ly be the starting pitcher for the Blackhawks. He pitched the last game of the play-off series with Wheeler last season winning it by a score of 7-5.

Wheeler has been light in the hitting department this season but they seem to be correcting this fault. If they can overcome that handicap they should have a good chance to be in the play-offs at the end of the season.

Come out and support the team. It is easier to turn in a good game when the stands are full of boosters. Let's help Wheeler break the "Hawks undefeated record Sunday, June 24 at three o'clock at the legion diamond.

## FORD sets 500-mile record at Indianapolis Speedway

## Again proves nobody outperforms Ford

... dramatic demonstration of the kind of performance and roadability that makes all your driving more fun in a Ford!

A Ford V-8 hurtled across the brick and asphalt surface of tough and testing Indianapolis Speedway . . . whirling through the tight turns and flashing over the straight stretches . . . to set a mark that no stock car ever reached before! Previous to Ford's record run, no other

stock car had gone even one lap at Indianapolis at 100 m.p.h., but one of Ford's laps was timed at the electrifying speed of 113.7 m.p.h.! And Ford averaged over 107 m.p.h. for the full five hundred miles . . . close to the average set by the ex-tremely costly, specially-built racer which won the Memorial Day "500"!

Ford fully realizes that the welter of claims and counter claims about "racing victories" (many of them completely contradictory) must be confusing and disillusioning to the public. Ford ran this race against time, over the true "Classic" distance and at the most famous track in America, in order to dispel this cloud of doubt and disbelief and prove that no one outperforms Ford!

Peter de Paolo, leader of the team of drivers that piloted the winning Ford, states flatly: "No other stock car could have equalled this performance!" And Pete de Paolo should know, for he was the first driver to win the "500" Class with a better than 100 m.p.h. avera And now he comes back with a group drivers to establish a stock car record w the great '56 Ford!

Ford wrote this new mark large a bold in the record books. And the Ford did the trick. From the hood-full throbbing horsepower to the road-hug rear end, Ford demonstrated that it what it takes what it takes to make your driving menjoyable. Convince yourself that drive a Ford can be real fun. Test drive a Ford. There's a set of keys waiting you, so come in and see us soon.
