AIN'T IT SO

A few years ago some bird invented the safety pin and made a fortune then some other feller invented the mousetrap and got rich, that was in the good ole days when there was opportunity for everybody. Nowdays a young feller ain't got a chance so I've been told. Land so high you can't buy it, farming equipment higher than a new Cadillac with a soft top. So seems like we should sit down and take it easy till we get old enough to retire, but no, some Cottinpickin smart-ecks found some ole wore out garden hose and made a fortune cuttin it up in lengths and makin Hula Hoops out of it. Now what reason can we birds give our kids for not making a go of things.

COMPLIMENTS OF TINDALL COTTON OIL CORPORATION

NEW EQUIPMENT

To Serve You Better

We have recently installed the latest model **MOSS LINT CLEANERS** at our Shamrock, Twitty and Kelton Gins. These machines remove additional pin trash, blend spots, and along with our other 36 cylinders of cleaning equipment will give you better samples, which is most important this year due to the big differential in loan value of white grades and lower grades of cotton.

As usual, experienced gin crews will be here to serve you. Careful ginning and courteous service await you at all times.

We will be glad to help you get your cotton in the loan. We always pay top prices for cotton and cotton seed. We have housing for cotton pullers and will do all we can to help you secure pullers at all times.

For greater PROFIT, make your plans now to gin your cotton at the J. M. Tindall Gins in Shamrock, Kelton and Twitty.

COMPLIMENTS OF TINDAL COTTON OIL CORPORATION

September 12, 1958

Illustration of "choice plan" for 1959 and 1960 on two farms, each having a 100-acre allotment in 1958 and a yield of 250 pounds per acre.

Assumption

Parity 39 cents per pound in 1959 and 39.50 cents per pound in 1960. 375 points difference between Middling 7/8" and Middling 1". 16,000,000 acre minimum national allotment would represent a decrease of 8 per cent in acreage for choice "A". The 40 per cent increase in acreage for choice "B" would calculate from the 16,000,000 national allotment base and would amount to a 28 per cent net increase in acreage above the 1958 allotment.

1959

Parity: 39 cents per pound.	
Support of "A" at 80 per cent of parity:	34.95 cents per pound for Middling 1".
Support for "B" at 65 per cent of parity:	29.10 cents per pound for Middling 1".
Resale at 110 per cent of "B":	32.01 cents per pound for Middling 1".
CHOICE "A"	CHOICE "B"
92 acres	128 acres
\$8,038.50 (gross income)	\$10,243.20 (gross income)
	\$2,204.64 on extra 36 acres

1960

Parity: 39.50 cents per pound.	
Support for "A" at 75 per cent of parity:	33.37 cents per pound for Middling 1".
Support for "B" at 60 per cent of parity:	27.45 cents per pound for Middling 1".
Resale at 110 per cent of "B":	30.20 cents per pound for Middling 1".
CHOICE "A"	CHOICE "B"
92 acres	128 acres
\$7,675.10 (gross income)	\$9,664.00 (gross income)
	\$1,939.09 on extra 36 acres

Choice "B" will be more attractive as yield per acre increases. As of the above date this is a true picture of the cotton program for the 1959 - 1960 season. If we can be of any help to you concerning it, drop by to see us at any of our Gins. Thank you for all past services, we remain

Yours very truly,

Cross Currents

By Mrs. Ode Wilson

DOLDRUMS: Last week I was a-la-bas (at the bottom). I wrote this column but it got rejected by me. We who are writers have a way of turning our minds inward on ourselves - excluding the World. This is bad for a writer and, as a matter of fact, it is bad for anybody.

In the October number of COSMOPOLITAN you will find an article on "Loneliness and Boredom." I suppose there are times in every life when we are lonely and bored - times when we feel we are no good and the world is against us! If you read this article, you will see that "Life is just about what we make it," and if the world seems to be against us, it probably follows that we are against the world! And so let us pick up our tools and go back to work at whatever work we can do, and stop worrying about things over which we have no control.

Happiness seems to come from little things: a beautiful morning, a pretty house, a winsome grandchild, a word of appreciation from someone we love or just a feeling of well-being (good health). If we can remember this, it will help us to bear many disappointments. Try to think of the happiest moment of your life. Did it come as the result of some great achievement? In my own case the answer would be "No". Happiness has a spontaneity that we cannot force; it comes of its own-self like unto the grace of God.

A long time ago when I lived in Burk Burnett, the boom town of all the boom towns, I made the friendship of an alien Jewess. We were in the same English class in high school. In her country, (Poland) the upper classes would not be seen doing menial work in public. Jeannette lived across the hall from me in a slum-housing arrangement. Three families of us lived in one house with no bathroom. All of us worked when we could. Jeannette was learning to be a beauty operator. She was a girl with good intentions. And I tried to help her by allowing her to practice her curling irons on my hair. After she burned me two or three times, we had to give this up! Poor Jeannette, I do not know what became of her! One time she needed to do a laundry, and so she bought a wash-tub. She was ashamed to be seen carrying the tub down the street. She thought this would make her appear "lower class," and so she asked me to carry it. I did! I used to be braver about these things than I am now.

I have an expensive camera. It is just like Don's. But, like Jeannette, I have had an awful time learning to use it. Some of my pictures are passable but they don't look like Don's. I practiced on a little bride recently, Patsy Schaffer. Her picture appeared in last week's paper. Patsy was a dear to put up with this amateur picture maker. Orchids to her for a happy marriage!

HUMOROUS INCIDENT: If you take the Amarillo paper, you read about our own historical writer, Laura V. Hamner, who has a new book just published, LIGHT AND HITCH. This book can be ordered from Laura herself, or from Brown's Book Store in Amarillo. Anyway Amarillo gave Laura a big hand. It had a Laura V. Hamner week. Many people came and bought books. Nearly all wanted them autographed. They had a party at Brown's. There sat Laura signing her name in a stack of books. And as usual she was thinking of something that pleased her: this time of a little girl who wrote a letter to "Teen-Talk" (a column Laura writes for the paper) and she, the little girl, signed the letter: "Greatfully Yours!" Miss Hamner was thinking of this when she signed one of her new books the same way! When she realized what she had done, she put the book in a chair behind her. And presto, along came a buyer, unknown, and bought this book. Miss Hamner was horrified. She offered a new book to the buyer if she would bring the book back, and Mr. Brown offered a reward (a book on spelling).

Of course, the buyer of the book would not give it back. She will treasure it for all time to come, a book in which our Panhandle Plains historian stemed herself: Greatfully Yours! The buyer is Mrs. Lynn Nelson, 3415 Lometa in Amarillo.

If you have been reading the news magazines, you know that the Federal Reserve Banks are trying to stop run-away inflation by tightening credit. The worst customer in the credit business is our government with its deficit financing. After every boom there has been a "bust"! The Federal Reserve Banks are trying to avoid a "bust"!

Don't be a statistic!

According to highway safety authorities, most serious automobile accidents happen at night. Poor visibility is an important cause.

Now that the days are getting shorter, it's a good idea to make sure that your car's headlights are properly focused and bright enough, and that your taillights and turn indicators are functioning properly. Your Phillips 66 Dealer will be glad to help you keep the lighting equipment on your car in top condition. Also, he has the fuses and sealed-beam units to fit your car.

If you possibly can, try to arrange your trips so that night-driving is kept to a minimum. When driving is unavoidable, take it easy, and the first time your eyelids get heavy, pull over to the side and get some rest. The life you save may be your own!
