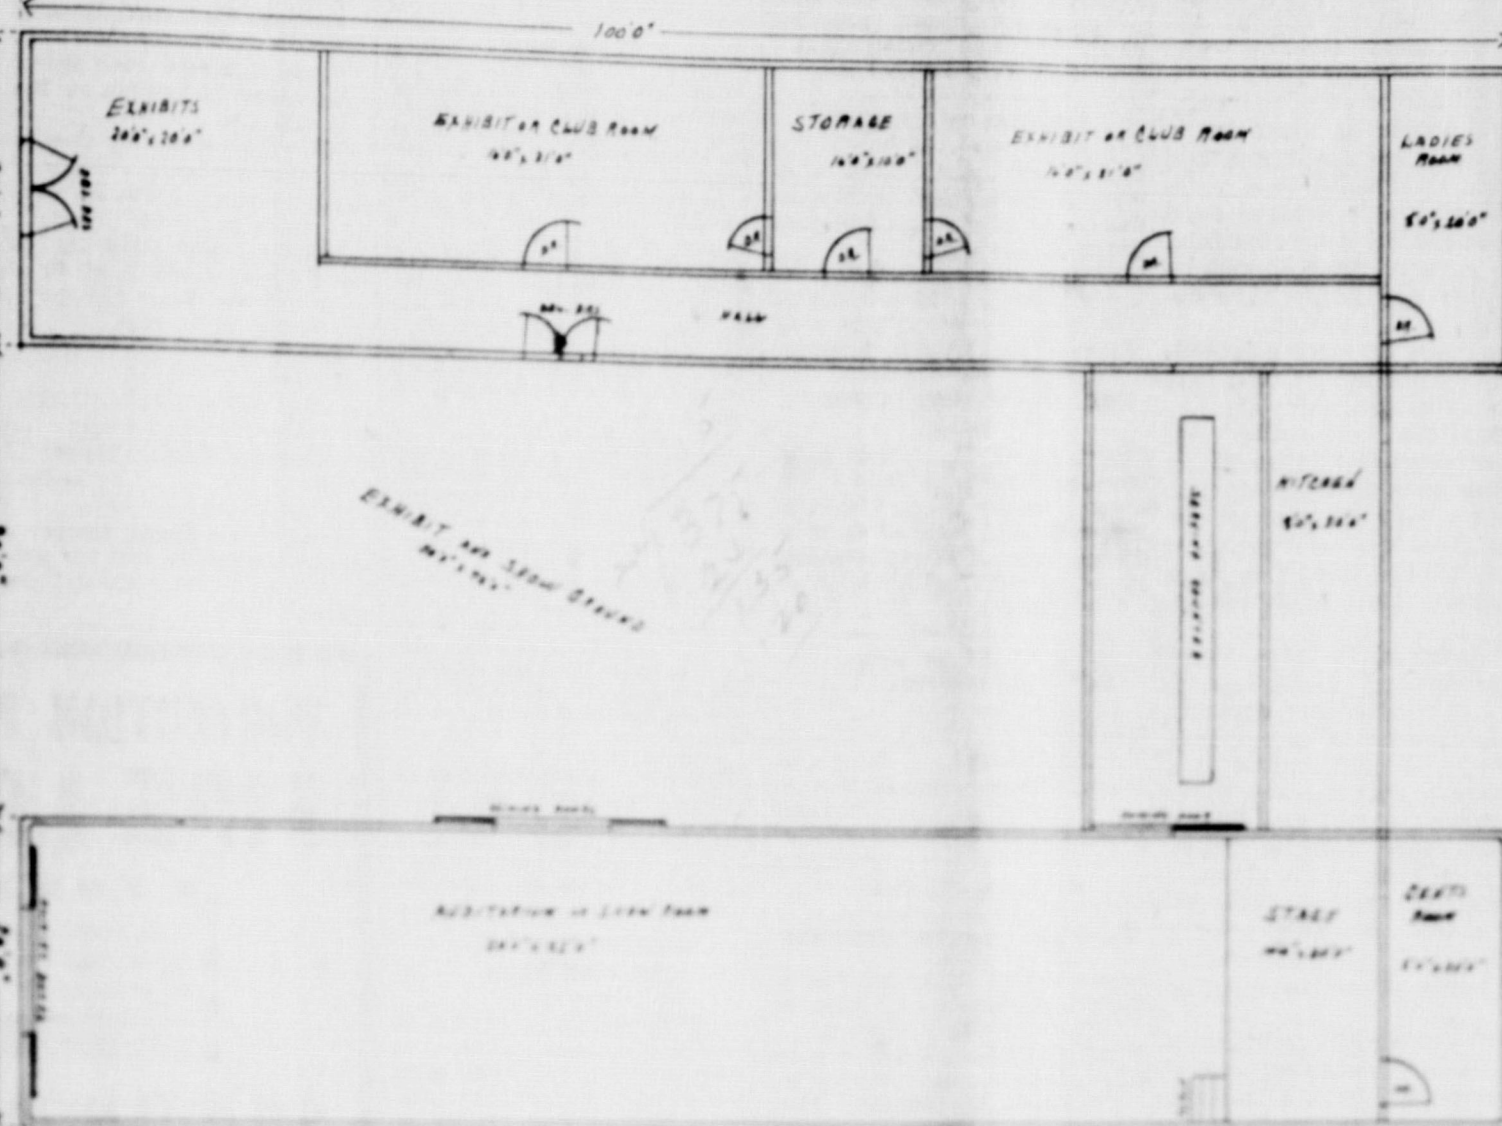

...stable of sorghum less than 18 inches high... a broadcast cane millet crop will do a good job of preventing the blowing of grass seed...

Agent Fry has just completed an inspection of over a dozen of grasses planted... Wheeler County. He found a fair stand of grass on a fair stand on 150 acres where there was not a blade of grass...

...Agent stresses the fact that a good stubble cover is a good stubble cover... and further that weeds and corn should be mowed two or three times during the first year...

...The young grass seedlings... under the circumstances the progress should be satisfactory...

...Agent should also be considering with Texas... a good program is just a few...

