MUSTANGS VISIT McLEAN FOR FIRST DIST GAME

After two victories by shutout margins, the defending champion Wheeler Mustangs open district play Friday night in McLean as they take on the Tigers.

The 0-1 Tigers on paper should not

be that much of a hurdle for the Mustangs but stranger things have happened on the football field and over confidence will be something that the Mustangs will have to guard against.

Wheeler came out of the Shamrock game with no new injuries and should be in their best physical condition of the year. Starting offensive guard Ted Moore will probably see his first action of the year. Quarterback Ran-

dall Hugg has been nursing an ankle injury since pre-season but is nearly 100% physically.

Coach Preston Smith was pleased with his team's effort in their big win over Shamrock but said this week, "We are starting district play now and that is what counts and we have to concentrate on winning the games that are ahead of us and forget what we did in our non district games."

McLean will field a better ball club

MUSTANGS SLAM IRISH, 48-0

Wheeler Mustangs continued on their winning ways in easy fashion last Friday night when they pounded the hapless Shamrock Irish in Shamrock to the tune of 48-0.

The state's number 5 ranked team in Class A could have made the final score much worse but Coach Preston Smith put his first team offense on the bench in the second half and turned

the offense over to the reserves. The Mustangs backup offense put three touchdowns across but penalties cancelled two of them and this kept the score from being worse.

Wheeler scored every time they had possession of the football in the first half as they fashioned a 41-0 lead with fullback Dickie Salyer scoring four times and tailback Toby Collins going over twice.

The Mustangs smothering defense literally shut down any semblance of offense on the part of the Irish as the hosts gained only a total of 19 yards in the game and the Irish were held to a minus 3 yards rushing. Shamrock never had the ball on Wheeler's side of the 50 yard line as the Mustangs fashioned their second shutout victory of the year.

Wheeler took the opening kickoff

and scored in 10 plays with Salyer going over from the 3 to start the avalanche. So devastating were the Mustangs, the Irish were down 20-0 and had only run eight plays on offense. Toby Collins swept right end for a 56 yards on the Mustangs second possession of the pigskin and he got his second TD with a 4 yard burst at left tackle one play deep into the second quarter to culminate an 8 play, 44 yard drive.

Playing only two quarters, Collins and Salyer each picked up over 100 yards rushing as the Mustangs ground out 364 yards on the ground. Reserve tailback Cody Wiggins and reserve fullback Grayson Benson continued the Mustangs ground pounding in the second half with 65 and 50 yards gained respectively.

Wheeler didn't have to go the airways but they did three times and each time quarterback Randall Hugg was right on the money with the completions keeping scoring drives alive. Hugg was under a lot of pressure in the game as he was up against his old teammates but the transfer signal caller coolly directed the Mustangs to their big halftime margin.

Two of Hugg's tosses were hauled

CWE CHAT WITH EDITOR

By Louis C. Stas

Frank and Leona Coates have returned from their cruise on the "Love Boat"; they also visited some Alaskan Islands. I 'happened by' just as they were showing pictures from the trip to Ida Mae Goad; my timing saved Leona the trouble of going through all the pictures and trip a second time. She only had about 8 'commercial type' pictures. There was a good reason for the limited number of pictures; the Coates' camera with several rolls of film to be used on the trip was at home in Wheeler. They had discovered having left the camera just before boarding the plane in Amarillo; so they just relaxed and enjoyed the trip with a promise from fellow travelers of additional pictures and a VCR tape.

Ida Mae wanted to know why I had failed to print a story on her having won a golf tournament. Congratulations, Ida Mae; I will have the "rest of the story" when I get the rest of the information.

Another item I just got the information on was the Burton's trip to Nashville for the showing of the 1986 Lincolns and Mercurys; the trip was August 22 thru 29. Accompanying the Burtons were R. J. and Georgia Smith of Wheeler and Bill and Betty Harris of Pampa; Bill Harris is the manager of Heritage Ford Lincoln Mercury, Inc. in Pampa. The group stayed at the Opry Land Motel in Nashville.

-cwe-

If you have missed Gary Don and Tracy Burton at Speedi-Mart, they are in Hawaii for a week or so. The couple left Sunday morning to attend the showing of the 1986 Fords. On Wednesday they were scheduled to leave Honolulu and travel to Maui for 3 or 4 days vacation. Bill and Betty Harris also made this trip.

-cwe-

I stopped by Southwestern Public Service to check into the possibility of a picture of the 'old and new'; Betty and Gwen both disliked that idea. Betty commented we were all too near the same age for me to call her old and Gwen said she was not new. Betty Kreyling will be leaving her job at SWPS after some 20 years; husband, David, was transferred to Dumas. Gwen Weatherly will be taking over the duties; Gwen was most recently employed at Wheeler Care Center and had also spent some time as a secretary at Wheeler Public Schools in years (not too many) past. The Kreylings will be missed, but we wish you the best.

-cwe-

My thanks to Margaret Dorman for the pictures of the "Kid's Day" activities; she did an excellent job. We will run as many as possible.

I visited Jimmy Hill Tuesday morning, while making my 'rounds'. I inquired of Bobbye and law school; she is continuing her education at Lubbock and enjoying the hard work. Jimmy is here, running the house,

Mobeetie Postmaster

Attends Convention

Mobeetie Postmaster, Ada Lou Lester, attended the 81st Annual Convention of the National Association of Postmasters of the United States (NAPUS) held September 9 through 12, at Las Vegas, NV. Postmaster Lester said the city that boasts of sun and fun was also a city of work and training for more than 5,000 Postmasters who attended.

The Private Express Statutes which allows the Postal Service to deliver a first-class letter anywhere in the United States for the same cost, and the threat of closing small Post Offices were among the important issues discussed during the four day meeting held at the Las Vegas Hilton.

NAPUS National President Thomas P. Costin, Jr., Lynn, MA, said that postage rates could jump as high as \$1.50 a letter "or more" if Congress passes bills to allow private businesses to deliver the first class mail. The Postal Service would have to raise the rates to break even and continue delivery in rural areas while the private businesses would deliver in only the profitable areas such as the large cities.

Costin urged the Postmasters to make their customers aware of the critical issues on Capitol Hill. He stressed that it is Congress who is making these decisions, not the Postal Service.

Also attending the convention were Postal and Congressional Officials who included Postmaster General Paul Carlin, Deputy Postmaster General Jackie Strange, Congresswoman Mary Rose Oaker and members of the Board of Governors of the Postal Service (You may include names of dignitaries listed in the convention agenda).

Hugh Bates, Clanton, Alabama, was elected during the convention to succeed Costin as head of the NAPUS Organization in 1986-87.

Postmaster Ada Lou Lester is Deputy Director-District V of the Texas Chapter.

