

Wheeler hisperings

By J. C. Howell

Several men over town tell us this week they had stopped their wives drinking this city water we carried the article last telling about Jim Risner Hadaool in it.

A. B. Crump has as-erted that this city water is the cause of all the twins here. He says that he re-ceived a wire from Senator Dudley Hadaool founder, and he told him that he appreci-ated the publicity and all that but he said no such powers for his-elf however, he did tell Mr. Crump that President Harry Truman was the cause of all the twins being born around

George Gandy has borrowed equipment and operators from Commissioners W. E. Mason and Shorty Erwin and is setting off a nice place just west of the Wheeler Community where the Wheeler County Dairy Day Show is to be held Thursday, April 5. Nile Patterson and Bill Hampton have donated some time as operators on this project. Patterson's services were loaned by Nash Apple and Supply.

Wonderful to have public citizens like George Gandy, Commissioners Mason and Patterson and Hampton are willing to give of their time and their merchants and business men may grow and progress is our belief that we should show our appreciation in one way or another. By the way, Erwin furnished the services of the Carter as operator of one of the rigs which was doing this work.

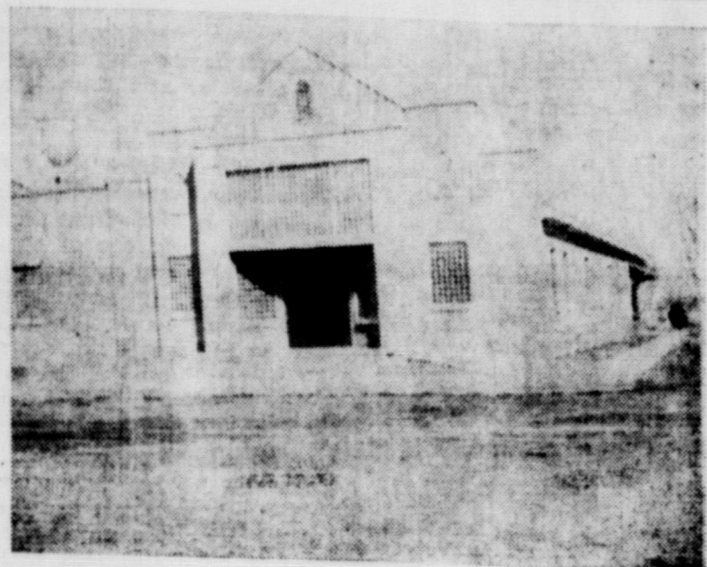

Erwin tells us also that he had the services of some high class soil conservation service men, Harry Rhinehart, who is surveying of the plot free of charge. He also tells us that in the local SCS office, Loyd Wright, Johnny Johnson and Crout, assisted with the pro-ject.

A group of Baptist men gathered at the New Baptist Church Tuesday and with the aid of Commissioner Shorty Erwin and Charlie Carter who operated the county maintainer off the space around the building preparatory to holding the first service in the new building Sunday morning.

Chief Jack Garrison tells us he appreciates the cooperation he has been receiving from citizens regarding their stay-out of the way of the fire when it makes a run around square to pick up volunteer fighters, but asks that we people who go to fires just what is burning please stay out of the way so the firemen can maneuver around any fire they need in order to get it free properly.

Following is a list of some of the best people on earth—Our subscribers who have paid their contributions since we last ran a list of subscribers in our column: R. A. Alexander, Carroll P. C. Charles, A. Pond, A. Hiltbrunner, C. F. Melton, Robert D. May, Mrs. A. G. Congressman Walter Rogers, Willard Rogers, Claude R. E. L. Roberts, T. M. Wright, C. E. Roper, C. L. Seitz, H. Hoffman, Thomas Braly, Mrs. Hamilton, T. J. Cole, Jr., Fred Harville, Watson Bur-ling, Fred Farmer, C. A. May, J. R. A. Estes, Ernest Lee, Lee, Mrs. Wilsford Jones, Reid, Jack Hays, H. L. Tilley, Mary Mayfield, continued on Last Page)

FIRST BAPTIST CHURCH

Baptists To Hold First Service In New Building Sun.

Rev. M. B. Smith announced this week that the congregation of the First Baptist Church here would hold their first service in the new auditorium building Sunday morning, March 25 at the 11:00 o'clock hour.

Although the furniture will not be moved in at that time, the new building will be open to the public for viewing Friday evening at 7:30 o'clock it was announced this week.

Rev. Smith announced that the Sunday morning service would not be a special service but would be the usual service except for the fact that a group of students from the music department of the Wheeler Schools will give a short Special Easter musical program between Sunday School and the regular preaching service.

The new Baptist Church Auditorium building which has been built under the direction of the building committee with Morgan Bowman, local manager of the Cicero Smith Lumber Co., drawing plans and overseeing the construction will cost the local congregation approximately \$42,000.00 including the new furniture which is to be added.

The new brick structure is 42 feet wide and 125 feet long with the main auditorium 42 by 72 feet. The building has brick walls, concrete floors, wood roof structure and is covered with composition shingles.

In the center of the east end of the building is the rostrum with space directly behind it for the choir and directly behind the choir is the baptistry which is backed by a beautiful pastoral scene which was painted by one of the local carpenters, Sherman Smith.

Facing east, to the left of the rostrum is the ladies dressing room, behind the baptistry is the men's dressing room and to the right of the baptistry is the minister's study.

At the front or west end of the building, is the foyer with the nursery on the right and the ladies powder room on the left. The nursery is equipped with a rest room and a low bench for young children to sit on.

