### Worldwide Research

As a result of worldwide research funded by the Muscular Dystrophy Association, decided progress is being made in the effort to find the causes of and cures for the 40 neuromuscular diseases with which the Association is concerned. MDA-sponsored research—under continual review by the Association's Scientific and Medical Advisory Committees—includes both basic and clinical studies and encompasses two parallel programs.

The Association supports ten university-based research/clinical centers, where investigators representing different areas of scientific expertise conduct interdisciplinary "team assaults" on the complex problems of neuromuscular disease. MDA also funds individual research projects, now numbering over 750, at universities, hospitals, medical schools, and independent research laboratories in the U.S. and abroad.

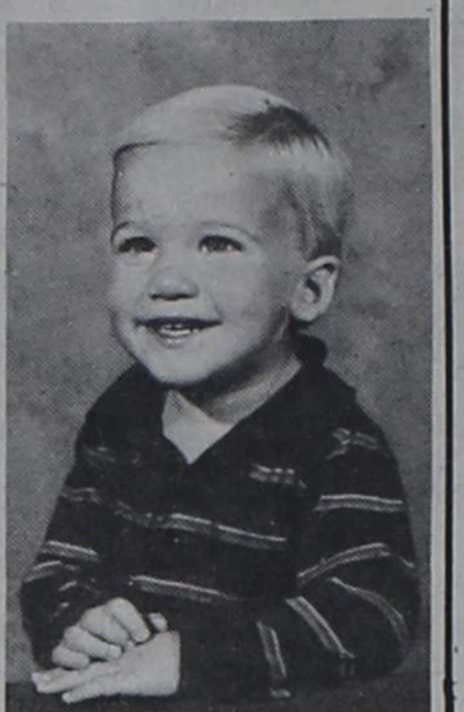

MDA-supported scientists are conducting research into all forms of muscular dystrophy; the spinal muscular atrophies, including amyotrophic lateral sclerosis (ALS); polymyositis and other inflammatory myopathies; metabolic diseases of muscle, Friedreich's ataxia and other diseases of peripheral nerve; myopathies due to endocrine abnormalities; myasthenia gravis; and malignant hyperthermia, an often fatal muscle disease triggered by anesthesia.

Joe Woodward visited a friend in Woodward, Sunday.

Butch and Jada Murray and Carla and Shellie have moved into Briscoe from the Cliff Walker place and live in a white house on the corner across from the fire station. Butch and Ronnie Watson have been working on installing new gas lines in Perryton but were home for the weekend.

Waiting Jeremy Reames at Boys' Ranch Saturday to celebrate his upcoming birthday were Sue Reames, Sue Ratliff and Melody, Mandy, and

Keith; David and Joann Witcher and Brewer of Dallas; and Sheila Light and Dustin, Daniel and James; Shawn and Tina Reames of Pampa and Marjorie Trask.

J.P. and Martha Meek and

Shawn ate supper Saturday night with Mack Sides' family at Twitty.

David and JoAnn Witcher and Brewer visited Sue Reames Saturday night.

Mrs. Ray Currie and girls of Pampa and Birdella Roberts spent Saturday night with the Willis Fillingim's. Other Sunday dinner guests were Dan and Chris Fillingim and Dallas

and Lindsey; Andy Maslic and Theresa Burns, and Joe and Sherry Wagoner and Shawna. Gaye Hale and children visited after church Sunday night. Really enjoyed seeing everyone.

Lovell and Norma Jean Watson and Carol, Sam, Scotty, Tim, April and Jodie went to Missouri to visit Thursday night.

Nice to see B.F. and Margie Meadows back after a winter down south.

Happy Birthday to Phoebe Hartline April 29th; Brenda Hefley May 3rd; Ben Meadows May 4th; Jeremy Reames May 5th. Happy Anniversary to Melvin and Cathy Hunt on May 3rd. God bless you everyone!

Sunday dinner guests in the Grant Meek home were Raymond and Isabel Moore and Garland, and Rachel Moore and Matt, Julie, and Teresa.

Cecil and Marsha Reynolds and children were visitors in Marsha's dad's home west of Mobeetie Sunday after church.

So good to have Roy and Lois Meadows back after an extended trip of over 2 weeks to visit Rick and Lucy Lucas and Charissa and Russell at Westport, Kentucky, and Larry and Pam Meadows and Sarah, Brandon, and Gordon of Springfield, Va.

We were pleasantly surprised to have an Easter card with belated anniversary wishes from G.C. and Tince (Harriet Alice Meadows) Stoneman of 507 Wolfskill Street, San Fernando, Calif. 91340. Think I attended school at Briscoe some with Tince and we both taught at Briscoe in the early 40's. She is B.F. Meadow's sister. Sounded like their place is beautiful with all kinds of flowers blooming and trees with small fruit or blooms. Said they would be married 40 years August 21.

Just a reminder that 1985 will be Briscoe School reunion. Let's make it the best one yet. Need everyone's address. Think Lois Meadows agreed to help me host a get-together for classes of 1938-39 on Friday night before the reunion. Hope to have all living members present and anyone else interested. Maybe others could plan for other class reunions. Anyone like to send me their address to Route #1, Canadian, Texas, 79014.

Sue Ratliff went to Amarillo Wednesday and brought Brewer Witcher, a nephew from Dallas, back to spend a few days with Ratliff's and Sue Reames.

Spending Thursday night til Saturday morning with us were Christian, Cassidy and Cuyler Stinnett. Other Thursday night visitors were Leesa and Rheann Watson, Keith Ratliff and Brewer Witcher. Jennet Carter spent Friday night. Ronnie Watson and Bob Ratliff visited Saturday morning.

