LOCAL STORES WILL HAVE NEW CLOSING TIME

The Wheeler merchants situated on the west side of the square this week announced that they would observe a new closing time on Saturday nights. A spokesman for the group asked The Times to announce that all stores on the west side of the square with the exception of the Drug store would close their doors at 9 o'clock on Saturday nights, starting with Saturday 5, 1957.

The new closing hours do not mean that if you come in at 9 p.m. you will be unable to get a haircut or do your shopping. It means the merchants are working toward an earlier closing time.

The spokesman stated that the merchants had discussed this possibility for several months but had decided against any change in hours at a previous date.

Most towns in the area observe a nine o'clock or earlier closing time so Wheeler is not setting a precedent but merely following the lead of other rural communities. The merchants hope that no inconvenience will accrue to anyone because of the nine o'clock closing time on Saturday nights.

NEW FICA RATES IN EFFECT NOW

Tax rates under the Federal Insurance Contributions Act (Social Security) and filing requirements under the Federal Unemployment Tax Act have been changed by recent amendments to the law, according to Walter C. Bowen, Administrative Officer of the Pampa Internal Revenue office.

New F.I.C.A. rates on wages paid on or after January 1, 1957 are 2½ percent each for employer and employee. Total of 4½ percent. Mr. Bowen said. The rate has been 2% on each.

The changes in the Federal Unemployment Tax Act, he explained, provides that employers who had four or more employees on at least one day of each of 20 calendar weeks during 1956 will be required to file Form 940 by January 31, 1957. The filing of Mr. Bowen said that copies of Return of Employers, was formerly required of employers who had eight or more employees.

Mr. Bowen said that copies of this return have been sent to most of the employers in this district. However, he suggested that employers who have not received this form by January 9, obtain copies from the local Revenue office at Pampa, Texas.

RESUME OF '56 NEWS STORIES

Politics were everyone to a frazzle. Gov. Allan Shivers took his first political tumble when Sen. Lyndon Johnson won control of the May Democratic convention. Price Daniel won over Ralph Yarborough for the Democratic gubernatorial nomination in a narrowest-ever margin of a little more than 3:00 votes. Daniel gained shaky party control by getting a most-friendly executive committee at the September Democratic convention, and Shivers came to the end of his historic seven-year tenure as leader of Democrats for Eisenhower.

Drought, in its seventh year, grew steadily worse. Crops burned up. Streams stopped flowing. Reservoirs dwindled. State Water Board had its hands full trying to referee squabbles over water rights. Agricultural groups banded together in the Texas Drought Emergency Committee finally gained expanded federal relief.

Federal Legislation had Texas repercussions. Eisenhower supporters groaned when he vetoed the natural gas bill. But the federal highway building bill passed. Texas Highway Department started using it at once, predicted an era of unparalleled progress. To move things faster, it reversed its long-time policy, is now buying right-of-way for interstate roads. This brought a new headache — a hue and cry from county officials for help in buying land for state highways.

Integration vs. Segregation made news on many fronts. Voters overwhelmingly approved three pro-segregation interposition referendums in the July primary. But no one was sure what would come of them. At Mansfield and Texarkana citizens blocked efforts at federal court-ordered school integration, and Governor Shivers sent Texas Rangers to maintain order. Atty. Gen. John Ben Shepperd took on the NAACP in a Tyler district court and won a temporary order banning the organization in Texas.

"THE UNGUARDED MOMENT"

Business Research reported the 1956 11-month total as the same as 1955. Rapid industrial expansion has kept the average up, says the bureau.

It offset declines in residential building, consumer spending and farm employment.

Value of Texas' 1956 crops is estimated at \$1,100,000,000 — nine per cent below last year and the 10-year average.

U. S. Dept. of Agriculture said reduced production is due to drought, acreage restrictions and the soil bank plan.

An all-time production peak in 1956 and continued heavy demands for the first quarter of '57 are foreseen for the Texas oil industry.

Texas Railroad Commission pegs 1956 production at 1,075,829,000 barrels, an increase of more than 54 million barrels or 5.3 per cent over 1955.

A Commission report said closing of the Suez Canal seems likely to be reflected in two ways: (1) decreased importing of oil into the U. S. and (2) increased demand by other countries for U. S. oil. Both would mean heavier demands on the Texas industry.

But, it noted, above-ground storage of gasoline stocks is still "quite excessive."

Mr. and Mrs. Calvin Wainwright of Oklahoma City, and Mr. and Mrs. Bobby Wyrick of Norman, spent the holidays in the home of the girls parents Mr. and Mrs. Clyde Johnson.
