THE COUNTY SEAT NEWSPAPER

MOBETTIE NEWS

BECK, Correspondent

April meeting of Parent-Teachers Association in the high school hall in Mobeetie, Tex. Mrs. J. R. Burke was elected as secretary during the meeting. Other officers for the new year are: Mrs. J. R. Burke, vice-president; Mrs. J. R. Burke, Treasurer and Mrs. J. R. Burke for recording secretary.

Plans in the making for a class this summer, by Mrs. J. R. Burke, at the school. Mrs. H. J. Sims of Wheeler.

First-Second grade announced. Lunch for children will be paid for out of a fund on that day.

On the 19th of April, Gail Holden, voting delegate and June Beesley left Wheeler for the Texas Association of the Future Homemakers of America state meeting in Fort Worth. These girls earned the trip by a point system based on activities in the local FHA chapter. The sophomore homemaker girls honored the two girls and their sponsor, Mrs. Glen Render, with chocolate cake and punch on their departure.

The first night in Fort Worth, the girls ate in the dining room of the Hotel Texas, went skating at Moran's Skatland, and saw "The Swan" at the Worth Theatre.

On Friday, they attended the meeting at the Will Rogers Memorial.

On Thursday evening, April 26, the Mobeetie Seniors presented their class play, "Lizzie," a rural farce. The cast includes members of the class, boys and four girls.

Wanda Harrison plays the part of Lizzie, who is the only girl in the family. Lizzie and Hank Blanks are the girl and man, respectfully.

Ellen Hooker plays the part of Lizzie, and Marion is hired can.

The Hall, the neighborhood.

CALENDAR OF THE WEEK

FRIDAY, APRIL 28 — Progressive Study Club, Mrs. R. L. Rogers. Study Review Club, Hostess Mrs. R. J. Holt, Jr. Play, Mobeetie, 8:00 p.m. Pack Meeting Fellowship

FRIDAY, MAY 1 — Study Club, Hostess Mrs. Green.

Pack Meeting Sunday Night

Master Jim Montgomery asked The Times to recall Cub Scouts and their mothers in the Fellowship Hall on Sunday night of this week. No program is being planned for this meeting but the Cub pack said plans for the summer of the cub pack would be discussed and formulated at this meeting. He urges parents of Cub boys to make a special effort to be present and help in the planning of the activities for the summer.

NATIONAL H.D. WEEK OBSERVED APRIL 28-MAY 5

Texas home demonstration club women will be among the 5 million throughout the nation who will observe National Home Demonstration Week April 28-May 5, according to Vera Crippen, County Home Demonstration Agent. "Today's Home Building Tomorrow's World" is again serving as the national theme of the week.

Purposes of National Home Demonstration Week are to acquaint more families especially young families with this educational program in homemaking, to encourage families in improving the communities in which they live, and to recognize volunteer leaders of the week.

WHEELER GIRLS TO STATE MEET

On the 19th of April, Gail Holden, voting delegate and June Beesley left Wheeler for the Texas Association of the Future Homemakers of America state meeting in Fort Worth. These girls earned the trip by a point system based on activities in the local FHA chapter. The sophomore homemaker girls honored the two girls and their sponsor, Mrs. Glen Render, with chocolate cake and punch on their departure.

The first night in Fort Worth, the girls ate in the dining room of the Hotel Texas, went skating at Moran's Skatland, and saw "The Swan" at the Worth Theatre.

On Friday, they attended the meeting at the Will Rogers Memorial.

LAST RITES FOR C. A. BARRETT

C. A. Barrett, 83, a resident of Wheeler for the past 11 years, died at 4:45 o'clock Saturday afternoon at the home of his daughter, Mrs. Horace Wheeler of Twitty.

Funeral services were held at 9 o'clock Sunday morning in Richerson Chapel in Shamrock, with Rev. R. K. Whitaker, pastor of the Twitty Baptist Church, officiating. He was assisted by Rev. H. L. McKinley, minister of the First Christian Church of Shamrock.

Following the services, the body was taken overland by Richerson Funeral Home to Mineral Wells, and burial was at Santo, beside the body of his wife and daughters.

Mr. Barrett was born March 29, 1873, in Gainsville. A retired farmer, he had resided in Wheeler about 11 years.

Surviving are three daughters and three sons, Mrs. Roy Carter, Lubbock; Mrs. Charlie Carver, Twitty; Mrs. Horace Wheeler, Twitty; Wyley Barrett, Santo; Jim Barrett, Hobbs, N. M., and Bill Barrett, Fort Worth.

Also surviving are five brothers and three sisters: Orb Barrett.

Births

Mr. and Mrs. Loyd Lewis announce a seven pound daughter on April 24 at the Wheeler Hospital.

Preaching This Week At Mobeetie Church

Lester Hathaway announced recently that the nightly preaching at the Church of Christ in Mobeetie which has been in progress the past few days would come to a close this Sunday night. The services are in the form of debates with each side of the question being discussed each evening. Public is cordially invited to attend these discussions.

U.S.-CANADA GOODWILL WEEK

The Week of April 22 through 28 has been designated as U.S.-Canada Good Will Week. It also commemorates the 138th anniversary of the signing Rush-Bagot Agreement which demilitarized the boundary between the two countries.

Thirty-five years ago, U. S. Canada Good Will Week was established as a project of Kiwanis International. This is especially fitting as this service organization confines its activities to the two great English and French speaking North American countries, and their dependencies.

Today there are 25 Kiwanis-sponsored "Peace Markers" spotted along the 3,000-mile border from the Atlantic to the Pacific. These are located at principal ports of entry and at major cities.

Inspiration for these markers was the erection of the "Good Will Memorial" in Stanley Park, Vancouver, B. C., in 1925. It is planned to erect more of these markers before the end of 1956.

MYF Sponsor Car Washing Project

Methodist Youth Fellowship is sponsoring a car-washing project, April 28 thru May 5. The funds of this project will be used to buy new equipment and do some repairing on the tennis courts which are used by the community. The charge is \$1.00 a Car. Washing will be done at your house and will use your water.

