A Chat with The Editor

Week marks the second anniversary of the Holdeman Implement Company in Wheeler. Making of the Holdeman Implement Company, Mr. Holdeman is his annual John Deere day, Thursday, January 19. He will be shown and free and doughnuts will be served.

Hutchinson and Lyndon are building a pickup cabin for the Riser. The cabin will be the bed of a pickup and has room for two people. On top it will be equipped with a cook stove, ice box and utility cabinets. The cabin is out of plywood and is in. Sure looks nice.

Sivage says there will be a new simplified income form. It will contain only 4 questions. How much was your income last year? How many dependents? How much do you have left? How much do you want?

Is the second anniversary of Vanpool-Burton Motor Co. moving into their new quarters across from Bill Chapman's Station.

WIN THE SQUARE: R. J. is limping around this week, gained his ankle while load-lifting tar-paper in his truck. D. Ware, Jr., has been painting and fixing up at the Ware place. Archie Hibler at the Implement Company, has used a new machine to help in the repair of tractors. The Lee and Harold Lloyd Lee is called a Hydra Gauge meter and it can diagnose anything that can't be diagnosed with a tractor. The Commers Court voted to pay a bounty for coyotes and a \$4 bounty for bobcats killed in Wheeler. The entire carcass of animal must be presented in to collect the bounty.

Bond Stamps have moved in here, they're replacing the Presidential Stamp plan. Lee and Harold Lloyd Lee attending the furniture show this week. (Continued on Page 8, No. 2)

Chos Throw Mustangs: Briscoe gym was filled to room only last Friday as Wheeler and Briscoe fans used two very exciting games. Briscoe girls won by a score of 58. They are now ahead in conference race with a 4-win record.

Points in the girls game made by Charlene Fulk, 44, Briscoe and Ruby Barton, 38, Wheeler. The Boys game high points made by Fred McCray, 13, for Briscoe and Monroe Page, 19, for Wheeler. (Continued on Page 8, No. 3)

BEACHHEAD: Mobeetie FHA girls are giving a show, "Beachhead" by Tony Curtis in color, Jan. 21 at the Highschool gym. It will also be a cartoon for 50c for adults and 25c for children, time, 7:30. Everyone is invited to come. (Continued on Page 8, No. 4)

SINGING CONVENTION: Dotson of Twitty announces this week that the regular County Singing Convention will be held Sunday, January 22, 2:00 P.M. The convention will be held in the Missionary Baptist Church at Shamrock. Everyone is invited to attend. (Continued on Page 8, No. 5)

PTA MEETING: Briscoe PTA has scheduled a meeting for Thursday night at 7:30 P.M. in the Briscoe auditorium. Mrs. Fred Blackburn will be in charge of the program. (Continued on Page 8, No. 6)

JOBS AVAILABLE: DPS has vacancies for qualified young men in the Department of Public Safety. Applications should be obtained at any Highway Patrol office and the deadline for receipt of the complete forms is January 10, 1961. (Continued on Page 8, No. 7)

POSTMEN BEGIN DELIVERY OF MARCH OF DIMES LITERATURE

The men who probably walk more than anyone else in Wheeler County carried a message of hope today from the 1961 New March of Dimes for many of their neighbors who cannot walk at all. Local postmen began delivery of envelopes that will allow Wheeler County residents to contribute by mail during January to the efforts of the National Foundation to prevent the crippling diseases of birth defects, arthritis and polio. "We hope our message brings speedy replies in the form of cash money orders, and checks, because March of Dimes contributions are desperately needed to finance National Foundation programs in patient aid, research and professional education," said Mrs. Sivage, campaign director. Approximately 250,000 American children are born each year with significant birth defects. These defects cripple more children than any other cause besides accidents.

CHILDREN'S PICTURES TO BE TAKEN FREE AND PUBLISHED IN THE TIMES

Monday, January 23 is the big day for the picture taking of your youngsters! The Times is having pictures taken of all children who are brought by their parents or other guardian to Nora's Cafe between 10 a.m. and 5 p.m. absolutely free of charge. The Times wants a picture of your child to print in its forthcoming feature, "Citizens of Tomorrow," a series of photographic studies of local children. The more we get the better the feature will be, so the cooperation of the mothers and fathers is urged. It often seems to parents that children are little one minute and are grown up the next, so fast does a child's growing stage pass. Here is a splendid opportunity to catch a likeness of your child or

HARRY WOFFORD TO COORDINATE ACTIVITIES OF LAYMAN'S MEET

Harry Wofford, the most prominent man in Wheeler, one of the most prominent personalities in the Panhandle and a very distinguished leader in Baptist Church Activities in Texas, will be in Plainview Monday and Tuesday, January 23-24 to coordinate activities of the 40th annual Panhandle Plans Pastor's and Laymen's Conference. Harry is the president of the organization. Also attending the meeting will be Frank Ross, pastor of the First Baptist Church of Wheeler.

