A. J. Quinn To Speak At Formal Opening Of Church

B. Smith, pastor, announced last week that the local congregation would hold the formal opening of the new auditorium building Sunday, May 29, with Dr. A. J. Quinn, a well-known district missionary from the Dallas area, as the guest speaker. Invitations have been sent to several former pastors of the church to return for the opening and churches of the district have been invited to attend.

The new building which was first used for church services on Easter Sunday is 42 by 125 feet and contains a Sunday school classroom, church office, ladies and men's lounges, nursery, pastor's study, dressing rooms and the sanctuary. The main auditorium measures 80 by 40 feet and will seat approximately 500 people.

SMITH URGES PARTICIPATION IN CANCER DRIVE

An appeal for additional support for the Wheeler County Cancer Crusade was made today by Eli Smith, chairman, who said that the county quota is less than one-third complete.

"So far only \$311.25 has been contributed toward our quota of \$966.00. This is a small percentage of what we had hoped for by this time," the chairman said. "We have been delayed in our progress and because the need for funds is so urgent we will continue until we reach our goal."

Mr. Smith explained the importance of this communities raising its share of the national goal of \$14,565,000.

"The twenty-five cents of every dollar raised that is spent on research nationally will come back to us someday many-fold in the form of new ways to treat and cure cancer," the chairman said.

"The fate of half of all who get cancer depends on improved methods of diagnosis, treatment and outright cure methods all of which must come from the laboratory," he declared.

"In addition, right now we are reaping dividends in cancer education in Texas through the money spent here and over the state. One fourth of all those who get cancer are being saved through early detection and prompt treatment. This figure can be doubled by stepping up the education program."

PFC JAMES MCCORMICK
PFC MCCORMICK
FINISHES BASIC

Private First Class James R. McCormick, son of Mr. and Mrs. H. J. McCormick of Wheeler, recently completed his basic training at the 78th Armored Field Artillery Battalion at Fort Hood, Texas.

Upon the completion of his training he was promoted to private first class. In the past four months training, the young private went to mechanic's school and worked on trucks and tanks.

McCormick has been chosen on the cadre list of the First Armored Division which is now being moved into Fort Hood.

Upon the completion of his basic training, McCormick received a fourteen-day furlough which he and his wife, the former Melba Strawbridge, spent visiting with friends and relatives at Wheeler, Gagey and Amarillo. They have now returned to their home at Camp Hood.

Young McCormick was graduated from Wheeler High School with the class of 1949 and was associated with his father in the milk transportation business up until he was called into service late last summer.

Officers For Civil Defense Elected At Meeting Here

REVIVAL WILL CLOSE SUNDAY

A fine spirit has already been manifested in the Revival at the Methodist Church in Wheeler, the pastor stated Wednesday. Several things have accounted for this: the interest of the people, the soul searching and soul stirring messages of the evangelist, Rev. S. M. Dunnam, and the 24 hour vigil of prayer. The Revival will close Sunday night, with Bro. Dunnam bringing this last message. There has been special music each night and this will continue each night of the meeting.

The Sunday School teachers and Superintendents have issued a real challenge to our people. A goal of 200 in Sunday School has been set for Sunday. This challenge places a responsibility upon every member to come and urge others to do so.

The Sunday Evening Fellowship will meet at 7:00 and the preaching services will begin at 7:45. The pastor will lead the Adult group on the subject of "Pioneer Methodist Ministers". The Junior choir will sing at the evening service. Everyone is welcome.

Representatives from several towns and communities in Wheeler County gathered at the District Courtroom in the Courthouse here Tuesday night and set up a Civil Defense Organization for Wheeler County. The meeting was called by County Judge G. W. Hefley acting on a request from Gov. Allan Shivers.

Judge Hefley and County Sanitarian W. R. Ritter of Shamrock explained the set-up of the organization to the group and pointed out the positions which were to be filled by election.

Following explanation of the set-up the group voted to employ a secretary at a salary of \$75.00 per month with half to be paid by the County of Wheeler and one fourth to be paid by the two towns of Wheeler and Shamrock. Miss Glenna Hefley was elected to this position and accepted.

Sheriff Bus Dorman who had previously been appointed Chief Defense Director for the county was elected to that post by unanimous vote of the group present at the meeting.

A special staff consisting of four chief deputies was then elected: They are Jack Taylor, Shamrock, Mutual Aid; Glynn Bell, Shamrock, Evacuation Service; John Hrcelar, Shamrock, Transportation Service; and E. J. Brookshire, Communications Service.