In the corridor which connects the old and new buildings, is located a class room for the elderly ladies of the church, a rear exit door, a room for the church secretary and stairways up into the old auditorium and down into the basement.

The front of the building has been decorated with glass brick and the slight incline from ground level up to floor level has been fixed so that anyone who can get about at all will be able to get into the building.

Interior decorations are beautiful and the acoustics of the building are as near perfect as local workers could possibly make them.

The building committee is composed of Harry Wofford, G. W. Hefley, Lee Guthrie, Joe Tilley and Morgan Bowman.

Rev. Smith stated that the church planned a special open house service about the 29th of April and plans for the service would be announced at a later date.

After a woman has had the last word she is just dying to know what her husband is thinking about.

MUSIC DEPT. TO GIVE SPECIAL EASTER MUSIC

Band Director Patrick Boddy announced this week that members of the Wheeler Mustang Band and the Wheeler High School Chorus will present a short program of special music for Easter Services at both the Wheeler Methodist and Baptist Churches Sunday morning. The first program will begin promptly at 10:45 a.m. at the Methodist Church and immediately following the close of this program the group will journey to the Baptist Church where the same program will be presented.

The high school chorus will render the following numbers: "The Green Cathedral" and "Let Us Break Bread Together". The chorus is composed of Patricia Hubbard, Betty Jo Trayler, Bonita Ragan, Louise Weeks, Betty Laycock, Fliptian Lott, Martha Ann Chapman, Leveta Moore, Mary Helen Hefley, Wau-netta Burgess, John Dan Bowman and Doyle Brown.

An accordion ensemble composed of Janet Russ, Donna Greenhouse, Sarah Jane Goad, Leveta Moore, Georgia Gaye Herd, Anette Reeves and Dale Wofford will play "Largo" from the New World Symphony and the hymn, "Softly, Now the Light of Day".

Miss Joyce Sims will render a Marimba solo and the program will be concluded with a clarinet set which will be composed of Billie Owen, Sharon Green, Patrick Darnell, Helen Johnson, Vondell Hodges and Martha Lou Goad. The sextet will play the well known hymn, "Abide With Me".

Red Cross Fund Drive Over Top, Some Areas Still Lack Collections

C. B. Kirk, fund chairman for the 1951 drive for the North Wheeler County Chapter of the National Red Cross, happily announced this week that the quota set for the local chapter by the National Red Cross had been reached and exceeded and the drive is not yet entirely completed in some communities.

The quota set for the North Wheeler County Chapter by the National Red Cross was \$814.00 and the local chapter set as their goal \$1,000.00. As of Tuesday afternoon, Mr. Kirk had reported to him a total of \$845.78 which exceeds the quota. Work was not yet completed in the Mobeettie and Kelton communities and it was entirely possible that the chapter might reach its goal.

People in the town of Wheeler proper contributed a total of \$557.43 and the remainder of the total contributed by residents of Briscoe, Allison, Mobeettie and Kelton. A complete break-down of the amounts turned in by communities and various workers will appear in next week's Times.

Mobeettie Meditations

By Mrs. H. L. Flanagan

Mrs. Sam A. Thomas, Sr. was hostess to the Blue Bonnet Study Club on Thursday afternoon, March 15th at her home south of Mobeettie. A program on "Court-ney" was presented with Mes-dames John H. Taylor and Mrs. E. E. Johnston taking part on the program. Roll call was answered by giving tips on courtesy.

Members present were: Mes-dames Grady Harris, E. E. Johnston, J. H. Taylor, Arthur Carmichael, Sam A. Thomas, Jr., John Dunn, J. T. Johnston, H. E. Matthews, and the hostess, Mrs. Thomas. Guests were Mrs. E. L. Sisk and Mrs. Al Thomas of Wheeler.

Guests of Miami OES chapter on the evening of March 16th from Mobeettie chapter were: Mr. and Mrs. J. R. Patterson, Mrs. Homer Matthews, and Mrs. R. C. Carter.

Mr. and Mrs. Bud Boyles of Pampa were Sunday dinner guests of the C. C. Dysons near Jowett Station. Mrs. Boyles is the former VaRue Dyson, a niece of the Dysons, and grew up in Mobeettie.

Mrs. Leonard Hollis and young daughter of Pampa visited this week in the home of her parents, Mr. and Mrs. Tracy Willis, near Mobeettie.

Friends of J. I. Maloy will be happy to learn that he is now back home after an extended stay in the Shamrock General Hospital where he has been very ill. Wishes are for him to continue on a speedy road to recovery.

HDA GIVES POINTERS ON FROZEN PIE

By Emma May Hastings
Home Demonstration Agent

Can I use my family's favorite apple and pumpkin pie recipes for home freezing? How long will pie keep in a freezer? Is it better to bake the pie before freezing, or after? So run questions to home freezing specialists of the U.S. Department of Agriculture.

With only a few changes, standard recipes may be used to prepare fruit pies for home freezing, mince, pumpkin, and chiffon and cream types, the specialists reply. Custard pies, on the other hand, do not freeze well. And meringue trimmings are best avoided, because they are likely to toughen and stick to wrappings.

To use the pies at their best, plan to leave them in the freezer no longer than 2 to 3 months.

As for the best baking time—before or after freezing—pies are satisfactory if frozen either baked or unbaked. However, crust will usually be more tender and flaky and flavor fresher, if pie is frozen unbaked.

Here are other special pointers on pie freezing, from these specialists in the Bureau of Human Nutrition and Home Economics.