Two Weeks Left To Pay Poll Tax

A report from the Tax Assessor and Collectors Office this week indicated that Wheeler County residents have less than two weeks to pay their poll tax, state, county, school and city tax without a penalty. All taxes paid during February will have a 1 1/2% penalty. January 31 is absolutely the last day to pay your poll tax, according to Tax Assessor and Collector Thurman Rives. Car tags will go on sale in Wheeler County February 1st. Wheeler County numbers will start with AS-5075.

Laws & Regulations — Grainger Melhoy and Tom Britt.

SOMETHING HAS TO BE DONE ABOUT VOTING

189 Wheeler County citizens failed to have their vote counted in the presidential election November 8. The votes were disqualified mainly because the voters had failed to scratch out the Constitution and Prohibition Party candidates. This figure, representing some 7 percent of the total vote of the county, and other statistical information pertaining to voting in this area, were released today from Republican State Headquarters in Houston. The results of the study have been revealed in an effort to apprise Texans of the dangers of careless voting, and to point up the peculiarities in our state election laws which have contributed to an abnormally high vote disqualification.

The report states that there are two election laws which contradict one another. Art. 6.06 of the Election Code provides that the voter shall mark out the names of all candidates he does not wish to vote for; but that the failure to do so shall not invalidate the ballot if the intention of the voter is clear in the opinion of the election judge. Art. 8.21, however, provides that no ballot shall be counted if the candidates for more than one party are left unscratched.

Since, as presently, both laws cannot be applied, the individual precinct judge is left with the burden of deciding which law is just. This inconsistency in the law has contributed to the irregular pattern of vote disqualifications between not only counties, but between precincts within counties.

For instance, within this county, returns from Precinct 7 showed no voters disqualified from a total of 110 votes cast, for a low rate of 0 percent. Precinct 3 on the other hand had 54 votes thrown out of a total of 371 cast or about 14.5 percent disqualified. Other illustrative figures in this county include Precinct 11 with 39 percent votes not counted; Precinct 12 with 3 percent not counted; Precinct 5 with 14 percent not counted; and Precinct 1 with 14 percent disqualified.

The report pointed out that even under ideal conditions it is reasonable to expect a small percentage of votes to be improperly marked. However, in the opinion of the investigating group, human error could not be responsible for such (Continued on Page 8, No. 5)

LAST RITES HELD FOR SPENCER DAVIS

Funeral services were held Wednesday, January 18 in the Wheeler Methodist Church for Spencer Bert Davis, longtime Wheeler County resident. Rev. Rakestraw of Borger assisted by Rev. Robert Ely and O. C. Evans officiated. Spencer Bert Davis was born on June 25, 1886 in Tennessee and he passed away Monday, January 16 in Borger, Texas. He was 74 years old.

Mr. Davis came to Wheeler County from Vinson, Okla., in 1919. He served as commissioner of precinct 2, past master of the Masonic Lodge in Wheeler and a member of the Wesley Methodist Church at Borger. He has lived in Borger for the past 8 years. (Continued on Page 8, No. 3)

BRIG. GENERAL JERRY LEE TELLS OF COMMUNIST THREAT

One of the largest crowds ever to attend a Chamber of Commerce banquet in Wheeler gathered at the Highschool Cafeteria in Wheeler Tuesday night and watched as Watson Burgess, local Southwestern Public Service Manager, installed the new officers.

Department Of Public Safety Announces Grim Record For Wheeler Co.

The chimes at midnight, December 31, 1960 dealt the death blow to "Old Father Time". But the echoes and visions of his destruction, grinding metal bodies crashing glass, broken limbs and smashed lives still haunt us. His record in Wheeler County has been an impressive one.

In December the Texas Highway Patrol investigated 11 rural traffic accidents in this county. These wrecks accounted for 11 persons killed, 4 injured and a property damage of \$4,962.00. For the entire year of 1960 in this county there were 70 accidents accounting for 4 persons killed, 52 injured and a property damage of \$33,017.00.

In comparison of the year 1959 there were 77 accidents accounting for 1 person killed, 60 injured and a property damage of \$40,475.00. "Texas Department of Public Safety closed its operation Death-Watch period of ten days at Midnight January 1, 1961 with 83 traffic deaths as compared to 97 during the holidays the year before. With late deaths of those critically injured, the figure is expected to come close to the predicted 90 motor fatalities," stated Highway Patrol Sergeant E. C. Alvors.