Debbie Brown and Chelsea, Corynn and Tyrell of Lipscomb spent Saturday with her uncle Lee and Esther Brown and Justin. All except Lee visited Willis and Verna Fillingim in the afternoon. A delightful little family.

Winnie Gilmer will be in charge of First Sunday night Sing at Gageby May 6th. Come and sing with us!

Olaf and Wanda Sivage of Midland were here for the weekend. Nice to have them and Mrs. Audie Sivage out to church. Gaye Hale and children ate lunch with them all at the farm. Think Olaf plans to retire soon.

Thanks to Ray and Pat Hudson and Karen Hefley and Alicia for the very beautiful floral arrangement at church; the Laverly's for the lilies and Evelyn for the tulips and other flowers. Evelyn blesses us so often all spring and summer and fall with her beautiful arrangements of real flowers she has grown. A real ministry.

Good to have all but one of Ray and Pat Hudson's children out to church. Don't get to see Sonya Paul of Amarillo often and Cindy and Rodney Sweet of Borger.

Joe Woodward took a group of junior high and high school students to Oklahoma City Friday. They toured the zoo and the Omniplex Museum of Scientific Technology. At El Reno, Gene Ferguson's father took them on a tour of the U.S.D.A.—O.S.U. Agricultural Research Facility, where he works. They especially enjoyed the planetarium show in the omnplex. Those making the trip on the bus were Shane Goad, Ben Meadows, Frank and Lisa Hickman, Tina Lehman, Jill Brown, Donna De-

bose, Mikel Shepler, Cheryl Hudson, Keith Bell, Christina Ogle, Michelle and Tammy Heffington, Shawn Everett,

Rusty Ferguson, Leslie Meadows, Julie Gilmer, Tina Watson, Tonya Lehman, Kristi Dawn Hefley, Kim Russell,

Mitch Reynolds, Lee Ann Shepler, Darren Hefley, Al and Sue Lehman, Marsha Reynolds, Dale and Debbie Stinnett.

Wayne and Tola Faye Meek and Keith and Kevin and Jona Meek of Goodwell, Okla., visited Tola's.

Cecil and Marsha Reynolds and children visited the Lee Brown's Tuesday night and planted garden. Then the Brown's went over and helped with the Reynolds antenna.

A group met Wednesday to plan Briscoe Community Vacation Bible School. Think Pat Hudson and Diann Rose are in charge. Has been set to be May 28-June 1st at the school building. Everyone of all denominations is invited to come and participate.

Tom and Alice Bell went to

Amarillo Saturday to visit Bill and family. Got to see grandson Jeff and Brandi from San Angelo; Kim and Rick Rawleigh, Cindy and Jay Sanridge and Brian and Chris. Had a nice visit and came back Sunday.

Evelyn Meek and Sandra Meek of Canyon spent from Sunday til Friday of last week visiting Debbie Word at San Marcos and touring the area. They saw lots of beautiful blue bonnets, went to San Antonio for historic and scenic places.

Larry and Vickey Nelson and children visited James and Susan Hall and girls at Clarendon Saturday.

Friday supper guests at the Larry Nelson home were Bubbles and Cathy Harrison and Chad and Brad and David and Rita Pearson and Dallas and Lindsey.

David and Phyllis Hefley and Darren and Kristi and Clifford and Pauline Hefley were Sunday dinner guests of Jim and Beth Alvey and Todd and Tina west of Wheeler.

## ! VOTE !

# Lonnie Miller Sheriff WHEELER COUNTY SATURDAY, MAY 5th

WE NEED THIS MAN!

HE CARES!

I'm not a politician, I'm a Law Man, and I'm concerned about this County. We may not want things to change, but look around—things are changing. We need to be on top of things. I'm not talking about giving more tickets for your sticker being out on your car. I'm saying there are seven unsolved murders just across an imaginary line east of us. What keeps this from crossing the State line?

As your Sheriff, I will not depend on my deputies to do my work, and I will not stand in my deputy's way of doing his job. I have the education and experience to work and solve a homicide. If you elect me your Sheriff, I will be prepared and equipped to work any violent crime. I will never close a case; I will never stop working on a case either.

I have a good working relationship with the Sheriff offices throughout the panhandle, western Oklahoma, and our neighboring towns. This communication should be open with respect to the other man's abilities. For this communication solves crimes.

I will work for, and answer to you, the people of Wheeler County. I am asking for your vote, May the 5th.

**Your Friend and Neighbor

**ONE SIZE DOESN'T FIT ALL.**

Why use a big tractor on a job a small tractor can do just as well? And do for less.

Our B Series Kubota tractors range from 12 to 16 hp, have two- or four-wheel drive, and handle a variety of implements. All have a hydraulic 3-point hitch, standard rear PTO, 6 forward and 2 reverse speeds, plus a dependable diesel engine. And one even has hydrostatic transmission.

So if you want to get the job done right, get the right tractor for the job.

# Briscoe News

By Vetola Parker  
[From Last Week]

Wednesday, the 11th—wind is blowing a gale.

Harmon and Daphne Barry came to visit Thursday afternoon, spent 4 nights. Hoyle Helton came Thursday, Friday and Saturday nights. We played some 42.

Thursday morning, an ideal day so far.

I took to bed Friday morning to elevate my leg; had been a long time since I had this pain in my leg. Saturday, a toothache started, so a swollen jaw. So sorry I was not able to gather news Monday.