Where fruits are frozen unbaked: Some fruits need special treatment to hold color and flavor. Steam apple slices 2 minutes, cool, and drain; or dip raw apple slices in a solution of 1/2 teaspoon (1,000 milligrams) ascorbic acid (vitamin C) to 1 cup water. Apples for 4 or 5 pies can be dipped in this amount of solution. Peel peaches without scalding, then slice. Mix peach slices with 1 tablespoon lemon juice or ascorbic acid solution made by dissolving 1/4 teaspoon (500 milligrams) ascorbic acid in 1 tablespoon water. Coat berries or cherries with a mixture of sugar and flour. Use spices lightly, especially cloves, because they may become bitter and discolor frozen filling.

Do not cut steam vents in top crust of an unbaked frozen fruit or mince pie until ready to bake. Then cut vents, bake the pie just as if fresh, allowing about 10 minutes longer baking than for fresh pie.

When pies are baked before freezing: Prepare and bake the pies as usual. Cool thoroughly before wrapping and freezing. Best way to thaw a baked fruit or mince pie is to remove the wrapper and heat the pie at once in a moderate oven, 375 degrees F. for 30 minutes. Let baked chiffon and pumpkin and cream pies thaw at room temperature.

Pie plates and wrappings: Put pies for freezing into paper pie plates made for baking; or use rust-proof metal pie plates, if you can spare them. Wrap pies in moisture-vapor-resistant material and seal with heat or tape. Cover pie with a paper plate and place in a stockinette or paper box for added protection in the freezer.

Miss Merrill To Give Organ Recital Sunday

Rev. Darris Egger, pastor of the local Methodist Church, announced this week that Miss Ruth Merrill will give an organ recital at the church Sunday afternoon, March 25, beginning at 4:00 o'clock. Miss Merrill will render several numbers at the new Hammond Organ.

Miss Merrill will play: "Abbe: Chimes" by Meale; "Holsworthy Church Bells" by Wesley; "Pans Angelicus" by Franck; "Angus Dei" by Bizet; "The Palms" by Faure; "Largo" by Handel; "Andante Cantabile" by Widor; "Calm as the Night" by Bohm; Prayer from "Finlandia" by Sibelius; "Andante" by Rheinberger; and "Hallelujah Chorus" by Handel.

Mrs. Darris Egger will sing two numbers: "The Lost Chord" by Sullivan and "Calvary" by Rodney.

The recital is open to everyone, and you are invited to enjoy this fine organ music.

NOTICE

The Junior Class of the Wheeler high school announced this week that they will hold a food sale at Clay's Food Store Saturday and ask that you come by and buy your cake or pies for your Easter dinner from them.

It seems that dolls that cry "mama" when you squeeze them have gone out of style.

Wheeler Be Host To County Dairy Day On April 5

Home Talent Show To Be Presented At Gym Friday Night At 7:30

"Dixie Boy" Jordan of Radio Station KWFT will conduct a Home Talent Show at the Wheeler Gym Friday night, March 23, beginning at 7:30 p.m. Everyone who attends is promised a good time.

In addition to emceeing the whole program, "Dixie Boy" will sing songs, recite poems and tell funny stories to keep everyone in good humor.

Talent has signed up from Allison, Briscoe, Kelton, Samnorwood, Shamrock, Mobeettie and Wheeler. Their acts will include singing, dancing and musical numbers.

Admission prices will be 50c and 25c. The attendance of all will be appreciated by the Wheeler Band Boosters. Mrs. Lyndon Sims, president of the Band Boosters, says, "Come one and come all, and we promise to send you home happy."

MRS. SHELTON RITES HELD

Funeral services for Mrs. Fanny Anderson Shelton, 85 years old, one of the Panhandle's earliest pioneers, were held Wednesday afternoon at the Miami Baptist Church. Burial was in the Fairview Cemetery at Pampa.

Mrs. Shelton died Sunday at the home of a daughter, Mrs. G. L. Murry of Miami, after a long illness.

Mrs. Shelton came to the Panhandle in the early 1870's when her father settled on land near Chicken Creek, northwest of Miami. She often recalled Indian scares and attacks and the moving of the family to the safety of Fort Elliott at Old Mobeettie.

In 1885 she married Dr. P. L. Shelton, a young doctor practicing at Mobeettie. The young couple later moved to Old Tascosa, where she often assisted her husband in administering to the needs of his patients in that frontier town. From Tascosa they moved to Plemons, where Dr. Shelton practiced and operated a drug store.

After the birth of their eleventh and last child, Dr. and Mrs. Shelton "took a holiday". They went to New Mexico and liked it so well that Dr. Shelton chopped a clearing in the forest and built a two-story home at what later became Lasa Terrias.

Mrs. Shelton is survived by five children, Mrs. G. L. Murry of Miami, Mrs. Robert Hollis of Pampa, Mrs. J. B. Jackson, Denver, Mike Shelton, Miami, Henry Shelton, Mobeettie; also two sisters, Mrs. Dan Tracy, Sayre, Okla., and Mrs. Lela Kimball, Artesia, and a brother, John Anderson, Sayre, Okla., 29 grandchildren and 42 great grandchildren.

Special Easter Service At Assembly Of God

There will be a special Easter message at the 11:00 o'clock service at the local Assembly of God Church, Pastor B. G. Syverson announced this week. In addition to the special message, communion service will be observed.

Pastor B. G. Syverson extends a cordial welcome to all to attend the friendly little church on the hill.

There will be a youth service at 3:30 p.m. and the regular Sunday night service following at 7:30 o'clock.

Rev. Gilliam To Speak To Methodists Sunday

Rev. W. B. Gilliam of Shamrock will speak at the Sunday Evening Fellowship at the Methodist Church Sunday night. Rev. Gilliam will tell of the changes that he has seen take place during his ministry. Bro. Gilliam is now a retired Methodist Minister and will have some interesting experiences to share. Come Sunday night at 7:00 o'clock.