City Election To Be Held April 4th

The City election in Wheeler will be held on Tuesday, April 4th. Election judges will be appointed later. The terms of Councilmen Wayne Edwards and Jake Holcomb will expire. Holdover councilmen include W. D. Mitchell, James Verden and Mayor Thomas Daughtry. (Continued on Page 8, No. 12)

Garrison and Rives Attend Kiwanis Meet

Jack Garrison, the newly installed president of the Kiwanis Club, and Thurman Rives, secretary of the club, attended the Kiwanis Mid-Winter Conference of the Oklahoma and Texas District in Fort Worth Sunday. The meeting was held in the Texas Hotel. Mrs. Jack Garrison and Mrs. Thurman Rives accompanied their husbands on the trip. (Continued on Page 8, No. 13)

Local Men Attend IOOF Circle Meeting

Joe Rogers, Thurman Rives, Lloyd Wayne Weatherly and John Vise attended a Circle IOOF meeting in Pampa Monday night. Following the business session, Joe Rogers, of Wheeler, was installed president of the Circle Meetings and John Vise, also of Wheeler, was installed secretary of the organization. TWITTY NEWS

By J. Lloyd Rice
Mrs. Frankie Stevens is very low. She is being well cared for by loving friends and family. Friends and relatives from distant places have come in to offer sympathy and assistance. People of the Twitty community are helping out in many ways. This is a wonderful thing about a rural community. When one citizen faces an emergency the whole community is ready to lend a helping hand. People in American Rural communities prove their love and appreciation for one another in many practical ways. They know and appreciate each other much more than people in great cities.

We all know that cars are killers. We hear of people killed every day in traffic accidents. We see death along the highway so often that we think little about it. Dead rabbits, birds, even snakes meet their doom in the most dangerous area in the world, a public highway.

We all know these things, but think little about it until someone of our friends, or loved ones is smitten down. Or maybe, until a beloved pet of our own has lost its life.

It came to me forcefully today, Jan. 16, 1961, when I reached home and found that I had lost a faithful little friend.

He was just a little dog with a brown saddle on his white back, and brown eyes that spoke volumes of love when he looked at me. He would follow me and fight for me and show his love for me in every way, he knew how. I cut his tail off when he was just a little puppy, but he would still wiggle that little stub, and show his pleasure everytime I spoke to him kindly. When he was naughty and I scolded he would show his hurt. Nothing would please him more than to bounce into the pickup seat for a trip to the pasture with me and the girls. He was a lot of fun.

I feel like the little boy who prayed, "Oh God, if you don't want him, I'd be glad to have him back."

MARRIAGE VOWS ARE READ FOR SANDRA SCHADE AND R. E. WYANT

Marriage vows were taken December 26th at Avondale Methodist Church by Miss Sandra Louise Schade and Ralph Earl Wyant.

Doctor W. S. Sparks performed the double-ring ceremony in which the bride was given in marriage by her father. She is the daughter of Mr. and Mrs. Robert M. Schade of Boone.

The bridegroom's parents are Mr. and Mrs. I. E. Wyant of Briscoe, Texas.

For the cond light services the church was decorated with poinsettias and greens. Mrs. Carl Duncan played traditional music on the organ and accompanied William Beidle who sang "O Lord Most Holy" and "The Lord's Prayer."

The bride wore a pretty ballroom gown of satin in a large V and had a small collar. Small covered buttons bordered the V to the waistline. The gown had long sleeves. A flowered headpiece held her bouqant veil. She carried a colonial bouquet of white carnations with red sweetheart rose and carnations.

The bride's attendants wore sapphire brocade dresses patterned after the bridal gown. Miss Evon Cole, maid of honor, wore red and carried green carnations. Miss Ardith Ann Schade, bridesmaid for her sister, wore green and carried

red carnations. The bride's mother was attired in a light blue brocade dress. The bridegroom's mother wore a mint green embroidered dress. Both had corsages of white carnations.

Bennie Wyant of Briscoe was best man for his brother, and Freddie Huskins, cousin of the bride, was the escort. Frank McLaughlin helped seat the guests.

A reception for more than 100 guests was held at the church. Miss Sue Martin was in charge of the guest book.

The refreshment table held a three-tier cake and Christmas candies. Serving the guests were Mrs. Frank Morgan of La Junta; Mrs. A. E. Hunter of Boone; Mrs. Fred Huskins, Mrs. George Byrd, Mrs. William Schade, and Mrs. Theama Schade, of Pueblo, all aunts of the bride.

Mrs. Wyant was graduated from Pueblo County High School and now attends Pueblo College. Her husband was graduated from high school at Briscoe and served two years in the Army. He is employed at Pueblo by the Triplex Corporation.

The out of town guests included Mr. and Mrs. Elvis Wyant of Pema, Tex.; Mr. and Mrs. I. E. Wyant, Mrs. Cecil Meadows and children and Bennie and Eugene Wyant, all of Briscoe.

The "car of the year"

Overwhelming acceptance of the new 1961 models introduced last fall—together with the tremendous success of the '60 Chevrolets—has sent Chevrolet passenger car sales to an all-time yearly high. More new Chevrolets and new Corvairs were delivered to more people during the past year than ever bought any make of car in a single year before. We and your Chevrolet dealer

thank you for your continuing confidence in, and preference for, Chevrolet. Your record-breaking purchases of Chevrolets have significance to everyone thinking of buying a new car this year, and—since sales of new 1961 Chevrolets and Corvairs continue at record-breaking levels—are a healthy indication of the inherent strength and vigor of our national economy.