Anyone wishing to have their car washed, please get in touch with either Bobby Prock, Garth Nash, or Dean Sims.

Also, anyone wishing to contribute to this worthy fund, see Bobby Helton or Rupert Hughes at the Cleero Smith Lumber yard. Don't forget the date; April 28 thru May 5!

Which Way Did They Go

(An Editorial)

What shall be the answer to this question when it is asked a generation from now? What shall the local people tell the coming generation and other people who move into the community when the question is asked in regard to why there has not been more civic improvement work in this town in the past decades? Shall we explain to them that we really never did think things were going to work out so well so we just didn't put much into our efforts to build our town and community? Shall we tell them we didn't have enough Faith in Wheeler to take steps to give it a chance to grow? Shall we honestly explain to them why we didn't have sufficient faith in the future? Will we be able to make clear to them that the practice of our generation was surrender in the face of small obstacles while at the same time we are teaching them to consider no obstacle too large to surmount if the result is worthwhile?

These questions are not a play of words but are asked in all sincerity in regard to the coming program of Sewer and Water facility development. A check of city maps, a mathematical run down of the situation or any other means of taking a survey of the situation will reveal that Wheeler has built to almost its complete capacity in regard to construction in the modern manner. This due to the fact that there are no more locations left on which to build that have the needed Water and Sewer available.

Will we, as citizens, go to the polls Next Tuesday and say we are through with growth and development and through with working for progress and want to draw back into our shells, or will we say to the young people of our community "Yes, we have confidence in the future, Wheeler Will Grow, and we are going to make this possible" and then vote to improve our Water and sewer Systems.

The Water and sewer question is not only one that needs working out but it is one of the most needful. It must be completed before other things are possible. Other towns, no larger than ours, have taken themselves by the boot straps and pulled up in the world by concerted and cooperative efforts of the citizens, this can be done here. If we do not progress we will go the other way. There is no such thing as standing still. If anything is not getting better then it is getting worse. This is a law of nature and cannot be beaten or violated by anyone or anything.

Prepare yourself to answer the question of the future. Go to the Polls on Tuesday, May 1, 1956 and Vote for approval of the Bond Issue. You won't be sorry.

PAUL GEORGE DROPS OUT OF SHERIFF RACE

Paul George of Shamrock, who earlier this month announced for the office of Wheeler County Sheriff, this week asked The Times to say he had decided to withdraw. Unforeseen business developments caused him to decide not to seek the office, he said.

"I would like to express my appreciation to all those who encourage me to enter the race and those who pledged their support after I announced," Mr. George declared. "I deeply appreciate your interest."

STOCKHOLDERS HOLD MEETING

The Rogue Theatre in Wheeler was the scene of the annual stockholders meeting of the Wheeler County Produce Association on Tuesday, April 24. About 123 members attended the business meeting. Two attendance prizes were awarded at the meeting.

New directors were elected to fill the vacancy caused by the resignation of Harold Hill, and the expiring terms of Lyndon Sims and Kenneth Franklin. Lyndon Sims was re-elected and N. L. (Shorty) Sedrist and Loubet Moore were elected as directors of the association.

After the business meeting those in attendance enjoyed a 2-reel comedy and ice cream as refreshments and entertainment.

Narville Arganbright and the Association express their sincere thanks to the Guthries for the use of the building and equipment and to Shelby Pettit for use of the address system.

\$110,000 Water & Sewer Issue To Be Voted On Tues., May 1

Citizens of Wheeler will go to the polls on Tuesday, May 1, to decide the \$110,000 bond issue. \$61,000 of this amount is for the extension and improvement of the waterworks for Wheeler. The \$49,000 Sanitary Sewer program will make sewer facilities available to a large number of homes that are now unable to connect.

The Sewer system is to be a complete outfall system without the necessity of using lift stations or pumps for moving the sewerage. The entire system is being designed so that added facilities may be attached at any future time they are needed.

The Waterworks extension and improvements include looped 6" mains with adequate fire plugs for the coverage of existing weldings. An 8" main to connect with the 8" mains now in service to bring the water to the tower, which will add about 75% to the capacity of the system. Also another water well and the installation of automatic controls on pumping equipment.

Polls will open at 8 o'clock a.m. and close at 6 o'clock p.m. A. B. Crump will be the election judge. Voting place will be the Commissioner's Court Room in the court house. Absentee balloting will continue through Friday, April 27 with application for ballots being made at the office of the County Clerk in the courthouse in Wheeler.

Any voter that reached the age of 60 years before the 1st day of January 1955 does not need an exemption to vote. The election laws of the state provide that exemptions are not required in towns of less than 10,000 population so the poll tax requirement does not apply to anyone 60 yrs. old or over living in Wheeler who is otherwise entitled to vote. Besides the poll tax requirement a person must have been a resident of the city of Wheeler for the past six months and have rendered property for payment of city taxes in 1956. Both to husband and wife may vote on property rendered by either of them.

Harry Wofford, president of the Chamber of Commerce, listed this as the number 1 project of the Chamber for this year in his acceptance speech at the annual installation banquet in January. It is the outgrowth of a city expansion program that has been under-

City Tax Valuation Problem Explained

Considering it necessary due to the coming election on Sewer and Water Bonds this paper has contacted the Chamber of Commerce in regard to the particulars of just what it has recommended to the City Council as a plan to overhaul our City Tax Situation and why have they made this recommendation.

The Chamber welcomed this chance to explain their recommendations in this matter. The Leaders in this issue state that their wish is for each person to go to the Polls on May 1 as well informed as he or she can possibly be so that the real intent and purpose of the voters can be defined and subsequently carried out in the administration of the improvement program.

VACCINATIONS FOR STUDENTS

Supt. A. E. Brown has stated that all new students, first graders, and those wishing to have their children vaccinated before registering in Wheeler Schools. This having been approved at a recent meeting of the school board.