Wheeler County will hold a Dairy Day on Thursday, April 5, 1951. This dairy day will be sponsored by the Wheeler County Farm Bureau and will be held in Wheeler this year. At a meeting of dairy men, Wheeler County Farm Bureau directors, and agriculture workers of Wheeler County; plans were made and committees were appointed to put on a big dairy day. Wheeler was accepted as the site to hold this year's dairy day with the idea in mind that it would be held in Shamrock in 1952.

The members of the general committee are as follows: George Gandy, chairman; W. H. Templeton; Clarence Zybach; Howard Weatherby; Robert Ledbetter; and Mr. Christner.

The cattle committee members are: Howard Weatherby, chairman; W. H. Templeton and Mr. Christner.

The 4-H and FFA dairy judging committee are: Robert Ledbetter, chairman; Don Powell; Ernest Bryant; and C. J. Van Zandt.

The grounds committee is made up of Coleman Walton and Ike Sewell, chairman.

Publicity for dairy day will be furnished from the County Agents office. Commercial dairy concerns are being contacted to see if commercial booths and demonstrations can be on hand that day.

Paul Macina, president of the Wheeler Farm Bureau, and Clarence Zybach, vice-president of the same organization are directing the Farm Bureau part in the dairy day. The Wheeler Farm Bureau has set aside \$600.00 for prizes, ribbons, and banners to be given in the dairy judging contests. Raymond Moore and Irvin Hink are on a committee to distribute this prize money.

There will be two dairy judging contests during this day. During the first part of the morning there will be a 4-H and FFA dairy judging contest between teams of this area. The latter part of the morning will be devoted to a general dairy judging contest to which the public is invited. Any person who judges all classes of dairy animals during this contest will be eligible to win one of the prizes given for the high three scores. This contest will all be based on individual scores and every one is invited to compete.

It will also be divided into a junior and adult so that a difference will be made between age groups, and juniors will not compete against each other.

In the afternoon, the dairy entries will be classified by R. E. Burleson, dairy specialist for the Extension Service from Texas A. & M. College. Ribbons will be awarded according to the merit of the animal. These ribbons will be furnished by the Wheeler Farm Bureau cooperating with the Texas Jersey Cattle Club.

Anyone wanting to get any breed of dairy animals classified should contact Howard Weatherby (Continued on last page)

Editorial

INFLATION LESSON

Dr. O. B. Jessness, head of the University of Minnesota department of agricultural economics, delivered a little homily on inflation the other day which was directed at farmers but which applies with equal force to every other group in the nation.

Basically, he pointed out, inflation and rising prices are caused by an excess of spending power over supplies of goods and services. Thus, as individuals or groups scramble to increase their spending power—through higher wages, higher profits or credit which make future income available for current spending—they help to defeat their own purpose by shoveling more fuel on

the inflationary fire. Then, as prices go still higher, the process has to be repeated in order for these individuals and groups to maintain their relative position.

Dr. Jessness warned farmers that they would be ill advised to try to profit from inflation. For as they do so, they only add to inflation, which damages and may mean the ultimate ruin of the whole economy. When the economy goes into a decline, the well-being of the farmer collapses with it.

There is a lesson in this not only for farmers but for all groups who seek to gain special advantage in a time of inflation. The prosperity of all the people depends upon the health and stability of all the elements of the economy—commerce, industry and agriculture. Actions which jeopardize the stability of any of these elements jeopardize the prosperity of every citizen.

Especially is there a lesson here for government, whose actions—or failure to act—affect the whole economy and the whole citizenship. Unless government does its utmost to bridle inflation, it is playing fast and loose with the national welfare and stability.—Ft. Worth Star-Telegram

FEDERAL FARM AGENCIES

On its face, the plan of Charles F. Brannan, Secretary of Agriculture, to merge two overlapping farm agencies appears to be in the interest of efficiency. It would carry out one of the objectives of the Hoover commission. Yet many will want to know details of the plan before approving it. Too many agency mergers under Roosevelt and Truman have meant discarding two taxpayers and hiring three. The net result in some instances has been more political domination rather than less.

One item in the merger plan will have general approval from farmers. That is the proposal to put county offices of the Soil Conservation Service and the Production and Marketing Administration in the same building wherever possible. At present, farmers who come to see men in both agencies often lose much time in going from one end of town to the other. Whether the whole merger plan would result in economy and in greater efficiency depends on the means used to put it in operation.

The SCS has been one of the best of the federal agencies. It has been decentralized to a large degree, is relatively free from politics and in Texas operates under a state law that keeps most of the control of soil conservation districts in state and local hands. No merger should be made unless all of these SCS advantages are clearly retained. On these points, less can be said for the PMA, a younger agency formed to meet emergency conditions that largely have ceased to exist. Both farmers and taxpayers could be helped by a merger that would make present services more efficient and more economical. But they might be hurt severely by one that would cripple these services and make them more wasteful by the imposition of a Pendergast type control.—Dallas News

THE WHEELER TIMES classifieds offer more for less money, to both buyer and seller, than any other business device we know about.

Gifted Violinist To Play Concert At Shamrock Soon

"Not a talent, but a genius" cried Enesco, celebrated Roumanian violinist, on first hearing Helen Kwalwasser play the violin. She was then 11 years and a veteran of 9 years standing. Now at 22, she will be the next attraction to be presented at Shamrock by the Wheeler County Municipal Concert Association.

