of grazing may well depend on the variety planted. The recommended wheat varieties for our county are: Tascosa, Sturdy (with irrigation) Caprock (with irrigation), Caddo, S cout 66, Improved Triumph, Kaw 61, Parker, Concho and Triumph 64. There is a lot of interest in Rye this year. Elbon is a good one. Also there are species crosses hatwill give more grazing in the colder weather. Oats recommended include Norwin, Cimarron, Wintok and Bronco. Barley varieties are Will Rogers, Harrison and Era.

We don't recommend Triticale at this time. Choices of varieties that

you make shoold be influencd by whether the crop is seeded on dryl and or inrigated, low or high fertility conditions, whether used for grazing or grain or both and its resistance to insects and di seases.

The shortage of grazing and hay caused by lack of rain is creating problems to county stockmen. There's still plenty of time to grow a lot
