## **Home Delivery** Is Now Available

Postmaster Virgil Jamison Jr. said today that a new order from Postmaster General Winton M. Blount will mean substantial improvements in mail delivery service.

Postmaster General Blount has advised the local Postmaster of provisions of a new order making home dekuvery service

livery service available for the first time to 4 million Americans.

The service improvement applies to persons served out of 18,700 First, Second and Third class Post Offices over the country that do not have City delivery services. Affected are those postal customers living more than a quarter mile away from these offices and less than half a mile away. Persons living less than a half a mile away previously had not been provided this ser-

Discussing the local area effects of Mr. Blounts New Order, Postmaster Jamison explained that this will require some route changes in some instances and the mere placing of boxes on the existing route in some other

cases. To get the new service it is only necessary that those living in the eligible areas ask their Postmasters to provide it, and a majority of those to be served must

want the home service. Under Mr. Blounts order, those living less than a quarter mile from the Post Office will continue to lick up their mail at these offices. But, the Postmaster noted, That's no more than a few blocks.

This order, however; will make the home deliveries available where ever desired by the majority of those living beyond a quarter mile.

This distance factor can be significant for much of the year in areas where severe weather conditions prevail; in areas where large numbers of older persons are living, or in more remote sections where even a little distance may mean a lot in terms of travel difficulties.

The expansion of services should be virtually complete in all of the affected delivery service areas-under actions taken by postal regional offices, acting on recommendations of local Postmasters-by Feb. 1, 1971. It will be accomplished principally by adding stops to already existing routes, or by expanding the area served by some shorter rural route for the purpose and a limited number of new rural routes may also be needed in other instances.

The fact that fewer persons will be calling at Post Offices for their mail will not alter the independent status of any of the Post offices where the service change is provided.

## Destoryed

Several cases of molesting government mail boxes have been reported to the County Sheriff's office. Offenders are warned to stop destroying mail boxes; this is government property and this is a federal offense. If these cases continue to

be reported, Dorman stated he will call in the government authorities.

Mr. and Mrs. Bill Chapman had both their girls and fami-lies home for the weekend. Mr. and Mrs. Wallace Johnson, Jo Lynetl and Ted Wal-ley of Lubbock and Mr. and s. Jim Helton and Todd of Wellington, Kansas.

Administrator James V. Smith called on housing constructors, developers, sellers and other segments of the construction industry to engage in a stepped-up-program to upgrade low-andmoderate cost housing in rural communities.

"At long last we can put to work a tool that enables the Farmers Home Administration to deal effectively with the deplorable condition of rural housing," Mr. Smith said.

"Instead of building new homes on a single-unit-at-atime basis as in the past, the conditional commitment now makes the building of a dozen modest homes m an area practical, ' he added. The conditional commitment does not reserve funds for a loan nor does it provide for construction finan-

cing. The FHA will issue a commitment on each proposed house, but will hold builders to 15 commitments at any one time. The commitment will be effective for 12 months unless extended. Experienced builders, including individuals, partnerships or corporations, may apply to any of the 1,700 FHA offices which serve every county in the nation, including Puertor Rico and

the Virgin Islands. The agency will require builders to submit plans, specifications, proposed selling price and other information related to proposed construction at the time of application. The application fee for a

commitment on a new house is \$45 and \$35 for rehabilitation of an existing house. Administrator Smith explained that it is impossible to determine how much new construction will be started in small rural communities because of the commitment, but pointed out that the agency's housing funds for the current fiscal year stand at \$821 million. It is estimated that about 80,000 housing starts will be made this year, compared to 50,000

in 1969. He also pointed out that there is a great need for housing in rural areas where

## resounding reasons why you should buy a new Chevrolet instead of a new something else:

Higher resale value. Year after year. No other car in Chevrolet's field gives s much back on your initial investment.

Deep down value. Exclusives like flush-and-dry rocker panels and an extra fenders keep Chevrolet looking good longer.

3 Smooth, smooth ride. Because of Chevrolet's computer selected springs, Full Coil suspension and advanced body mounting system.

Impressive styling. The impression is that it's an expensive car, if you o make an impression

5 Massive interiors. Result? Room to stretch out or to sit tall. Chevrolet ore front leg room than any other car in its field.

OS' de-guard beams. Chevrolet puts more between you and the outside. Steel be ms built into every door.

A finish that lasts. It's unfortunate other cars in Chevy's field don't have agic-Mirror finish because it sure keeps its shine.

8 Exceptional engines. Chevrolet's standard 350-cubic-inch V8 runs on regular fuel. Plus there are five more engines available.

Tremendous selection. Of colors. Of accessories. Of engines. Of trans-Of fabrics. And of models. There are nine big Chevrolets alone.

America's favorite. Something a new "something else" can't claim. If speak louder than words, doesn't this say something to you?

Johnson noted that this will be the last April 15 inspection deadline, because on September 1, 1969 the Texas Legislature adopted a year-around inspection program. Inspections will come due one year after the current month of inspection. This will establish an anniversary month for each vehicle to be inspected and prevent the log-jam of over six million vehicles to be inspected at one time. The new inspection stick-

er will be placed on the left-hand side of the windshield. The number of the current month of inspection will appear on the sticker.

## Texas Health **Careers Program**

The Texas Health Careers Program will stage an as-sembly program for Wheeler High School at 1:30 P. M. on March 12, 1970. A unique presentation, this assembly is designed to introduce students to the exciting opportunities which await the healthcare protessional of tomorrow. The need for health manpower in Texas is, indeed, great. Statistics indicate that 50,000 qualified health personnel will be needed by 1975 to fill vacant patamedical seats. Speaker for the Health Careers Assembly will be Mr. Gerald Spraggins, R. N. A veteran of Vietnam, first male graduate of the Methodist Hospital School of Nursing in Dallas, and former member of the Texas Health Careers traveling Caravan show, this registered nurse is more than

qualified to speak concerning importance of the male's role in the disciplines of Texas health care. The Texas Health Care-

ers Program is affiliated with the Texas Hospital Association. This Program is being

spon sored by the Amarillo Chamber of Commerce for this area, and is being presented by the Wheeler High School Student Council. The public is cordially invited to public is cordially invited to attend.