YOUTH OPPORTUNITY AND UNEMPLOYMENT

Members of Congress, educators and others who work with youth are concerned over the prospect of an unprecedented increase in the youthful unemployed within the

next few weeks. There are an estimated million young persons under 25 years of age already seeking work, and they will be reinforced by a substantial segment of the 1,687,000 college and high school students graduating soon.

Several bills for re-establishment of the depression-born Civilian Conservation Corps are pending in Congress as signs of the modern approach of big government to an economic-social problem. An unbalanced budget of more than \$42 billion advises against any further expansion of federal functions and costs.

Enforced, prolonged idleness of too many of the nation's youth should be a concern to the people lest a fertile soil for crime and radicalism be allowed to develop in a prosperous economy. Soon young persons need summer work for continuing their education by self-help along, a spirit that should be fostered. Others of the age group have dependents, which they must support.

From the standpoint of youths intending to continue their education, vacation jobs afford the opportunity to determine the life work for which they are best suited and which would be most congenial. Most of the square pegs in round holes in the economic system are those who merely accepted jobs or were forced to take them without regard to aptitudes and tastes. Social liabilities as a public cost may develop from this "hit-or-miss" procedure.

From the standpoint of business, there are few lines that demand inexperienced, temporary employes in the summer vacation season. But such employment if economically feasible, is desirable. A contribution to a solution of the problem can be made by those youths who have initiative and can find a profitable outlet for their talents. There should be modern equivalents to the old soda water stands operated by youths a few decades ago. Possibly, sturdy, ambitious youths could find employment and profit in summer care of lawns and yards, after investing in a power mower.

There may be no overnight solution to the problem of youth unemployment, but it nevertheless commands considerable thought of the public, a sympathetic approach and a realization of the potential mischief in mass idleness of young people. The Hitler movement was born of such a group in prewar Germany.—From Fort Worth Star-Telegram

Texas poultrymen last year lost 24 percent of all the laying hens in their flocks during the hens' first year of production. Poultrymen who suffer such flock losses are burning or burying their poultry profits with these dead hens. Practicing good management, sanitation, feeding and disease and parasite control on the farm can cut these losses.

One way to lengthen slips for that fast-growing daughter is to cut off the straps and sew the rest of the slip to the end of a blouse. This not only makes a short slip longer, but also keeps the blouse neatly tucked inside her skirt.

Have you tried the vitaminized margarine which comes in a handy measure pack? Each pound is divided into four quarters and each quarter is a unit of measurement, e.g., 1 quarter equals 1/4 cup and 1/2 print equals 2 tablespoons, to make measuring for cooking easier.

Instead of using a dish or saucer, place a mirror under the fish bowl, flower vase or plant. It will protect the furniture from water spots and in addition it will reflect your pretty setting.

Caught in the rain with your best shoes? Well, the sooner you get them off and on to shoe trees the better. Otherwise they'll curl up in the soles. Let them dry and then give them two coats of that of shynola. That helps soften the leather and restores gloss and color.

If you use a wringer-type washing machine, feed cottons and linens through the wringer flat, in straight, lengthwise folds. They'll be a lot easier to iron 'cause wringing tightly or twisting adds wrinkles and strains material.

NEIGHBOR

YOUR SOUTHWESTERN PUBLIC SERVICE REPRESENTATIVE

One of the most important parts of Public Service is being a part of the community life in the cities and towns we serve. Wherever you find a Public Service representative, you'll find a "good neighbor." You know him . . . he might go to your church, perhaps his kids play ball with yours, or maybe you worked with him on last year's Red Cross Campaign.

But, whoever he is, you'll find him an active member of your community, truly dedicated to "Public Service" . . . making certain there is low-cost, dependable electricity to meet every community need . . . helping to make your community a better place to live.

Jobs Not As Plentiful For Graduates Now As They Were A Year Ago

Many college graduates this year are finding job hunting a big chore. Finding that job heretofore hasn't been so bad, but this year good jobs are scarce—graduates are not.

The local office of the Texas Employment Commission is getting ready to help these graduates in every way possible, according to L. P. Fort, TEC's local office manager in Pampa.

"Each year," Fort said, "Many of these graduates will visit our office to obtain information about local job opportunities. This year special training of TEC personnel is being given to assure courteous, efficient treatment and consideration for appropriate jobs. Placement of these young people is a community responsibility," Fort continued, "and every resource of the community is needed to avoid worry, expense and needless delay in bridging the gap from school to job. Employers of the community can help these graduates by listing all job openings with the TEC local office."

