CONGRATULATIONS to Mobeetie's one-act play cast. The district competition was Friday in Follett. The next step will be Area competition in Amarillo on Saturday, April 4.

Do you have all the pecans you need, or did you fail to buy them when they were for sale earlier by the Wheeler FHA girls? Judy Woollard asked me to inform my readers that they have two cases for sale. If you would like to buy a bag, several bags or the whole lot, contact Mrs. Woollard at the school.

-cwe-

Isn't spring wonderful; it officially arrived Saturday, followed on Sunday evening by storm watch and on Monday with a blizzard.

-cwe-

Is this the end of the snows? According to my count we have one remaining. Some reported snow on the 18, but I didn't agree. Another 'saying', "If the snow remains on the ground for two days, it will snow again

before it's all gone"; if this is true, it's

hardly possible for Mobeetie's snow to all disappear by Wednesday.

-cwe-

A tip of the hat, a bouquet of roses and whatever else are deserved to Marshall Andis, Bill Riggins and anyone else responsible for getting the electricity back on. We were so much more fortunate than our neighbors, Allison, Briscoe and Mobeetie. We were without power for only 3 1/2 hours.

-cwe-

We waited around Monday afternoon for the power to come back on and finally gave up and went home a little after 4. Power was restored around 4:30 and I returned to finish some sale bills. The copy had been set on Sis (the computer), but corrections were to be made and the copy had to be fed through Junior. When the power returned, it did not stay on; we were without power for short periods for approximately 24 times after the main outage. Those of you who use computers know that all can be lost when power goes off. I had most of the

corrections made but had not filed them the first time the power failed. I learned with each loss; I filed the corrections a number of times and with that done, the next challenge was to feed the copy through Junior—have the copy printed on paper from the computer. The first list of auction items was in four strips and the second was in two.

