

WE ARE HAPPY TO ANNOUNCE THE INSTALLATION OF NEW EQUIPMENT WHICH WILL ENABLE US TO

Serve You Better

OUR NEW

Adjusta-Form Finisher

... enables us to finish your dresses, suits, coats and men's coats in such a manner that they will absolutely hang naturally on you and they will never be shiny the least bit. With this new adjusta-form finisher, we can now press the sleeves of your coats without creasing them, thus increasing the life of your garments. We can finish all your clothes with the exception of men's pants on this modern, new device.

OTHER NEW EQUIPMENT ADDED

In addition to the new finisher mentioned above, we have added a new press and other items of modern equipment which will enable us to offer you a better and more efficient cleaning and pressing service.

We invite you to bring in your clothes and see this new ADJUSTA-FORM FINISHER because we believe you will like the work we turn out on it.

POOR STORAGE MAKES LOW QUALITY HAY

The failure to use proper harvesting, curing and storage methods in connection with the production of hay, annually results in great amounts of low quality hay being produced in the state. According to E. A. Miller, extension agronomist of Texas A. & M. College, such hay not only has a low feeding value but also sells for less. Both add up to losses for the hay producer.

The time of harvest for hay crops is more important than most farmers realize, points out Miller. If the hay crop is left too long before cutting, it becomes coarse and loses much of its feed value, especially the protein and vitamin A.

Sudan and johnsongrass should be cut as soon as the first seed heads begin to form, or even a little earlier to get the full feeding value of high quality, protein-rich hay. Cowpeas should be left until the first seed pods begin to ripen. Prairie grass, adds Miller, can generally be left until time and labor are available for the haying operation, but if left too long, it will lose quality and feeding value.

Alfalfa should be cut for hay when the field is one-tenth to one-fourth in bloom, or when young shoots begin to show up at the base of the plants. Miller says it's a good idea to let at least one cutting "go-to-seed" or at least, to the full bloom stage on the new alfalfa fields in order to allow for the development of stronger root systems and longer lived fields.

Sweet clover should always be cut before the stems become coarse and woody — before it blooms. Because of growth habits, biennial sweet clover should not be cut closer than five or six inches to the ground, except the last cutting. New growth comes from shoots on the main stem instead of from the stool as is the case with alfalfa.

Legume hay, that is alfalfa, clovers and cowpeas, must be raked into rows before the leaves shatter. Miller points out that much of the feed value of high quality legume hay is contained in the leaves and heavy losses occur when the hay is left too long in the field. He says if a pickup baler is not available, the hay should be placed in piles or shocks before the leaves shatter, then

IN THE SWIM!

This charming squamaid is ready for a dip in an inviting pool on a hot summer day. She is in the fashion swim, too, in her figure-flattering swimsuit of cotton ripple-suit by Bates. The maillot style suit is especially good this season, National Cotton Council fashionists report.

baled or stacked when sufficiently cured. Grass hay may be left in the swath until it is fairly well cured.

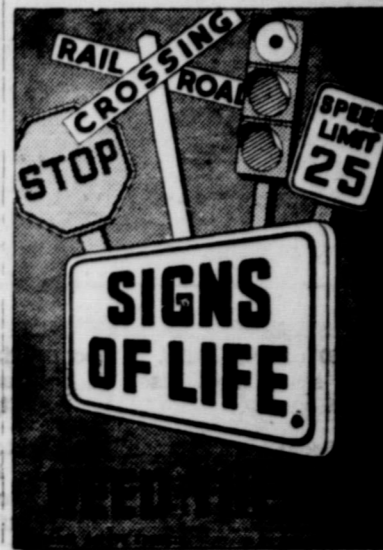

Two important changes take place during the hay curing process, says Miller. The water content of the plants drops from around 75 percent to 15 or 20 per-

cent and the chemical change is referred to as "sweating" or fermenting. During the sweating process the hay develops an aroma and becomes more palatable.

One of the secrets of producing high quality hay is getting rid of the excess moisture in the hay as fast as possible. Speed in drying means a good curing job and aids in retaining the green color. In humid sections of the state, the use of artificial hay driers makes possible the production of high quality hay that contains plenty of vitamin A and protein, says Miller.

In tests conducted by the Texas Agricultural Experimental Station, dry forage yields were increased from 350 to 1,330 pounds per acre on renovated K. R. blue-stem pasture by applying a combination nitrogen-phosphate fertilizer.