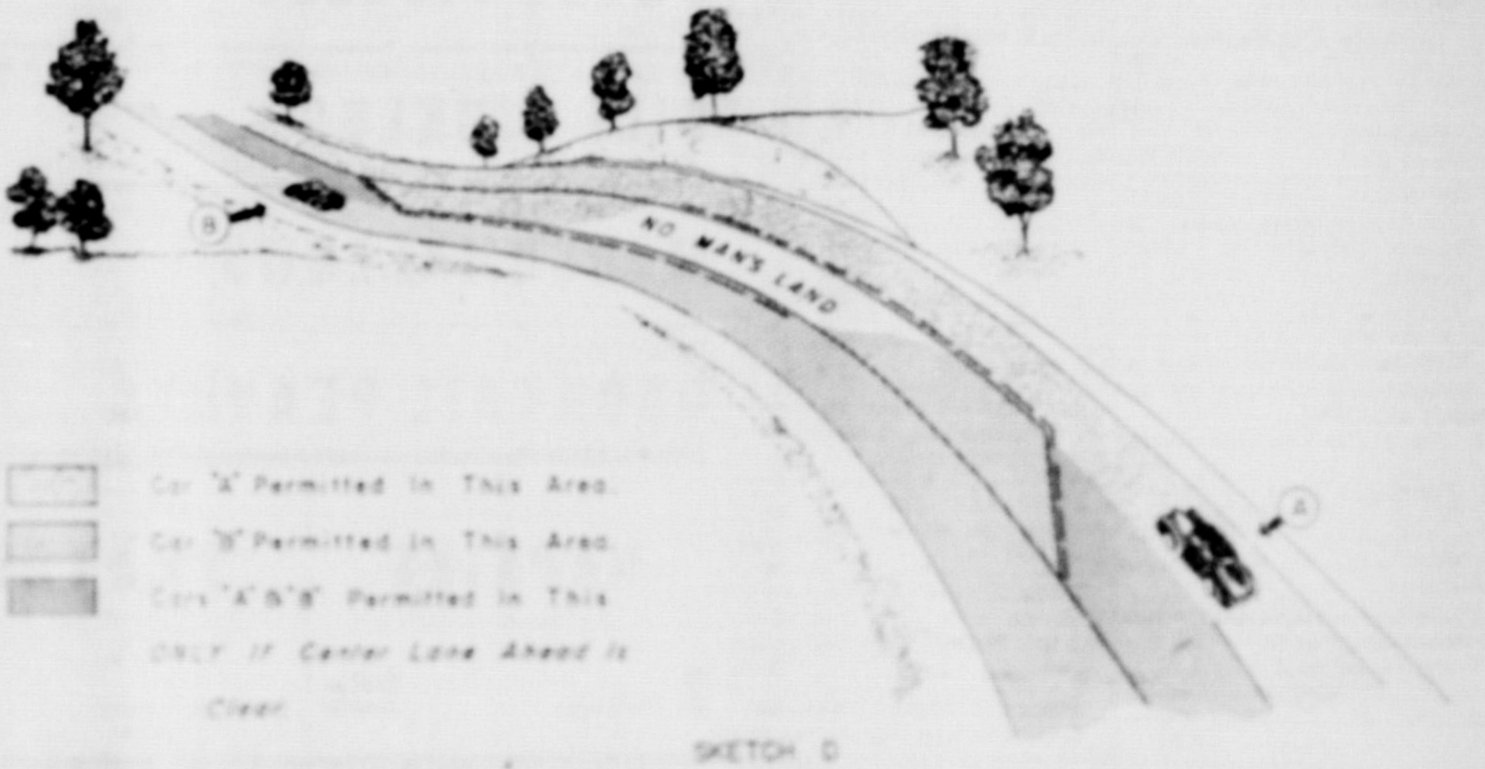

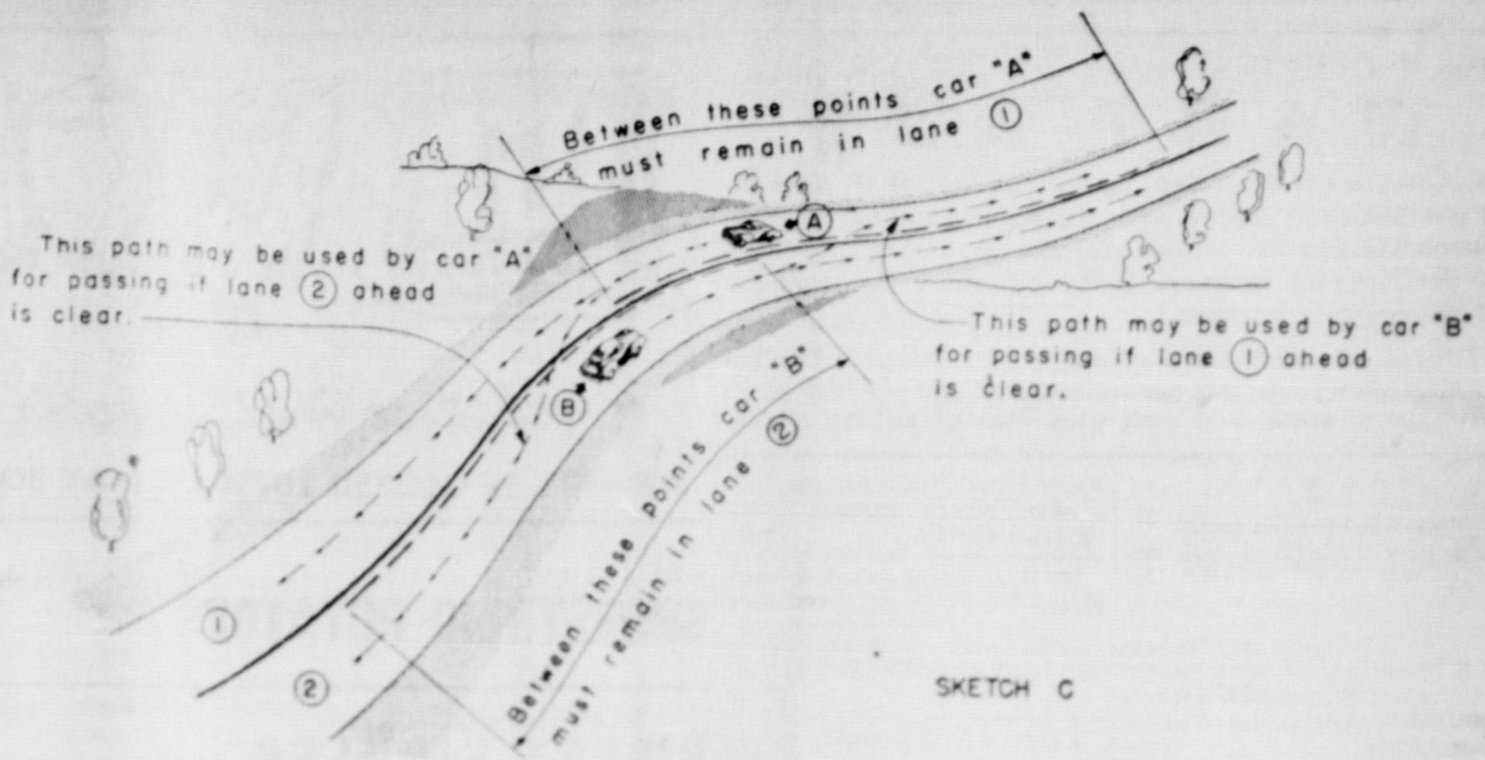

Fort pointed out that college experiences generally provide useful specialized knowledge and self-assurance which help graduates develop readily in efficient employees. Careful selection and placement of them, Fort said, is extremely important.

