The agricultural theme for Wheeler County during the month of November will be "Rat and Mouse Control and Eradication", County Agent Ray Seigmund pointed out this week. Rats and mice cause untold amounts of damage to crops, livestock, feeds, and property each year. It is said that each rat that spends one year on your farm or in your home will destroy at least \$20.00 worth of the things mentioned above. Durwonal Holiday and these Wofford stated that he and local Shepperd stated in a report to a chance to do something to save the warfarin rat and mouse bait as Voluntary Parole System is and then take the amount that you

### IT'S TIME TO THINK OF 1952

The year 1951 is moving toward its end, without so far developing the third World War or the other misfortunes that were predicted by the pessimists.

There has been no collapse of public morale and the younger generation, despite and consequent low prices. the complaints of their elders, seem to be

be overleoked in connection with news items | | which naturally play up the unusual without expressly recognizing the great number of Church Calendar men and women who play the game of life according to sound and fair rules.

We are not yet ready to welcome the advent of 1952, or to suggest that those who wish to plan their lives should get down to business of making resolutions. We will say, however, that individuals can greatly improve themselves by giving serious consideration to a "program" to be followed in an effort to attain desired goals.

There is a great tendency on the part of most people to live from day to day, without any conscious attempt to follow a pattern based fundamentally on principles personally accepted in theory but not always discrenible in the turmoil of daily affairs. It might be profitable for all of us to check up on our pretensions and practices.

### COURTESY CAN SAVE LIVES

Some of the accidents that occur on Wheeler County highways could be avoided by the exercise of good manners on the part of the drivers involved.

The rush to beat other vehicles to the start and to get ahead in a traffic jam often lead cultured people to take advantage of other drivers in a manner that does not reflect proper consideration for others, even in modern traffic snarls.

We think drivers should always bear in mind the possibility that others, like themselves, miscalculate speed and other factors and sometimes get in a jam through mental error. If we would make an allowance for this possibility, we could definitely add to the safety of the highways.

Too often, in driving along the open road, one meets an approaching vehicle which, in passing another proceeding in the same direction, comes dangerously close to causing a collision. It is probably natural to 'say something" about such driving without remembering similar occasions when, through an error in judgment, we have done the samo

Common everyday courtesy is a good thing for everyday living and it produces the same desirable results when put into practice while behind the wheel.

Contributions To USO Fund Drive Monday, October 29 through Saturday, Nov. 10

HEELER COUNTY'S QUOTA IS ONLY \$880.00, WHICH WE FEEL CAN BE MET PROMPTLY WITH MODEST INDIVIDUAL CONTRIBUTIONS --

WHY IS IT NEEDED? Most of today's service men and women are civilians in uniform and the USO program helps bridge the gap between civilian and military life for our young people in service.

WHY MUST IT BE VOLUNTARY? Experience has shown that military authorities cannot maintain any activities without full military discipline, and such military discipline would destroy the value of USO-type service.

The USO is evidence to men and women in service that the folks back home are concerned about their welfare. Much of the USO activity is of a religious and spiritual nature which no governmental auspices could appropriately provide.

If you are not contacted in person or by letter, please mail your check to W. H. Walker, Chairman, USO, Shamrock area, or to Harry Wofford, Secretary USO, Wheeler area, or to L. D. McCanley, S. McCauley, Secretary USO, Mobeetie area, or you may deposit your contribution in any of the banks at Shamrock, Wheeler or Mobeetie to the account of the USO Fund.

LET'S MEET OUR RESPONSIBILITY TO WHEELER COUNTY'S YOUNG PEOPLE NOW IN SERVICE AND TO BE CALLED UP BY FULFILLING OUR QUOTA OBLIGATION PROMPT-

### Let's win a conference game, boys. F.H.A. NEWS

The F.H.A. girls had a picnic, Monday night, October 15, at 6:00 o'clock at the home of Mrs. Hast-

They had a play "Aunt Betsy and the New Minister" presented by Joyce Cox, Nadine Barton, and Bonita Ragan.

The yearbooks were given out at the meeting. The books have a red and white cover which is very pretty. The F.H.A. roll, the officers, and the programs for the rest of the year are in the book. After giving out the yearbooks the girls ate and played games. Everyone reported a good time. The next meeting will be on Nov. 5. There will be a program and a film on "Good Grooming."

4-H CLUB NEWS Robert Ledbetter called a meeting of the junior 4-H club, Tuesday, October 16. We elected our

# DAIRY SALE

We are not telling you we are leaving the country or that we won't ever milk cows any more, but promise that this is a complete dispersal of dairy cows at farm located about 20 miles north and east of Wheeler, Texas or from Briscoe go 6 miles East then 2 north and ½ east or from Allison go 4 miles west then 2 miles north and 1/2 east.