An operating staff consisting of five assistant directors was then elected and included: W. R. Ritter, Shamrock; W. W. Hughes, Keller; Aaron Frye, Shamrock; Joe D. Rogers, Wheeler and George S. Gandy, Wheeler.

8TH GRADERS' PLAY IS TUES.

The Eighth Grade Class of Wheeler School will present their play "The Haunted Tea Room" by Anne Coulter Martens, Tuesday night, May 1.

The Willowmere Tea Room and Inn has a reputation of harboring a ghost who walks at midnight. Storm bound at the inn the day of our play, several youngsters set about to solve the mystery and what a night of it they do have. The villain in the piece is the last person you'd suspect—but then that's the way with mystery plots. All's well that ends well and with the dropping of the final curtain it's dollars to doughnuts that everyone, cast and audience, has had a grand good time.

The characters are: Linda Berry, a pretty young miss played by Juanita Sanders; Lottie Berry, her sister played by Patricia Pride; Dan Smith, the boy next door played by Jerry Barton; Horace Witherspoon, a bugologist played by Kenneth Berry; Claire Landon, a perfect lady played by Gwendolyn Richardson; Josephine Boggs, a rowdy and tomboy played by Bonnie Moore; Snoopy Crane, an amateur detective played by Ronald Childress; Gerald Fenwick, a nose reporter played by Robert Denison; and Jesse Jones, the kitchen maid played by Janet Russ.

There will be some numbers between acts by the other members of the Eighth Grade Class.

The admission will be 50c for adults and 25c for students. Proceeds will go to the school to buy what is needed most. Curtain time is 8:00 p.m. Tickets will be on sale from any member of the Eighth Grade.

INFORMATION FOR VETERANS

By Geo. S. Gandy

To Veterans that have entitlement remaining or have never used any part of their entitlement for training under the so called "GI BILL OF RIGHTS" or Public Law 346.

The original Public Law 346 was enacted and set out to provide that each veteran with a minimum of 90 days service and an honorable discharge was entitled to training provided the veteran started such training on or before four years from date of discharge of the end of the war whichever was later. Under such ruling any veteran that had started any type of training under public law 346 or 16 would be able to enroll in a course of his selection and later drop training for just cause and re-enroll or change his course of training anytime within the period ending 25 July, 1956.

Some months ago, however, a ruling came from Washington, D. C. from Central Office, Veterans Administration stating that a veteran to be in training after 25 July, 1951, must be physically in training on date of 25 July 51 and continue without interruption until completion of said course, in order to comply with the law.

Any veteran living within the counties of Wheeler or Hemphill or adjoining counties that are interested in securing training are requested to contact the office of the Wheeler County Vocational School, Wheeler, or Harris Zeigler, County Veterans Service officer, Shamrock, or the instructors of any of the classes now located at: Wheeler, Shamrock, Mobettie, Allison, Kelton, and Canadian.

The following types of training are offered with the Wheeler County Vocational School: Vocational Agriculture, Auto Body and Fender Repairman, Auto Mechanics, Cabinet Maker, Welding Combination, Bookkeeping II and III.

Information about above types of classes will be furnished upon request and if personal interview is desired please notify the Wheeler County Veteran's Vocational School by card, letter or phone.

Wheeler Whisperings

By J. C. Howell

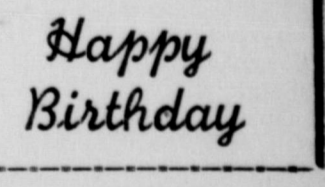

A. E. Perrin was in this week to tell us not to run his wife's want ad on Love Birds again this week. The advertisement only cost Mrs. Perrin 45c but it sold all her birds and cages and more calls concerning Love Birds.

You, too, may have something that you would like to sell or trade. . . if you do, the cheapest and easiest way to get the job done is by placing a short advertisement in the want ad columns of the Wheeler Times, phone 35.

Speaking of the Love Birds, Mr. Perrin came into the office last week to place the ad concerning them and two cages which Mrs. Perrin had for sale and Mrs. Howell bought one pair of them along with one of the cages for Cheryl Kay's birthday. She has certainly been thrilled over them and they are quite pretty.

The ladies of the Wednesday Study Club put on a good show with their bloomer girl vs. moderns basketball game and food sale at the Wheeler Gym last Thursday night and raised a tidy little sum which we are sure they will use for a worthy cause. We couldn't say who was the star performer for the bloomer girls but we kinda believe "Dr." Williams stole the show.