Second Of Series Explaining Texas Highway Marking

WHEELER LEANS FOR IMPROVED HIGHWAY MARKING

There is a lot of talk about highway marking these days. It is a subject that has been discussed for a long time. It is a subject that is becoming more and more important as the highway system in this country grows.

What does the highway marking mean? It means that the highway is marked in a way that is clear and easy to understand. It means that the highway is marked in a way that is safe and efficient.

Last year's toll from violations of the Texas Highway Law was \$2,000,000. This is a big sum of money. It is a sum of money that is being used to improve the highway system in this country.

Shouldn't we be doing more to improve the highway system in this country? Shouldn't we be doing more to make the highway system safer and more efficient?

JOHN DEERE TWO-CYLINDER ENGINE DESIGN
Cornerstone of Greater Tractor Value for 25 YEARS

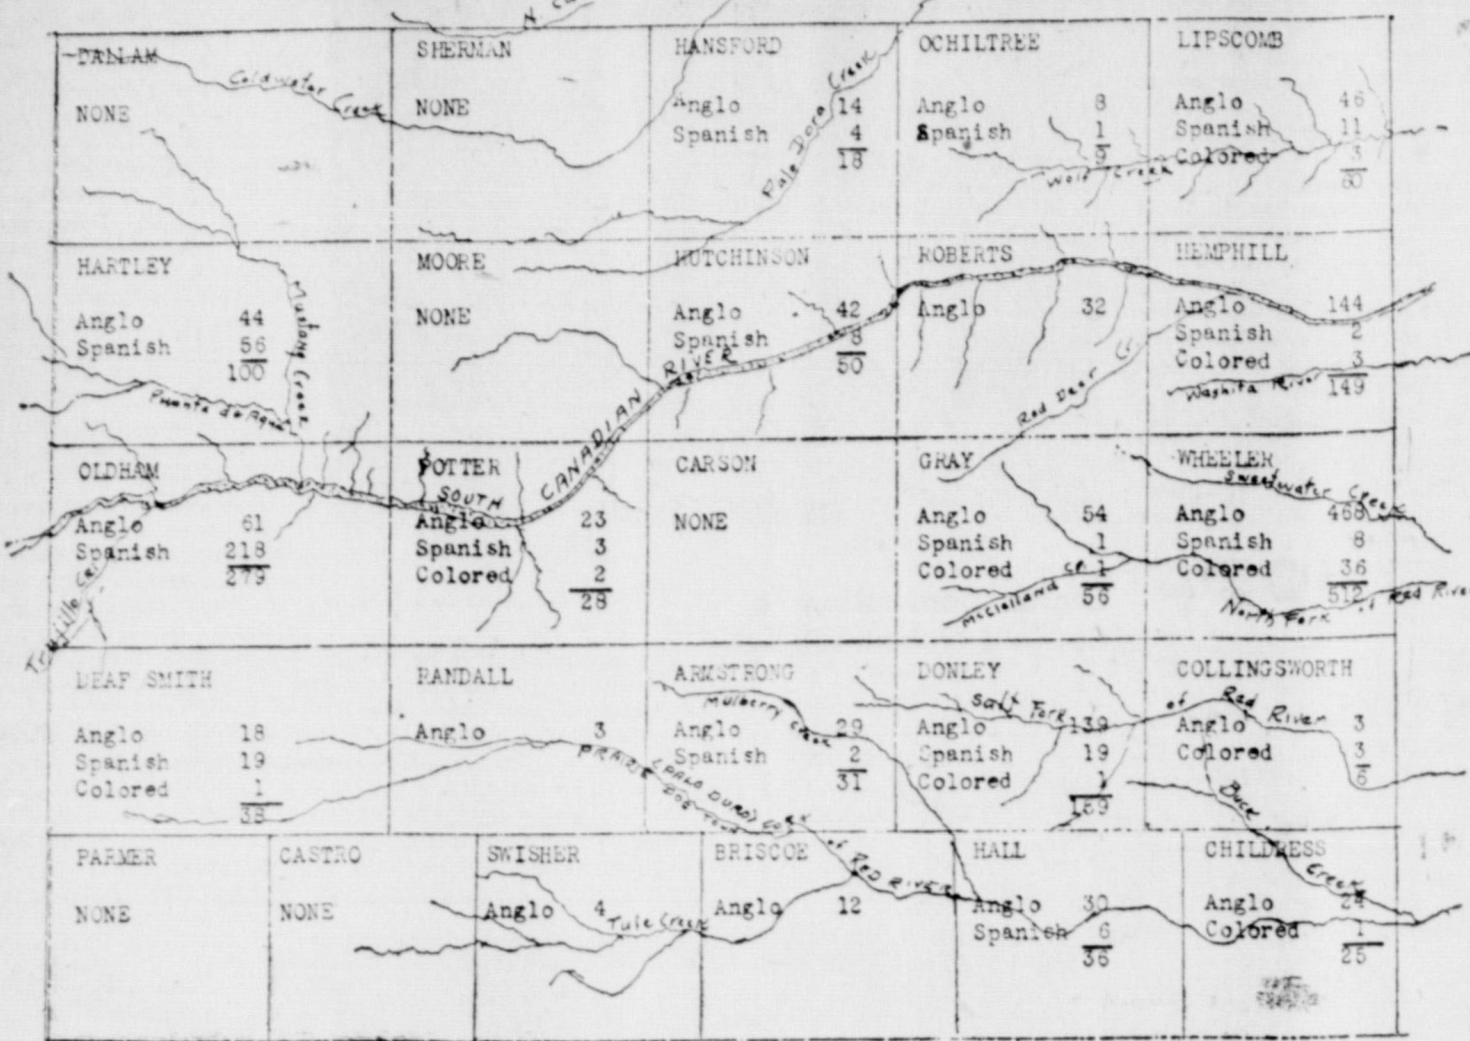

John Deere, two-cylinder engine design was born with the introduction of the first tractor to bear the John Deere name—the Model "D"—back in 1924.
 Right from the start, the simple, rugged construction of that tractor proved itself. Here was unequalled simplicity and strength through fewer, heavier parts... easier maintenance through greater accessibility. Here was husky farm power that won immediate popularity with farmers everywhere... that set new standards for tractor dependability, economy, and long life.
 These same basic advantages are just as important in a tractor today as they were a quarter-century ago. They're yours to enjoy, yours to profit by, along with every modern operating feature, when you choose a John Deere. See us soon.