Mrs. Rogers, School Nurse, suggests that Parents of September beginners have their children vaccinated now, before hot weather and the Polio season.

Because of the smallpox vaccine, we have had in our country very few cases of this one time dreaded disease. Lets do our part. Our part is having our children vaccinated.

FUNERAL WRECK VICTIM HELD

Funeral services for Richard R. McCandless were held from the First Baptist Church in Wheeler on Tuesday afternoon at 2 o'clock. Rev. Darrell Taylor, pastor officiated at the service. Burial in the Wheeler cemetery with Kirk Funeral Home in charge.

Richard died from injuries received when the car in which he was riding overturned and threw him out near Erick, Okla., about 9 p.m. last Saturday. He passed away in an Erick hospital at 6 o'clock Sunday morning, April 22. McCandless was born in Wheeler County on February 2, 1930. He died April 22, 1956 at the age of 26 years, 2 months and 20 days. He had lived in Wheeler County nearly all his life. He was living in Pantex at the time of his death. He was a member of the Twitty Baptist Church.

Survivors include: the parents, Mr. and Mrs. C. A. McCandless, Twitty; four sisters, Mrs. Neva Nell Stephens of Amarillo; Mrs. (Continued on last page)

Masons Invited To Reydon Lodge Friday

The regular meeting of the 18th Oklahoma Masonic District will be held with Reydon Lodge No. 528 at Reydon, Friday night April 27. The program will be by Past Grand Master, now our Grand Secretary J. Fred Latham, who will bring us the tape recording of the address of the Past Grand Master of the state of Massachusetts, the Honorable Thomas S. Roy, that was given at the Grand Lodge Session on February 15, 1956. Brother Roy is a world traveler for Masonry.

Refreshments will be served, according to Orville Conrad, secretary.

The First Consideration in the matter, and the most important one, is that the City Tax situation, due to a number of factors are in definite need of overhauling or reworking regardless of whether we have an improvement program or not. This is mostly due to inherent and accumulated malfunctions of the valuation system during the years. The drastic change in factors influencing value have also helped to make this work necessary.

The Second consideration in the matter is that upon the advice of experts in this field it has been determined the City of Wheeler NEEDS a larger valuation on the City Tax Rolls so as to be in a position of strength instead of weakness in case some unforeseen emergency should arise whereby the additional values would influence decisions of the financial business world in general.

The Third consideration is that, looking the situation full in the face, and not compromising the truth, we are going to need some more Tax Money to support the Bond issue if it is approved by the voters. Considering the fact that in the annexation program Wheeler completed last year we gained about 32% in population and values then the additional taxes needed from the original citizens of the old corporate limits should not represent too large an amount.

The Basic elements of the plan can be reduced to WHAT, WHY and HOW.

THE WHAT of the recommended plan being the Question of "What is value?" The Chamber of Commerce after studying the idea thoroughly for some months, have reached the decision that value of any piece of property is that amount of Money, which will induce a seller to sell and a buyer to buy any given property.

THE WHY of the plan is the (Continued on last page)

"ONE FOOT IN HEAVEN" GIVEN

The Senior Class of Wheeler High School will present "One Foot In Heaven", written by Hartzell Spence, on the evening of May 4.

This drama, being coached by Miss Jeanne King of the English Department, is a highly realistic and through evoking play composed of 18 characters.

When Rev. Spence, his high school age, trouble-getting-into-children, and attractive wife walk into the run-down dilapidated parsonage at their parish, it's quite a shock... but that's only the beginning. Rev. Spencer finds the church building starting to (Continued on inside)

School Leaders To Attend Annual Meet

The Panhandle School Leader's Association, composed of all school administrators in the 33 Panhandle counties, will convene in its Annual Meeting in Canyon on Saturday, April 28, at 5 p.m.

Speaker for the meeting will be Jess Stratton, immediate past president of the National School Board Ass'n. Attending from Wheeler will be: Supt. A. E. Brown; Principals B. Barham and Carroll Killingsworth; County Supt. Jesse J. Dyer; Geo. S. Gandy, president of Wheeler School Board; Lyndon Sims, vice president; Bill Owen, Harold Kenady, Loubet Moore, Maurice Burgess, and Archie Hibler, members.

was limited to two hours. The Speaker was kind enough to permit me to occupy the Chair during a portion of the debate, and from that vantage point you can certainly feel the pulse of Congress. Actually the debate didn't change one vote. Every Member to the man had weighed and re-weighed the provisions of this measure and knew exactly what he was going to do. When this occurs, continued debate makes the Members restless and they remind you of a bunch of cattle milling around in pens just before a storm. The efforts of the Administration forces to stem the tide were gallant but futile, and there was little doubt as to the fate of the farm bill after the first twenty minutes of debate. The Administration forces wanted to strike several provisions from the bill including the mandatory supports on feed grains, including grain sorghums. This effort was defeated by a vote of 230 to 181. The vote on the final passage of the bill was 237 for and 181 against. It immediately went to the Senate and the Senate acted on it the same day. By the time you receive this letter, the President will probably have signed the bill or vetoed it. Many Members during the debate stated that the President had threatened to veto the bill and would do so. My answer to that argument was that if the bill was not sent to the White House no one would ever know whether the President would veto the bill because I feel that he understood the situation facing the American farmer and would sign it. You should already know the answer to that question by the time you receive this letter.

own Chevrolets than any other car!

*Of course we haven't actually counted all the Joneses. But it seems a safe guess. Because this year—as they have year after year—more people are buying Chevrolets. And 2 million more people drive Chevrolets than any other car. Maybe you ought to come in and see why this is so.

(Are you keeping up with the Joneses?)

WARE CHEVROLET COMPANY Wheeler, Texas

Seal Assures Quality of Windows

The home-owner who's buying a double-hung window, or the prospective home-owner interested in a new house with this type of window, can now identify good quality at a glance.