There hasn't been much tennis played this week due to the fact that the Methodists have been holding a revival meeting and there have been services at the church every night, but we still believe there is enough interest in tennis here in Wheeler to justify helping the Methodists build an outdoor court down there and we (Continued on Page 5)

IF RUSSIA MOVES "WE WILL BE AT WAR"

"It should be understood," declares Senator
William F. Knowland, of California, "if
Russia moves in Europe, we will be at war."
He adds, "It is important that Russia should
know that."

Mr. Knowland supports the position of
Senator H. Alexander Smith, of New Jersey,
that the President should consult Congress
before actually dispatching men to Europe,
other than the four divisions already an-
nounced for that area. Insofar as it relates to
future assignments of American troops a-
broad, however, the resolution stipulates
that there should be "congressional approval."

If the United States Government agrees
with the view of Mr. Knowland that a move
by Russia would put us into war, there seems
to be little basis for squabbling over the
right of the President to send troops to
Europe. Certainly, if we want Russia to know
the full scope of our support of the Western
democracies, it may be doubted whether the
Soviet regime will get the idea from a squa-
ble in Congress over the dispatch of some
extra divisions to the Continent.

There can be no doubt but that the com-
mitting of American soldiers to an interna-
tional army, set up in Europe, is an "entirely
new foreign relations policy" for this coun-
try. Nevertheless, the Constitution leaves to
the President the right as Commander-in-
Chief, to direct our armed forces. Certainly,
the writers of the historic document did not
foresee a time when our soldiers should be
permanently stationed in Europe, but it is
equally obvious that they deliberately placed
control of foreign policy in the hands of the
President to the exclusion of the Congress.

We are not too enthusiastic about a
situation where one man, even if sitting in
the White House, can commit this country
to warfare, but, as bad as this may be, it is
not as dangerous as permitting the foreign
policy of the nation to become the political
football of the two houses of Congress. This
would be particularly dangerous in the Sen-
ate, where a small group of determined men
could delay the necessary action and it might
be just as dangerous in the House, if mem-
bers played politics, casting their votes sole-
ly with an eye to the balloting in the next
election in their district.

The generation of emotion may serve
some human purpose but we doubt if it pro-
duces anything more than mistakes.

If assassination of public officials in-
creases in some countries, it might be a good
idea to give two guns with every job.

Influence is more important than you
may think. We see where an ex-Congress-
man, with influence, turned \$20,000 into
\$250,000.

It's about time for all of us to know
that when two automobiles, going sixty miles
an hour, meet, the chances are that some-
body is going to be hurt.

Do they call it the Wooden Anniversary
just to remind a man what a blockhead he
was?

**NEWS FROM—
County Agent's Office**

By R. D. Siegmund and Robert Ledbetter

It looks like this year will be the start of what promises to be a good crop for Wheeler County, castor beans. Yes, from the reports received in the County Agents office and Veterans Vocational offices, the production of Castor beans may rise to a high of about a thousand acres. Many farmers have been by the office to get information on castor beans so it might be a good idea to talk about them for just a short time.

The Baker Castor Oil Co. of Oklahoma City, Okla. is the company that is sponsoring this project in that they are the only company that will buy the seed produced and they are the company that the grower of castor beans will have to sign a contract with in order to receive the seed to plant. The Baker Castor Oil Co. provides seed of the Connor variety, which is the recommended variety for this area, at a cost of fourteen cents per pound. This

seed can now be purchased at Quail, Texas by contacting Frank Kennedy; and also at Erick, Okla.

The Baker Castor Oil Co. guarantees a price of six cents per pound, however the Commodity Credit Corporation has set the price at ten cents per pound. In this area the castor bean can be fertilized at about 50 pounds of 16-20-0 per acre with good results. Planting time is any time after May 1 to 20 and plant at the same depth of cotton; however, placing the seed at 15 to 18 inch intervals in the row. Do not be too worried if the beans do not come up to a full stand together as it will take at least two weeks for all the seed planted to come up. A four to six hole peanut plate with the holes filed out so that a seed will fit the hole will plant the seed best. A corn plate is too thin.

There are no bad insects that bother the castor bean seed and the seed has been treated for damping off disease before it is sold to the grower. Cultivation is easy as probably two cultivations are necessary or until the plant gets about two feet high. Then it is a good idea to let the small grasses grow to prevent wind erosion. Some people have asked about hail damage and we are glad to report that all the leaves can be stripped off the plant after it has grown over a foot tall and even then they will come back and

You've Got To Hand It To Sandy

Johnson's wife "Tiny" asks him at breakfast morning "Why don't you have some bluebird houses?"