Here is the John Deere Model "A" Tractor, a favorite on large row-crop farms. Available with either all-fuel or gasoline engine.

Counting Panhandle's Population Seventy Years Ago Was A Tough Job For The Census Taker

By JERRY MALIN
Amarillo Daily News
Staff Writer

In 1880, the federal census showed there were 1,607 persons living in the 26 counties now generally designated as The Panhandle of Texas.

The above map shows how these 1,607 persons were distributed over The Panhandle. It was drawn by Ernest Archambeau, Amarillo insurance man whose hobby is historical research.

The map was processed for publication by Jerry Malin, writer of the Amarillo Daily News column, Panhandle People.

Malin picked out the following as some of the most interesting highlights shown by Archambeau's research:

The four persons living in Swisher County listed "mustang hunting" as their occupation.

In Hutchinson County one man named his chief occupation "re-

operating health."

In the Fort Elliott list a soldier was listed as having no occupation and under "remarks" was written, "Insane."

Among the odd occupations was "adole maker," and Malin has been trying for months to find out what that means.

A brick mason noted his occupation and then added, "Unemployed for one year."

Not a single person listed his occupation as "Cowboy," but there were hundreds who named "herding cattle" as their occupation.

There was one miner, and several "gamblers."

Out of the entire population there was only one teacher, A. F. McKenzie of Hemphill County.

The only doctor in The Panhandle, according to the census 296 were soldiers stationed at Fort Tascosa. Of course, the army had some doctors at Fort Elliott, but all the military personnel were listed as "soldiers."

Only 31 children were listed as attending school "during the past 12 months."

There were three lawyers, all living in Mobeetie.

The nearest railroad shipping point was at Dodge City, Kansas.

During that year of 1880 The Panhandle was new land, and new people came trekking in chiefly from the midwest, Colorado and Western states. Only a small percentage came from other Southern states.

There were no public roads, no public schools, and law enforcement was primarily a local matter.

Wheeler County, as may be seen on the map, had the largest population. However, but of the 512 listed as living in Wheeler County were soldiers stationed at Fort Elliott.

By races, 1,198 were Anglo, 358 were Spanish, and 51 were negro.

Since 1880 was 70 years ago,

there are some persons still living who were enumerated then. Malin is interested in knowing the name of anyone now living in The Panhandle who was listed on the first census rolls in 1880.

In contrast to the heroic of census enumerators employed this year to take the 1950 census there were only seven employed in 1880.

Take a look at the map, a good look. You'll notice the population centers were near running water. That is significant. It tells us today that making a life in The Panhandle in those days was mostly a matter of survival.

What a far cry for those of us living in The Panhandle today! While we perhaps can't begin to really understand the hardships, the heartaches and the struggles of pioneers, we can at least look about us and ask, "Why is the Panhandle a great and wonderful place to live in today?"

The physical aspects of the country are the same now as they were in 1880. The credit for our prosperity today must go to the pioneers, to that hardy and rugged band of 1,607 souls who fought loneliness and odds with a spirit we could well do to revive today in our comparatively easy security in order to leave the coming generations as a great heritage as the pioneers of 1880 left to us.

I tried my best to see as many of the voters over the District as I could personally, but the tremendous size of the District was a handicap considering the short time for that purpose.

May I also express my appreciation to the other candidates for the open and democratic manner in which the entire campaign was conducted.

Although the campaign was a very strenuous one, I have continued to assure my many friends over the Panhandle that "the fight is just begun". I shall never cease in my efforts to have honest, economical Government on a local, self-governing basis without outside interference. I am still the old

school Texas Democrat that I have been all of my life, a free citizen and wholly unobligated except to God and Country. I am still opposed to socialistic trends in Government and in infiltration of our departments and bureaus by communistic elements. We must purge our Government agencies, both high and low, of this infiltration. We, the honest, free-thinking Texas Democrats, can do this without delay, but we must join together in a common cause and stay on the offensive. The true Democratic principles as laid down by Jefferson and his followers must be perpetuated in this District, and the salvation of those principles depends upon the true De-

mocrats rising to the leadership of any party which the party was time to fight is now.

I respectfully request of this District to name a Democratic nominee by vote in the July 22nd and that the fury of our freedom be increased!

Do We Remember?

Did you say, or did you think that the crash of guns, the rattle and crackle of small arms, the deadly thudding of grenades, the swish of iridescent water against the sides of blacked out ships, the scream of dive bombers, the shell incidence of boatwains whistles, the trailing whirr of rockets, the blunt crash of bombs, the shrieks of dying men, are all in the past?

Most folks think that those days are layered over with the press of current events and the pressure of day to day living in peace and what was for security these days.

Yes, most folks think the hell and horror of war is over. Most people are glad that the stink and the mud and the terror is all part of history now.

But it isn't—not at all.

THOSE THINGS live today almost as fresh and terribly terrifying as they were five, six or seven years ago. Those things happen again every night and tear the soul with as cruel slashes as they did on the beaches of a thousand islands, in the hedgerows, mountain passes and deserts of the fronts all around the globe.

The hurt and the memory of the hurt still lingers. In the minds of the men whose bodies and minds were torn in the holocaust the recollection never grows dim.

Those thousands who have spent every day since then in hospitals have had to live close to it. They have not had the grace and goodness of civilian life to spread a thin veneer of insulation over scars and burns of those days.

OH, I KNOW HOW easy it is to forget things which are painful to remember—unless such have been so deeply that conscious thought is never free from the ugly recollection.

Thus it comes as a shock, a hurting shock to hear that more than fifty two thousand disabled American veterans have been in the hospitals for an entire year without a single visitor.

The gray walls, the gray corridors, the gray bathrobes, the gray ceilings and the gray faces of the patients in the veterans' hospitals are so easy to forget. So easy to put out of mind in the rush and color and goodness of life in these United States.