The key is the seal of approval of the American Wood Window Institute. The seal indicates that the double-hung window meets rigid standards of the U.S. Department of Commerce.

A double-hung window has two sash that slide up and down. The seal shows that the window is made from a desirable type of wood, that particular pieces of lumber used are defect-free and properly dried, and that the quality of design and manufacture is high.

The A.W.W.I. seal is a means of answering one of the most perplexing questions of the consumer: How can quality products be recognized when superior and inferior products often look alike when new? By the time a product is used long enough for shortcomings to be seen, it often is too late to return it to the seller.

Seal on double-hung wood window is assurance of quality.

The seal of approval makes quality discernible at a glance. Some reliable manufacturers have not yet adopted the seal, and a window without a seal can be good. But the seal is the only way to be sure.

This is what the seal assures a purchaser:

1. The wood species is well suited for windows. Most wood windows are made of ponderosa pine because of its great strength in relation to its light weight, its ability to hold shape and size, and because it lends itself to precision machining.
2. The moisture content of the lumber is 6 to 12 percent at the time of manufacture. The lum-

ber is well seasoned and will hold its shape.

3. The window unit is weather-stripped and will not have more than a specified small amount of air leakage. This gives both comfort and fuel savings.

4. The window is preservative treated, lengthening the life of the wood and helping it hold its shape.

5. The frame will be accurately made to size. This reduces the time and cost of installation.

6. The window will be easy to operate.

7. The general construction of the window will be good, conforming to Commercial Standard 190-53.

Alva, Okla., to Belin, N. M., a branch of which ends between Pampa and Miami.

In June of 1935, he graduated from West Texas with a B.S. degree in agriculture and a minor science. In October of that same year, Gandy married Miss Ann Julian, of Plainview. They now have three children — Donald Wayne, 14, Carroll, 11, and Mike, 9.

Later he taught school at Kelton High School through the spring of 1942, attending Texas Tech College during the summer. Reporting to the Navy in Chi-

cago, Ill., in the summer of '52, Gandy became a specialist at the Naval Air Technical center. He was one of 200 men in the United States selected to serve in a special category, sent in with the special purpose of setting up training schools for Navy personnel. He was transferred to the Naval Air Technical Training Center in Norman, Okla., and remained there in the capacity of instructor and supervisor. Here he helped in training over 51,000 men in aircraft engines and metal smithwork. (Metal Smiths).

struction work shortly after his discharge in September of 1945. Later he taught and coached at Groom High School. In June of 1947 he came to Wheeler and set up the vocational school.

At one time after the school was organized, there were as many as 21 functioning classes.

George S. Gandy Given Top Texan Award

Ronald WATERS, News Staff Writer

Director of seven classes of vocational training at Wheeler County Vocational Center, George S. Gandy is a very busy man. He acts as supervisor and administrator of vocational training classes in a county area, which includes Wheeler and Gray.

100 veterans are now enrolled in one of the three phases of training school — trades, distributive education, vocational agriculture. They are set up to prepare for trades, skills and professional work.

Automobile mechanic class is in Wheeler along with a vocational agriculture and a cabinet-making class. A Canadian, a bookkeeping class and a welding class in Pampa.

Gandy keeps busy as a member of the board of directors of the Kiwanis Club, as chairman of the County Chapter of Red Cross, a member of the Chamber of Commerce, & advisory member of Wheeler County Soil Conservation District, and several organizations.

Member of Texas Coordinator of Vocational Education, serving since 1954 as state president. He has been active in Boy Scouts of America, and has been active in Boy Scouts of America in the past. "I certainly enjoy working with young people," he says, "it's of

prime importance in my thinking." Gandy was presented with a "Friend of Scouting" award about two years ago. He served as Scoutmaster at Kelton and Groom for about six years and in 1955 headed the fund-raising drive.

Six years ago, Gandy spearheaded the organization of the Wheeler County Soil Conservation District, along with several veteran trainees. Since that time he has served in an advisory capacity, and is most interested in saving the soil.

On soil conservation, Gandy says, "I think we're making good progress and have a lot to go." That has been our central theme in the vocational school for the last 9 years." He added, "We have made a lot of progress in this county with more irrigation going on each year and an increase of interest in irrigation."

As a charter member of the Kiwanis Club, Gandy is immediate past president of the organization. He has served as a member of the board for six years, one year on the district board in vocational guidance, and past chairman of the boys and girls committee. At the present time he is chairman of the vocational guidance committee.

Major projects of the club last year, when Gandy was president, included formation of the Key Club — the first high school club organized in Division 6 sponsorship of Little League Baseball (which entailed the construction of a softball field), and organization of a summer playhouse.

The first summer playhouse in this region was organized to keep young people occupied during the

In looks, too, Ford's out front—with styling that only the Thunderbird could inspire

Ford goes First!

In Performance

At NACAR's Speed and Safety Event at Daytona, Ford won the Manufacturer's Trophy for best all-around performance. And Ford's 225-h.p. Thunderbird Special V-8, in one day, smashed 30 world speed records at Kingman, Arizona. No wonder Ford is the world's largest-selling eight.

In Safety

When the editors of "Motor Trend" unanimously voted Ford's safety program "the top car advance" of 1956, they had in mind Ford's Lifeguard Design... a whole family of safety features, including a deep center steering wheel and double-grip door latches, to help protect you in case of accident.

In Economy

In this year's Mobilgas Economy Run, a Ford Customline V-8 with Fordomatic won over all cars in its class. The sturdier, heavier Ford carried more weight with greater gasoline economy per pound than any competitive car... "saves" as well as "saves" Ford proved itself a regular gas miser.

The way a Ford performs, the way it saves, the way it protects you, go hand-in-hand with the way it looks and lasts. Ford's look was inspired by America's most exciting car, the Thunderbird. Its rugged K-bar frame and carefully-built body give it the endurance and reliability traditional with Ford. These are the facts behind Ford's reputation as the car that's worth more when you buy it... worth more when you sell it, too! Come in and let us show you!