The word "genius" has followed Helen Kwalwasser wherever she has gone, but it has not prevented her from being one of the most hardworking and painstaking artists in the world. Her father, the well known music educator Dr. Jacob Kwalwasser, of Syracuse University, presented her with a violin at the age of three, and the medium of her genius was immediately apparent.

By the time she was six, her work was so astonishing she was engaged to appear as soloist to play a Bach Concerto with the Rochester New York Symphony and was hailed as a prodigy. She made frequent appearances after that in and about New York and at the age of 19 made her Town Hall debut. The relatively unknown young girl who stepped on the stage that evening left it at the end of the concert the treasured discovery of every member of the audience. Critics hailed the "silver purity of her tone" and her "devoted musicianship." Miss Kwalwasser and her violin were established.

Since that March evening three years ago, Helen Kwalwasser has made two triumphant European tours (returning from the last one

just this summer) as well as several American and Canadian tours. But whether she's here in Texas or thousands of miles away in Europe, her audiences always not only a gifted musician, but very attractive one as well.

The Helen Kwalwasser concert will be held on April 3 at the Clark Auditorium in Shamrock at 8:15 p. m. for members of the Wheeler County Municipal Concert Association only.

Results of the 1950-51 Texas beef cattle program will be announced at a field to be held March 31 at the morhea Agricultural Experiment Station.

An acre of corn produced the rate of 100 bushels per acre the following: 4,000 pounds of stover; 1,400 pounds of 5,600 pounds of shelled corn; 5,200 pounds of roots and etc.

Of course — it's Electric!

It's electric because there is no better way for complete food protection.

Today's high food prices demand the best in food protection. You get the best in electric refrigeration. The valuable vitamin and mineral content of meats, fruits and vegetables are kept at peak perfection. And you have the added value of making frozen salads and desserts which bring new pleasure to menu planning.

See the glistening electric refrigerators now being displayed by your electric appliance dealer. Keep your food values up and your food costs down with dependable electric refrigeration.

SENIOR NEWS

The seniors are still counting the weeks until school is out. Each day makes it a little closer. We now have 8 weeks, 4 days and one period left of this school year. The volley ball girls played Kelton Friday afternoon. We won three games out of five. We are all proud of the boys who won their baseball game.

The seniors have been scouting around lately and found out the following about local residents:

Mrs. Bumpas always gets to cut the wedding cake.

Mr. and Mrs. Fowler can get lost on country roads.

Mrs. Barnett is recovering nicely.

Wilma Lou certainly has herself a new nickname.

Doris can sleep in the afternoon as well as at night.

Lottie just about has herself a

new home to move into. All is needed is to say "I do". Wonder when?

JUNIOR NEWS

We had a class meeting Monday with the seniors. We finished planning our banquet. It is to be March 30. We certainly hope it will be a high success.

Van, why did you strain your eyes Monday? Cute eh.

S. W., what was so funny in science class? Eddie, do you know?

Doug, why do you get blamed every time something happens to someone's car?

Thomas Roy has been going to Mobeetie quite often.

Tolene, have you been drawing sketches of teachers?

Buddy, isn't one girl enough?

Imogene has surely been going places lately? We hope you get to stay here the remainder of the year.

SOPHOMORE NEWS

We are proud of our sophomore boys, who played such a nice baseball game Friday. Keep up the good work.

Patsye, Maureta, Mary, and Jayne Ann went home with Lucy for a slumberless party Thursday night. We all had a swell time.

Guess that explains the dead-heads Friday morning.

Say Cleavene, you and Punk made a mighty cute couple.

Pete, is it true you were with Patsy Tipps Thursday night?

W. L. seems to be a Hadaacol salesman.

All the sophomore girls are happy to finish their dresses in homemaking. We model them Friday afternoon.

Juanell, would you really rather drive than eat?

Couples Wednesday night were: Mary and Carrol, Jayne Ann and Bobby, Patsye and Tommy and Lucy and Jerry.

Couples Saturday night were: Cleavene and Punk, Pat and Tommy and Mary and Carrol.

Tommy visited his mother in Amarillo Monday and Tuesday.

FRESHMAN NEWS

The girls have finished their blouses and Mrs. Kiker has graded them. They were very nice, even if we do say so ourselves.

The boys played baseball and the girls played volley ball when Kelton came Friday.

Martha visited in the E. T. Zybach home Sunday.

Monett, Zetha, Sylvia and Eddie were seen in Wheeler Sunday.

The science class has been rearranging the science laboratory since our new equipment came. It certainly looks much better. Also we now know what we have on hand and where to look for it.

PRE-FRESHMAN NEWS

Joyce, that's a very pretty ring you're wearing around these days. Could it be Wheeler?

Patsy Tipps, what was that you pulled out of your pocket Monday? It couldn't have been ??? could it?

Anna Dell, did you have fun Sunday?

QUESTIONS & ANSWERS

Q. Joyce, do you like Allison?

A. I'll say I do, but it doesn't do any good to like him.

Q. Sybil, how are your love affairs coming along?

A. They're not, they are going.

Q. Dale, where did you get that snazzy cap?

A. Wouldn't you like to know.

Q. Patsy R. how's batching get-

ting along?

