

## Survey Shows Five Dead In Valley

### All Brownsville People Escape; Harlingen Total Wreck, Declares Resident

Reconstruction Finance Corporation Arranges To Send Several Carloads Of Food; Relief Trains Enter Ruined Citrus Farming Area

Five dead, more than 1,000 homeless, hundreds injured, and millions of dollars of property damage was the report of Wednesday afternoon following more detailed survey of the Lower Rio Grande Valley which was devastated Monday night and Tuesday by a hurricane.

All the dead, according to late reports, were in Harlingen.

BROWNSVILLE (AP)—None dead and fewer than twenty persons injured seriously enough to require medical attention with eight hundred made homeless and millions of dollars of property damage with no building escaping unscathed, was the Brownsville hurricane total.

In Matamoros, across the Rio Grande from Brownsville, the dead numbered six, with the injured possibly twenty-five.

Scores of gigantic palm trees blown down or stripped formed part of Brownsville damage.

SAN ANTONIO (AP)—Five dead, many injured and six hundred homeless were reported from Harlingen Wednesday in a telegram from Mayor C. K. Quin, who was aboard one of San Antonio's three relief trains to the Rio Grande valley.

EDINBURG (AP)—Asked what the damage to Harlingen would be, one man said: "Whatever its value was before the storm, less the amount of kindling wood we can sell for salvage."

It was generally estimated minimum damage in the valley would be fifteen million dollars. Some estimates were fifty million.

Word came from Washington that Harry Hopkins, federal relief administrator, had moved to assist the sufferers both in Texas and Florida. Carloads of food, paid for from federal funds, were enroute.

The Red Cross, meanwhile, issued a statewide appeal in Texas for a relief fund. Its representatives already were on the ground. In Washington, Congressman Milton West, in whose district the hurricane wrought such havoc, began the efforts to obtain federal aid. He appealed to the Home Owners Loan Corporation to approve immediately a program designed to afford funds quickly to the homeless. Details of the proposals advanced were not made public but it was learned that they contemplated extension of funds on an emergency basis. Some doubt was expressed at the corporation's office as to whether the money could be advanced outright for rebuilding of razed homes but it was said unofficially there was no apparent inhibition against making funds available for repair of such homes.

Senator Morris Sheppard asked the war department to do everything in its power to aid the stricken area and was advised soldiers already were polling Harlingen. Sheppard, too, said he would go immediately into the problem of obtaining whatever governmental aid possible.

EDINBURG (AP)—Rehabilitation of the devastated lower Rio Grande valley near Harlingen and Brownsville began Wednesday as relief trains arrived with doctors, nurses and foodstuffs.

The casualty list remained at 32 killed, approximately 1,500 injured.

Twenty persons lost their lives at Brownsville, ten at Harlingen and two at Rio Hondo.

Surveys were being conducted on all sides of the storm area to determine whether any were missing. All who escaped injury when the hurricane struck Monday night and early Tuesday already had started the work.

Improvised hospitals in public buildings and homes, soon became the scene of greater activity. Communications from the center of the hurricane area remained handicapped by leveled poles and reports of progress of rehabilitation work came slowly.

The state highway department concentrated every available man and all equipment in the vicinity of Corpus Christi and small towns to the north, ready to repair debris-filled, washed-out roads.

Torrential rains in the country around Monterrey, Mexico, indicated the hurricane's edge probably passed near there. No casualties were reported in that community.

Relief forces to the valley looked upon twisted, mangled buildings on every side. Fairs of barns were scattered and houses torn from the foundations and smashed.

EDINBURG — Twelve known dead and upward of 50 injured with many millions of dollars damage was the toll of the gulf hurricane which Monday night and Tuesday laid waste to the rich and populous lower Rio Grande valley. Thousands were reported homeless.

Reports from Brownsville were meager, but, judging by the destruction ranging east from McAllen 50 miles to Harlingen, with the heaviest destruction wrought in the 21 mile stretch from Mercedes to San Benito, Brownsville suffered heavily.

### Prof. Hutto On Club Program

Writer Of Verse Is Heard; Little Miss Porter Entertains

Varied entertainment was afforded Lions in their meeting Wednesday.

Little Miss Betty Gene Porter was encored after a novelty song and dance number. She was cleverly costumed and was accompanied on the piano by her mother.

Charles Scoggin, tenor, was well received in two numbers, "My Buddy" and a narrative lyric.

John R. Hutto, principal of the Mexican ward school and scoutmaster of the Lions club sponsored Boy Scout troop, appeared in an altogether different capacity, that of a poet.

Having won much acclaim as a research worker in history and credited with having written the best history of Big Spring, Mr. Hutto revealed what few knew of him—that he is a writer of verse.

In a brief prelude, he explained the difference in verse and doggerel, and expressed what he thought was the difference in a poet and a layman. "The poet sees what the layman does not," he said.

He read several of his verses written over a period of years, one of which was to "A Rattlesnake," which he read on request.

### Highway Department Advertises Letting Of Contract On Highway South From Here On September 18

Letting of contract for construction of Highway No. 9 from Big Spring southward to Glasscock county has been advertised for September 18, by the state highway department, according to a message from Gibb Gilchrist, state highway engineer, to County Judge H. R. Debenport.

After having right-of-way he idle for more than a month, indications now are that this county will have a paved stretch south to the county line.

Condemnation proceedings against property owners in Glasscock county foretell of an early bridging of the comparatively short gap through that county, giving Big Spring an all-weather connection with San Angelo and San Antonio.

In a wire to the commissioners, Gilchrist said: "In regard to previous inquiry Howard county, please be advised that this project (No. 9 south) is being advertised for letting on September 18."

Highway No. 9 north will be the next project for this county in an effort to connect Big Spring with Lubbock in an all-weather road.