Guide lines from NACCA

Junior and his kid sister may see the inside of a first-aid station before they see the moon on their toy rocket if some of the tricky small-fry space age toys are not soon improved by their designers.

This warning has been issued by the National Association of Claimants' Counsel of America, a nationwide group of 9,000 attorneys who are launching a new program of consumer protection throughout the U.S.

The NACCA Bar Association has urged makers of mechanical and chemical toys to exercise "utmost care" so that a fun-time toy does not become a painful weapon.

Real court cases have shown that toy airplanes powered by carbon dioxide gas pellets can cause injuries and toy darts, airplanes and catapults have figured in many suits in the past.

Those involved with making youngsters' playthings have to remember that engineering geniuses of three can't read and even if they could, wouldn't use the same common sense as an adult.

It's quite possible Junior may hit on an exotic use for his new atomic missile gun that the maker never foresaw but should have — like squirting Mom's best perfume into Baby Sister's eye with it. And when the little toddler starts tasting the new toys and chewing their paint off — well, says the NACCA, that's the time for the toy manufacturer to take extra steps to protect His Royal Highness, the Baby Consumer.

SWEETWATER PHILOSOPHER SAYS LAGS WILL HAVE TO SURVIVE WITH HIM BEING IGNORANT OF ITS WOES

Editor's Note: The Sweetwater Philosopher on his Shinnery grass farm on Sweetwater creek discusses ignorance this week, something he may have first-hand knowledge of.

Dear editor: I don't know about the rest of you, but there are too many countries in the world for me to keep up with.

Just this morning I was talking with a man in town who considers himself pretty well informed and after asking me how I was getting along he said, "Well, how does the situation in Laos look to you?"

Laos? Thunder, how do I know what's happening in Laos when I don't even know what's happening in Hemphill County?

By the time I half-keep up with what's happening in Wheeler County, in Austin, in Washington, and on the Shinnery grass farm, plus a few sidelights and headlines on Moscow, Cuba, and England and France and Germany once in a while, I just don't have any time left for all those other places, especially when at least half of what I learn about most of the places mentioned turns out to be unreliable anyway.

I figure if I learned enough about all the countries that have been in the news lately, such as Algeria, Laos, Belgium, the Congo, Guatemala, etc., to know what was happening, I learned enough about them to know who was president of which and what side he was on, plus who was after his job. I wouldn't have time to do a bit of farming this year, and any time I get too busy to farm, I'm going to do it with something more interesting and satisfying than studying geography. I'd rather be too busy fishing to farm than too

Redheaded Twins are Latest TV Discovery

The Earl Twins, Ruth and Jane, have a busy life ahead. These redheaded Iowa twins danced into television fame on Fred Astaire's last show, "Astaire Time". They did a specialty dance with Fred involving a mirror without glass. Following "Astaire Time" they went into production for "The Sounds of America" — and you see them here at Disneyland, which will be used for a background for the show, rehearsing with Gene Nelson, left, and Jacques D'Amboise. "The Sounds of America" will be telecast over NBC-TV on February 17th, just three days before the repeat of "Astaire Time", which will appear in full color over NBC-TV on Monday, February 20th.

Good Car Keeping Tips

by Vernon Volland

In winter driving it is as important for motorists to check shock absorbers as it is to inspect brakes, tires, batteries, and radiators, as faulty shock absorbers can cause six major difficulties.

The difficulties are: uncontrollable wheel bounce; skidding and side-sway; the driver "hitting the top"; wheel shimmy; broken springs; and tire wear.

The Institute, headquartered in Chicago, is a not-for-profit organization representing the automotive industry, and encourages the concept of "happy motoring". This concept includes not only having a safe trip, but an enjoyable one, as well.

In uncontrollable wheel bounce the wheels of the car actually leave the pavement, causing a dangerous and uncomfortable condition.

Skidding and side-sway often cause an upset or collision when the car is on a curve. The bad shocks can't control the added weight thrown to the outside two wheels, particularly at high speeds.

With bad shocks a car can bounce so violently that the driver and passengers may hit the roof and cause serious injury and loss of control. Even if the bounce isn't too severe, there will be a shimmy or vibration in the wheel making it extremely unpleasant.

Very often broken springs and worn tires are caused by faulty shocks. After a car hits a bump the added weight of the body crashes down on the chassis if not absorbed. Furthermore, the tires wear faster by being forced to absorb the jolts of the car's weight. When one shock fails, all wheels and tires are given unbalanced wear.

