POLITICS AS USUAL

(An Editorial)

In times of great national emergency it is to be expected by the people of this country that "business as usual" and "politics as usual" should cease, and as citizens of the United States we have been led to believe in the past that we are due for certain uncomfortable consequences when such emergency exists.

That such an emergency now exists is told to us in every newspaper and by every government official and by all our friends and neighbors, and if we are to judge by the news concerning the actual fighting in the Korean peninsula it would not be hard for us to assume that such a great national emergency existed if it were not for the other sources of information that we have, and yet "business as usual" is the order of the day. As a citizen I am expressing no objection to this "business as usual" because apparently we can take care of the national emergency and still enjoy the conveniences and the lack of disruptions in our mode of living; but I am expressing an objection to "politics as usual" which is apparent in the news concerning General MacArthur. "Business as usual" is of some benefit to the tax payer and citizen, but "politics as usual" is of no benefit to the ordinary citizen and tax payer and solves no difficulties except the difficulty of the politician in retaining his place at the public feed trough.

Since the war in Korea and the preparation to take care of a future more serious eventuality is costing the tax paying citizens of the United States more than 1 1/2 billion dollars per week it would seem that we should be entitled to a cessation of political activities that in no way recompenses us for our expenses. "Politics as usual" is engaged in already for the purpose of assuring either the party in power or some important citizen amongst us to maintain his hold on the offices or office he is now enjoying the emoluments therefrom. The ordinary citizen has very little interest in whether or not General MacArthur so establishes his reputation as to become a serious contender for the presidency, but the ordinary citizen is interested in bringing the war to a successful conclusion as well as the great national emergency.

If we are to succeed in successfully terminating the emergency, either at a minimum or a maximum cost then let us insist that Congress so regulate the conduct of our affairs in bringing about the termination of this emergency that the useless things injected into our national policy, like "politics as usual", be discontinued by not only the parties but by the individuals responsible for such "politics as usual". I believe that no tax payer will object to any action by Congress necessary to protect our soldiers or secure our success on the battlefield, but I do believe that every tax paying citizen would be interested in stopping selfish and useless maneuvering of the parties and individuals, which in no wise can aid the general welfare of the United States as a whole.

LARGE CROWD ATTENDS FIRST CO. DAIRY DAY

An estimated crowd of 300 persons attended the first annual Wheeler County Dairy Day Show here last Thursday. Thirty-four cows and heifers and two bulls were shown in a new arena constructed by Wheeler County 4-H club, FFA members and veteran agriculture students. Despite a little over a half-inch of rain which fell Wednesday night, the arena was in fairly good condition.

In the 4-H and FFA judging, the Wheeler County 4-H Club team from Briscoe took first place against five other Panhandle teams, with a total of 1,845 points. Clay Adeock, Canadian was high point man in the contest with 645 points.

Second place went to Samnorwood FFA, 1,830 points; Wheeler FFA, third, 1,745 points; Canadian FFA, fourth, 1,665 points; Shamrock FFA, fifth, 1,665 points and Mobeetie FFA, sixth, 1,620 points.

The junior showmanship award was presented to J. E. Rogers, Wheeler 4-H Club boy. Senior showmanship award went to Harley Pond of Wheeler.

The heifers were placed in six classes by R. E. Burleson, dairy specialist from Texas A&M. Classes were determined by the number.

Annual Spring Clean-Up Is Set For Tues., Apr. 17

Next Tuesday, April 17, has been designated as official Spring Clean-up day for Wheeler by the Wheeler Kiwanis Club which is sponsoring the campaign this year, Judge G. W. Hefley, president of the organization, announced this week. It is hoped that everyone will join wholeheartedly in this move.

Wheeler Whisperings

By J. C. Howell

One of our more thoughtful citizens has noticed that several of the little boys around town have divided up into two camps and are really having a little war with BB guns. This citizen asks that we make this public in view of the fact that the parents of some of these lads might not know that such a "war" was taking place.