### Dr. Copeland Opens Meeting

Dr. A. Reilly Copeland, pastor-evangelist of Waco, opening a revival meeting at the Tabernacle Baptist church, Fourth and Benton streets, Tuesday evening used as text John 3:14, "And as Moses lifted up the serpent in the wilderness even so must the Son of Man be lifted up."

The speaker said "The Words in the text 'even so must' in the Greek mean 'just like that'."

Quoting from the Old Testament the evangelist related the story of the judgment of God come upon the Israelites in the form of "fiery serpents."

Dr. Copeland said in part: "God gave Moses the remedy in the form of the brazen serpent on a pole and as it was lifted up in the wilderness for the healing of Israel 'even so must', that is 'just like that' was Christ lifted up for the healing of the sins of man."

"But it was not enough for the serpent to be lifted up. It became a divine necessity that for healing the bitten serpent in faith 'just like that' the Son of Man should be lifted up that whosoever believeth in Him should not perish but have eternal life."

"The first thing foran Israelite to know was that he was bitten. All men are bitten by the serpent of sin (Romans 7:23) 'For all have sinned, and when sin is finished it bringeth forth death.' The wages of sin is death. The second thing for an Israelite to know was that there was a God provided remedy and that this remedy was of no effect unless applied. Some would apply man-made remedies. Some would know the philosophy of the blood atonement. Some would wait with their neighbor. But all must come the God-given way. All are saved the same way."

The services begin promptly at 10 a. m. and 8 p. m. daily. The public is invited.

### 40 Men On Freight Train Questioned In Injury Of Boy

Officers Tuesday questioned more than forty transients arriving on a westbound Texas and Pacific freight train and held four for investigation in connection with a head injury received by the son of an Italian section foreman.

The lad, seven years old, was struck on the head by a missile hurled from the passing freight. Several stitches were necessary to close the wound.

### Investigation Started In Erie Train Collision As Deaths Reach Fourteen

Twenty-Five Seriously Hurt, Scores Receive Minor Injuries; As Milk Train Crashes Into Rear-End Of Fast Passenger In New York State

BINGHAMPTON, N. Y. (AP)—Public officials and executives of the Erie railroad Wednesday pushed an investigation into a rear-end collision on the road's main line east of here Tuesday night, causing death to 14 passengers on the Chicago-New York Flier.

Twenty-five were seriously hurt and 75 received minor injuries.

BINGHAMPTON, N. Y. (AP)—At least fourteen persons were killed and more than a hundred injured Tuesday night when the two rear coaches of a crack Erie passenger train were ploughed into by a milk train.

The coaches were reduced to a mass of bent and splintered wreckage and mangled bodies.

A wooden coach just forward of the steel car on the end of the flier was smashed like an eggshell by the impact.

Passengers in the diner forward were hurled from their seats in a welter of broken dishes. Many of them became hysterical searching for relatives and friends whom they had left in the rear coaches while they ate.

Screaming Victims The wreck occurred just east of Binghamton, as the flier, due in Jersey City at 12:45 a. m. Wednesday (M.S.S.) from Chicago, was leaving the city limits.

The milk train, bound from Hornell to Hoboken with a load, swept down the main line and crashed into the rear of the other train which had stopped. Police said the caution signal had been hung up and torpedoes placed on the track.

Motorists, attracted by the crash, began piling the victims, some screaming, others unconscious, into their cars, and driving for the nearest hospitals.

All available ambulances, physicians and nurses sped to the scene from Binghamton and nearby Pennsylvania towns. The stretcher and ambulance corps of the Binghamton national guard went into action.

Hospitals, overtaxed by the sudden emergency, were unable to furnish a complete list of the dead and injured immediately. Some bodies were so severely mangled it may be days before their identities are established.

Didn't See Warning The engineer of the milk train, dazed by the crash, said he did not see the red block light warning of the passenger train. He jammed on his brakes as soon as he saw a crash was coming, but it was too late.

Most of those killed were riding in the wooden coach, which was crushed to splinters. The steel construction of the end car, a comparatively new coach, was credited by authorities with having kept the death list from mounting even higher.

Rescue crews encountered difficulty in extricating many of the bodies, pinned under the debris.

One woman was hurried more than 50 feet from the track. She was dead when found.

Most of the other coaches of the passenger train were derailed. The locomotive of the milk train was bounced off the tracks but its crew was not hurt.

An immediate investigation into the cause of the wreck was ordered by Robert E. Woodruff, vice president of the Erie, from the company's general offices in Cleveland.

Hurricane Relief Fund Donations Are Solicited In City

An urgent appeal for contributions to a special relief fund for the Rio Grande Valley hurricane sufferers to be administered by the Red Cross, which has a trained force of disaster relief workers on the scene, was issued here Wednesday through Dr. W. TEXON—Behind Haven's pitching which held rival batters unless from the fifth frame on, Texon defeated Ozona, 6-3, in a four-inning pitchers' duel Tuesday afternoon to annex the championship of the West Texas Independent League.

A Labor Day crowd of 1,300 spectators witnessed the contest, second in the play-off between split-season winners of the West Texas loop. Texon took the opener, 11-0, Sunday afternoon.

Conley led Texon hitters with two singles, a double and a triple in five trips to the plate. Hodge of Ozona slammed out a four-bagger in what proved to be one of the longest hits made in the local park.

Sunday's game was featured by exceptional hitting by the Texon squad and stellar pitching by Floy Harris, pride of Goldsboro.

In field events held in connection with the game, Hodge won in fungo hitting; Barbee, in catchers' accuracy throwing; Burton, in long distance throwing and also in circling bases. Frank Shepard turned in the highest percentage in trap shooting.

Texon is considering a five-game series with the winner of the Hill county league for the championship of this section of the country.