McCORMICK-CHRISTNER EXCHANGE WEDDING VOWS AUGUST 3, NEAR PARKER

Shelley McCormick and Stiles Vaughan Christner were united in marriage in a lovely outdoor ceremony at the Glenn Justice Quarter J Ranch of Parker, Texas on August 3, 1985. The Reverend Ernest McGaughey of Tulla, Texas officiated.

The bride is the daughter of Mr. Hugh A. McCormick of Plano, Texas. The parents of the groom are Mr. and Mrs. Tom H. Christner of Wheeler, Texas.

Patti McCormick served her sister as maid of honor. Bridesmaids were Duelyn Zeagler of Rocky Ford, Georgia, Elsie Christner of Wheeler, Ellen F. Steelman of Plano, Leah Thompson of Dallas, and Mariann

Farquhar of Fort Worth. Larry Jones of Wheeler was best man with groomsmen Tom H. Christner II of Wheeler, Glenn Stiles of Denton, Jeff Christner of Austin, Dave Watson of Arlington, and Randy Hill of Plano.

The groom's mother and father were escorted to their seats by Dave Watson. The groom's mother chose a pale peach chiffon tea length dress with matching sash and accented with a peach rosebud corsage.

The fathers of the bride and groom wore silver tuxedos with silver bow ties and cumberbunds and peach rosebud boutineers.

The bridal attendants were dressed in peach moire taffeta tea length dresses. The dresses featured bare shoulder styling with fitted bodice and gathered skirt, and accented with a large bow in the back, which was gathered from the sides of the bodice. The bridesmaids carried bouquets of peach orchids and white stephanotis.

The groomsmen and ring bearer wore white tuxedos with peach bow

ties and cumberbunds and peach rosebud boutineers. The groom chose a white tuxedo with white bow tie and cumberbund and a peach rosebud boutineer.

The bridal attendants were escorted by the groomsmen across a small bridge toward a white arch flanked with ferns and draped with vines and festooned with peach bows.

The ring bearer, Patrick Marts of Plano, and flower girl, Rachel Stiles of Wheeler, preceded the bride. The flower girl's dress was a tea length peach moire taffeta with a ruffled neckline, short ruffled sleeves, and a ruffle at the bottom of the full skirt. It also had a large bow in the back, matching the bridesmaids. The flower girl carried a white basket of peach and white flowers accented with peach ribbon. The ring bearer carried a heart-shaped pillow of peach taffeta moire covered with white lace. The rings were attached to the pillow with peach ribbon.

The bride was escorted to the archway by her father. For the occasion, she chose a long white taffeta gown which featured off the shoulder styling accented with a double ruffle over the upper portion of the arm. The double ruffles attached to a fitted empire bodice enhanced with seed pearls and re-embroidered lace. A double ruffle completely encircled the full skirt which flowed into a cathedral train. She selected a wreath style headpiece accented with seed pearls sprayed across the upper portion with a length of chiffon net attractively arranged on the lower portion and allowed to drape gracefully down the back. She carried a cascade of white calla lilies, stephanotis and peach orchids.

The reception immediately followed the wedding. The cakes were created by Mrs. Reba Hill of Plano. The bride's cake was a beautiful work of art. The bottom layer consisted of six large scallops on which rested three more layers. A fourth layer was lifted by four columns and crowned by an arrangement of peach roses and orchids and white stephanotis. Peach flowers graced the cake at the junctures of the scallops and in the midst of the columns. The groom's cake was whimsical affair. It was rectangular with blue-green icing to resemble the ocean. On the cake, floated a styrofoam boat named "The Christner" which carried as its cargo small bride and groom teddy bears. Each manned an oar marked appropriately Vaughan and Shelley. The boat was sailing toward and island designated by buoys as Jamacia, the honeymoon destination. Trailing from the boat were miniature cans, a shoe, skillet, etc. The back of the boat proclaimed the couple "Just Married" while buoys carried a sign pointing to Texas A&M in the opposite direction, where the couple will continue their education. Champagne and punch were served with the cakes and condiments.

Servers for the refreshments were Cindy (Christner) Watson of Arlington, Ruth Ann Stiles of Denton, Kim Christner of Wheeler, Melanie Warner of Plano and Cyndi McCrann of Plano. Presiding over the guest register was Amanda Marts of Plano.

Also available for the guest enjoyment was a live band and a barbecue dinner.

Among the honored guests were Mrs. Frank Zeagler of Rocky Ford, Georgia, aunt of the bride; Mary Mock of Atlanta, Georgia, cousin of the bride; Mr. and Mrs. Ken Conner of Albuquerque, New Mexico, godparents of the bride; Mrs. Rubie Christner of Shamrock, the groom's grandmother; and Mr. Gordon Stiles of Wheeler, the groom's grandfather.

The couple now resides at 815 Concho, College Station, Texas.

Eradicate Unwanted Fish In September

If the fish population in your pond is hopelessly out of balance, September is a good month to remove these fish with rotenone. During October and November after water temperatures decline, your pond can be safely restocked.

Rotenone kills fish by constricting blood vessels in the fishes' gills, suffocating them. The warmer the water, the more effective the treatment; thus, August and September are the best months to apply it.

Some fish are more difficult to control than others. Bullheads, also known as mudcats or polywogs, require more rotenone than crappie or sunfish (bream, perch). Bullheads inhabit the pond bottom, and when maximum water depths exceed five feet, rotenone must be applied with special care in order to kill all the bullheads.

Soil Conservation Service personnel at Wheeler can provide technical assistance in obtaining and applying rotenone. SCS personnel, who give assistance to landowners through the local Wheeler County Soil and Water Conservation District, can also help pond owners compute the cost of rotenoning and restocking as well as other ways to improve the balance of your fish population.

How To Buy Top Quality Hay

Most farmers in Wheeler County have already harvested enough hay to last through the winter. But it is often the case that the supply runs short before the pastures are ready for grazing. When hay needs to be purchased, an important fact to remember is that protein is the primary reason for buying hay. A 100 pound cow requires almost one pound of digestible protein per day for maintenance; a cow with a calf requires two pounds of digestible protein per day for maintenance. Approximately 45% of the crude protein in grass hay is digestible, and approximately 70% of the crude protein in alfalfa hay is digestible.

It is difficult to estimate the quality of hay from its appearance. The color of hay IS NOT a good indicator of hay quality. A beautiful green color would indicate high vitamin A content, but not necessarily a high protein content. An item to look for is the seed heads. The seed head is an indicator of the age of the hay at the time it was cut. As a plant gets older, the protein decreases. A good hay should have considerable seed heads in the boot and pre-boot stages, and very few heads with visible seed. The following chart gives the approximate protein percentages of some common hay crops. The values will vary depending on fertilization and growing and harvesting conditions.

