WHEELER, TEXAS, THURSDAY, SEPTEMBER 11, 1952

LIONS LOSE FIRST GAME **TO SUNRAY**

The Kelton Lions made their debut for the 1952 six-man football season by meeting defeat at the hands of a hustling team from Sunray at Nicholson field in Wheeler, Friday, September 5th. The final score was 27 to 12.

The Kelton boys seemed to be aflicted with that early season tendency to fumble as three passes were dropped early in the game which looked as though they were sure touchdowns. This and failure to put their running plays into

execution as smoothly as did Sunray meant Coach Cecil Parkhill will be working overtime with his boys so they can master these fundamentals before meeting Booker at Booker, September 12th.

David White, Kelton's flashy TO MAKE FIRST **Bloodmobile** To Be back was lost for the season when he received a rib separation late APPEARANCE in the game. He and Donald Whitely, junior lettermen, from last season contributed 6 points each.

Editorial THE NEW FIVE YEAR PLAN

The calling of a Russian Congress in Moscow, the announcement of a new five-year plan, and the visit of Chinese communist leaders, in Moscow, all point to a new phase in the cold war between the United States | and Russia. These developments can also be spiration for his invention came from this taken as an indication that one phase of the incident. cold war has now ended. That phase was the one in which communist military power was tal stage and it has been estimated that it practically unchallenged in Europe, or by will take at least three years and \$100,000 the United States.

The Wheeler Times, Wheeler, Texas, Thursday, September 11, 1952

Today the United States and western Europe possess the military strength to make Soviet aggression costly, and thus that short-term danger has ended. The new Russian fiveyear plan and the calling of the Russian Congress indicates the Russians are looking to the future, and planning over a long-range period, in their effort to gain world domination.

It is believed the Russians want to bring their industrial production up to a point more nearly equalling that of the United States before engaging in a war with this country. If the newest Soviet five-year plan succeeds, 1955 production of steel in Russia will total about 45 million tons. That is still less than half current U.S. production, though it is many millions of tons more than the Russians are producing at present. Many experts expect the rate of expansion in the Soviet industrial field to exceed that in the United States. The Communists believe they can continue to increase their production totals and avoid a depression. They also believe that a depression will sooner or later occur in the United States and that this may offer them their best chance to match U.S. production totals.

While one might find some satisfaction because the short-termed danger of Russian aggression seems to have eased, should Russian plans succeed the United States will one day be faced with a far more serious Russian threat! This country will eventually be faced with a huge country, outnumbering us in population, and equalling us in industrial production. When this day comes the United States will face its greatest danger, since the question will not be one of immediate preparedness but one of the possibility of defeating Russia in a sustained conflict-likely between two countries separated by such large distances. The best insurance against such an eventuality is steadily increasing industrial production totals in the United States, which can only be achieved if we avoid the serious economic depressions. The Communists believe that we cannot, and their threat is a direct challenge to our democracy and our leaders in government.

MACHINE THAT READS ALOUD

Dr. Walter Blum, electrical engineer of Hanover, Germany, has invented a machine that will read aloud to the blind. This report was made to the World Veterans Foundation by Edgar Joubert.

On the battlefield in North Africa, a friend near Dr. Blum at the front was seriously wounded and lost his sight. This in-

The invention is still in the experimenbefore manufacturing on a large scale is In the last two years western Europe possible. It is hoped that this mechanical and the United States have made steady, reader can be produced for less than \$300

Don't tell more than 5,000,000 people that Dean Martin and Jerry Lewis will be at the State Fair Auditorium Oct. 4-19, quipped the two zaniest characters in show business. The number one comedy team will be the number one amusements attraction at the 1952 State Fair of Texas. Mail orders for the mammoth Martin and Lewis show will open Aug. 31.

"Went through a town in Idaho that was only 100 feet wide. No kidding! Built into a long, narrow canyon. And it shares those 100 feet with a railroad track that runs right through the hotel!

"To get gas there we had to park right on the tracks. Suddenly Belle screams-'there's a train coming!' But the gas fellow just laughs and says we were there. first. Blamed if the engineer didn't stop the train and wait, too!"

From where I sit, it's a good illustration of how people can learn to "think of the other fellow" so that the community benefits. Railroaders and townspeople, Democrats and Republicans, malted milk fanciers and those who prefer a temperate glass of beer-we all have to share the same space. Let's maintain our

neighbor's "right of way." goe Marsh

Every family album is filled with snapshots that recall so many happy yesterdays. But how about the pictures that ensure happy and healthy tomorrows:

X-ray pictures that say you've had your chest checked-and it's O.K.

More and more people are having their chests X-rayed at least once a year. They want to be sure there isn't the slightest chance of tuberculosis endangering the future health and happiness of their children. They know that a chest X-ray is the quick, easy, and sure way of detecting TB.

You protect yourself, your family, and your community when you have your chest checked.

It's great to know you're healthy . . . to know you have healthy lungs as only an X-ray can show them to be.

Your tuberculosis association reminds you that: Active disease does not occur so long as the body's resistance can successfully fight germs.

TB is contagious. It is spread through coughing, sneezing, and personal contact.

TB is curable.

The sooner the presence of TB is detected, the quicker the cure and the less chance your family and friends stand to catch it.

A chest X-ray is the safest, surest step toward combating tuberculosis.

### The Wheeler Times, Wheeler, Texas, Thursday, September 11, 1952

HE CAN'T TELL YOU-

1: takes science-not hocus- hide from the X-ray. pocus-to tell you what's what with your lungs. It takes a chest X-ray to spot tuberculosis.

And a chest X-ray is what every man and woman-every teen-age boy and girl -should get.

Remember this: Tuberculosis strikes without warning-and it kills nearly 50,000 people each year. Early TB frequently shows no symptoms of any kind that might tip off the victim. But it can't

The best time to fight TB is in its early stages. Then the cure is comparatively easy. But if let go until the germs get firm hold, the cure is long and costly-and could be impossible.

For your own sake and that of your family-don't take chances. Have your chest X-rayed now.

If it is O.K., you'll have the comfortable feeling of being sure. And if it isn't, the chances are you have been warned in time.

most effective of known control As a direct result, better yields and larger profits should be obtained the following year due to

The specialist points out that fewer insects and improved soil

to be most effective, the stalk destruction program should be carried out on a community or better still a county-wide or area fassis. Right now moisture conditions are not favorable for plowing and this may prove a handicap but stalks should be cut as soon as harvest is completed so

### YOUR HOME IS YOUR ONLY REAL SECURITY

Don't neglect it. We're holding open house all week for those planning to Build, Repair or Remodel. Come in and talk things over. No obligation.

Mobertie, Texas

Sure, you're O.K. And the very idea that anyone should question your obvious good health makes you a little mad. But keep your shirt on.

Do you know how quickly and conveniently you can have the priceless assurance that your lungs are in healthy condition?

Are you aware that a chest X-ray can mean a longer life and a happier life for you—or for your family and friends?

Have you any idea how subtle tuberculosis is and how it can be active for a long time without your realizing it? It's time you did. And time to act! These are facts: Tuberculosis kills nearly fifty thousand people in the United States every year, and it's so unnecessary...X-ray examination allows the doctor to direct the battle against this insidious disease *in time*.

It is estimated that over 250,000 people today are unknowing victims of TB. For this disease frequently has no early symptoms of any kind. But it can't hide from the X-ray machine!

And it's so easy to be sure. It takes only a moment to be X-rayed. And you don't have to remove anything except outer coat or jacket.

So check TB-get your chest checked today. And keep your shirt on!

HECK YOUR CHEST ... GET AN X-RAY