### Education Board Asks Ruling Upon Cigaret Tax Uses

AUSTIN (UP)—Members of the state board of education requested a conference with Attorney General James V. Allred on terms of the new cigarette tax law affecting distribution of an estimated \$1,000,000 in revenue.

The new cigarette tax law of the last session of the legislature provided that all the revenue derived from the tax shall be credited to the available school fund for the year ending Aug. 31, 1934 and Aug. 31, 1935, and thereafter one-half shall be credited to the school fund and half to the state general fund.

The old law allowed half to the school fund and half to the state general fund.

The new act passed with an emergency clause making it effective last May 18. The question now in dispute is whether the schools are entitled to all or only half of the cigarette tax collected from May 18 to Aug. 31.

### 1,000 March In NRA Parade Here Monday

#### Hundreds Attend Rally At Auditorium On Labor Day

Approximately 1,000 Big Spring citizens filed four abreast in a line extending for more than three blocks Monday as a part of the Labor Day NRA rally held here.

Half of the number attended three good NRA addresses presented in the city auditorium immediately afterwards when Judge James T. Brooks, George White and Geo. Mims spoke.

The parade, containing more people than perhaps any other parade in the history of the city, was witnessed by crowds that thronged every street along which it passed.

One thousand participants in the parade braved a blazing sun patiently for more than half an hour when the procession failed to start on scheduled time. Then marched cheerfully for nine blocks before disbanding.

Leading the parade was Marshal Andrew Merrick, followed by officers of the local NRA, who were mounted.

Among them were Dr. M. H. Bennett, general, Lieutenant General Mrs. Charles Eberley, Colonel R. W. Henry, Clyde Thomas and Max Davis, and lady Colonel Mrs. Jim Davis and Miss Belle Williamson who rode in Louise Melton's stead.

Following the colors was a band under the leadership of Sam Goldman. Garden City musicians also participated in the parade and lent their playing to the occasion.

Most important was the group of men who have obtained employment since NRA went into effect.

Scores of business firms were represented by banners, and by their employees.

Service clubs were a part of the parade, although the Rotary club was the only one hoisting a banner.

Boy Scouts, behind their colors, marched. Their ranks were considerably thinned when boys were drafted to carry banners.

Fraternal and service organizations patriotically took part in the crowded procession.

The American Legion Auxiliary car, decorated simply but beautifully, drew much favorable comment.

In the city hall George Mims praised NRA and expressed the railroad man's viewpoint. Speaking in lieu of R. V. Jones, Mims was well received.

George White, county commissioner, endorsed NRA and explained where the farmer and ranchman fitted into the picture or the president's recovery program. What benefits others brings better conditions to even the farmer and to the ranchman, he said.

Judge James T. Brooks, who has

"Prohibition is the greatest experiment yet made to benefit man. It is strange that some men of great ability and standing do not help to remove the curse of alcohol."  
 —Thomas A. Edison.

"It took 78 years under liquor to throw fifty billions of protection around the loved ones of our homes in the form of life insurance. It took six and a half years under prohibition to double that amount."  
 —John A. McSparran.

The amount of absolute alcohol consumed in Canada under state government control increased 105 per cent in seven years from 1923 to 1930.

"It is the sobriety of the American people that has enabled them to go through a long and distressing experience with no disorder and remarkable restraint."

We may repeal prohibition, but we can not repeal the fact that liquor unlashes one's moral sense so that immorality and fast living result.

We may repeal prohibition, but we can not repeal the law that passes on to the next generation the terrible physical effects of drinking by potential fathers and mothers.

We may repeal prohibition, but we can not repeal the fact that liquor steals away a man's brains, lessens his efficiency, and lowers his income-producing powers.

We may repeal prohibition, but we can not repeal the fact that liquor unlashes one's moral sense so that immorality and fast living result.

We may repeal prohibition, but we can not repeal the law that passes on to the next generation the terrible physical effects of drinking by potential fathers and mothers.

## "A SAFETY-STEEL BODY SAVED MY LIFE!"

A CERTIFIED INTERVIEW WITH FRED C. NOBLE, PLYMOUTH SALESMAN, STAMFORD, CONN.

**"Ten tons landed on my Plymouth ... and I lived to tell the Tale"**

FRED C. NOBLE is a Plymouth salesman. But Fred Noble isn't giving you sales talk when he tells you you're safer in a Plymouth.

Fred Noble is alive today because Plymouth has a safety-steel body!

The pictures tell the story. How a three and a half ton truck with a six and a half ton load crashed over on top of Noble's car.

They don't show the terrific impact of those ten tons traveling at 40 miles an hour! They don't show how the force of the crash drove the wheels four and five inches into the solid earth!

But Plymouth is built of steel, reinforced with steel. Fred Noble came out with only one slight scratch!

For your own sake—for your family's sake—travel safely in a modern car. Let the nearest Plymouth dealer show you what safety-steel construction is. You'll never rely on any other kind!

# CONSULT YOUR WIFE for Sound Advice.....

Mr. Man, you may know more about the intricacies of the stock exchange, more of high finance, more of the whys and wherefores of politics, more of this and that

**BUT**, when it comes to shopping, your wife has probably got you beat six ways to the jack-pot.

Now don't let your male egoism get the better of you and just say, "The bl—k she has,"—think about it. After all, women have made it their business to be good, economical shoppers. They have devoted thought and effort to the business "you haven't had time for."

Go to your wife and ask her how she handles this shopping proposition. She'll tell you, "Well, the first thing, and it's the most important, too, is to read the ads in the Daily Herald."

And then she'll be glad to demonstrate for your benefit exactly how reading the ads led to economies and advantages in the purchase of everything from that club steak you liked so well last night to the new dress you've been admiring.