CHECKERBOARD NEWS

By Narville Arganbright

We wish to thank the members for their presence at the annual meeting. There were 123 members present and we think that the meeting was enjoyed by all. We had refreshments for all and some left over. Mrs. Albert Anderson was the winner of the first attendance prize of \$10.00. Zack Miller awarded 2nd and last prize of \$20.00.

All motions put before the house were passed with a unanimous vote; no opposing votes. Make plans now to attend the next membership meeting.

SIX REASONS WHY IT PAYS TO CREEP FEED CALVES

There are many others but here are six good reasons why it pays cattlemen to creep feed calves.

1. Calves gain faster when grass and cow's milk are supplemented.
2. Up to 80 lbs. of extra body weight through creep feeding reported by feeders.
3. Creep-fed calves dress out at higher percentage, often bring a market premium.
4. Creep-fed calves get to market 1 to 2 months earlier. Rests the cow, helps her keep condition.
5. Creep feeding develops more uniform calves. Poor milkers eat more and keep weight gains coming.
6. Creep-fed calves usually put on enough extra weight to pay for feed and show more profit than non-creep fed calves.

The creep fed ration we will recommend depends on how much grain you have. Ask us to advise you.

COWS GOING TO GRASS SHOULD GET BULKY-LAS

Pastures with plenty of green grass are a welcome sight to dairymen. Don't let them deceive you. Lush and inviting as they are to cows, new pasture is mostly water. Cows can't eat enough to supply necessary nutrients to body

and for milk production. Purina Bulky-Las is an appetizing ration which will help offset the laxative effect of green grass and give needed nutrition. Feed one-half gallon per head per feeding. Also, molasses in Bulky-Las makes cows drink more water which helps them make more milk. Ask about it.

YOU CAN STILL GET LOTS OF EGGS WHEN PRICES ARE HIGH

There's still time. If you have chicks that are 4 to 6 weeks old, you can still bring them into high production when egg prices should be highest. Over the past 10 years eggs have averaged 9c a dozen higher in four months of September to December than in the following 4 months.

Let us help you grow them big and fast. The difference feeders see in results is the reason why more chickens are fed Purina Chows than any other brand of feed.

Let us show you the Purina Pullet Growing Program that is right for you whether you have no grain, some or a lot of it. We'll give you an accurate estimate of the feed necessary to finish growing your bird and we'll help you get them into production at from 5 to 5½ months. Regardless of the Purina plan you choose, you should have well-developed sturdy layers.

PIG WORMING NOW AS SIMPLE AS WATERING

Purina introduced it a short time ago... a brand new way to worm pigs. Just add Purina Liquid Pig Wormer to drinking water and get the most effective worming we've ever seen. No interruption of feeding schedule, and folks can't get over how little it costs. Ask for Purina Liquid Pig Wormer today.

J. H. Romines Given Commendation

Greenbelt Electric Co. announced their appreciation to J. H. Romines of Mobeetie for his foresight in protecting the life and property of others when an overhead power line came in contact with a metal fence post recently charging the fence with high voltage electricity.

Mr. Romines found the short and stood by until repairmen could be summoned to repair the trouble. This prevented others in the vic-

inity from coming in contact with the fence and being hurt by the charged wires.

Greenbelt Electric Company expressed their appreciation to Mr. Romines and requested The Times to make it a public statement.

Mr. and Mrs. Calvin Wainright of Canadian visited Sunday night with her parents, Mr. and Mrs. Clyde Johnson.

Bobby Rogers from McCamey is visiting for a few days in the home of his parents, Mr. and Mrs. Bob Rogers.

LEGAL NOTICE

THE STATE OF TEXAS
County of Wheeler

In the Name and by the Authority of The State of Texas

To: H. H. Goodspeed, whose residence is unknown, and the unknown owner or owners of the hereinafter described property and their heirs and legal representatives, whose names and places of residence are unknown, and any and all other persons, including adverse claimants, owning, or having, or claiming and legal or equitable interest in or lien upon the hereinafter described property delinquent to plaintiff—herein for taxes.

YOU ARE HEREBY NOTIFIED that suit has been brought and is now pending in the Honorable District Court, 31st Judicial District, Wheeler County, Texas, wherein State of Texas is plaintiff;

is intervenor; Shamrock Independent School District and City of Shamrock are impleaded party-defendants; and

are defendant, by the filing by said plaintiff of a petition on the 20 day of April, 1956 and the file number of said suit being No. 4604 and the nature of which is a

suit to collect delinquent ad valorem taxes on the following described property, to-wit: 150x400 ft BLK 58 OL, Shamrock together with interest, penalties, costs, charges, and expenses of suit which have accrued and which may legally accrue thereon.

The amount of taxes due each plaintiff, exclusive of interest, penalties and costs is as follows: Total amount of taxes not counting Penalty and int. \$248.93 TOTAL \$248.93

The names of all taxing units which assess and collect taxes on said property not made party to this suit are

Plaintiff and all other taxing units who may set up their claims herein seek recovery of delinquent ad valorem taxes on the property hereinabove described, and in addition to the taxes all interest, penalties, and costs allowed by law thereon up to and including the day of judgement herein, and the establishment and foreclosure of liens, if any, securing the payment of same, as provided by law.

All parties to this suit, including plaintiff, defendants, and intervenors, shall take notice that claims not only for any taxes which were delinquent on said property at the time this suit was filed but all taxes becoming delinquent thereon at any time thereafter up to the day of judgement,

including all interest, penalties, and costs allowed by law thereon, may, upon request therefor, be recovered herein without further citation or notice to any parties herein, and all said parties shall take notice of and plead and answer to all claims and pleadings now on file and which may hereafter be filed in said cause by all other parties herein, and all of those taxing units above who may intervene herein and set up their respective tax claims against said property.