TUESDAY, NOVEMBER 6

1:00 P. M.

## DAIRY COWS

- 1-Holstein Cow 6 yers old, been fresh 6 weeks.
- !-Holstein Cow 4 years old, been fresh I week.
- 1-Holstein Cow 4 years old, been fresh 2 months.
- 1-Holstein Cow 3 years old, been fresh 3 weeks.
- !-Red Jersey Cow 8 years old, been fresh 6 weeks. 1-Red Spotted Jersey Cow 2 years old, been fresh 11/2 months.
- I Mixed Holstein-Jersey Cow 2 years old, been fresh 2 weeks.
- I-Mixed Holstein-Jersey Cow 2 years old, been fresh 14 days.
- I-Mixed Guernsey-Jersey Cow 2 years old, been fresh I month.
- I-Guernsey Cow 9 years old, just fresh.
- !-Guernsey Cow 5 or 6 years old, been fresh 6 weeks.
- I—Small Jersey Cow 8 years old been fresh 7 weeks.
- I-Holstein Cow 4 years old, due to freshen in early spring. I-Spotted Cow 4 years old, due to freshen by February.
- I-Mixed Durham-Jersey about 10 years old, stripper.
- 1-Dark Colored Jersey Cow 9 yrs. old, due to freshen in March.
- 1-Mixed Holstein-Jersey Cow 2 yrs. old, due to freshen in March.
- I-Jersey Heifer, to freshen with second calf in December.

All th above cows had TB and Bangs Tests during the month of October, 1951, and we will have papers to show that they are free from same. We have sold nothing but grade A milk from these cows during the four

years we have been in the dairy business. 8—Head Holstein Heifers, coming 2 years old, bred.

7—Head Holstein Heifer yearlings. All the above heifers are from good milk stock.

# We Are Ready To Gin YOUR COTTON

Although it was nearly time to start gathering cotton when we started building our new gin in Wheeler, we are now proud to announce that it has been completed and we are in a position to gin the rest of your cotton this year. We have constructed a good gin and believe we can give you as good turn-out as you can get anywhere.

We cordially invite you to drop by our new gin and look it over then bring us a bale of your cotton and let us show you that we can give you the kind of turn-out you expect from a good ginning plant.

Our office building is not yet completed, but we have installed our scales and can weigh your cotton as well as gin it.

We have a competent crew of gin hands, under the managership of Dorsey Hutchison, on hand to serve you and believe that they will do everything possible to give you satisfactory ginning service.

We would certainly appreciate you giving us a chance to show you just what we can do for you. Bring in a bale of cotton and let us gin it.

# % For! 10% Against

ped workers are represented by 23 standard s. By mutual agreement, 20 of these unions—comabout 1,200,000 men, or more than 90%—are ting under wages and rules agreed to by them and reilroads. But leaders of three unions—with only #130,000 men, or less than 10%—still refuse, after than a year of negotiations, to accept similar and rules agreements. These are even more ble than the terms recommended by the Emer-Board appointed by the President.

TEXAS:

s, it certainly seems to be finally about time that the leaders of the three unions stop their lying tactics—their quibbling. But the leaders of the Brotherhood of Locomotive Engineers, Brotherhood of Locomotive Firemen and Enginemen, and the Order of Railway Conductors we to refuse. They continue a course of diliying and dallying. It is definitely time to

and 15, 1950, an Emergency Board and by the President under the lof the Railway Labor Act—an Act fathered by the unions themselves its recommendations on certain and working conditions ("rules" in ad language) which had been in disetween employes and the railroads.

Than 90% of Employes Accept terms equal to or better than ecommendations have been by about 1,200,000 railroad emnore than 90% of the total of all They are represented by 20 of standard railroad unions.

Less Than 10% Refuse unions—with about 130,000 ess than 10% of the total-have o accept, even after months of ons. These three unions are the od of Locomotive Engineers, otherhood of Locomotive Firemen sinemen, and the Order of Railway tors. These are three of the so-"operating" unions. Already the paid men in the industry, their demand still further advantages ther workers.

there are about 270,000 operating But not all of them, by any are represented by BLE, BLF&E, 132,000 to be exact—are in these More than half-about therhood of Railroad Trainmen. makes the whole situation so hard stand is that these 140,000 opployes are working under wages which the leaders of the other

say they cannot agree to. hat Do the Railroads Offer?

these three unions the same at which was contained in a Mem-Agreement signed at the White on December 21, 1950, by four hoods and the railroads. Later brotherhoods sought to repudiate stement. But on May 25, 1951, the school of Railroad Trainmen signed plete agreement carrying out the principles of the Memorandum Agreement of December 21. They have been working under this agreement since May 25.