Then, too, she'll probably welcome the opportunity of proving to you that she can save you money and assure you of better quality by buying your shirts and socks and such for you after checking the ads. Why not let her try it? She is a real expert at this shopping business. Above all, don't forget to follow her advice when you're shopping for yourself and check the ads in this paper before you start out to do your buying.

# For The Love of Eve by Lucy Walling

## CHAPTER I

It was a brief and hurried marriage ceremony, not at all the imposing affair Eve Bayless had dreamed her wedding would be.

Just she and Dick, at the Little Stone Church, with the rectory housekeeper and a young civil engineer whom Dick knew for years, Monday noon—and the hastily performed ceremony was like an anti-climax to the passionate scene of parting Thursday night when Eve had decided she wanted to be Dick's wife with a little loss of time as possible.

And now, even while she was being married to Dick, there was the menacing ghost of the morning hovering between her and her happiness.

To Eve her wedding was like a disturbing dream. Would she get back to the store before Mr. Barnes sent for her? Would Dick be angry and storm when she told him what had happened that morning? Or would he be hurt and silent? Well, she wouldn't tell him until she had learned for sure this evening after dinner. No use to spoil the afternoon for him. She tried to focus her attention on the words that were binding her to Dick, but there were so many thoughts that kept interfering.

Now the earnest young rector was giving them his blessing. Dick's ring was on her finger. Dick's arms were around her. Dick's lips, possessive yet very tender, pressed to hers. Eve's heart melted. In that moment she was almost ready to give up everything for Dick. Her work, the coveted goal almost within reach, the career she had dreamed of through her girlhood—these she was moved to heap on love's altar as a sacrifice.

It was Dick who broke the spell. Abruptly his arms released her. It was he who suggested, almost brusquely, that they'd have to hurry or they would be late to work.

But by the time his roadster had posed its way through the noonday traffic to the side entrance to Bixby's department store, where Eve was employed as a copy writer in the advertising office, Dick's mood had changed again. His hand closed over her. "Eve, sweetheart, don't go back. I don't want my wife out earning her living. Let me take care of you, darling. You know—the kind of marriage we talked about last night—that's what I want. A little house with a fireplace and a garden and a baby."

"We can't thresh that out again. At least not here. Not now. Wait for me here this evening. I'll get to be late, but I don't know. Something came up in the office this morning—something, unexpected and terribly important. I'll tell you about it this evening. Bye, dear."

Eve consulted her watch when she reached the third floor. She had just five minutes to change from the brown ensemble which was her wedding costume into her smart but simple black office dress. The change was accomplished in the allotted time and the brown costume and the corsage of creamy fragrant rosebuds with lawn orifices that Dick had sent, put away in her locker. Thank goodness at Bixby's had sped that corsage! They could scent a wedding months away.

She slipped off her wedding ring the little circlet of pale yellow gold engraved with orange blossoms which she had chosen instead of platinum because it matched the golden lights in her amber eyes and money-colored hair and harmonized with the October browns and yellows that were her favorite colors. She put the ring in the shamois envelope which guarded her money and trinkets. Eve had told no one at Bixby's that she was to be married today. She would not tell them for a while— not until she was certain she wished them to know.

Oh, she should have waited until June to be married, she told herself unhappily as she went into the office. If only they could have been married Saturday instead of today, it would have helped the situation some. But the state law had been changed and a three-day police was required before a marriage license could be issued. She knew she should not be thinking about all this now. She must keep her nerves steady and her mind clear for that conference with Mr. Barnes at two o'clock. She hoped, yet feared, the outcome of that conference.

Eve was relieved to find there was no one in the advertising office except Marya Vlad, the fashion artist, who was working at her drawing board in a corner by the window. Perhaps Marya was not so oblivious to what went on about her as she seemed. Perhaps her candid blue eyes were more penetrating than her fellow workers realized, but at any rate she was too courteous and considerate to ask questions that might prove unwelcome. She merely looked up and smiled as Eve entered.

"Did anyone ask for me?" Marya

knew of the conference with Mr. Barnes, scheduled for two o'clock. "No one. How lovely you look today, Eve."

"Oh, I'm glad you think so. I have a special reason for wanting to look well today."

"Is that so?" echoed a voice in gay rallery and Ariene Smith, Earle Barnes' stenographer, entered the office, only a few steps behind Eve. "Don't tell me you are turning to such tactics to land a promotion. Ariene went on, 'Not after the way I've been bragging to my family about the high-mindedness and all-around superiority of this office force!'"

"Goodness, no!" laughed Eve. "The promotion, if any, hasn't a thing to do with my wish. I just came in from a date with a very special man. He's the marked victim of my fatal charm—not Mr. Barnes, nor yet Mr. Bixby."

"Oh, I know," said Ariene. "The strong silent on who parks the yellow roadster at the side entrance at quitting time about five evenings a week. Listen, dearie, any time you get a chance to pass up this madhouse in exchange for a permanent seat in that roadster and the privilege of operating a kitchen and can-opener for that young man you'd better grab off the prize."

"Sometimes I really believe you prefer domesticity to a business career," Eve said.

"Just watch me help myself to the first chance at sweet domesticity that comes my way," was Ariene's fervent reply. "I'm fully as domestic as Marya, here, and twice as domestic as you, Eve. But do the men see that? They do not! It's all right to play around with them when they begin to shop around for an engagement ring like you or Marya in mind."

Eve laughed uneasily and slipped a fresh sheet of paper into her typewriter. The conversation was on dangerous ground. It had been on the tip of her tongue a moment ago to tell Ariene and Marya about the wedding that noon in the Little Stone Church, but she was not ready for that disclosure. Too many things were crowding themselves into this day.