A. Not so good.

Q. Patsy W. do you like Chevrolts, Fords or Oldsmobiles?

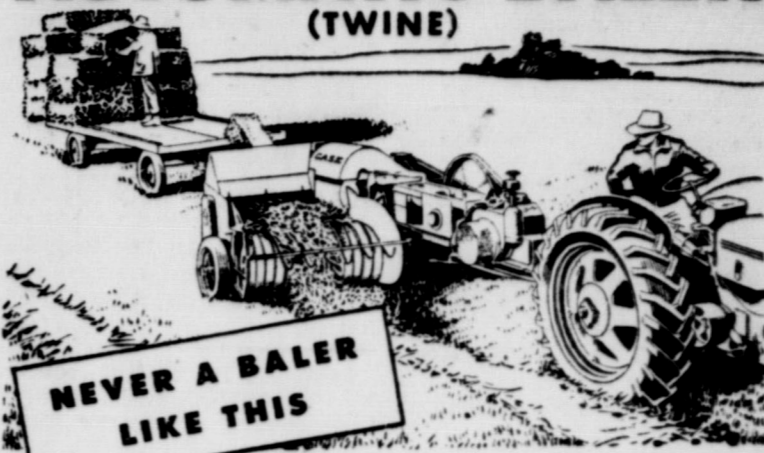

A. I prefer Oldsmobiles, but

Fords and Chevys will do any

time.

YOU'VE BEEN WANTING IT NOW... COME IN AND SEE IT

CASE AUTOMATIC BALER (TWINE)

NEVER A BALER LIKE THIS

Developed from the famous Case "NCM" Slicer-Baler, this new automatic baler gives you all the advantages of the "NCM" plus simple, positive automatic tying. A continuous stream of full-weight, well-tied bales from bale chute to wagon hustles your haying—enables you to put hay up promptly to keep the precious, protein-bearing leaves and green color. Come in and see it.

APPLIANCE & SUPPLY CO.

'Better Things For Better Living'
Wheeler, Texas

"I got the story on
50,000 Miles-No Wear
and changed to New Conoco Super Motor Oil"

says Billio Smith,
Photographer,
San Antonio, Texas.

"50,000 MILES-NO WEAR!"—PROVED HERE:

After a punishing 50,000-mile road test, with proper crankcase drains and regular care, engines lubricated with new Conoco Super Motor Oil showed no wear of any consequence... in fact, an average of less than one one-thousandth inch on cylinders and crankshafts.

AND gasoline mileage for the last 5,000 miles was actually 99.77% as good as for the first 5,000! This test proved that new Conoco Super, with OIL-PLATING, can make your car last longer, perform better, use less gasoline and oil.

"WHEN A MAN BUYS A USED CAR from us, we want him to get his money's worth in performance and operating cost. That's why we put new Conoco Super Motor Oil in all our cars and tell the buyer to use nothing else," says H. C. Wheeler, Wheeler Motor Company, Denver, Colorado.

"I RECENTLY CHECKED A CAR that had gone 39,000 miles on Conoco Super Motor Oil," reports Joe Prestidge, Chief Garage Mechanic, St. Paul, Minnesota. "I found the connecting-rod journals were within five ten-thousandths of an inch of the original factory specifications. I've never seen so little wear!"

SENIOR NEWS

We are starting play practice this week. We hope to be ready to give our play April 6th.
 Evelyn, Aunt Elsie said you had to come to play practice and not go with Bob.
 Ann Nell and Patsy spent the weekend in Pampa. They had a lot of fun at the skating rink Saturday night.
 Ouida said it didn't make her any difference what we put in the paper about her.
 Joe seemed to have stood up several girls last week.

Madge seems to be going pretty regular with a certain Le-fors boy.
 Bobby is going to be quite a lover in our play.

JUNIOR NEWS

The juniors presented their play "Dear Papa", last Friday night and were pleased with the play and the nice crowd. We made approximately \$125. We had a lot of fun presenting it but are glad it is over. We are looking forward to the senior play.

GOSSIP

Billy Allen, did you spill some cokes in the play Friday night?
 Ines is getting so heavy she breaks down a divan when she sits on it.
 It looks like the seniors might get a banquet after all.

SOPHOMORE NEWS

Vondell, who is this Lyn Dale, you have been talking about so much lately?
 It seems as if Lavada likes to ride in a blue Plymouth.
 It seems as if Waylan has a black eye this week.
 Carl, you had better start coming to English once in a while.

Carl, you had better do what Vondell and Aline tell you to or they will blackmail you.

Sandra, why didn't you come to school Wednesday? Was it because Coyse left?
 Billy Ray, did you and Lanier have a nice walk Sunday?

FRESHMAN NEWS

Ross, what did you want in the news? What is the matter with her hair?
 Jolene, how does that new Bel Aire ride?
 Reacie, are you going to skip school the 4th of July?
 Joe S., do you really think you will never get your Ag paper?
 Belle, was it that dark Sunday night?
 Virginia and Marie, we like your short hair.
 Mary, who is this F. S.?
 Lanell, were your dad's teeth really out Saturday night?
 Charles, what happened to your boots Wednesday morning in math class?
 Reba, he writes pretty poems.

EIGHTH GRADE NEWS

The eighth grade boys and girls played Shamrock Thursday night. The girls won by a score of 19 to 20 and the boys won by a score of 26 to 30.

Tommye White was honored with a birthday party given at the home of Charles Wednesday night. All had fun.

Good coffee can be made only in a clean coffee maker; therefore, after each use, the coffee maker should be washed with hot water and soap or with washing detergent and rinsed with clear water.

The equivalent of eight sacks of 20 percent nitrogen fertilizer, four and one-half sacks of 20 percent superphosphate and two and one-half sacks of 20 percent muriate of potash are required for the production of 100 bushels of corn.

By using the rapid milking procedure developed in recent years, dairymen can save as much as an hour a day in milking a herd. This procedure is Extension Circular No. 28.