CROP	STAGE OF GROWTH	CRUDE PROTEIN
Johnsongrass	Early boot	15.0%
	Half Bloom	8.6%
	Mature	5.7%
Sudan	Early boot	16.8%
	Full bloom	8.1%
Oats	Pre-boot	19.8%
	Early bloom	15.3%
Alfalfa	Pre-bloom	21.5%
	Early bloom	19.3%
	Full bloom	16.9%

To determine the cost per pound of crude protein, divide the cost per ton of hay by the crude protein percentage. Then divide that figure by 20. Determining the cost of crude protein will allow you to get the best value when purchasing hay. The cheapest hay is not always the best buy.

Visit your local Soil Conservation Service for ways to help you get more out of the forage that you have. The personnel is willing to assist you with any conservation problems.

PUBLIC NOTICE
 BRIEF EXPLANATORY STATEMENTS OF PROPOSED
CONSTITUTIONAL AMENDMENTS
 GENERAL ELECTION
 NOVEMBER 5, 1985

PROPOSITION NO. 1 ON THE BALLOT

Sections 1 and 2 of House Joint Resolution 6 propose a constitutional amendment that would authorize the Texas Water Development Board to issue an additional \$980 million of Texas Water Development bonds.

The additional bonds to be issued will be dedicated for deposit in the Texas Water Development Fund, with \$190 million of those bond proceeds to be used for water supply loans and facilities acquisition and with \$400 million of those bond proceeds to be used for state participation in the acquisition and development of facilities for storage, transmission, transportation, and treatment of water and wastewater.

Of the remaining bonds authorized, \$190 million will be dedicated for use in water quality enhancement projects, and \$200 million will be dedicated exclusively for flood control projects.

The amendment would also allow the legislature to provide for the creation, administration, and implementation of a bond insurance program to which the state pledges up to \$250 million of its general credit to insure payment of the principal of and interest on bonds or other obligations issued by political subdivisions of the state for water conservation, water development, water quality enhancement, flood control, drainage, recharge, chloride control or desalinization. Unless authorized to continue by a two-thirds vote of the members of each house of the Legislature, the bond insurance program will expire on the sixth anniversary of the date on which this section becomes a part of the constitution. Bond insurance issued before expiration of the program will not be affected by such expiration.

The amendment would authorize the legislature to create and appropriate money to special funds in the state treasury to make grants, loans, and other financial assistance available to governmental entities for certain enumerated water planning purposes. Also, the legislature would be permitted to extend the benefits of constitutionally approved water projects to nonprofit water supply corporations.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to authorize the issuance of an additional \$980 million of Texas Water Development Bonds, to create special water funds for water conservation, water development, water quality enhancement, flood control, drainage, chloride control, agricultural soil and water conservation, and desalinization, to authorize a bond insurance program, and to clarify the purposes for which Texas Water Development Bonds may be issued."

PROPOSITION NO. 2 ON THE BALLOT

Section 3 of House Joint Resolution 6 proposes a constitutional amendment that would allow the Texas Water Development Board to issue and sell Texas agricultural water conservation bonds in an

amount not to exceed \$200 million, if authorized to do so by a two-thirds vote of the members of each house of the legislature. The Texas agricultural water conservation bonds would be general obligations of the State of Texas, and would be paid from the first money coming into the state treasury in each fiscal year. The amendment would allow Texas agricultural water conservation bonds to be issued and sold only for four years after the date on which this Act becomes a part of the constitution.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing the issuance and sale of \$200 million of Texas agricultural water conservation bonds."

PROPOSITION NO. 3 ON THE BALLOT

House Joint Resolution 54 proposes a constitutional amendment that would permit the legislature to authorize a city or town to spend public funds and levy assessments for the relocation or replacement of water laterals on private property if such relocation or replacement is done in conjunction with or immediately following the relocation or replacement of water mains serving the property. Any legislative enactment permitting the expenditure of funds for such purposes would authorize the city or town to fix a lien on the property, with the owners' consent, for the cost of relocating or replacing the water laterals, and would provide that such cost shall be assessed against the property, with repayment by the property owner to be amortized over a period not to exceed five years at the rate of interest set by law. Such liens could not be enforced until after five years from the date the liens were affixed.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to authorize the legislature to enact laws permitting a city or town to spend public funds and levy assessments for the relocation or replacement of water laterals on private property."

PROPOSITION NO. 4 ON THE BALLOT

Senate Joint Resolution 21 proposes a constitutional amendment that would authorize the use of the proceeds from the sale of permanent school fund land to acquire other land for the permanent school fund. Currently, the constitution requires that proceeds from the sale of such land be invested in certain bonds and other securities.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing proceeds from the sale of land dedicated to the permanent school fund to be used to acquire other land for that fund."

PROPOSITION NO. 5 ON THE BALLOT

House Joint Resolution 89 proposes a constitutional amendment that would enable the legislature to regulate the provision of health care by hospital districts by determining

the services the district must provide, by setting requirements a resident must meet in order to qualify for services, and by determining any other relevant provisions necessary for providing health care to residents.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to authorize the legislature to regulate the provision of health care by hospital districts."

PROPOSITION NO. 6 ON THE BALLOT

Senate Joint Resolution 6 proposes a constitutional amendment that would enable the State of Texas to enter into an agreement with another state to confine inmates from the state of Texas in penal or correctional facilities of the other state.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to permit state prisoners to be placed in penal facilities of another state pursuant to an interstate agreement."

PROPOSITION NO. 7 ON THE BALLOT

House Joint Resolution 27 proposes a constitutional amendment that would authorize the commissioners court of Chambers County to divide Chambers County into not less than two and not more than six justice precincts. Under current constitutional law, Chambers County may be divided into not less than two and not more than five justice precincts.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing Chambers County to be divided into two to six precincts."

PROPOSITION NO. 8 ON THE BALLOT

Senate Joint Resolution 9 proposes a constitutional amendment that would grant an additional \$500 million in bonding authority to the Veterans' Land Board for the veterans' housing assistance program. Under the current constitution, the Veterans' Land Board is authorized by Article III, Section 49-b-1 to issue and sell not more than \$800 million in bonds, \$500 million of which may be used for the Veterans' Housing Assistance Fund. This amendment would increase that authorization to permit the issuance and sale of up to \$1.3 billion in bonds, \$1 billion of which would be used for the Veterans' Housing Assistance Fund. In addition, the amendment would remove the current definition of "veteran" from the constitution and permit the legislature to redefine "veteran" as the changing times and circumstances require.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment providing \$500 million in additional bonding authority for the veterans' housing assistance program and changing the definition of those veterans eligible to participate in the veterans' land program and the veterans' housing program by authorizing the legislature by law to define an eligible veteran for the purposes of those programs."

