More Money Needed To Operate As Top Notch School

The Wheeler Board of Education together with a committee on property valuations has been actively engaged for several weeks in attempting to reach a reasonable and uniform appraisal of the property in Wheeler School District. Members of the committee were: George Gandy, George Taylor, Nelson Porter, Dorsie Hutchison, and Loubet Moore.

"In order to meet the needs for an increasingly complex economy, our children need the very best education it is possible for us to give them. It is planned to make available to each student four years of mathematics, four years of English, four years of science, four years of commercial subjects, and vocational training in agriculture and homemaking. It seems to us that these are the very core of an adequate educational program," superintendent Cordell said.

"In order to meet these needs, the school needs more money, and this can only come from the local taxes," according to Cordell. "We feel that by using 32% of the assessed values instead of the 25% figure which has been in use in the recent years. This figure will bring in approximately \$6000 per year more than for the 1958-59 valuations, and will enable us to equip fully for our advanced science courses, add to our grade and high school libraries which are very inadequate; and redecorate our buildings extensively; including boiler repairs and extra wiring circuits for the grade school."

"The opinions of our patrons and taxpayers are welcomed in helping the board and school administration to solve our problems," Cordell concluded.

WORK UNDERWAY ON BUILDING TO HOUSE COTTON CLASSING OFFICE

Work on the cotton classing office to be located in Memphis is progressing according to schedule, V. C. Durrett, president of the Rolling Plains Cotton Producers Association, said this week.

All the contracts for work have been awarded and renovation of the building and installation of equipment is underway.

The association has purchased the old Wooten Wholesale Grocery building in east Memphis on Highway 256.

L. J. Kennon is in charge of construction, Arthur Gidden electrical work and L. B. Robertson is in charge of the plumbing. Installation of air conditioning and humidifying equipment is being handled by Robert Breedlove, with the assistance of Jim Harris.

Harris, who engineered the equipment for the Munday Cotton Classing Office, represents Service Plumbing Supply, a wholesale firm located in Fort Worth.

Work is also going to be done on the outside of the building with plans calling for Perma-Stone work and a paint job, the president said. The color scheme for the outside will be determined by an Amarillo firm in charge of the Perma-Stone work.

Plans call for an open house of the new classing office to be held about September 1 when the work is completed, Durrett said.

The office will be completed in time to take care of this year's cotton crop. Cotton grown in an area of about 12 counties will be graded here with the Plains Cotton Growers Association furnishing the building and equipment.

The Department of Agriculture will furnish personnel and pay utilities for that part of the year the office is in operation grading cotton.

Plans were discussed about the availability of a building to hold meetings. The next meeting will be held Friday, August 7 at Nora's Cafe at 7:30 p.m.

Plans Are Almost Complete For 1959 Ex-Students Meeting

Phones have been ringing and door bells buzzing as plans begin to take shape for the annual ex-students meeting to be held in Wheeler Saturday, August 15.

Lowell Farmer, president of the ex-students association, has outlined an interesting program for the ex-students. Registration and open house will be held at the high school at 9:00 Saturday morning. After the registration former students will be able to visit their old class room and talk with their former classmates and teachers.

At 12:00 noon a free barbecue has been planned for all of the ex-students and their families. The barbecue will be served at the city park. Following the barbecue an evening of swimming, and visitation is scheduled.

The final registration will be held at 7:30 P.M. in the high school gym. And following the business meeting at 8:00 the entertainment will begin and the refreshments will be served.

Questioners have been sent to all of the ex-students and more than 200 of the questioners have already been returned. Everyone that plans to attend the celebration is urged to return the questioner immediately.

WHY DO WITHOUT A LITTLE LUXURY LIKE THIS... LET ALONE

Chery's the only car of the leading low-priced three that gives you the convenience of crank-operated vent windows. No awkward latches to fumble with... your knuckles and fingernails will appreciate it.

THESE BIG CHEVY VIRTUES!

bigger brakes

Bigger, yes, and built with bonded linings for as much as 66% longer life. And how's this for proof that Chevy's a real stopper: in a NAS-CAR* conducted test of repeated stops from highway speeds, Chevrolet outstopped both of the "other two" time after time.