You are hereby commanded to appear by filing a written answer and defend such suit on the first Monday after the expiration of forty-two (42) days from and after the date of issuance hereof, the same being the 11 day of June, A.D. 1956 (which is the return day of such citation), before the honorable District Court of Wheeler County, Texas, to be held at the courthouse thereof, then and there to show cause why judgement shall not be rendered for such taxes, penalties, interest and costs, and condemning said property and ordering foreclosure of the constitutional and statutory tax liens thereon for taxes due the plaintiff and the taxing units parties, hereto, and those who may intervene herein, together with all interest, penalties, and costs allowed by law up to and including the day of judgement herein, and

all costs of this suit. Issued and given under my hand and seal of said court of the City of Wheeler, Texas County, Texas, this 25 day of April, A. D. 1956. Rena Sivage Clerk of the District Court (SEAL) Wheeler County, Texas 31st Judicial District. 20-4tc

LOCAL STUDENT PLACES FIRST

Sharon Green, Junior Student at Wheeler High School, placed first in the girl's division of the Regional 'B' Interscholastic League Poetry Reading Contest held in Lubbock last Friday and Saturday. Shoran is now eligible to compete in the State Interscholastic Meet to be held in Austin May 4.

Other local student winners in the District Meet, held here April 13, which participated in the Regional Meet were: Shirley Miller and Lou Borden, Typewriting; Elvie Williams, Ready Writing; Alvin Arganbright, Poetry Reading; Dale Wofford, Number Sense; Eli Borden and Peggy Pride, Extemporaneous Speech; Darrell Moore and James Cox, track events.

J. D. Atwell and Mrs. Lyndon Sims accompanied the group to the Contest in Lubbock.

CORRECTION

In the Times last week it was incorrectly stated that Allison Grade School was represented by Kelley Miller and Larry Levitt winners in the Interscholastic Meet. This item should have read: Spelling (5th and 6th 11st. Cledus Morse and Patsy Giddens, Allison.

Public Invited To School Board Meeting

The possibility of obtaining new, much needed, bleachers for Nicholson Field is being studied very earnestly by Wheeler School officials.

A trip was made to Vernon last Thursday to inspect a type of bleachers being set up there that is believed to be practical for the local field. Those making this inspection were George Gandy, Archie Hibler, Lyndon Sims, Loubet Moore and Harold Kenady, members of the School Board.

Earl Brown, Superintendent, Harry Wofford, president, and Dick Guynes, secretary of the Wheeler Chamber of Commerce. The next regular meeting of the

Board of Education, to be held May 3, at 8:00 P. M. in the High school building, is to be devoted primarily to the discussion of this proposition of obtaining bleachers. This meeting is open to the public and all local organizations are especially urged to send representatives, a spokesman for the board said this week.

MOBEETIE NEWS

(Continued from page one)

Pruitt, 7th grade, "When Earth's Last Picture Is Painted."

Officers for the Conference year beginning, June 1, were elected recently, by the WSCS in a regular meeting, held in the Mobeetie First Methodist Church. Mrs. C. W. Stribling was re-elected to serve as president, Vice-president, Mrs. Murel J. Trout; Mrs. Ernest Gordon Recording Secretary, and Mrs. H. S. Bailey as treasurer.

Secretaries of the different departments were: Mrs. Sam A. Thomas, Promotion; Mrs. Clyde Kelley, Missionary Education; Mrs. Murel J. Trout and Mrs. C. C. Dyson, Christian Social Relations and Local Church Activities; Mrs. George B. Dunn II, Student Work; Mrs. Ernest Gordon, Youth Work; Mrs. Curtis Lancaster, Childrens Work; Mrs. A. A. Burch, Literature and Publications; Mrs. Albert Cooper, Spiritual Life; Mrs. O. G. Beck, Status of Women and Missionary Personnel and Mrs. Laverne Scribner, Supply Work.

Tommie Allen spent last week end in Albuquerque, N. M., where his brother is hospitalized after an auto accident, earlier this month.

Mr. and Mrs. G. E. Thomas and on Larry of Amarillo, were Tuesday night guests in the home of her parents Mr. and Mrs. C. V. McCraw. Week end visitors in the McCraw home were, Mr. and Mrs. H. B. George, Mr. and Mrs. Virgil Lee Hooser and son of Amarillo. Sunday night supper guests were Miss Betty Jean Deloach and Carroll Wayne McCraw, also of Amarillo.

Mr. and Mrs. D. G. Sims and Mr. and Mrs. R. A. Sims visited in the home of their sister and brother-in-law, Mr. and Mrs. M. C. Pigg, in Wellington.

C. W. Tillman Buys Blacksmith Shop Here

C. W. Tillman, well known resident announced this week that he had bought the Bob Rogers Blacksmith Shop located on the north side of the square in Wheeler. Mr. Rogers health being the primary cause of the sale.

Mr. Tillman invites all his friends to come by and visit with him at his new location. He has had many years experience in the general blacksmithing trade and is well qualified to care for all types of this work.

Good, reliable workmanship and reasonable prices are the basis of his invitation to get acquainted with him, Mr. Tillman said.

Mineral Wool Insulation Batts Cut To Fit Irregular Size Stud Spacing

The age of a house is no barrier to converting its attic into living space.

Insulation is always the essential first step in attic expansion, and ways have been developed to fit batt or blanket insulation between studs and rafters regardless of the house's age or the method of framing that was used to build it.

Mineral wool batts and blankets manufactured for 16- or 24-inch stud spacing fit most construction, but batts and blankets for 12- and 20-inch spaces also are available

for houses with non-conventional framing.

Insulation is easily cut to fit between studs on the job. A sharp knife is the only tool necessary. An ordinary kitchen knife works well.

The batt or blanket should be cut an inch, or a little less, wider than the space to be filled. This assures a snug fit.

When insulation is cut, the vapor barrier should be allowed to project out far enough to serve as a flange for fastening. Cut from the non-vapor barrier side of the blanket to the vapor barrier.

NEWS ITEMS OF 20 YEARS AGO

The School Bond Election held April 11, 1936 carried with a 5 to 1 ratio. The approved bonds were to be applied on the construction and equipment of two new school buildings.