From where I sit, we could do with more understanding people like Sandy—and Tiny, too. He respects her likings, and she respects his. He likes a temperate glass of beer now and then—and although Tiny sticks to coffee, whatever Sandy likes is O.K. with her. They live and let live—and that's why they live so happily.

A KITCHEN WITH A FUTURE

Look what faced this housewife every time she came into the kitchen! Taking up a great deal of valuable space and giving little in return, the cumbersome sink is unattractive and provides little convenience. Nearly all the work surface area and storage space are in the old-fashioned cupboards at the right. The housewife's work was scattered all over the room. The steps she took every day soon counted into miles! With advice from the Youngstown Kitchens Planning Service, below is what she did about it.

It's like comparing the first awkward airplane with a modern, jet-powered beauty! Using standard steel kitchen units, the old room was transformed into the most attractive and popular room in the house. Modernizing for years to come, the homemaker selected an electric sink, complete with dishwasher and food waste disposer. And look at all the work surface and storage space — plenty of it right where she needs it. Here is really practical beauty at work!

produce a crop.

The castor bean will produce seed up until frost and the new variety is shatter proof for easier harvesting. Harvesting can be done either by hand or by machine. Hand harvesters can gather up to 1000 pounds per day and the cost is about the same as for gathering cotton. A machine stripper can also be used and one will probably be in Wheeler County if at least 500 acres of castor beans are grown here. Since the beans are shatter proof they can all be harvested at one time after frost when the leaves fall off.

Several farmers have also wondered how the stalks could be taken care of. Well, it is reported that a heavy duty stalk cutter or the new type stalk shredder will do an excellent job of chopping up the stalks.

The seed are sold out of the hull and it costs 1/2 cents per pound to get them hulled at either Wellington or Erick. There are also some mobile hulling machines to do the job on a custom bases. The castor bean can be grown on any land that will produce cotton and it needs an average of 15 inches of rainfall or more per year. The average bean yield at the Chillicothe Experiment Station

over a five year period has been 908 pounds per acre with a low yield of 666 pounds and a high yield of over 1200 pounds per acre, depending upon the amount of rainfall.

NEWS FROM—

County Agent's Office

By R. D. Siegmund and Robert Ledbetter

There has been a few cases of bloat in Wheeler County this year and precautions should be taken when putting beef or dairy animals on clover or alfalfa pastures. These animals should be "conditioned" before they are put on these pastures.

Usually a feeding of dry hay just before turning the cattle on a new pasture prevents them from eating too much of the succulent, green feed, thus avoiding the formation of excessive amounts of gas and resulting bloat. Even when this precaution is taken, cows should be watched carefully the first few days they are turned on a new clover or alfalfa pasture.

Another rule that should be followed with new succulent pasture is that once the cattle have been turned on the pasture, they should not be removed except at milking time. If it becomes necessary to take them off the pasture, the same precautions given above should be followed when they are again turned on the lush pasture.

Farmers who are using clovers and alfalfa pastures may find that some cases of bloat will occur despite all of these precautions. Therefore, they should keep a trocar in a convenient place and learn how to use this instrument to relieve the gas pressure caused by bloat. If treatment is prompt, most animals can be saved by using the trocar. A sharp pocket-knife can be used but is much less desirable than a trocar.

In this county, hog producers can reduce their feed costs in growing spring-farrowed pigs by close to fifty percent with good pastures of clover and alfalfa. Later in the summer sudan can also be used.

Mrs. Leslie Tompkins of Cleburne and Mrs. H. B. Pressley of Cameron are visiting this week in the home of their sister, Mrs. F. M. Robison.

are certainly ready to put in our check on the project if they will just say who is to be in charge of the project and lets get started on it.

We'd like to congratulate Patrick Boddy, the Mustang Band and the Band Boosters Club on the fine job they have done organizing and outfitting Wheeler's growing musical organization which is fast becoming one of the better bands in the Panhandle and we believe will be a championship band within the next year or so.

Our heartfelt congratulations to Misses Betty Lou Kidwell and Janet Russ who won the two bandsman awards for 1951. Betty Lou is the bass drummer in the band while Janet plays the saxophone and doubles on the accordion. Miss Kidwell won the Arion Scholarship award which was presented by Mr. and Mrs. R. J. CONCERT ASS'N. WILL PRESENT MIXED QUARTET

Another delightful musical season comes to a close April 30 when the Philharmonic Mixed Quartet will be presented at Shamrock by the Wheeler County Municipal Concert Association. This concert, for members only, will begin promptly at 8:15 p.m. at the Clark Auditorium.