116,713 Texas farm boys and girls were enrolled last year in 4-H demonstrational work in agriculture and home economics.

From where I sit ... by Joe Marsh

The Cow That Can't "Run Dry"

Sandy Johnson showed me his Jersey cows last week. It was a warm day and they were all under the trees near a watering trough.

And darned if one cow wasn't pumping water into the trough! It's a fact—she'd raise the pump handle with her nose, and use her throat to push it down again.

"That's Mabel," Sandy explained as she moved away. "Sometimes they drink that trough dry, and she's learned how to fill it again. But she doesn't know her own strength—turns the place into a swamp if we don't watch her."

From where I sit, Mabel isn't the only one who sometimes doesn't know where to stop. For instance, people often carry personal opinions too far—like the person who wants everyone to accept his choice of political parties, or ball-players... or beverages. I prefer a glass of beer with my meals. I know that a lot of other people prefer milk. But nobody ought to insist on "herding" others around to his way of thinking.

Joe Marsh

"I got the story on
50,000 Miles-No Wear
and changed to New Conoco Super Motor Oil"

says W. R. Abel
Traveling Salesman
El Paso, Texas

"I travel 40,000 miles a year," says Mr. Abel. "Since I've changed to new Conoco Super I never have to add a quart between drains, and I've had no engine trouble."

"50,000 Miles - No Wear!" Proved Here:

After a punishing 50,000-mile road test, with proper drains and regular care, engines lubricated with new Conoco Super Motor Oil showed no wear of any consequence: in fact, an average of less than one one-thousandth inch on cylinders and crankshafts. AND gasoline mileage for the last 5,000 miles was actually 99.77% as good as for the first 5,000!

SHOP FOREMAN

"I have 80,000 miles on my Chevrolet, using Conoco Super," says Nick Motzner, Shop Foreman, Twin Falls, Idaho. "The motor has never been torn down, oil consumption is at a minimum, and gasoline mileage averaged 23 miles to the gallon."

TAXI OPERATOR

"I've had a decided decrease in maintenance costs and gasoline consumption since changing to Conoco Super," reports Goddard Langlais, Taxi Fleet Operator, Lafayette, La. "I only wish all my cabs had been broken in with Conoco Super."

Panhandler's Club**

Panhandlers Club of Shamrock concluded the current year's program with a 1:00 o'clock luncheon at the home of M. Porter in Wheeler, with Henderson Coffman as co-hostess.

The afternoon, Mrs. T. E. Porter presided over the business meeting. Mrs. Allen I. Smith presented the program by reading a collection of original poems. Mrs. John Porter reported on the short course held recently at the University of Oklahoma. Mrs. Porter reported on the group of poems by David and Eleanor Graham.

George Stanley gave a report of the Panhandle Pen Women's meeting held in Amarillo last week, and also an outline of "Writer's Round-Up" at West State College to be held in July 16-20.

Mettie Brown gave a report on a trip to points in South and MacArthur's speech at the officers were installed.

SOCIETY

The installation was conducted by Mrs. J. J. Baird, with the following members taking office: Mrs. Maggie Fleener, president; Mrs. Henderson Coffman, vice-president; Mrs. Jon Buell, secretary-treasurer; Mrs. Jess Moore of Wheeler, historian, and Mrs. A. R. Hugg, parliamentarian.

Guests were: Mesdames Gene Hall, Harrison Hall, and Cora Hyatt, Wheeler, and Mrs. J. J. Baird, of Shamrock.

The following members attended: Mesdames Margie Fleener, Allen I. Smith, G. H. Aldous, A. R. Hugg, John B. Harvey, T. E. Trostle, Mettie Brown, Jon Buell, George Stanley, all of Shamrock, and Jess Moore, Wheeler.

Refreshments of punch and cake was served to: Mesdames Louise Coliman, Thelma Hibbitts, Margie Fields, Cleo Gaines, Margaret Weatherly, J. H. Richards, C. A. Holdeman, C. C. Robison, Frank Wofford, Coene Smith, Cecil Richardson, Jr., Janelle Johnson, V. B. Hardcastle, Dora Collins, Cecil Richardson, H. C. Johnson and Roy Esslinger.

Misses Jo Ann Porter, Bill Brown, Audie and Gail Holdeman, Sue Gaines and Lucille Hutchison. Those sending gifts were: Mesdames Ernest Dyer, C. M. Hampton, Milton Lile, Buster Callan, Elva Green, R. G. Russ, Jr., Leta McQueen, Faye May, Virginia Callan, Terrell Gunter, Bill Hampton, E. H. Herd, M. V. Goode, C. J. Meek, Charlie Carter, Myrtle Lane, Bill Darnell and Maurice Burgess.

