You see a new face in the "Times" office on Tuesdays. Karla Harris is putting in some time to allow Marie and Patricia a little more time to enjoy the summer. She spends her time seated at Junior-Keep up the good work, Karla.

Didn't quite know what to make of the president's trip to Russia. How would we feel if they came over here, and all they wanted to do was get on the street and talk to the Skinheads, Ku Klux Klan, and Beatniks. Seems he just wanted to talk to dissidents. Bet our Indians were suprised to learn we humored them by letting them go live on reservations. My history book said we took their land and shoved them on the reservations.

My mailbox was real good to me this week. Had a letter from Louise Jenkins Fizzano postmarked Philadelphia. Her brother Leroy used to play on the radio with Joe. Maxine Wilhelm sent me a 39 Forever bumper sticker she picked up on her trip to KY to her grandson's wedding. Had a letter from Jim Parks of Levelland telling me about Reydon. Seems M.K. Brown, and Englishman with the White Deer Land Co. told him this in 1950 at Pampa. Mr. Brown was reading a letter from his sister in Reydon, England when he got a call. The Santa Fe told him they were building a station on a new railroad to Clinton just over the line in OK. They asked for a name so he said Reydon. When the railroad came thru, Rankin picked up and moved over, I guess. Was sad to hear from Dennis and Thelma Vannerson, near Austin, that they had both been in the hospital. We sure do need a strong, smart man for president. He has his work cut out for him. In the past seven years of the present administration, we have gone from the richest nation to the biggest debtor nation. We owe over two and a half trillion dollars now. That is more than a person can sight.

ATTENTION PARENTS

There is a new danger in drug activity that will affect our children and grand-children, especially the very young.

It is a form of tattoo called Blue Star and it is sold all over the United States.

It is a small sheet of white paper containing blue stars the size of a pencil eraser. Each star is soaked with LSD.

Each star can be removed and be placed in the mouth. The LSDcan also be absorbed through the skin simply by handling the paper. There are also brightly colored paper tabs resembling postage stamps that have pictures of Superman, butterflies clowns, Mickey Mouse, and other Disney Characters on them.

These stamps are packaged in a red cardboard box wrapped in foil. This is a new way of selling acid by appealing to our young children.

A young child could happen upon these and have a fatal trip. It is also learned that little children could be given a free tattoo by older children who want to have some fun or by others cultivating new customers. A red stamp called Red Pyramid is also being distributed along with Micro Dots in various colors. Another kind called Window Pane has a grid that can be pushed out.

THESE ARE ALL LACED WITH DRUGS.

Vacation Safety

Vacation time means fun time. With the warm weather and the green foliage in abundance, the citizens of the State of Texas will be enjoying their vacations at the many different areas that this great state has to offer. With the additional people on our streets and highways, there are additional precautions that need to be taken also.

Before leaving on long trips, we need to take a little time to check over our vehicles. Vacations are no time for a breakdown. So, checking simple items such as tires, cooling system, battery, belts, and hoses can prevent unwanted and unnecessary breakdowns. But, nothing can spoil a vacation anymore that having an accident.