There are seven ways the motorists can check for bad

shock absorbers. The way to do this is to ask yourself these questions when you drive:

1. Do you have soft steering when your car "floats" or bounces on rolling roads?
2. Do the springs hit "bottom" on rough roads?
3. Do you lean sideways on a turn?
4. Does your car "shimmy" or "tramp" on corrugated or cobble roads?
5. Does the car "nose dive" when you apply the brakes quickly?

6. Does the car have body noises as the result of continuous vibration?

7. When you stand on the front bumper and bounce your car, releasing it at the bottom of the bounce, does it continue to bounce up and down?

If the answer is "yes" to any of these questions then you know you had better change shock absorbers before you damage your front end, steering, radiator, tires and other parts.

The Institute has learned that the best way to get into the Good Car Keeping habit is to develop pride in one's car, and the best way to do that is to start out by keeping it clean.

Be sure your car is well waxed or polished and that the interior is protected with seat covers and floor pads as there is no other way to keep the inside clean, now, or at any time.

Tips for OUTDOORSMEN

To Tighten Axe Handle

You can tighten the handle on a loose axe head by soaking end of handle in oil for an hour. Handle end will swell. Then you can affix head tightly and permanently to it.

Use Light Loads

Many hunters shoot better with light loads when hunting upland game.

Because of the lesser recoil they fly less and therefore make more kills. And the cost of light load ammunition is less.

Save your long-brass shells for coveys, ducks, and other long-range targets.

To De-Burr Dags

Next time your setter or spaniel comes in from the field with its coat full of cockleburrs, remove them with a two tined kitchen fork. The burrs can be removed in jig time, without so much as a yip from the pooch.

Locating Lost Arrows

If you are new at archery and lose arrows, try touching them up with fluorescent paint that will glow in a flashlight's beam, then look for them after dark.

Loaded or Empty?

Sometimes it is difficult to tell when the magazine of a 22 repeater is empty. To correct this, dab a bit of red nail polish on the end of the magazine. When the last bullet has been used, red will be plainly visible.

Plastic Bags Protect Shells

Duck hunters often are troubled by shells becoming wet and swollen. Next trip out, carry your shells in plastic bags to avoid this trouble.

Good Crow Decoys

Stuffed oxen, fox skins, leashed tame cats and dead crows tied in trees all make good decoys. But these decoys should be placed far enough away from your blind so that incoming crows won't know you are anywhere around—even when you start shooting.

Car Trunks and Bird Dogs

You bird hunters who carry your dogs in the car trunk should keep the car trunk closed, rather than partly open for ventilation. Open tops only suck in gas fumes.

Close the top and "air" the dogs at regular intervals.

To Improve Taste of Water

Boil any doubtful water. To overcome the flat taste that boiling leaves, pour the water back and forth several times from one container to another. This restores the air which is responsible for the taste in water.

NEW DAUGHTER

A baby daughter was born to Shamrock Sunday, January 8th at Mr. and Mrs. Bill Burden in 9:36 A.M. in the Shamrock Hospital. The little lady was named Shari Michelle.

Up Staged by a Fishing Reel!

In their upcoming comedy about a marital mix-up, Bob Hope and Lucille Ball discover the "Facts of Life" when a marlin takes the bait at the other end of their Garcia-Mitchell reel and rod. Bob and Lucy find they've not only caught the fish but themselves in a tangle as you'll see in the film.

HIGHLIGHTS AND SIDELIGHTS FROM YOUR STATE CAPITOL

AUSTIN, Tex. — Texas' 57th Legislature began on a note that's likely to continue for sometime—difficultly over money.

Many House members felt their colleagues had made an awkward start in an awkward situation when they voted themselves salary raises as the first item of business. House voted 97-10-45 to put into effect the \$4,800 a year legislative effect the salaries made possible when the people approved a constitutional amendment last November.

Objectors were quick to point out that (1) the state general re-estimate fund was at that moment \$85,249,951 in the red and (2) many lawmakers campaigned on an "economy in government" platform.

Rep. Raybond Bartram of New Braunfels said he felt that people would rather legislators take care of teachers salary raises and need-ful assistance for the aged before spending extra money on themselves.

H. B. 1, the legislative salary and expense bill, would divert some \$2,600,000 from the cigarette tax and drivers license funds. Money had to be "found" since the general revenue fund, as fast as it comes in, has to be used to pay the state's "hot checks."

Down the road are even more fireworks as the legislature searches for \$200,000,000 plus to take care of the wants of other state agencies and services.

TRIPMAN SPEAKER—Farmers and teachers have one of their own in one of the most important state offices.

Rep. James Turman of Gober was elected Speaker of the House by a vote of 83-10-66. Rep. Wade Spidman of McAllen, whose support was largely from conservative House members was the legislative candidate.

Turman and his family operate a 103-acre farm in Fannin County. He is a former grade school teacher and worked his way to a doctor or philosophy degree in education. For a time he was assistant to the president of Texas Women's University at Denton.

As Speaker, Turman's first job is appointing House committees, due to go into action about January 23. By his selections, he can influence to a considerable degree how certain legislation will be handled.