We would like to point out the fact that it is quite dangerous both to the lads and to the general public. The greatest danger being that someone might get hit in the eye with a BB and lose sight of same. We hardly think there is any danger of these lads killing one another or anyone else with their BB guns but the saving of one eye would be enough reward for all parents to thoroughly investigate the way their little (Continued on Last Page)

A&M MUSTER BE HELD APRIL 21

Former students of the A & M College of Texas who live in the Eastern Panhandle will gather at the Grady Harris farm on Hwy 152 east of Mobeetie, on Saturday April 21st at 7:00 p.m. to carry on a tradition that is 48 years old. They will attend the annual April 21st muster of Texas A & M men which has been held since 1903.

The Eastern Panhandle A & M Club Muster meeting will be one of more than 375 similar ceremonies held all over the world where Texas A & M College former students pay homage to their fellow Aggies who have passed on, and humble tribute to the Texans who won the freedom of the State at the battle of San Jacinto near Houston some 115 years ago.

President Dale Nix, head of the Eastern Panhandle A & M Club, urged all A & M men to attend the April 21st muster program. The April 21st muster is one of the greatest traditions to be found in American Colleges and Universities, and thousands of A & M men participate in the program of tribute and homage each year.

Fire Destroys Chicks, Houses Saturday Night

A fire which was probably caused by a faulty brooder destroyed some 550 chicks, 25 hens and two chicken houses for A. N. Mote who lives on the old Pettit home place west of Wheeler last Saturday night.

Mr. Mote reports that he was away from home visiting at the time the fire broke out and returned to find Mr. Eads there fighting the fire around 10:30 p.m.

Mr. Mote also reported that several of the chicks were almost large enough to start using as fryers.

Missionary Service Be Held At Local Church

Rev. B. G. Syverson announced this week that there would be a Missionary Service held at the Assembly of God Church in Wheeler, of which he is pastor, April 18 at 7:30 p.m. Miss Henrietta Sauer, an outgoing missionary to Mexico, will be the speaker.

Everyone is invited to attend this special service and churches from the surrounding towns have been invited and it is hoped that this service will be a missionary rally to be long remembered.

Removing rubbish, trash, old tin cans and other unsightly objects from our premises not only helps the looks of things but also removes breeding places for flies and insects and helps to prevent disease.

Wheeler has been exceedingly lucky in not having any serious cases of polio within its corporate limits in the past few years and the citizens can help to keep it that way by doing a thorough job in this clean-up campaign then following it up all summer and not letting trash rubbish and other items pile up around their premises.

Jim Risner and a crew of workmen will start in early Tuesday morning to wash down the city streets. After the washing operation is completed, parking lanes will be marked off as has been done the past three springs.

Merchants and business people, 100 percent strong, are asked to please pile up the dirt in front of their establishments early Monday morning so the city truck can haul it off during the day Monday and thus have the streets entirely ready for the washing operation Tuesday morning.

Tuesday afternoon, trucks furnished by individuals, will make the rounds of the town, residential section, and pick up the trash which has been piled up by residents during the morning and haul it off to the city dumpgrounds. High school boys have been asked to help with this operation, Mr. Hefley stated.

LEGAL PERHAPS BUT ENTIRELY UNETHICAL

We have commented upon the apparent
apathy of the people of the United States
toward the revelations that have recently
disclosed the close association of some public
officials with criminal elements and the mis-
use of official position to reward friends and
extend government favors on the basis of
partisanship.

Senator J. William Fulbright, of Ark-
ansas, who headed the committee that del-

ed into loans of the Reconstruction Finance
Corporation, goes a bit further and declares
that responsible government officials, by
"moral blindness or callousness are condon-
ing corruption in our midst." He insists that
the United States is more likely to be de-
stroyed by the "perversion, or abandonment,
of its true moral principles than by armed
attack from Russia."

Admitting that "scandals in our gov-
ernment are not new phenomenon," he de-
cries the fact that those in official position
seem to "accept the practices which the facts
reveal." He raises the question that "no
legal cases of bribery" have been found. He
denounces men who "do not directly and
blatantly sell the favors of their offices" but
who, "under the guise of friendship" offend
the spirit of the law while not violating its
letter.