Misses Maurine Herd, Birdella Genthe and Bettye Jo Laycock.

Miss Jo Ann Richerson as co-hostesses.

Refreshments of punch and cake was served to: Mesdames Louise Coliman, Thelma Hibbitts, Margie Fields, Cleo Gaines, Margaret Weatherly, J. H. Richards, C. A. Holdeman, C. C. Robison, Frank Wofford, Coene Smith, Cecil Richardson, Jr., Janelle Johnson, V. B. Hardcastle, Dora Collins, Cecil Richardson, H. C. Johnson and Roy Esslinger.

Misses Jo Ann Porter, Bill Brown, Audie and Gail Holdeman, Sue Gaines and Lucille Hutchison.

Those sending gifts were: Mesdames Ernest Dyer, C. M. Hampton, Milton Lile, Buster Callan, Elva Green, R. G. Russ, Jr., Leta McQueen, Faye May, Virginia Callan, Terrell Gunter, Bill Hampton, E. H. Herd, M. V. Goode, C. J. Meek, Charlie Carter, Myrtle Lane, Bill Darnell and Maurice Burgess.

Misses Maurine Herd, Birdella Genthe and Bettye Jo Laycock.

**OES Chapter Initiates
2 New Members Tues.**

The Wheeler Chapter Order of the Eastern Star met Tuesday evening at the Masonic Hall for their second meeting of the month. Mrs. Irma Kirk, Worthy Matron and J. C. Howell, Worthy Patron,

presided over the initiation of two members in the Order, after which the regular business meeting was held. Mrs. LaDell Atwood and Mrs. Sammie Atherton were the new members.

Refreshments were served to twenty-seven members and four guests, who were Mr. and Mrs. A. K. McBride of Mobeetie and Mr.

and Mrs. Everett Enlow of Panhandle.

Kenneth James Daughtry was honored with a birthday party Sunday afternoon by his parents, Mr. and Mrs. Thomas Daughtry. Ken, who was three, had seven guests to share his birthday cake and ice cream with.

**Mrs. Clay Entertains

PUCKETT'S RECIPE OF THE WEEK
By Mary Lee Taylor
Old-Fashioned Lettuce Salad

2 tablespoons finely cut onion
4 teaspoons sherry
2 1/2 tablespoons vinegar
1 teaspoon sugar
1/2 teaspoon salt
few grains pepper
1/2 cup hot Pet Milk
4 cups shredded lettuce

Cook onion slowly in hot shortening 5 min. Then add vinegar, sugar, salt and pepper. Stir and boil slowly 1 min. Remove from heat and stir into milk. Pour at once over lettuce. Makes 4 servings.

You Will Need:
Pet Milk, Onions, Vinegar, Lettuce.

WE WILL BE CLOSED ALL DAY WEDNESDAY, JULY 4TH

So this is HOUSEKEEPING

Maybe it's true: maybe women are unreasonable and beyond the understanding of mere males. My spouse is convinced of the fact. But how would you react to this situation?

The other afternoon Jeff telephoned gleefully to say he was bringing me a wonderful present. That's enough to put any woman in a better mood. I envisioned ribbon-banded packages ranging through woods and furs to a more modest special box of candy. To do justice to the occasion I even wrapped the dinner menu slightly and whipped up Jeff's favorite specialty cake.

Some Zero Hour and I walked Jeff. Period. Not so much as a ribbon was in evidence to say nothing of an intriguing box. Bearing in mind that good things come in small packages, I waited happily.

Finally with much ado Jeff reached into his pocket, pulled out a news-paper clipping and announced:

"Here it is, sweetheart. A present from Uncle Sam!"

"Oh," was about the best I could manage. I read the clipping. It explained that the government had just amended an earlier order and was now permitting the use of copper tubing for interior hot and cold water lines in homes and all other types of building. It added that the copper order had not been amended because the construction of homes would have been almost paralyzed. Completely oblivious to my reactions, Jeff went on to rave:

"That's about the best present we could have right now. We can go ahead with our plans for a home. We can have the best water line tubing in the world and not have to worry about rust or corrosion. We can..."

My story, "Thanks very much, Jeff," stopped him cold.

"I thought you'd be all excited," he complained. "I thought you wanted a home more than anything."