SENATOR ROBERTS HONORED—Sen. Ray Roberts of McKinney is president pro-tempore of the Senate for the present session.

His job largely honorary, is to preside over the Senate in the absence of the lieutenant governor. Also, he is second in line of succession to governorship. By tradition, during each president pro-temp's term, the governor and lieutenant governor leave the state so the president pro-temp can serve a "governor for a day."

SENATOR ROBERTS, a World War II Naval hero, is a farmer and doctor.

CRIST FOR THE MILL—Texas Legislative Council, an influential joint House-Senate study group will offer a mass of proposals for new legislation.

Among recommendations: 1. Some streamlining but not wholesale re-writing of the state constitution. This will be a disappointment to groups wroing for steps toward a new constitutional convention.

2. Limitations on the annexation powers of cities and towns.

3. Increased facilities for juvenile guidance and care, including a home for delinquent Negro children, facilities for mentally ill juveniles and regional training centers for delinquent youths.

4. Higher maximum coverage for automobile insurance. Present minimum is \$5,000. Raise to \$10,000 or \$20,000 was suggested.

Another study group, a special Senate committee, recommends removal of some of the restrictions on investment of the permanent school fund. It suggests investments in corporate securities and real estate mortgages, guaranteed by the federal government.

COLLEGE BID REJECTED—Commission on Higher Education does not favor making Del Mar College in Corpus Christi a senior college.

Commission has agreed to study requests for senior college status and state support for Pan American College at Edinburg and San Angelo College.

On Del Mar, the Commission will make its negative recommendation to the Legislature which will have the final say. In the past, the Legislature has approved more such requests than the commission.

NEW STATE BUILDING—Contracts have been awarded for construction of a second new State Office Building just north of the Capitol. It will be a four-story granite building with 147,205 square feet. Cost is to be \$2,076,102. It will be known as State Office Building No. 2 and will house the Game and Fish Commission, State board of Plumbing Examiners and some other agencies now scattered over Austin.

This is one of six buildings in the current program to create a unified government center, clustered around the state capitol. Already in use are State Office Building No. 1, the State Courts Building and the Texas Employment Commission Building. Archives Building is to be finished soon, and a new Insurance Building is due to start this year.

DECENTRALIZATION SET—State Game and Fish Commission has voted to set up a system of five regional and 20 district offices to improve operation of its

field service. Reorganization plan was recommended by the Texas Research League, a privately financed organization to study operation of governmental agencies.

Regional offices will be at Seabrook, Rockport, Tyler, San Angelo and Waco.

District offices will be at Amarillo, Beaumont, Bryan, Houston, Victoria, San Antonio, Edinburg, Corpus Christi, Lubbock, El Paso, Wichita Falls, Midland, Fort Worth, Temple, Brownwood, Kerrville, Dallas, Texarkana, Palestine and Lufkin.

You And Your Taxes

Uncle Sam is not the only one spending your tax dollars by the billions.

A study of the Historical Summary of Governmental Finances in the U. S., published by the Bureau of the Census, shows that local government expenditures have been increasing at the average rate of 9.4 per cent each year—up, up, up until they have reached an estimated \$37.8 billion in 1960. And the upward trend is still with us.

From another source, the National Research Bureau, comes word that the total and local debt has also steadily rising, from \$121 billion in 1950 to \$54.6 billion in 1958, the last year for which figures are available.

Here's what the National Research Bureau pamphlet says: "Many state and local governments find themselves with tremendous present extended spending. This spending may be in the form of new schools, new roads, or a program. The only way these programs can be financed is through increased revenue. This revenue may come in the form of higher taxes, or in the form of a rise in tax payments, which amounts to the same thing. The cost will be borne by the people. The fact makes it absolutely essential that every citizen examine each new spending measure that is introduced, state and local government."

That is basically the message Home Owner is trying to get across. He attempts to induce the taxpayer to make known to local officials what he does not want to buy and for in local government. Taxpayers are heard, they really ask for less government spending, reduced taxes and honest attention of public officials to their problems. It was founded on the theory that many local government functions and services can be eliminated or performed, as well or better by private individuals.

There is certainly a need for a voice on the side of individual initiative vs. expansion of government services.

That figure of \$37.8 billion for local government spending in 1960 was only \$16.1 billion in 1950, astounding as that may seem! If it continues its upward trend at the rate of nearly 10 per cent every year, where will the taxpayer be? What will he have left?

Even more distressing, the local governments are spending the money faster than they're taking it in! While the average rate of increase in expenditures was 9.4 per cent, the average rate of increase in revenues

was 8.4 per cent for every year since 1950. Estimated revenue for 1960 were \$37.4 billion compared with \$17 billion in 1950.