Mr. Fulbright refers to men who hold
official positions and, in the exercise of the
functions of their office, extend governmen-
tal favors to their friends and associates.
His remarks apply equally as well to elected
officials who disregard the general welfare
in order to take care of their friends in the
matter of public contracts and governmental
favors.

The officials, whether elected or ap-
pointed, are not altogether to blame. Of
course, it is exactly as the Senator says but
the fact that people who vote fail to con-
demn the current trend towards taking care
of friends leads public officials to do what
they think will gain friends, win votes and
keep them in office. If the people of the na-
tion, or any election district, would show
that they possess sufficient morality to
condemn these practices they would soon
pass away.

The strange phenomenon is seen in many
phases. Citizens and communities denounce
the spreading ramifications of the federal
government but, when they see a chance to
get some of the money, they forget all about
their complaints. Business men denounce
government spending but not when they
seek contracts carrying fat profits. Cities
and other government units look steadily to-
ward the federal treasury to carry their
burdens and provide what their citizens
desire.

Years ago Grover Cleveland, then Presi-
dent of the United States, declared that
"public office is a public trust." No man has
the right to use the power of his official
position for the private profit of his friends
or himself. No official has the right to ex-
tend favors at the expense of the govern-
ment. Nevertheless, so long as officials are
judged solely by "results" or the "bacon"
brought home, we will have that type of man
in office.

Many a decided blonde is a decided
blonde because she decided she didn't want
to remain a brunette.

Some of our politicians have discovered
that they built their fences so high they
can't get over them.

SENIOR NEWS
Seniors wish to thank the

juniors for the enjoyable banquet we had. We hope everyone enjoyed it as much as we did. We are all looking forward for school to be out. We only have a few more weeks to go. The basketball jackets have arrived and we are quite proud of them.

JUNIOR NEWS

We wish to thank the ladies who so kindly helped us with our banquet. Thanks to them and the girls who served and Bro. Willard, it was a complete success. Tooter, was she in town Saturday night?

Donald Knell, Samnorwood FFA, left; Charles Doughterty, Samnorwood 4-H, center, and Sharron Stephens, Shamrock 4-H, exhibited blue ribbon winners in calf class at the first annual Wheeler County Dairy Show, Thursday. The animals were placed by R. E. Burleson, dairy specialist from Texas A&M. Seven animals were in the class, and there were 34 cows and heifers and two bull calves in the show. The event was sponsored by the Wheeler County Farm Bureau.—Cut Courtesy Amarillo News-Globe.

DISILLUSIONED

Two modern little girls coming home from Sunday school were solemnly discussing the lesson. "Do you believe there is a devil?" asked one. "No," replied the other promptly, "of course not. It's just like Santa Claus. He's your father."

WONDER WHY?

The girls are yawning this morning?

We are glad that the juniors beat the high school girls in softball Friday. We must do it again sometime and maybe one will get mad and quit.

SENIOR NEWS

We present our play tomorrow night at 8 o'clock p.m. By the time this goes in the paper it will be over.

We received our invitations yesterday. What we're waiting for now is the day we get to send them out.

We surely appreciate the teachers being nice enough to postpone our tests until next week. Seems like we had all we could do with play practice.

GOSSIP

Patsy is really walking in the clouds this week. She has only one regret and that is she had to go to play practice every night.

Ann Nell's watch surely is pretty. Seems like she was doubly happy that day. She got a watch and a letter.

We bet Ouida will hate for play practice to be over because she gets to see Bill every night.

Evelyn, it won't be long now until your Wednesday nights will be free.

Joe, let's not get your tizzy up! Madge, we know how you'll look when you're older. However, we hope you can hear a little better.

Edwin seems to think he's a big pebble on a little beach.

Bobby, we wonder if you'll manage to be as quiet at Baccalaureate and Commencement as you are at play practice.