Tuesday the 17th. Mark Clark died at age of 87. My brother, Hesper Young, served under him in 1943-44. Was under him I guess when he came home in 1945. He was in 91st reconnaissance group. Hesper died in 1947.

Peggy White said she could not continue selling Avon in Briscoe due to her health. She needed an Avon agent for Briscoe.

Joe and Nelda Dukes visited us Sunday afternoon. Leroy Parker spent the weekend with us. Lee Parker also visited Sunday.

500 thousand to two million children are missing each year—how sad.

Alice Kelly took Mattie Jackson to Amarillo airport. she flew to California to visit Tump and Alice Helton at Mahiposa, Calif. She visited three of their children and families in Merced. Mattie visited Birdie Lee (Helton) Wolon in Green Valley, a suburb of Tucson, Arizona, for four days on the way home.

Mattie was gone out there around three weeks. Mattie said Mrs. Broston was in the hospital, and Mae Muse was in Shamrock hospital. She visited Mae Sunday afternoon.

Tomorrow is good Friday. Time to plant your beans, so my grandma said.

Last Sunday at Essie Finslerwald's and the boys, were Nora Hiltbrunner, her son James, and Debra Hiltbrunner and three children.

Essie and boys have been going to a meeting this week in Wheeler. Donovan and Sherri Patterson of Lubbock are supposed to come Easter.

Addie Swift and Mary Jane Dukes went to Shamrock. Wheeler and Mobeetie on business and shopped one day last week.

Addie went to the circus Wednesday night at Wheeler with Cathy Hunt and children. She said there were 7 big elephants and all kinds of animals.

She is going to Shannon this Easter weekend with Mike and Brenda Castle and children.

Harmon and Daphne Barry went home Wednesday morning. Harmon did not get to fish but one day, it was so windy cold.

Friday afternoon, Joe Dukes and a minister, David Minson, from Arkansas, visited us. David is holding a weekend gospel meeting this weekend in Allison at the Church of Christ.

## Don't Waste Electricity

Southwestern Public Service Company (SPS) is redoubling efforts to help customers prevent waste of electrical energy.

The SPS program supports the "State of Texas Residential Energy-Cost-Control Program" announced by Texas Governor Mark White last week in Lubbock. Goal of the program is to help Texans control residential utility costs.

State of Texas and local government agencies, energy suppliers such as SPS, and community organizations are joining the statewide, voluntary, cooperative program. Staff members of the Governor's office and of the Public Utility Commission of Texas (PUCT) are coordinating the effort. The PUCT regulates electric utilities in Texas.

"The most effective way to control costs of energy in a home," said Gary Gibson, SPS Vice President, marketing and administration, "is to avoid waste of energy. We at Southwestern Public Service Company have always encouraged our customers to use all of the electricity they need—but not to waste it."

"We're hoping that the new Texas Residential Energy-Cost-Control Program will help us spotlight that message."

Gibson noted that the State of Texas will promote the program. Texas Governor Mark White will be featured in the promotional effort.

As a complement to the state's advertising, Gibson said, "SPS is developing special public service announcements that will offer tips on using electrical energy wisely, and on avoiding waste of energy."

"We're also offering various programs on energy-cost-control. The presentations will be available to civic groups, schools, senior citizens, church groups, etcetera. For instance, the SPS speakers' bureau has prepared a new program on conservation. Its theme, 'Wrapping Up Your Home', emphasizes proven methods of saving energy."

SPS home economists and marketing representatives also will present informational programs on preventing waste of energy, Gibson said.

Customers who see the SPS presentations will be given 'energy-cost-control packets' containing 'draft stoppers' that fit behind electric outlet covers and prevent air infiltration. The conservation 'starter kits' also will contain shower-water 'flow restrictors' Gibson said.

## MUSCULAR DYSTROPHY

Since its founding in 1950, the Muscular Dystrophy Association has become one of the nation's largest voluntary health agencies. Its purpose—the conquest of 40 neuromuscular diseases which kill or cripple thousands of children and adults. MDA is waging an all-out war against muscle disease through an unparalleled worldwide research effort a nationwide program of free medical services, and far-reaching professional and public education.

On the research front, MDA-supported scientists pursue an unremitting search for the causes of and cures for neuromuscular diseases at the Association's ten university-based research/clinical centers and through individual research projects, now numbering over 750. Plasmapheresis, an experimental procedure involving blood plasma exchange, is one result of these efforts. This new treatment has brought about what appear to be remarkable recoveries in patients with severe myasthenia gravis.

While scientists push forward the search for answers, MDA furnishes free medical services to children and adults with neuromuscular diseases. Free diagnosis and follow-up care are offered at over 230 MDA clinics across the country. Through its chapters, MDA supplies patients with wheelchairs, braces, lifts, and other orthopedic appliances, without charge, and conducts over 127 summer and winter camp sessions in 40 states and Puerto Rico. At the same time, MDA's educational programs disseminate information about neuromuscular diseases among professionals and the general public.

MDA is able to carry on its fight thanks to the Jerry Lewis Labor Day Telethon and many other fund-raising projects involving every sector of American society. MDA receives no government grants. Volunteers of all ages play key roles in MDA's fund-raising efforts and in the provision of services by the Association.

## What's Happening at W.H.S.?

**By Lyndol Loyd**  
Only four more weeks of school left and thank goodness. It seems as if each week gets just that much longer. Having four days in a row out for an Easter vacation did help out a little though.