*National Association for Stock Car Advancement and Research.

award-winning engines

The NASCAR Outstanding Achievement award goes to Chevrolet! Chevy wins for "the creation and continuing development of America's most efficient V-type engines... for the establishment of new levels of V8 compactness combined with outstanding smoothness." And you can choose among eight V8's and the Six that won the Mobilgas Economy Run for its class.

full coil ride

You're the expert on ride, so you'll want to try Chevy's easygoing smoothness for yourself. MOTOR TREND magazine can give you a hint of what you're in for: "... the smoothest, most quiet, softest riding car in its price class." And Full Coil springs, of course, never squeak, never need grease.

fresh styling

POPULAR SCIENCE magazine gave Chevy's styling a thoughtful look, then said it this way: "In its price class, Chevy establishes a new high in daring styling..." You'll find your own happy way of saying that Chevy's the only unmistakably modern car in its class.

greater roominess

Automobile Manufacturers Association records carry the facts on this. In a Chevy sedan, for example, you've got more front seat head room than all but one of the high-priced cars! And Chevy's front seat hip room spreads up to 5.9 inches wider than comparable cars.

bigger savings

Here's solid proof that Chevrolet squeezes more miles out of a gallon: In the famous Mobilgas Economy Run, two Chevrolet sixes with Powerglide took the first two places in their class. Winning mileage: 22.38 m.p.g. And that, friends, took top honors for Chevy from every full-sized car!

higher trade-in

N.A.D.A.* Guide Books prove that your Chevrolet will keep its value. Chevy used car prices last year, for example, averaged up to \$128 higher than comparable models of the other two cars in Chevrolet's field.

Wheeler's Future Citizens:

LITTLE CUTIES: On the Wheeler Times roll of Future Citizens are (left to right) Ronald, Larry and Donald Rives, children of Mr. and Mrs. Thurman Rives; and Pam and Pat Garrison, daughters of Mr. and Mrs. Jack Garrison.

When it comes to being smart you can count on them Rocky fellers for comin up with something that ain't ever been come up with before. One of the youngest of them dime collectors decided to sort of help out on the family budget and married thier housekeeper. Now that dude might have inherited some of his Ole Grandpappys Pennymaking and Dime penchin qualities but he darn shore missed the boat by marryin the maid. She probably will send back over to the old country and have them send over a whole passle of her family just to keep her from bein homesick and then send for another bunch.

to do the housework that she had previously done. Now Im talkin from family experience when I say this. One of my previous Ancestors decided to marry one of them Indian Gals cause she could skin a Buffalo so quick. After she got married she would sit there skinnin and a eatin and a skinnin and a eatin till she got too fat to get close to one of them Buffs. I recon that is the reason there is so many Gunters in the country Grandpap had to have so many hides to keep her warm and so many carkasas to feed her he decided to raise some Buffalo skinners and here we are. Hope the Rockefeller feller dont have the same trouble with his Squaw.

Jim Garner and Mrs. Alice Miller left Monday afternoon for Brownfield, Texas where they will visit with John Garner.

DESTINATION: Church

SEARCH FOR ALL THE GREAT FACTORS FOR THE BUILDING OF CHARACTER AND LEADERSHIP IN A CHURCH. It is a challenge of our times. Without a strong Church, the world is a chaotic place. There are four sound reasons why every person should attend services and support the Church. They are: (1) For his own sake. (2) For his family's sake. (3) For the sake of his community. (4) For the sake of the Church itself, which needs his financial support. Plan to go with regularity and read your Bible.

Mother's wearing her smart new hat, Susan's curls are brushed till they shine, and Dad's looking pretty sharp, himself, in that pale gray suit.

If the Browns look like a family starting out on a pleasure ride — well, that's exactly what they're about to do. They're going to church.

The Browns are regular churchgoers. But this is their secret. They go to church not only because they feel they should, but because they want to. Church, for them, is one of the most joyous occasions of the week.

No one ever said that going to church had to be a glum, long-faced affair. Going to church isn't a duty. It's a privilege.

Make church your destination this Sunday. And go joyfully.

HIGHLIGHTS AND SIDELIGHTS FROM YOUR STATE CAPITAL

With the bottleneck broken on a tax bill for regular spending, legislators began to look down the road.

Rep. Murray Watson of Mart proposed a resolution that pointed up the lawmakers' uneasiness about having more rough decisions before the year is out.

Watson's resolution called on Gov. Price Daniel to say immediately whether he would call another special session to raise money for the Hale-Aikin school improvement program.