JUNIOR NEWS

The juniors have been pretty busy this week preparing their radio program and studying for six-weeks tests.

Barbara Nell, what is this we hear about you and Jimmy?

Frances, we think the picture of you in Vernon's car is pretty.

Bill L., we like your new paint job on your car.

Joe, we hear you have been going to Shamrock to see a little blonde.

Paul, are you and Jimmy pretty good fishermen?

FRESHMAN NEWS

Marie, is it more fun living without your parents?

Jerry, did you get a divorce? What will you do with your children?

Reacie, how does it feel to drive down the road at night without any lights?

Mary, we're sorry that the bridge is out so you can't go to Glazier.

Bel, Waylan will whip you for stealing his car Wednesday night.

Billy B., what's so funny about that little sheet of paper you've been carrying around lately?

Reba, you sure have acquired some pretty jewelry.

Ruth, Bel's coat fit you nicely.

Jolene, aren't you really going to wear anything but high heels Friday night to the senior play?

Juanice, we're glad you studied for your tests. We didn't.

EIGHTH GRADE NEWS

The eighth grade girls played volley ball Friday, March 30 at the tournament at Wheeler. We played Miami, but were defeated.

Buzz And The Off-Key Baritones

Reverend Lester of the church out on Hillsboro Road coaches his Young Peoples' Choir late Thursday afternoons—after high school basketball practice lets out.

Buzz Ellis pastures cows next to that church. Around 5 o'clock they used to make a lot of racket about wanting to go home. That made it kind of rough on the choir.

When Buzz learned what was going on he said to Reverend Lester: "I never yet heard of a cow that could moo on key. So, I'll just move 'em in a little earlier..."

This started me to thinking. Buzz

doesn't go to that church. And he's so tone-deaf he couldn't carry a tune in a bucket!

From where I sit, you might say that Buzz didn't have much in common with those singers. But he doesn't divide folks into groups he's "with" or "agin." Your politics, your personal preferences—or the fact that you like a moderate glass of beer—mean nothing either way to Buzz. He's a real neighbor to everybody!

WORRIES ARE OVER

A convicted murderer was scheduled to die in the electric chair. On the morning of the day of his execution, he was asked by the warden: "Is there anything special you would like for breakfast this morning?" The condemned man replied: "Yes, mushrooms. I've always been scared to eat them for fear of being poisoned."

Washington, D. C. April 6, 1951

The news letter this week will be confined to perhaps the most important issue that has faced this country since the declaration of war ten years ago. It is the bill that is now before Congress known as the Universal Military Training Service Act. The bill passed the Senate as Senate Bill 1. It was completely rewritten by the House Armed Services Committee, and I will try to give you in brief the differences between the two.

SENATE UMT BILLS:
House Bill (H.R. 1752) Minimum draft age 18 1/2 years.
Senate Bill (S. 1) Minimum draft age 18 years but none can be taken until after all available in 19-26 age group are taken.
House Bill (H.R. 1752) No such provision. Present law defers essential students.
Senate Bill (S. 1) 75,000 scientific students deferred after 4 months training. Other essential students deferred as in present law.
House Bill (H. R. 1752) UMT Commission established.
Senate Bill (S. 1) Establishment of UMT Commission left up to President.
House Bill (H.H. 1752) Establishes National Security Training Corps.
Senate Bill (S. 1) No such provision.
House Bill (H.R. 1752) Congress must pass on Universal Military Training plan in the future.
Senate Bill (S. 1) No such provision; left up to the President.
House Bill (H.R. 1752) Three-year termination date on draft concurrent resolution can end draft and start UMT any time.
Senate Bill (S. 1) Congress can review Universal Service and Training program after 4 years.
House Bill (H.R. 1752) 2% maximum of women in Armed Services retained.
Senate Bill (S. 1) Eliminates 2% maximum number of women