Russ Dry Goods

Wheeler, Texas

Washington, D. C.
March 16, 1951

BEHIND THE SCENES ON THE RFC INVESTIGATION: Here is the overall business picture of RFC operations to June 30, 1950: Number of loans, 600,000; amount loaned, 21 billion dollars; average loan, 35 thousand dollars; overall loss on bad loans, 200 million dollars; gross profit, one billion four hundred thousand dollars; net profit after all operating costs, interest and other expenses, 580 million dollars; dividends paid to U. S. Treasury, 325 million dollars; portion of net profits now being used in loan fund, 255 million dollars. The original stock issue, which is all held by the U. S. Treasury was 100 million dollars. This overall picture reflects a loss experience of less than one percent on the total amount loaned. There is a definite move on foot by Eastern capital and an Eastern Republican bloc to abolish the RFC. RFC has made many loans in Texas and the Southwest that have helped in industrializing Texas. Many of these loans could not be handled by banks. Some were handled partially by banks and partially by RFC. If it had not been for the RFC, the money for these industrial projects in our section of the country could not have been obtained. This same situation is true across the entire South. If the RFC is abolished, industrialization of Texas and the South will be seriously damaged. I do not want to see the RFC abolished because it will place our section of the country at the mercy of the big money interests of the East. This will certainly curtail further industrial develop-

ment. Many people are wondering why the Senate sub-committee has failed to make public letters from Senators and Congressmen in both parties, some of which I hear are most interesting. Any shulduggerly, chicanery, immorality or illegality in the operation of this corporation should be fully aired, and the parties responsible or connected with shady transactions should be punished. The same rule is true as to all other government departments, from the national level to the local, whether the offense be immoral or illegal. Immorality in a public function is just as bad as illegality. Immorality is the bud; illegality is the bloom. Violation of a public trust is just as serious, whether it be illegal or merely immoral. If there are not enough jails to hold people who are low enough to violate a public trust, it is time to start a building program.

PRICE CONTROLS: The price control situation is definitely due for an overhaul and a streamlining. It would be humanly impossible for the Economic Stabilization Agency as now operating to properly examine the forms and figures that businessmen are being called upon to compile and file. I do not want to see any increase in federal employees except in vital defense projects. Businessmen already have enough forms to fill out without being called upon for more.

PEACE CRUSADE: The Capitol was swarming yesterday with self-professed peace crusaders. It was a conglomerate mixture of all races and colors, both men and women. They came in on chartered buses, mostly from New York. There were also rumors of a Communist parade at the same time. It was difficult to tell who was far what when you looked at the entire mixed group, but none of it looked good.

Next week I expect to have some information on the number of foreigners coming to Washington seeking employment. All indications are that these applicants are meeting with no success.

REMARKS ON THE FLOOR OF THE HOUSE: "Mr. Speaker, I am placing in the records today a House Concurrent Resolution adopted by the Texas Legislature. It, in effect, says: 'Resolved that the Congress of the United States of America and the President be respectfully petitioned and requested to immediately provide an adequate system of defense, including detection devices and aircraft of the latest and most effective type and design to properly guard the State of Texas, particularly the area or belt thereof one hundred miles wide along the coast of the Gulf of Mexico from the Sabine River to the Rio Grande.' I call particular attention to the one hundred mile belt referred to because that belt is adjacent to the tidelands that the Federal Government has stolen from the State of Texas, and it occurs to me that since the Federal Government has stolen these tidelands from Texas, it should certainly be its obligation to defend them as requested in this Resolution. And while defenses are being prepared in this respect, I might further suggest that such defenses be set up on behalf of Texas, not only against Alien enemy attacks, but against further encroachments by the Federal Government."

VISITORS: I had a nice visit with Dr. and Mrs. L. B. Barnett.

HADACOL Is Requested By Nurses

HADACOL Helps Folks Suffering Deficiencies of Vitamins B₁, B₂, Niacin and Iron.

Registered nurses, in increasing numbers, are showing a keen interest in HADACOL and in the results that are being secured with this great modern formula. Requests have been received from many of these nurses for professional samples of HADACOL and many of them indicated that they recommend the HADACOL formula to patients who are deficient in Vitamins B₁, B₂, Iron and Niacin.

Mrs. Lovett, a registered nurse who lives at 2205 Walnut St., Philadelphia 3, Pennsylvania, says this about HADACOL: "I was down in Florida for the past month. I had no energy so several members of my family told me to try a bottle of HADACOL. My sister, who is a nurse, was taking a bottle so I tried a bottle. I feel fine since taking HADACOL. I do private duty here. I am 50 years old."

HADACOL can help you if you suffer such deficiencies. Ask your druggist for HADACOL today. Only HADACOL gives you that "Wonderful HADACOL feeling."

Easier Ways To Clean Woodwork Are Given

The efficient and tidy homemaker knows that painted woodwork in the home has to be cleaned periodically. If the wrong type of cleansing agent is used, it may damage the paint. Mrs. Florence Low, specialist in home management with the Texas A. & M. College Extension Service, offers a few pointers on the subject that should make the job easier.

Coarse scouring powder and strong alkaline soap remove or roughen the outer surfaces of the paint so that it soils quicker and is more difficult to clean. The specialist adds that strong alkali also weakens and discolors paint. She advises first trying out any new cleaning preparation on an inconspicuous part of the painted area and warns that directions on the container should be carefully followed.

Mrs. Low recommends a mild, neutral soap for washing paint. If scouring is necessary, finely powdered whiting will do the job. It is a very fine abrasive and is inexpensive and can be purchased

Hereford, Texas, who are here completing their passport arrangements for a trip to Europe. Doc had on his cowboy boots and made me homesick.

at most paint, hardware, or drug stores.