But we must not forget. We must not forget so soon. We promised a lot of times that we wouldn't forget them. Now it is time to pay the debt—and it is a real debt.

IT IS THE TIME NOW when the veteran who has been awarded a compensation payment under the law is looked upon as a tax liability and moves are under way in both houses of congress to effect some economies in this part of governmental expense.

This, too, is further evidence that we are forgetting.

Good to relate is the fact that the Disabled American Veterans (the DAV) are organized in order to help each other. No other program or project is on their agenda. The idealism of the organization is not left to walk on clouds. It is practical and hard headed in its approach to the problems of the disabled veteran. Of course there are some mistakes made, but they are few and hundreds of worthy, needy and honest veterans are honestly helped.

So it behooves us who are fortunate to remember—to remember that the war isn't over—that it won't be over—that it comes back again and again, into the lives of those it hurt in body and mind.

Fifty two thousand completely forgotten disabled American veterans is a national disgrace. Add to that figure those other hundreds of thousands who still bear the burden of war with a tiny money payment as compensation.

THAT'S ALL FOR TODAY.—Don't forget those who can't forget.

 together with Wheeler from Texas, are one thousand high school graduates from twenty-nine schools. They will participate in this new program, named in honor of Mrs. Ruth.

The American Legion Auxiliary is sponsoring a girl to go to Texas State at Austin, for the week of June 14 to 20, where for this length of time youngsters from high schools over the state of Texas will take over the reins of government and direct the affairs of the legislature. The high school faculty is asked to make this selection from the junior class, and Madge Patterson has been chosen, with Ouida Burke as alternate.
 The senior class together with their sponsor Mrs. J. H. Scribner, Mr. Scribner and their bus driver, Ebb Patton and Mrs. Patton, left

Saturday morning for Dallas, Fort Worth, Austin, San Antonio and other points of interest in the home state that will take them to the coast, for a week of sightseeing.
 Mr. and Mrs. E. E. Johnston and Mr. and Mrs. J. T. Johnston day to attend a reunion of the Adams family at Elwood Park. Members of the family who enjoyed this get-together were: Mr. and Mrs. Amos Adams of Panhandle, Mr. and Mrs. Everett Adams of Hale Center, Mr. and Mrs. Raymond Waters and family and Mr. and Mrs. T. C. Davis

and family of Lubbock, Mr. and Mrs. Jack Woodward and family of Perryton, Mr. and Mrs. Ralph Martin and family of Bovina, Mr. and Mrs. Bo Guynes, Amarillo and the Johnstons from Mobeetie. The two sons of the Ralph Martins, Cecil and Jay Bill, returned with them for a weeks visit.
 Mrs. E. V. Herd returned Friday from Lockney where she was called last week to be at the bedside of a grandson, Glenn Welsh, 19-year-old son of Mr. and Mrs. Bert Welsh. Glenn was severely burned by the explosion of gasoline in working with a tractor and is still in a very serious condition,

though hope is held for his ultimate recovery. Latest reports state that he can look forward to a three months stay in bed.
 E. T. Rudolph, father of Mrs. I. T. Goodnight, is ill at the Goodnight home south of town. Several of his children have visited him within the past few weeks including Elbert Rudolph, Mr. and Mrs. Roland Rudolph, Tom Rudolph and Mrs. Lallie Taylor of Fort Worth, Elliott Rudolph of Houston and Rosser Rudolph of Arlington, Va.
 Mrs. Tracy Willis and Mrs. Arthur Carmichael were co-

hostesses to the Blue Bonnet Study Club on Friday, at the Willis home, for their annual spring luncheon. This meeting was the last of the club year and the retiring president, Mrs. C. J. Van Zandt, in a few well chosen words, expressed her appreciation of the help given by the membership in making a successful year possible. Mrs. Sam Thomas, Jr. newly elected president of the club, announced her committees for the coming year and read an appropriate poem, "Home Town Friends." The treasurer, Mrs. Tracy Willis gave the financial report for the year, and Mrs. Thomas played a piano selection, "Rhapsody In Blue" and the club was adjourned for the summer months.

TO THE PEOPLE OF WHEELER COUNTY

"I firmly believe that I am fully qualified to perform the duties of the County Clerk's Office, having had 10 years experience in clerical and administrative positions with the Federal Government, and 2 years experience in Abstract Work, and the necessary educational qualification.
 I will sincerely appreciate the influence and support of the people of Wheeler County in the coming election, and if elected, I promise to devote my entire time to the duties of the office, and will endeavor to handle the office in an efficient and businesslike manner, which would merit a second term.
 In all probability, I would be desirous of serving as County Clerk for two terms, but because I believe in the Democratic principles and ways of life, I would not ask for re-election to a third term, and would step aside for another capable young man aspiring to that office."

Why "Moose" Changed His Mind

Last week, parents were calling Moose Jackson on the phone—and kids were hooting at him in the streets. All because Moose fenced in his field near the depot, where the kids like to play ball. Moose got sore the way folks acted—refused to budge. Then Doc Sherman, who likes to play center-field himself sometimes, decided to "use a little psychology." Over a friendly glass of beer at Andy's Garden Tavern, Doc says, "Sorry this came up, Moose. We were thinking of asking you to umpire—what with your professional experience and all." Moose to play a little semi-pro. That did it! Next day, up a stile over his fence, the kids promised not to damage. From where I sit you try to understand the low's point of view—personal preference for him—and then take into the will of the majority seem to go better all.

S. Security Benefits Employees In Small Or Large Businesses

The size of an organization makes no difference when it comes to coverage under the old-age and survivors insurance section of social security. John R. Sanderson, manager of the Amarillo office of the Social Security Administration, said a wage earner who is the only employee has the same opportunity to qualify for insurance under the plan as do workers in large manufacturing plants, provided, of course, his employment is in commerce or industry, as the Federal

social security tax applies to employers of one or more persons. There have been several cases of older workers who did not have quite enough coverage to qualify for retirement benefits. "Sometimes they recall having worked for an employer who thought he did not need to report wages since he had only one or two employees," Sanderson said. "It is not always possible for such workers to get credit for non-reported earnings as far back as the beginning of the Social Security Act. However, if the employer can be located, and he files proper returns for such past employment, or if the services have been per-

formed within the past four years, the wage earner may have his earnings added to the record on which benefit payments are based," he explained.

