OLD PROFESSIONAL TRY—Who says professional players are blase individuals playing strictly for the dollar? Clark of the Los Angeles Rams would seem to refute this as he gives it that old professional try in the game with the Detroit Lions at Los Angeles. Clark catapults through the line as an all-out effort to stymie Lions' quarterback Bobby Layne. Layne got the pass (arrow) away but it fell incomplete as the Rams went on to defeat the Detroit club, 35-17.

C of C Notes

By DICK GUYNES, Sec.

We are proud of the fact that Douglas Carver, pastor of the First Baptist Church in Pampa, has accepted our invitation to address the annual banquet and Ladies Night and installations of officers on January 21. Douglas was practically raised in Wheeler County, coming here when only four years old. He is probably more widely known and than any other speaker we might have secured. We will have his picture and a short biography later on. We are sure you will be on hand at that time to hear this good friend and man of God, when he speaks to the Chamber of Commerce members and their ladies. Don't forget the meeting next Tuesday night when Sgt. E. G. Albers of the Highway Patrol will be the speaker. You will want to see him as his probiscus reminds one of Jimmy Durante. (No offense intended, Serg.) He wanted to know how long we wanted him to talk as he said he was one of them long-winded speakers. We told him that we would bark his shins when we had had enough. Come out and see this guy, he will tell us how to drive on the Highway so that he won't have to arrest us. The Chamber and the Farm Bureau is working to get the Legislature to change the word "insect" in the appropriations bill to the word "pest" so that County farmers can get the money to kill crows. They are doing untold damage to cotton and feed crops. We want to welcome Mr. and Mrs. Elmer Simpson to our city. They have bought the Albert Marshall residence and are our neighbors. Elmer is a real pioneer, having been born in the Nubin Ridge community up in the Finsterwald country northwest of Wheeler. Wayne Maddox, prominent cattleman of Miami, has accepted the invitation to act as Judge for the Junior Livestock Show to be held here Dec. 7. No organization can be a vital force for good unless its members are willing to work for it to the point of personal sacrifice.

Featured guest star of the Wheeler show will be Pepsy Helton of Amarillo and formerly of Briscoe. MARCH OF DIMES POSTER FAMILY—All polio victims, Mrs. Helen Solomon of Warner Robins, Ga., and her children, from left, twins Lindy and Sandy, 6, and Joe, 9, have been named the March of Dimes Poster Family for 1958. Mrs. Solomon and the three children all contracted the dread disease during a single week in July, 1953, and have been fighting the effects ever since.

Mrs. Whitener Lectures On Nutrition Before Study Club

Members of the Wednesday Study Club met Nov. 6 at the home of Mrs. Max Wiley for an interesting and informative lecture and demonstration on nutrition by Mrs. Gordon Whitener, Home Economics teacher at Wheeler High school. After a short business session presided over by Mrs. George Porter, 1st vice-president, Mrs. W. L. Williams, program leader, introduced her daughter, Mrs. Whitener. Her subject for the afternoon was "The Basic Seven Foods for Good Health and Good Looks."

The opening words of Mrs. Whitener's lecture were "Why do you eat what you eat?" "Why do you eat pick pie or ice cream as your special dessert?" "Why do you cut out milk or fried chicken?" "Why do you occasionally skip a meal, then snack all day?" Answering her own questions, she said, "You eat because you are hungry or because you are a copy cat—you like to be agreeable or perhaps you love the flavor or maybe your emotions are involved." Mrs. Whitener said that in 1932 a group of scientists made a report on what they had found out about teen-age eating habits. They had been studying teen-agers for ten years, nearly 3,000 of them, both boys and girls. First they checked the food habits of these young people with the aid of their parents. They discovered what kind of foods and how much were eaten regularly. Then every boy and girl was given a series of physical, chemical and functional tests. Their findings were truly shocking. There was growth failure, lack of sturdy well knit bones, and bodies out of proportion in some dimensions. Most of the group did not have enough of the right kind of food, half of them didn't get enough calories to keep them going and growing properly. Diets were short on proteins, carbohydrates, fats also lacked minerals and vitamins which help build the strong bony framework necessary for straight well-knit bodies.