The specialist points out that only a small area of painted surface should be washed at a time and that it should be rinsed carefully before going on to another area. Even mild soaps contain some alkali which will eventually injure the paint if left on it. Although the directions for many commercial paint cleaning preparations say that no rinsing is necessary, the specialist advocates rinsing to be on "the safe side".

Mrs. Low adds that some cleaners make the paint soft when it is wet and if severe rubbing follows, the surface will be damaged.

Cal Farley, founder and president of Boys' Ranch, explains the Ranch's proposed expansion plans. He holds a model of the type of units to be built, housing 24 to 30 boys. The chart in the background shows the future building area. The long-range program calls for several of these units and a vocational school.

Cal Farley Says Boys Ranch Must Expand Soon

Visions of a Boys' Ranch for 1,000 to 1,500 youngsters with a fighting chance to grow into worthwhile American citizens has been put into words by Cal Farley, founder and president of the famous Boys' Ranch near Amarillo, Texas.

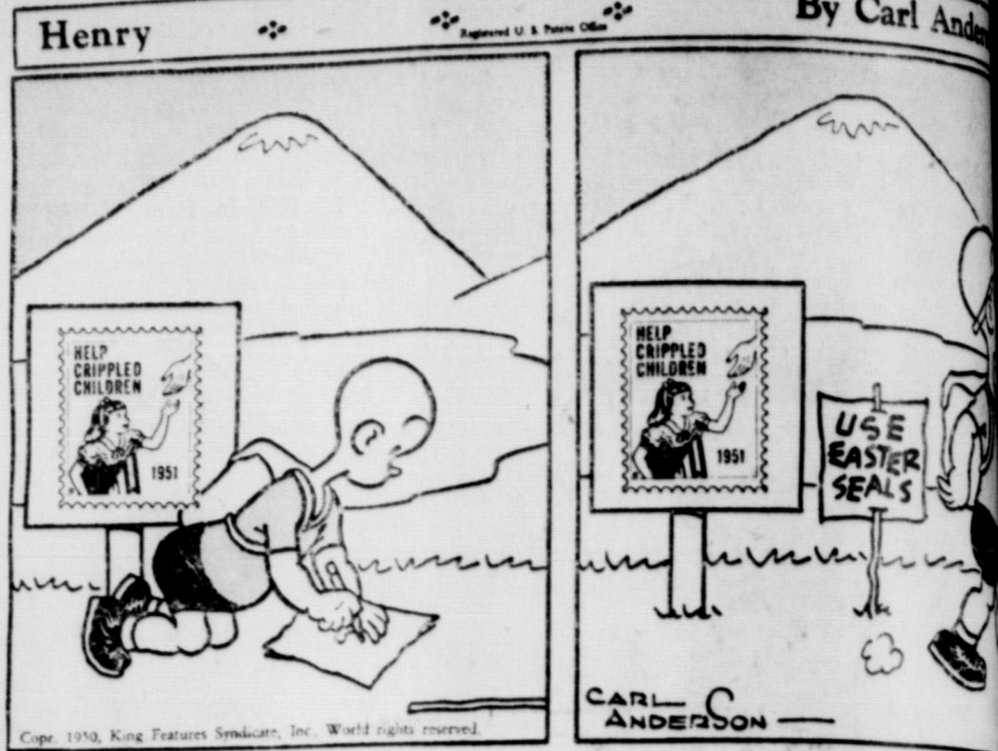

"We must expand," Cal said. "It is forced upon us by torn homes. Every day requests come to our office asking us to take boys."

A recent case cited by Farley was that of a woman who came to him, pleading for the Ranch to take her 14-year-old son. The father was gone, the older children married, and the youngster was "beginning to get into trouble." The mother had been told that she had cancer and had six months to live. She wanted her son cared for.

"What can you do," Farley asked. "We have five boys sleeping in the gymnasium now, but can you tell a woman like that there isn't a place for her son? The only answer was to make a place for him."

The future plans call for permanent "24-boy" homes of the unit type, situated in the area just east of the present buildings.

their dairy calves, cows, and bulls in this show. Boys who have Wheeler County Circle dairy animals will be requested to exhibit their animals at this show.

Miss Janet Russ played several accordion selections at the senior play Tuesday night.
Monday at the Kiwanis luncheon band students will give a musical program. Those taking part will be Misses Janet Russ, Georgia Gaye Herd, Sarah Jane Goad, Donna Greenhouse, Leveta Moore and Dale Wofford. This Accordion Sextette will play "Missouri" and "Naughty Waltz", "4-H Club March" the popular number, "To Think You Have Chosen Me", also on the program will be Dale Wofford and Burley Owen in a cornet duet and Joyce Sims who will play Marimba solos.

Cpl. Harold Ray Starkey visited his parents and sister, Mr. and Mrs. C. H. Starkey and Vendell, from Thursday until Saturday. Pfc. Henry Buehring, Pfc. Bryce Mixon, Pfc. Robert Lawler and Pfc. Elmer Williams accompanied Starkey here from Ft. Leonard Wood, Mo. They were on a delay enroute to Ft. Sill, Okla. Pfc. Williams visited his father who lives south of Wheeler.

Lt. and Mrs. Frank L. Maberry and Stevie left this morning (Thursday) after visiting here with her sister and husband, Mr. and Mrs. C. C. Robison. The Maberrys are enroute to New York after having been in Honolulu the past 2 1/2 years where he was stationed with the Navy. Mr. and Mrs. Robison plan to meet Lt. and Mrs. Maberry in Wichita Falls Friday night and visit the Ralph Robisons and on to San Antonio Saturday to visit the Guy Robisons.