The second of the most important events of Eve's life was to take place within two hours after her wedding. Two sharp sounds of the buzzer summoned her to the office of Earle Barnes, advertising manager of Bixby's. Although her work took her to Barnes' office many times each day, Eve felt half-sick sick with trepidation this time. She trembled involuntarily and her head throbbled with a dull ache. Yet she strove to maintain an appearance of outward calm. A swift glance in the way of an mirror hanging over the washstand in the corner reassured her and the group gathered about Barnes' desk little suspected that the lovely flushed face and eager, bright eyes of the girl pointing them asked a real fright. Eve's chin was held high, however, and she managed a smile as she acknowledged the salutatory nod of white-haired Mr. Bixby, founder and owner of the store. So much depended upon the outcome of this conference.

Barnes drew up a chair for Eve, next to Alice Marshall, who was first assistant advertising manager. Mr. Bixby brought from his vest pocket a pair of Oxford glasses which he unfolded and adjusted on his dignified nose. "The better to see you, my dear," thought Eve and she felt that with the aid of those powerful lenses he could pierce through to her innermost thoughts and discover her secret.

"Miss Bayless," he began with customary dignity. "You are undoubtedly aware that it is the policy of the Bixby store to watch carefully the progress of each of its employees. From the time you joined us we have noted with satisfaction your spirit toward your work, your co-operation and your initiative. Mr. Bixby smoothed the narrow black ribbon attached to his glasses before he went on.

"Miss Marshall is leaving us, as you, of course, know. And it becomes necessary for us to choose a successor to fill her position. Mr. Barnes and I discussed the matter of the New York trip after my talk with you this morning. Miss Bayless and it has been definitely decided that you are to go."

"Oh—how nice!" Eve managed to articulate.

"It will give added interest and importance to the launching of your special column and ought to give you talking points for many weeks to come. Women read department store advertising primarily for the purpose of learning of bargains and new merchandise. I've always contended, however, that in addition advertising should be chatty and interesting in itself. Well, we're counting on you to make Bixby's advertising chatty and interesting."

"What this change may lead to eventually depends largely upon yourself—the selling power of your copy, your initiative and the ability you display in other ways."

"Thank you. I'll do my very best," Eve promised. "Do you—did you definitely decide that I'm to go tonight? I could go a little later

just as well." Eve was praying to her heart. "Not tonight, Dear God, don't let it be tonight!"

Mr. Bixby frowned slightly. "Yes you are to start tonight. I thought that point was definitely understood. As you know, Miss Marshall leaves Saturday. We want you here the following Monday."

"Go up to my office," Mr. Bixby went on. "and Miss Barney will take care of your expense money. She's wired for a hotel reservation and ordered your transportation. That whatever time you need this afternoon to go home and pack or for shopping. With an indulgent smile he dismissed an exultant yet frightened Eve.

Eve knew that this trip to New York meant that the management at Bixby's had almost certainly decided upon her as the successor to Alice Marshall. When she accepted the expense money for the trip, she felt she had sealed her fate. It was the thing she had wanted, of where she was. Eve's work always course. She had always to get had come before for pleasures and ever since she began working she had had a long prangement to a home town boy, showers engagement parties, and a wedding to which a wide circle of relatives and friends were invited. Those things meant so much to Esther. With Eve marriage was important, but so was her career.

Eve recalled how she had started at Bixby's. Determined to get a foothold as a copy writer, she had made the rounds of all the agencies and all the stores in Lake City before she reached Bixby's. The fact that no one needed a beginner and frankly told her so, had not discouraged her but merely put her on her mettle. Then she did what she considered a daring, preposterous thing. She went to Bix-

by. She hid nothing without a definite purpose.

From the little table that served as a writing desk, the pictured face of Eve's mother smiled at her from its cheap frame—the warm, steady mother-smile that had been unflinching all through Eve's life. Now she paused contritely before that picture of Kate Bayless. It was wrong, of course, not to have written to her mother that she was marrying Dick today. It was the first time she had ever shut her mother out from any important event of her life. True, she and Dick had decided hastily. And of course her mother was certain to approve of Dick. Eve reflected prosaically. Her father, too. Dick Rader was exactly the sort of dependable, industrious young man he please the most exacting parents. Nothing to worry about on that score.

Suddenly Eve was conscious of that cheap, nondescript frame that held her mother's picture. Always she had planned to buy a better one, but always there had been something she had wanted for herself. Now she was ashamed that Dick should see her mother's picture in this frame. It almost seemed to her that he would know about the various things she had bought for herself with money that might have bought a frame. She would buy a new one in New York—a lovely, silver one.

As she packed for the trip Eve remembered regretfully that she had very little beside her clothes to take to her new home. She had never, as do so many girls, bought pretty things to adorn her future home. Either, her sister, had dozens of lovely gifts to take with her when she married. But Esther had had a long prangement to a home town boy, showers engagement parties, and a wedding to which a wide circle of relatives and friends were invited. Those things meant so much to Esther. For The Love of Eve by Lucy Walling

(CONTINUED FROM PAGE 4)

leaned over and kissed him. With a quick look to see that no one was near, Dick gathered her in his arms for a brief instant and as quickly let her go. She would tell him now. Might as well have it over.

"Dick," she began. "I have something very, very important to tell you."

"Better wait till we get out of this traffic," he warned. "We'll have a lot to talk over then."

And Eve was glad for the delay. It was not going to be easy to tell him. They followed out toward the Heights. Dick driving at the rate of 25 miles an hour to keep with the green light and avoid abrupt stopping on the slippery asphalt.

Eve was sick with worry. She snuggled as closely as she dared to Dick's arm.

"Happy?" he asked.

"You know I am," she told him and managed to smile.

They drove to Mission Inn for their wedding dinner. Eve was glad that Dick had selected this charming place. The evergreens outside the imposing tiled-tucco building were mantled with Christ-mas-like whiteness. Inside, soft organ music came from the chapel.