PROPOSITION NO. 9 ON THE BALLOT

House Joint Resolution 72 proposes a constitutional amendment that would permit the legislature either to enact a statute or to attach a rider to the General Ap-

propriations Act to require prior approval of the expenditure or emergency transfer of any funds appropriated by the legislature to state governmental agencies.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to protect public funds by authorizing prior approval of expenditure or emergency transfer of state appropriations."

PROPOSITION NO. 10 ON THE BALLOT

House Joint Resolution 19 proposes a constitutional amendment that would authorize the legislature to provide for the issuance of general obligation bonds, the proceeds of which would be deposited in a fund to be known as the farm and ranch finance program fund. The fund would be administered by the Veterans' Land Board and would be used to make loans and provide other financial assistance for the purchase of farm and ranch land. The amount of bonds outstanding at any one time would be limited to \$500 million. The principal and interest that becomes due on such bonds in each fiscal year would be paid from amounts remaining in the interest and sinking fund at the close of the prior fiscal year, with the balance due to be appropriated from treasury revenues in the fiscal year when such amounts become due.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing the issuance of general obligation bonds to provide financing assistance for the purchase of farm and ranch land."

PROPOSITION NO. 11 ON THE BALLOT

Senate Joint Resolution 16 proposes a constitutional amendment that would define indictments and informations as instruments charging a person with the commission of an offense, and would delete certain technical requirements as to the form of writs and processes.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment relating to the manner in which a person is charged with a criminal offense and to certain requirements applicable to state writs and processes."

PROPOSITION NO. 12 ON THE BALLOT

Senate Joint Resolution 10 proposes a constitutional amendment that would grant the Texas Supreme Court and the Texas Court of Criminal Appeals jurisdiction to answer questions of state law certified from federal appellate courts. In addition, the two courts would promulgate rules of procedure relating to the review of those questions.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment granting the Supreme Court of Texas and the Court of Criminal Appeals of Texas jurisdiction to answer questions of state law certified from a federal appellate court."

PROPOSITION NO. 13 ON THE BALLOT

Senate Joint Resolution 14 proposes a constitutional amendment that would create a board with responsibility for the reapportionment of judicial districts, subject to legislative approval. The amendment would provide for the continued power of the legislature to provide for judicial reapportionment, and would provide that reapportionment

will be the responsibility of the Legislative Redistricting Board if the Judicial Districts Board fails to make a timely reapportionment. The amendment would provide for the creation of judicial districts smaller than a county in counties where the creation of such districts has been approved by the voters at a general election. The amendment would provide for more than one judge for a judicial district. The amendment would rename supreme judicial districts as courts of appeals districts. The amendment would provide that the jurisdiction and terms of court of district and county courts may be as provided by law. The amendment would provide for the jurisdiction of justice courts, which may have additional jurisdiction as provided by law. The amendment would provide for rules of judicial administration and civil procedure to be promulgated by the Supreme Court, and would provide that the legislature may delegate additional rule making power to the Supreme Court or to the Court of Criminal Appeals. The amendment would provide that courts and judges in existence at the time of its adoption remain in existence until otherwise provided by law.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment providing for the reapportionment of the judicial districts of the state by the Judicial Districts Board or by the Legislative Redistricting Board, and providing for the administration and jurisdiction of constitutional courts."

PROPOSITION NO. 14 ON THE BALLOT

Senate Joint Resolution 27 proposes a constitutional amendment that would abolish the office of County Treasurer in Andrews County and transfer the powers and duties of that office to the County Auditor. The amendment would also abolish the office of County Treasurer in El Paso County if, at the statewide election at which this amendment is submitted to the voters, a majority of the voters who vote in El Paso County favor the amendment. The functions of the office of El Paso County Treasurer will be performed by a person employed or designated by the El Paso County Commissioners Court. The amendment also provides for the abolition of the office of County Surveyor in Denton, Randall, Collin, Dallas, El Paso, and Henderson Counties upon approval of such abolition by a majority of the voters who vote on the question at an election called by the commissioners court of the county. If the office of County Surveyor is abolished in any county, the commissioners court may employ or contract with any qualified person to perform the duties of the office.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to provide for:

- (1) the abolition of the office of county treasurer in Andrews County and El Paso County;
- (2) the abolition of the office of county surveyor in Collin, Dallas, Denton, El Paso, Henderson, and Randall Counties."

Beginning this week will be "Mustang Mania", a report on the activities at Wheeler Independent School, by Angela Presley, a Senior at Wheeler.

I got a 'little of my own medicine' in the 'family tree tracing' and I enjoyed it. As I was traveling home after work Tuesday evening, I was trying to figure if there was a car parked at our house of Heide's; by the time Barbara and I each drove up, from different directions, the former occupants of the vehicle were getting back in the car—no one was at home at the Stas residence. I realized who the company was as soon as I saw the "Sooner" bumper sticker; It was my only first cousin on the Tilley side of the family. Roseline and Woodrow Baker live in Arlington; they are big OU fans.
We spent the evening looking at "old family pictures"; Roseline had her Dad's pictures and some of our grandparents' pictures and has been trying to get everyone identified and placed on the right branch of the tree. Of course Jennifer did not find this too interesting.

The Bakers planned to be in Del City, Okla., on Wednesday evening and visit the Arnolds; Mother is to be there in preparation for another weekend of visiting relatives; she will make the pictures more interesting, as she will most likely know all the people. I do not remember seeing

Mrs. Joe Flowers

Went from hot to chilly in a big hurry. Now if it would just come a long slow rain. We got thru the 13th with just one calamity. One septic tank stopped up. A man came down from Allison and bailed us out. Quite a bit of money and several hours later we were back among the living. If things wear out in threes we've got one more to go.

Really had a nice week. Some readers, Mr. and Mrs. Ross Brookshier of Elk City came by to get acquainted. We had a nice visit. Found out we had a lot of friends in common. They were going back by Dempsey to see Bully and Crystal Martin. Bully isn't very well.

Stopped to buy some watermelons. While they were getting our two, another turned over and split down the middle. The man gave it to us. A friend indeed.

Bernita Langley was home last weekend from Southwestern.

The Kitchen Band received a nice donation from Amarillo in memory of Bessie Kelley. Names on the card were Edwin, Tom and Gwen Thompson, Ethel Thompson, Mr. and Mrs. Dewey Thompson, Mr. and Mrs. Calvin Thompson, Mr. and Mrs. Jim Benson.

Services were Monday at Amarillo for aunt Myrtle Wallace with grave-

side rites in the afternoon at the Mayfield Cemetery. Mrs. Wallace lived many years in this community.