## Care Center Comments

**By Laura Guthrie**  
Easter Sunday is past, but there is the look-of-it still in the lobby at the Center. Flower baskets, egg baskets, and pots of blooming lilies are still on tables and counters.  
On Saturday afternoon, the local chapter of the Eastern Star Lodge, brought an Easter party to the residents. They brought lovely refreshments and each was given a favor—a miniature basket which held an egg, decorated with each individual's name. Such a beautiful personalized thing! Everybody concerned appreciated the gesture.  
Mr. and Mrs. Hyatt are on vacation, but capable hands are managing everything.  
Mrs. Christner attended her church in Shamrock Sunday. She had such a good time and saw so many friends. But she was upset on returning to hear that her son Tom had become quite ill that day.  
Lynda and Gary Davis have donated several puzzles for guest entertainment. The staff expressed their appreciation.  
Most everybody that has been in the hospital is out again. However, Mrs. Coates

is still in Amarillo. Ethel Herd takes turns in the hospital and then in the nursing home.  
Mr. Tine Mills is a new resident at the Center. He is the uncle of Bob Wills.  
Another new resident is Lucy Cohorst of Amarillo.

The members of the Wheeler Mustangette Track Team that placed as one of the top two in their events at District traveled to South Plains College at Levelland, Texas, to participate in the girls regional track meet. Unfortunately, none of the girls qualified for the girls state track meet at Austin, but the girls did have a fine showing. The girls that went on the trip were Tina Alvey, Shawna Hampton, Marlo Hartman, Denise Gilbert, Tammy Baker, and Melanie Williams. Shawna, Tammy, and Marlo were also at Levelland to participate in the girls regional tennis meet.  
If you happen to see some of the Wheeler High School students very dressed up this Saturday night, they are not sick; it is just the Junior and Senior Banquet and Prom. Friday afternoon sometime, the cafeteria will hopefully be transformed into about two thousand dollars worth of crepe paper and streamers that will last for about an hour at the most before it is taken down Saturday night at the expense of the Junior Class. Maybe I ought to explain that the two thousand dollars includes the cost of catering and all of the other various expenses of a banquet and prom.  
This coming Saturday will be a very busy day for the boys on the Wheeler Mustang Tract team that qualified for the regional meet. These people will be traveling to Panhandle to participate in a regional qualifiers practice track meet. When that's over, the ones that are juniors and seniors will get to dash home to get ready for their big night at the Junior and Senior Banquet and Prom.  
Mrs. Blanchard's seventh grade boys' speech class is in the process of preparing the play, "Go West, Young

Man". The play is a Western skit with the following characters: Wagon Master—Shane Guest; The Dude—Eric Daugherty, Bart Slate—Bubba Smith, Cookie—Jamie Wilson, Mrs. Monty—Tim Rogers, Side Kick—Jefferey Tompson, Betcha—Daryl Horton, Marshal Rooster Cogpatch—Justin Hughes, and the Narrator—Alan Hensley. They hope to present this play as soon as they are finished making their set which consists of a wagon train. I will try to give some advance notice as to when the play will be presented.  
If you missed out the first time on the various flavored candy canes that the new junior high cheerleaders sold a couple of weeks ago, don't fret because they have ordered another shipment. The candy canes come in thirteen different flavors and sale for twenty five cents apiece.  
Now, maybe you know what's happening at W.H.S.!

**DIET DRINK UPDATE**  
If you watch the labels on low-calorie carbonated beverages, you're sure to see signs of a new artificial sweetener. The Food and Drug Administration approved the use of the sweetener aspartame two years ago, but it has only recently appeared in carbonated beverages.  
Aspartame is a sugar substitute that is 180-200 times sweeter than ordinary table sugar is only one-eighth the calories. For the same amount of sweetness produced by one teaspoon of sugar, aspartame contains only one-tenth of a calorie. A teaspoon of sugar has 18 calories.  
Unlike saccharin, another sugar substitute, aspartame does not have the bitter after-taste, which is a major drawback of previous artificial sweeteners. But aspartame is

about three times more expensive than saccharin.  
If you have avoided low calorie "diet" drinks and foods because you disliked the bitter after-taste, try those now using aspartame. Current brand names for the sweetener include Equal and Nutrasweet. Aspartame cannot serve all sweetening functions and should not be consumed by some individuals. It cannot substitute for sugar when cooking and baking foods because high temperatures cause it to lose sweetness.  
Anyone with Phenylketonuria (PKU) should not use

aspartame, and products containing this sweetener should be labeled with a warning to that effect. Aspartame is composed of two amino acids, phenylalanine and aspartic acid. Phenylketonurics cannot adequately metabolize phenylalanine and accumulate toxic amounts in the body.  
**Women More Nutrition Conscious**  
Women are becoming more nutrition conscious, but not necessarily changing all their eating habits. The third National Trends in Nutrition study conducted by Mark Clements Research, Inc. for "Self" Magazine, shows a growing concern with nutrition among women. A full 98.6 percent of women surveyed described themselves as either "very much interested" or "somewhat interested" in nutrition.  
Compared to previous surveys, women today are buying more fresh vegetables, chicken, whole grain bread and low fat milk. But 57 percent disagreed with the statement "My diet is as nutritious as it should be". Of these nutrition-conscious women, only 24 percent said they always read nutrition and content information on food labels and 56.2 percent admitted to skipping a meal during the past week. Women may be more concerned about nutrition, but don't always act on that concern.  
**Changing Eating Habits**  
Stop smoking—gain weight. Not necessarily, although weight gain often happens and some people think that it is inevitable.  
The popular belief that weight gain is the result of a change in metabolism blinds people to the real cause of the weight gain.  
Pounds added are usually due to increased eating prompted by the desire to continually put something in the mouth.  
If you must eat, it is best to choose low calorie vegetable or fruit snacks and avoid high calorie foods and rich desserts. Taking a brisk walk daily also helps prevent those unwanted extra pounds.  
Educational programs conducted by the Texas Agricultural Extension Service serve people of all ages regardless of socio-economic level, race, color, sex, religion, or national origin.