At their table—a small one set for two—the Southern California influence for which Mission Inn had been named was even more in evidence. A starred ceiling of heavenly blue shut out the winter night and storm. Wisteria trailed along the eaves and hung in purple clusters. Brilliantly colored parakeets looked saucily at the diners from their ringed perch near the fountain. Here was a lemon tree in a green tub and there an orange tree or an oleander. The air was fragrant with exotic blossoms. On a wrought iron balcony above sat a senorita in yellow, wearing a black lace mantilla and a red rose in her hair. She was picking out soft melodies on a golden harp.

Dick had reserved the table and ordered the dinner. Excited and overcast as she was, Eve realized that she was hungry. She remembered now that she had eaten nothing since breakfast. She sipped the mushroom soup, with its unusual pliancy of flavor, for which the inn was famous and at which she had baked squash which was another specialty of the place.

When the dessert arrived—frozen creama molded in the form of mistletoe—she looked thoughtfully across the table at Dick.

"Our wedding bells, Dick," she smiled wistfully.

"I like it this way," he said.

Mrs. Kennedy and Mrs. Potter Hostesses To Christian W. M. S.

Mrs. J. F. Kennedy, assisted by Mrs. E. W. Potter, was hostess to the members of the First Christian W. M. S. Tuesday afternoon at the Kennedy home. Mrs. J. R. Parks gave the devotional and presided over the brief business session. Mrs. Shettlesworth led in prayer. Mrs. Westerman gave a special musical number. Members were urged to make plans for attending the convention to be held at San Angelo, Sept. 8.

STORM

(Continued From Page 1)

From Falfurrias to Edinburg, 88 miles, numerous flimsy structures were blown down, as were huge trees and poles carrying public utility wires. In Edinburg one storage warehouse and packing plant were demolished, many roofs were taken off and small structures were blown away.

At Pharr, eight miles south of Edinburg, many large pines were down. East of Pharr the water was 18 inches deep on the highway, and telephone poles were blown down across the road.

At San Juan, two miles east of Pharr, deep water covered the streets. The San Juan hotel was damaged badly and nearly all store porches were blown down.

Three miles east of San Juan at Alamo three fruit packing sheds were damaged badly and a lumber yard was wrecked.

Two in the Mercedes hospital were a man and a woman with fractured legs who had lain in driving rain all night.

"Wind reached 100 miles an hour here, I think," said W. L. Howell, chief of police. "Some say it went to 125, but I think 100 about right. I am a big man and I could not stand up in it. I was out all night and it blew me down many times."

At Mercedes one of the largest buildings damaged was the wholesale warehouse of Calarelli Brothers.

From Mercedes on east the terrific force of the wind was shown by telephone poles snapped in two just below the crossarms, and the picture of destruction to the rich and prosperous valley was complete, with damage of all other places multiplied many times.

At LaFeria, seven miles east of Mercedes, the Missouri Pacific railroad station roof was lifted off and deposited on the highway 50 feet away. A garage there collapsed on several automobiles. Most of LaFeria's bank building windows were blown out. The LaFeria plant of the Texas Citrus Fruit Growers Exchange, staunchly constructed of brick, was unroofed and partly wrecked.

P. A. Holdale in charge of the United States department of agriculture citrus inspection service in the valley, estimated that in the Harlingen area 90 per cent of the citrus fruit had been blown from the trees. The citrus crop for this year recently was estimated semi-officially at \$12,000,000.

Newspaper Flooded At Harlingen residents learning newspapermen had come in from other sections begged of storm details. No late newspaper had carried reports and they knew only of damage they saw about them. They even lacked information of the neighboring town of San Benito, only six miles away, where the destruction was comparable to their own. They are known as the twin cities, each of about 10,000 persons. The plant of the Harlingen Valley Morning Star was flooded and the newspaper was unable to publish Monday and Tuesday mornings.

At Edinburg the Edinburg Valley Review was prevented from publishing when power lines went out. At Harlingen, thirteen state highway patrolmen in clean, rusty uniforms, were aiding in relief work. It was stated 30 would be there Wednesday morning.

Claude Carter, assistant U. S. district attorney and a colonel on Governor Miriam A. Ferguson's staff, sent urgent requests for martial law for the entire valley to prevent looting in the complete darkness which reigned and to assist in bringing in as yet unroofed victims of the storm.

Wild Rumors Spread In the absence of details from Brownsville the wildest rumors were spread, but they all lacked basis.

Beavers, Irene Klaus, Agnes Currie, Allos Leeper and Mrs. Stanley J. Davis.

Miss Beavers will be the next hostess.

Miss Fern Wells Is Hostess To OCD Club

Miss Fern Wells entertained the members of the O. C. D. Bridge Club Tuesday evening at her home with an informal but delightful session of bridge.

Miss Currie was presented with a double deck of cards for making high score and Miss Robinson with a single deck for making second high. Miss Klaus received a linen handkerchief.

Only club members were present. They were: Misses Mabel Robinson, Nell Davis, Mary McElroy, Helen

verification. They dealt chiefly with a large death list and vast property damage. That the death and injured lists in the major part of the valley explored remained at a low level was due chiefly to the week of advance information concerning the hurricane's progress. Corpus Christi reported that an attempt would be made Wednesday to rescue Cliff Jolley and Len Mayo of Robstown, stranded on Padre Island 40 miles from Corpus Christi. They were located by an army flier. W. C. Maus, manager of the Corpus Christi airport, planned to make a try to bring them off the desolate sand bar. It was feared he would have a difficult landing. The hurricane veered unexpectedly and hit far south of where the government bureau had warned it would strike.

Throughout the threatened area, however, residents and business men boarded up and got set for the blow. Widespread warnings of the storm sent literally thousands scurrying into safe structures, accounting in a large part for the complete destruction of some residences with injury to no one.