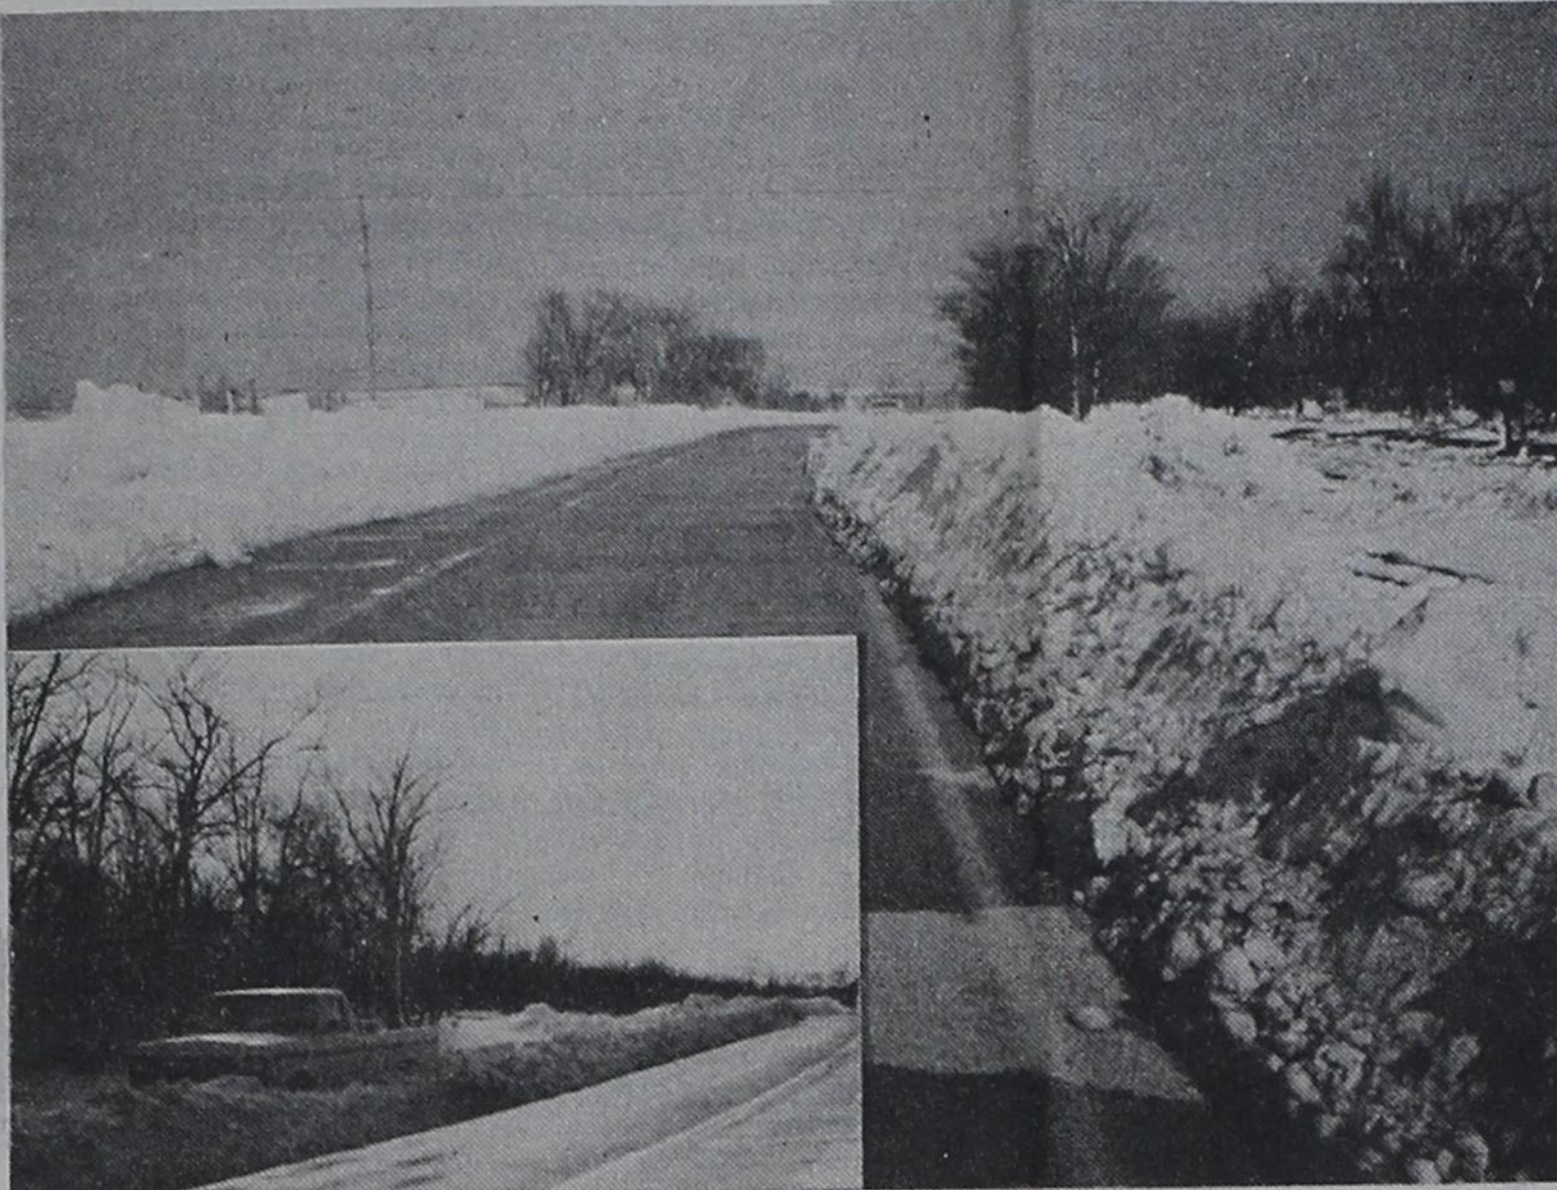

-cwe-

Cecil Hess' calculator was on during the power failures and power was returned to the machine 24 times. Each time the electricity came on, the machine cleared and printed a zero total. I had noticed the machine at the office clearing and turned it off on the 19th time.

THE SNOW: This picture was taken at the curve east of Mobeetie. This is where the problems on Highway 152 began for motorists Monday. The conditions got worse the further west one tried to travel. The inset shows one vehicle still stranded in the snow. (Shown in the center of the large picture.) In traveling west from Wheeler, the change in the amount of snow received changes just past Beef Cattle Co. Traces of snow are almost gone in Wheeler.

Briscoe Post Office Open House Sunday

Open House and Appreciation Day for the Postal facility at Briscoe, Texas will be held on Sunday afternoon, March 29, 1987.

SPRING SNOW

ROADS BLOCKED, ELECTRICITY OFF

Winter returned to the Wheeler area on the second day after the official arrival of spring. High winds and snow did not affect driving conditions in the immediate Wheeler area, but five miles to the north or 3.5 miles west was another world.

Wheeler received 0.65 inches of moisture from rain during the night Sunday and snow began falling in Wheeler around 9 a.m.; 0.16 inches of additional moisture was produced. Very little of the snow stayed on the ground in Wheeler.