Complete and accurate information on social security can be obtained from the Amarillo social security office located in the New Post Office Building.

Texas' War On Venereal Disease Is Progressing

Texas' private war on venereal diseases among indigents is proceeding in wholesale fashion, with over 95,000 patients having passed through State Health Department rapid treatment centers since the first center was opened in 1943.

"Untended syphilis can cause heart disease, mental illness, blindness, and other severe physical disabilities," the health official asserted. He asked pointedly, "See why they're lucky?"

Two state supported rapid treatment centers—Rocky Mount Hospital in Overton, and the Mission Medical Center in San Antonio—are maintained by the State Health Department for handling cases of venereal diseases in people unable to pay for private care, Dr. Cox said.

Gonorrhea, is handled in the VD clinics of local health units, rather than sending the indigents to the RTC's, Cox said.

"State Health Department policy calls for local health unit VD clinics as diagnostic centers," he said. "However, a good many rapid treatment center patients are referred there by private physicians."

Rapid treatment center personnel conduct patient education via conferences pamphlets, and motion pictures, which is, Cox said, "one of our most valuable educational processes."

"We learned long ago that educating patients while they are undergoing treatment has more retentive value than any other device we could use."

It would have taken a train nine miles long to haul all of the livestock that arrived dead at the livestock markets of the nation in 1947. This loss plus those from bruises and crippled animals annually amount to near \$25 million. Producers, transporters and livestock handlers all have a part to play in preventing these losses most of which are borne by the producer.

Cotton Farmers Can Secure Applications For Cotton Classing

Cotton farmers can now secure their applications for 1950 Smith-Doxey benefits, according to John A. Albritton, in charge of the local office of the cotton branch, Production and Marketing Administration, U. S. Department of Agriculture.

Applications are available at PMA offices, County Agricultural Agents' offices, and at the local cotton office, P. O. Box 249, Altus, Oklahoma.

Mr. Albritton points out that the farmers belonging to organized cotton improvement groups under the Smith-Doxey Act can get their cotton classed by USDA without cost. Also, they can get free market news service.

Groups should file their applications for Smith-Doxey benefits

Cooperation pays on telephone party

There's a rich "pay-off" for cooperation on the telephone line—that "pay off" is better telephone service.

When you use the telephone sharing—space your calls sensibly—hang up the receiver carefully—the habit of first thing you know, everyone on the line will be done and better telephone service is bound to be the result.

Try it on your party line and see. You'll be delighted to find it makes in your service.

OFFERS TO PAY FRIENDS IF HADACOL DOESN'T HELP

HADACOL HELPS SUFFERERS OF VITAMIN B₁, B₂, NIACIN AND IRON DEFICIENCIES

Mrs. Wallace tells her granddaughter, Mayneil Wallace, over the phone how HADACOL brought relief to her.

Mrs. Belle Wallace, 449 Formwalt St., S. W., Atlanta, Ga., is so grateful to HADACOL for the blessings it has brought her that she has recommended HADACOL to a number of her friends. She told them she would pay for their bottles of HADACOL if it didn't help them. She explains with a smile that she hasn't had to pay any of her friends, because HADACOL has helped them.

Mrs. Wallace, who is 74 years old, has five children, seven grandchildren and two great-grandchildren. She was suffering from a deficiency of Vitamins B₁, B₂, Niacin and Iron, which HADACOL contains.

Mrs. Wallace said: "I couldn't sleep or eat until I started taking HADACOL. I'd lie awake and toss and turn until the small hours of the morning. I was highly nervous. I couldn't even thread a needle. But since I've been taking HADACOL, my nerves are as steady as can be. I couldn't eat because when I did my stomach would puff and bloat and fill with gas. I am on the 7th bottle of HADACOL and my stomach is so much better."

Appetite Good
"I have a good appetite and my stomach does not bloat or fill with gas. I sleep like a log. I have recommended HADACOL to a number of friends and have told them that if it didn't help them, too, I'd pay for it, but I didn't have to because HADACOL did help them. HADACOL has done me more good than anything I have ever taken."

© 1950, The LeBlanc Corporation

Why Be Satisfied With Temporary Relief?
HADACOL also helps build up the hemoglobin content of your blood (where iron is needed) to carry these precious Vitamins and Minerals to every organ, and every part of your body—to the heart, liver, kidneys and lungs—even to the eyes, hair and nails) to help repair the damage that such a deficiency may be causing there. Countless thousands are benefiting from HADACOL. Why don't you give it a chance to help you? Why continue to suffer? Remember, HADACOL doesn't give temporary relief. Instead, it treats the real cause of your illness when, as so often, it's due to such deficiencies. That's why it's so effective; that's why it is accomplishing such amazing results.

You'll Feel Great . . .
... with the first few bottles you take, or your money back. There is only one HADACOL and it is sold on a strict money-back guarantee. So give this remarkable HADACOL medicine a chance to help you. It's never too late to start taking HADACOL. Many who despair of improvement found that HADACOL was almost like a miracle for them. Remember that HADACOL is amazingly different and amazingly effective because it treats the real cause of deficiencies of Vitamins B₁, B₂, Niacin and Iron. Make up your mind to take HADACOL regularly. Refuse substitutes. Insist on the genuine. You can't lose a cent, because it's sold on a strict money-back guarantee. Only \$1.25 for Trial size, Large Family or Hospital size, \$3.50.

Character is written all over it!

It's a wonderful feeling to take the wheel of a magnificent new Pontiac convertible—to feel the pride of driving a car with character in every line and action.

Naturally, the convertible is the sweetheart of the Silver Streaks, a car with a manner all its own. But character is a basic Pontiac ingredient—one that adds greatly to the pride and pleasure of owning and driving any Pontiac model you choose.

Every new Pontiac has character written all over it and stamped deep into its background. That's an important reason why dollar for dollar, you can't beat a Pontiac!