## State Highway

The State Highway and Public Transportation Commission recently approved rehabilitation highway improvements scheduled for Interstate Highway 40 in Wheeler County, according to Childress District Engineer, Lewis H. White, of the State Department of Highways and Public Transportation.  
The rehabilitation work on IH 40 will consist of concrete pavement repairs, seal coating shoulders, overpass structure repairs and upgrading metal beam guard fence to current standards.  
The commission directed the department to proceed with a two-year interstate program at an estimated cost of \$551,573,000. The program will cover all 24 highway districts with the exceptions of the Lufkin District which has no interstate highways and the Lubbock District where the interstate roadway does not need rehabilitation work.  
The estimated cost of the improvements on IH 40 in Wheeler County is \$1,777,000. White said that the work would be let to contract in the latter part of this year or early in 1985.

## To the Editor The Wheeler Times

Smoking Problem Parkview Hospital  
Wheeler County is among some of the finest people in the world. In case of sickness, death or in need, they are there by the numbers. We have good personnel at the Hospital. The people on the Board of Directors have tried to help this problem. They did get signs, and it did help some, but the smoking did continue. Even after the signs were put up.

People have a right to smoke, but do they have a right to blow tobacco smoke out into the hallways? Where it gets into the lungs of sick people and people who don't smoke, some dying. I know because my wife died there with cancer. She couldn't stand smoke either, and due to my carelessness and others, this problem should have been corrected a long time ago. The sick and dying and the people we love. Please help.

I understand in some places that employees smoking around non-smokers may be fined up to \$500.00 per day. Doctors, administrators, whoever, could be removed. Why are we losing good doctors here?

# Sweetwater News

**By Mrs. Joe Flowers**  
 Almost May and the wind is still blowing. If things don't change, the farmers will be planting cotton with their overcoats on. We are dry. Had a good hail Friday that left a half inch of moisture and wrecked a lot of things.

Beat a good part of the little apricots off, and damaged most of those remaining. We were gone but Mellie Stone said the hail was small and lay in drifts like snow. Flossie Maddoux said it killed her tomatoes in their covers.

Our tomatoes survived but the corn and onions are really the worse for wear. Daddy always said Sweetwater Creek would come down May 8.

Mika White, Alexia's five year old, is spending a few weeks with her grandparents, Mr. and Mrs. A.B. LeGrand, while her mother continues to recover from a severe case of the flu. Completely lost her voice for over 6 weeks.

Alexia's address is Box 874, Seiling, OK. 73663, if her friends would like to drop her a line. While Donna and Alexia visited a doctor in Enid, they dropped by to see the Tom LeGrand family. Coming home they visited Vonie Reed at Arnett.

Think our snowbirds are all home from Zapata. Cecil and Gladys Lewis and the Orville Robison's came a couple of weeks ago. Mr. and Mrs. E.E. DeVilbiss were to come the 16th.

See Stafford got another stay of execution because the Supreme Court isn't sure he was adequately defended. I'm not sure whether anyone who kills 9 young people has any right to defense.

Time changes April 29. Spring forward?  
 Mr. and Mrs. Bill Butler, Bell Garden, Ca.; Ruth Jackson and Eunice Brookshire of Erick came last week. First thing they said, was "Where's the snake?" (Now, the pet snake is sort of a standing joke here.)

"Oh", I said, "guess he's on the flower bed", never dreaming there was a snake in a mile. Looked over and there he was! All six foot of him. I felt sort of foolish.

Curvin Coffey of Dallas, Mr. and Mrs. Gary Griffith and babes, J.D. Baker of Beebe, Arkansas, were here this weekend to see Les and Ruby Coffey.

The Kitchen Band went up to Thomas to give 95-year-old

Lela Lakey and the nursing home a party. Instead they had a party. After the program, they were given a reception at the Hospitality Hall in the First National Bank. Had a lovely visit with Mrs. Lakey. She had on her red pants and played with the band.

Janelle Pennington had made a jillion beautiful cookies plus punch and coffee. She and Kent made us feel very welcome. Other special guests were Mr. and Mrs. Carl Luderer, Marie and Vada Maloney of Clinton; Mr. and Mrs. Earl Hill, Annie King and

**Drug Awareness Seminar**  
 The Wheeler County Extension Homemakers Council, the Family-Living Committee and TEHA sponsored a Drug Awareness Seminar, April 3rd in the Wheeler School Auditorium. Only 54 were present and 26 of those were from Allison. Where were the students, parents, and teachers of Wheeler?

Drug prevention is important. Growing numbers of parents are realizing primary prevention works! As role models, parents help establish early attitudes and can develop in their children a resistance to experimentation. As role setters, parents must set limits. We must draw lines, determine curfews, and hours for study, etc. We must be-

To prevent drug abuse among youth, it is necessary to prevent experimentation or "social" drug abuse during adolescence. There are no "soft" drugs, all drugs intoxicate, all can lead to dysfunction, all are high risk substances, including alcohol.