The Townsend Old Age Pension Club held a meeting with A. C. Wood and C. C. Merritt making short talks (the main speaker was from Tampa) and E. D. Guynes and C. E. Loter furnished music for the occasion.

"One day this week A. B. Crump Wheeler business man and Democratic county committee chairman, was exhibiting some political relics of a bygone day. In the lot was a campaign handkerchief and lapel buttons of William Jennings

Wheeler County Soil Conservation District News

The district supervisors and the implement dealers will hold their regular monthly meeting on April 23. These meetings are held in the Vocational Agriculture building at the Wheeler School. They are open to the public. Farmers and ranchers are urged to come. C. J. Van Zandt will be in charge of the program.

It is about time to take cattle off the rangeland that is to be deferred this summer. The Wheeler District has about 325,000 Acres of rangeland. A regular rest during the growing season can increase the net profit per acre. A small increase on an acreage basis would produce a sizeable return to the entire community.

The seeding date for several grasses expires May 1. That is, no payment for seed will be made on seedings after that time. This time was set because late seedings of native grasses and weeping love-grasses have not been very successful. Blue panic is not included in these grasses. Payment may be

LEGAL NOTICE

THE STATE OF TEXAS
To any Sheriff or any Constable within the State of Texas —
GREETING:

You are hereby commanded to cause to be published once each week for four consecutive weeks, the first publication to be at least twenty-eight days before the return day thereof, in a newspaper printed in Wheeler, Wheeler County, Texas, the accompanying citation, of which the herein below following is a true copy.

CITATION BY PUBLICATION

THE STATE OF TEXAS
TO: Noah Jackson, Defendant.

Greetings:
YOU ARE HEREBY COMMANDED to appear before the Honorable 31 Judicial District Court Wheeler of Wheeler County at the Courthouse thereof, in Wheeler, Texas, by filing a written answer at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 28th day of May A. D. 1956, to Plaintiff's Petition filed in said court, on the 9th day of April A. D. 1956, in this cause, numbered 4601 on the docket of said court and styled Jewel Jackson, Plaintiff, vs. Noah Jackson, Defendant.

A brief statement of the nature of this suit is as follows, to-wit: Suit for divorce on grounds of cruelty, plaintiff is suitable person to have care and custody for two children and defendant should be required to pay reasonable child support, as is more fully shown by Plaintiff's Petition on file in this suit.

If this citation is not served within ninety days after the date of its issuance, it shall be returned unserved.

The officer executing this writ shall promptly serve the same according to requirements of law, and the mandates hereof and make due return as the law directs.

Issued and given under my hand and the seal of said court at Wheeler, Texas, this 9th day of April A. D. 1956.
Attest: Rena Sivage Clerk District Court Wheeler County, Texas 1814tc

Wheeler County Soil Conservation District News

Costal Bermuda is being planted this year on about every type of land in the district. It still looks very promising. Marion Bryant of Kelton is trying a little Midland. This is another improved Bermuda. Soil Conservation Service personnel assisting the district will help locate sources of supply for anyone wishing to try one of these improved grasses.

PEDDY'S Farm Report

FROM THE AGRICULTURAL DEVELOPMENT DEPARTMENT
SOUTHWESTERN PUBLIC SERVICE COMPANY

Elimination of risk with greater assurance of profit from flat storage of grain or seed, on the farm, is possible where the farmer has made provision for aeration of the stored grain.

Aeration prevents excessive moisture from forming on top of the grain and, in addition, cools the grain, thereby preventing insect and small rodent growth. Since grain is usually cut with a moisture content of about 13%, it is practical to maintain that percentage with aeration equipment.

The easiest way to accomplish aeration is to have a well advised installation consisting of a wire mesh tunnel running the length of the storage building, at one end of which is an electrically driven fan capable of pulling or pushing large volumes of air through the grain. Since aeration is simply a matter of cooling and maintaining quality after the grain has been dried to desirable moisture content, good aeration equipment can be used successfully for fumigation.

Some grain growers have attempted to dry high-moisture grain with aeration, however, this practice is not recommended because it often results in twenty-five times air moving capacity employed. In drying air is pulled through the grain and "pulled" through as it

Farmers have found storing grain on the farm proper anti-spoilage if they have good returns performed, good returns through saving storage fees and grain costs. In addition, the maintains control of his he can sell whenever it looks best.

Information on grain equipment is available college agricultural department and equipment suppliers

Adventure For GOD

A freckled faced boy has caught the spirit of adventure. The old sail boat is its symbol. He would like to sail around the world as the old salt has done. What thrilling tales the grandfather has told these ever eager ears. Loving the lad as he does, the old man has dreamed greater dreams for him. He counsels, *there is greater adventure than sailboating.* How would you advise an ambitious, adventurous boy? He needs greater preparation in these times. How about flying to Mars or the moon? Perhaps he could join the diplomatic corps. There are oil wells to open up, uranium deposits to be uncovered, atom power to be harnessed, cathedrals to be built, and *people to be led into the presence of God.* The old man says, "Son, you'll find rich adventure in church attendance. Go every time you can."

CHRISTIANITY IS THE ROAD to the solution of the perplexing problems of the hour.
THE CHURCHES and their messages are the guide posts on this road.
THE PUBLIC SPIRITED FIRMS listed on this page urge church support and attendance—thus working toward a greater and more spiritual community in which to live and raise our families

City Tax —
(Continued from page one)

Question: Why this value as compared to any other definition of value? The Chamber States their belief is that there is no other position that can be taken and irrevocably defended by common sense and logic while at the same time truthfully stating facts only as argument. How else can any article be valued if sentimental value or personally based opinion is not disregarded.

The HOW of the recommended plan is how to apply this basic thinking so as to get all property valued in an equitable and fair manner?

The answer to the HOW question, according to the recommended plan, is to use comparison basis instead of arbitrary valuation. In other words use what actually has been bought and sold in the past few years as an actual indication of what real value is in this town.