What About Wages?

Under the terms of the agreement, yard engineers, firemen and conductors would now be receiving a wage increase of \$.34 an hour (\$2.72 a day) and road engineers, firemen and conductors would now be receiving an increase of 191/2 cents an hour (\$1.56 per day). Large sums of retroactive pay have already accrued and if the agreement is carried out, will be paid promptly.

What About "Cost of Living" Increases? The White House Agreement includes an 'escalator' clause under which wages will be geared to changes in the Government's cost-of-living index. Two such increases
—Apriland July, 1951—have already been paid to the 90% of railroad employes cov-

ered by signed agreements. What About the 40-Hour Week?

The White House Agreement calls for the establishment of the 40-hour week in principle, for employes in yard service. The employes can have it any time after January 1, 1952, provided the manpower situation is such that the railroads can get enough men to perform the work with reasonable regularity at straight time rates. If the parties do not agree on the question of availability of manpower, the White House Agreement provides arbitration by a referee appointed by the President.

What Else Do the Union Leaders Demand?

The continued quibbling of the leaders of the three unions has to do principally with

rules changes, which have already been agreed to by the Brotherhood of Railroad Trainmen. Of these, the principal one seems to be that having to do with so-called "interdivisional service"-runs which take in two or more seniority dis-

The union leaders would bar progress and efficiency in the industry, and better service to the public, by maintaining a situation where they can arbitrarily stop a railroad from establishing such interdivisional runs. The carriers propose that if a railroad wishes to set up an inter-divisional run, the railroad and the unions should try to agree on such run and the conditions which should surround its establishment, and if the railroad and the unions can't agree, the matter will be sub-

But the three union leaders still refuse. Rules Can Be Arbitrated

mitted to arbitration.

The railroads have not only offered these three unions the same rules agreed to by the BRT and covered by the White House Agreement, but have even agreed to submit such rules to arbitration.

The Industry Pattern Is Fixed

With the pattern so firmly established in the railroad industry, it seems fair to sug-gest that the leaders of BLE, BLF&E, and ORC stop their quibbling and take action to make the railroad labor picture 100% complete. Certainly today's economic and international situation calls for a united front. And certainly no good reason has been advanced why these three unions should be preferred over all other railroad employes.

We are publishing this and other advertisements to talk to you at first hand about matters which are important to everybody.

# You-and the SCRAP METAL EMERGENCY

ANSWERS every farmer should have to questions about scrap iron and steel

McILHANY'S

"For Everything You Wear"

Wheeler, Texas

Q. Why is iron and steel scrap a matter of importance to farmers?

A. Steel for our Country's defense program and civilian economy is being produced at the highest annual rate ever . . . and this will be greatly increased in 1952. Farm machinery and equipment needs must come from this over-all supply. As steel production increases the need for scrap increases.

Q. How does scrap figure in the production of steel?

A. One pound of scrap is needed to make two pounds of steel.

Q. Is scrap getting scarce?

A. Yes, the supply of scrap at the steel mills and foundries is not increasing fast arough to meet the needs of expanding steel production. Yet, there are millions of tons of idle iron and steel screp, in small amounts, on farms throughout the country.

Q. What if the needed scrap isn't obtained?

A. That will mean a serious loss of steel production ... fewer products will be made of steel. It will mean more shortages of civilian products. Defense meeds come first.

Q. Why not use pig iron instead of

Phone 151

proximately 2 tons of iron ore, 1 ton of coal, nearly 1/2 ton of limestone and many other vital natural resources—to say nothing of transportation facilities. Besides, there are not enough blast furnaces to produce the iron needed to maintain production.

Q. How can more scrap be fur-A. By everybody pitching in-as we

always do in every emergency—and searching out all possible sources of scrap. Manufacturers of all kinds of products are conducting scrap drives. Old ships are being salvaged . . . scrap is being obtained from countless sources including farms.

Q. What is farm scrap?

A. It is any worn out, obsolete, unre-

jects made of metal. It may be resting and rusting in fence corners, in the fields, the barnyard or the tool shed.

Q. What should be done with farm

A. See that every bit of scrap gets to the scrap dealer located nearest to you. He will break it up into sizes used by the steel mills and foundries. He'll classify the metals then ship the scrap in carload lots. If you do not know the name of your local scrap dealer, consult your local implement dealer for this information.

Q. What else can I do about farm

A. Support the scrap drive organized in your locality. Work with your local Scrap Mobilization Committee in getting the scrap started back to the steel mills and foundries through the local