Services were Wednesday at The Erick Chapel for Rudolph Rotenberger of OKC. He was 86 and born in the old country, Odessa, Russia. He was raised over in the Buffalo neighborhood. Burial was at Mayfield.

Services were also last week for Bud Criswell. He was 98. He and Laura were our neighbors when we lived at Bulo. Burial was at Lone Oak.

Five years of this and the national

debt has doubled, two hundred trillion dollars! Think it needs 12 zeroes to write. It would be so nice if Mr. President would get off this "reform tax" kick and get back to Washington and president a while.

We all know they are just rearranging the taxes. Take a little here and add a little there. Comes out the same or worse.

We need to do something about salvaging the farmers, pay the National debt, and whittle on the budget. Wouldn't hurt if they took a 10%

whack on everything. Used to be if people were clothed, warm, and fed they weren't poor. Now if they don't have a telephone, color TV, and a good car, they are in sad shape.

Iva Thompson and Ruth Pyle went last week to Dimmitt to see Harold and Nina Markley. Found him much better.

Heard we had 16 kindergarten kids. Have lost some by job transfers and such. Gained at least 3. If someone wants to move to the Country with their children, we have a nice school.

The Baptist Church had a lovely day for their homecoming. Among our relatives there were Jewel Jarnagin, Sue Smith, and Johnny Hagg. Some 200 attended.

Billy Peterman visited the Sam Burkhalter's over the weekend and went over to spend a while with the Melvin Gambles.

Linnie Anderson is in the hospital with injuries from a fall.

Willie Johnston tells me she is just back from a trip to Colorado and it was cool there. Well, it is cool here too. Had to hunt a blanket and Joe is threatening to build a fire. Told him to dig out his long johns and save the propane.

Bob Carey has been hired by the school as custodian.

Mr. Cruze has extended the time on paying the translator dues another week. Come on, everyone, and ante up. Be a dull winter without Dallas.

Just was told that it is our Ross Coffey who is teaching at Kelton. Live and learn.

Did pretty well telephone wise this day. Tony and Carleene called from Florida and penpal of 22 years called from Minnesota. She'd been in a wheelchair all that time.

Helen Smith, Debby Anderson, and children visited Millie Greene in Elk. They picnicked in the park and the kids fed the ducks. Have you noticed the Geese Xing sign on the highway. They still get run over.

Bonnie Rice had charge of the post office the last two weeks. Mr. and Mrs. Benje Olson (Postmaster) spent part of the time in Las Vegas at the National Postal Convention. Lois Bryan cooked at the school lunchroom while Bonnie was out.

Violet Page called Mildred Allen Saturday. Her brother Ben and Mr. and Mrs. Orville Spencer had been to see her.

The chilly weather has brought out the snowbirds on the road south. Or maybe it is just now cool enough to go north.

Visited with Irene Flynn, Mr. and Mrs. Junior Leonard, Helen and Luther Smith, Mrs. Street from Carter.

Joe went to buy a pair of knock about shoes. The same brand had shoes made in Mexico, Poland, Taiwan, Spain, etc. as well as the good old US of A. But the American ones were twice as high. Yugoslavia has come out with a car for less than \$4000. Their workers get about \$1 an hour compared to the \$20 ours get.

They have killed the goose that lays the golden eggs by working for a high wage, then buying goods made by slave labor and low paid workers. We

would have no trouble with imports if people were willing to pay for American products. You can't have your cake and eat it too.

The Roger Mills 4-Hers presented Johnny Grant with a plaque for being most helpful and made Lester and Clara Davis honorary members.

Irene Reed, Erick, and her daughter, Doris from OKC were out to see Birdie Whiskey Sunday.

Hearing Tests Set For Senior Citizens

Wheeler—Free electronic hearing tests will be given at the Beltone Service Center at Senior Citizens Building on Thursday, September 26, from 10:00 A.M. to 12 noon.

Anyone who has trouble hearing is welcome to have the test. Many people with hearing problems don't need hearing aids. But only a modern hearing test like the one now being offered by Beltone can really tell for sure. Beltone Hearing Aid Specialists Gary Wormsbaker will conduct the tests.

Everyone should have a hearing test at least once a year—even people now wearing a hearing aid or those who have been told nothing could be done for them. Only a hearing test can determine if modern methods of hearing amplification can help them hear better.

The free hearing tests will be given Thursday, September 26, from 10:00-12 noon at Senior Citizens Building. If you can't get there on Thursday September 26, call 352-8961 to arrange for an appointment at another time. In-home testing is also available.

Ain't It the Truth
 BY AB GUNTER
 Many of you may not have known Mr. Mortimer McIlhany here in Wheeler. He was Goldie McIlhany's husband and Grainger McIlhany and Mary Lou McIlhany's father. Golly I should have called Grainger the District Judge and Mary Lou, Doctor. Recon I have known them nearly as long as most and was neighbors to them all my younger life.
 Getting back to Mr. Mc, he had a grocery store on the west side of the square and on top of the meat market counter was a large round Cheese. The cheese set on a cheese cutter that had a handle so you could cut off what ever needed and after school or in the afternoon during the summer I just happened to go by and Mr. Mc and I would have a little slice of the cheese and a big cracker. Golly that was fun. Mr. Mc was a jovial man to all we kids and it was a treat to go by and visit. He wore a vest, suspenders and seems like a hat every time I was in and was very polite except one Halloween nite when he caught me turning his Chick Sales over. If you don't believe we did it just ask Mr. Charles Hix, the Administrator of the Parkview Hospital he was there too. Years ago, sure it was years ago, otherwise me and Charley might get in trouble, I don't know what you call it but I think our crime was committed before it was against the law to do such things. Fact is that many of the boys and maybe girls that helped do such a dastardly deed are no longer with us.
 By the way I think Mr. Mc was in the outhouse hiding just to catch us kids, can't remember for sure, ask Charley.
 Mrs. Mc if Charley and I can apologize we will, it wasn't because we didn't like you folks it was just a custom in them days. Honest we both love you and will remember always what a nice Family you were.....

THE GREAT HOAX
 Daniel Chapter 9 verses 26 and 27, the man made story about the anti christ when he comes on the scene making a 7 years covenant or agreement with the Jewish nation and breaking the contract after 3 1/2 years is a big hoax, the first part of verses 26 and 27 are refering to Christ, his ministry, crucifixion and resurrection all during the first half of the 70th week when there would be no more need for the sacrifice and oblation, at this time Christ was confirming the covenant that God had made with Israel years before, the last part of these two verses is refering to the prince Satan his King and armies, the destruction of Jerusalem in 70 A.D. and causing wars and desolations until the second coming of Christ. Lets not forget World War 2 and the wars since, the next one will be much worse, the covenant will have to be confirmed again for 3 1/2 years to complete the week of 7 years and most likely by the two witnesses mentioned in Revelation chapter 11, they may appear in the next few weeks or few months at the most.