A 1983 Gallup Poll found teenagers view drug abuse as their biggest problem. Drug abuse was top category, unemployment 2nd; third highest was alcohol abuse and 4th was peer pressure.

# ELECT Kathleen Garrison Cross To The Office Of . . . Wheeler County Tax Assessor-Collector

Kathleen Garrison Cross is a candidate for Wheeler County Tax Assessor-Collector. The daughter of Jack and Clare Garrison, Kathleen was born and reared in Wheeler County. She graduated from Wheeler High School and attended West Texas State University.

Kathleen is married to David Cross who has operated a body shop and service station for 20 years. The Crosses have four children. Michelle and Monica are students at West Texas State University, and Roger and Stuart are students at Wheeler High School.

Kathleen started to work at The Wheeler Abstract Company in 1977. Because of the slack in the oil leasing business, she was out of work between January and October this past year, but has been able to work most of the time since October.

Kathleen says, "Because of the uncertainty of the oil business, I decided to run for County Tax Assessor-Collector. Also, due to the high cost of raising and educating a family, I feel I need a full time job. As a native of Wheeler County, I know the people personally, as well as through contacts at the office. My work at the abstract office is a great help in knowing

the land, land descriptions, and transactions affecting ownership in Wheeler County. I love working with the land on paper, and I feel I am qualified to hold the office as tax collector. I intend to be a full-time county employee. I'll do my best, and I would appreciate your support".

# Land Productivity Valuation

MAY BRING YOU TAX RELIEF ON YOUR PROPERTY TAXES

Under the Texas Property Tax Code, farmers and ranchers who qualify may have their agricultural land taxed on the basis of productivity rather than market value. Productivity valuation may lower the 1984 taxes on your agricultural or open-space land.

If you have never received open-space (1-d-1) valuation on your land, or if your land has been receiving agricultural (1-d) valuation, you must make application to the appraisal district office before May 1, 1984, to be entitled to tax relief this year.

If your land received open-space (1-d-1) valuation in 1983, there will be no requirement for you to reapply for 1984 in this appraisal district. Remember, however, that annual applications are required for agricultural (1-d) valuation.

For additional information, contact the appraisal district office at the address shown below.

## Tour To Look At Panhandle Range, Weed Problems

Problems which are increasingly confronting farmers and ranchers of the area—and some ways to combat them—will be examined May 1st during the East Panhandle Range, Grass, Brush and Weed Control Tour, at McLean.

Control of shin oak and goldaster and the latest information on lovegrass and Old World bluestems will be featured during the daylong program, said Don King, Wheeler County Extension Agent.

The program also will include information on brush control and cell grazing

systems, and a free barbecue lunch, the county agent added.

The tour and program is being sponsored by the county extension offices and the Extension Program Building Committees of Collingsworth, Donley, Gray, and Wheeler counties. To assure lunch, reservations must be made by telephoning the Wheeler County Extension Office (806-826-5243), the Gray County Extension Office (806-669-7429) or the Donley County Extension Office (806-874-2141) by noon April 30.

The tour will begin at 9 a.m. at the Jake Hess II ranch, five miles south of McLean on the east side of Hwy. 273. Charles Beers, Elanco Products Company representative from Wheeler, will discuss shin oak control.

At 9:30 a.m., the tour will stop at the Martinez ranch. Ronald Gooch, Donley County Extension agent, will discuss lovegrass management. Tim Fitch, manager of the ranch, will discuss shin oak control and cell grazing systems.

At 10:30 a.m., the tour will stop at the former Boyd Meador place north of the McLean rodeo arena. Here Dr. Pete Jacoby, associate professor with the Texas Agricultural Experiment Station at Vernon, and Joe Van Zandt, Gray County Extension Agent, will discuss goldaster weed control.

At 11 a.m., the group will stop at the Ken Stark farm to learn about Old World bluestems and inspect the Plains variety. Dr. Chet DeWald, research agronomist with the USDA Agricultural Research Service at the Southern Plains Range Research Station, Woodward, Oklahoma, will lead the discussion.

The tour then will move to the Gray County Ag Barn at the southeast edge of McLean where DeWald will explain characteristics and management of Old World bluestems.

At noon, Elanco will provide the lunch. Then Dr. Tommy Welch, range brush and weed control specialist with the Texas Agricultural Extension Service, College Station, will provide the latest information on new chemicals and methods for brush control.

## Letters From The Panhandle

Judy Wolcott

DEAR FOLKS:

Did you have a nice Easter? Ours was lovely; however, we're still finding a strand or two of Easter grass imbedded in the shag carpeting.

The day began with Greg in charge of the egg hunt for Bill and Andy. The guys had colored three dozen eggs Saturday night for this event. You wouldn't believe some of the places that eggs were hidden! I take that back. Having had a big family of your own, I'm sure you can imagine it! When Andy found his basket, he poked around in it for a minute, winked at me, and said, "Seems like I saw this same kind of candy in your room yesterday, Mom!"

The Holy Week services were extra special because our pastor's father is a deacon in the church, and he was here from Dallas to assist Father Stable. It was very moving, seeing them praying and singing together. They were the first father and son, deacon and priest combination in the United States.

Andy borrowed a pen and a note pad from me, and a few minutes later, showed me two drawings. One was of a cross and he had printed, "Jesus is God's Son" next to it. On the next page was a rock and a bright sun, and the words, "Jesus roas agen". I know I'll keep those two little papers forever.

No matter what church they

## Here & There

By Laura Guthrie

Easter weekend gave us beautiful weather—a bit cool for early risers, but sunny and bright. Families left town for visits, and a lot of those who remained at home had family guests.