in Armed Services.
House Bill (H.R. 1752) Those deferred made subject to induction up to 35 years of age.
Senate Bill (S. 1) No such provision.
House Bill (H.R. 1752) Inductees can express preference for service in units of own race.
Senate Bill (S. 1) No segregation provision.
The debate on the floor has been heated and at times personal. The leader of the opposition is Congressman Dewey Short of Missouri. He is the same congressman who on August 8, 1941, just four months before Pearl Harbor, made an extended speech on the floor, and a very effective one, against the extension of the Draft Act. You will all remember that the extension of the Draft Act at that time carried by one single vote. Had that extension been defeated at that time, we would have been in a state of demobilization at the time the Japs struck. The legislation that is now pending is as important, if not more so, as was the extension of the draft act in 1941. It is a matter in which there is no place for partisan politics, personalities, local color, thoughts of the next election, or any other foreign matter. There is but one issue at stake, and that is: what is best for the United States of America as a nation? It is the burden of every representative in this Congress to pray to God for the proper course to follow, and it is the duty of every citizen of this country to let his congressman know how he feels. If there has ever been a time in the history of this country when the members of this body need Divine Guidance, it is now.

also well to note that the proposed Commission is to be made up of three civilians and two members of the military, one of which must be a reservist. This is most important because it leaves the control of the program in its final analysis, in the civilians of this country and does not place it in the military.
It is history making legislation and tempers have run short during the debate. I do not look for any fist fights, but the verbal battles will not be forgotten for a long time. I do have a piece of information concerning this legislation that comes from what might be termed an isolationist district. I refer to the district of the Honorable Thomas E. Martin of Iowa. Congressman Martin sent out 32,000 questionnaires containing 56 questions. No. 4 among these was, "Do you favor Universal Military Training?" Out of a total of 3465 replies to the questionnaires the No. 4 question was answered as follows: "Yes", 2353; "No", 982. No. 5 question was, "Do you favor the drafting of 18-year-olds into the Armed Services?" "Yes", 1896; "No", 1432. Question No. 6: "Do you favor the drafting of World War II veterans?" "Yes", 869; "No", 2197. I give you this information from

the questionnaire because I think it is important for you to know what is being done in other backyards, and especially in a district of the type represented by Congressman Martin. There are a number of other questions framed in the questionnaire on which I will give you information in the following weeks.
I said that this letter would be confined to the UMT legislation, but I can't resist giving you a piece of good news that I have just received about a veteran's wife. She is Mrs. Anne Crawford of Borger, Texas, who has two children. Her husband recently died of cancer in the VA Hospital at Amarillo. His claim for a service-connected disability had been refused three times by the Veterans Administration, but I was convinced that an injustice had been done and continued the fight, refusing to take no for an answer. The case was finally submitted to the top officials of the Veterans Administration at my insistence, and we have received word this morning that the claim has been approved and that this young widow and her fine children are going to receive the benefits to which they are rightfully entitled for the unselfish service of the deceased husband and father.

We believe that a local resident properly put it this morning in the firing of General Douglas MacArthur when he said he believed that "Harry had finished taking his pants off now". We do not believe that MacArthur was infallible or anything of that sort but we do believe that President Truman pulled one of the biggest of his long time blunders when he fired him.

TAG REVENUE UP \$10,380.86

Wheeler County Tax Assessor-Collector Thurman Rives reported this week that 223 more motor vehicle license plates were sold in the county prior to the March 31, deadline this year than in 1950.

Sales of the various types of tags this year totaled 3,977 as compared with 3,754 last year, he said.

The dollars and cents revenue increase was \$10,380.86—\$65,001.88 this year against \$54,621.02 in 1950.

This year, 2,629 passenger car license plates were issued, as compared with 2,554 last year. Farm truck plates this year totaled 656 to 573 in 1950. Commercial tag sales showed slight increase, 379 to 365.

All other tags, including truck-trailers, trailers, busses, dealers, motorcycles, house trailers, etc. totaled 313 this year to 262 last year.

Until the \$50,000.00 is reached, all money received from the sale of license plates remains in the county, going to the four Commissioners Precincts. All over \$50,000.00 is divided between the County and state, Mr. Rives said.