The Philharmonic Mixed Quartet will be making its first appearance in Shamrock and has been eagerly anticipated. Ruth Witwer, Gertrude Anderson, Robert Fischer and Russell Hedger are the vocal artists and Paul Ramseier is their brilliant young pianist. Their arranger is Moritz Bomhard, who has been making an international reputation for himself and his volatile New Lyric Stages.

The Quartet's extraordinary versatility and range has given them a great boost up the musical ladder. And the fact that they are an agreeably handsome lot to look on has not held them back on their climb to fame either. Their interests are as varied as their repertoire—ranging from music and all the allied arts through the entire sports world even to the raising of championship Boxer dogs.

Their program has been titled "A Musical Tour through New York" and will give the audience glimpses of the various types of musical entertainment to be found in such shrines as Carnegie Hall, the Metropolitan Opera House, Town Hall and even a Broadway Musical Comedy Theatre. Mr. Ramseier will not only accompany the Quartet through their "Tour" but will perform as soloist during the intervals.

ence was completely spell-bound throughout Mrs. Forrester's oration.

This unique entertainment is offered only to members of the Wheeler County Municipal Concert Association. Renewals for the old membership will be available at the concert and a drive for new members will commence on June 25.

NOTARIES TO BE REAPPOINTED

County Clerk Harry Wofford has received notification from the office of Secretary of State John Ben Shepperd on the procedure to be followed in the reappointment of qualified notaries public whose terms expire June 1, and the appointment of new notaries.

The reappointment of all presently qualified notaries of Wheeler County will be made by Secretary of State Shepperd by May 20, and each reappointed notary must qualify with the County Clerk on June 1, file oath and band and pay the statutory filing fee to the Clerk in order to serve as a qualified notary for the new term, June 1, 1951, 1953. After all reappointed notaries have qualified, the clerk will forward Certificates of Qualifications and filing fees to the Secretary of State. Individual notaries are not to send money to the State office.

Terms of all presently qualified notaries expire on June 1, and a notary cannot qualify for the 1951-53 term before that date, irrespective of reappointment or new

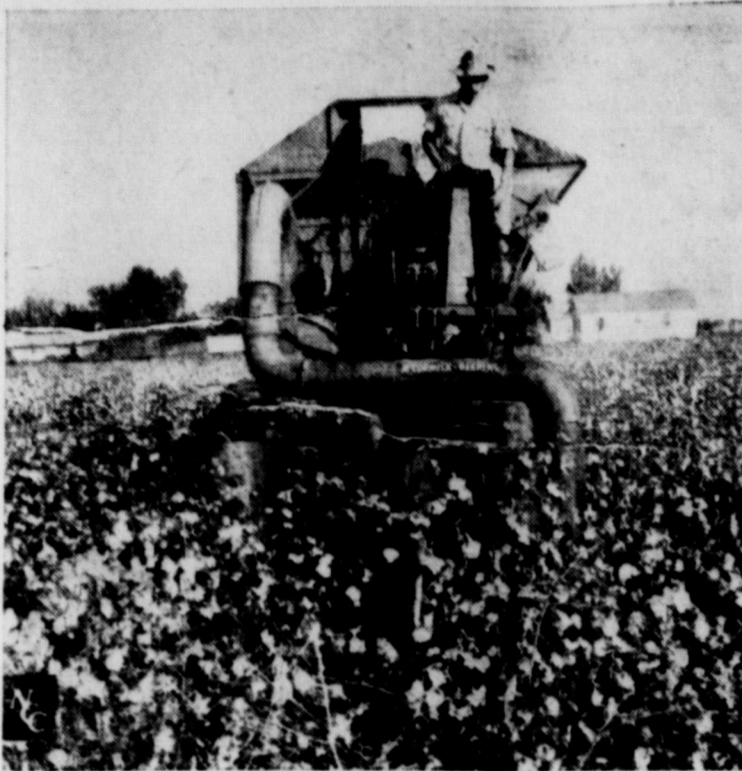

appointment. Persons applying through the County Clerks for notary appointments for the first time will receive appointments, effective on the date of qualification. A Certificate of Appointment on each person applying for the first time will be sent to the Secretary of State for approval and then returned to the County Clerk after which the person will be notified to appear within 10 days to qualify before the Clerk.

In the instructions received from Shepperd, he stated, "An applicant must be 21 years of age or older and a resident of the county in which he intends to act as a notary. It is important that the exact time of the applicant be given and that this name be used on all documents signed by the person. He must also give his correct mailing address."

Twenty-five percent of the land owners in Texas hold less than two percent of the land; on the other hand, 20 percent of the owners hold 80 percent of the land. These are findings from a recent study, "Ownership of Farm Land in the Southwest".