Briscoe News

By Vetola Parker

Wednesday 10, 8 a.m., real cool, a big dew looks to me like, damp. Lightened in west and north last night.

They have build a tower they claim is tornado proof.

Listened to a program on TV last night, called (my heart and your heart), 200,000 had open heart surgery in 1984. I believe in U.S.A. 500,000 will die in 1985 from heart attacks. 3 things to watch high blood pressure, high cholestrol, attitude mind or no stress, no cigarette, good exercise daily, a lot of things will help, keep your cholestrol below 170, lot of fruit and vegetables, cut meats, a Oscar Man that had, had a heart attack put program on.

Now that tower may be like the ship titanic, it could not be sunk but it did.

Mattie Jackson went with the club wome to Erick, Ok, Tuesday to Honey Farm, the vegetable factory ate out down there they went to a Anthony Fabric Store, just put in I believe she said. This factory was boxing a new winter cantelope, I never heard of it, washed put in boxes that had soft styrofoam sounded like inside boxes, there were around 40 working in it. They planned on canning corn. but people did not spray corn, they seemed to be able to take corn with worms in it. There were 11 women going on this trip.

Mattie heard from Birdie Lee (Helton) Water in Washington state, the blackberries are ripe now. To hear tell that state and Oregon have the fruit and berries galore, lot grows wild.

Wafford Edd Helton lives in town where that explosion was, it Jared all his doors and windows loose from house, now that was getting close.

My niece Susabe (McGaughy) Barron, had hernia surgery Friday in High Plains hospital in Amarillo. She was at home doing ok Tuesday. Her husband, Doug's daddy had open heart surgery. He flew out to be there in Calif, last week—when it rains it pours sometime. Mac and Una McGaughy deep freeze quit.

Nurse came this morning early, we tested out fair we had not ate or done any work, so was pretty rested.

Avis Parker is much better this week, glad to hear that.

The Hughes relatives had a family get-together down south (I heard) this is Mrs. Dave Dukes family, forgot where.

Would like to hear some more on this liquid clorefil—1 table spoon a day gives you energy—but you are to also eat. Some dieters are ruining its name, trying to diet on it alone and getting sick.

Heard or read where you can't drink alcohol in public places is Wheeler—now, that's wonderful news to me.

This vegetable factory, is what I call it, is south and west of Erick, Okla.—they also went to a museum there.

Canadian got 0.26 inches of rain Tuesday night. Cooled us off, even tho we did not get a sprinkle.

Thursday afternoon we got a little sprinkle, it was really nice, it cooled us off and the wind out of the north made you think of a small northerner.

We went to George and Avis' Thursday afternoon. Others there were Teresa and Amber Dyer, Jeanette and Nathan Rainey and Zeland Rainey came as we were leaving. Now those kids and grandkids are really fixing that house up. When they came last Saturday, they ran George and Avis up to Ralph and Juanita Markhams. They have Kemtoned, put up new curtains, etc. Everything looks so nice.

They gave us some tomatoes. Very much appreciated. Avis was feeling much better. George's fishing partner, Dub Crenshaw, was sick. George said, but he was expecting Dub to be ready to go fishing soon.

Colie been sick all week. Seems some better this morning, Friday.

Correction—I was glad Mike & Shane Goad won a saddle, not that Mike forgot his partner as he roped

with, as Colie read it.

The name of the town in Oklahoma, where Tump and Alice's son lives is Cheotah, Okla.

5 inches of rain Firday in Moore, Okla., where Donna Jean and DeWayne Mathis, Zetha and Gene's girl lives, that a suburb of Oklahoma City.

Saturday cloudy and foggy. It rained, looked like a meanie went across west of us, a bad looking cloud with a lot of lightning went south toward Wheeler.

Mac and Gaye Purcell and children went to the cheerleading Fun Night Friday night at Briscoe.

Hank and Marie Brown was at Eunice Edwards for a weekend, Marie and Eunice had gone to town. Never met Hank, but he nas a nice voice.

Colie sick all week, but able to go to a sale with Doc Wilhelm Saturday morning and it looks like it going to rain (at 10 a.m. now.)

Talked to Mary Ann Ault Saturday morning. Mable and Claude were visiting Bill and Nita Ault over in Pecan orchard. Dorothy Ogle was able to visit Claude and Mable and Mary Ann this week and wash and piece quilts.

Roy Waters had gone to Pampa on business Sat. morn. Willene by herself—it was raining enough you could hear it hit house—she said Lou Dean had found a rattlesnake in her okra patch. Everyone been gathering okra while Kenneth and Lou Dean been on vacation, Lou Dean goes out, finds this, W.O.W.

I got another bite or sting. I think it same spider that got me 2 weeks ago, but I saw him this time, he got me on ankle, I mashed him a little, put him in bottle, I brought it in here, showed it to Colie—I said, now if I die you can show kids what killed me—they had laughed at me getting so sick from a wasp sting. Well, I think it was same spider. I looked at my spider book—after I poured turpentine on it. It looked like a young tarantula, fuzzy legs about an inch from end one leg to other. (8 legs)—I had been so nervous since the other sting, a fly on my hair touches me, I'd scream, well as he started to bite or sting, I jumped, kicked, screamed like I was dying, so don't guess he got a good one in this time, I just a little sick at stomache this time. Now I don't like spiders, poison or non-poison. I don't like snakes, poison or non poison.

George and Avis went to Doris Newsome Friday night to play 88. I think others there were Edith Donaldson and Ruben and Edna May, they went to Cheyenne Saturday with Ralph and Juanita Markham to shop.

Word came to us that Pat Gudoth or Mrs. Glen Gudoth passed away in Phoenix, Arizona witha heart attach—she was in Amarillo 2 weeks ago. She called Bill and Neta Ault, said she would love to come see Mable and Claude Bert. She had a cold. Her granddaughter called Bill and Neta, told them her grandmother had passed away. They use to live in Canadian, moved on in Joe Hefley house over north and west of us. Glen died few years back with heart attach. Our sympathy goes out to all her relatives.

James and Bea Ogle and girls, Shelly and Christina, visited Claude and Mable, played 88. Claude and Mable visited us Sunday afternoon—they looked pretty good to me.

Saturday, Happy 53 Wedding Anniversary to Colie and I—a long time to live and wait on a old guy. He sure was sick last week. He may have got a virus bug instead of watermelon.

What about this Dragon and Dungeons games, that kids are getting so possessed with till they kill themselves or others. There 28 deaths in last 5 years, the law knows this game caused them. There are 3 million kids play Dungeon and Dragons now—how sad.