Terrific Rainfall Throughout the blow and preceding it by many hours and continuing after the hurricane passed at noon Tuesday, terrific rain fell. That flooding the highway and various towns was surface water only, none being from rising stream, although there was expressed fear that a serious flood in the Rio Grande and its tributaries might ensue. As a matter of fact, the lower valley has only one stream, the Rio Grande.

Fields Covered In the territory east of Alamo water covered the fields and orchards and many farm houses were unroofed. The locally famous Val Verde swimming pool was wrecked. Many telephones and power poles were down.

At Donna, the most nearly completed wrecked building was the Town Fruit and Vegetable company plant. Two commercial garages were total losses. The Donna City Park, one of the valley's beauty spots, was demolished.

In that section the utilities poles were blown down in windows both north and south, indicating the terrific shifting force of the hurricane.

Weslaco Damage At Weslaco eight miles east of Donna, streets were flooded to good depths. Roofs were torn from many packing sheds. Much of the residence section also was under water and residences were damaged, with fallen power and telephone lines making a network across streets.

Six miles farther east at Mercedes damage the previous destruction had not indicated burst upon one. Virtually all the packing sheds, in which the region abounds, were blown down.

Much plate glass was blown out in the business district. Vegetation of all kinds was battered down flat to the ground. Here also the first serious injuries of the storm area were found, seven persons being reported injured and in the hospital.

Telephone Foles Down From LaFeria on to Harlingen, eight or nine miles, every telephone post, each carrying six crossarms

and each crossarm ten wires, was down, most of them across the highway. Power lines also were down in that strip. Damage to the citrus industry became more evident at this point. Packing sheds between LaFeria and Harlingen were lifted from their foundations and tossed across railroad tracks on highway pavement. At that point truck loads of refugees were being brought out. They largely were Mexicans. The picture of destruction at Harlingen was complete, but despite a dozen lying dead in improvised morgues, the chamber of commerce official and real estate man, estimated there was \$500,000 to \$1,000,000 damage in Harlingen, with 80 per cent of the buildings damaged or destroyed.

S. Finley Ewing, former mayor of Harlingen, chamber of commerce official and real estate man, estimated there was \$500,000 to \$1,000,000 damage in Harlingen, with 80 per cent of the buildings damaged or destroyed.

U. S. Fleet Is Sent To Cuba By President

Secretary Of Navy Swanson Ordered To Proceed Aboard Naval Vessel

WASHINGTON, (AP) — President Roosevelt Wednesday ordered Secretary of the Navy Swanson to proceed to Havana aboard the cruiser Indianapolis.

Swanson will arrive in Havana Friday morning. Leaving White House conference, Swanson said he had no specific orders.

WASHINGTON, (AP) — President Roosevelt is concentrating the Atlantic fleet in the vicinity of Cuba for protection of American lives in the event of violence there.

He was said Wednesday to contemplate no intervention. The battleship, Mississippi, was ordered to join four other American vessels already in the Cuban neighborhood. More than 1,000 Marines were being concentrated at the Guantanamo, Va., base to be in readiness in case of danger for foreign life and property that would warrant their presence in Cuba.

### Barbecue At Country Club Given For Local Sorority

Misses Lillian Shick And Lallah Wright Entertain Kappa Gammas And Friends With Outdoor Supper And Bridge-Dance

Misses Lillian Shick and Lallah Wright entertained the members of the local Kappa Gamma Sorority and their friends with an unusually charming party Tuesday evening at the Country Club.

The members and invited guests assembled at the club house at 7:30 o'clock and went to the barbecue pits a short distance away.

There they were served delicious barbecued steaks cooked over coals by Nat Shick and Max Boyd. They were served also toast, gravy, potato salad and iced tea from a long table cafeteria style. Under electric lights they gathered in groups to enjoy the outdoor supper.

After the barbecue they were invited back to the club house to devote the remainder of the evening to bridge.

The Country Club ballroom was decorated with an abundance of cut flowers in floor baskets, carrying out the Sorority colors of red and gold. An electrically lighted seal of the Sorority was the chief ornament used to decorate the mantel. Favours were miniature cacti in little red pots on which was painted the Sorority seal in gold.

The members and guests were: Misses Mary Alice Walker, Jeannette Pickles, Jeannette Barnett, Maxine Thomas, Maurine Leatherwood, Luella Rix, Nell Brown, Jessie Morgan, Marie Faubion and Mrs. Jerry Hibber; Messrs. Gene Linck, Charles Corley, Bill Edwards, Jimmie Bunch, Harold Harvey, Cecil McDonald, Pete Smith, Zoliss Boykin, Jack Flowers, Kenneth Hart, Malcolm Patterson, Scotty Wilson, Messrs. and Mrs. Harvey Shackelford, Bill Turpin, Gordon Graham, Wendell Bedichek, Max Boyd and little Master Burnie Boyd, and the following sponsors and their husbands, Mr. and Mrs. Shins Phillips, Mr. and Mrs. George Wilka, Mr. and Mrs. W. ### Changes In '33 Bank Law Are Sought

American Bankers Association President Addresses Convention

CHICAGO, (UP)—Vital changes must be made in the 1933 banking act to insure the nation's economic recovery, Francis H. Sison, president, said in an interview at the opening of the American Bankers Association convention here.

Faced with the task of rebuilding America's financial structure, more than 5,000 bankers were here for what is regarded as the most important series of conferences in the association's history.

Insurance of deposits was attacked by Sison as the most faulty feature in the Glass-Steagall bill and one of the mistakes that must be corrected to place banks on a sound basis and permit business expansion.

"It has taxed strong, honest, well-conducted banks," Sison said, referring to the deposit guaranty provision in the banking bill "Good banks have been made to pay for the shortcomings of weak, dishonest bankers."

Sison suggested three "important modifications" to the Glass-Steagall bill. They are: 1. Modify, if not eliminate, deposit insurance.