That last remark happened to be true enough and under other circumstances I would have been delighted with the copper news. But the clipping after the big splash! I don't know; maybe women are unreasonable!

BUFFALO GRASS GOOD FOR LAWN

Buffalo grass will make a good covering for your lawn. It is a fine sizer because it is drought-resistant and low growing. This grass is recommended for West Texas by Sadie Hatfield, Home-Extension Specialist, for the Extension Service of Texas A. & M. College.

The specialist says the grass is sometimes called "mesquite grass" or "curly mesquite grass" and even "short grass." It grows from South Texas to the Dakotas. It is a favorite of cattlemen for their stock. This is the grass used by early settlers on the plains for making sod houses.

To get a start, the specialist recommends planting seed or sod. Planting sod is preferred. If you sow seed, you may get a poor stand. Select sod of seed bearing plants and you will have less mowing to do. Get sod two or three inches square and three to five inches deep.

Place twelve to eighteen inches apart to cover your lawn immediately. Water well and keep out the weeds.

The specialist says early fall and spring are best for sodding Buffalo grass, but many people are successfully starting lawns, any time of the year, if they have plenty of water.

Pack the soil very firmly about the roots and water immediately. Don't keep the soil out too long, before planting because it will become too dry.

Buffalo grass does best on tight soil but does not grow in the shade. Nitrogen fertilizer and potassium fertilizer with plenty of water force the growth much better than the usual 3 to 5 inches. So be careful not to over fertilize and make extra mowing necessary. See your county Extension agent for further information. They will teach you to recognize Buffalo grass.

Rev. Carl Lamb and family were dinner guest Sunday in the

FIREPROOFING IS EVERYONES JOB

Fireproof housekeeping can be every homemaker's job in keeping the country safe. Mrs. Bernice Claytor, home management specialist for the Texas Extension Service, says this will aid defense efforts.

For Fireproof housekeeping five steps are suggested by the National Board of Fire Underwriters to reduce common fire hazards in the home: first, clean out all rubbish; from closets, attic, basement, and other places. Then put waste paper in covered metal containers and empty them frequently; keep oily rags and paint cloths in covered metal containers; get rid of gasoline, benzene or other highly inflammable liquids; keep electric wiring, extension cords, and appliances in good repair.

Have an emergency kit including a flashlight, extra batteries, portable radio, first aid kit, several days' supply of canned food and drinking water.

Have some home fire-fighting equipment handy—a five gallon hand pump, a hose and several buckets of water, sand and a shovel.

Ernest Wallace home.

Mr. and Mrs. Jim Risner of Wheeler and Mr. and Mrs. James Barker of Shamrock were dinner guest Sunday in the Mrs. M. L. Risner home.

Rayburn Hall and family spent Sunday at Rocky, Okla. with relatives.

Mrs. Donald McMillan and daughter, Linda, from Tulsa, Okla. spent the week with her parents, Mr. and Mrs. J. R. Hall.

pliances in good repair.

Have an emergency kit including a flashlight, extra batteries, portable radio, first aid kit, several days' supply of canned food and drinking water.

Have some home fire-fighting equipment handy—a five gallon hand pump, a hose and several buckets of water, sand and a shovel.

During 1950 Texas 4-H boys made history with their exhibits of fat steers at the major stock shows of the nation. Grandchampionships were won at the State Fair of Texas; International at Chicago; American Royal Kansas City and Houston and San Antonio fat stock shows.

The annual Cotton Congress will be held at College Station, July 26-28.

LEGAL NOTICE

NOTICE BY PUBLICATION
THE STATE OF TEXAS

Midland Investment Company, a corporation; the unknown stockholders of The Midland Investment Company, a corporation; all persons claiming any title or interest in the land hereinafter described under deed heretofore made by J. B. Goode to Midland Investment Company, as grantee, dated September 8, 1891, and recorded in Volume 7, Pages 181-182 of the Deed Records in Wheeler County, Texas; B. F. Cozad, if living, and if not, the unknown heirs of B. F. Cozad, deceased, and their respective heirs and legal representatives; James B. Cozad, if living, and if not, the unknown heirs of James B. Cozad, deceased, and their respective heirs and legal representatives; Oliver S. Mason, if living, and if not, the unknown heirs of Oliver S. Mason, deceased, and their respective heirs and legal representatives; the unknown heirs of Martinus Mathiesen, deceased, and their respective heirs and legal representatives; the unknown heirs of Carrie Mathiesen Anderson, deceased, and their respective heirs and legal representatives; all persons claiming any title or interest in the land

hereinafter described under warranty deed heretofore made by Wm. Lanus to Oliver S. Mason, as grantee, dated December 11, 1905, and recorded in Volume 12, Page 46 of the Deed Records of Wheeler County, Texas; Roy Long, if living, and if not, the unknown heirs of Roy Long, deceased, and their respective heirs and legal representatives; and Walter Long, if living, and if not, the unknown heirs of Walter Long, deceased, and their respective heirs and legal representatives.