The picture and driving condition changed as one rounded the last curve on Highway 152 going into Mobeetie. Mobeetie received 12 to 15 inches of blowing snow, according to Paul Hathaway. This produced drifts between 5 and 6 feet and caused the closing of the road west out of Wheeler from 9:00 P.M. Monday until 1:00 P.M. Tuesday. The conditions worsened the further west.

Georgia Tipps reported about a foot of snow between Briscoe and Allison. Travel is possible with 4-wheel

Travel north out of Wheeler was also stopped at 9 on Monday evening, with traffic unable to go any further than Holland Hill, approximately 20

Care Center Comments

If I'm not mistaken, last week I said Spring had Sprung, this week we had a snow storm. Gosh it's nice to live in Wheeler!

We have had a good week in the nursing home this week. We have 79 residents. Walter Skaggs is back from the hospital. We have three in the hospital. They are Myrtle Lisle, Willie Richardson, and Margaret Goodwin.

We had two winners this week playing darts, they were Tera Weehunt, and myself. Tera got a free coke, but not me, does that seem fair?

Ed Smith, one of our newest residents is 100 years old. He came by the office to visit with Mr. Hyatt and reported he was feeling so well, we might have to hobble him.

Betty Umstead donated trading stamps to the activity department for radios. Thanks Betty.

her Afghan Monday. We thought about taking it away from her, but was afraid she'd call Jimmy.

Icyl went to Amarillo with Sue, and Yreva Thursday. Icyl had a wonderful time, I wonder what time ROCKY got home?

Bud Williams has started getting the ladies coats for them. If we could just train him to scrape the ice from our car windows, he'd be a pretty decent fellow.

Thelma Green, Doris Mizell, Norma Janes, and myself went to Pampa this week. We all had a good time.

This is a nice place to work. We had electricity when the rest of the town didn't. We have an emergency generator that provides us with needed power.

We had two new residents Monday night. They were Bonnie Immel, one of our L.V.N.'s and Jessie Bailey our Director of Nurses. Jessie said Icyl sure did snore.

The Sheriff's office called and borrowed blankets from us. They had people spending the night in the local churches. It's nice to share with others, because they share with us so often.

A special thank you to Ruth

Edwards. She came and worked late to get all the laundry caught up.

We would like to say thanks to the kitchen staff, except for serving on paper plates, everything went as normal when we were short on power. We have a special group of employees.

Ann Ellison was here Thursday to pop corn. She is also nice enough to give a few manicures while she is here.

Bobby and Anthony Cornell donated wood hearts, ducks and tulips for the residents to paint.

I know I will miss some of the visitors that came to the nursing home this week, but a few that I saw were: Sue Stiles to visit Icyl, Jimmy Adams to see his mother Roberta, Mary Ragsdale to see her husband, Rags; Bonnie Dodson to visit her husband Hester; Cornelia was here to visit her parents Martha and Howard Leake; Jane came to see Lola every day; Marie Gudgel came to visit Eugene; David Britt was here to see Mary Bledsoe; Thelma Gierhart's sister was here over the weekend; Elgie Welch is loved by many, he had a lot of visitors this week.

Come see us!

Everyone always enjoys Johnnie Reed's band when they play for us. My parents Louie and Vern Abernethy came to listen to them last Wednesday night. It seems Mary Ramos and my Daddy, who is 77 years old danced. Mary, you are paid to work not dance, but if you had permission from the boss I guess it's okay.

We have several volunteers that come to mend clothes for the residents. Mrs. Ora Lee Underwood was here to help this week. We appreciate each of you. Melanie Reed didn't make it. I believe she has a new baby. I'll bet we can find her a babysitter, when she is ready to come back.

Thanks to Ora Lee Underwood for the things she donated this week.

Mildred Porter came faithfully each Thursday for her bible study class. Mr. and Mrs. Steve Venable from the Mobeetie Methodist Church came Tuesday morning for their devotional. The residents enjoy both of these days.

Several of the Briscoe ladies gave the residents some more bibs. They were Katie Finsterwald, Evelyn Meek Irene Zybach, Effie Renfro, and Essie Finsterwald. Thanks to each of you.

We had an unexpected visit from a couple of kids Friday. Jane Horn brought two baby goats into the nursing home for the residents to see. The residents thought this was quite a treat.

Eloise Kenady donated some hard back books to the residents. I'm sure Toy Cox will enjoy these.