Hale-Aikin proposals, which include an \$800 a year salary boost for teachers, would cost an estimated \$120,000,000 a year. There have been repeated rumors that the governor will recall the Legislature next fall to enact Hale-Aikin. Also floating around is the rumor that a 1 cent per gallon hike in the gasoline tax is being "saved" for that purpose.

Watson charged, "I think there has been a definite deal made with the Texas State Teachers Association. Somebody else should know what's going on here instead of just the governor and the teachers' lobby."

Governor Daniel's supporters called this unfair. They declared that the governor, like everyone else, couldn't tell how it would be until after the dust settled from the fracas over raising money for the basic budget.

AT LAST: When the Legislature finally voted out the new \$185,000,000 tax bill, it voted it out in a big way. Tally was 29-to-2 in the Senate and 115-to-24 in the House.

This is well over the required two-thirds to make the bill effective immediately on the governor's signing.

House, which had been hamstrung for seven months on the tax issue, came unstrung so suddenly it surprised the bill's advocates. Voting ended good naturedly with "yea" votes recruited in the atmosphere of an old-fashioned revival meeting.

Most talked-about feature of the new bill is a severance beneficiary tax of 15 per cent on natural gas. It was the first time the Senate had approved this tax. Many House members had said they would not vote for any bill that didn't include it. It will bring in an estimated \$15 to \$18,000,000 over two years if not ruled unconstitutional.

Three-fourths or more of the bill's revenue will come from selective sales taxes. Newcomers are a 3 per cent tax on jewelry and furs, a 3 per cent tax on hotel and motel room rentals, 3 per cent on boats, motors, cameras, air conditioners, 25 per cent on tobacco products other than cigarettes.

Taxes on cigarettes will go up 3 cents a pack; liquor and wine, 20 per cent; motor vehicle sales, from 1.1 to 1.5 per cent.

Utility gross receipts will go up 20 per cent, and the corporation franchise tax will go up by 75 cents per \$1,000 capital for one year, 50 cents per \$1,000 thereafter.

LADIES DAY: Senate debate on the tax bill was enlivened by the arrival of a "women's march on the Capitol."

Gallery was filled with flowery hats and excited chatter as some 40 to 100 women (estimates varied widely) swept in "to show those lobbyists what's what."

Leaders were Mrs. Jud Collier of Mumford and Mrs. Minnie Fisher Cunningham of New Waverly, both workers in the militantly liberal Democrats of Texas Clubs.

They were, according to Mrs. Collier, "infuriated by the scandalous lobby which has blocked action on the tax bill." Specifically, they favored a bill heavy on gas taxes and light on selective sales taxes.

LEGISLATING ENDED: Tax bills have had a lot of attention during the current special session of the Texas Legislature. But there were more eyes on charming Miss Carol Ralphs when she stepped in for a capitol building visit than ever looked at a tax bill.

This fetching miss from Farson, Utah, whose theme song is "Remember the A-La-Mode", is America's Miss Dairy Princess. She was accompanied by Mrs. Anne Reeve, whose husband Lew is publisher of the Ocoola (Wis.) Sun. Mrs. Reeve is the chaperone for Carol's journeys about the country.

Miss Dairy Princess was introduced in the House, addressed the Senate, and was the recipient of complimentary resolutions from both branches of the legislature.

Then the lawmakers settled down to work again.

71 NEW PATROLMEN: A total of 46 new patrolmen now are manning Texas highways. These trainees have just graduated from the Law Enforcement Academy of the Texas Department of Public Safety. Also graduating were 20 drivers license patrolmen and five license and weight patrolmen. Presenting diplomas to the group was Co. Homer Garrison Jr., director of the department. He announced that there still are 73 openings on the force. Eligible to fill these posts are young men 21 to 35 years of age - and they are badly needed.

CITY BUSES LOSE OUT: Another cause, apparently lost for this year, is that of exempting city bus systems from the gasoline tax.

Rural area Sen. Wardlow Lane voted it down.

City spokesmen needed by low-income tax relief. Senate system went to taken over by the attack on "taking land Park" (a wasturb) when the state hard time finding the old age pension.

OPPOSES TAX: el asked the National Conference to join in an increase in the on gasoline.

Congress is considered Eisenhower's 15 cent per gallon pump new life into highway building program if it federal government plenty of money for program if it would gasoline tax money purposes. He said taxing should be left which need the more.

Earlier this year mentioned the gas possible source of future revenue. State presently 5 cents a al tax. 3 cents a gallon.