GREETINGS:

You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock a.m. of the first Monday after the expiration of 42 days from the date of issuance of this citation, same being Monday, the 8th day of August, 1951, before the Honorable 31st District Court of Wheeler County, at the Courthouse in Wheeler, Texas.

Said plaintiff's petition was filed on the 20th day of June, 1951. The file number of said suit is No. 4198.

The names of the parties in said suit are: Bob McCoy, as plaintiff, and all the parties above named to whom this writ is addressed, as defendants.

The nature of said suit being substantially as follows:

Plaintiff sues in trespass to try title, alleging that on the first day of January, 1948, plaintiff, Bob McCoy, was and still is, the owner in fee simple of the following described real estate and premises in Wheeler County, Texas:

All of Sections 19, 20, 21, 22, 23, 24, 25, 26 and 27, Camp County School Lands, Wheeler County, Texas.

On such day also, said plaintiff was in possession of said land and premises; afterwards, on the second day of January, 1948, the defendants, and each of them, unlawfully entered upon and dispossessed plaintiff of such land and premises, and withheld from plaintiff the possession thereof.

Plaintiff also alleges his title to the above described land by adverse possession under the three, five, ten and twenty-five year statutes of limitations.

If this citation is not served within 90 days after the date of its issuance, it shall be returned unserved.

ISSUED this 20th day of June, 1951.

GIVEN UNDER MY HAND AND SEAL OF SAID COURT, at office in Wheeler, Texas.

(SEAL)
HAROLD D. CALLAN
Clerk, 31st District Court,
Wheeler County, Texas.
28-4tc.

CARD OF THANKS

I want to take this means of expressing my appreciation to all my friends for voting for me in the recent IGA Grandma contest for it was your votes which enabled me to win 1st. place and receive the nice electric blanket.
Ma Atwood

The first step in bringing soils to their maximum production should be a soil test or analysis.

(Written for last week)

The personality this week is Vondell Hodges. Vondell is fifteen years old and is a sophomore in Wheeler High. Vondell plays a clarinet and gets a big kick out of it. She wants to finish high school and then make a good housewife. She takes an active part in sports. Vondell's favorite subject is boys. And she makes fairly good grades in it.

From the band to Mr. Boddy. "Father was a Freshman".

Kay, that is a cute dog you've been bringing to band with you

but I don't think he likes our music.

Janice, are you having fun this summer?

John Dan, you'd better quit working so hard.

Garth, you're certainly windy lately.

Mrs. Boddy, we're glad you have lots of patience with us.

Robert and Tooty, have you two forgotten about band? *

WauNETTA, calm down and play that horn.

Jaunita S., how do you like living in town now?

Bony, are you still roving?

Wanda, don't you think three is a crowd? I'd bet G. F. does.

Billie and La June are going to Texas A and M this weekend. We hope they don't run everyone crazy. This means a rest for us; but we'll be glad to see them back.

THE BOSS WILL DECIDE

Junewed: "My wife likes coffee for breakfast while I like tea."

Longwed: "You'll soon get used to coffee."

THE WHEELER TIMES
"The Voice of North Wheeler County"

**When It's Time To Eat,
It's Time To Refresh**

**ONE RIVER
doesn't make an ocean . . .**

**In the Gas Business, too
IT TAKES MANY SOURCES OF SUPPLY**

One creek doesn't make a river, nor one river an ocean.

In the same way, one joint of pipe doesn't make a natural gas pipe line. It takes thousands of joints to form the gathering lines which move gas out of the field; it takes thousands more to construct a main transmission line; and still other thousands to build a system of distribution mains and service lines.

When gas supplies from more than 200 fields are available to meet the needs of such a system . . . and when more than 400,000 homes and industries are being served from that system . . . then you have United Gas.

Always, United Gas is planning and building for tomorrow; building to assure adequate supplies of gas for our customers of today, and of the future.

THERE'S PLENTY FOR YOU AND INDUSTRY, TOO