Even more distressing, the local governments are spending the money faster than they're taking it in! While the average rate of increase in expenditures was 9.4 per cent, the average rate of increase in revenues

LEGAL NOTICE

CITATION BY PUBLICATION

THE STATE OF TEXAS
TO: Lee F. Miles, Defendant.

Greeting:

YOU ARE HEREBY COMMANDED to appear before the Honorable District Court of Wheeler County at the Courthouse thereof, in Wheeler, Texas, by filing a written answer at or before 10 o'clock A.M. on the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 28th day of December A.D. 1960, to Plaintiff's Petition filed in said court on the 28th day of December A.D. 1960, in this cause, numbered 5011 on the docket of said court and styled **Lavelle J. Miles, Plaintiff, vs. Lee F. Miles, Defendant.**

A brief statement of the nature of this suit is as follows, to-wit:

The nature of the plaintiff's suit is to dissolve the marriage relation now existing between plaintiff and defendant and that plaintiff be divorced from the defendant, Lee F. Miles, on the grounds of cruel and harsh treatment of the defendant toward plaintiff, which renders their further living together as husband and wife, insupportable.

as is more fully shown by Plaintiff's Petition on file in this suit.

If this citation is not served within ninety days after the date of its issuance, it shall be returned unserved.

The officer executing the writ shall promptly serve the same according to requirements of law, and the mandates hereof, and make due return as the law directs.

Issued and given under my hand and the seal of said court at Wheeler, Texas, this 28th day of December A.D. 1960.

LEGAL NOTICE

(To appear in four consecutive issues of the Wheeler Times: Jan. 5, 12, 19, and 26.)

Notice Of Hearing

To

Appropriate Public Waters

Of The

State Of Texas

Notice is hereby given to whom concerned that Clifford Walser, the postoffice address of whom is Mobeetie, Texas, on the 19th day of December, 1960, filed his application in the office of the Board of Water Engineers for the State of Texas, in which he applies for a permit to appropriate the unappropriated waters of the State of Texas, from Gageby Creek, a tributary of Washita River, it being a tributary of the Red River, in Wheeler County, Texas, a total of 180 acre feet of water annually, by impounding 350 acre feet in an on channel reservoir previously constructed by the Soil Conservation Service, for the irrigation of 90 acres of land in the Houston and Great Northern R.R. Company survey, Section 21, Block M1, Wheeler County, Texas, all being more fully set out in said application.

The earthen dam is located at a point which bears South 3 degrees East 558' from the northwest corner of the Houston and Great Northern R.R. Co. Survey, Block M1, Section 21, on the north bank of Gageby Creek in Wheeler County, Texas, and is distant in a northwesterly direction from Briscoe, Texas, about 7 1/2 miles.

A hearing on the application of the said CLIFFORD WALSER will be held by the Board of Water Engineers for the State of Texas, in the office of the Board at Austin, Texas, on MONDAY, FEBRUARY 8, 1961, beginning at ten o'clock a.m., at which time and place all parties interested may appear and be heard. Those opposing the granting of said application should file written protests with the Board and the applicant at least five days prior to hearing date, giving their reasons therefor and such other information as is required by Board Rule 305.2. Such hearing will be continued from time to time, and from place to place, if necessary, until such determination has been made relative to said application as the said Board of Water Engineers may deem right, equitable and proper.

Given under and by virtue of an order of the Board of Water Engineers for the State of Texas, at the office of the said Board at Austin, Texas, this 19th day of December, 1960.

Darwood Manford, Chairman
State Board of Water Engineers

STATE'S ECONOMY MATERIALLY AIDED BY 7-STEP COTTON PROGRAM

College Station, Jan. 19 — The economy of Texas was materially aided in 1960 by the 7-Step Cotton Program, initiated 13 years ago by the Texas Agricultural Extension Ser., program brings together on the county and state basis committees representing every segment of the cotton industry and all have worked together for needed improvements.

Fred Elliott and Glenn Black, extension cotton specialists, in their 1960 annual report point out some of the year's outstanding results. They say the state's cotton producers saved an estimated \$65.2 million in labor costs by harvesting more than 50 percent of their crop with machines. Another \$26.4 million was saved through the use of mechanical and chemical grass and weed control methods.

Despite unfavorable weather conditions at different times during the year, producers came up with the third highest average lint yield per harvested acre on record, 329 pounds. Since 1946, the yield figure has climbed from 134 pounds per acre.

Number Two

Gold Stamps are in Wheeler. Clay Food, P&G Laundry, Deluxe Cleaners and Albert Chapman have purchased the stamp plan.

Frank Walker has the ball rolling toward construction of a community fair building for Wheeler. Arrangements have already been made for the land and prices are being secured on the construction of a building.

The building will be financed through donations, anyone desiring to contribute toward the project should contact Frank Walker.

While attending the Chamber of Commerce banquet Tuesday night I couldn't help but notice those in attendance who have contributed so very much to our community.

Wheeler is indeed fortunate to have so many persons working toward the betterment of the community.