Pink And Blue Shower Honors Mrs. Johnson

The Jack Sims home was the scene of a pink and blue shower honoring Mrs. Ed Johnson, Friday, May 19. Hostess for the occasion was Mrs. Jack Sims, with Mrs. Coy Revious and Mrs. John T. Wright as co-hostesses.

The lace covered table was centered with an arrangement of spring cut flowers. The pink and blue motif was carried out in the table decorations and refreshments.

Mrs. Sims greeted the guests and directed them to the room where the gifts were on display.

Those attending and sending gifts were: Mesdames Roscoe Allen, Earl Barnes, C. C. Crowder, Louis Martin, Leroy Robison, Albert Chapman, C. C. Robison, T. J. Cole, Jr., Terrell Gunter, Buster Callan, Harold Callan, Etta Kate Hubbard, Wayne Rogers, Luther Parks, M. McIlhany, Carl Lafin, Carroll Pettit, Holt Green, Harry Wofford, Frank Wofford.

Ernest Dyer, Revious, Guy Dewkins, Winnie Watts, C. J. Meek, Cecil Denson, T. J. Cole and Patsy, Neva Myers, R. Wm. Brown, Jess Crowder, Lowell Pendleton, John Lewis, John T. Wright, Coy Revious and Barbara, Jack Sims, Junior Jamison, Chester Lewis and Amy Beth, Lawrence Crowder, Cora Hyatt and Jake Oswalt and Doug Sims of Mobeetie.

Misses Blanche Grainger, Birdella Genthe and Lucille Hutchison.

Mrs. Sims is Hostess To Wheeler HD Club

The Wheeler Home Demonstration Club met with Mrs. Lyndon Sims May 17.

Roll call was answered by telling of some woman in the Bible or by giving a Bible verse that referred to mother. The program for the afternoon included a very interesting talk on, "The Situation of The Mental Hospitals In Texas", by Mrs. Homer Lynch, Mrs. Lyndon Sims discussed, "The Atlantic Charter".

Refreshments were served to: Mesdames Owens, Sims, Lynch, Clark, Bentley, Hargraves, Bradstreet, Parks, Bailey, Wright and Bradley.

The next meeting will be with Mrs. Bill Owen, with Mrs. Bill Rushing as hostess.

Griffin Home Scene Of Family Reunion Sunday

Mrs. A. B. Griffin's home was the scene of a family reunion Sunday when she was hostess at a dinner for her children and their families and her brother, J. W. Fair of Ardmore, Okla. and his children.

After the bountiful dinner, the afternoon was spent taking pictures and getting acquainted as it was the first meeting of some of the cousins.

Those enjoying the occasion were: J. W. Fair, Mrs. Rose Fair and two children, Gene and Marshall of Ardmore, Okla.; Mr. and Mrs. Boyd Fair and children, Lavern and Shirley of Crawford, Okla.; Mrs. B. R. Loiselle and two children of Chillicothe, Ohio; Mr. and Mrs. Cecil Clark and Lanora, Wheeler; Mr. and Mrs. Ben Griffin of Pampa; Mr. and Mrs. Joe Griffin and daughter; and Bogan and Al Griffin, all of Wheeler.

Mr. and Mrs. Joe Field Meek and children of Bay Town are here visiting with his parents, Mr. and Mrs. C. J. Meek, and his brother, Wendell Meek and family.

Wheeler Whispers

By J. C. Howell

Mrs. John McCarroll recently brought us in some clippings from the Woodland (Calif.) Daily Democrat which tells the story of the phenomenal success of Ray D. Henderson, a former Wheeler County boy who was born in the Kelton Community and lived there until he was about 18 years old. Ray D. is the son of Mr. and Mrs. J. L. Henderson who lived in the Kelton community for many years but now reside near their son in Woodland, Calif.

Henderson is now a full partner in the million and a half dollar Ray D. Henderson plant at Woodland which is one of the largest International Harvester agencies in northern California.

Ray D. Henderson hitch hiked his way from Texas to California in 1935 and his first job there was a clerk in a grocery store.

Ray is one of five boys, the other four being Claude, J. D., Grady and Truman, Claude, J. D., and Grady are all in California near their brother and Truman, who was a pilot in the Royal Canadian Air Force during the war, was reported missing in action while ferrying a plane overseas from South America.

R. J. Holt, Jr. tells us that the Wheeler Crouquet Club is being re-organized and asks that we let all who are interested know. Anyone who is interested in becoming a member of the organization should see the secretary who is R. J.

Congratulations to Miss Billie V. Brown, daughter of Mr. and Mrs. R. Wm. Brown of this city, who won first prize on a sketch which she wrote in creative writing at Texas Christian University recently.

The members of the Wheeler Baptist Church accepted plans for a new auditorium building last Sunday morning and since that time trees have been cleared away from the site where the building is to be located and actual work on the construction of the new edifice is to begin shortly. The new auditorium building is to be 125 feet by 42 feet and is to cost in the neighborhood of \$40,000.

NOTICE!

C. O. Killingsworth, president of the Wheeler County Singing Ass'n., announced this week that there would be a meeting of the association Sunday in the Methodist Church in Kelton at 2:00 p. m.

Grasshopper Spraying At Kelton Successful

County Agent Frey reports 95% kill on grasshoppers sprayed in knee-high sweet clover on the Marion Addison farm east of Kelton last Friday. 100% kill was obtained in an adjoining pasture that was made up of shorter grasses and weeds.

Mr. Addison was interested in saving his sweet clover for pasturing his dairy herd, and asked the County Agent to help him get rid of a very thick crop of grasshoppers that were literally "mowing down" his sweet clover. Another pasture was sprayed alongside a cotton field to prevent the hoppers from moving the cotton when it came up.

One and a half pounds of Toxic-phene per acre was mixed with a "Seed" Sprayer with 28 foot boom. The demonstration started at 10:00 a. m. and at 5:00 p. m. Marion and County Agent Frey and Ray Tatum of Shamrock, who furnished the sprayer, counted 24 dead grasshoppers per square foot.

In spite of a half inch of rain that fell Friday night the hoppers continued to die. Saturday afternoon there were 34 dead grasshoppers per square foot and Monday afternoon, the only hoppers visibly moving were those along the fence rows that had been missed by the spray.