To explain the workings of the plan is lengthy but its basic application is as follows: Take a subject piece of property and to establish its retail value compare it to another piece of property that has been bought and sold and take the selling price as the comparable value of the subject piece of property. Make adjustments for any difference in the two properties and establish the value accordingly. There has been enough different properties sold in the past seven or eight years to give a comparison for nearly all the property in our town. After the entire Tax roll has been worked to establish retail values on all property in the town then apply a Percentage figure to all property to get our desired total valuation. In this way every dollar worth of property owned by an individual will be taxed according to the rate charged everyone else.

For an example the following case was cited. A House that compares closely with another house that sold in 1953 for \$5,000.00 is placed on the list at \$5,000.00 for retail valuation sake. Then after all property is valued in this manner the decision is reached that to obtain our 1 1/2 million dollars needed valuation we must apply a percentage factor of 16% to all properties. Then the \$5,000.

00 house has its retail valuation multiplied by .16 and placed on the tax rolls at \$800.00. It appears now that the City Council will be able to maintain the \$1.00 tax rate, although no one can obligate them to do this, and if they do then the City Taxes on the \$5,000.00 House will be \$8.00 per year or \$1.00 per Hundred. The 16% figure quoted is believed to be close to the figure needed but this cannot be determined until the entire Tax Roll is reworked to arrive at our total valuation. This Percentage Figure could go up or down several points and it must be realized by all concerned that no one knows just how much retail value the property in our town has until it is thoroughly computed.

It is hoped that the above explanation will give the voters the information they want in regard to the proposals and the involved taxation.

National H.D. —
(Continued From Page 1)

home demonstration groups. Miss Crippen said.

Home demonstration work is that part of the Agriculture Extension program concerned with the home and family. New research information in all phases of homemaking is brought to homemakers through specialists home demonstration agents and local leaders. Programs and demonstrations in foods and nutrition, housing and home improvement, home management, health and safety, family life, clothing consumer buying and public affairs are developed to fit local needs and interests.

During the week, most of the 2,000 Texas home demonstration clubs will highlight their activities in various ways.

In Wheeler County, the club women have planned to visit non-club women in their communities and try to interest them in joining the H.D. club. Also, a tea has been planned to entertain these women and acquaint them with some of the activities of the clubs. Miss Crippen stated.

"One Foot In —
(Continued from page one)

disintegrate, the congregation split into warring factions and the choir "a cross between the devil's grandmother and a swarm of mountain wildcats" ... and that's not the worst.

Rev. Spencer's struggle to build a new church, organize a new choir, and crush intolerance, leads to a pitched battle among his flock, and then the very threat of his being dismissed from the clergy.

The surprising whirlwind conclusion rings down the curtain on an inspiring, and yet laugh-packed evening's entertainment.

\$110,000 Water —
(Continued from page one)

way since 1954. Hatfield engineering Co. of Amarillo ran lines and made recommendations for the project and has furnished the city council with detailed cost estimates of each phase of the construction.

Maps showing the proposal are posted in store windows over town that persons may acquaint themselves with the projects and see for themselves what is to be done. The cost structure has been explained and most anyone can determine about what the bond issue will cost him or his business.

Anyone who wants to find out the exact cost of any part of the proposed improvements is invited to go to the office of the City Secretary, located in the Wheeler Abstract Office, and examine the cost estimates filed with the City Council and made a part of the public record.

The approval of the bond issue will make it possible for many more homes to be connected with the sewer, including most of the patrons recently annexed to the city.

It will nearly double the amount of water available for use in the city for lawns, gardens, fire fighting etc! During the peak loads the past year we were scratching at the limit of our possibilities for water and were gradually losing ground. With the new well and larger mains there will be enough water for everyone's use.

Go to the polls and vote for both the waterworks and sanitary sewer bonds on Tuesday, May 1 and vote FOR a bigger and better place in which to live and rear our children.

Mobeetic Class —

To The Voters Of Wheeler

Let's Not Buy a Pig in a Polk.

When certain members of the Chamber of Commerce went to rushing the election so fast, they were asked, Why after waiting so long, all this rush now?

Their frank reply was, if we wait until the folks find out what is happening to them, they will not vote for this big bond issue.

We are now told that no member of the city council, including our Mayor, can tell us what this project will finally cost, and where the money will be spent. If you doubt this statement, ask them, and ask the Mayor.

There has been a lot of talk about maps showing every thing, why were these maps not printed in our local paper several months ago so we could have a look see without having to chase them down, engineers who made the maps, say they are a kinda brief outline, a kinda guess so, nothing authentic.

The truth is, they want to spend so much money on those two projects, that there will be no market for street improvements bonds. These boys have streets in front of their houses, and to town. They don't want to pay for other folks streets, like we paid for theirs. Ask them.

\$30,000.00 worth of bonds for Water and Sewer will give us all those improvements we need at this time, it would cost us three hundred thousand dollars to put water and sewer to all the places expecting it. You new comers in our town, check and double check.

\$30,000.00 will top a large part of our streets which blow into our homes every time a car passes. We need to stop blowing sand as bad as we need water.

We spent from \$13,000.00 to \$15,000.00 for a water tank which Sentinal, Okla., built for \$10,000.00. Engineers on the present project say it was all thrown away, its building did not take care of our needs.

We have spent about \$5,000.00 for new bottom in our overhead tank, this expense could have been avoided by just a little work at the right time. \$500.00 spent on a four or five inch reinforced Concrete bottom in our tank would have saved us \$4,500.00 on this job.

We want to build more town at Wheeler, big bond issues will drive new comers out past our present city limits. Don't let a small group of enthusiastic Chamber of Commerce Members who pay practically no taxes, stamped us into voting a big bond issue before we know what it is going to cost, and where spent.

When your valuations are made, and we are told as individuals just what it will cost, will be time enough to vote bonds.

Get Out and Vote May 1

Citizens Committee