One family in particular should be recognized, Mr. and Mrs. C. B. Kirk, dollar for dollar and hour for hour. I imagine Mr. and Mrs. Kirk contribute about as much to our community as anyone. They answer all of the fire alarms and also furnish information on the changing weather. I sometimes wonder just what would become of Wheeler if some of these old stand-bys should ever quit.

And speaking of stand-bys... We have A. B. Crump, everyone knows the terrific load he carries; Harry Wofford has a never ending task of community and church work; Dr. Nicholson is another; H. M. Wiley has helped in many ways; James Verden is a top man and Frank Wofford is always quick to help with any community project.

Sometimes it is easy to criticize these men because they are in the line light so often, but I for one sincerely appreciate the fine work they are doing for our community.

Golly, things are poppin in Wheeler... A Wellington man is planning to open a service station and sporting goods store... Numerous rumors have been scattered about town this week in regard to the Phillips Petroleum Company, they are supposed to be planning some improvements for Wheeler... Boyd Austin and Lonnie Kenney are coming right along with the new welding shop... Another man is talking about opening a business in Wheeler which will draw hundreds of persons into Wheeler. I am not at liberty to announce the nature of the business, announcement should come next week.

If you have a house for rent, give me a call, several families are looking for a place to rent.

Wednesday Study Club Has Regular Meeting

The Wednesday Study Club met with Mrs. Fred Farmer January 1961. Mrs. Max Wiley gave the Federation report.

The subject for the day was Gerontology. "To be Seventy years young is far more cheerful than to be forty years old." Oliver Wendell Holmes.

Mrs. H. M. Wiley led the program and read on original paper entitled "Making the Most of Your Years." Mrs. Harry Wofford gave "The Older Person in the Home," with many amusing stories from her experience.

Mrs. Carl Laffin gave us a world of good advice about "Making a Good Mother-in-Law and Grandmother." Mrs. Van Zandt presented wise counsel in "Words of Wisdom."

The specialists added that county agents in 307 Texas counties gave assistance to producers on a multitude of problems. Among the major ones were the use of cotton burs for soil improvement and ton burs for soil improvement and reduce fire hazards. Burs were spread on 10,485 farms in 140 counties. A few years ago most of the burs were burned as waste. Each ton of burs has an estimated fertilizer value of \$7.50 and their application has increased yields by 25 percent.

The use of defoliant and desiccants for preparing cotton for mechanical harvesting continued to expand. One or the other was used on 49,041 farms in 166 counties. A comparatively new device, the moisture meter was used in 29 counties to improve quality. The 103 meters in use helped farmers and ginners do a better job of machine harvesting and ginning through more careful attention to the moisture content of the cotton in the field and at the gin.

The extension entomologists working as members of the 7-Step Cotton team reported that county agents conducted 2,251 cotton insect control result demonstrations and that 35,508 growers followed recommendations and treated 3,708,314 acres.

To carry the information required to keep the 7-Step Program moving forward, a team of extension specialists composed of the cotton specialists and at times other staff specialists, conducted 152 training meetings in the counties. Growers attending these meetings numbered 11,372 and county agents held another 1,788 meetings on the community and county basis and reached 43,740 growers and others.

To implement the meetings and tours, Elliott and Black said the local agents also prepared more than 1,800 timely news stories on cotton, appeared on 1,910 radio and 39 television programs.

To save on labor costs, the specialists said tremendous investments are made by cotton grower in machinery and other production items. Last year alone, producers invested over \$26 million in new picking and stripping machines. They used 32,042 strippers harvested in 152 counties and 4,505 spindle pickers in 110 counties. They operated 46,360 rotary hoe equipped tractors in 172 counties; spotted 194,427 acres of Johnsongrass in 158 counties; spot sprayed Johnson grass with water carried chemicals in 65,649 acres in 136 counties and in 75 counties lateral oiling was used on 71,184 acres to cut the hoe bill by as much as \$25 an acre.

The specialists give full credit to the county 7-Step Cotton Committees and the county agents of Texas for the outstanding records made in 1960 but emphasized that the cooperative efforts of all segments of the cotton industry will continue to be needed to keep the program moving forward.

wild fluctuations in vote "throw out". Instead, they credit the ambiguous election laws for these big variances.

In the whole state variations of from no "throw out" in 411 precincts to as high as 63 percent of the votes disqualified in one precinct in Anderson County were cited.

The fact that only 1 1/2 percent of the votes were disqualified in Starr County as opposed to a 25 percent "throw out" in Waller County would further indicate that irregular interpretation of the Election Code was a factor.

Purpose of the report to each county from Republican Headquarters was described as non-partisan, and in no way intended to reflect on the recent election contest. The objectives of the report, which would benefit either party, were:

1. Make the public aware of the necessity of voting carefully and properly.

2. Arouse public sentiment for modernization and simplification of existing Texas election laws through action by the Texas Legislature.
