3 MILES FARM TO MARKET ROAD APPROVED FOR CO.

The Texas Highway Commission today approved development of 3.0 miles of Farm to Market Roads in Wheeler County as part of the 1969 Texas Farm to Market program.

District Engineer V. J. McGee of the Texas Highway Department said estimated cost of the work is \$90,000.

The project authorized for Wheeler County extends from F.M. Road 1046, 4.2 miles northeast of Mobeetie, south to road intersection, a distance of approximately 3.0 miles.

Work is authorized for this county is part of the 827.1 miles of Texas Farm and Ranch to Market Roads earmarked for development in the new program.

The program lists 214 projects in 138 counties. Estimated total cost is \$22 million.

Mileage included in the program totals 237.2 miles of new roads with an estimated cost of 10.3 million dollars.

The remaining 589.9 miles to be developed at an estimated cost of \$11.7 million was designated previously and is being constructed in stages.

The additional mileage brings the designated Farm

and Ranch to Market Road system in Texas to 39.5 thousand miles. This is equal to 1 1/2 times the combined total of all state-maintained highways in the six New England States.

Plans call for an eventual RM-FM system of 50,000 miles. Originally conceived to "get the farmer out of the mud," the network has contributed to the economic and social well being of millions of rural Texans.

For example, 127.5 miles or 54 percent of the new mileage added in the program announced today is on school bus routes. Fifty percent or 118.3 miles are on rural mail delivery routes.

Not just the rural residents of the State have benefited from the system, however. The Farm to Market system is equally a "market to farm" system, serving as the framework for distribution of manufactured goods and supplies moving from commercial and industrial centers throughout the State.

In recent years, the FM-RM system has assumed a new major role. A Texas Highway Department study shows that some 2,022 miles of FM-RM roads are used primarily or partially to provide access to 163 water reservoirs throughout Texas.

Roads on the FM system has opened up new scenic vistas and recreational opportunities to everyone. One third of the 6.9 thousand miles included in the ten Texas Travel Trails are FM Roads.

Deer Season Opened Nov. 29

Deer Season opened in the county Saturday, Nov. 29. Since that time, a number of hunters have been lucky enough to get a kill.

With the help of Dick Arment, Parks and Wildlife Biologist, we were able to get the names of eight hunters who killed deer. Those successful hunters were Monte Edwards, Bobby Vanpool, Mike Burgess, Buford Conwell of Ft. Worth, Melvin May, John Manning, Delbert Thomas and James T. Lewis of Amarillo.

Hunting season will continue through Dec. 14. Deer season in parts of Texas began Nov. 1. The state Wildlife Department indicated an average deer kill during the first two weeks of the hunting season.

Body condition of the deer varies over the State. West Texas hunter report the deer fat and in good shape, while East Texas hunters say the deer are in good shape, but far from fat.

Dishes left from the Dyer meal are in the kitchen of the Missionary Baptist Church. These are unmarked. Please pick them up.