2. Modification of the present securities act, which acts as a deterrent upon financing and jeopardizes business expansion.

3. Changes in the act which through elimination of security affiliates not only has handicapped business financing programs but likewise financing needs of the government.

A resolution opposing guarantee of bank deposits was adopted by the National Bank Division of the bankers meeting Monday.

### Blind Tom Chall Worst Foe Of New Deal Laws

WASHINGTON (UP)—The last glimpse of the world and all that's in it vouchsafed to Thomas David Schall was embraced in a carefree glance in 1907. He saw then the tip of his cigar and a cigar lighter on a tobacco dealer's counter. The lighter exploded. Twenty-six years has Schall been sightless.

Shall continued to practice law in Minneapolis. In 1916 he came to congress; in 1922 to the United States senate. In 1933 he is the most voluble, persistent and bitter public critic of the new deal.

He challenged economy in veteran's compensation. Right or wrong, the blind man is no minor opponent. He fights hard and long. Before this year 1917 found him a progressive Republican member of the house. He bolted his party to support Democratic Champ Clark for speaker. Schall says Clark could not have won without that vote.

Recent Schallings: "The rights of the individual as advocated by Jefferson are displaced for the authority of a Lenin, a Hitler, a Mussolini, a Franklin Roosevelt."

"Premier General Johnson, our new one-man ruler, Wall Street partner of Barney Haruch the broker, has declared a five weeks campaign to put across the five-year plan of Premier Stalin of Russia."

"In some countries the reaction from the orgies of an NRA put through PDQ might end in TNT."

"In the role of rapid worker, history has these three—Huey Long, Huey Johnson and Elinor Gynn. But the greatest of these for speed is Elinor Gynn on the banks of Lake Lucerne."

"Even Premier Hitler requires a year or two to put across the Nazi plan which covers only a tithe of the territory of the NRA."

Wayne Matthews Wed To Alba Girl

Wayne E. Matthews, teacher of English at Big Spring high school, was married to Miss Madeline Cain August 27 at Alba, Tex. The pastor of the First Baptist church of that city officiated at the ceremony.

The bride is the attractive daughter of Mr. and Mrs. A. L. Cain of Alba. She received her college training at North Texas State Teachers' college at Denton.

The groom is the son of Mr. and Mrs. W. L. Matthews, formerly of Alba, now of Houston. He obtained his degree at Simmons University, Abilene, where he was a member of the Cowboy Band.

The bride and groom spent a week visiting the groom's parents at Houston and at Galveston. They are making their home here at 1406 Johnson street.

### Sport-Lines

BY TOM HEASLEY

Joe Davis polished off his summer's tennis play Sunday by winning the singles title in the West Texas Tennis League. The dark-skinned youngster wore down one player and finished the match with a substitute. Joe failed to get word he was to play Sunday and barely made Midland in time to play before dark.

Some of the city's shady tennis players have suggested an All-City tournament for the week-end. Not being a bit particular about the said scramble of doubtfuls, we have compiled a list of entries.

Curtis Bishop tops the list with

sas City early today. He hurried from the airport to his office where statements from 11 deputies awaited him. He conferred with Chief Deputy Bill Decker and Jaller Murray Fiacher and later questioned each of the deputies on duty at the time of the break.

Pending the grand jury investigation, Schmid was inclined to withhold pinning the blame for the escape on his deputies. He described Bailey's boast to Nick Tresp, deputy jailer, abducted and forced to accompany Bailey on the four-hour drive which ended with his arrest at Ardmore, Ok. that he brought handcuffs into the jail by concealing them under adhesive bandages as a lie.

Decker said Bailey was stripped before he was placed in solitary confinement. The wound that Bailey received in escaping from the Kansas penitentiary at Lansing was undressed, he said, removing the possibility that Bailey could smuggle anything into the jail with him. This indicated the sheriff's force is working on the theory Bailey had assistance from someone inside the jail in obtaining a gun and the hacksaw blade he used in cutting his way from his cell.

Frank J. Blake, chief of justice department agents here, conferred with Schmid today. The sheriff turned over to Blake the statements from the deputies.

Blake let it be known the inquiry was concentrated on Bailey's activities inside the county jail. The theory that gangland friends of the imprisoned Bailey aided in the break was dropped.

Schmid arrived here from Kan-

Joe Davis, Waldon Blankenship, Howard Smith, Tommy Hutto, Harold Harvey, Jimmy Jones, Pelton Smith, Bill Savage, Harry Jordan, Fred Savage, Wayne Matthews, Joe Galbraith and Doc Bivings. Bishop has asked permission to tangle with Galbraith in the first round and Pivings in the second. Dr. M. H. Bennett may be on the courts to add mirth to the gathering.

Past champions: Singles 1933 Joe Davis 1931 Joe Davis 1930 Curtiss Bishop 1929 Ray Brown 1928 C. Barnett

The caddies have been having a whale of a time the last two days as the annual caddy golf tournament opened in full swing yesterday with two flights of players. Prizes will be presented winners.

Billy Bass, ram-rod of the Tri-county baseball league, is being transferred this week to Olney. Bass has contributed much of his time for a number of years to keeping baseball teams together, and fans are sorry to learn that he must leave.

The Steer mentor closed a deal this week for a game with Pat Murphy's Austin High school Panthers at El Paso the night of September 30.

The Bovines will line up against the ex-gridders for a 'break-in' this week.

Herman Appleton has quit the Vincent community for the Steer line this fall. Appleton has only been out for practice a couple of days, and his value or position on the team is still a matter of time. He weighs approximately 155 pounds and has little or no experience in football.

Army Armstrong bids us goodbye the first of next week for Louisiana and Tulane University. The big Coahoma boy made good for the Steers last year and gets his chance for big time stuff.