J. O. and Hoyle Helton visited us Sunday afternoon, brought us some more eats.

Our sympathy goes out to Clyde and Minnie Bell Vinson, their oldest grandson, is so sick in South Carolyn, we wish for him a speedy recovery.

Monday morn, Sept. 16—looks like rain, cloudy, cool, really fall is here.

There was a cook out on the Evans Place Saturday night to celebrate Wayne and Casey Zybach's birthday. Others there were Elbert and Ruby, Jane Ann and Curtis Hall and Kent, Bob and Gena Zybach, Steve and girl friend, Susan Mitchell, from Pampa, Kyndel and Kathy Murray and Krista, Becky and Shawn Zybach, Bevard and Mary Diane Dukes, Diedra, Andra and Caressa; Bob and Peggie Dukes, Monty and Glenda.

Jean Brown and Connie Gonzales went home Thursay to Ft. Worth. Irene said it was real quiet there now.

Ruby and Elbert Zybach visited Joe Dukes in Shamrock hospital Saturday. Ruby went with the club women last Tuesday to the Honey Farm, Vegetable Factory, Museum at Erick, Okla., and near Erick. Others that went were Mary Margarette Dodd, Effie Renfro, Emma Rogers, Pat Hudson, Mary Hudson, Katie Finsterwald, Essie Finsterwald, Marie Wright and Mattie Jackson.

Ruby said David Zybach's picture and write-up was on front page of High Plains Journal about his manager work at the Duzie Pig Farm west of Allison—now if he could get a good price for his hogs, would be nice.

Addie Swift and Wanda Childress went to visit Mary Jane Dukes last Thursday. She had a yard sale. Addie spent the night with Jane. Came home

Friday night.

Ruby's sister, Bergie, in Calif., was doing just fine now.

Talked to Lou Trimble, her son, Larry, has the chicken pox, they don't know where he caught them. Jennifer Maddox is only other case in Briscoe, as Lou knew. She said there were few cases in Wheeler.

Mary Hudson and Mrs. Welch went to Wheeler shopped and visited in Care Center Friday morning. Friday afternoon, they went to the doctor for Mrs. May Welch, Mary went along.

Mary and Pat went to Evelyn Meek's Saturday for supper and to visit with Missionaries.

Monday morning, Pat was sewing some, for Mary, Many had been up gathering Pat's okra and tomatoes for her. Mary sounded like she was feeling pretty good.

Essie Finsterwald was canning pears Monday morning. Effie Renfro visited her this morning.

Darv Atherton visited Eunice Edwards this Monday morning. They were doing all right, he said.

Scott and Kay Luttrell went to Lake Meredith to a chili cook-out. Scott placed 5th. Now that sounds good; there were so many cooks there.

STORE VEGETABLES TO RETAIN NUTRIENTS

This time of the year, many of us are squeezing the last drop of vegetables out of our home gardens. By carefully storing those vegetables, we can also squeeze out the highest nutritional value from them.

When you trim vegetables, remember that the outer leaves of lettuce are coarser than the inner leaves, but have higher values of calcium, iron, and vitamin A. In cabbage, the core, as well as the leaves, is high in vitamin C. And the leafy parts of collard greens, turnip greens and kale have much more vitamin A than the stems or Midribs.

Refrigerate kale, spinach, broccoli, turnip greens, chard and salad greens promptly. Store them in the vegetable crisper or in moisture-proof bags to retain their moisture content and stay fresh. Their nutrients will keep best at temperatures near freezing, at high humidity and away from air exposure.

Don't let cabbage dry out. If it is to be stored in the crisper for a few days, wrap it to protect its moisture content. Cabbage is a more stable source of vitamin C than most leafy vegetables.

Unripe tomatoes keep their nutrients best when they are ripened at temperatures from 60 to 75 degrees Fahrenheit. Don't put them on a hot windowsill or in the refrigerator. Held at room temperature, tomatoes that are ripe and firm will retain their vitamin C for several days.

If you would like more information on freezing, drying, or canning fruits and vegetables, contact Linda Daughtry, Extension Home Economist at Box 505, Wheeler, Texas 79096 or call 826-5243.

Educational programs of the Texas Agricultural Extension Service serve people of all ages regardless of socio-economic level, race, color, sex, handicap, religion, or national origin.

POEM

BY MARIE FULKS
[a patient in the Wheeler Care Center]

Fleecer breathed the stillness
As the night had come to rest,
With a sighing, throbbing heartbeat,
On nature's wild old breast.

At the Wheeler Care Center
Before the lights were out
The nurses labored, diligently
To get the oldsters into bed.

As two nurses went, they giggled,
Spreading cheer along the way.
They've helped many weary old ones
To reach another day.

I hope we keep them always,
or until Gabriel blows his horn.
Then there will be room for Terry and
Martha
On that bright and glorious morn.

POEM

BY MARIE FULKS
[a patient in the Wheeler Care Center]

Fleecer breathed the stillness
As the night had come to rest,
With a sighing, throbbing heartbeat,
On nature's wild old breast.

At the Wheeler Care Center
Before the lights were out
The nurses labored, diligently
To get the oldsters into bed.

As two nurses went, they giggled,
Spreading cheer along the way.
They've helped many weary old ones
To reach another day.

I hope we keep them always,
or until Gabriel blows his horn.
Then there will be room for Terry and
Martha
On that bright and glorious morn.

Here & There

BY LAURA GUTHRIE

Well, now, I do think this Golden Spread Antique Show we see advertised on TV would be a very interesting affair. I've seen some pictures of some of the machinery to displayed. It takes me back about 65 years. I grew up on a farm, and I can remember steam engines used with threshing machines. In fact my brothers owned one of the outfits and threshed for "the public". They had their own crew and we thought it was pretty big business. If I were a robust 40 years old I'd like to go to Mr. Sell's farm just to reminisce. Mr. Sell's farm is east of Perryton, 10 miles FM road 377 and south 5 miles on FM 2711. This is not a sale, but a show. However there will be a Flea Market, food, etc. There's an admission fee. People who are interested in such a display might just have a heyday.

I had to have another session in the hospital. This time my roommate was Mrs. Willie Hefley. I've been acquainted with Mrs. Hefley for a long time, but really didn't know her. She is fine. I like her very much. Of course her kids know me back in Rogue theatre days. One daughter, Anna V. (Blackie) and her husband, J.H. Kelly came to see her at the hospital. Some of the others called her as often as son Jerry dropped in. I can see she is well cared for.

On Sunday Anna V. and J.H. visited her sister-in-law and family, Marjorie Wallace, in Amarillo. Mrs. Hefley told me that recently she had a birthday and children and grandchildren came in with loads of food. Willie had gotten a hint of their coming so she cooked up a big pot of blackeyed peas. That hit the spot. They all had a great time.