Gertie Cornell had a lot of visitors this week. They were Bob and Lou Cornell, Peggy Chandler, Jennie Walker, Anthony Cornell, David and Winnie Gilmer and Dewayne Lane.

Remember the residents have a new phone. The telephone number is 826-3277.

Bambi is getting things together to sell at the Flea Market. The money made will go to the activity fund to buy craft items that will be for sale are made by the residents. We have some talented people. Don't forget to come by our booth April 4th, at the Wheeler Show Barn.

Mr. Barham comes everyday to visit his wife Grace. He always stops by the office for a short visit, with a butterscotch candy in his pocket for me. I hope he doesn't forget where he bought them. I'd hate for him to stop a good thing.

What's Up Doc?

Cholesterol Level

Question: Doctor, my blood was tested several years ago, and I think my cholesterol level was high. Should I be concerned, and is there anything that can be done about this?

Answer: A high cholesterol level is a definite risk for heart disease and strokes. If you are unsure that your cholesterol level is normal, you should have it checked periodically.

There are several things that can be done to lower your cholesterol level. There is good evidence that lowering an increased level will indeed help to prevent heart disease and strokes. The first and very important step is to eat a diet low in cholesterol. There are also some medicines available that can significantly lower your level. If you are an adult, and don't know that your cholesterol level is acceptable, consult your physician.

The Super Guard Light protects you all night for pennies a day.

The high pressure sodium light bathes your yard and buildings in a golden glow to protect your property from theft and vandalism. Its 150-foot diameter of light discourages trespassers. The Super Guard Light comes on automatically at dusk and turns itself off at dawn. So you only pay for its protection when you need it.

No installation or maintenance costs.

You pay only the very reasonable rental fee that appears on your light bill. SPS takes care of the installation, the maintenance and furnishes the electricity. Get the protection of a Super Guard Light. Contact your SPS office or ask any SPS employee.

Waterfield Files Grain Elevator Legislation

Representative Dick Waterfield, R-Canadian, has filed three bills, HB 1721, HB 1722 and HB 1723, dealing with easing the bonding requirements for grain elevator operators.

The legislation is the result of two months of investigation by a task force composed of men in the grain business. Waterfield said that because the legislation was put together by business, it addresses their concerns, not those of the government.

"HB 1722 would make bonding of public grain elevators more affordable by reducing the rate per bushel," Waterfield said. "The rate was reduced from 20 cents to seven cents for the first million bushels of storage capacity, from 15 cents to five cents for all bushels above two million."

"The bill would also allow the operator to deposit with the Department of Agriculture cash, a letter of credit, certificate of deposit or securities in lieu of a bond for the same amount as required for the bond."

"This makes it substantially easier for the warehousemen who are finding it difficult to obtain a bond, to do so."

The other bills, HB 1721 and HB 1723, relate to the regulation of public grain warehouses. It would allow a warehouseman to transfer to the state treasurer the balance of the proceeds of the sale of grain which is abandoned or unclaimed prior to the sale of a

warehouse.

"This section lifts the burden of holding the balance of the sale from the warehousemen, and places it with the state," Waterfield said. "Also, the purchaser of the grain would not be liable for any claim made by the holder of the receipt for the grain."

All three bills were referred to the Committee on Agriculture and Livestock, where they will be set for public hearing.

"We have the support of the industry, as well as the Department of Agriculture, so I am not anticipating any problems," Waterfield said. "Should the bills move right out of the House and Senate, and receive the

Here & There

By Laura Guthrie

There's just not a more weighty subject than the weather. Every body knows we are having it. But when you get a first hand account of the experience of friends, you just have to repeat it.

Monday morning Elva Wood and Mary Mitchell set out to make a run to Amarillo on an errand for W.D., Mary's husband. Less than 30 minutes later they were shocked by meeting an avalanche of snow.

Suddenly they could not see the road. Reaching Pampa they turned around at the Y this side of Pampa they crept along by charting the posts by the roadside. Elva opened her window, getting wet and cold, but by guiding Mary as they passed a post, they got to the Tajos Feed Company. They were received there by warm hospitality. Others came, too, because they couldn't go any further. The National Guard was out helping people. Finally a guy with a station wagon got 8 people into Pampa. Elva and Mary were in the group. They were unloaded at a motel and the manager welcomed them, but informed them there was no TV and asked them not to take a bath. "Use as little water as possible," he said.

Thank goodness, the telephones worked. W.D. got to Pampa the next

support of the governor, they will be effective immediately. This will allow the operators to realize the benefits right away."

day in the pickup and managed to get the women and the car back to Wheeler. One way traffic was easy, but it had to be, at times. Elva told of an army tank getting around and picking up thirty five people. It wasn't a pleasant experience, but the women are grateful for kind people, shelter, blankets and food.