LOCAL SCHOOLS TO COLLECT CLOTHING FOR WORLD'S NEEDY

During the week of Dec. 2, the students of Wheeler Elementary school will collect good used clothing for orphaned and needy children in 250 orphanages in 34 countries. In addition to the United States, C. C. F. operates its programs in Austria, Belgium, Borfeo, Brazil, Burma, Chile, Finland, France, Free China, Greece, Hong Kong, India, Indonesia, Iran, Italy, Jamaica, Japan, Korea, Lapland, Lebanon, Libya, Macao, Malaya, Mexico, Okinawa, Pakistan, Peru, Philippines, Puerto Rico, Syria, Viet Nam and Western Germany. The drive, which is part of World Clothing Week, will continue here for five days, Dec. 2 through Dec. 6th. Killingsworth expressed the hope that every family in Wheeler will begin now to gather up all the outgrown and worn clothing which accumulates in nearly every household and send it to school during this week. All types of infants, children and adult clothing and shoes are needed. Bedding, too, can be put to good use.

Mr. Killingsworth stated: "Statistics show that nearly half the world's children are inadequately clothed, housed and fed. Thousands of children in our own United States cannot attend school regularly because they lack proper clothing. Overseas, orphaned and other needy children and adults desperately need help. Through World Clothing Week, the school children of Wheeler and the entire community, can make a substantial contribution toward alleviating the distress of these unfortunate ones." World Clothing week is conducted under the auspices of the Christian Children's Fund, Inc. Since 1938, C. C. F. has been active in child welfare work. Today, it provides vital assistance to orphaned and needy children in 250 orphanages in 34 countries. C. C. F. operates its programs in Austria, Belgium, Borfeo, Brazil, Burma, Chile, Finland, France, Free China, Greece, Hong Kong, India, Indonesia, Iran, Italy, Jamaica, Japan, Korea, Lapland, Lebanon, Libya, Macao, Malaya, Mexico, Okinawa, Pakistan, Peru, Philippines, Puerto Rico, Syria, Viet Nam and Western Germany. Dr. W. R. Carmichael, Superintendent of Schools in Bryan, is chairman of the Texas drive.

A similar test was carried out at the State College for Women in Denton, Texas. 122 girls were selected according to their height, weight, build and separated into four groups. Fat girls found they could lose weight by eating a sensible well-balanced diet and the overly lean girls gained weight on nearly the same diet. Mrs. Whitener and Patsy Harding, one of her Home Economics students, had a puppet show depicting the results of a research project Patsy had made on "Breakfast—Always, Sometimes, Never." The different projects of research has been made by all students in the class studying Family Relationships conducted by Mrs. Whitener. Here are some of the percentages Patsy found in her search for how many students start the day with breakfast. Among the 75 students in the 1st, 2nd and 3rd grades she found 74% ate an average breakfast, 18% only sometimes, 8 percent ate no breakfast. Among the 133 students from the 4th to 8th she found 28% only had a good breakfast 38%, average and 59% a poor one with 9% eating no breakfast. (Continued on page 5)

Soil Conservation News . . .

Trees for farmstead and field windbreak plantings can be obtained from the Texas Forest Service, College Station, Texas, according to information received

this week by Wheeler Soil Conservation office.

Order forms can be obtained at the Soil Conservation office on the third floor of the County Courthouse.

Trees that are available are: Austrian pine, Chinese elm, osha pine, and Red cedar. Price per 100 trees is \$3.00. Trees be ordered at this time to arrive in time for planting in mid-February for bare-rooted trees.

Three rows of trees give the desired protection from wind and snow. The windbreak should be a dense shrub and tall trees. Not only do they give protection against the wind, but can be arranged to increase the beauty of your farmstead.

For additional information concerning the ordering and planting of trees, contact person in the Soil Conservation office.