The N.D. Wares are an example. Twenty-five of them were at the Ware home for Sunday dinner. Don't you know they had a good time? Janice Barr with her husband and three small ones from Stillwater, Oklahoma; Nikki Cooper and husband Doug and three little ones who live at the Britt ranch; Bobby and Denise and three small ones live here; Gary and Tressa and baby made up the immediate family—with the exception of Kent who had business elsewhere. Roberta's sister Patsy and husband and three children from Fargo, Oklahoma, joined them.

Linda Parker's mother and dad spent the weekend with her and Brother Jerry and Jeremy.

Mary Wofford was with her sister Pat and Harold Hardcastle at Vernon.

Mr. and Mrs. Brock of Albuquerque, N.M., spent the weekend with their daughter Susanne Hampton and husband Larry and their children.

Bennie Mae and Gordon Whitener from Lubbock were here with their daughter Nancy and Gary Miller and daughters.

Bryan Forrester of Bridgeport, Texas, spent several days with his grandparents, Mr. and Mrs. O.L. Forrester.

Ed and Patricia Forrester spent the end of last week with their son Curtis in Dallas. As Bob and Laura Underwood were in that vicinity at the same time, Bob did some electric wiring at Curtis' house. Gary Forrester of Austin, didn't make it to Dallas for the weekend, as he, with Jack and Tracy Walker, went to Galveston. Jack lives at Austin. Tracy is in college at Georgetown.

As for me, I had a quiet time and lunch with Adrian and Dorothy Risner. For many years, I've been blessed by being counted as one of the Risner family. It was a delight to have a Sunday visit with them.

Wheeler County will accept bids on new construction for the addition to the Wheeler County jail. Bids will be opened at 2:00 p.m., May 14, 1984, in the Commissioner's Court Room, Wheeler County Court House. Plans and specifications may be obtained from: James Suthers, Architect, Rt. 1, Box 50, Shattuck, Oklahoma 73858. The county reserves the right to accept or reject any or all bids.

attended, everyone's been talking about the pretty dresses, the adorable babies, and the hats, hats, hats, at the Easter services.

Greg was grinning and making faces at a cute babe in church. No, it wasn't a teenager; she was about 18 months old. The little miss had on a pink ruffly, lacey, dress and bonnet, lacey-looking tights, and tiny white sandals with pink rosettes. When her bonnet slipped back a little, there was another pink rosette (glued?) to her almost bald head! Anyway, she liked Greg and babbled away at him, waving her arms and kicking her legs.

I no longer see the deer on my way to work, but every morning now, I see wild turkeys. They wander aimlessly through the fields, and the early morning sun shines on their glossy, black feathers.

A rooster from some nearby farm gives us our wake-up call, and there's the blending of songs from so many birds, I can't identify them all.

A hawk swooped down to the road in front of me yesterday. Then, clutching his

prey, he soared away on those strong wings.

Many trees are blooming, and lush lime-colored grass lines the side of the roads.

Tuesday morning, I stopped out at Goldie's to pick up her news. She lives along Sweetwater Creek, and it is beautiful out there.

They have a lot of cattle. I could see the bigger animals milling around, and the sun shining through the grass disclosed several calves resting on the ground. I drove my way through the cows and parked the car. I hadn't closed the car door all the way and the music from the tape deck wafted out across the pasture. The cows perked up their ears and watched me warily with those big eyes of theirs.

As I came down the porch steps, I saw the most gorgeous tree. It had thick pink blossoms on it, and reminded me of blossomtime in Michigan—the community beauty contests, the floats in the big parade, etc. I went closer to admire it, and unable to resist, broke off a little stem to take to the office with me.

This has to be the most beautiful season in the Panhandle. I wish you could see it now, in all its splendor!

Love,  
J.

been selected through special auditions. New gospel songs as well as familiar praise choruses and traditional hymns will be featured in the concert. This choir has been seen on several nationally televised programs such as the PTL Club, the 700 Club, and 100 Huntley Street.

You can participate or you can just watch, but you will not

leave the concert the same as when you arrived. It is a blessed experience. You'll be glad you came. Plan now to be there for some very fine music. Pastor Ricky Pfeil said, "The people who have come to hear this group in previous concerts have not been disappointed. Make it a point to be among them this year."

#### STORMOR DEALER TRAINING SCHOOL

John C. Vise of Wheeler, Texas, recently completed Stormor's Dealer Training Seminar, in Fremont, Nebraska. The Seminar helps Stormor dealers better assist farmers in their grain handling operations.

Detailed information was presented at this Seminar on Stormor's new "Retrofit", which provides for installation of an EZEEDRY grain drying system into existing bins.

Through his innovation, more farmers will be able to take advantage of grain drying with the energy-efficient EZEEDRY system.

Also, in order to better assist farmers in their grain handling operations, Seminar topics included "grain aeration", "How to plan grain drying and storage systems", "Temperature detection equipment" and "Wide 4' corrugated storage bins".

#### Perot From Page 1

discussion and argument on what should be done about the state of education in Texas today.

But Perot feels all the discussion will be meaningless unless people "at the grassroots level are convinced that learning and academic achievement are fundamental to our children's futures."

"The finest plans, the finest ideas, the finest programs, the finest people, the finest buildings, the finest everything won't produce learning if the parents don't really want it," he said in a recent exclusive interview.

The good news, says Perot, is that local control is still the solution, and all the men and women who sit on the 1,100 school boards in Texas can make a difference.