Mrs. Eunice Treadwell was also in the hospital. Her son Donald and wife Monette of Miami visited her on Sunday. Her daughter, Lawanda Puryear, also visited her often.

On the weekend Laura Clark left for Pierre, S.D. Her daughter, Beverly, flew down and took her there. She plans to stay for sometime.

Ruby Lee Sandifer of Lubbock visited friends in the hospital, especially a former neighbor, Doodie Phillips. Doodie is not a patient but she is at the hospital a great deal, because of her mother's illness.

The little people from The Baptist Church in Mobeetie are still spreading cheer. They came to the hospital on Thursday and bring corsages of paper. Their sponsor is to be commended.

Mr. O.L. Forrester had a birthday last week. His son, Ed and Patricia took him and his wife, Esther, to dinner at Pampa on Saturday night.

Tax Workshop To Be Offered

DON KING

The Texas Agricultural Extension Service is cooperating with the Internal Revenue Service in offering 39 Tax Practitioner Workshops across the state, reports Don King, County Extension Agent. Twenty-five General Workshops will be held in all major Texas cities. The General Workshop nearest our county is in Amarillo on December 16-17. There will also be fourteen Advanced Workshops offered in major cities. The General Tax Workshops will concentrate mostly on personal taxes, the Advanced Workshops' emphasis will be on business tax problems.

In addition to the General and Advanced Tax Workshops, there will be three Partnership Workshops, six Oil & Gas Tax Workshops, and new this year, three workshops dealing with IRS/Taxpayer disputes. Four Estate Planning and Tax Form Preparation Workshops especially developed for accountants will be offered in November.

The Tax Practitioner educational program has been highly successful. Last year about 3,200 people participated in this state-wide series. These practitioners reported filing more than 535,000 tax returns. For additional information, please contact the Wheeler County Extension Office for a brochure explaining more about the program and registration information.

Educational programs conducted by the Texas Agricultural Extension Service serve all people of all ages regardless of socio-economic level, race, color, sex, handicap, religion, or national origin.

CITY OF MOBEETIE Tax Rate

Although the notice of the City of Mobeetie Calculation of Effective Tax Rate for the year 1985 printed in The Wheeler Times last week (Thursday, September 12, 1985) stated the effective tax rate at .7303 for the City of Mobeetie, the members of the City of Mobeetie Council again chose to stay with the tax rate of .65%, the same rate the City has used since 1982.

In accordance with Section 26.04, Property Tax Code, in order that the City of Mobeetie Tax Fund might have the same amount of Revenue in the Maintenance and Operation Fund of 1984, the rate could have been raised to the higher figure.

 in by freshman wideout Bubba Smith. Smith made a great catch of a 29 yard pass at the Irish 4 on first down after Charlie Miller had intercepted a Shamrock pass at the Irish 48. It took Salyer two cracks at the line to get the TD and Carl Knutson kicked good with 2:55 remaining in the half to give the Mustangs a 34-0 lead.
 Just 1:48 remained in the half when the Mustangs got their final TD of the

half. Salyer closed out his scoring and running for the game when he broke loose at left guard on a draw and outran the Irish pursuit for 62 yards. Knutson kicked good again and the Mustangs first offense was through.
 It looked like the Mustangs were going to keep up their high octane offense in the second half as they drove 35 yards for a quick touchdown the first time they touched the ball in the second half. Augie Hennard capped the drive when he sneaked over from four yards out. Rodney Bond closed out the scoring as he kicked good after Hennard's TD.
 Cody Wiggins and David Jones had touchdowns wiped out by penalties in the last half. Wiggins swept left end from 21 yards for an apparent score but an official detected clipping on the play. Jones intercepted an Irish pass in the fourth quarter on the Shamrock 12 and went over standing up but this was cancelled by an illegal block penalty. **Game Statistics Below**

MUSTANG MANIA

BY ANGELA PRESLEY
 To some it brought excitement, to others, disappointment. Coming to an end of our third week in the 1985-86 school year, things have already proven to be a success.
 We have a new superintendent, Mr. Doyle Wilson, who has really worked hard to adjust and to make a few adjustments. For sure, it has not been an easy task, but with the help of our administration, he is doing a fine job.
 There have been some new teachers welcomed to our administration. First we have Mr. David Hawkins, who is the new band director. Then we have Mr. Larry Hampton, Jr. High Language Arts Teacher and his wife, Mrs. Suzanne Hampton our Home Economics teacher. Mrs. Novelene Loyd is a new teachers aide. We would like to welcome these teachers to our school and wish for them the best of luck.

Tuesday morning class meetings were held in the High School. In the freshman class, Shane Guest was elected Class President. The rest of the officers are as follows: Billie Johnston, V.P.; Dwight Thomas, SEC./Treas. Student Council representatives are Chad Bentley and Marcy Smith. The class parents are the Gallagers and the Walsers. In the sophomore class, the officers are as follows: class Pres., Grayson Benson; Shane Whiteley, V.P.; and Tom Cook, Sec./Treas. Student Council representatives are David Jones and Mandy Smith. Class parents are the Sabbes and the Coates. In the Junior class, Dana Huckert is President; Bridgett Wallace is V.P.; and Stacy Adams is Sec./Treas. Student Council Rep. are Rosie Gaines and Stephen Meadows. Class parents are the Huckerts and the Millers. Saving the best 'til last, the SENIORS!! Katrina Krug is President; Randall Hugg is V.P. and Angela Presley is Sec./Treas. Student Council representatives are Katie Jackson and Randy Horton. Class parents are the Collins and Bret Moore's parents.

The best of luck through life and may this year be the best.

W.H.S. SPORTS

"By far, it was the weakest team they've ever had," stated Toby Collins, number 35 and Senior running back for the W.H.S. Mustangs. Last Friday night the Mustangs went to Shamrock. There were some bitter feelings on one side, but Wheeler played like the champions they are.
 Richard Smith, linebacker, felt that the team was pretty prepared for the game, but really didn't have much to worry about. "Shamrock's defensive line was a lot to weaker than in the past."

Coach Karcher felt that this was a good chance to give the unexperienced players some experience.

"The team did a tremendous job as a whole, with the line doing an excellent job blocking," stated Dicky Salyer, fullback. He should talk! He ran 115 yds. and made four touchdowns. The final score was 48 to 0.
 The team was proud of the game, but feel that they need to work on play action fakes, passing game, and improve on mental mistakes.

Even though next weeks game doesn't look like it will be a challenge, the team must keep working harder and harder for the tougher teams in District.

Good Luck Guys! We're behind ya Rootin' for ya!