Others stranded in Pampa were Rosemary Vise and Danny Dorman. I haven't heard their stories.

People in Wheeler also opened their hands and hearts. I hear some people had refuge in our churches. I'm sure the Editor will give credit where credit is due.

All this reminds me of the blizzard we had exactly 40 years ago. We lost two of ourizens when they froze to death in a stranded car.

It's a marvel that Wheeler missed the real storm. Canadian and Mobeetie had their problems. In Canadian my precious granddaughter was stranded in her apartment alone - no heat or light. Her husband was out on the job and didn't get in until nearly midnight. She said she was really scared when she saw the police rescuing some of the complex tenants. She felt more alone than ever.

I spent the week end in the hospital, but got home before most of the snow came. The grandchildren were here but I had only hospital visits with them. Beverly Guthrie and small son Bobby, Jr. came from Amarillo. Joe and Rhonda Guthrie were here. He came up from Ft. Bliss to get Rhonda and the car. They got away Monday morning driving south ahead of the storm. Tim and Melinda were here Saturday, which was a lovely day. The whole family helped in picking up limbs, mowing the 'weeds', and cleaning up in general. All this going on while I was sleeping away the day in hospital bed.

I was very pleased last week when I read the account of the Chamber of Commerce Banquet. I think I (sic) could not have made better choices for the Honorees. Seems to me the selections went a bit deeper into the community and brought out people that here to might have been overlooked. Congratulations to all of you.

Meet the Candidate . . .

The Wheeler Times issued an invitation to individuals running for office to bring us an article for publication, listing their reasons for seeking office. Only one has been received.

Mark Frankenbery brought in the following article:

"I, Mark Frankenbery wish to take this opportunity to announce my candidacy for City Councilman Place 5. I have been a resident of the city of Wheeler for 21 years. I am 32 years of age. As a resident of Wheeler I have seen many changes in our community, and though not in full agreement with all of them, most have in my opinion made Wheeler a great small city to live in. I know of no other city I would rather live in despite of our hardships through the years. I have served one full term on the City Council and have tried to keep an open mind on each issue that has been brought to our attention." Continuing, Frankenbery stated, "I would like to see some more improvements and changes made to help the taxpayers of the City of Wheeler, and would like to be a part

of the governing body of the City as we face the future issues. Most important VOTE!!!!"

On March 12, USA Girl Scouts kicked off their yearlong 75th anniversary celebration with a worldwide event called the Promise Circle. Girl Scout National President Betty F. Pilsbury began the circle in Washington, D.C., at 2:30 p.m. by leading Girl Scouts and friends in reciting the Girl Scout Promise. Girl Scouts nationwide, plus those residing overseas, repeated the Promise at 4:00 p.m. in their respective time zones. The recitation moved around the globe, finally closing the circle and symbolizing the unity of Girl Scouts everywhere.

Local Girl Scouts Observe Anni.

Traditions develop when customs are passed down from generation to generation. To become firmly established as a tradition, a practice must have universal appeal, be consistent and be meaningful to a wide variety of people. Girl Scouting is just that kind of tradition.

In 1912, when Juliette Gordon Low began the first Girl Scout troop in Savannah, Georgia, she started a tradition unparalleled in the history of American women. She initiated an informal education program of girls working in partnerships with adults—today called mentoring—that would cross all cultural groups within the United States. This tradition has grown and endured for 75 years and has influenced the lives of 52 million girls and adults.

Girl Scout Week, March 8-14, marks Girl Scouting's 75th anniversary. Today's three million Girl Scouts have a rich tradition to celebrate. As members of the largest voluntary organization for girls in the world, Girl Scouts are an important asset to our community and to the future. The

contributions they have made have ranged from shopping for the elderly to being the eyes for a visually impaired person. They have practiced values that are the essence of good citizenship.

Girl Scouts are committed to being of service now and in the future. In a society that often gets caught up in big success stories and the latest trends, it's nice to know that the smaller achievements—like offering baby-sitting service while parents are at the voting polls, or cleaning up the city park—are recognized. Girl Scouts realize that no matter how automated our society may become, small personal services are needed by people everywhere.

Girl Scouts have set a challenge for us to follow. Their example of service and concern for others is unmatched. They have shared themselves and their skills with our community in the hope of creating a better future for all. Thank you, Girl Scouts. You have established yourselves as strong role models of good citizenship. Happy 75th anniversary!