#### What People Want

"It's important for school boards to look ahead and realize that schools must require a higher level of work by

the child. We have one study that shows the typical high school student in Texas studies one hour a night. That's 15 minutes a subject. That's a joke," Perot said. "No wonder we rank at the bottom in terms of academic achievement. What if we practiced football 15 minutes a day or band and drill team 15 minutes a day? We practice those things 15 to 20 hours a week!"

Why? Because that's what the people want, the Dallas electronics executive said. "It all comes back to the parents. If the parents and the taxpayers of grassroots Texas are convinced we must restructure the public school system and make our schools primarily places for learning, then we can do it," Perot believes.

"Otherwise, we'll continue to elect school boards who believe the schools' primary purpose is to entertain the children and their parents."

In addition to strong grassroots and parental support for change, Perot believes three other goals must be met for a difference to be made.

The first is to have a "great teacher in every classroom". According to Perot, that will take a complete overhaul of teacher training, teacher compensation, teacher evaluation, teacher competency testing, and so on.

The second is "the finest elementary school system the world has ever seen".

"Developing the finest elementary school system where we can teach little children to learn how to learn is an integral part of the package, because if a child doesn't learn how to learn in the elementary grades, all the remedial courses in the world won't help".

The third goal is to recover the school day to learning.

"Sooner or later," Perot said, "we'd better tell the children that learning is not fun. For that matter, learning to be on the drill team is not that much fun. Learning to be in the marching band is not fun, and Lord knows, learning to be on the football team is pain, torture, and agony. But once you are there, you have this great sense of achievement. The possession of knowledge is where the fun starts"

### THE NEXT PRESIDENT

If you are not registered to vote, you should get registered soon. That is a way that you can have a voice in our government. You may say, "Well, I'm only one voice out of millions. What difference could I make?" That's what I used to think, but the last few years I have been letting my voice be heard anyway, and I have discovered that there are a lot of people listening to me. Perhaps many of them think they don't agree with me, but they are listening and I do my very best to give them something to think about since they are listening. You are listening right now—you're reading this, aren't you? You see, we can vote, and we can pray, and we can do something else. We can speak or write to other people. I believe you and I should expose people to issues and stands of politicians in order that folks might know the type of people they are voting into office. Some people are always complaining about the state of the country, and yet they ignorantly keep voting in the very people who keep the country in a mess. Let's pay attention to the issues and the stands and who is influencing government.

At this point, it appears that President Reagan and Walter Mondale will be opposing each other in the national election. It's kinda funny that Gary Hart and Walter Mondale act like they almost hate each other right now, and do a considerable amount of mud-slinging, but at the Democratic Convention they will shake hands and the winner of the nomination will gain the full support of the other as they focus in then on the supposed inadequacy of President Reagan.

The next President will probably have the opportunity of appointing between 3 and 5 Supreme Court Justices because 5 of them are 75 or over. That fact alone means that whoever is elected this fall will more

than likely have a greater impact on determining America's destiny than most Presidents. The system we live under is one in which the Supreme Court has an enormous amount of power. If the Justices have a liberal philosophy of life, our freedoms are threatened and unbelievable things such as the abortion abomination and the expelling of God from schools take place. If they are conservative and Bible-believing in their philosophy, the traditions of our founding fathers are preserved such as religious freedom and the free enterprise system.

What kind of Justices would Ronald Reagan or Walter Mondale choose? Consider that President Reagan (1) believes the Bible, (2) has recently written a book against abortion, (3) introduced an amendment to allow vocal prayer back in the schools like it was for about 185 years from the time the Constitution was written, (4) opposed ERA which would have granted special privileges to homosexuals and would have taken away special protections women have (such as exemption from the battlefield), and (5) isn't liked by the Russians and other Communists. If our leader is praised by the Communists, I am alarmed.

On the other hand, consider these facts about Walter Mondale: (1) He publicly stated that he is a humanist. His brother is a signer of the Humanist Manifesto. I have a copy of it and can show you where his name appears. Mr. Mondale is proud of his heritage of being raised in a humanist environment. What is a humanist? The Manifesto says they do not believe God will save us, they believe we are a product of evolution, they believe in abortion, in homosexual rights, and a one-world government. Walter says he is one of those. (2) In January of this year, radical feminists including many lesbians (openly unashamed) met in Wisconsin to plan their strategy of defeating President Reagan in November. Pro-lesbian literature from Walter Mondale's camp was displayed on their tales, and (3) In 1970, the Congressional Record shows that in the month of October, 5 of our 100 Senators voted to legalize pornography. One of those 5 was Walter Mondale.

Since my articles frequently are sent to the IRS, let me be clear in stating that you should vote for whomever you want to vote for. It is your privilege to vote for people who don't believe in the power of God or the Bible and who cater to homosexuals and lesbians and who believe in making pornography more widespread, if that is your desire. Make up your own mind about these things. Personally, I will look at the issues and stands and see which seems to line up closer to the Bible.

### FREE BOOKS

I have a new 222-page book entitled, "To Harass Our People", written by U.S. Congressman George Hansen exposing many of the atrocities that have been perpetrated upon the citizens of the United States by the Internal Revenue Service. Much documented material is included in this book including copies of documents that Congressman Hansen obtained in his research. A special chapter on "Assault on Religion" and another section on steps we can take to combat this problem is in the book. You may have a copy free of charge by contacting me.

Also, I have several copies of "I Predict for 1984" by Lester Sumrall that I would like to give away. If you desire either or both books, let me hear from you. There is a limited supply of the Sumrall books.
